Independent Auditor's Report

The Board Members
Massachusetts School Building Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Massachusetts School Building Authority (the MSBA), a component unit of the Commonwealth of Massachusetts, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the MSBA as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 to 8 and the Schedule of Changes in Net Other Post-Employment Benefits Liability (Assets) and Related Ratios, Schedule of Employer Contributions, and the Schedule of Investment Returns on pages 40 to 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2020, on our consideration of the MSBA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the MSBA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the MSBA's internal control over financial reporting and compliance.

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2020

(Unaudited)

This section of the Massachusetts School Building Authority's (the MSBA) annual financial report presents a discussion and analysis of the MSBA's financial performance during the fiscal year ended June 30, 2020. Please read it in conjunction with the MSBA's financial statements, which follow this section.

Background

The MSBA was created by statute in 2004 (the Act) to service the former grant obligations for school building projects approved by the Department of Elementary and Secondary Education (Prior Grant) and to fund a new program (New Program) for grants to cities, towns, and regional school districts for school construction and renovation projects. The MSBA is a component unit of the Commonwealth of Massachusetts (the Commonwealth).

The MSBA's major revenue source is the portion of the Commonwealth's sales tax revenue dedicated to the MSBA (the dedicated sales tax revenue). A one percent (1%) statewide sales tax (drawn from the existing statewide 6.25% sales tax, with some exclusions) is available to the MSBA without further appropriation or allotment. The dedicated sales tax revenue is pledged for payment of debt service. The Commonwealth has covenanted that the dedicated sales tax revenue will not be diverted from the control of the MSBA and has pledged not to reduce the sales tax rate below that prescribed by the Act. The Act states that, under the New Program, no project can be approved for funding unless the MSBA determines that the school project is within the capacity of the MSBA to finance with revenues projected to be available to the MSBA.

In fiscal year 2008, the MSBA began approving grants under the New Program for school construction and renovation projects. Under the New Program, no city, town, or regional school district or independent agricultural and technical school has any entitlement to funds from the MSBA. Grants approved by the MSBA for projects may range from 31% to 80% of approved eligible project costs.

Financial Highlights

- Total liabilities and deferred inflows exceed the total assets and deferred outflows of the authority by \$4.9 billion at June 30, 2020. This net deficit exists as a result of the inherited grant liability and the issuance of debt for funding grants. Over time, sales tax revenue coupled with the extinguishment of the inherited grant liability is expected to eliminate the deficit.
- Total assets increased \$100 million, due to moderate sales tax receipts and strong investment gains.
- Total liabilities decreased \$222 million, primarily due to reduced grants payable liabilities and write-off of bond premiums due to defeasance and refundings. The Authority reduced grants payable overall by \$150 million, mainly by the payment of former programs and increased payments to new program grants. Bond premiums declined by \$70 million due to cash defeasance and the issuance of refunding bonds.
- General revenues increased \$141 million over FY2019 driven by realized gains on investments coupled with moderate sales tax growth and income on investments.
- Total expenses increased \$108 million over FY2019 primarily due to increased grant payments. Projects at the end of the grant cycle are held at 95% payment until the final audit is approved by the Authority's Board of Directors (Board). The MSBA Board approved 39 final audits during FY2020 of which 10 were major construction projects and 29 were smaller accelerated repair projects. Projects at the beginning of the grant cycle have smaller payment requests until such time as the project enters construction. At June 30, 2020, there were 54 projects in the construction phase with total estimated construction costs of \$2.76 billion. At June 30, 2019, there were 52 projects in the construction phase with total estimated construction costs of \$1.84 billion.
- During FY2020, the MSBA made a contribution of \$200 thousand from the special revenue fund to the other post-employment benefits (OPEB) trust fund.

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2020

(Unaudited)

Overview of the Financial Statements

The financial section of this report consists of the following parts: management's discussion and analysis (this section), the basic financial statements, the notes to the financial statements, and required supplementary information.

This report consists of six financial statements presented on three pages. The first two financial statements are the governmental fund balance sheet/statement of net position (deficit) found on page 9. The second two financial statements are the statement of revenues, expenditures, and changes in fund balance/statement of activities found on page 10. The final two financial statements are the statement of fiduciary net position and the statement of changes in fiduciary net position found on page 11. The OPEB trust fund is an irrevocable trust fund established for the purpose of accumulating assets to pay for future OPEB costs. The assets are funded from operations and accumulate to provide future payment of health care and other related OPEB. In FY2020, the MSBA had six retirees for which benefits were incurred; thus, the direct payment of benefits is not material relative to the assets of the trust. See Note 10 for additional information related to OPEB.

Required Supplementary Information (RSI)

In addition to the basic financial statements and accompanying notes, this report also presents certain RSI concerning the Authority's OPEB plan.

Reporting the MSBA's Governmental Funds

The fund financial statements provide detailed information about the MSBA's governmental funds – not the MSBA as a whole. The fund financial statements are prepared using a different approach than the government-wide financial statements discussed on pages 5 and 6. The MSBA's expenditures are reported in its governmental funds and focus on cash inflows and outflows in the funds as well as residual balances left at year-end that are available for current spending. The governmental funds are reported using the current financial resources measurement focus and modified accrual accounting, which measures revenues as they become both measurable and available, and per MSBA policy are those amounts expected to be collected within 60 days of the end of the fiscal year. Expenditures are recorded in the period the liability is due and payable. The governmental fund statements provide a detailed short-term view (less than one year) of the MSBA's government operating requirements as of and for the year ended June 30, 2020.

The MSBA as a Whole

The statement of net position (deficit) and the statement of activities provide information about the activities of the MSBA as a whole using the economic resources measurement focus and accrual basis of accounting, and present a longer-term view of the MSBA's finances by focusing on total available resources and changes therein.

These statements report the MSBA's net position (deficit) and changes to the MSBA's net position (deficit). Annual changes in the MSBA's net position (deficit) – the difference between assets and deferred outflows, and liabilities and deferred inflows – are one way to measure the MSBA's health or financial position. Over time, increases or decreases in the MSBA's net position (deficit) are one indicator of whether its financial health is improving or deteriorating.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2020

(Unaudited)

The MSBA reports a deficit in its net position primarily due to the fact that the MSBA has \$6 billion of dedicated sales tax bonds outstanding for the purposes of funding school construction and renovation projects. The MSBA also assumed responsibility for funding the Commonwealth's share of the 25 remaining Waiting List and 56 remaining Prior Grant school construction and renovation projects. This net deficit of \$4.9 billion will be eliminated primarily through the receipt of dedicated sales tax revenues. The difference between currently expendable resources reported as a fund balance in governmental funds and total available resources reported as net position (deficit) in the governmental activities financial statements is identified in the adjustment columns found in the financial statements (pages 9 and 10). To arrive at the statement of net position (deficit), there are adjustments for deferred inflows and outflows of resources as well as long-term and short-term liabilities that are not reported as fund assets and liabilities. Further, to arrive at the statement of activities, transactions relating to assets and long-term liabilities are added to or eliminated from the statement of revenues, expenditures, and changes in fund balances. Amounts relating to the aforementioned transactions are displayed in the adjustments column to the left of the statement of net position (deficit) and the statement of activities and in note 6 to the basic financial statements.

Financial Analysis

Summary of Net Position (Deficit)

(In thousands)

(A Component Unit of the Commonwealth of Massachusetts)

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2020

(Unaudited)

The Authority's net deficit at June 30, 2020 improved by \$303 million (6%) over the net deficit at June 30, 2019. Significant changes are described below:

- Cash and investments increased \$114 million (8%) year over year, as sales tax receipts, bond proceeds, and investment gains were offset by increased defeasance and refunding activity.
- Receivables decreased by \$13 million (4%). Increases of \$9 million in SMART funds receivable were offset by a reductions of \$14 million in assets held in trust for refunding, \$6 million in loans receivable, and \$4 million in interest receivable.
- Current liabilities decreased \$55 million (11%). The Authority reduced grants payable, bond premium, and accrued interest by \$49 million, \$3 million, and \$2 million, respectively.
- Noncurrent liabilities decreased \$167 million (3%) with reductions in grants payable of \$101 million (58%). Bond premium declined \$67 million (13%) due to write-offs associated with defeasance and refundings.

