PROFESSIONAL AWARDS

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to CalPERS for our Comprehensive Annual Financial Report for the fiscal year ended June 30, 2017. This was the 22nd year that CalPERS has achieved this prestigious award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report that satisfies both generally accepted accounting principles and applicable legal requirements. We believe our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements.

PUBLIC PENSION STANDARDS AWARD

The Public Pension Coordinating Council awarded a Public Pension Standards Award for Funding and Administration to CalPERS for the fiscal year ended June 30, 2018. This is the 16th consecutive year that CalPERS has achieved this prestigious award. In order to be awarded a Public Pension Standards Award, a public pension program must meet professional standards for plan design and administration as set forth in the Public Pension Standards. A Public Pension Standards Award is valid for a period of one year.

CHIEF EXECUTIVE OFFICER'S LETTER OF TRANSMITTAL

Marcie Frost Chief Executive Officer

November 16, 2018

Members of the CalPERS Board of Administration:

I am pleased to present the California Public Employees' Retirement System (CalPERS or the System) Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2018.

This past fiscal year marks multiple accomplishments achieved under the first year of the new five-year 2017-22 Strategic Plan, which lays the foundation for meeting our investment, retirement, and health benefit needs for the years ahead.

Beginning with our investment returns, I am pleased to report our earnings are above our 7 percent goal with an 8.6 percent net return on investments. Solid returns came from the private equity program, which generated a 16.1 percent net return, followed by public equity with a net return of 11.5 percent. Real assets returned 8.0 percent.

To continue our work in strengthening our investment performance, in May we unveiled a proposed private equity investment model, CalPERS Direct. Since private equity is our highest returning asset class, averaging 10.5 percent over the past 20 years, we need a program that helps us achieve our 7 percent return target and hit our goal of investing 8 percent of our fund into private equity. We believe this proposed new model will help drive higher returns and allow us to take advantage of new investment opportunities. The CalPERS Board (the Board) has yet to approve this new approach and will continue to evaluate it during the next fiscal year.

Another accomplishment from this fiscal year was the completion of our Asset Liability Management (ALM) review process. Every four years we review our assets and liabilities with input from our investment, actuarial, and finance teams.

Based on that work, the CalPERS Board in December 2017 approved a new asset allocation mix for our investments. While a key decision of the ALM was lowering the discount rate in 2016, in Fiscal Year 2017-18 we also shortened the amortization period and adopted new actuarial assumptions. As a result, our cash flow has improved significantly. These decisions were necessary and prudent, and are consistent with our fiduciary obligations.

In the financial markets, we continued to see strong market growth that boosted our assets and strengthened the net position of the Public Employees' Retirement Fund (PERF). Our net position increased by nearly \$28 billion and stood at nearly \$354 billion as of June 30, 2018, compared with \$326 billion as of June 30, 2017.

As our assets increased, our objective to operate more efficiently was still a critical driver, since the amount we pay in retirement benefits continued to increase over the previous fiscal year. As of June 30, 2018, CalPERS paid out \$22.9 billion in benefits to more than 694,000 retirees and beneficiaries, a \$1.5 billion increase from the previous fiscal year. This increase was primarily due to the rise in the number of retirees and beneficiaries.

Our core mission is to pay benefits for generations and investing in California helps us fulfill that commitment. The most recent CalPERS for California report showed that, in Fiscal Year 2016-17, CalPERS' California-based investments supported some 266,200 estimated jobs.

In health care, our overall average Medicare and Basic (non-Medicare) rate increase was the lowest in two decades. The changes approved by the Board in June 2018 will increase 2019 rates by an average of 1.16 percent overall.

CHIEF EXECUTIVE OFFICER'S LETTER OF TRANSMITTAL (CONTINUED)

Other notable changes in healthcare for 2019 show that 800,000 Health Maintenance Organization (HMO) Basic members are expected to see their premiums decline, while seven HMO plans will have rates lower than the 2018 premiums. Also, the PERS Select Basic Preferred Provider Organization (PPO) plan adopted a new value-based insurance design that will take effect in the 2019 plan year. This new approach aims to improve quality and lower costs associated with health care by emphasizing primary care and introducing cost incentives to lower deductibles.

Additionally, the net position of the California Employers' Retiree Benefit Trust Fund grew by \$1.5 billion along with the number of contracted employers, from 524 to 542 since last fiscal year. This optional program pre-funds retiree health, dental, and other non-pension post-employment obligations.

While we had many accomplishments this past fiscal year, we will continue to embark on our new goals in our 2017-22 Strategic Plan: strengthening fund sustainability, improving health care affordability, reducing complexity and risk, and promoting a high-performing and diverse workforce.

Funding

The funded status of the PERF is 70.1 percent for Fiscal Year 2016-17 and uses the phased-in lower discount rate of 7.375 percent for schools and 7.25 percent for state and public agencies.

The estimate for Fiscal Year 2017-18 is nearly one percentage point higher at 71.0 percent. This estimate uses the 7 percent discount rate for all employers.

While our bottom line is getting stronger and the cash flow projections are rising, our goal is to continue to take steps to run the system as efficiently as possible and be fairly funded with an acceptable level of risk.

The PERF is the main trust fund from which nearly all CalPERS retirement benefits are paid. The Actuarial Section contains a summary of CalPERS' unfunded actuarial accrued liabilities.

Looking Forward

As we close the fiscal year and continue toward accomplishing our goals and objectives that we have established in our strategic plan, we are mindful that to be successful we will need to harness innovation and collaborate with our stakeholders.

Our work with our stakeholders has been imperative as we focus on boosting our total returns, since 59 cents (as of June 30, 2018) of every dollar we pay in pension benefits comes from investments.

While stakeholders have been clear about the financial issues they are facing as contribution costs increase, we are committed to being a reliable partner and achieving the shared goal of retirement security for those who serve California.

As we begin the second year of the 2017-22 Strategic Plan, together we can be proud to look back at the many accomplishments that helped us deliver benefits to our more than 694,000 retirees and beneficiaries and serve nearly 2 million public service employees and their families.

Management Responsibility for Financial Reporting

CalPERS' management prepared the financial statements in this CAFR for Fiscal Year 2017-18. Management is responsible for the integrity and fairness of the information presented, including data that, out of necessity, is based on estimates and judgments. The accounting policies used to prepare these financial statements conform to accounting principles generally accepted in the United States. Financial information presented throughout this annual report is consistent with these accounting principles.

CalPERS maintains a system of internal controls designed to provide reasonable assurance that assets are properly safeguarded, transactions are properly executed, and financial statements are reliable. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. In addition, our audit personnel provide a continuing review of the internal controls and operations of CalPERS, and the Chief of the Office of Audit Services regularly reports to the CalPERS Board of Administration's Risk and Audit Committee. The Committee reviews the audit findings and recommendations for improvements in internal control and operational efficiency, and it reviews the actions of management to implement such recommendations.

Our independent external auditor has conducted an audit of the Basic Financial Statements in accordance with auditing standards generally accepted in the United States and Government Auditing Standards, performing such tests and other procedures as they deem necessary to express opinions on the Basic Financial Statements in their report to the Board. The external auditor also has full and unrestricted access to the Board to discuss their audit and related findings as to the integrity of the financial reporting and the adequacy of internal control systems.

Accounting System and Reports

Management is responsible for establishing and maintaining an internal control structure designed to ensure that CalPERS'

CHIEF EXECUTIVE OFFICER'S LETTER OF TRANSMITTAL (CONTINUED)

assets are protected from loss, theft, or misuse, and that income is appropriately distributed. CalPERS is responsible to ensure the Basic Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States. The Basic Financial Statements are presented in accordance with the applicable requirements of the Governmental Accounting Standards Board (GASB).

GASB Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments (GASB 34) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A).

This Letter of Transmittal is designed to complement the MD&A and should be read in conjunction with it. The CalPERS MD&A can be found immediately following the report of the independent auditors.

ABOUT CalPERS

The California Public Employees' Retirement System (CalPERS or the System) is the nation's largest defined benefit public pension fund with total fiduciary net position in the Public Employees' Retirement Fund (PERF) of \$354 billion as of June 30, 2018.

Headquartered in Sacramento, CalPERS provides retirement benefit services to nearly 2.0 million members and health benefit services to nearly 1.5 million covered lives for state, school, and public employers. The System also operates eight Regional Offices located in Fresno, Glendale, Orange, Sacramento, San Diego, San Bernardino, San Jose, and Walnut Creek.

Led by a 13-member Board of Administration consisting of member-elected, appointed, and ex officio members, CalPERS membership consists of 1,266,045 active and inactive members and 696,890 retirees, beneficiaries, and survivors.

Established by legislation in 1931, the System became operational in 1932 to provide a secure retirement to state employees. In 1939, new legislation allowed public agency and classified school employees to join CalPERS for retirement benefits. CalPERS began administering health benefits for state employees in 1962, and five years later, public agencies were able to join the health program on a contract basis.

Today CalPERS offers additional programs, including longterm care coverage and deferred compensation retirement savings plans.

VISION

A respected partner, providing a sustainable retirement system and health care program for those who serve California.

MISSION

Deliver retirement and health care benefits to members and their beneficiaries.

2017-22 STRATEGIC PLAN GOALS AND OBJECTIVES

<u>Fund Sustainability – Strengthen the Long-Term Sustainability</u> of the Pension Fund

- Fund the System through an integrated view of pension assets and liabilities.
- · Mitigate the risk of significant investment loss.
- · Deliver target risk-adjusted investment returns.
- Educate employers, members, and stakeholders on system risks and mitigation strategies.
- Integrate environmental, social, and governance (ESG) considerations into investment decision making.

Health Care Affordability – Transform Health Care Purchasing and Delivery to Achieve Affordability

- Restructure benefit design to promote high-value health care.
- Improve the health status of our employees, members, and their families, and the communities where they live.
- Reduce the overuse of ineffective or unnecessary medical care.

Reduce Complexity – Reduce Complexity Across the Enterprise

- · Simplify programs to improve service and/or reduce cost.
- Streamline operations to gain efficiencies, improve productivity, and reduce costs.

Risk Management – Cultivate a Risk-Intelligent Organization

- Enhance compliance and risk functions throughout the enterprise.
- · Continue to evolve cyber security program.

<u>Talent Management – Promote a High-Performing and Diverse</u> <u>Workforce</u>

- Recruit and empower a broad range of talents to meet organizational priorities.
- Cultivate leadership competencies and develop succession plans throughout the enterprise.

ABOUT CalPERS (CONTINUED)

PENSION BELIEFS

In May 2014, the CalPERS Board of Administration adopted a set of 11 Pension Beliefs that articulate the pension fund's views on public pension design, funding, and administration.

Pension Belief 1

A retirement system must meet the needs of members and employers to be successful.

Pension Belief 2

Plan design should ensure that lifetime retirement benefits reflect each employee's years of service, age, and earnings and are adequate for full-career employees.

Pension Belief 3

Inadequate financial preparation for retirement is a growing national concern; therefore, all employees should have effective means to pursue retirement security.

Pension Belief 4

A retirement plan should include a defined benefit component, have professionally managed funds with a long-term horizon, and incorporate pooled investments and pooled risks.

Pension Belief 5

Funding policies should be applied in a fair, consistent manner, accommodate investment return fluctuations, and support rate stability.

Pension Belief 6

Pension benefits are deferred compensation and the responsibility for appropriate funding should be shared between employers and employees.

Pension Belief 7

Retirement system decisions must give precedence to the fiduciary duty owed to members, but should also consider the interests of other stakeholders.

Pension Belief 8

Trustees, administrators and all other fiduciaries are accountable for their actions, and must transparently perform their duties to the highest ethical standards.

Pension Belief 9

Sound understanding and deployment of enterprise-wide risk management is essential to the ongoing success of a retirement system.

Pension Belief 10

A retirement system should offer innovative and flexible financial education that meets the needs of members and employers.

Pension Belief 11

As a leader, CalPERS should advocate for retirement security for America's workers and for the value of defined benefit plans.

ABOUT CalPERS (CONTINUED)

INVESTMENT BELIEFS

In September 2013, the CalPERS Board of Administration adopted a set of 10 Investment Beliefs intended to provide a basis for strategic management of the investment portfolio, and to inform organizational priorities.

Investment Belief 1

Liabilities must influence the asset structure.

Investment Belief 2

A long time investment horizon is a responsibility and an advantage.

Investment Belief 3

CalPERS investment decisions may reflect wider stakeholder views, provided they are consistent with its fiduciary duty to members and beneficiaries.

Investment Belief 4

Long-term value creation requires effective management of three forms of capital: financial, physical, and human.

Investment Belief 5

CalPERS must articulate its investment goals and performance measures and ensure clear accountability for their execution.

Investment Belief 6

Strategic asset allocation is the dominant determinant of portfolio risk and return.

Investment Belief 7

CalPERS will take risk only where we have a strong belief we will be rewarded for it.

Investment Belief 8

Costs matter and need to be effectively managed.

Investment Belief 9

Risk to CalPERS is multi-faceted and not fully captured through measures such as volatility or tracking error.

Investment Belief 10

Strong processes and teamwork and deep resources are needed to achieve CalPERS goals and objectives.

HEALTH BELIEFS

In April 2018, the CalPERS Board of Administration adopted a set of six Health Themes and Beliefs that provide a basis for strategic management of the health benefits program to achieve long-term objectives.

Health Program Sustainability

The sustainability of the Health Program is the foremost consideration when reviewing proposed changes to benefits, coverage areas, and costs.

High Quality Care

Health benefit plan designs should improve member health outcomes, maximize quality, and reduce unwarranted care.

Affordability

Health premiums and out-of-pocket costs must be affordable and sustainable for members and employers.

Comprehensive Care

Health plans shall encourage healthy life choices and provide access to essential health care and evidence-based health services.

Competitive Plan Choice

CalPERS shall manage competition among health plans to help drive cost containment and give members access to options among health plans, benefits, and providers.

Quality Program Administration

CalPERS shall meet the needs of its many stakeholders with responsiveness, accuracy, and respectful service.

Independent Auditor's Report

KPMG LLP 500 Capitol Mall, Ste 2100 Sacramento, CA 95814-4754

Independent Auditor's Report

To the Board of Administration California Public Employees' Retirement System:

Report on the Financial Statements

We have audited the accompanying financial statements of the fiduciary activities and the proprietary activities of the California Public Employees' Retirement System (the System), a component unit of the State of California, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the System's basic financial statements as listed in the accompanying table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the fiduciary activities and the proprietary activities of the California Public Employees' Retirement System as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Prior-Year Comparative Information

The financial statements include summarized prior-year comparative information. Such information does not include all of the information required to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the System's financial statements for the year ended June 30, 2017, from which such summarized information was derived.

The System's 2017 basic financial statements were audited by other auditors whose report thereon, dated November 16, 2017, expressed unmodified opinions on those financial statements.

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis and the required supplementary information, as listed in the accompanying table of contents (collectively referred to as RSI) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the System's basic financial statements. The other supplementary information and the introductory, investment, actuarial, statistical, and compliance sections as listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory, investment, actuarial, statistical and compliance sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 16, 2018 on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the System's internal control over financial reporting and compliance.

Sacramento, California November 16, 2018

Management's Discussion & Analysis (Unaudited)

INTRODUCTION

This section presents Management's Discussion & Analysis of the California Public Employees' Retirement System's (CalPERS or the System) financial performance during the fiscal year ended June 30, 2018. It is a narrative overview and analysis that we present in conjunction with the Chief Executive Officer's Letter of Transmittal included in the Introductory Section of this Comprehensive Annual Financial Report (CAFR). It should also be read in conjunction with the Basic Financial Statements of CalPERS as presented in this report.

In addition to historical information, the Management's Discussion & Analysis includes certain forward-looking statements, which involve currently known facts and certain risks and uncertainties. CalPERS' actual results, performance, and achievements may differ from the results, performance, and achievements expressed or implied in such forwardlooking statements due to a wide range of factors, including changes in interest rates, changes in the securities markets, general economic conditions, legislative changes, and other factors.

CalPERS is primarily responsible for administering retirement and health benefits. CalPERS also administers long-term care benefits, a post-employment benefit fund for retiree health, and supplemental retirement savings plans.

MANAGEMENT DISCUSSION

Strategic Planning

CalPERS prepared the 2017-22 Strategic Plan, which succeeded the 2012-17 Strategic Plan. This new plan is a blueprint that will guide the enterprise to meet the investment, retirement, and health benefit needs of our members and their families for the coming five years.

The 2017-22 Strategic Plan was developed over the course of a year-long effort by CalPERS Board members, senior leaders, and team members, with contributions from multiple stakeholders including employer associations, labor groups, retiree associations, federal representatives, health and investment business partners, and state government officials.

This new strategic plan took effect on July 1, 2017, and has five overarching goals:

- · Strengthen long-term sustainability of the pension fund
- · Transform health care purchasing and delivery to achieve affordability
- · Reduce complexity across the enterprise
- · Cultivate a risk-intelligent organization
- · Promote a high-performing and diverse workforce

Also commencing on July 1, 2017, was the 2017-18 Business Plan Initiatives, which will allow the organization to set priorities and assist in the allocation of resources as well as align to the 2017-18 budget cycle. Each business plan initiative provides the means and major inputs to accomplish the goals and objectives of the strategic plan. CalPERS identified 37 initiatives to begin the work needed to support the overall strategic direction of the organization.

Key Initiatives

CalPERS continued to enhance its operations as follows:

- · CalPERS continues the Asset Liability Management (ALM) process to expand its review of assets and liabilities to ensure financial risks to the System are better understood, communicated, and mitigated. To establish appropriate levels of risk, ALM is focused on investment and actuarial policies. These policies include key decision factors and are intended to drive optimum asset allocations, while stabilizing employer contribution rates and the volatility of those rates from year to year. Additionally, in order to better manage risks arising from terminating agencies, CalPERS has enhanced its oversight of contracting public agencies' financial health through its development of a standardized review criteria. These improvements include streamlining the collection and termination process to reduce the timeframe, accelerating notifications to the Board and members, and adopting a risk oversight process to improve early detection of financial hardship issues. In Fiscal Year 2017-18, CalPERS adopted a new four-year asset allocation of the Fund's investment portfolio to align with a phased lowering of the discount rate to 7.0 percent; CalPERS also adopted new actuarial assumptions and approved modifications to the amortization policy, shortening the period over which actuarial gains and losses are amortized from 30 to 20 years.
- CalPERS' 5-year sustainable investment strategy (2017-22) takes an enterprise-wide view on improving the sustainability of long-term pension benefits and actively managing business risks. CalPERS has associated key performance indicators (KPIs) with this strategy, and includes a strategic focus on:
 - Data and Corporate Reporting Standards
 - Climate Action 100+ Engagement (formerly UN PRI Montreal Pledge)
 - Diversity and Inclusion
 - Manager Expectations
 - Research
 - Private Equity Fee and Profit Sharing Transparency

Core work areas are integration of environmental, social and governance (ESG) factors into investment process, Financial Markets Advocacy, Shareowner Campaigns, Corporate & Manager Engagement, Proxy Voting, Responsible Contractor Program, Carbon Footprinting, and Ad Hoc Media and Stakeholder Requests.

OVERVIEW OF THE FINANCIAL STATEMENTS AND ACCOMPANYING INFORMATION

Management's Discussion & Analysis provides an introduction to and overview of the financial position, which comprises the following components: Basic Financial Statements, Notes to the Basic Financial Statements, Required Supplementary Information, and Other Supplementary Information. Collectively, this information presents the combined net position restricted for pension benefits, other post-employment benefits (OPEB), deferred compensation, replacement benefits, and the unrestricted net position of the proprietary funds administered by CalPERS as of June 30, 2018. It also summarizes the combined changes in fiduciary net position restricted for pension, other postemployment, and replacement benefits; the changes in unrestricted net position; and the cash flows of the proprietary funds for the year then-ended, along with disclosures about the net pension liabilities of the single-employer and costsharing multiple-employer defined benefit pension plans.

FINANCIAL HIGHLIGHTS

Major events and initiatives impacting the current fiscal year's financial statements include:

- · The Public Employees' Retirement Fund (PERF) realized a money-weighted rate of return (MWRR) of 8.4 percent in Fiscal Year 2017-18 resulting from positive performance across most globally diversified asset classes. Drivers of the PERF's investment return include strong performances from public equity, private equity, and real assets investments. Additionally, fixed income and liquidity asset classes outperformed their respective benchmarks.
- During the first of a three-year plan to lower the discount rate for the PERF, the rate was lowered from 7.5 percent to 7.375 percent. Lowering the discount rate, also known as the assumed rate of return, is one step in ensuring the long-term stability of the Fund. An incremental approach over three years will give employers more time to prepare for the changes in contribution costs. Lowered funding discount rates for the Legislators' Retirement Fund (LRF), Judges' Retirement Fund (JRF), and Judges' Retirement Fund II (JRF II) are also in effect.

- · The Board approved a two-year value-based insurance design (VBID) pilot for the PERS Select Basic Preferred Provider Organization (PPO) plan in March 2018. The VBID approach allows members to choose a personal care physician to coordinate their health care to ensure they are obtaining needed care. In addition, it provides incentives to members to become more involved in their health decisions and earn credits to reduce their annual deductible costs.
- In June 2018, the Board adopted "buy down" proposals for the PERSCare Basic PPO plan and all Medicare PPO plans. Using funds from PPO plan reserves, the Board adopted lower rates for these plans compared to what they would have been had the reserve funds not been used. While the buy-down lessens rate increases, PERSCare Basic PPO plan members will still see a 19.8 percent increase in 2019 premiums.
- In May 2016, the CalPERS Board approved the Blue Shield of California (Blue Shield) request to terminate its NetValue Health Maintenance Organization (HMO) health plan. In accordance with the BlueShield NetValue contract, CalPERS and Blue Shield agreed to settle all amounts for administrative services fees, capitation, outstanding fees for service claims, and other expenses. In May 2018, Blue Shield accepted a final settlement agreement and the CalPERS Health Team successfully unwound the Blue Shield NetValue Health Plan contract.
- In Fiscal Year 2017-18 CalPERS reported its proportionate share of post-employment liabilities and restated the beginning net position for all funds, excluding the Replacement Benefit Fund (RBF).

BASIC FINANCIAL STATEMENTS

The June 30, 2018, financial statements separate the funds administered by CalPERS into two categories: fiduciary funds and proprietary funds. While CalPERS' role as a trustee and its monitoring of financial position occur in both categories, a primary focus of fiduciary funds is CalPERS' duty with respect to the payment of benefits, whereas a core function for proprietary funds is the payment of services.

Fiduciary Funds - include the PERF (split into PERF A, PERF B, and PERF C); LRF; JRF; JRF II; Public Employees' Deferred Compensation Fund (DCF); Supplemental Contributions Program Fund (SCPF); Annuitants' Health Care Coverage Fund, also known as California Employers' Retiree Benefit Trust Fund (CERBTF); and RBF. Fiduciary funds are

used to account for resources held for the benefit of CalPERS participants.

A Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position are presented for the fiduciary funds as of and for the fiscal year ended June 30, 2018, along with comparative total information as of and for fiscal year ended June 30, 2017. These financial statements reflect the resources available to pay benefits to retirees and other beneficiaries as of year-end, and the changes in those resources during the year.

Proprietary Funds – include the Health Care Fund (HCF), Contingency Reserve Fund (CRF), and the Public Employees' Long-Term Care Fund (LTCF). A Statement of Net Position, a Statement of Revenues, Expenses, and Changes in Net Position, and a Statement of Cash Flows are presented for the proprietary funds as of and for fiscal year ended June 30, 2018, along with comparative total information as of and for fiscal year ended June 30, 2017. These financial statements reflect the net position, changes in net position, and cash flows resulting from CalPERS business-type activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the information provided in the fund financial statements. Information available in the Notes to the Basic Financial Statements is described below:

Note 1 – provides general information on CalPERS, each of the funds administered, employer and member participation in the pension plans, and other post-employment benefit plans administered by CalPERS.

Note 2 – provides a summary of significant accounting policies, including the basis of accounting for each of the fund types, target asset allocation, management's use of estimates, and other significant accounting policies.

Note 3 – provides cash and cash equivalents information.

Note 4 - provides detail on the fair value of investments, and information on money-weighted rate of return.

Note 5 – provides information about investment risk categorizations.

Note 6 – provides information about securities lending.

Note 7 – provides information about derivatives.

Note 8 – provides information about the net pension liabilities/(asset) and actuarial assumptions for cost-sharing and single-employer plans.

Note 9 - provides information about the CERBTF, including plan members, participating employers, and contributions.

Note 10 - provides information about the RBF, as well as applicable internal revenue and government codes.

Note 11 - provides detailed information about the HCF and the estimated claims liability of the HCF.

Note 12 – provides additional information about participating agencies and insurance premiums paid by the CRF.

Note 13 – provides information about the LTCF actuarial valuation and the estimated liability for future policy benefits.

Note 14 - provides information on potential contingencies of CalPERS.

Note 15 - provides information about future accounting pronouncements.

REQUIRED SUPPLEMENTARY INFORMATION

The Required Supplementary Information schedules include information about the changes in the net pension liability, employer contributions, actuarial assumptions used to calculate the actuarially determined contributions, historical trends, and other required supplementary information related to the System's cost-sharing multiple-employer and singleemployer defined benefit pension plans as required by GASB Statement No. 67, Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25 (GASB 67).

The MWRR expresses investment performance, net of investment expense, and is disclosed per the requirements of GASB 67 and GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (GASB 74).

The Schedule of Claims Development Information for the HCF provides earned revenues and expenses over the past 10 years.

OTHER SUPPLEMENTARY INFORMATION

Other schedules include detailed information on administrative expenses incurred by CalPERS-administered funds, investment expenses, and other professional services expenses incurred.

FINANCIAL ANALYSIS

PUBLIC EMPLOYEES' RETIREMENT FUND (PERF)

The PERF is a trust fund established under section 20170 of the Public Employees' Retirement Law (PERL). The PERF provides retirement benefits to State of California, schools, and other California public agency employees. The PERF benefits are funded by member and employer contributions and by earnings on investments.

For financial reporting purposes only, the PERF is comprised of and reported as three separate entities. PERF A is comprised of agent multiple-employer plans, which includes the State of California and most public agency rate plans with more than 100 active members. PERF B is a cost-sharing multiple-employer plan of school employers consisting of nonteaching and non-certified employees. PERF C is a costsharing multiple-employer plan of public agencies with generally fewer than 100 active members. Under applicable law, the CalPERS Board may terminate or a public agency may terminate that agency's plan under either PERF A or PERF C. The terminated agency is liable to the system for all costs to fund all benefits under the agency's contract. An unpaid deficit in funding will result in a commensurate reduction in benefits provided under that agency's contract.

Movements of member account asset balances occur between PERF A, PERF B, and PERF C when employer rate plans have fewer than 100 members, or when there are other member accounting adjustments. These plan-to-plan resource movements are reported as a separate line item within the additions and deductions sections, respectively, of each plan's Statement of Changes in Fiduciary Net Position.

The PERF net position increased by \$28.5 billion or 8.7 percent from the restated beginning balance of \$325.5 billion to \$354.0 billion as of June 30, 2018, primarily due to continued market growth. Receivables increased \$6.0 billion or 83.1 percent due to higher investment balance for unitized investments presented from a security level perspective as opposed to net asset value (NAV). Investment balances increased by \$31.6 billion from \$326.4 billion as of June 30, 2017, to \$358.0 billion as of June 30, 2018. Securities lending collateral increased \$1.2 billion or 26.1 percent and securities lending obligations increased \$1.2 billion or 26.0 percent as a result of an overall increase in demand to borrow securities at year-end. Similar to receivables, retirement benefits, investment settlement, net pension and OPEB obligations, and other liabilities increased \$10.1 billion or 111.7 percent due to higher outstanding investment trades, and the accrual of post-employment obligations at year-end.

Additions to the PERF net position include member contributions, employer contributions, and investment income. Despite a decrease in total active member count, member contributions increased \$0.2 billion or 4.8 percent, primarily due to an increase in the number of Public Employees' Pension Reform Act (PEPRA) members who contribute at a higher rate. Employer contribution rates increased between 0.7 percent and 4.1 percent for state, 1.6 percent for schools, and between 1.1 percent and 1.7 percent on average for public agency miscellaneous and safety plans. The increase in additional unfunded liability payments, employer contribution rates, and active members who contribute resulted in an increase in employer contributions of \$7.6 billion or 61.6 percent.

Net investment income is comprised of interest income, dividend income, and net appreciation or depreciation in fair value of investments, and is net of investment expenses.

Net investment income was \$27.4 billion in Fiscal Year 2017-18, compared to \$33.0 billion in Fiscal Year 2016-17. The current year returns were helped by strong absolute performance in CalPERS' private equity and public equity portfolios. Additionally, the PERF recognized a MWRR of 8.4 percent for Fiscal Year 2017-18 compared with 11.2 percent for Fiscal Year 2016-17.

Deductions from the PERF are comprised of benefit payments, refunds of contributions to members and beneficiaries, and costs of administering the PERF. Benefit payments are the primary expense of a retirement system. For Fiscal Year 2017-18, retirement, death, and survivor benefits increased \$1.4 billion or 6.8 percent, primarily due to a rise in the number of retirees and beneficiaries from 668,059 as of June 30, 2017, to 694,570 as of June 30, 2018. Administrative expenses increased \$64.2 million or 14.6 percent, primarily due to implementation of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (GASB 75) in Fiscal Year 2017-18, resulting in additional post-employment expense allocations to the fund refer to Note 2 in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

OTHER DEFINED BENEFIT PLANS

LEGISLATORS' RETIREMENT FUND (LRF)

The LRF provides retirement benefits to California Legislators elected to office before November 7, 1990, and to constitutional, legislative, and statutory officers elected or appointed prior to January 1, 2013. The number of LRF members has been declining as eligible incumbent Legislators leave office and are replaced by others who are ineligible to participate in the LRF. Actuarially determined contributions will continue to be made by the State of California to supplement the existing assets until all benefit obligations have been fulfilled.

As the LRF is closed to new members and income is primarily limited to investment returns and contributions based on a declining number of active members, CalPERS expects the net position of the fund to steadily decrease over time.

Fiscal Year 2017-18 net position of the LRF decreased by \$1.6 million or 1.4 percent from the restated beginning balance of \$115.4 million to \$113.9 million. Receivables decreased by \$3.2 million or 96.4 percent due to reduced outstanding investment trades as of year end. Investments at fair value decreased \$5.5 million or 4.6 percent. As the number of active members continues to decline, LRF investments are sold to assist in paying benefits. Securities lending cash collateral and securities lending obligations decreased as a result of a decrease in demand to borrow securities versus cash collateral at year end. Similar to receivables, retirement benefits, investment settlement, and other liabilities decreased \$5.0 million or 68.4 percent primarily due to reduced outstanding investment trades as of year-end.

Additions to the LRF's net position primarily came from net investment income of \$5.5 million in Fiscal Year 2017-18. This was an increase of \$0.5 million or 9.0 percent and was primarily due to improved performance in investment markets. The LRF recognized a MWRR of 4.8 percent for Fiscal Year 2017-18 compared with 4.3 percent for Fiscal Year 2016-17. Partially offsetting this increase was a decrease in combined member and employer contributions.

Deductions from the LRF are primarily comprised of benefit payments, refunds, and administrative expenses. Total deductions decreased by \$0.2 million or 3.0 percent due primarily to decreases of \$0.3 million or 4.6 percent in benefit payments and refunds of contributions. Partially offsetting this, administrative expenses increased \$0.1 million or 16.7 percent primarily due to implementation of GASB 75 in Fiscal Year 2017-18 resulting in additional post-employment expense allocations to the fund—refer to Note 2 in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

JUDGES' RETIREMENT FUND (JRF)

The JRF provides retirement benefits to California Supreme and Appellate Court justices and Superior Court judges appointed or elected before November 9, 1994. The State of California does not pre-fund the benefits for this fund and the benefits are funded on a pay-as-you-go basis.

Fiscal Year 2017-18 net position decreased \$4.2 million or 9.7 percent from the restated beginning balance of \$43.9 million to \$39.6 million primarily due to lower contributions from the State General Fund. Liabilities increased \$5.4 million, primarily due to post-employment obligations due at the current year-end.

Additions to the JRF come primarily from employer, member, and state "balancing contributions," from the General Fund, which decreased as a whole \$5.6 million or 2.7 percent, primarily due to a decrease in the State General Fund contributions. General Fund contributions to pay participant benefits were reduced in Fiscal Year 2017-18 because of a surplus cash balance.

Deductions from the JRF include benefit payments, which increased \$7.4 million or 3.7 percent due in part to an increase in the amount of Extended Service Incentive benefits paid. Administrative expenses increased \$0.3 million or 18.9 percent, primarily due to implementation of GASB 75 in Fiscal Year 2017-18 resulting in additional post-employment expense allocations to the fund—refer to Note 2 in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

JUDGES' RETIREMENT FUND II (JRF II)

The JRF II provides retirement benefits to California Supreme and Appellate Court Justices and Superior Court Judges first appointed or elected on or after November 9, 1994.

The net position of the JRF II increased by \$174.9 million or 12.9 percent from the restated beginning balance of \$1.4 billion to \$1.5 billion. Receivables decreased by \$32.4 million or 81.1 percent, primarily due to reduced outstanding investment trades as of year-end. JRF II investment balances increased by \$146.8 million or 10.7 percent, primarily due to continued positive investment returns. Securities lending cash collateral and securities lending obligations decreased as a result of a decrease in demand to borrow securities versus cash collateral at yearend. Similar to receivables, retirement benefits, investment settlement, and other liabilities decreased \$67.7 million or 81.6 percent, primarily due to reduced outstanding investment trades as of year-end.

Additions to the JRF II net position include member contributions, employer contributions, and investment income. Member and employer contributions in the JRF II increased, primarily due to an increase in the number of active members from 1,508 as of June 30, 2017, to 1,543 as of June 30, 2018. Member contributions increased \$2.4 million or 9.7 percent, while employer contributions increased \$12.6 million or 18.8 percent. The fund had a decrease in net investment income of \$13.1 million from \$114.3 million in Fiscal Year 2016-17, to \$101.2 million in Fiscal Year 2017-18. This decrease resulted from lower performance gains in investment markets. Additionally, the JRF II recognized a MWRR of 7.4 percent for Fiscal Year 2017-18 compared with 9.6 percent for Fiscal Year 2016-17.

Deductions from the JRF II are comprised of benefit payments, refund of contributions to members and beneficiaries, and costs of administering the JRF II. Current year benefit payments increased \$9.4 million or 42.2 percent due to an increase in benefit recipients from 170 in Fiscal Year 2016-17 to 231 in Fiscal Year 2017-18. Administrative expenses increased \$0.7 million or 40.8 percent primarily due to implementation of GASB 75 in Fiscal Year 2017-18, resulting in additional post-employment expense allocations to the fund—refer to Note 2 in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

ASSET LIABILITY MANAGEMENT - DEFINED **BENEFIT PLANS**

The Asset Liability Management (ALM) process is an integrated review of pension assets and liabilities to inform decisions designed to achieve a sound and sustainable fund. CalPERS continues to expand its review of assets and liabilities so that financial risks to the System can be better understood, communicated, and managed.

To establish appropriate levels of risk, ALM is focused on investment and actuarial policies and key decision factors that are intended to drive an optimum asset allocation while stabilizing employer rates and the volatility of those rates from year to year. ALM is designed to improve the sustainability and soundness of the PERF, and the goal is to achieve 100 percent funding at an acceptable level of risk. Reducing the risk in the funding of the System will involve tradeoffs between short-term and long-term priorities.

The allocation of investment assets in order to maintain focus on long-term returns is an important factor in the sustainability of the PERF. In September 2016, the CalPERS Board adopted an interim asset allocation for the PERF through July 2018 that lowered investment risk but largely kept investment strategy unchanged. The new interim strategy established target thresholds that shifted the allocation of some assets out of growth strategies and primarily into inflation, liquidity, and real assets strategies.

In December 2017, the CalPERS Board voted on the asset allocation of the PERF's investment portfolio for the next four years. The Board examined four potential portfolios and their impact on the PERF. Each portfolio represented different distributions of assets based on varying rates of expected return and risk of volatility. The Board selected the portfolio with expected volatility of 11.4 percent and a return of 7.0 percent, which aligns with the December 2016 decision to lower the discount rate to 7.0 percent over three years.

Also in December 2017, the CalPERS Board voted to adopt the new actuarial assumptions that were presented in the December 2017 CalPERS Experience Study report, to be effective with the June 30, 2017 actuarial valuations (June 30, 2018 for the schools plan). With these changes, contribution rates for the State will be impacted in Fiscal Year 2018-19, and contribution rates for schools and public agencies will result in Fiscal Year 2019-20.

Additionally, in February 2018 the Board approved modifications to the amortization policy shortening the period over which actuarial gains and losses are amortized from 30 to 20 years. Amortization payments for all unfunded accrued liability bases will be computed to remain a level dollar amount throughout the amortization period. The five-year ramps (up and down) were removed for non-investment gains and

losses. The five-year ramp down was removed for investment gains and losses. These changes will have an effective date of June 30, 2019. These changes will not apply to unfunded accrued liability bases created before June 30, 2019.

In order to better manage risks arising from terminating agencies, CalPERS has enhanced its oversight of contracting public agencies' financial health through its development of a standardized review criteria. These improvements include streamlining the collection and termination process to reduce the timeframe, accelerating notifications to the Board and members, and adopting a risk oversight process to improve early detection of financial hardship issues. These process and monitoring improvements support Fund Sustainability and Risk Management Goals of the CalPERS 2017-22 Strategic Plan, which aims to strengthen the long-term sustainability of the pension funds.

FUNDING ANALYSIS - DEFINED BENEFIT PLANS

The CalPERS Board has made several important decisions in the recent past, which impact the current funding of pension benefits at CalPERS. In December 2016, the CalPERS board voted to lower the discount rate from 7.5 percent to 7.0 percent. In December 2017, the CalPERS Board adopted a new asset allocation which supports the 7.0 percent discount rate and adopted new actuarial assumptions. Also, in February 2018 the CalPERS Board voted to shorten the period over which actuarial gains and losses are amortized from 30 to 20 years. Over time, these policies are designed to improve funding levels and help reduce overall funding level risk.

The JRF is funded on a "pay-as-you-go" basis, where shortterm investments, contributions received during the year, and a State General Fund augmentation are used to provide funding for benefit payments. This funding method is generally more expensive in the long term, as the plan does not have investment returns generated by a funded plan. Without the State General Fund augmentation, the JRF will not be able to pay the accumulated benefit payments due in Fiscal Year 2018-19.

As of June 30, 2017, the funded status of the PERF was 70.1 percent. The funded status as of June 30, 2018, is estimated to be approximately 71.0 percent. PERF funded status values were calculated using a 7.00 percent discount rate. As of June 30, 2017, the funded status of the JRF II was 99.3 percent. The funded status as of June 30, 2018, is estimated to increase to approximately 100.1 percent, mostly as a result of investment returns in Fiscal Year 2017-18. Both JRF II funded status values were calculated using a 6.5 percent discount rate. As of June 30, 2017, the funded status of the LRF was 115.9 percent. The funded status as of June 30, 2018, is estimated to increase to approximately

Management's Discussion & Analysis (Unaudited) (continued)

116.7 percent. Both LRF funded status values were calculated using a 5.0 percent discount rate. All these funded statuses were calculated based on the market value of assets used in actuarial valuations that set funding requirements for employers.