Summary of Activities

(In thousands)

	<u>2020</u>	<u>2019</u>	<u>Change</u>	<u>%</u>

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Management’s Discussion and Analysis – Required Supplementary Information

June 30, 2020

(Unaudited)

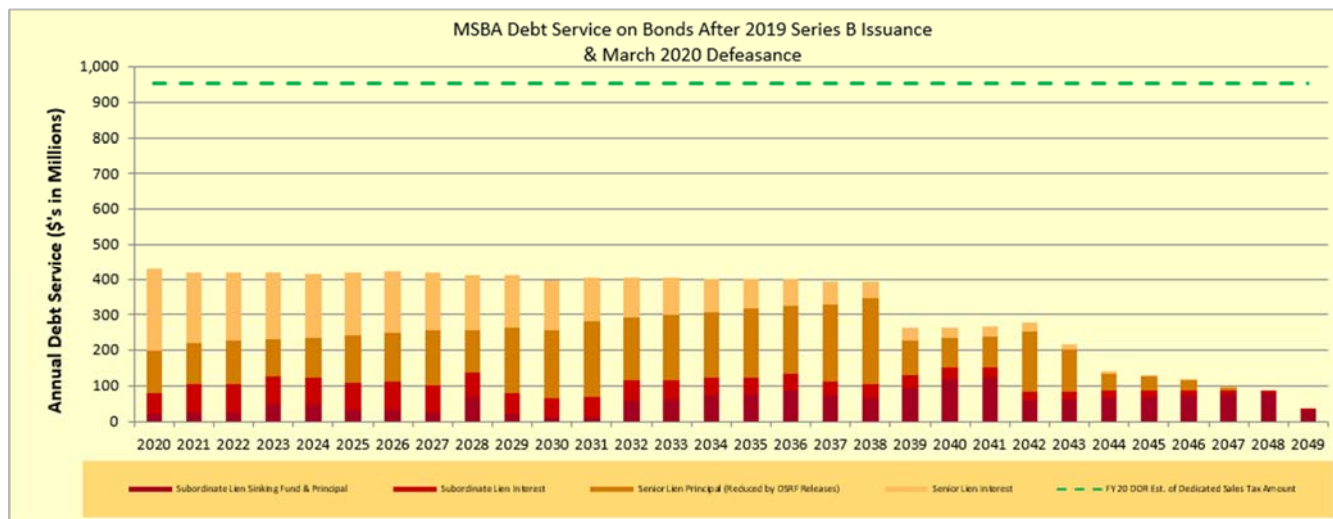

- General revenues increased \$141 million (14%) over FY2019 driven by gains on investments and moderate sales tax growth.
 - Dedicated sales tax revenue increased \$28 million (3%). Year-over-year growth in general sales tax and sales tax on motor vehicles were the key drivers of this increase. The COVID-19 pandemic had greater impact on meals taxes, which the MSBA does not receive.
 - Investment income increased \$30 million (39%), while realized gains on investments held in debt service reserve accounts generated \$81 million.
 - Grant income in the form of Federal subsidies on Build America Bonds and Qualified School Construction Bonds held steady.
- Total expenses increased \$108 million (15%) over FY2019 primarily due to an increase in grant payments.
 - Grant payments increased \$106 million (23%). This increase pertains to New Program grants that submit periodic requests for reimbursement throughout the project life-cycle. Grant payments on Prior Grant and Waiting List projects are recorded as a reduction of the grant payable liability.
 - Operations expenses increased \$2 million (15%) during FY2020. Increased costs in commissioning fees, accrued payroll, and compensated absences are the largest contributors to this variance.
 - Debt service costs, including costs of issuance, decreased \$6 million in FY2020. This was offset by increased accounting losses of \$6 million on defeasance and refunding activity.
 - Pension expense, which is covered by the Commonwealth, increased \$716,000.

Debt

The Act provides the MSBA with the power to issue bonds and notes. The MSBA may issue either general obligation or special obligation bonds. Pursuant to the Act, the aggregate outstanding principal amount of the bonds shall not exceed \$10 billion. To date, the MSBA has issued a total of \$11.2 billion of dedicated sales tax bonds, including \$3.7 billion of refunding bonds, for the purpose of funding school construction and renovation projects.

As of June 30, 2020, the MSBA had \$6 billion of dedicated sales tax bonds outstanding plus approximately \$516 million of unamortized bond premiums. As shown in the chart below, the Authority seeks to manage its debt service requirements to be approximately half of the predicted SMART fund revenue.

See Note 5 for additional information related to outstanding debt.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(1) Organization and Background

Chapter 208 of the Acts of 2004 (Chapter 208, together with Chapter 70B of the Massachusetts General Laws (MGL), Section 35BB of Chapter 10 of the MGL and Chapter 210 of the Acts of 2004, all as most recently amended, (collectively referred to as the Act), eliminated the former school building assistance program (the Former Program) and created the Massachusetts School Building Authority (MSBA) to administer and fund a new program (the New Program) for grants to cities, towns, and regional school districts for school construction and renovation projects.

The MSBA is mandated with achieving the effective planning, management, and financial sustainability of a school building assistance program. The MSBA is an independent public authority not subject to the supervision and control of any other executive office, department, agency, or political subdivision of the Commonwealth of Massachusetts (the Commonwealth). The MSBA is funded by a dedicated portion of the Commonwealth's statewide sales tax revenue (the dedicated sales tax revenue). The Commonwealth has covenanted that the dedicated sales tax revenue will not be diverted from the control of the MSBA and has pledged not to reduce the sales tax rate below that prescribed by the Act. The Act prohibits the MSBA from filing for bankruptcy. The Act provides the MSBA with the power to issue bonds and notes. The MSBA may issue either general obligation or special obligation bonds. Pursuant to the Act, the aggregate outstanding principal amount of the bonds shall not exceed \$10 billion.

Under the former program, the Commonwealth was reimbursing cities, towns, and regional school districts for its share of 728 previously approved projects (Prior Grant projects). In addition, under the former program, 428 school projects were maintained on a waiting list for funding (the Waiting List). Pursuant to the Act, the MSBA became responsible for funding the Commonwealth's share of the 728 Prior Grant projects and 428 Waiting List projects. The Commonwealth's share ranged from 50% to 90% of approved eligible costs. As of June 30, 2020, the MSBA had paid in full its share of 403 of the 428 Waiting List projects and 672 of the 728 Prior Grant projects.

Under the New Program, no city, town, regional school district, or independent agricultural and technical school has any entitlement to funds from the MSBA. Grants approved by the MSBA for projects may range from 31% to 80% of approved eligible project costs. Under the New Program, the MSBA is limited in the amount of grants it can approve within a fiscal year; this limit may change by the lesser of 4.5% of the limit for the prior fiscal year or the percentage change in the dedicated sales tax revenue amount over the prior fiscal year. During FY2020, the Commonwealth enacted the Student Opportunity Act, which reset the FY2020 approval amount for new program grants to \$800 million. The annual growth provisions on the limit remain the same.

Under the Act, the MSBA Board of Directors (Board) shall consist of the Treasurer and Receiver General of the Commonwealth (the Treasurer), the Secretary of Administration and Finance, and the Commissioner of Education, each *ex officio*, or such persons' designees, and four other members appointed by the Treasurer, each of whom shall serve two-year terms and shall be eligible for reappointment. Of the four members appointed by the Treasurer, two are required to have practical experience in educational facilities planning, school building construction, or architecture and school design, and two are required to be persons in the field of education with demonstrated knowledge of the Commonwealth's curriculum frameworks and other relevant federal and state educational standards. The Treasurer serves as the chairperson of the MSBA. The Executive Director of the MSBA serves as Secretary of the MSBA Board, *ex officio*.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(2) Summary of Significant Accounting Policies

(a) Reporting entity and basis of presentation

The accompanying financial statements of the MSBA have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for governments as promulgated by the Governmental Accounting Standards Board (GASB). The MSBA has prepared government-wide financial statements titled “Statement of Net Position (Deficit)” and “Statement of Activities.” The MSBA also prepares the fund financial statements, which are the special revenue fund and debt service fund “Balance Sheet” and “Statement of Revenues, Expenditures and Changes in Fund Balance.” The MSBA’s basic financial statements include both the government-wide and the fund financial statements.

Governmental Fund Financial Statements – The MSBA utilizes the current resources measurement focus and modified accrual basis of accounting in the preparation of the governmental fund financial statements. Revenues and related receivables are recognized when they become both measurable and available. “Available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period, which is 60 days after year end. Expenditures and related liabilities are generally recorded in the period in which the liability is incurred. However, expenditures related to debt service, compensated absences, and grants payable are recorded only to the extent that the liabilities mature (come due for payment).

Operating expenditures are direct costs incurred by the MSBA and are categorized into administrative expenditures, such as payroll related benefits and legal fees, and project related expenditures, such as professional consultants and other related costs.

Other financing sources (uses) primarily relate to the issuance of long-term debt.

The MSBA reports the following funds:

Special revenue fund (major) - This is the MSBA’s primary operating fund. This fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. Funds granted from this fund are utilized by grantees for the construction and improvement of public school facilities. This fund accounts for all financial resources of the MSBA, except those required to be accounted for in another fund.

Debt service fund (major) - This is a sinking fund related to the 2010 Series A Bonds and 2011 Series A Bonds discussed in Note 5. The amounts in the debt service fund will be used to pay the principal of the 2010 Series A Bonds and 2011 Series A Bonds at maturity. Periodically, funds are transferred from the special revenue fund to the debt service fund to meet sinking fund requirements. During FY2020, there was a transfer of \$13.2 million from the special revenue fund to the debt service fund. As of June 30, 2020, the fund balance in the debt service fund totaled \$194.6 million.

Fiduciary fund – During FY2012, the MSBA established the other post-employment benefits (OPEB) trust fund, an irrevocable trust fund established to accumulate assets for the purpose of paying for future OPEB costs. The assets are funded from operations and accumulate to reduce the unfunded actuarial liability of health care and other related OPEB. The OPEB trust fund financial statements utilize the economic resources measurement focus and the accrual basis of accounting.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

Government-wide financial statements – The MSBA utilizes the economic resources measurement focus and the accrual basis of accounting, in the preparation of the government-wide financial statements. Accordingly, changes in long-term assets and liabilities are incorporated into these financial statements. Since the governmental fund financial statements are prepared on a different measurement focus and basis of accounting than the government-wide financial statements, an “adjustments column” is presented to convert the fund basis financial statements into the government-wide financial statements. Details supporting amounts in the adjustments column are presented in Note 6.

Due to its relationship with the Commonwealth, the MSBA is considered a blended component unit for financial statement purposes and is presented as a governmental fund in the Commonwealth’s financial statements. The MSBA has no relationship with other entities that could be considered component units.

(b) Cash and cash equivalents

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with maturities of three months or less when purchased.

(c) Restricted assets

Restricted assets are reported as restricted when limitations on their use change the nature of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation.

MSBA reports restricted assets for debt service funds for regular payment of principal and interest on bonds, as well as an account for payment of federally required arbitrage rebate. MSBA also maintains restricted investments pledged for collateral against debt through debt service reserve funds and subordinated debt sinking funds. Additionally, MSBA reports restricted assets related to OPEB.

(d) Investments

The MSBA has investments in U.S. treasuries, money markets, an external investment pool, and a guaranteed investment contract (GIC). The MSBA created a trust for the administration of OPEB investments which is discussed in Note 10.

The MSBA invests a portion of its funds in the Massachusetts Municipal Depository Trust (MMDT or the Trust), an investment pool for political subdivisions of the Commonwealth designed as a legal means to invest temporarily available cash. The Treasurer serves as a trustee of MMDT, and has sole authority pertaining to rules, regulations, and operations of the Trust.

Investment options the MMDT offers are a cash portfolio which offers participation in a diversified portfolio of high-quality money-market instruments that seeks the highest possible level of current income consistent with preservation of capital and liquidity, and a short-term bond portfolio which offers participation in a diversified portfolio of investment-grade, short-term, fixed-income securities that seeks to generate performance exceeding the Barclays 1-5 Year Government/Credit Bond Index, and offers a fixed-income alternative with a longer time horizon than the cash portfolio. A participant’s holdings in the Trust are not subject to creditors of the Commonwealth, nor will the Trust itself be affected by the financial difficulties of any participant. Amounts held at MMDT are uninsured and uncollateralized. MSBA’s investment balance as of June 30, 2020 at MMDT consisted of \$122.9 million in the cash portfolio and \$84.1 million in the short-term bond portfolio. The cash portfolio is not registered with the Securities and Exchange Commission as an investment company, but maintains a policy to operate in a manner as a qualifying external investment pool as defined by GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

The cash portfolio adheres to GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, which amends Statement No. 31 and establishes accounting and financial reporting standards for state and local governments that participate in a qualifying external investment pool that measures for financial reporting purposes all of its investments at amortized cost. At June 30, 2020 MSBA's deposits with MMDT totaled \$207 million. MMDT has no redemption restrictions. A copy of the financial statements of MMDT can be obtained from the Office of the State Treasurer, 1 Ashburton Place, Boston, MA 02110.

The MSBA has implemented GASB Statement No. 72, *Fair Value Measurement and Application*. This statement requires that certain assets, primarily investments, be recorded at fair value, as well as establishes a three-level hierarchy for fair value measurements based on the nature of inputs used in the valuation of an asset or liability as of the reporting date. The statement excludes certain investments from fair value treatment, including money market accounts and guaranteed investment contracts (GIC) which are valued at amortized cost and contract value respectively (Note 4).

Fluctuations in the fair value of U.S. treasuries and municipal bonds are recorded as investment gain or loss. Investment gain related to fluctuations in value of these investments was \$107.9 million in FY2020. The MSBA intends to hold these investments to maturity.

Realized gains and losses on the sale of investments are recognized at the time an investment is liquidated. In November 2019, the MSBA realized \$2.4 million in gains on the sale of its investments in municipal bonds in conjunction with the refunding of the 2011B Bonds (Note 5). In March 2020, the issuer of the GIC and the MSBA agreed to terminate the GIC. The issuer paid a termination premium of \$78.5 million as a result of the agreement. The MSBA assigned the \$78.5 million gain to the payment of New Program grants and re-invested the principal in a GIC issued by Mass Mutual.

(e) *Accounts receivable*

Accounts receivable are comprised of funds due from the Commonwealth, interest receivable on investments, grants receivable from the U.S. Treasury, and loans receivable from municipal districts.

Funds due from the Commonwealth represent dedicated sales tax that has been reported but not received by the MSBA. The grants receivable are also pledged by the U.S. Treasury as reimbursement for the interest paid on Building America Bonds and Qualified School Construction Bonds. These amounts are considered 100% collectible.

Interest receivable on investments represents the accrued interest on collateral held in debt service reserve funds, mainly U.S. Treasury securities.

Loans and related interest receivable from municipal districts carry a 2% interest rate and make annual payments each November. No allowance for doubtful accounts on outstanding loans was deemed necessary.

(f) *Assets held in trust for refunding escrow*

Assets held in trust for refunding escrow represent securities held in an irrevocable trust by the trustee that do not meet the definition for defeasance under GASB Statement No. 86, *Certain Debt Extinguishment Issues*. These assets and the related interest they generate will be utilized to pay principal and interest on specific bonds under the terms of the trust. The refunded bonds continue to be reported as liabilities on the statement of net position.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(g) Capital assets

Capital assets are defined by the MSBA as classes of assets with an initial aggregate cost of more than \$50,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

Leasehold improvements exceeding \$100,000 are capitalized and amortized over the life of the lease which is ten years. The net book value of capitalized leasehold improvements associated with the MSBA's lease totals \$64,000 as of June 30, 2020.