Over the course of a three-year phase-in, and beginning with the June 30, 2016, valuation (June 30, 2017, valuation for the schools plan), the funding discount rates for PERF employers decreased from 7.50 percent to 7.00 percent. The final scheduled decrease to 7.00 percent will occur with the June 30, 2018, valuation (June 30, 2019, valuation for the schools plan).

Under GASB 67, there is a difference between the assumptions and components used to determine the net pension liabilities that must be reported in financial statements and the actuarial accrued liabilities and actuarial value of assets used to determine pension contributions established as part of funding valuations. The Actuarial Section included in this report provides actuarial information that was derived for purposes of establishing the funding requirements of employers for which CalPERS administers retirement benefits.

The GASB 67 financial reporting discount rate for the PERF remained at 7.15 percent. Assets used for GASB 67 financial reporting purposes are slightly greater than assets used for funding requirements as they include amounts for deficiency reserves and fiduciary self-insurance, which creates differences in plan assets reported in the funding actuarial valuation report. CalPERS is required to report Plan Fiduciary Net Position as a percentage of Total Pension Liability for the cost-sharing multiple employer plans (PERF B and PERF C) and for the single-employer pension plans (LRF, JRF, and JRF II). The discount rates used for financial reporting for the PERF B, PERF C, LRF, and JRF II are adjusted for administrative expenses as compared with the rates used for funding, which are net of administrative expenses. The funding discount rate in the JRF differs from the financial reporting discount rate. The JRF uses yields on 20-year tax-exempt General Obligation Municipal Bonds.

In April 2017, the CalPERS Board voted to also lower the funding discount rates for the LRF, JRF, and JRF II, which impacted employer rates beginning in Fiscal Year 2018-19. These funding rates were used in the June 30, 2017, actuarial valuation reports for the LRF, JRF, and JRF II. The LRF funding discount rate was 5.00 percent, JRF was 3.00 percent, and JRF II was 6.50 percent. The financial reporting discount rate used in the JRF was not impacted as its benefit obligations are funded by the State using the pay-as-you-go method.

The following table displays the difference between discount rates for the LRF, JRF, and JRF II that were effective as of June 30, 2018:

Fund	Funding Discount Rate	Financial Reporting Discount Rate
LRF	5.00%	5.25%
JRF	3.00%	3.62%
JRF II	6.50%	6.65%

DEFINED CONTRIBUTION PLANS

PUBLIC EMPLOYEES' DEFERRED COMPENSATION FUND (DCF)

The DCF is available to public agencies and school districts within the State of California that have elected to contract for a deferred compensation plan.

The net position of the DCF increased by \$55.3 million or 3.8 percent from the restated beginning balance of \$1.4 billion to \$1.5 billion. Investment balances increased by \$54.5 million from Fiscal Year 2016-17 to Fiscal Year 2017-18 due to favorable market conditions. Member contributions in the fund increased \$2.3 million or 2.1 percent compared with prior year.

Total additions decreased \$20.4 million primarily due to less favorable investment returns in Fiscal Year 2017-18 compared with Fiscal Year 2016-17.

Overall total deductions in the DCF increased by \$78.4 million or 82.7 percent. This was primarily due to an increase in participant withdrawals from the plan of \$77.7 million from \$90.3 million in Fiscal Year 2016-17 to \$168.0 million in Fiscal Year 2017-18. Administrative expenses increased \$0.7 million or 15.7 percent, primarily due to implementation of GASB 75 in Fiscal Year 2017-18 resulting in additional post-employment expense allocations to the fundrefer to Note 2 in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

SUPPLEMENTAL CONTRIBUTIONS PROGRAM FUND (SCPF)

The SCPF was established effective January 1, 2000, to provide supplemental retirement benefits to State of California employees who are members of CalPERS and is entirely member-funded.

The net position of the SCPF decreased \$4.2 million or 3.5 percent from the restated beginning balance of \$120.3 million to \$116.1 million. While positive returns were achieved in both current and prior years, Fiscal Year 2017-18 was slightly less favorable. Net investment income decreased by \$2.5 million, from \$6.9 million in Fiscal Year 2016-17 to \$4.4 million in Fiscal Year 2017-18.

Total additions decreased \$2.5 million primarily due to less favorable investment returns in Fiscal Year 2017-18 compared with Fiscal Year 2016-17.

The primary deductions in the SCPF reflect withdrawals made by participants. Participant withdrawals decreased \$2.0 million, from \$11.0 million as of Fiscal Year 2016-17 to \$9.0 million as of Fiscal Year 2017-18. Administrative expenses increased \$25.0 thousand or 6.7 percent, primarily due to implementation of GASB 75 in Fiscal Year 2017-18, resulting in additional post-employment expense allocations to the fund—refer to Note 2 in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

OTHER POST-EMPLOYMENT BENEFIT TRUST **FUND**

CALIFORNIA EMPLOYERS' RETIREE BENEFIT TRUST FUND (CERBTF)

The CERBTF is a trust for employers to pre-fund health, dental, and other non-pension post-employment benefits.

Net position restricted for OPEB benefits on June 30, 2018, increased \$1.5 billion or 22.3 percent from the restated beginning balance of \$6.8 billion to \$8.3 billion, primarily due to continued employer contributions in Fiscal Year 2017-18, combined with continued positive investment returns. Receivables decreased \$108.0 million or 73.8 percent, primarily due to reduced outstanding investment trades as of year end. Investments at fair value increased \$1.4 billion or 19.9 percent due to continued favorable market conditions and assets under management growing from employer contributions. Securities lending cash collateral and securities lending obligations increased as a result of a larger allocation to assets which participated in the securities lending program the past fiscal year.

Similar to receivables, other post-employment benefits, investment settlement, and other liabilities decreased \$228.2 million or 72.8 percent, primarily due to reduced outstanding investment trades as of year-end.

Additions to the CERBTF net position restricted for OPEB benefits are primarily made up of employer contributions (directly to the Trust and outside the Trust) and net investment income. Employer contributions increased \$161.3 million or 4.3 percent, primarily due to higher contributions from existing participating employers. During Fiscal Year 2017-18, the fund experienced net investment income of \$530.2 million, a decrease of \$29.8 million from a net investment return of \$560.0 million in Fiscal Year 2016-17. The decrease resulted from lower performance gains in investment markets. Additionally, the CERBTF recognized a MWRR of 7.3 percent in Fiscal Year 2017-18, compared with 10.0 percent in Fiscal Year 2016-17.

Deductions from the CERBTF net position restricted for OPEB benefits were primarily made up of employer reimbursements (directly from the Trust and outside the Trust), which increased \$259.7 million or 9.8 percent, due to increased volume of reimbursement requests among existing participating employers. The amounts reported for contributions and reimbursements made directly by employers to healthcare providers outside the trust amounted to \$2.9 billion for Fiscal Year 2017-18 compared with \$2.6 billion in Fiscal Year 2016-17. Administrative expenses increased \$0.8 million or 28.1 percent primarily due to implementation of GASB 75 in Fiscal Year 2017-18, resulting in additional postemployment expense allocations to the fund—refer to Note 2

in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

CUSTODIAL FUND

REPLACEMENT BENEFIT FUND (RBF)

The RBF is a qualified excess benefit arrangement pursuant to IRC section 415(m), and provides for the replacement of the portion of retirement allowance that exceeds Internal Revenue Code (IRC) section 415(b) dollar limits. Employers are invoiced by CalPERS for amounts payable to their former employees, and CalPERS subsequently pays the replacement benefit to retirees. Participants of the RBF cover the administrative costs to maintain the fund.

The net position of the RBF increased by \$157 thousand or 93.0 percent, primarily due to an increase in administrative fee revenues received and the number of retirees receiving benefits in Fiscal Year 2017-18 compared to prior year.

Deductions from the RBF include benefit payments, which increased \$1.9 million or 9.0 percent due to an increase in the number of retirees receiving benefits from 978 as of June 30, 2017, to 1,167 as of June 30, 2018. Administrative expense increased by \$211 thousand or 88.0 percent, primarily due to a full cost recovery to administer the plan.

ENTERPRISE FUNDS

PUBLIC EMPLOYEES' HEALTH CARE FUND (HCF)

The HCF accounts for the activities of the CalPERS selffunded health plans, PERS Choice, PERSCare, and PERS Select, and Flex-funded health plans, Anthem Blue Cross, Blue Shield of California, Health Net, Sharp, UnitedHealthcare, and Western Health Advantage.

In June 2018, in order to offset the financial impact of changes in patient utilization and other medical cost increases, the Board adopted two "buy-down" efforts to smooth PERSCare plan premium increases for 2019. Using funds from its health reserve, CalPERS opted to buy down the premiums for its PERSCare PPO plan, and Medicare PPO plans. While the buy-down efforts lessen the impact, PERSCare members will still see a 19.8 percent increase in 2019 premiums.

The net position of the HCF at the end of the year was \$485.6 million, an increase of \$100.4 million or 26.1 percent from the restated beginning net position of \$385.2 million.

Revenues include premiums collected from members and employers, federal subsidies, and investment income (nonoperating revenues). Premiums collected increased \$119.7 million or 3.1 percent, primarily due to an increase in health care rates. Net investment income increased \$13.9 million or 463.8 percent due to an increase in the shortterm interest rate.

Expenses are comprised of claims, investment fees, and costs incurred to oversee the plans. Claim expenses and estimated liabilities increased \$207.5 million, or 6.2 percent, primarily due to an increase in medical claims. Costs incurred to administer the plans decreased by \$8.5 million or 2.7 percent due to a decrease in Affordable Care Act taxes and fees. This was partially offset by the required reporting of GASB 75 in Fiscal Year 2017-18—refer to Note 2 in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

PUBLIC EMPLOYEES' CONTINGENCY RESERVE FUND (CRF)

The CRF was established to fund administrative costs related to the CalPERS health care programs and to provide a contingency reserve for potential increase in future health care premiums rates and health care benefit costs.

The net position of the CRF at the end of year was negative \$57.8 million, a decrease of \$1.4 million or 2.6 percent from the restated beginning net position of negative \$56.3 million.

Revenues include administrative fees collected and investment income. Administrative fees are determined as a percentage of total active and retired health premiums. These fees increased \$2.6 million or 9.6 percent because of an increase of administrative fee rate from 0.31 percent in Fiscal Year 2016-17 to 0.33 percent in Fiscal Year 2017-18. Investment income increased \$1.1 million or 56.3 percent due to an increase in the short-term interest rate.

Expenses are comprised of investment fees and costs incurred to administer the CRF. Administrative expenses increased \$7.5 million or 27.6 percent, primarily due to the required reporting of GASB 75 in Fiscal Year 2017-18—refer to Note 2 in the Notes to the Basic Financial Statements. subheading Adoption of New Accounting Standard and Immaterial Correction.

PUBLIC EMPLOYEES' LONG-TERM CARE FUND (LTCF)

The LTCF helps to provide financial protection to participants from the high cost of eligible covered services caused by chronic illness, injury, or old age. Long-term care products reimburse the cost for covered personal care services (activities of daily living) such as bathing, dressing, toileting, transferring, continence, and eating, which are not typically covered by traditional health insurance or Medicare.

Long-term care participation is voluntary, and benefits are funded by member premiums and the LTCF investment income. The LTCF is continuously appropriated under the exclusive control of the Board for the exclusive benefit of participants in the program.

The long-term care program launched an integrated marketing campaign to promote and grow application activity. The Long-Term Care Group (LTCG) Preferred Provider Network continued to gain additional contracted providers, which may provide discounts from 5 percent to 20 percent on services for participants and have total annual savings of approximately \$1.2 million. The third-party administrator has continued its efforts to enroll more providers and educate participants on the benefits of utilizing a preferred provider.

Unrestricted net position of the LTCF decreased by \$166.4 million or 185.6 percent, primarily due to an increase in the estimated liability for future policy benefits resulting from a discount rate change from 5.75 percent to 5.25 percent, which was approved by the Board in February 2018, and lower than expected investment returns. Receivables increased \$2.8 billion or 24.8 percent primarily due to higher investment balance for unitized investments presented from a security level perspective as opposed to net asset value (NAV). Cash and cash equivalents also increased by \$2.5 million or 33.4 percent due to the reserve established and held at the bank to manage potential funding risk if a stress event were to occur.

The LTCF revenues include premiums collected from participants and investment income. Participation in the plan decreased by 3.0 percent mainly due to participant deaths, coverage cancellations, non-payment of premiums, and exhaustion of benefits. This resulted in the decrease of premium revenue of \$10.0 million or 3.3 percent. Nonoperating revenues are comprised of net appreciation or depreciation in fair value of investments and interest, dividend, and other investment income. The investment income for Fiscal Year 2017-18 was \$177.6 million, an increase of \$108.6 million or 157.4 percent from the prior year due to higher investment returns and more favorable market conditions for equity securities.

Total expenses are comprised of claims, changes in estimated liabilities for future policy benefits, administrative costs to the program, and investment expenses. The overall increase in total expenses is primarily attributable to the increase in the estimated future policy liabilities. Refer to Note 13 for additional information regarding the calculation of the estimated liabilities for future policy benefits. Administrative expenses increased \$1.5 million or 5.8 percent primarily due to the required reporting of GASB 75 in Fiscal Year 2017-18 refer to Note 2 in the Notes to the Basic Financial Statements, subheading Adoption of New Accounting Standard and Immaterial Correction.

Notes to the Basic Financial Statements

1. DESCRIPTION OF CALIFORNIA PUBLIC **EMPLOYEES' RETIREMENT SYSTEM**

ORGANIZATION

The California Public Employees' Retirement System (CalPERS or the System) was established by legislation in 1931 for the purpose of providing a secure retirement to employees of the State of California (State). In 1939, new legislation allowed public agency and classified school employees to join CalPERS for retirement benefits. CalPERS began administering health benefits for state employees in 1962, and five years later, offered health benefits to public agencies on a contract basis.

CalPERS is governed by the Board of Administration (the Board), which consists of 13 members: two elected by CalPERS members, one elected by active state members, one elected by active CalPERS school members, one elected by active CalPERS public agency members, one elected by retired members of CalPERS, two appointed by the Governor, one public representative appointed jointly by the Speaker of the Assembly and Senate Rules Committee, and four ex officio members: State Treasurer, State Controller, Director of California Department of Human Resources, and Designee of the State Personnel Board. The Board is responsible for the management and control of CalPERS, including the exclusive control of the administration and investment of the System.

CalPERS acts as the common investment and administrative agency for the following plans:

CalPERS Plans

Plan Name	Type of Plan
Defined Benefit Pension Plans:	
Public Employees' Retirement Fund A	Agent multiple-employer
Public Employees' Retirement Fund B	Cost-sharing multiple-employer
Public Employees' Retirement Fund C	Cost-sharing multiple-employer
Legislators' Retirement Fund	Single-employer
Judges' Retirement Fund	Single-employer
Judges' Retirement Fund II	Single-employer
Defined Contribution Plans:	
Public Employees' Deferred Compensation Fund	Multiple-employer (457 & 401K plans)
Supplemental Contributions Program Fund	Single-employer
Defined Benefit Other Post-Employme	nt Benefit Plan:
California Employers' Retiree Benefit Trust Fund	Agent multiple-employer

DEFINED BENEFIT PENSION PLANS

Below are summary descriptions of each defined benefit pension plan administered by CalPERS:

Public Employees' Retirement Fund (PERF) - The PERF was established by Chapter 700 of the 1931 Statutes and provides retirement, death and disability benefits to members of its participating employers, which include the State of California, non-teaching, non-certified employees in schools, and various other public agencies. The benefit provisions for the state and school employees are established by statute. The benefits options for the public agencies are established by statute and voluntarily selected by contract with the System in accordance with the provisions of the Public Employees' Retirement Law.

For financial reporting purposes only, the PERF is comprised of and reported as three separate entities. PERF A is an agent multiple-employer plan, which includes the State of California and most public agencies' rate plans with more than 100 active members. PERF B is a cost-sharing multipleemployer plan of school employers consisting of non-teaching and non-certified employees. PERF C is a cost-sharing multiple-employer plan of public agencies with generally fewer than 100 active members. Under applicable law, the CalPERS Board may terminate or a public agency may terminate that agency's plan under either PERF A or PERF C. The terminated agency is liable to the system for all costs to fund all benefits under the agency's contract. An unpaid deficit in funding will result in a commensurate reduction in benefits provided under that agency's contract.

As of June 30, 2018, the PERF had the following participating employers:

Employers for PERF

PERF Employers	2018
PERF A	
State	1
Public Agencies ¹	310
Total	311
PERF B School Districts and Charter Schools	1,313
PERF C	
Public Agencies ¹	1,308
Total Employers	2,932

1) Each public agency employer may be counted in both PERF A and PERF C due to active contracts under both plans.

Legislators' Retirement Fund (LRF) - The LRF was established by Chapter 879 of the 1947 Statutes and provides retirement, death, and disability benefits to State Legislators, Constitutional Officers, and Legislative Statutory Officers. The benefits for the LRF are established in accordance with the

provisions of the Legislators' Retirement Law. In November 1990, Article IV, section 4.5 was added to the State Constitution, pursuant to the adoption of Proposition 140. This section effectively prohibited future legislators from earning state retirement benefits for service in the Legislature on or after November 7, 1990, though it recognized vested pension benefits that had accrued before that date. Due to the effects of Proposition 140, there is one legislator eligible to participate in the Legislators' Retirement Fund. The only active members in the fund are Constitutional Officers (including the Insurance Commissioner and members of the Board of Equalization) and Legislative Statutory Officers. The Public Employees' Pension Reform Act of 2013 (PEPRA) closed the Legislators' Retirement System to new participants effective January 1, 2013.

Judges' Retirement Fund (JRF) - The JRF was established by Chapter 206 of the 1953 Statutes and provides retirement, death, and disability benefits to judges working in the California Supreme Court, the Courts of Appeal, and the Superior Courts, who were appointed or elected before November 9, 1994. Benefits for the JRF are established in accordance with the provisions of the Judges' Retirement Law.

The JRF is funded on a "pay-as-you-go" basis, where shortterm investments, contributions received during the year, and a State General Fund augmentation are used to provide funding for benefit payments. This funding method is generally more expensive in the long term, as the plan does not have investment returns generated by a funded plan. Without the State General Fund augmentation, the JRF will not be able to pay the accumulated benefit payments due in Fiscal Year 2018-19.

Judges' Retirement Fund II (JRF II) - The JRF II was established by Chapter 879 of the 1994 Statutes and provides retirement, death, and disability benefits to judges working in the California Supreme Court, the Courts of Appeal, and the Superior Courts, who were appointed or elected on or after November 9, 1994. Benefits for the JRF II are established in accordance with the provisions of the Judges' Retirement System II Law.

Plan Membership

All employees in a covered class of employment who work on a half-time basis or more are eligible to participate in the retirement plans. The underlying data included in the following table reflects current categorizations of members and beneficiaries in the defined benefit pension plans.

As of June 30, 2018, membership in the defined benefit pension plans consisted of the following:

Benefit Recipients and Members in the PERF A, PERF B, PERF C, LRF, JRF, and JRF II

			Members		
Plan	Retirees	Survivors & Beneficiaries	Active	Inactive or Deferred	Total
PERF A					
Agent PERF B	370,096	62,207	482,822	193,605	1,108,730
Schools Cost-Sharing	190,244	31,245	334,569	181,457	737,515
PERF C					
Public					
Agency Cost- Sharing	35,677	5,101	47,899	23,966	112,643
Total PERF	596,017	98,553	865,290	399,028	1,958,888
LRF	121	106	7	7	241
JRF	1,312	550	168	2	2,032
JRF II	207	24	1,543	_	1,774
Total	597,657	99,233	867,008	399,037	1,962,935

Plan Benefits

The benefits for the defined benefit plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become vested in their retirement benefits earned to date, to the extent funded, after five years (10 years for state Second Tier members) of credited service. All non-state Second Tier members are eligible to receive cost-of-living adjustments (COLA) up to a maximum of 2 percent compounded annually (up to 5 percent maximum as a contract option for retired members of local agencies). State Second Tier members are eligible for a COLA of 3 percent fixed compounded annually.

Contributions

The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer's benefit formulas. In some circumstances, contributions are made by the employer to satisfy member contribution requirements. Member and employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

PEPRA, which took effect in January 2013, changes the way CalPERS retirement benefits are applied, and places compensation limits on members with the most impact felt by new CalPERS members. Under PEPRA, new members include:

- (1) Members first joining on or after January 1, 2013, with no prior membership in another California public retirement system.
- (2) Members first joining before January 1, 2013, who are hired by a different CalPERS employer after January 1, 2013, and have a break in service greater than six months.
- (3) Members first joining on or after January 1, 2013, who are ineligible for reciprocity with another California public retirement system.

All members that do not fall into the definitions above will generally be considered classic members.

Required contribution rates for active plan members and employers as a percentage of payroll for the fiscal year ended June 30, 2018, were as follows:

Required Contribution Rates

	Employee Co	ntribution Rates	Employer - Required
	Classic	PEPRA	Contribution Rates
PERF A – Agent			
State:			
Miscellaneous – First Tier	5% to 11%	6% to 11%	28.33%
Miscellaneous – Second Tier	3.75%	3.75%	28.33%
Industrial - First Tier	5% to 11%	6% to 11%	19.53%
Industrial - Second Tier	3.75%	3.75%	19.53%
Safety	11%	11%	19.40%
Peace Officers and Firefighters	8% to 13%	11% to 13%	42.60%
California Highway Patrol	11.50%	11.50%	52.79%
Public Agency:			
Miscellaneous	5% to 8%	5.25% to 8.25%	7.63% to 52.79%
Safety	7% to 9%	8.25% to 13.75%	25.86% to 71.67%
PERF B – Schools Cost-Sharing			
Classified School	7%	6.50%	15.53%
PERF C – Public Agency Cost- Sharing			
Public Agency:			
Miscellaneous	2% to 8%	4% to 7.25%	4.18% to 637.93%
Safety	7% to 10.10%	9.5% to 15.25%	9.33% to 1092.77%
LRF	4% or 8%	N/A	41.696%1
JRF	8%	N/A	8%²
JRF II	8%	16.75%	26.41% ¹

⁽¹⁾ This is the minimum PEPRA employer contribution rate, which is the greater of the actuarially determined employer contribution or the employer normal cost.

⁽²⁾ The employee and employer contribution rates for the JRF are set by state statute and are equal to 8% of payroll. The JRF is currently funded using a pay-as-you-go approach as contributions made by both the State and members are not adequate to meet current benefit

DEFINED CONTRIBUTION PLANS

CalPERS currently administers a defined contribution plan and a deferred compensation plan to certain members. These funds are further described below:

Public Employees' Deferred Compensation Fund (DCF) -The DCF was established by Chapter 1659 of the 1990 Statutes, granting the maximum tax-preferred retirement saving opportunities. The DCF is available to public agencies and school districts in the State of California on a voluntary basis. Participants may contribute up to the limit established under the Internal Revenue Code (IRC), and may access their funds upon retirement, separation from employment, or other distributable events as allowed under the IRC.

Supplemental Contributions Program Fund (SCPF) - The SCPF was established Chapter 307 of the 1999 Statutes. The SCPF is qualified under section 401(a) of Title 26 of the United States Code. The SCPF is currently available to State of California employees who are members of CalPERS, and participation is voluntary. Participant contributions are made on an after-tax basis and are made voluntarily in addition to defined benefit contributions. Participants may contribute to a deferred compensation plan in conjunction with the SCPF, subject to IRC section 415(c) limits. Distributions are allowed only at retirement or permanent separation from employment.

As of June 30, 2018, membership in the defined contribution plans consisted of the following:

Members in DCF and SCPF

Plan	Employers	Members
DCF	794	27,264
SCPF	1	7,254

OTHER ADMINISTRATIVE ACTIVITIES

CalPERS administers other activities as follows:

The California Employers' Retiree Benefit Trust Fund (CERBTF) – The Annuitants' Health Care Coverage Fund. also known as CERBTF, was established by Chapter 331 of the 1988 Statutes, and employers elect to participate in the CERBTF to save funds to pay future retiree and survivors health care and other post-employment benefits (OPEB). Currently, the CERBTF has 542 participating employers. Of the 542 participating employers, 531 employers have contributed assets in the CERBTF as of June 30, 2018. The CERBTF is more fully described in Note 9 to the financial statements.

Old Age & Survivors' Insurance Revolving Fund (OASI) -The OASI was established to consolidate the collection and payment from California public agencies for employee and employer contributions under the provisions of the Federal Social Security regulations.

Federal legislation was enacted on October 21, 1986, which required direct remittance of Social Security contributions by individual public agencies to the Internal Revenue Service (IRS), and eliminated the intermediary collection and remittance of such contributions by individual public agencies to CalPERS. As such, effective January 1, 1987, the OASI stopped receiving contributions from public agencies. Since then, the OASI fund has been used to reimburse the PERF for OASI contract management and related services, as provided in Government Code section 22601. The residual balances are now being reported in the PERF A for accounting and financial reporting purposes.

Public Employees' Health Care Fund (HCF) - The HCF was established by Chapter 1129 of the 1987 Statutes under the Public Employees' Medical and Hospital Care Act (PEMHCA), providing health insurance coverage to CalPERS members through a pooled risk plan. The HCF is more fully described in Note 11 to the financial statements.

Public Employees' Contingency Reserve Fund (CRF) - The CRF was established by Chapter 1236 of the 1961 Statutes with the passage of PEMHCA, and provides a contingency reserve for items such as future rates or future benefits. The CRF is more fully described in Note 12 to the financial statements.

Public Employees' Long-Term Care Fund (LTCF) - The LTCF was established by Chapter 1154 of the 1992 Statutes as part of the Public Employees Long-Term Care Act to administer the long-term care insurance plans available to eligible participants. The LTCF is described in more depth in Note 13 to the financial statements.

Replacement Benefit Fund (RBF) - The RBF was established by Chapter 798 of the 1990 Statutes, providing replacement benefits to members of the defined benefit pension plans. The RBF is more fully described in Note 10 to the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING **POLICIES**

REPORTING ENTITY

The accompanying financial statements include all activities and funds administered by CalPERS. CalPERS is a component unit of the State of California for financial reporting purposes. CalPERS' financial statements are included in fiduciary and proprietary funds in the State of California Comprehensive Annual Financial Report (CAFR).

MEASUREMENT FOCUS, BASIS OF ACCOUNTING & BASIS OF PRESENTATION

The accompanying financial statements were prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, CalPERS adheres to the reporting requirements established by the Governmental Accounting Standards Board (GASB).

The accounts of CalPERS are organized and operated on the basis of funds. The Board has a fiduciary responsibility for the investments within both the fiduciary and proprietary funds. CalPERS has the following fund types as of June 30, 2018:

Fiduciary Funds – include pension trusts (PERF A. PERF B, PERF C, LRF, JRF, JRF II, DCF, SCPF), an other post-employment trust (CERBTF), and a custodial fund (RBF), which account for assets held by the government in a trustee capacity or as a custodian on behalf of others. The pension trust funds include defined benefit plans and defined contribution plans, which are accounted for on the flow of economic resources measurement focus and the accrual basis of accounting. Contributions to the defined benefit pension plans are recognized in the period in which the contributions are due pursuant to legal requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Contributions to the defined contribution plans and the other post-employment benefit plan are recognized as received. The RBF is a custodial fund and is fiduciary in nature, accounted for on the flow of economic resources measurement focus and the accrual basis of accounting.

Proprietary Funds – include the HCF, CRF and the LTCF. These funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Operating revenues and expenses are distinguished from non-operating items and generally result from providing services in connection with ongoing operations. The principal operating revenues of the HCF and CRF are derived from premiums, Federal Employer Group Waiver Plan (EGWP) subsidies, and administrative service fees. The principal operating revenue for the LTCF is premiums. Operating expenses include the cost of claims and related administrative expenses. All revenues and expenses not meeting these definitions are reported as non-operating.

TARGET ASSET ALLOCATION

State statutes and Board policies allow investments in government, domestic and international debt, domestic and international equities, mutual funds, private equity, real assets, and other investments. In March 2018, CalPERS adopted an interim asset allocation strategy to carry through July 2018.

The following table shows the Board-adopted target asset allocation policy for the defined benefit pension plans, which was in effect as of June 30, 2018:

Target Asset Allocation

Asset Class	PERF A	PERF B	PERF C	LRF	JRF	JRF II
Global Equity	49%	49%	49%	24%	—%	50%
Private Equity	8%	8%	8%	_	_	_
Global Debt Securities	22%	22%	22%	39%	_	34%
Real Assets	12%	12%	12%	_	_	_
Liquidity	3%	3%	3%	_	100%	_
Inflation	6%	6%	6%	26%	_	5%
REITs	_	_	_	8%	_	8%
Commodities	_	_	_	3%	_	3%
Total	100%	100%	100%	100%	100%	100%

The California Employers' Retiree Benefit Trust (CERBT) Fund allows employers to pre-fund non-pension, post-employment benefits. Three diversified policy portfolios (Strategy 1, 2, and 3) are available for employers to select depending on employer preferences for return and risk (volatility) expectations. By comparison, Strategy 1 has the highest longterm expected rate of return and return volatility, Strategy 2 has a moderate long-term expected rate of return and return volatility, and Strategy 3 has the lowest long-term expected rate of return and return volatility. The following table shows the Board-adopted target asset allocation policy for the three **CERBTF** strategies:

CERBTF Target Asset Allocation

Asset Class	CERBTF Strategy 1	CERBTF Strategy 2	CERBTF Strategy 3
Global Equity	57%	40%	24%
Global Debt Securities	27%	39%	39%
Inflation Assets	5%	10%	26%
REITs	8%	8%	8%
Commodities	3%	3%	3%
Total	100%	100%	100%

CAPITAL ASSETS

Capital assets are defined as assets with an initial individual cost of \$5,000 or more, or \$1 million or more for intangible assets, and an estimated useful life in excess of one year. Capital assets consist of buildings, furniture, equipment, and intangible assets recorded at cost or, if donated, at their acquisition value. Capital assets are depreciated over their estimated useful lives, ranging from three to five years for furniture and equipment, and 40 years for buildings, and determined on an asset-by-asset basis for intangible assets, using the straight-line method of depreciation.

INVESTMENT EXPENSES

Investment expenses presented within the accompanying financial statements consist of management and performance fees and other investment-related fees. Management and performance fees include all fees paid to external managers for public and private markets. Other investment-related fees include expenses for fund administration, internal investment staff salaries, dividend tax withholding, certain trading fees, consultants, data, analytics, certain other taxes, custody, appraisals, legal services, technology, trading and portfolio management systems, audits, and tax advisory services. These other investment-related fees are reported in the Other Investment Expenses within the Statement of Changes in Fiduciary Net Position and detailed in the Investment Expenses Schedule in the Other Supplementary Information section.

The investment expenses do not include the commissions and fees paid to transact public securities and private equity profit sharing realized by the PERF. These are reported in the Net Appreciation in Fair Value of Investments line in the Statement of Changes in Fiduciary Net Position. For additional detail, refer to the Schedule of Commissions & Fees table and the Private Equity Management Fees & Profit Sharing table within the Investment Section.

USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

RISKS AND UNCERTAINTIES

CalPERS invests in securities that are exposed to a variety of risks, including interest rate, market, credit risk, and foreign currency risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the amounts reported in the accompanying financial statements.

The total pension liabilities and net pension liabilities disclosed in Note 8 to the Basic Financial Statements for the cost-sharing multiple-employer and single-employer defined benefit pension plans are measured based on certain assumptions, including the long-term rate of return on pension investments, inflation rates, and employee demographics, all of which are subject to change.

The estimated liability for future policy benefits in the Long-Term Care Fund is based on the present value of future benefits and expenses less the present value of future premiums. This liability is reported in the Statement of Net Position, and is measured based on certain assumptions including a discount rate of 5.25 percent, morbidity lapse rates, voluntary termination, mortality, and plan expenses.

Due to uncertainties inherent in the estimations and assumptions described in this section, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

RECLASSIFICATIONS

Certain reclassifications have been made to the comparative totals as of and for the fiscal year ended June 30, 2017, to conform to the presentation as of and for the fiscal year ended June 30, 2018.

COMPARATIVE TOTALS

The Basic Financial Statements include certain prior year summarized comparative information in total but not at the level of detail required for a presentation in conformity with U.S. generally accepted accounting principles. Accordingly, such information should be read in conjunction with CalPERS' financial statements for the fiscal year ended June 30, 2017, from which the summarized information was derived.

TERMINATION OF PENSION PLANS

Public agency participation in the System may be terminated either due to a transfer of a public agency's plan to another qualified system as permitted by law, a public agency terminating its plan, or an involuntary termination by the Board. In the event that a public agency elects to transfer its plan, the assets of the plan and the related liability for benefits accrued are transferred to the other system. In the event that a public agency elects to terminate its plan or there is an involuntary termination of a plan by the Board, sufficient assets to cover the related liability for benefits accrued are retained by the PERF. Excess assets above those required, if any, are returned to the employer, while the employer is billed for any deficiency in required assets.

ADOPTION OF NEW ACCOUNTING STANDARD AND IMMATERIAL CORRECTION

During Fiscal Year 2017-18, as a result of Governmental Accounting Standards Board Statement (GASB) No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pensions (GASB 75), CalPERS reported its proportionate share of activity related to postemployment benefits for its participation in the State of California's agent OPEB plan. Accordingly, CalPERS adjusted its previously reported fiduciary net position as a result of the adoption of GASB 75.

CalPERS' employees also participate in various State of California agent pension plans and during Fiscal Year 2017-18, CalPERS recorded an immaterial correction to its previously reported financial statements to properly reflect its proportionate share of activity related to pensions in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68).

The table below presents the effect on CalPERS' previously reported net position as a result of the adoption of GASB 75 and the immaterial correction related to GASB 68.

Adoption of Accounting Standards (Dollars in Thousands)

Fund	2017 Net Position as Previously Reported	Adoption of GASB Statement No. 75	Immaterial Correction	2017 Net Position as Restated
PERF A	\$238,256,516	(\$420,370)	(\$283,506)	\$237,552,640

CRF	12,298	(40,993)	(27,646)	(56,341)
LTCF	89,643	(5,891)	(3,973)	79,779
Subtotal Proprietary Funds	\$588,868	(\$107,624)	(\$72,584)	\$408,660
Total	\$336,965,891	(\$695,285)	(\$468,915)	\$335,801,691

EMPLOYER SHARE OF POSTEMPLOYMENT BENEFITS

As of June 30, 2018, CalPERS has recorded its proportionate share of the State's net pension and OPEB liabilities totaling approximately \$656 million and \$783 million. CalPERS has recorded these post-employment liabilities along with the corresponding amount of deferred inflow and outflows of resources and related post-employment benefit expense for all affected funds. CalPERS is not providing additional disclosures as it has concluded that presenting such employer related post-employment obligations disclosures would be misleading to the users of CalPERS financial statements where the focus is on plans, not individual employer postemployment obligations.

3. CASH AND CASH EQUIVALENTS

Cash and cash equivalents of approximately \$1.3 billion at June 30, 2018, represent amounts held in the CalPERS general operating accounts with the State Treasury and the master custodian, State Street Bank and Trust. The underlying investments at the State Treasurer's Office are not individually identifiable by fund, as CalPERS monies are pooled with the monies of other state agencies and invested.

4. INVESTMENTS

SHORT-TERM INVESTMENTS

Short-term investments consist of U.S. Treasury and government-sponsored securities, money market funds, commercial paper, certificates of deposit, repurchase agreements, asset-backed securities, notes, and bonds issued by U.S. corporations, and other allowable instruments that meet short-term maturity or average life, diversification, and credit quality restrictions. Note that short-term investments are excluded from the Investments at Fair Value table.

INVESTMENTS AT FAIR VALUE

GASB Statement No. 72, Fair Value Measurement and Application (GASB 72) requires investments measured at fair value to be categorized under a fair value hierarchy. CalPERS determines fair value of its investments based upon both observable and unobservable inputs. The System categorizes its fair value measurements within the fair value hierarchy as follows:

- Level 1 quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs (other than quoted prices included within Level 1) that are observable for an asset or liability, either directly or indirectly. These inputs can include quoted prices for similar assets or liabilities in active or inactive markets, or market-corroborated inputs.
- Level 3 unobservable inputs for an asset or liability, which generally results in a government using the best information available and may include the government's own data.

The remaining investments not categorized under the fair value hierarchy are shown at net asset value (NAV). NAV is used as a practical expedient to estimate the fair value of CalPERS' interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of June 30, 2018, CalPERS had no specific plans or intentions to sell investments at amounts different from NAV.

The following table presents a summary of CalPERS' investments by type as of June 30, 2018, at fair value:

CalPERS – Investments at Fair Value¹ (Dollars in Thousands)

	5.74	Quoted Prices in Active Markets for	Significant Other	Significant

(1) Certain securities and derivatives disclosed in this table may be cla		alohal equity or debt securities	investment sales and other rece	sivables and investment nurchas

⁽¹⁾ Certain securities and derivatives disclosed in this table may be classified as short-term investments, global equity or debt securities, investment sales and other receivables, and investment purchases and other payables on the combined Statement of Fiduciary Net Position – Fiduciary Funds and the Statement of Net Position – Proprietary Funds. Accordingly, the totals presented in this table will not agree to the combined totals of investments presented in those statements.

⁽²⁾ Private Equity is shown at NAV on the Statement of Fiduciary Net Position – Fiduciary Funds, while the direct holdings categorized in level 3 represent the fair value of the assets for each private equity investment for GASB 72 purposes. Remaining real assets are valued at NAV.

Global equity securities include both domestic and international securities, and are classified in Level 1 as fair value is obtained using a quoted price from active markets. The security price is generated by market transactions involving identical or similar assets, which is the market approach to measuring fair value. Inputs are observable in exchange markets, dealer markets, brokered markets, and principal-to-principal markets, for which prices are based on trades of identical securities.

Global debt securities consist primarily of asset-backed securities (securitized offerings backed by residential and commercial mortgages, credit cards, auto and student loans), bank loans, international debt securities, municipal/public bonds, sovereign debt, U.S. treasuries, and U.S. corporate securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using matrix pricing. This method uses quoted prices for securities with the same maturities and ratings rather than a fixed price for a designated security. Many debt securities are traded on a dealer market and much less frequently, which is consistent with a Level 2 classification as these investments are valued using observable inputs. Asset-backed securities not classified as Level 2 include collateralized mortgage obligations (CMO), which are mortgage-backed securities that contain a pool of mortgages bundled together and sold as an investment. These are classified in Level 3 of the fair value hierarchy, as assumptions are made by CalPERS to determine prepayment rates, probability of defaults, and loss severity, all of which are unobservable inputs.