(h) Compensated absences

Employees earn the right to be compensated during absences for vacation and illness. Vested or accumulated vacation and sick leave expected to be liquidated with expendable available financial resources are reported as expenditures and liabilities. Employees are granted vacation and sick leave in varying amounts based on years of service.

Upon retirement, termination, or death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their then-current rate of pay. At June 30, 2020, approximately \$829 thousand of accrued compensated absences has been recorded in the government-wide financial statements.

(i) Arbitrage rebate

The MSBA has bonds outstanding which are subject to arbitrage limitation. Arbitrage rebate refers to the required payment to the U.S. Treasury when excess earnings are received on tax-exempt bond proceeds that are invested at a higher yield than the yield of the tax-exempt bond issue. The MSBA maintains a restricted account for future arbitrage rebate based on periodic calculations in accordance with regulations promulgated by the U.S. Treasury.

As of June 30, 2020, the liability for arbitrage rebate was calculated at \$1.9 million. The liability is due and payable in five-year intervals during the life of debt issues, with final rebate due no later than 60 days after the retirement of the debt issue. Arbitrage rebate expense is presented as a reduction in investment gain (loss).

(j) Deferred inflows of resources and deferred outflows of resources

Deferred outflow of resources is a consumption of net position that is applicable to a future reporting period. This category is presented below assets on the statement of net position (deficit). Deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period. This category is presented below liabilities in the statement of net position (deficit). For FY2020, the MSBA has reported deferred outflows pertaining to the losses on its debt refunding transactions that will be amortized over the life of the refunding bonds, and has reported deferred inflows pertaining to OPEB as a result of actual and projected investment earnings, actual and expected experience, and changes in assumptions.

(k) Revenue recognition

The MSBA's major revenue source is the portion of the Commonwealth's dedicated sales tax revenue. Pursuant to the Act, all monies received by the Commonwealth raised by a one percent (1%) statewide sales tax (drawn from the existing statewide 6.25% sales tax, excluding sales tax revenues on meals and from certain additional statutorily exempted revenues from sales) are deposited into the School Modernization and Reconstruction Trust (SMART) fund, and are available to the MSBA without further appropriation or allotment. The use of the SMART fund is exclusively restricted for the purposes of the MSBA. Revenue is recognized and a corresponding "amount due from Commonwealth" is recorded to reflect revenue earned in the period of the underlying sale. The dedicated sales tax revenue is pledged for repayment of outstanding debt service.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(l) ***Grants payable***

The MSBA records a liability for its share of total eligible project costs differently depending on the type of project. However, for all projects, the MSBA recognizes a liability for its estimated share of total eligible project costs when the applicable eligibility requirements have been met.

Prior Grants – All of the 728 Prior Grant projects had been receiving an annual payment under the former program. The liability for these projects will be reduced over time through annual payments, and savings from debt refundings by the local communities in which the MSBA shares in the savings based on the reimbursement rate of the project.

Waiting List – The MSBA funds Waiting List projects using two different methods, lump sum and progress payments. Each funding method has different eligibility requirements.

Waiting List projects that are under the lump sum method were recognized as a liability once construction started. The liability for these projects will be reduced over time through annual payments and savings from debt refundings by the local communities in which the MSBA shares in the savings based on the reimbursement rate of the project. These projects operate like Prior Grant projects.

Under the progress payment method, the MSBA's share of costs incurred are generally recognized as a liability once a grantee requests reimbursement from the MSBA. Of the \$43 million liability associated with Waiting List projects, none of the liability is related to the progress payment method.

Waiting list projects that are not currently recognized as a liability are considered commitments of the MSBA. As of June 30, 2020, there are no commitments outstanding for the Waiting List projects.

New Program – The MSBA funds New Program projects on a progress payment basis. Under this process, communities may submit reimbursement requests no more frequently than once per month. Upon review, audit, and approval, the MSBA processes payments for its share of eligible costs incurred. The MSBA's share of costs incurred for New Program projects are recognized as a liability once a grantee's request for reimbursement is reviewed, audited, and approved by the MSBA. The MSBA has recorded a liability of \$52.1 million in the special revenue fund for reimbursements received, reviewed, and approved for payment by June 30, 2020. Additionally, a liability of \$59.9 million was recorded for the reimbursements not reviewed or approved for payment prior to June 30, 2020, as well as final project hold back payments subject to final audit and Board approval after year end. The long-term portion of this liability is estimated at \$14.8 million. New program projects that are not currently recognized as a liability are considered commitments of the MSBA. As of June 30, 2020, there are \$1.6 billion of commitments outstanding for the New Program projects, which will be funded under the progress payment method.

For all projects, regardless of the funding mechanism, costs incurred by the grantees are subject to audit by the MSBA. Completion of these audits will allow the MSBA to determine the final approved cost of these projects, and the MSBA will adjust the payments it makes for these projects, as necessary, in accordance with the results of those audits.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(m) Employee benefits

The Commonwealth is responsible by statute for the pension benefits for members of the State Employees' Retirement System (MSERS), including employees of the MSBA. The MSERS is a cost-sharing, multi-employer public employee retirement system, covering substantially all employees of the Commonwealth and certain employees of independent authorities and agencies. The MSERS is administered by the Commonwealth and is part of its reporting entity; no stand-alone financial report is issued. MSBA is not required to make employer contributions to MSERS and otherwise has no responsibility for unfunded pension liabilities.

The MSBA provides OPEB, including health care and life insurance benefits for active and retired employees through participation in the Commonwealth's Group Insurance Commission. MSBA employees may become eligible for OPEB if they reach normal retirement age while working for the MSBA and retire from the MSBA. The MSBA currently funds OPEB based on an actuarial funding schedule. As of June 30, 2020, the MSBA had nine retirees, six of whom elected benefits.

(n) Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and deferred outflows, and liabilities and deferred inflows, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses, and expenditures during the reporting period. Actual results could differ from those estimates.

(o) Fund balances

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* requires entities to classify fund balances as restricted, committed, assigned, or unassigned. The Board can commit and un-commit funds while financial management of the MSBA has the ability to assign and un-assign funds. Restricted balances are restricted in their use by bond covenants or statute.

As of June 30, 2020, the MSBA had the following fund balances (in thousands):

	Amount
Fund balance:	
Restricted:	
Debt service*	\$ 959,482
New program	61,175
OPEB	1,786
Subtotal	1,022,443
Assigned:	
Grants and loans to cities, towns, and regional school districts	694,882
Subtotal	694,882
Total fund balance	\$ 1,717,325

* \$194.6 million relates to the Debt Service Fund

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(p) Adoption of new GASB pronouncements

The Authority adopted the following GASB statement in fiscal year 2020:

GASB Statement No. 84, *Fiduciary Activities*. This Statement is designed to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement is effective for reporting periods beginning after December 15, 2019. Earlier application is permitted. The adoption of GASB No. 84 is reflected within these financial statements. There was no material impact.

(q) Recent Accounting Pronouncements

In June 2017, the GASB issued Statement No. 87, *Leases*. This Statement was established to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier adoption is permitted. MSBA is currently evaluating the effect that this Statement will have on its financial statements. See discussion of Statement No. 95 for related postponement.

In January 2020, the GASB issued Statement No. 92, *Omnibus 2020*. This Statement was established to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that were identified during implementation and application of certain GASB Statements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2020. Earlier adoption is permitted. MSBA is currently evaluating the effect that this Statement will have on its financial statements. See discussion of Statement No. 95 for related postponement.