Futures are actively traded on major exchanges with quoted prices, and are classified in Level 1 of the fair value hierarchy. Index, commodity, and fixed income futures are publicly traded on active markets, which is the market approach to valuing securities. All other derivatives are classified in Level 2 of the fair value hierarchy. For swaps, observable inputs may include yield curves or interest rates. Options, rights, warrants, and forward contracts are priced using the cost approach and/or are on a dealer market traded on lower frequencies. When these derivative securities are valued, they may not have similar or observable pricing inputs as securities that are valued using the market approach. Refer to Note 7 in the Notes to the Basic Financial Statements for further detail regarding other derivatives.

Other investments at fair value include securities subject to Rule 144(a) of the Securities and Exchange Commission, which modifies a two-year holding period requirement on privately placed securities to permit qualified institutional buyers to trade these positions among themselves. These securities are typically acquired through unregistered, private sales or constitute a control stake in an issuing company. Due to pricing inputs that are observable either directly or indirectly, which include quoted prices for similar securities in active or inactive markets, or market-corroborated inputs, these securities are classified as Level 2. Additionally, other investments include securitized investments, which contain pooled debt instruments, limited partnership investments, and various other investment structures. Many securitized assets are created by combining similar financial assets into a security, and are marketed to investors as a single investment. Typically, these assumptions are internally generated and cannot be observed in an active market. Due to the fact that these assumptions are unobservable for holdings categorized as other investments, these are also classified as Level 3. Lastly, private equities are investments in which CalPERS owns 100 percent of the assets. Private equity holdings are valued at the income, cost, or market approach depending on the type of holdings. All direct holdings are valued using unobservable inputs and are classified in Level 3 of the fair value hierarchy.

Investments Measured at NAV (Dollars in Thousands)

Asset class	Fair Value	Unfunded Commitments
Commingled/Pooled Funds	\$16,283,567	\$0
Real Assets	38,008,043	3,705,075
Private Equities	26,149,406	14,320,017
Other Investments	6,059,112	19,046
Total	\$86,500,128	\$18,044,138

A commingled fund/pooled investment vehicle is a fund with capital pooled from multiple investors that is deployed to a mutually agreed upon strategy. Commingled funds/pooled investment vehicles fair value is measured at NAV, where fair value is measured either based on the CalPERS' pro rata share of the total NAV or by multiplying the pool's share price by the number of shares held.

Real asset investments (real estate, infrastructure, and forestland) are held either in separate accounts, as a limited partner, or in a joint venture or commingled fund. These investments are illiquid and resold at varying rates, with distributions received over the life of the investments. They are typically not redeemed, nor do they have set redemption schedules.

Private equity holdings include direct and co-investments with existing CalPERS general partners, direct secondary investments, and fund of funds. By their very nature, these investments are illiquid and typically not resold or redeemed. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over an average of 10 years.

Other investments include funds that hold securities for varying investment strategies which include:

- Emerging Managers Program objectives include:
 - Generating appropriate risk-adjusted returns by identifying early stage funds and managers with strong potential for success.
 - Accessing unique investment opportunities that may be otherwise overlooked.
 - · Cultivating the next generation of external investment manager talent.
- · Absolute Return Strategies investments that focus on management of total risk, and on generation of returns independent of broad market movements.
- Multi-Asset Class Program management of portfolios which attempt to outperform the CalPERS assumed rate of return with less risk than the PERF.
- · Activist Funds investments in public companies with the goal of influencing management to increase overall shareholder value.
- Venture Capital Funds investments made to finance small, early-stage, emerging firms that are believed to have long-term growth potential.

These investments are reported at NAV as they are externally managed fund-structure investments in nongovernmental entities that do not have readily determinable fair values.

CalPERS invests with vehicles such as separate accounts, direct investments, and commingled funds. Separate accounts, with co-invested external managers, are the predominant vehicle and operate through an annual investment process where commitments are generally revocable and excluded from the unfunded commitment disclosure. Direct vehicles generally entail a contractual commitment to an operating company, not controlled by a general partner. With commingled funds, CalPERS commits to funding amounts at the partners' request and these are included in the unfunded commitment disclosure.

Certain real asset investments are leveraged in that partnerships have been established to purchase properties through a combination of contributions from CalPERS and other investors and through the acquisition of debt. Real asset investments of approximately \$38 billion are reported at NAV. CalPERS no longer holds recourse debt in real asset investment partnerships.

RATE OF RETURN

The money-weighted rate of return (MWRR) expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. Following is the annual MWRR, net of investment expense, for the fiscal year ended June 30, 2018:

Money-Weighted Rate of Return

Plan	Rate of Return
PERF A	
Agent	8.4%
PERF B	
Schools Cost-Sharing	8.4%
PERF C	
Public Agency Cost-Sharing	8.4%
LRF	4.8%
JRF	1.9%
JRF II	7.4%
CERBTF	7.3%

5. INVESTMENT RISK DISCLOSURES

DEPOSIT AND INVESTMENT RISK DISCLOSURES

In accordance with GASB Statement No. 40, Deposit and Investment Risk Disclosures—an amendment of GASB Statement No. 3 (GASB 40), CalPERS discloses investments of all CalPERS-managed funds that are subject to certain risks: custodial credit risk, concentration of credit risk, interest rate risk, credit risk, and foreign currency risk.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event a depository institution or counterparty fails, the System would not be able to recover the value of its deposits, investments, or collateral securities. As of June 30, 2018, a portion of the System's investments, other than posted collateral for futures and overthe-counter instruments, is held in the System's name and is not exposed to custodial credit risk. Where CalPERS trusts invest in commingled funds, the assets within the fund are held in the name of the trustee of the fund and not in CalPERS' name. There are no general policies relating to custodial credit risk.

Concentration of Risk

Other than U.S. Government Securities, which are not subject to the GASB 40 disclosure requirements, CalPERS does not have investments in any single issuer that represent 5 percent or more of fiduciary net position or total investments.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. This risk is managed within the portfolios using the effective duration or option-adjusted methodology. Generally, CalPERS investment policies require the option-adjusted duration of the total fixed income portfolio to stay within negative 50 percent to 10 percent of the relevant benchmark. All individual portfolios are required to maintain a specified level of risk relative to their benchmark.

CalPERS invests in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities, including securities backed by residential and commercial mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The following table presents the weighted average effective duration for CalPERS investments subject to interest rate risk as of June 30, 2018:

CalPERS – Debt Securities Subject to Interest Rate Risk (Dollars in Thousands)

Debt Security Type	Portfolio Weighted Average Effective Duration	Fair Value June 30, 2018	Percent of Debt Securities
U.S. Treasuries and Age	encies:		
U.S. Treasury Notes	6.95	\$20,392,887	18.81%
U.S. Treasury Bonds	18.26	17,466,833	16.11%

Swaps	N/A	(94,512)	(0.09%)
Total ¹		\$108,415,329	100.00%

⁽¹⁾ Certain securities disclosed in this table are classified as short-term investments in the financial statements. As such the total presented in this table will not agree to the total global debt securities on the financial statements.

CalPERS invests in the State Treasury pool and State Street Bank Global Advisors' (SSGA) short-term investment fund (STIF). These investments are included as part of the shortterm investments in the financial statements. As of June 30, 2018, the pooled money investment account with the State Treasury totaled approximately \$1.4 billion, and the SSGA STIF totaled approximately \$6.1 billion. This value represents SSGA STIF investments in all portfolios. The shortterm securities reported in the Statement of Fiduciary Net Position and the Statement of Proprietary Net Position are reported at fair value. As of June 30, 2018, the weighted average maturity was 193 days for the State Treasury pool and 30 days for the SSGA short-term investment fund. The SSGA short-term investment fund is rated as P1. The State Treasury pool is not rated.

The LRF, JRF II, CERBTF, SCPF, DCF, HCF, and LTCF invest in various SSGA funds, with weighted average maturities and credit ratings as of June 30, 2018:

CalPERS - SSGA Fund Weighted Average Maturity and Credit Risk (Dollars in Thousands)

	Fair Value	Credit	Weighted Average
SSGA Fund	June 30, 2018	Rating ¹	Maturity ²
U.S. Aggregate Bond Index	\$443,242	AA2	8.37

U.S. Bond Index	331,052	AA2	8.42
U.S. Tips Index	913,607	AAA	8.40
Bloomberg Barclays Long Liability Index	2,967,462	AA3	14.25
Total	\$7,144,402		

⁽¹⁾ Credit rating reflects market value weight of all the rated securities held by the portfolio (excludes unrated securities) using the middle rating provided by either S&P, Moody's, and Fitch or lower if only two agency ratings are available

⁽²⁾ The weighted average maturity disclosed in this table is in days.

The following table presents the weighted average duration for securities lending collateral subject to interest rate risk as of June 30, 2018:

CalPERS – Securities Lending Collateral Subject to Interest Rate Risk (Dollars in Thousands)

Security Type	Portfolio Weighted Average Effective Duration	Fair Value June 30, 2018	Percent of Securities Lending Collateral
Asset-Backed Securities	0.04	\$9,292	0.2%
No Effective Duration:			
Money Market Fund ¹	N/A	\$55,297	1.3%
Short-Term Investment Fund ²	N/A	4,209,722	98.5%
Total ³		\$4,274,311	100.0%

⁽¹⁾ Money Market Fund is invested in U.S. Treasury securities with a weighted average maturity (to final maturity) of 1 day.

As of June 30, 2018, CalPERS investments included securities highly sensitive to interest rate fluctuations in that they are subject to early payment in a period of declining interest rates (i.e., collateralized and mortgage pass-through, etc.). The resulting reduction in expected total cash flows affects the fair value of these securities.

For the fiscal year ended June 30, 2018, the collateral invested in CalPERS Internal Securities Lending had an aggregate weighted average maturity (to final maturity) of 37.59 days. eSecLending (eSec) has a weighted average maturity (to final maturity) of 32.19 days.

Credit Risk

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The System's investment policies establish both general and specific risk measures for the fixed income portfolio. From the most general perspective, 88 percent of the total fixed income portfolio must be invested in investment-grade securities.

Investment-grade securities have low default probabilities and are rated at a minimum of BBB- by independent agencies (Moody's, Standard & Poor's, or Fitch). Each portfolio is required to maintain a specified risk level.

The following table is a summary of the ratings of CalPERS fixed income securities as of June 30, 2018:

CalPERS – Debt Security Investments Subject to Credit Risk (Dollars in Thousands)

Moody's Quality Rating	Fair Value June 30, 2018	Fair Value as a Percent of Debt Security Investments
Aaa	\$51,271,014	47.29%
Aa1	1,074,808	0.99%
Aa2	5,287,870	4.88%

Caa1	477,882	0.44%
Caa2	129,981	0.12%
Caa3	34,617	0.03%
Caa	2,082	—%
Ca	22,744	0.02%
С	3,306	—%
NA¹	857,310	0.79%
NR²	24,484,537	22.58%
Total ³	\$108,415,329	100.00%

⁽¹⁾ NA represents U.S. government securities that are not applicable to the GASB 40 disclosure requirements.

The following table is a summary of the ratings of the securities lending collateral subject to credit risk:

CalPERS – Securities Lending Collateral Subject to Credit Risk (Dollars in Thousands)

Moody's Quality Rating	Fair Value	Fair Value as a Percent of Securities Lending Collateral
Aaa	\$2,119,111	49.6%
NR1,2	2,155,200	50.4%
Total ³	\$4,274,311	100.0%

⁽¹⁾ NR represents those securities that are not rated.

⁽²⁾ Short-Term Investment Fund has a weighted average maturity (to final maturity) of 1 day.

⁽³⁾ This figure does not include \$1,750,000 in repurchase agreements since those investments are not subject to GASB 40 disclosure. The fair value of the investments in the securities lending collateral portfolio is \$6,024,311 for fiduciary funds.

⁽²⁾ NR represents those securities that are not rated.

⁽³⁾ Certain securities disclosed in this table are classified as short-term investments in the financial statements. As such the total presented in this table will not agree to the total global debt securities on the financial statements.

⁽²⁾ This figure includes \$55,297 invested in a money market fund and \$1,000,000 invested in short-term investments.

⁽³⁾ This figure does not include \$1,750,000 in repurchase agreements since they are not subject to GASB 40 disclosure. The fair value of the investments in the securities lending collateral portfolio is \$6,024,311 for fiduciary funds.

Foreign Currency Risk

Foreign currency risk is defined as any deposits or investments that are denominated in foreign currencies, which bear a potential risk of loss arising from changes in currency exchange rates. The System's asset allocation and investment policies allow for active and passive investments in international securities. The proportion of international stocks within the global equity portfolio is, at this time, roughly equal to their market capitalization weight in the global equity benchmark. For the global debt securities, investing includes exposure to non-dollar denominated issues. Real assets and private equity do not have a target allocation for international investments. Refer to the CalPERS International Investment Securities table for foreign currency risk disclosures.

CalPERS – International Investment Securities¹ – Fair Value at June 30, 2018 (U.S. Dollars in Thousands)

⁽¹⁾ This table presents investment securities of all CalPERS managed funds, including derivative instruments that are subject to foreign currency risk; investment securities includes partnership level information for private assets.

6. SECURITIES LENDING

The State Constitution and the Board policies permit CalPERS to enter into securities lending transactions, which are collateralized loans of securities to broker-dealers and other entities with a simultaneous agreement to return collateral for the same securities in the future.

CalPERS has contracted with eSecLending, LLC (eSec) and State Street Bank & Trust (SSB) as third-party securities lending agents to loan domestic and international equity and debt securities. CalPERS receives both cash and noncash (i.e., securities) collateral. Domestic and international securities are collateralized at 102 percent and 105 percent, respectively, of the loaned securities' fair value. CalPERS cannot seize the collateral without borrower default; the collateral is therefore not reported in CalPERS' financial statements in accordance with GASB Statement No. 28, Accounting and Financial Reporting for Securities Lending Transactions (GASB 28). Management believes CalPERS has minimized credit risk exposure to borrowers by requiring the borrower to provide collateralization greater than 100 percent of the fair value of the securities loaned. The securities loaned are priced daily by third-party sources, and margins are delivered/received daily to maintain over-collateralized levels. Securities on loan can be recalled or returned by CalPERS or the borrower at any time. Since loans are terminable at will, loan durations do not generally match the duration of the investments made with the cash collateral. CalPERS may enter into term loan agreements, which are evaluated on an individual basis. On June 30, 2018, the fair value of the securities on loan was approximately \$15.0 billion. The securities on loan remain on CalPERS' Statement of Fiduciary Net Position in their respective investment categories. At June 30, 2018, cash collateral received totaling \$6.0 billion is reported as securities lending obligation, and the fair value of reinvested cash collateral totaling \$6.0 billion is reported as securities lending collateral on the Statement of Fiduciary Net Position. The changes in fair value of the reinvested cash collateral are reported as net appreciation/depreciation in fair value of investments on the Statement of Changes in Fiduciary Net Position.

Because the domestic and international debt and equity securities in the internally managed investment pools are also used in the securities lending program, in accordance with GASB 28, the securities lending collateral, obligation, and the related income and costs are allocated to the pool owners (respective reporting funds) based on the funds' pro rata share of the pools' investments.

CalPERS' securities lending reinvestment collateral guidelines prescribe that cash collateral received needs to be invested in short-term, high-credit-quality securities. Currently, SSB, eSecLending, and CalPERS manage the collateral.

CalPERS signed an agreement in December 2017 with Options Clearing Corporation (OCC) for CalPERS to provide OCC with on-demand liquidity by giving access to a line of credit in a segregated account over a one-year term. This account is controlled by CalPERS and invested in short-term securities when it is not in use. CalPERS earns commitment fee revenue and short-term interest yield from this agreement. Upon a draw on the line of credit, OCC will provide U.S. Treasury securities as collateral (for a maximum duration of 30 days) that will be bilateral, marked to market daily, and administered by eSecLending. No amounts were drawn nor outstanding at June 30, 2018.

7. DERIVATIVES

CalPERS holds investments in swaps, options, futures, rights, and warrants and enters into forward foreign currency exchange contracts. The fair value of futures is determined using the market approach based upon quoted market prices. The fair value of options, rights, warrants, and swaps is determined using the cost approach, as these are traded with lower frequencies. The fair value of derivative investments that are exchange-traded, such as options, rights, and warrants are priced using the exchange they are traded on. Non exchange-traded investments, such as swaps, are determined by an external pricing service using various proprietary methods. The fair value of international currency forwards represents the unrealized gain or loss on the related contracts, which is calculated as the difference between the contract exchange rate and the exchange rate at the end of the reporting period.

Futures contracts are marked to market at the end of each trading day, and the settlement of gains or losses occurs on the following business day through the movement of variation margins. Over-the-counter derivatives, such as swaps, generally reset monthly and the settlement of gains or losses occurs the following business day. Currency forward contracts roll quarterly, updating the contract exchange rate.

With all over-the-counter derivatives, such as swaps and currency forwards, CalPERS is exposed to counterparty risk. CalPERS investment managers seek to control this risk through counterparty credit evaluations and approvals, counterparty credit limits, posting collateral exposure, and monitoring procedures, in addition to adherence to industry standard International Swaps and Derivatives Association and Credit Support Annex agreements with all counterparties.

At June 30, 2018, the aggregate fair value of investment derivatives in an asset position subject to counterparty credit risk was approximately \$747.1 million. The aggregate amount of cash collateral held by CalPERS on behalf of over-thecounter derivatives was approximately \$473.7 million.

8. EMPLOYERS' NET PENSION LIABILITY/(ASSET)

The components of the net pension liability of the PERF B, PERF C, LRF, JRF, and JRF II as of June 30, 2018, are reported below. PERF A is an agent multiple-employer plan and therefore not disclosed in the following tables, consistent with GASB Statement No. 67, Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25 (GASB 67) reporting requirements.

Net Pension Liability/(Asset) (Dollars in Thousands)

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability/(Asset)	Plan Fiduciary Net Position as a Percentage of Total Pension Liability
PERF B				
Schools Cost-Sharing	\$91,459,284	\$64,796,136	\$26,663,148	70.8%
PERF C				
Public Agencies Cost-Sharing	38,944,855	29,308,589	9,636,266	75.3%
LRF				
State of California	96,781	113,876	(17,095)	117.7%
JRF				
State of California	3,036,999	39,631	2,997,368	1.3%
JRF II				
State of California	1,498,155	1,525,514	(27,359)	101.8%

The total pension liability for each defined benefit plan was determined by actuarial valuations as of June 30, 2017, which were rolled forward to June 30, 2018, using the following actuarial assumptions:

Actuarial Assumptions Used to Measure the Total Pension Liability

	PERF B Schools Cost-Sharing	PERF C Public Agency Cost-Sharing	LRF	JRF	JRF II
Inflation Rate	2.50%	2.50%	2.50%	2.50%	2.50%
Salary Increases	Varies by Entry Age and Service	Varies by Entry Age and Service	2.75%	2.75%	2.75%
Mortality Rate Table ¹	Derived using CalPERS membership data for all funds				
The above actuarial assumptions were based upon the following experience study periods:	1997-2015	1997-2015	1997-2015	1997-2015	1997-2015
Post-Retirement Benefit Increase	2.00% until PPPA floor on purchasing power applies, 2.50% thereafter	Contract COLA up to 2.50% until PPPA floor on purchasing power applies, 2.50% thereafter	2.50%	2.50%	2.50%
Long-term rate of return assumption on plan investments used in discounting liabilities	7.15%	7.15%	5.25%	3.62%	6.65%

⁽¹⁾ The mortality table was developed based on CalPERS specific data. The table includes 15 years of mortality improvement using the Society of Actuaries 90 percent of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

Notes to the Basic Financial Statements (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The tables to the right reflect long-term expected real rates of return by asset class. The rates of return were calculated using the capital market assumptions applied to determine the discount rate.

PERF B & PERF C - Long-Term Expected Real Rates of Return by Asset Class

Asset Class¹	Assumed Asset Allocation	Real Return Years 1 - 10 ²	Real Return Years 11+³
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Assets	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	(0.92%)

⁽¹⁾ In the Basic Financial Statements, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-Term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities

LRF – Long-Term Expected Real Rates of Return by Asset

Asset Class¹	Assumed Asset Allocation	Real Return Years 1 - 10 ²	Real Return Years 11+³
Global Equity	22.0%	4.80%	5.98%
Fixed Income	49.0%	1.10%	2.62%
TIPs	16.0%	0.25%	1.46%
Commodities	5.0%	1.50%	2.87%
REITs	8.0%	3.50%	5.00%

⁽¹⁾ In the Basic Financial Statements, Commodities and REITS are included in Global Equity Securities; Fixed Income and TIPS are included in Global Debt Securities.

JRF II – Long-Term Expected Real Rates of Return by Asset

Asset Class¹	Assumed Asset Allocation	Real Return Years 1 - 10 ²	Real Return Years 11+³
Global Equity	52.0%	4.80%	5.98%
Fixed Income	32.0%	1.10%	2.62%
TIPs	5.0%	0.25%	1.46%
Commodities	3.0%	1.50%	2.87%
REITs	8.0%	3.50%	5.00%

⁽¹⁾ In the Basic Financial Statements, Commodities and REITS are included in Global Equity Securities; Fixed Income and TIPS are included in Global Debt Securities.

⁽²⁾ An expected inflation of 2.00% used for this period.

⁽³⁾ An expected inflation of 2.92% used for this period.

⁽²⁾ An expected inflation of 2.00% used for this period.

⁽³⁾ An expected inflation of 2.92% used for this period.

⁽²⁾ An expected inflation of 2.00% used for this period.

⁽³⁾ An expected inflation of 2.92% used for this period.

DISCOUNT RATE

PERF B, PERF C, LRF, and JRF II

The discount rates used to measure the total pension liability as of June 30, 2018, for the PERF B, PERF C, LRF, and JRF II were 7.15 percent, 7.15 percent, 5.25 percent, and 6.65 percent, respectively. These discount rates are not adjusted for administrative expenses.

PERF B, PERF C, LRF and JRF II fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return for those pension plans' investments were applied to all periods of projected benefit payments to determine the total pension liability.

JRF

The discount rate used to measure the total pension liability as of June 30, 2018, was 3.62 percent, which differs from the discount rate used as of June 30, 2017, of 3.56 percent. The State funds the JRF benefit obligations using the pay-as-yougo method. Under the pay-as-you-go method, the pension plan's fiduciary net position was not projected to be sufficient to make projected future benefit payments of current active and inactive employees. The discount rate is based on a 20year tax-exempt General Obligation Municipal Bond with an average rating of AA (as reported in Fidelity Index's "20-Year Municipal GO AA Index") and was applied to all periods of projected benefit payments to measure the total pension liability.

SENSITIVITY OF THE NET PENSION LIABILITY/(ASSET) TO CHANGES IN THE DISCOUNT RATE

The following presents the net pension liability/(asset) of the PERF B, PERF C, LRF, JRF, and JRF II calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (-100 basis points) or one percentage point higher (+100 basis points) than the current rate:

9. OTHER POST-EMPLOYMENT BENEFIT TRUST **FUND**

The CERBTF was established by Chapter 331 of the 1988 Statutes and initially funded in 2007. At June 30, 2018, 542 employers had elected to participate in the fund. Of the 542 participating employers, 531 employers have contributed assets in the CERBTF as of June 30, 2018. The purpose of the fund is to receive contributions from participating employers and establish separate employer prefunding accounts to pay for health care or other post-employment benefits in accordance with the terms of the participating employers' plans. Contributions are voluntarily determined by the employer's own funding schedule, and there are no longterm contracts for contributions to the plan. As such, contributions to the CERBTF are elective and not required. The CERBTF is an agent multiple-employer plan as defined in GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (GASB 74), with pooled administrative and investment functions.

Participating employers may receive disbursements from the fund not to exceed the annual premium and other costs of eligible post-employment benefits. If the employer's participation in the fund terminates, all assets in the employer's prefunding account shall remain in the fund except as otherwise provided. Allowable termination disbursements are to a trustee or as a trustee transfer of assets upon satisfactorily demonstrating to the Board one of the following: 1) the transfer will satisfy applicable requirements of the Internal Revenue Code, other law and accounting standards, and the Board's fiduciary duties, or 2) the employer substantiates to the Board that in conformance with applicable requirements of the Internal Revenue Code, other laws and accounting standards, and the Board's fiduciary duties that all of the employer's obligations for the payment of postemployment benefits have been satisfied.

As of June 30, 2018, there were 485,552 active plan members, 290,644 inactive plan members currently receiving benefit payments, and 9,941 inactive plan members entitled to but not yet receiving benefit payments.

CalPERS' costs to administer the plan are determined through the Board-approved cost allocation fund, where actual direct and indirect administrative costs are assessed to each fund.

The total Fiscal Year 2017-18 actual OPEB employer contributions from 542 participating employers representing 558 OPEB plans was \$3.9 billion. In compliance with GASB 74, this amount includes the \$1.1 billion in contributions made to the CERBTF, plus an additional \$2.8 billion in retiree

health care premiums paid by employers directly to healthcare providers.

The CERBTF mirrors the investment policies of the System as a whole. These policies are adopted by the CalPERS Investment Committee, which sets forth the System's overarching investment beliefs, purposes, and objectives with respect to all investment programs. Additionally, the CERBTF has separate, Board-approved asset allocation policies in place for the three investment options offered by the fund. Each strategy seeks to offer employers investment alternatives dependent upon expected levels of return and volatility. Overall, the CERBTF recognized an annual moneyweighted rate of return of 7.3 percent for Fiscal Year 2017-18.

10. REPLACEMENT BENEFIT FUND (RBF)

The RBF was established as a custodial fund by Chapter 938 of the 1995 Statutes. Initially established in 1998, it provides benefits to retirees of the PERF whose retirement allowance exceeds the IRC section 415(b) limits. IRC section 415(b) imposes a dollar limit on the annual retirement benefits an individual may receive from a qualified defined benefit pension plan.

The RBF is funded on a "pay-as-you-go" basis. That is, the employer is invoiced for amounts payable to its former employees on a calendar year basis and upon receipt of payment by the employers, CalPERS remits the replacement benefits to the retirees on a monthly basis. Employer contributions must be in amounts equivalent to the benefits not paid from the PERF as a result of the limitations of IRC section 415(b) plus, if applicable, employer Federal Insurance Contributions Act taxes. CalPERS is responsible for calculating the applicable dollar limit under IRC section 415(b) and notifying the employer. At June 30, 2018, there were 1,167 retirees receiving replacement benefits.

Government Code section 7522.43 provides that a public retirement system may only continue to administer a plan of replacement benefits for employees first hired prior to January 1, 2013. Section 7522.43 prohibits any employer from offering a plan of replacement benefits for employees hired on or after January 1, 2013.

11. PUBLIC EMPLOYEES' HEALTH CARE FUND (HCF)

The HCF was established under the PEMHCA as of July 1, 1988. Health plan offerings include self-funded plans, PERS Choice, PERSCare, and PERS Select. Effective January 1, 2014, flex-funded plans, Anthem Blue Cross, Blue Shield of California, Health Net, Sharp, UnitedHealthcare and effective January 1, 2018, Western Health Advantage. Health plans are available to entities that contract for health insurance coverage under PEMHCA based on zip codes, as prescribed by state law. Having members in large risk pools spreads the catastrophic claims over a larger base and minimizes administrative expenses. The self-funded plans retain all risk of loss of allowable health claims while the flex-funded plans share a percentage of the risk of loss. Members are not subject to a supplemental assessment in the event of deficiencies. Health insurance premium rates are set by the Board based on a trend analysis of the historic cost, utilization, demographics, and administrative expenses of the HCF to provide for the claims incurred and the actuarially determined required level of reserves. The health plans rely on operating cash flows and investment income to fund health benefit payments. During Fiscal Year 2017-18, the Board approved aggregate increases in member premiums to continue to provide for benefits of the health plans.

Public agencies participating in the health plans are required to make monthly premium payments based on rates established annually by CalPERS. Employers' shares of premiums are determined by the public agency through benefit negotiations, subject to minimum share of premium levels established through PEMHCA. Public agency employee members pay the difference between the premium rate and the employers' share of premium.

The HCF establishes claim liabilities based on estimates of the ultimate costs of claims (including future claim adjustment expenses) that have been reported but not settled, and of claims that have been "Incurred But Not Reported" (IBNR). The estimated claims liability was calculated by health plan partners as of June 30, 2018, using a variety of actuarial and statistical techniques, and adjusted for actual experience to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made. The estimated claims liability of \$445.3 million is carried at its face amount, and no interest discount is assumed. The IBNR portion represents an estimate for claims that have been incurred prior to June 30, 2018, but have not been reported to the HCF. The total of the estimated claims liabilities at the end of the Fiscal Year 2017-18 also includes \$318.7 million of known claims, which is reported as claims payable liability in the Statement of Net Position.

ANTICIPATED INVESTMENT INCOME AND REINSURANCE

Anticipated investment income is included in the annual premium requirement for HCF members. Also, the HCF has not entered into any reinsurance or excess insurance agreements. CalPERS has entered into agreements with flexfunded health plan partners that limit the HCF's risk to a maximum aggregate monthly cost per member.

The following schedule represents changes in the aggregate estimated claims liabilities for the fiscal years ended June 30, 2018, and June 30, 2017.

Changes in the Aggregate Estimated Claims Liabilities of the HCF (Dollars in Thousands)

Year Ended June 30	2018	2017
Total Estimated Claims at Beginning of Fiscal Year	\$635,994	\$729,317
Total Incurred Claims and Claim Adjustment Expenses	3,580,571	3,373,052
Total Payments	(3,452,499)	(3,466,375)
Total Estimated Claims at End of Fiscal Year	\$764,066	\$635,994

12. PUBLIC EMPLOYEES' CONTINGENCY **RESERVE FUND (CRF)**

The CRF was established in 1962, with the passage of PEMHCA, to fund administrative expenses related to the PEMHCA program, and as a contingency reserve for such items as increases in future rates or in future benefits. PEMHCA was expanded to include local public agency employees on a contract basis in 1967. The CRF is reimbursed by the State and contracting public agencies for expenses incurred for administering the program.

PEMHCA establishes eligibility rules for the following:

- Retirees and beneficiaries receiving health care benefits,
- Terminated plan members entitled to but not yet receiving benefits, and
- · Active plan members.

The employer's contribution toward the CRF administrative expenses is determined as a percentage of gross health insurance premiums paid by the employer and employees. The percentage of the insurance premiums paid for the fiscal year ended June 30, 2018, was 0.33 percent. Administrative rates are reviewed annually and are adjusted, if needed, to cover budgeted administrative expenses.

Health insurance premiums are initially received in the CRF and then remitted to health insurance carriers, apart from premium dollars designated for self-funded and flex-funded health plans, which are transferred to the HCF. As of June 30, 2018, there were 1,162 public agencies and schools participating in health insurance coverage under PEMHCA.

13. PUBLIC EMPLOYEES' LONG-TERM CARE FUND (LTCF)

The LTCF began offering self-insured Long-Term Care (LTC) plans in 1995. The LTCF provides LTC coverage to enrolled participants under the Public Employees' Retirement Law (PERL), Chapter 15. The LTC program contracts with a thirdparty service provider to administer the program, normally for a period of five years. CalPERS conducted a procurement in 2017, which resulted in awarding a new five-year contract to Long-Term Care Group, Inc., the current third-party administrator of the LTC program. The LTC program is a voluntary member-paid program and is not funded or subsidized by the employers.

There are four LTC policy series:

- LTC 1: policies purchased from the program inception in 1995 through 2002.
- LTC 2: policies purchased from 2003 through 2004.
- LTC 3: policies purchased from 2005 through 2008.
- · LTC 4: policies purchased effective December 2013 and forward through open application.

As of June 30, 2018, there are 124,472 active participants in the LTC 1, LTC 2, LTC 3, and LTC 4 policy series, of which 6,778 are receiving benefits.

The LTCF estimate of the funding level, to provide for the payment of future claim benefits, is projected based on actual enrolled participant levels.

The LTCF establishes the liability for future policy benefits based on the present value of future benefits and expenses less the present value of future premiums. The actuarial valuations are very sensitive to the underlying actuarial assumptions, including a discount rate of 5.25 percent, morbidity, lapse rates, voluntary termination, mortality, and plan expenses. In Fiscal Year 2017-18, the actual investment returns were approximately \$177.5 million lower than expected. Economic assumptions are evaluated periodically in accordance with Board policy. An evaluation of assumptions used in the long-term care actuarial valuation is currently in progress. Any changes resulting from the experience study will be applied prospectively. The estimated liability for future policy benefits at June 30, 2018, has been rolled forward from the June 30, 2017, actuarial valuation using standard actuarial techniques, and all assumptions remained the same as the previous year.

Total LTCF investments as of June 30, 2018, were approximately \$4.5 billion. For Fiscal Year 2017-18, the annual premium was \$296.3 million and the total benefits paid out were \$306.9 million. Since the program's inception in 1995 through June 30, 2018, the total benefits paid were approximately \$2.5 billion.

14. CONTINGENCIES

CalPERS is a Defendant in litigation involving investments, individual pension, health benefit payments and participant eligibility issues arising from its normal activities. Generally, in the event of an adverse decision, any payments awarded by the courts would be recovered by CalPERS through prospective adjustments to the affected employer's contribution rate or rates and, where applicable, member premiums. During the fiscal year, specific pending cases were litigated and new ones arose that could potentially impact the future financial health of funds administered by CalPERS.

In the case of Robert M. Mallano, et al. v. John Chiang, the Controller of the State of California (SCO), the Judges' Retirement System (JRS), and the Judges' Retirement System II (JRS II) were sued as part of a class action by all active and retired jurists (and their beneficiaries) in the State of California. The judges' primary contention was that they were not paid salary required by applicable statutes over the prior five years, and that JRS and JRS II must in the future independently raise pension benefits to these retirees and beneficiaries based on the statutory salary mandates. JRS and JRS II in turn contended that they did not have statutory authority to increase benefits until the active judges have received an actual pay increase and JRS and JRS II have received a copy of an official Pay Letter from California Department of Human Resources to SCO authorizing an increase. JRS has been included in this suit because retired JRS judges receive increases to their retirement benefits when active judges receive salary increases. For JRS II, salary increases impact final compensation at retirement.

A Statement of Decision was issued on December 16, 2015, entering declaratory judgment in favor of the Plaintiff class and against JRS, JRS II, and SCO. The court found that, since Fiscal Year 2008-09, SCO, JRS, and JRS II had failed to pay constitutionally and statutorily mandated salary increases to active judges, as well as increased benefits to judicial retirees, as required by statute. The judges and their beneficiaries were awarded the unpaid salary increases and benefits payable to judicial retirees and their beneficiaries together with 10% per annum interest, owing from the dates on which such sums vested until such increases and benefits are paid. Final Judgment was issued on March 10, 2016.

JRS, JRS II, and SCO filed an appeal on May 5, 2016. On April 5, 2017, the Court of Appeal issued its unpublished Decision affirming the judgment of the Superior Court and the attorney fee award. Plaintiffs filed a Motion to Enforce Judgment in the Superior Court, which was heard on July 27, 2017. At that hearing, the Superior Court granted the motion and ordered that retroactive damages be paid by the Defendants in amounts consistent with the court's

interpretation of the salary provisions in Government Code section 68203.

Defendants have already implemented the court's Order on a prospective basis. However, on September 19, 2017, Defendants filed a Notice of Appeal from Post-Remittitur Order Entered July 28, 2017. The appeal is taken from paragraph 1 of the Order, directing "Defendants pay to Plaintiff and the class members the difference between what Defendants actually paid Plaintiff and class members and the amounts that should have been paid, as specified in the judgment, together with the pre and post judgment interest at the rate of 10% per annum from the date on which the additional payment should have been paid to the actual date of payment." The grounds for this appeal are that the Order directs retroactive monetary relief to the Plaintiff class for past alleged wrongs, by ordering Defendants to pay prior salary increases. In so doing, Defendants argue that the trial court has disregarded the ruling of the Court of Appeal, which expressly held that, "the judgment includes no monetary damages award."

On June 21, 2018, oral argument was heard on this appeal. On June 26, 2018, an unpublished Decision was issued, denying the appeal in every respect, as follows: "The order enforcing the judgment, including the provision for 'pre and post judgment interest thereon at the rate of 10% per annum from the date on which the additional payment should have been paid to the actual date of payment' is affirmed." On August 3, 2018, the Controller, JRS and JRS II (State Defendants) filed a Petition for Review in the California Supreme Court. Plaintiffs filed an Answer opposing the Petition on the bases that "Defendants' affirmative defenses have already been waived or rejected" and "the interest award was affirmed on appeal." Petitioners filed a Reply on September 5, 2018. On that same day, the Supreme Court requested a copy of the record, which was delivered to the court on September 10, 2018. The Supreme Court has not yet officially granted the Petition. Both JRS and JRS II funds could potentially be impacted, in an unknown amount, depending upon whether the Supreme Court accepts the Petition for Review, and if so, how it rules on the damages issues.

Sanchez, Elma, et al. v. CalPERS is a class action lawsuit by members of the CalPERS Long-Term Care Plan against CalPERS and eight individual CalPERS Board members. Plaintiffs claim that CalPERS breached its contract with the long-term care purchasers by allegedly promising that longterm care premiums would never increase during the lifetime of the purchaser, but then increased the premiums, and failed to continue the Inflation Prevention Benefit without an increase in premiums. Plaintiffs seek to recover all money paid for the long-term care coverage and rescission of the policies sold to the class members, as well as interest and attorneys' fees.

The operative Complaint alleges a cause of action for breach of fiduciary duty against both CalPERS and the Board Defendants and four causes of action against CalPERS for breach of contract, breach of the implied covenant of good faith and fair dealing, rescission, and declaratory relief. Plaintiffs sought to certify a class consisting of California citizens who purchased LTC 1 and LTC 2 policies issued from 1995 to 2004 with lifetime coverage and built-in inflation protection, lifetime policies without inflation protection, as well as three-year and six-year policies with inflation protection from CalPERS.

CalPERS and the Board Defendants deny that CalPERS breached the contract by imposing the premium increase and that the policies were intentionally or negligently underpriced, and assert that the long-term care coverage was a new product with little actuarial data when the program started in 1995, making it difficult to accurately price. Premium increases were imposed across the entire long-term care industry as actuarial and claims data became available. CalPERS asserts that it timely informed policyholders about the need to impose premium increases and has managed the program and the Long-Term Care Trust Fund prudently and properly. CalPERS has also asserted other legal defenses.

On January 18, 2016, the court granted Plaintiffs' Motion for Class Certification. Two claims were certified for class treatment against CalPERS: (1) the breach of contract claim; and (2) the breach of fiduciary duty claim, on the "duty of care" theory only. None of Plaintiffs' claims against the individual Board members were certified for class treatment. The CalPERS Defendants filed a Motion for Summary Judgment/ Adjudication that was argued on June 8, 2017. The court granted summary judgment as to the claims against the individual Board Defendants. The court also granted summary judgment for CalPERS as to the certified breach of fiduciary duty and rescission claims, but denied summary judgment as to the certified breach of contract claim and the uncertified declaratory relief claim. CalPERS filed a motion for decertification of the class on February 5, 2018. Opposition and Reply briefs were filed on February 26 and March 21, 2018, respectively. After oral argument at a hearing on May 10, 2018, the court issued a ruling denying CalPERS' motion. On July 9, 2018, CalPERS filed a Verified Petition for Writ of Mandate, Prohibition, or Other Appropriate Relief, appealing the denial of its motion for decertification. On July 19, 2018, CalPERS filed its Reply in Support of the Petition. The Petition remains pending at this time. The expert discovery cut-off in Sanchez is, by agreement of the parties, January 31, 2019.