In March 2020, the GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. The objective of this Statement is to address accounting and financial reporting implications that result from the replacement of an Inter-Bank Offering Rate (IBOR). For agreements that depend on LIBOR, the Statement is effective for reporting periods ending after December 31, 2021. All other requirements of the Statement are effective for periods beginning after June 15, 2020. Earlier application is encouraged. The MSBA has no financial agreements tied to an IBOR; therefore, this Statement will have no effect on its financial statements.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset for a period of time in an exchange or exchange-like transaction. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APs). As defined in this Statement, an AP is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. The MSBA does not participate in any arrangements defined in this Statement, therefore the Statement will have no impact on the financial statements.

In May 2020, the GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. The requirements of this Statement are effective immediately. The MSBA will be impacted by the postponement for a period of one year for Statement No. 92, *Omnibus 2020*, and by the postponement for a period of 18 months for Statement No. 87, *Leases*, and the related Implementation Guide (No. 2019-3). Other standards noted in GASB 95 are not applicable to the Authority.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. The MSBA is currently evaluating the effect that this Statement will have on its financial statements.

In June 2020, the GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. Certain sections related to objectives (1) and (2) of the Statement are effective immediately. Other requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application of those requirements is encouraged and permitted. The MSBA is not subject to the sections requiring immediate adoption and is reviewing the impact of the remaining requirements.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(3) Amount due from Commonwealth

Coincident with the establishment of the MSBA, the Commonwealth established the SMART fund for the purpose of receiving the transfer of dedicated sales tax revenue and other funds from the Commonwealth to the MSBA. Amounts held in the SMART fund are for the exclusive purpose of the MSBA. In FY2020, \$925 million of dedicated sales tax revenue was earned and recorded as revenue. Of that amount, \$159 million was received after year-end and is recorded as a receivable on the MSBA's financial statements. Dedicated sales tax revenue is pledged for repayment of outstanding debt service.

(4) Cash, Cash Equivalents, and Investments

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, requires that entities disclose essential risk information about deposits and investments.

(a) Investment policy

Pursuant to the Act, the MSBA is authorized to invest in obligations of the U.S. treasury, its agencies and instrumentalities, bonds, or notes of public agencies or municipalities, bank time deposits, GICs, money market accounts, and repurchase agreements. The MSBA has an investment policy that establishes minimum credit quality for certain instruments, outlines investment procedures, and provides for periodic reporting. The MSBA's investment policy does not specifically limit the amount the MSBA may invest in any one issuer.

As specified in the OPEB trust agreement, the assets of the MSBA's OPEB trust fund are invested in the State Retiree Benefits Trust Fund, which is managed by the Massachusetts Pension Reserves Investment Trust Fund (PRIT) and follows the investment policy of the PRIT. See Note 10 for more information.

(b) Custodial credit risk

Custodial credit risk is the risk that in the event of bank failure, the MSBA's deposits may not be returned. The MSBA does not have a formal investment policy for custodial credit risk. The MSBA carries deposits that are fully insured by the Federal Deposit Insurance Corporation, as well as deposits that are fully collateralized. As of June 30, 2020, all MSBA bank balances were fully protected against loss.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(c) **Interest rate risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the MSBA's investments. The MSBA's investment policy does not specifically limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The MSBA intends to hold its fixed income investments to maturity.

Investment type	Fair value	Investment maturities			
		< 1 Year	1-5 Years	6-10 Years	>10 Years
Money market funds	\$ 319,680	\$ 319,680	\$ —	\$ —	\$ —
U.S. treasuries/state and local government series (SLGS)	539,336	—	—	181,397	357,939
	859,016	319,680	—	181,397	357,939
Investments held at other than fair value:					
MMDT, amortized cost	207,032	122,895	84,137	—	—
GIC, contract value	200,099	—	200,099	—	—
Total investments	1,266,147	\$ 442,575	\$ 284,236	\$ 181,397	\$ 357,939
Cash and cash equivalents	267,357				
Total cash and investments	<u>\$ 1,533,504</u>				

(d) **Credit risk**

As of June 30, 2020, the MSBA had \$200.1 million invested in a GIC. The investment is collateralized at 105% of value. This investment is not rated; however, the issuer is rated AA+.

As of June 30, 2020, the MSBA had \$539.3 million invested in treasury strips and other U.S. obligations backed by the full faith and credit of the U.S. government.

As of June 30, 2020, the MSBA had \$319.7 million invested in institutional money market funds valued at fair value. These investments were rated AAA.

As of June 30, 2020, the MSBA had \$207 million invested in MMDT. This investment was not rated.

(e) **Concentration of credit risk – investments**

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The issuers where investments as of June 30, 2020 exceeded 5% of the MSBA's total investments, other than investments in U.S. government obligations and money market funds, are as follows:

	Percentage of total Investments
Massachusetts Mutual Life Insurance Company (GIC)	16%

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(f) ***Fair value measurements***

The MSBA categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2020.

Money market funds – Institutional money market investments are valued at \$1 per share which approximates fair market value. Money market funds are generally classified as Level 1 of the fair value hierarchy.

U.S. treasuries - Securities issued by the U.S. government, its agencies, authorities, and instrumentalities are valued using quoted prices and a pricing model maximizing the use of observable inputs determined by investment managers. U.S. treasury securities consist principally of U.S. treasury bills, notes, and bonds, which are generally classified as Level 1 of the fair value hierarchy.

SLGS - Securities issued under SLGS securities program consist principally of certificates of indebtedness, notes, or bonds with maturities from 15 days to 40 years. SLGS are generally valued using a pricing model maximizing the use of observable inputs determined by investment managers. SLGS are generally classified as Level 2 of the fair value hierarchy

GIC and MMDT investments – The GIC and MMDT funds are valued at contract value and amortized cost, respectively.

The MSBA has the following recurring fair value measurements as of June 30, 2020 (amounts in thousands):

<u>Investment type</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Money market funds	\$ 319,680	\$ 319,680	\$ —	\$ —
U.S. treasuries	530,536	530,536	—	—
State and local government series	8,800	—	8,800	—
Total	<u>\$ 859,016</u>	<u>\$ 850,216</u>	<u>\$ 8,800</u>	<u>\$ —</u>

(g) ***Assets held in trust for refunding escrow***

The MSBA reports \$73.8 million of par value investments held by the trustee for securities that did not meet the qualifications for in-substance defeasance. The par value is equal to the remaining balance of refunded, non-defeased bonds, reported in these financial statements. See note 5 for further details.

2041-2045	907,350	191,576	-	1,098,926
2046-2049	323,550	32,971	-	356,521
	<u>\$ 6,053,947</u>	<u>\$ 3,892,287</u>	<u>\$ (257,278)</u>	<u>\$ 9,688,956</u>

* 2021 subsidy amount reflects published Federal sequestration. Future years, stated at par, might be reduced by sequestration.

As of June 30, 2020, the MSBA had approximately \$6 billion of outstanding dedicated sales tax bonds, plus approximately \$516 million of unamortized premiums, for the purpose of funding school construction and renovation projects. Coupons on the bonds range from 1.855% to 5.715%, and each series is payable semi-annually with the last maturity occurring in fiscal year 2049. The \$6 billion of debt outstanding includes \$1.9 billion of subordinated dedicated sales tax bonds. Investments held as collateral on the debt (debt service reserve funds) total \$753 million at June 30, 2020.

Certain balances refunded during FY2018 did not meet the definition of a defeasance in accordance with GASB Statement No. 86, *Certain Debt Extinguishment Issues*. The open market securities purchased for these refundings are being held in an irrevocable trust; these securities are reported on the Statement of Net Position as assets held in trust for refunding escrow. At June 30, 2020, \$73.8 million of debt remains in the stated liabilities on the Statement of Net Position. The debt will be written off as defeased at the time that the open market securities mature or are replaced with securities that conform to the requirements of GASB Statement No. 86.

On July 31, 2019, the MSBA issued \$300 million of Subordinated Dedicated Sales Tax Bonds (2019 Series A Bonds) for the purpose of funding school construction and renovation projects. The market generated premiums of \$52.8 million on the bond issuance. The Bonds mature at various dates through February 2049 and interest is due semi-annually each February 15th and August 15th. The bonds carry an interest rate of 5%.