No further court activity has occurred. The previous tentatively set trial date of November 19, 2018 has been continued to May 13, 2019 because of the Court's schedule, and the Court has indicated that it anticipates further continuing the matter for trial to June 10, 2019.

Heinz, et al. v. CalPERS, Anthem et al. is a putative class action lawsuit filed against CalPERS in June 2017. The Complaint alleges breach of contract, breach of fiduciary duties, misrepresentation, and a variety of other claims. The class is described as "people who were enrolled in Preferred Provider Organization health insurance offered and/or administered by CalPERS and Anthem Blue Cross." The primary allegation is that CalPERS and Anthem engaged in a common policy of improperly and artificially reducing the "allowable amount" for "out-of-network" non-emergency medical services.

On May 7, 2018, the court issued a ruling that Plaintiff must proceed with his Petition for Writ of Administrative Mandamus, and that all other causes of action are stayed in their entirety pending the outcome of the writ. The parties are currently meeting and conferring in an attempt to put together the administrative record for the writ proceeding. A hearing on Plaintiff's writ is currently scheduled for January 25, 2019.

A second lawsuit related to CalPERS' administration of health benefits is County of Monterey dba Natividad Medical Center v. CalPERS, Anthem et al. CalPERS was served with this Complaint on August 10, 2017. The dispute in this case arises out of a "Facility Agreement" between Natividad Medical Center ("NMC") and Anthem effective August 1, 2012, pursuant to which NMC agreed to provide certain healthcare services to Anthem members for certain agreed-upon reimbursements. The Facility Agreement governs not only claims for Anthem insureds, but also services for and claims by members of "Other Payors" for whom Anthem provides claim processing services for its Managed Care Network, such as CalPERS. No reimbursement rates for "trauma services" were established in the 2012 Agreement because NMC was not yet providing such services and these rates were to be negotiated at a later date, when NMC had set up its trauma care services. However, the parties have been unable to agree upon trauma rates since 2012. As a result, the Complaint alleges that Anthem has been instructing its Other Payors, including CalPERS, to pay NMC's trauma services claims at the "emergency services" rate. With regard to CalPERS' plan members' treatment for trauma, NMC alleges it has been underpaid by \$2.8 million. CalPERS filed a demurrer to Natividad's Second Amended Complaint, which was sustained without leave to amend, essentially dismissing the action against CalPERS. On or about June 26, 2018, Natividad filed a Notice of Appeal. To date, no actions have been taken on Natividad's appeal of the Superior Court's decision to dismiss the Second Amended Complaint.

The amount of potential loss or range of loss on these cases is not estimable at this time due to the many unknowns and complexities of litigation.

15. FUTURE ACCOUNTING PRONOUNCEMENT

The objective of GASB Statement No. 87, Leases (GASB 87), is to improve accounting and financial reporting for leases by governments. GASB 87 requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The requirements of GASB 87 are effective for fiscal years beginning after December 15, 2019.

NOTES TO SCHEDULE

Changes in Benefit Terms

A summary of the plan provisions that were used for a specific plan can be found in the plan's annual valuation report.

Change of Assumptions and Methods

In December 2017, the CalPERS Board of Administration (the Board) adopted new mortality assumptions for plans participating in the Public Employees' Retirement Fund (PERF). The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75 percent to 2.50 percent. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00 percent to 2.75 percent. These changes will be implemented in two steps commencing in the June 30, 2018 funding valuation. However, for financial reporting purposes, these assumption changes are fully reflected in the results for Fiscal Year 2017-18.

In Fiscal Year 2016-17, the financial reporting discount rate for the PERF B was lowered from 7.65 percent to 7.15 percent. In December 2016, the CalPERS Board approved lowering the funding discount rate used in the PERF B from 7.50 percent to 7.00 percent, which is to be phased in over a three-year period (7.50 percent to 7.375 percent, 7.375 percent to 7.25 percent, and 7.25 percent to 7.00 percent) beginning with the June 30, 2017, valuation reports. The funding discount rate includes a 15 basis-point reduction for administrative expenses, and the remaining decrease is consistent with the change in the financial reporting discount rate.

In Fiscal Year 2014-15, the financial reporting discount rate was increased from 7.50 percent to 7.65 percent resulting from eliminating the 15 basis-point reduction for administrative expenses. The funding discount rate remained at 7.50 percent during this period, and remained adjusted for administrative expenses.

⁽²⁾ Cumulative effect of CalPERS' employer proportionate share of postemployment benefit obligations.

NOTES TO SCHEDULE

Changes in Benefit Terms

Public agencies can make changes to their plan provisions, and such changes occur on an ongoing basis. A summary of the plan provisions that were used for a specific plan can be found in the plan's annual valuation report.

Change of Assumptions and Methods

In December 2017, the CalPERS Board adopted new mortality assumptions for plans participating in the PERF. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75 percent to 2.50 percent. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00 percent to 2.75 percent. These changes will be implemented in two steps commencing in the June 30, 2017 funding valuation. However, for financial

reporting purposes, these assumption changes are fully reflected in the results for Fiscal Year 2017-18.

In Fiscal Year 2016-17, the financial reporting discount rate for the PERF C was lowered from 7.65 percent to 7.15 percent. In December 2016, the CalPERS Board approved lowering the funding discount rate used in the PERF C from 7.50 percent to 7.00 percent, which is to be phased in over a three-year period (7.50 percent to 7.375 percent, 7.375 percent to 7.25 percent, and 7.25 percent to 7.00 percent) beginning with the June 30, 2016, valuation reports. The funding discount rate includes a 15 basis-point reduction for administrative expenses, and the remaining decrease is consistent with the change in the financial reporting discount rate.

In Fiscal Year 2014-15, the financial reporting discount rate was increased from 7.50 percent to 7.65 percent resulting from eliminating the 15 basis-point reduction for administrative expenses. The funding discount rate remained at 7.50 percent during this period, and remained adjusted for administrative expenses.

⁽²⁾ Cumulative effect of CalPERS' employer proportionate share of postemployment benefit obligations.

NOTES TO SCHEDULE

Changes in Benefit Terms

A summary of the plan provisions that were used for a specific plan can be found in the plan's annual valuation report.

Change of Assumptions and Methods

In December 2017, the CalPERS Board adopted new mortality assumptions. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected on-going mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. In Fiscal Year 2017-18, the discount rate used to measure the total pension liability was 3.62 percent. The State funds the Judges' Retirement Fund (JRF) benefit obligations using the pay-as-yougo method. Member contributions plus state contributions are designed to cover only benefit payments and expenses each year. Under the pay-as-you-go method, the pension plan's fiduciary net position was not projected to be sufficient to make projected future benefit payments of current active and inactive employees. Therefore, a discount rate of 3.62 percent, which falls within a reasonable range of yields on 20-year tax-exempt General Obligation Municipal Bonds with an average rating of AA (as reported in Fidelity Index's "20-Year Municipal GO AA Index") as of June 30, 2018, was applied to all periods of projected benefit

payments to measure the total pension liability. The inflation assumption is reduced from 2.75 percent to 2.50 percent. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00 percent to 2.75 percent. In Fiscal Year 2016-17, the discount rate used to measure the total pension liability was 3.56 percent.

For the JRF, the changes to actuarial methods include an increase in maximum benefit allowable for active members to 75 percent of pay from 65 percent of pay; the benefit payable for a termination changed from being equal to a retirement benefit to one equal to a percent (generally 3.75 percent) times years of service; and the allocated service for the non-member spouse for Qualified Domestic Relations Order changed to full service for the member in order to determine both eligibility and the benefit multiplier. These changes were reflected in the total pension liabilities starting June 30, 2015.

Assumption changes were made in the JRF June 30, 2016, valuation that are reflected in the total pension liability starting June 30, 2017. The assumption changes included a lowering of the rates of retirement to reflect that fewer actual retirements over the past six years than were assumed. In addition, pre-retirement termination and disability rates were removed due to low expected future terminations and disability retirements for this group.

Rows 1 through 6 contain the follo		Ŧ ·, ·••	(+, . • .)	T , •	(+,- !•)	(+ :==;=: •)	(+==, •)	(+,	(+- :, : !•)	(+,)

Rows 1 through 6 contain the following information:

⁽¹⁾ This line shows the total earned premium revenues and investment revenues for each fiscal year.

⁽²⁾ This line shows other HCF operating costs, including overhead and claims expense not allocable to individual claims, for each fiscal year.

⁽³⁾ This line shows the HCF incurred claims and allocated claim adjustment expenses (both paid and accrued) as reported at the end of the policy year. The policy year is the first year in which the triggering event under the contract occurred.

⁽⁴⁾ This section shows the cumulative amounts paid as of the end of each policy year and years succeeding the policy year.

⁽⁵⁾ This section shows re-estimated incurred claims as of the end of each policy year and years succeeding the policy year. Re-estimates are based on new information on new claims not previously reported.

⁽⁶⁾ This line compares the amount of the re-estimated incurred claims to the amount initially established (line 3), and shows whether the re-estimate is greater or less than projected. As data mature for individual policy years, the correlation between initial estimates and re-estimates is used to evaluate the accuracy of incurred claims currently recognized.

CHIEF INVESTMENT OFFICER'S LETTER

November 16, 2018

On behalf of the California Public Employees' Retirement System (CalPERS) Investment Office, I am pleased to report on CalPERS' investment performance, operations, and initiatives for the one-year period ending on June 30, 2018. The CalPERS Public Employees' Retirement Fund (PERF) earned a time-weighted rate of return of 8.6 percent this fiscal year, with the ending fair value of investments at \$358 billion.

The 12-month returns were led by the Private Equity Program, which generated a 16.1 percent net return. Public equity also delivered double-digit net returns at 11.5 percent, followed by real estate, with net returns of 8.0 percent.

While the positive returns are encouraging, the focus is always on the long-term sustainability of the Fund. CalPERS invests for decades, not years.

With this in mind, in late 2017 the CalPERS Board voted on the asset allocation of the Fund's investment portfolio for the next four years. As part of the Asset Liability Management (ALM) process, the Board examined four potential portfolios and their impact on the CalPERS Fund. Each portfolio represented different distributions of assets based on varying rates of expected return and risk of volatility.

The new asset allocation will be distributed as follows:

- 50% in Global Equity
- 28% Fixed Income
- 13% Real Assets
- 8% Private Equity
- 1% Liquidity

In making its decision, the Board reviewed recommendations from CalPERS' team members, external pension and investment consultants, and input from employer and employee stakeholder groups.

At the same time, the CalPERS Investment Office continues to make strides to reduce the risk, cost, and complexity of the Fund, as outlined in our 2020 Vision Strategic Plan. The investment office's external management fees and operational expenses have declined by approximately \$239 million since Fiscal Year 2010-11. Contributors to the savings include transitioning assets from external managers to internal management when possible, reducing external management fees, and decreasing the number of outside consultants and advisors. In the annual and independent CEM Benchmarking survey, it was reported that CalPERS' was low cost compared to its global peers.

This year CalPERS continued to advocate for corporate governance best practices through proxy voting and corporate engagements centered around Environmental, Social, and Governance issues. In total, CalPERS cast votes in line with

our Governance & Sustainability Principles at over 11,000 meetings, representing more than 105,000 individual ballot items.

We also made progress advancing corporate governance reforms on specific issues related to climate risk reporting, proxy access, majority vote for director elections, and board diversity. We targeted 121 companies for shareowner campaigns and reached settlements with 88 of them. At companies where settlements could not be reached, team members ran proxy solicitations to maximize investor support (8 of 17 shareowner proposals passed with majority support).

Additionally, the team made significant progress on board diversity engagements. Based on CalPERS' requests to improve diversity at 504 U.S. companies, 151 companies added a diverse director, and another 126 have or will be enhancing their diversity disclosures.

In addition to managing current investments, CalPERS continued outreach regarding a global solicitation process for investment proposals from eligible mid-size external investment managers. Also known as transition managers, these firms provide CalPERS with unique investment opportunities that may otherwise be overlooked and will help to cultivate the next generation of external portfolio management talent. We also remain committed to our Emerging Manager Program which identifies early stage funds with strong potential for success.

While we are a global investor, CalPERS is also proud to make investments in California. The most recent CalPERS for California report showed that, in Fiscal Year 2016-17, CalPERS' California-based investments supported some 266,200 estimated jobs. These dollars were invested across multiple asset classes, including public equity, fixed income, private equity, real estate, and infrastructure. These commitments contribute to major infrastructure projects, and support business expansion efforts.

CalPERS is committed to the success and sustainability of our system. Our mission remains the same—manage the CalPERS investment portfolio in a cost-effective, transparent, and risk-aware manner in order to generate returns to pay benefits. While we are pleased with this year's strong returns, we continue to identify ways to reduce the cost, risk, and complexity of the Fund's portfolio and operations, while also maximizing investment returns.

Our Investment Office team, the Board's pension consultant Wilshire Associates, and State Street Bank & Trust, our master custodian, compiled the investment data presented on the following pages.

Ted Eliopoulos Chief Investment Officer

⁽¹⁾ Amounts include management fee waivers that may be paid in a subsequent period.
(2) Positive amounts are reflective of timing differences between when a waiver is used compared with when the fee is called.
(3) Profit sharing represents the investment manager's share of the gain realized during the fiscal year, net of any return of realized profit distributed in earlier years.
(4) Negative amounts are reflective of decreased investment value resulting in the return of realized profit.

ACTUARIAL CERTIFICATIONS

CALIFORNIA PUBLIC EMPLOYEES' RETIREMENT SYSTEM

July 31, 2018

It is our opinion that the valuations have been performed in accordance with generally accepted actuarial principles, in accordance with standards of practice prescribed by the Actuarial Standards Board, and that the assumptions and methods are internally consistent and reasonable for this plan, as prescribed by the CalPERS Board of Administration according to provisions set forth in the California Public Employees' Retirement Law.

As authorized, the CalPERS actuarial staff performs annual actuarial valuations of the CalPERS state, schools, and public agency defined benefit pension plans; the latest such valuations are as of June 30, 2017.

The funding objective for each of these plans is to accumulate assets equal to 100 percent of the accrued liability as measured by the Entry Age Normal Cost Method. Unfunded actuarial liabilities or surplus assets (excess assets) are amortized pursuant to Board policy.

The valuations are based on the member and financial data as of the valuation date, extracted from the various CalPERS databases. Both the membership and financial data are subject to extensive tests for reasonableness.

Further, we have provided information for the completion of Exhibits A through I in the Actuarial Section of the Comprehensive Annual Financial Report (CAFR).

Scott Terando, ASA, EA, MAAA, FCA, CFA Chief Actuary, CalPERS

LEGISLATORS' RETIREMENT SYSTEM

February 2018

To the best of our knowledge, this report is complete and accurate and contains sufficient information to fully and fairly disclose the actuarial funded condition of the Legislators' Retirement System. This valuation is based on the member and financial data as of June 30, 2017 provided by the various CalPERS databases and the benefits under this plan with CalPERS as of the date this report was produced. In our opinion, this valuation has been performed in accordance with generally accepted actuarial principles, and in accordance with the standards of practice prescribed by the Actuarial Standards Board. The assumptions and methods are internally consistent and reasonable for this plan, as prescribed by the CalPERS Board of Administration according to provisions set forth in the California Public Employee's Retirement Law.

The undersigned are actuaries for CalPERS, who are members of the American Academy of Actuaries and the Society of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

David Clement, ASA, EA, MAAA Senior Pension Actuary, CalPERS

Scott Terando, ASA, EA, MAAA, FCA, CFA Chief Actuary, CalPERS

Note: Actuarial reports and supporting documents for the state, schools, and local agencies and Legislators' Retirement System can be obtained on the CalPERS website, **www.calpers.ca.gov**.

ACTUARIAL CERTIFICATIONS

JUDGES' RETIREMENT SYSTEM

February 2018

To the best of our knowledge, this report is complete and accurate and contains sufficient information to fully and fairly disclose the actuarial funded condition of the Judges' Retirement System. This valuation is based on the member and financial data as of June 30, 2017 provided by the various CalPERS databases and the benefits under this plan with CalPERS as of the date this report was produced. It is our opinion that the valuation has been performed in accordance with generally accepted actuarial principles, in accordance with standards of practice prescribed by the Actuarial Standards Board. The assumptions and methods are internally consistent and reasonable for this plan, as prescribed by the CalPERS Board of Administration according to provisions set forth in the California Public Employees' Retirement Law.

The undersigned are actuaries for CalPERS, who are members of the American Academy of Actuaries and the Society of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Stuart Bennett, ASA, MAAA Senior Pension Actuary, CalPERS

Scott Terando, ASA, EA, MAAA, FCA, CFA Chief Actuary, CalPERS

JUDGES' RETIREMENT SYSTEM II

February 2018

To the best of our knowledge, this report is complete and accurate and contains sufficient information to fully and fairly disclose the actuarial funded condition of the Judges' Retirement System II. This valuation is based on the member and financial data as of June 30, 2017 provided by the various CalPERS databases and the benefits under this plan with CalPERS as of the date this report was produced. In our opinion, this valuation has been performed in accordance with generally accepted actuarial principles, and in accordance with the standards of practice prescribed by the Actuarial Standards Board. The assumptions and methods are internally consistent and reasonable for this plan, as prescribed by the CalPERS Board of Administration according to provisions set forth in the California Public Employee's Retirement Law.

The undersigned are actuaries for CalPERS, who are members of the American Academy of Actuaries and the Society of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Jean Fannjiang, ASA, MAAA Senior Pension Actuary, CalPERS

Scott Terando, ASA, EA, MAAA, FCA, CFA Chief Actuary, CalPERS

Note: The actuarial report and supporting documents for the Judges' Retirement System and Judges' Retirement System II can be obtained on the CalPERS website, **www.calpers.ca.gov**.

ACTUARIAL METHODS & ASSUMPTIONS

The ultimate cost that a retirement system such as the California Public Employees' Retirement System (CalPERS or the System) incurs is equal to benefits paid plus the expenses resulting from administration and financing. These costs are paid through contributions to the plan and investment earnings on the System's assets.

Actuarial Data

As stated in the Actuarial Certifications, the data which serves as the basis of these valuations have been obtained from the various CalPERS databases. We have reviewed the valuation data and believe that it is reasonable and appropriate in aggregate. We are unaware of any potential data issues that would have a material effect on the results of the valuations. Summary information regarding plan membership data for various groups is provided in Exhibits F through G.

Actuarial Cost Method

The primary funding method used is the Entry Age Normal Cost Method. This method is used for all defined benefit payrelated plans within CalPERS, for the Legislators' Retirement System (LRS), for the Judges' Retirement System (JRS) and for the Judges' Retirement System II (JRS II). It is also used for the Indexed Level of 1959 Survivor Benefits.

Under this method, projected benefits are determined for all members and the associated liabilities are spread in a manner that produces level annual cost as a percentage of pay in each year from the member's entry age to their assumed retirement age on the valuation date. The cost allocated to the current fiscal year is called the normal cost.

The actuarial accrued liability for active members is then calculated as the portion of the total cost of the plan allocated to prior years. The actuarial accrued liability for members currently receiving benefits and for members entitled to deferred benefits is equal to the present value of the benefits expected to be paid. No normal costs are applicable for these participants.