On November 20, 2019, the MSBA advance refunded \$748 million of 2011 Series B Dedicated Sales Tax Bonds by issuing \$715 million of Subordinated Dedicated Sales Tax Refunding Bonds 2019 Series B Bonds (Federally taxable). Proceeds from the sale of the bonds were placed in an irrevocable trust for the payment of 2011 Series B principal and interest. The 2019 B Bonds mature on October 15, 2040 and the interest is payable semi-annually April 15th and October 15th. The coupons on the bonds range from 1.855% to 3.395%. The refunding resulted in reduced debt service of \$192.5 million and a present value savings of \$135.2 million over the life of the debt.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

On March 17, 2020, the MSBA used funds on hand to refund the following outstanding principal amounts:

- \$76.3 million of 2012 Series A Senior Dedicated Sales Tax Refunding Bonds.
- \$11.2 million of 2012 Series B Senior Dedicated Sales Tax Refunding Bonds.
- \$43.2 million of 2015 Series D Senior Dedicated Sales Tax Bonds.

In prior years, the MSBA has defeased certain dedicated sales tax bonds by placing the proceeds of new bonds and funds on hand into irrevocable trusts with escrow agents in amounts which will provide for payment of the principal and interest on the defeased bonds to the redemption date. The defeased portion of such debt, accrued interest thereon, and related unamortized issuance costs and bond premiums were removed from the statements of net position (deficit). At June 30, 2020, \$994 million of bonds outstanding are considered defeased.

A portion of the interest on the dedicated sales tax bonds is reimbursed by the federal government. Of the \$6 billion of debt outstanding as of June 30, 2020, \$450 million is taxable Build America Bonds for which the MSBA is eligible to receive a 35% interest subsidy directly from the U. S. Treasury. In addition, \$293 million of the Subordinated Dedicated Sales Tax Bonds were issued as “Qualified School Construction Bonds” for which the MSBA is eligible to receive a 100% interest subsidy payment directly from the U. S. Treasury. During FY2013, the Federal government implemented automatic budget cuts imposed through sequestration required pursuant to the Budget Control Act of 2011. Subsidy payments received from March 1, 2013 through September 30, 2013 were reduced by 8.7% (5.1% on an annualized basis) due to sequestration. Subsequent notices published by the Internal Revenue Service have adjusted the sequestration rate as follows:

<u>Date of notice</u>	<u>Payments affected</u>		<u>Sequestration rate</u>
	<u>From</u>	<u>To</u>	
September-2013	October 1, 2013	September 30, 2014	7.20 %
September-2014	October 1, 2014	September 30, 2015	7.30
August-2015	October 1, 2015	September 30, 2016	6.80
August-2016	October 1, 2016	September 30, 2017	6.90
August-2017	October 1, 2017	September 30, 2018	6.60
February-2018	October 1, 2018	September 30, 2019	6.20
July-2019	October 1, 2019	September 30, 2020	5.90
July-2020	October 1, 2020	September 30, 2021	5.70

The notice states that the sequestration reduction rate will be applied unless and until a law is enacted that cancels or otherwise impacts the sequester. Subsidy payments were reduced by approximately \$1.4 million due to sequestration during FY2020.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

Grants payable

As of June 30, 2020, the liability for future payments related to the Prior Grant, Waiting List, and New Program projects is as follows (amounts in thousands):

	<u>Prior Grants</u>	<u>Waiting List</u>	<u>New Program</u>	<u>Total</u>
Year ending June 30:				
2021	\$ 51,283	\$ 14,535	\$ 97,311	\$ 163,129
2022	21,767	12,534	14,767	49,068
2023	7,349	10,729	—	18,078
2024	—	4,969	—	4,969
Total	<u>\$ 80,399</u>	<u>\$ 42,767</u>	<u>\$ 112,078</u>	<u>\$ 235,244</u>

The amounts to be reimbursed for the Prior Grant and Waiting List projects may decrease because of debt refundings by the local communities in which the MSBA shares in the savings based on the reimbursement rate of the project.

(6) Adjustments Column

(a) Explanation of certain differences between the governmental fund balance sheet and the statements of net position (deficit)

Long-term liabilities of the MSBA's activities are not due and payable in the current period and, therefore, are not reported as fund liabilities. Also, some assets used in governmental activities are not financial resources and, therefore, are not reported as fund assets. All assets and liabilities, both current and long-term, are reported in the statements of net position (deficit). The difference between the governmental fund balances and governmental activities net position at June 30, 2020 were as follows (amounts in thousands):

Total fund balance – governmental funds	\$ 1,717,325
Amounts reported for governmental activities in the statement of net position (deficit) are different because:	
Grants receivable is reported in the government-wide statements	6,560
Other assets are reported in the government-wide statements	64
Net OPEB Asset is not reported in the governmental funds	1,786
Loss on bond refundings is classified as deferred outflows of resources in the government-wide statements	133,318
Some liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.	
Those liabilities consist of:	
Dedicated sales tax bonds, net of refunding escrows held in trust	(5,980,180)
Grants payable to local communities	(183,102)
Bond premiums	(516,394)
Accrued interest	(85,760)
Arbitrage rebate	(1,859)
Compensated absences	(829)
Gain on bond refundings is classified as deferred inflows of resources in the government-wide statements	(6,780)
Deferred inflows for OPEB are not included in the governmental funds:	
Difference between actual and expected experience	(25)
Difference between actual and projected investment	205
Changes in assumptions	(2,132)
Net position (deficit) of governmental activities	<u>\$ (4,917,803)</u>

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(b) ***Explanation of certain differences between the governmental fund statements of revenues, expenditures, and changes in fund balance and the statements of activities***

In the statements of activities all revenues and expenses are recognized in the year they are earned or incurred, regardless of when they are paid. In the governmental funds, payments and receipts contribute to the change in fund balance, while the same payments and receipts decrease and increase liabilities in the statements of net position (deficit). These differences in measurement and recognition affect both the reported fund balance and the reported net position (deficit). Adjustments required to be made to the reported governmental funds to arrive at the statements of activities are as follows (amounts in thousands):

Net change in fund balances – governmental funds	\$	111,314
Amounts reported for governmental activities in the statement of activities are different because:		
Payments and adjustments on grants decrease long-term liabilities in the statement of net position (deficit), but are included as expenditures in the governmental funds.		150,449
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. This amount represents the change in compensated absences, interest payable, and arbitrage rebate		(17,870)
Proceeds of long-term debt and premiums increase long-term liabilities in the statement of net position (deficit) but, are included in the operating statement of the governmental funds.		(1,068,221)
Repayment of commercial paper and bond principal are expenditures in the governmental funds, but reduce long-term liabilities on the statement of net position (deficit).		1,125,770
Adjustment of revenues reported in the statement of activities on a different basis than in the governmental funds.		1,553
Change in net position (deficit) of governmental activities	\$	302,995

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(7) Commitments and Contingencies

(a) Grant commitments

The MSBA has estimated the amount of outstanding New Program commitments at June 30, 2020 to be \$1.6 billion.

(b) Related parties

The MSBA enters into various related party transactions with the Commonwealth. All significant or material transactions have been properly disclosed in the accompanying financial statements.

(c) Operating lease

The MSBA leases its office space. The lease terminates on June 30, 2025 with future minimum lease payments totaling \$5.9 million as follows:

Fiscal year	Amount
2021	\$ 1,141,479
2022	1,166,071
2023	1,190,663
2024	1,215,255
2025	1,239,847
Total	\$ 5,953,315

Rent expense recorded during FY2020 was approximately \$1,216,314.

(8) Loans Receivable

The MSBA has entered into various loan agreements with municipalities at a 2% interest rate, with principal to be paid in equal installments for varying terms. Currently, the longest repayment schedule has a final payment in FY2043. This program is designed to assist a limited number of school districts with unanticipated inflationary construction costs over the districts' original project budget. The loans outstanding as of June 30, 2020 were \$74.2 million, of which \$6.2 million is due in FY2021. During FY2020, the MSBA collected \$6.4 million of scheduled principal payments.

(9) Retirement Benefits

(a) Plan description

The MSERS is a public employee retirement system (PERS) that administers a cost-sharing, multiple employer defined benefit plan as defined by GASB Statement No. 67, *Financial Reporting for Pension Plans*, covering substantially all employees of the Commonwealth and certain employees of the independent authorities and agencies, including employees of MSBA.

Management of MSERS is vested in the Massachusetts State Retirement Board (the MSRB) which consists of five members—two elected by current and active MSERS members, one by the remaining members of the MSRB, one who is appointed by the State Treasurer, and the State Treasurer, who serves as ex-officio and is the Chair of the MSRB.

MSERS Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer is a publicly available report that can be obtained by submitting a request to the Commonwealth via email to comptroller.info@state.ma.us or mail to: Commonwealth of Massachusetts, Office of the State Comptroller, 1 Ashburton Place, 9th Floor, Boston, Massachusetts, 02108.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(b) Benefits provided

MSERS provides retirement, disability, survivor, and death benefits to members and their beneficiaries. MGL establishes uniform benefit and contribution requirements for all contributory PERS. These requirements provide for superannuation retirement allowance benefits up to a maximum of 80% of a member’s highest three-year average annual rate of regular compensation. For employees hired after April 1, 2012, retirement allowances are calculated on the basis of the last five years or any five consecutive years, whichever is greater in terms of compensation. Benefit payments are based upon a member’s age, length of creditable service, and group creditable service, and group classification. The authority for amending these provisions rests with the Legislature.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of creditable service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65; for certain hazardous duty and public safety positions, normal retirement is at age 55. Most employees who joined the system after April 1, 2012 cannot retire prior to age 60.

The MSERS’ funding policies have been established by MGL Chapter 32. The Legislature has the authority to amend these policies. The annuity portion of the SERS retirement allowance is funded by employees, who contribute a percentage of their regular compensation. Costs of administering the plan are funded out of plan assets.

(c) Contributions

Member contributions for MSERS vary depending on the most recent date of membership:

<u>Hire Date</u>	<u>% of Compensation</u>
Prior to 1975	5% of regular compensation
1975–1983	7% of regular compensation
1984 to 6/30/1996	8% of regular compensation
7/1/1996 to present	9% of regular compensation except for State Police which is 12% of regular compensation
1979 to present	An additional 2% of regular compensation in excess of \$30,000

(d) Pension liability and pension expense

The net pension liability was measured as of June 30, 2019 (measurement date). At June 30, 2019, MSBA was considered to have a 100% special funding situation as defined in the GASB Standards. As such, no net pension liability is required to be recognized by the MSBA. Instead, the Commonwealth is legally obligated for the net pension liability that was associated with MSBA, which amounted to \$15.5 million at the measurement date.

For the year ended June 30, 2019, MSBA recognized pension expense and intergovernmental revenue of \$2.6 million, which represents the Commonwealth’s total proportionate share of the collective pension expense associated with MSBA.

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(e) **Actuarial assumptions**

The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of January 1, 2019, rolled forward to June 30, 2019. This valuation used the following assumptions:

Inflation	3.5%
Salary increases	Salary increases are based on analyses of past experience, but range from 4% to 9%, depending on group and length of service.
Investment rate of return	7.25%
Cost of living adjustments	3.0% cost of living increase per year
Mortality rates:	
Pre-retirement:	Reflects RP-2014 Employees table projected generationally with Scale MP-2016 and set forward 1 year for females.
Healthy retiree:	Reflects RP-2014 Healthy Annuitant table projected generationally with Scale MP-2016 set forward 1 year for females.
Disabled retiree:	Reflects RP-2014 Healthy Annuitant table projected generationally with Scale MP-2016 set forward 1 year.

Investment assets of MSERS are with the PRIT. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage. Best estimates of geometric rates of return for each major asset class included in the PRIT Fund's target asset allocation as of June 30, 2019 are summarized in the following table:

Asset class	Target allocation (%)	Long-term expected rate of return (%)
Global equity	39.0 %	4.9%
Core fixed income	15.0	1.3
Private equity	13.0	8.2
Portfolio completion strategies	11.0	3.9
Real estate	10.0	3.6
Value added fixed income	8.0	4.7
Timber/natural resources	4.0	4.1
	100.0 %	

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(f) Discount rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the Commonwealth’s contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rates. Based on those assumptions, the net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(g) Sensitivity of the net pension liability to changes in the discount rate

The following presents the MSBA’s proportion of the net pension liability to be paid by the Commonwealth, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current discount rate (amount in thousands):

	(6.25%)	(7.25%)	(8.25%)
Net pension liability as of June 30, 2019	\$ 20,640	\$ 15,507	\$ 11,121

(10) Other Post-Employment Benefits

(a) Plan description

The MSBA provides post-employment health care, life insurance, and OPEB for employees who meet the eligibility criteria and retire directly from the MSBA through the Group Insurance Commission. The Group Insurance Commission is a state agency that administers an agent multi-employer defined benefit OPEB plan. Separate, audited, GAAP basis OPEB plan reports are not available for the plan. As of December 31, 2019, the actuarial valuation date, the MSBA had 9 retirees and 73 active plan members. There were 7 terminated employees that have a vested interest to benefits.

The OPEB plan is overseen by the OPEB Trust Committee, which consists of five members designated by the MSBA’s Executive Director, including four employees of the MSBA and one member who may or may not be an employee of the MSBA. The four employees of the MSBA shall include two members of the MSBA finance staff, one member of the MSBA staff who is an attorney licensed to practice law in the Commonwealth, and one member of the MSBA’s senior staff, each ex officio. Committee members shall serve a term of three years. The Executive Director may reappoint any Committee member for additional three-year terms, without limitation.

Notes to Financial Statements

June 30, 2020

(b) *Benefits provided*

As part of the MSBA employee benefits package administered by the Group Insurance Commission, the MSBA provides health and life insurance to employees who retire from the MSBA and their covered dependents. All active employees who retire from the MSBA, meet the eligibility criteria, and opt for the plan will receive these benefits. The OPEB plan pays 80% of the premium for healthcare and up to \$5,000 in basic life insurance. The retiree pays 20% of the healthcare premium and the full cost of any optional insurance (life insurance, accidental death and dismemberment, dental, and vision). Annual open enrollment periods allow retirees to choose between offered healthcare plans.

(c) *Investment policy*

The MSBA's OPEB trust assets are invested with the PRIT, which is managed by the Pension Reserves Investment Management Board (PRIM). The PRIM's overall objective is to achieve the highest level of investment performance that is compatible with its risk tolerance and prudent investment practices. PRIM maintains a long-term perspective in formulating and implementing its investment policies, and in evaluating its investment performance. There were no changes made to the investment policy during the fiscal year. See page 38 for approved asset allocation.

(d) *Contribution information and funding policy*

Subject to statutory requirement, future retirees will contribute 20% of the cost of the premium of the health plan, as determined by the Group Insurance Commission, and the MSBA will contribute the remainder of the health plan costs. The MSBA plans to keep the plan fully funded on an annual basis by contributing the actuarially determined contribution of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The actuarially determined contribution represents a level of funding that if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial accrued liabilities over a period not to exceed one year. MSBA's fiscal year 2020 contribution totaled \$200,000, which represents 3.1% of covered payroll (\$6.5 million).

Notes to Financial Statements

June 30, 2020

(e) **Changes in the net OPEB liability/(asset)**

The MSBA's net OPEB liability/(asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability/(asset) was determined by an actuarial valuation as of December 31, 2019, with standard actuarial techniques used to roll forward the total OPEB liability/(asset) to the Measurement Date.

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability (Asset)
	(a)	(b)	(a) - (b)
Balance at June 30, 2019	\$ 3,985	\$ 4,211	\$ (226)
Changes for the year:			
Service cost	242	-	242
Interest	309	-	309
Difference between expected and actual experience	212	-	212
Change in assumptions	(2,013)	-	(2,013)
Employer contributions	-	228	(228)
Net investment income	-	82	(82)
Benefit payments including refunds	(56)	(56)	-
Net change	(1,306)	254	(1,560)
Balance at June 30, 2020	<u>\$ 2,679</u>	<u>\$ 4,465</u>	<u>\$ (1,786)</u>

(f) **Sensitivity of the net OPEB liability/(asset) to changes in the discount rate:**

The following presents the net OPEB liability/(asset), calculated using the discount rate of 7.25%, as well as what the net OPEB liability/(asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current discount rate (amount in thousands):

	1% Decrease (6.25%)	Current discount (7.25%)	1% Increase (8.25%)
Net OPEB liability/(asset)	\$ (1,297)	\$ (1,786)	\$ (2,173)

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

(g) Sensitivity of the net OPEB liability/(asset) to changes in the healthcare cost trend rate:

The following presents the net OPEB liability/(asset), calculated using the healthcare cost trend rate of 7%, as well as what the net OPEB liability/(asset) would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate (amount in thousands):

	1% Decrease (6%)	Current Trend Rate (7%)	1% Increase (8%)
Net OPEB liability/(asset)	\$ (2,249)	\$ (1,786)	\$ (1,176)

(h) OPEB expense

OPEB expense recognized by the MSBA for the fiscal year ended June 30, 2020 was \$47 thousand.

(i) OPEB deferred outflows and inflows of resources

At June 30, 2020, the MSBA reported deferred inflows of resources as follows (amounts in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between projected and actual experience	\$ 192	\$ 217
Differences between projected and actual investment earnings	205	-
Change in assumptions	-	2,132
	\$ 397	\$ 2,349

Amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending:	Deferred Outflows (Inflows)
2020	\$ -
2021	(188)
2022	(188)
2023	(179)
2024	(191)
2025	(238)
Thereafter	(968)
	\$ (1,952)

(j) Actuarial methods and assumptions

Projections of benefits for financial reporting purposes are based on the plan as understood by the MSBA and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the MSBA and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2019 actuarial valuation, the entry age normal, level percentage of pay cost method was used. The actuarial value of assets was determined to be \$4.6 million based on the fair market value of the assets. The actuarial assumptions included a 7.25% investment rate of return and an initial annual healthcare cost trend rate of 7.0%, which decreases to a 4.5% long-term trend rate for all healthcare benefits after six years. The MSBA has chosen to amortize its AAL over 1 year.

Assumptions:

Measurement date	June 30, 2020
Actuarial valuation date	December 31, 2019
Salary and wage increases	7.0%, decreasing over 20 years to a level of 4.0%
Healthcare cost trend rates:	
Medical	7.0%
Administrative	4.5%
Discount rate	7.25%
Long-term rate of return	7.25%
Mortality tables used:	
Pre-retirement	PubG-H-2010 General Employee Headcount-Weighted Mortality Table projected generationally with Scale MP-2019
Healthy retiree	PubG-H-2010 General Healthy Retiree Headcount-Weighted Mortality Table projected generationally with Scale MP-2019
Disabled retiree	PubG-H-2010 Non-Safety Retiree Headcount-Weighted Mortality Table projected generationally with Scale MP-2019
Contingent Survivor	PubG-H-2010 Contingent Survivor Headcount-Weighted Mortality Table projected generationally with Scale MP-2019
Date of experience studies on which significant assumptions were based	Demographic assumptions - Commonwealth of Massachusetts (Retirement) Actuarial Valuation as of 1/1/19, dated 10/17/19 Remaining assumptions - Commonwealth of Massachusetts (OPEB) Actuarial Valuation Report - GASB 74 for the Fiscal Year Ending 6/30/19, dated 1/23/20

MASSACHUSETTS SCHOOL BUILDING AUTHORITY
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2020

Healthcare cost trend rate assumptions:

Year Ending	Annual Rate of Increase:	
	Medical	Administrative
June 30:		
2020	7.0%	4.5%
2021	6.5%	4.5%
2022	6.0%	4.5%
2023	5.5%	4.5%
2024	5.5%	4.5%
2025	5.0%	4.5%
Thereafter	4.5%	4.5%

Assumed rate of return:

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best estimates of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and subtracting expected investment expenses and a risk margin.

The target allocation as of June 30, 2020 and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expense, used in the derivation of the long-term expected investment rate of return are summarized below:

Asset class	Target allocation (%)	Long-term expected rate of return (%)
Domestic equity	21.0 %	6.2%
International developed markets equity	13.0	6.7
International emerging markets equity	5.0	8.6
Core fixed income	15.0	1.1
High yield fixed income	8.0	3.5
Real estate	10.0	4.3
Commodities	4.0	4.1
Hedge fund, global tactical asset allocation, risk parity	11.0	3.2
Private equity	13.0	10.0
	100.0 %	

Notes: Some asset classes in the target allocation have been combined.

Notes to Financial Statements

June 30, 2020

Retirement rate assumptions:

	Age				
	50	55	60	65	70
Male	3.0	3.5	9.0	20.0	100.0
Female	3.0	5.0	7.5	20.0	100.0

(11) Subsequent Events

On July 15, 2020, the MSBA issued \$350 million of Senior Dedicated Sales Tax Bonds (2020 Series A Bonds) (Social Bonds) for the purpose of funding school construction and renovation projects. The market generated premiums of \$90.5 million on the bond issuance. The Bonds mature at various dates through August 2050 and interest is due semi-annually each February 15th and August 15th. The bonds carry an interest rate ranging from 3% to 5%.

On July 15, 2020, the MSBA advance refunded \$302 million of 2012 Series A Dedicated Sales Tax Refunding Bonds, \$591 million of 2012 Series B Dedicated Sales Tax Refunding Bonds, and \$96 million of 2013 Series A Dedicated Sales Tax Bonds by issuing \$1.1 billion of Senior Dedicated Sales Tax Refunding Bonds 2020 Series B Bonds (Federally taxable) (Social Bonds). The Bonds mature at various dates through August 15, 2035 and the interest is payable semi-annually February 15th and August 15th. The coupons on the bonds range from 0.349% to 2.103%. The refunding resulted in reduced debt service of \$240.5 million and a net present value savings of \$198 million over the life of the debt.

On September 25, 2020, the MSBA executed an escrow restructure of the assets held in trust for refunding escrows related to the 2013 A Bonds. The MSBA sold \$28.9 million par value of open market securities and replaced them with \$30.8 million par value of SLGS. The net portfolio cost of the restructure was \$146 thousand. This transaction results in \$28.9 million of the 2013 Series A Bonds being considered defeased.

On October 8, 2020, the MSBA advance refunded \$395 million of 2013 Series A Dedicated Sales Tax Bonds by issuing \$389 million of Senior Dedicated Sales Tax Refunding Bonds 2020 Series C Bonds (Federally taxable). The Bonds mature at various dates through May 15, 2043 and the interest is payable semi-annually May 15th and November 15th. The coupons on the bonds range from 0.45% to 2.95%. The refunding resulted in reduced debt service of \$125.6 million and a net present value savings of \$81 million over the life of the debt.

Valuation date: Actuarial determined contribution rates are calculated as of the actuarial valuation dates identified above.

The schedule above is intended to show information for ten years. Additional information will be displayed as it becomes available.

Notes to the Schedule:

- Methods and assumptions used to determine the contribution rates:

To maintain fully funded status, the MSBA will request a budget of \$100,000 unrestricted funds be deposited to the OPEB Trust. Deposits are invested at the beginning of the month, so transfers should be scheduled for the 1st. If a future actuarial report indicates there is an unfunded portion, the MSBA may request a budget allocation annually between \$100,000 to \$500,000 until fully funded status is reached again. MSBA will be reimbursed annually for actual premiums rather than estimated premiums.

**Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

Independent Auditor's Report

Board Members
Massachusetts School Building Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Massachusetts School Building Authority (the Authority), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated December 1, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RSM US LLP