For CalPERS non-pay-related plans, the financial objective is to produce annual costs that coincide with the value of benefits earned for that year. The Term Insurance Cost Method is used for the plans within the 1959 Survivor Program that are not indexed. The Term Insurance Cost Method is also used for the State Group Term Life Insurance Program. The required contributions are calculated as one and one-half times the expected life insurance payments for the coming year less the current assets available to pay those benefits, but not less than zero.

Amortization of Unfunded Actuarial Accrued Liability

The excess of the total actuarial accrued liability over the market value of plan assets is called the unfunded actuarial accrued liability (UAL). Funding requirements are determined by adding the normal cost and an amortization payment toward the unfunded liability.

The unfunded liability is amortized as a "level percent of pay." All new gains or losses are amortized over a fixed 30-year period with a five-year ramp-up at the beginning and a five-year ramp-down at the end of the amortization period. All changes in liability due to plan amendments (other than golden handshakes) are amortized over a 20-year period with no ramp. Changes in actuarial assumptions or changes in actuarial methodology are amortized over a 20-year period with a five-year ramp-up at the beginning and a five-year ramp-down at the end of the amortization period. Changes in unfunded accrued liability due to a Golden Handshake will be amortized over a period of five years. A summary of the current policy is provided in the table below:

	Source								
	(Gain)	/Loss							
Driver	Investment	Non- Investment	Assumption/ Method Change	Benefit Change	Golden Handshake				
Amortization Period	30 Years	30 Years	20 Years	20 Years	5 Years				
Escalation Rate									
Active Plans	2.875%	2.875%	2.875%	2.875%	2.875%				
Inactive Plans	0%	0%	0%	0%	0%				
Ramp-Up	5	5	5	_	_				
Ramp-Down	5	5	5	_	_				

The five-year ramp-up means that the payments in the first four years of the amortization period are 20 percent, 40 percent, 60 percent and 80 percent of the "full" payment which begins in year five. The five-year ramp-down means that the reverse is true in the final four years of the amortization period.

Exceptions for Inactive Plans

The following exceptions apply to plans classified as Inactive. These plans have no active members and no expectation to have active members in the future.

 Amortization of the unfunded liability is on a "level dollar" basis rather than a "level percent of pay" basis. For amortization layers, which utilize a ramp-up and rampdown, the "ultimate" payment is constant. · Actuarial judgment will be used to shorten amortization periods for Inactive plans with existing periods that are deemed too long given the duration of the liability. The specific demographics of the plan will be used to determine if shorter periods may be more appropriate.

The CalPERS Board of Administration (the Board) adopted a new amortization policy effective with the June 30, 2019, actuarial valuations. The new policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed using a level dollar amount. In addition, the new policy removes the five-year ramp-up and ramp-down on UAL bases attributable to assumption changes and non-investment gains/losses. The new policy removes the five-year ramp-down on investment gains/losses. These changes will apply only to new UAL bases established on or after June 30, 2019.

For inactive employers the new amortization policy imposes a maximum amortization period of 15 years for all unfunded accrued liabilities effective June 30, 2017. Furthermore, the plan actuary has the ability to shorten the amortization period on any valuation date based on the life expectancy of plan members and projected cash flow needs to the plan. The impact of this has been reflected in the current valuation results.

Exception for JRS Plan

The JRS plan is not currently prefunded. The June 30, 2017, actuarial valuation provides a recommended contribution if the state were to begin prefunding. This recommended contribution includes a payment toward unfunded liability based on a 10-year amortization period and level dollar payments.

Asset Valuation Method

As of April 2013, the Board decided to move away from using an actuarial value of assets for setting contribution requirements and use the market value of assets. This change was implemented in the June 30, 2014, actuarial valuations and is reflected in the information provided in this section for school plans, state plans, Legislators' Retirement Fund (LRF), Judges' Retirement Fund (JRF), and Judges' Retirement Fund II (JRF II). For public agencies, the change to using the market value of assets was implemented in the June 30, 2013, actuarial valuation.

ACTUARIAL ASSUMPTIONS

The actuarial assumptions used in determining actuarial liabilities and required employer contributions include both economic and non-economic assumptions. These assumptions represent the actuary's best estimate of anticipated future experience and are reviewed in depth periodically.

Economic Assumptions

Based upon the asset allocation of the Public Employees' Retirement Fund (PERF), the prescribed discount rate assumption (net of investment and administrative expenses) adopted by the Board on December 21, 2016, is 7.00 percent compounded annually. The Board also prescribed that the assumed discount rate (net of expenses) will reduce to 7.0 percent using a phase-in approach. The prescribed discount rate for state and public agency valuations will be fully phased in with the June 30, 2018, valuation. The discount rate for the schools valuation will be fully phased in with the June 30, 2019, valuation. Scheduled changes to the discount rate after June 30, 2017, are not reflected in the determination of required contributions determined in the June 30, 2017,

Different asset allocations and lower assumed investment returns apply to the LRF, JRF, and JRF II. The assumed investment returns for these three plans are 5.0 percent, 3.0 percent, and 6.5 percent respectively, net of administrative expenses.

As stated above, the discount rates used for funding purposes are net of administrative expenses. The financial reporting discount rates are not reduced for administrative expenses. The funding discount rates used for the PERF and JRF II were determined by subtracting 15 basis points from the financial reporting discount rate, while the LRF funding discount rate resulted from subtracting 25 basis points from the financial reporting discount rate. Refer to the discussion on Changes in Actuarial Assumptions for additional detail regarding changes to the funding discount rates used in the PERF, LRF, JRF, and JRF II.

The assumed inflation assumptions vary according to the plan. Public agencies and state plans use a 2.625 percent assumption compounded annually as of June 30, 2017. This assumed rate will decrease to 2.5 percent as of June 30, 2018. For the school's plan, the assumed inflation rate is 2.75 percent compounded annually as of June 30, 2017, dropping to 2.625 percent as of June 30, 2018, and 2.5 percent as of June 30, 2019. The assumed inflation rate for LRF, JRF, and JRF II is 2.5 percent. The inflation assumption is a component of assumed investment return, assumed wage growth, and assumed future post-retirement cost-of-living increases.

For plans within CalPERS, the overall payroll is assumed to increase by the inflation assumption plus a 0.25 percent per annum productivity increase assumption. The overall payroll growth assumption is used to project future payroll over which the unfunded liability is amortized.

For plans within CalPERS, the assumed growth in an individual employee's future pay is composed of the inflation assumption, an additional 0.25 percent per annum productivity

Actuarial Section (continued)

component, and an annual merit increase based on the member's length of service. The service-based merit increase in an individual's salary recognizes that larger salary increases tend to occur earlier in an employee's career. Pay increase assumptions for individual members are shown for sample lengths of service in Exhibit C.

Non-Economic Assumptions

Non-economic assumptions for plans within the PERF are based upon the most recent CalPERS experience study (covering the period June 30, 1997, through June 30, 2015) that was completed and adopted by the Board in December 2017.

Post-retirement mortality rates are based on CalPERS' experience and include 15 years of projected ongoing mortality improvement using 90 percent of Scale MP 2016 published by the Society of Actuaries. These tables are used to estimate the value of benefits expected to be paid for service and disability retirements. For disability retirements, impaired longevity is recognized by a separate table. Sample life annuity values based on these tables are shown in Exhibit E.

CHANGES SINCE PRIOR VALUATION

Changes in Actuarial Methods

There were no changes in the actuarial methods for the school plans, state plans, LRF, JRF, and JRF II.

Changes in Actuarial Assumptions

On December 21, 2016, the Board lowered the discount rate for the PERF for funding purposes from 7.50 percent to 7.00 percent using a three-year phase-in beginning with the June 30, 2016, actuarial valuations (the June 30, 2017, valuations for schools). The minimum public agency employer contributions for Fiscal Year 2019-20 determined in the June 30, 2017, funding valuations, were calculated using a discount rate of 7.25 percent. The projected public agency employer contributions for Fiscal Year 2020-21 are calculated assuming that the discount rate will be lowered to 7.00 percent next year. For the State, the minimum employer contributions for Fiscal Year 2018-19 determined in the June 30, 2017, funding valuations, were calculated using a discount rate of 7.25 percent. The recommended employer and employee contributions rates for the school's plan for Fiscal Year 2018-19, determined in the June 30, 2017, funding valuation were calculated using a discount rate of 7.375 percent.

On December 19, 2017, the CalPERS Board of Administration adopted new actuarial assumptions based on the recommendations in the December 2017 CalPERS Experience Study and Review of Actuarial Assumptions. This study reviewed the retirement rates, termination rates, mortality rates, rates of salary increases and inflation assumption for public agencies, state plan, and the schools plan. These new assumptions are incorporated into the June 30, 2017, actuarial valuations (June 30, 2018, for schools). In addition, the Board adopted a new asset portfolio as part of its Asset Liability Management (ALM). The new asset mix supports a 7.00 percent discount rate. The reduction of the inflation assumption will be implemented in two steps in conjunction with the decreases in the discount rate. For the June 30, 2017, valuation (June 30, 2018, for schools), an inflation rate of 2.625 percent will be used and a rate of 2.50 percent will be used in the following valuation. However, for LRF, JRF, and JRF II the inflation assumption was set to 2.5 percent in the June 30, 2017, actuarial valuations.

Changes in Plan Provisions

There were no changes in the plan provisions for the school plans, state plans, LRF, JRF, and JRF II. Public agencies can make changes to their plan provisions; such changes occur on an ongoing basis. A summary of the plan provisions that were used for a specific plan can be found in Appendix B of the plan's annual valuation report.

SUMMARY OF FUNDING PROGRESS

UNFUNDED LIABILITY & FUNDED RATIOS

For the plans in CalPERS, unfunded actuarial accrued liabilities are the difference between entry age normal accrued liabilities and the assets of the Fund. It is required that these unfunded liabilities be financed systematically over future years.

While no one measure can fully describe the financial condition of a plan, the ratio of a pension plan's market value of assets to its liabilities provides a meaningful index. This is the true measure of a plan's ability to pay benefits. The higher this ratio, the stronger the plan and observation of this ratio over a period of years can give an indication as to the financial strength of the system. This measure is presented in Exhibit A.

As of the June 30, 2014, valuation, all plans set the actuarial value of assets equal to the market value of assets for the schools plan, state plans, LRF, JRF, and JRF II. For the public agencies, the change to using the market value of assets was implemented in the June 30, 2013, actuarial valuation.

SOLVENCY TEST

Exhibit B, Funding Progress — Solvency Test, demonstrates System solvency as measured using the System's own assumptions and liability calculation methods.

INDEPENDENT REVIEW

To ensure the quality of its valuations, CalPERS contracts with independent consulting actuaries to review the valuations on an annual basis. The review is broken into three groups, so that each group is reviewed on a triennial basis.

⁽¹⁾ For contributions data, the actuarially determined contribution compared with actual employer contributions received (including the excess or deficiency for each of the last four years) is shown in the Schedule of Contributions in the Required Supplementary Information.

EXHIBIT B: FUNDING PROGRESS – SOLVENCY TEST

The funding objective for a retirement system is to be able to pay long-term benefit promises.

If a system follows actuarially sound financing principles, it will be able to pay all of its promised benefits when due-the ultimate test of financial soundness.

A short-term solvency test is one means of checking a system's funding progress. In a short-term solvency test, the plan's present assets (investments and cash) are compared with 1) member contributions on deposit, 2) the liabilities for future benefits to persons who have retired or terminated, and 3) the liabilities for projected benefits for service already rendered by active members. In a system that employs level contribution rate financing, the liabilities for member contributions on deposit (liability 1) and the liabilities for future benefits to present retirees (liability 2) will be fully covered by present assets, except in rare circumstances.

In addition, the liabilities for service already rendered by members (liability 3) will be partially covered by the remainder of present assets. Generally, if the System has been using level contribution rate financing, the funded portion of liability 3 will increase over time.

⁽¹⁾ Age for Termination with Refund and Termination with Vested Deferred Benefits means Entry Age. For all other decrements, age means Attained Age.

⁽²⁾ Years of service.

⁽³⁾ State Miscellaneous Second Tier members have the right to convert their Second Tier service to First Tier service provided that they make up the shortfall in their accumulated contributions with interest. The assumption is that all Second Tier members will elect to convert to First Tier service.

⁽²⁾ Years of service.

Statistical Section

INTRODUCTION

The Statistical section provides additional historical information to understand the economic condition of the California Public Employees' Retirement System (CalPERS).

The schedules presented contain information on financial trends, analysis, and additional analytical information on

employees' membership data, retirement benefits, health benefits, supplemental income, long-term care and public agency employers.

The information in this section is obtained from comprehensive annual financial reports for relevant years and other internal sources.

⁽¹⁾ Information presented using different categorization of members and beneficiaries.

PUBLIC EMPLOYEES' RETIREMENT FUND PROGRAM DATA

PRIMARY BENEFITS

CalPERS' benefit categories are established in the Public Employees' Retirement Law (PERL) and the Public Employees' Pension Reform Act of 2013 (PEPRA). The PERL and PEPRA categorize members under two distinct levels of membership, which are:

- Public Employees' Pension Reform Act (PEPRA) Members - New members who first became members of the CalPERS System on or after January 1, 2013, or were hired on or after January 1, 2013, by a new employer after a break in service longer than six months from previous eligible employment.
- Classic Members All members that do not fit within the definition of a new member as defined by PEPRA. These existing CalPERS members as of December 31, 2012, will retain the existing benefit levels for future service with the same employer. Because the new member determination is made on an appointment-by-appointment basis, classic members will be tested against the "new member" definition upon each new appointment.

Benefits are paid according to the category of employment and the type of benefit coverage provided by an employer. A local agency's benefits may vary based upon statutory elections made by the employer.

The four categories of membership are:

- Miscellaneous Members Staff, operational, supervisory, and all other eligible employees who are not in special membership categories.
- Safety Members California Highway Patrol officers, police officers, firefighters, and other employees whose principal duties are in active law enforcement or fire prevention and suppression work, or who occupy positions designated by law as safety member positions.
- State Industrial Members Employees of the California Department of Corrections and Rehabilitation who have the same service retirement and other benefits as miscellaneous members, but who also have industrial death and disability benefits under certain limited circumstances.
- State Peace Officer/Firefighter Members State employees who are involved in law enforcement, firefighting and fire suppression, public safety, protective services, or the management and supervision thereof, whose positions are defined as state peace officer/ firefighter members in the Government Code or by the Department of Human Resources.

SERVICE RETIREMENT

State Miscellaneous & State Industrial Members - Classic

- 2 percent at 55 A guarantee of 2 percent of final compensation at age 55 for each year of service credit.
- 2 percent at 60 A guarantee of 2 percent of final compensation at age 60 for each year of service credit. Retirement may begin at age 50 with a reduced benefit rate, or at age 55 or 60 with an increased benefit rate to age 63.
 - 1.25 percent at 65 A guarantee of 1.25 percent of final compensation at age 65 for each year of service credit. Retirement may begin at age 55 with a reduced benefit rate.

State Miscellaneous & State Industrial Members - PEPRA

- 2 percent at 62 A guarantee of 2 percent of final compensation at age 62 for each year of service credit. Retirement may begin at age 52 with a reduced benefit rate, or after age 62 with an increased benefit rate to age 67.
- 1.25 percent at 67 A guarantee of 1.25 percent of final compensation at age 67 for each year of service credit. Retirement may begin at age 55 with a reduced benefit rate.

State Safety Members - Classic

- 2 percent at 55 It provides 2 percent of final compensation for each year of service for retirement at age 55.
- 2.5 percent at 55 It provides 2.5 percent of final compensation for each year of service for retirement at age 55.

The maximum allowance payable is 80 percent of final compensation. Retirement may begin at age 50 with a reduced benefit rate.

- 3 percent at 50 It provides 3 percent of final compensation for each year of service for retirement at age 50.
- 3 percent at 55 It provides 3 percent of final compensation for each year of service for retirement at age 55. Retirement may begin at age 50 with a reduced benefit rate.

The maximum allowance payable is 90 percent.

State Safety Members - PEPRA

- 2 percent at 57 It provides 2 percent of final compensation for each year of service for retirement at age 57.
- 2.5 percent at 57 It provides 2.5 percent of final compensation for each year of service for retirement at age 57.
- 2.7 percent at 57 It provides 2.7 percent of final compensation for each year of service for retirement at age 57.

Retirement may begin at age 50 with a reduced benefit rate.

School Members 2 Percent at 55 - Classic

A guarantee of 2 percent of final compensation at age 55 for each year of service credit. Retirement may begin at age 50 with a reduced benefit rate, or after age 55 with an increased benefit rate to age 63.

School Members 2 Percent at 62 - PEPRA

A guarantee of 2 percent of final compensation at age 62 for each year of service credit. Retirement may begin at age 52 with a reduced benefit rate, or after age 62 with an increased benefit rate to age 67.

Local Miscellaneous Members - Classic

- 2 percent at 55 A quarantee of 2 percent of final compensation at age 55 for each year of service credit.
- 2 percent at 60 A guarantee of 2 percent of final compensation at age 60 for each year of service.

Retirement may begin at age 50 with a reduced benefit rate, or after age 55 or 60 with an increased benefit rate to age 63.

- 2.5 percent at 55 A guarantee of 2.5 percent of final compensation at age 55 for each year of service credit.
- 2.7 percent at 55 A guarantee of 2.7 percent of final compensation at age 55 for each year of service credit.
- 3 percent at 60 A guarantee of 3 percent of final compensation at age 60 for each year or service credit.

Retirement may begin at age 50 with a reduced benefit rate.

 1.5 percent at 65 – A guarantee of 1.5 percent of final compensation at age 65 for each year of service credit. Retirement may begin at age 55 with a reduced benefit rate.

Local Miscellaneous Members 2 Percent at 62 - PEPRA

A guarantee of 2 percent of final compensation at age 62 for each year of service credit. Retirement may begin at age 52 with a reduced benefit rate, or after age 62 with an increased benefit rate to age 67.

Local Safety Members 2 Percent at 50 Formula

2 percent of final compensation for each year of service for retirement at age 50, with an increased benefit rate to age 55. The maximum allowance payable is 90 percent of final compensation.

Local Safety Members – Classic

- 2 percent at 50 It provides 2 percent of final compensation for each year of service for retirement at age 50, with an increased benefit rate to age 55.
- 3 percent at 50 It provides 3 percent of final compensation for each year of service for retirement at age 50.

The maximum allowance payable is 90 percent of final compensation.

- 2 percent at 55 It provides 2 percent of final compensation for each year of service for retirement at age 55.
- 2.5 percent at 55 It provides 2.5 percent of final compensation for each year of service retirement at age 55.
- 3 percent at 55 It provides 3 percent of final compensation for each year of service for retirement at

Retirement may begin at age 50 with a reduced benefit rate. The maximum allowance payable is 90 percent of final compensation.

Local Safety Members - PEPRA

- 2 percent at 57 It provides 2 percent of final compensation for each year of service for retirement at age 57.
- 2.5 percent at 57 It provides 2.5 percent of final compensation for each year of service for retirement at age 57.
- 2.7 percent at 57 It provides 2.7 percent of final compensation for each year of service for retirement at

Retirement may begin at age 50 with a reduced benefit rate.

DISABILITY RETIREMENT

For Most Members

A monthly allowance of 1.8 percent of final compensation for each year of service, improved under certain conditions to 33.33 percent of final compensation, applicable to members with at least five years of service credit.

By Contract Amendment Only for Local Agencies

A monthly allowance of 30 percent of final compensation, plus an additional 1 percent for each year of service over five years to a maximum of 50 percent.

For State Second Tier Members

A monthly allowance of 1.125 percent of final compensation for each year of service, improved under certain conditions to 33.33 percent of final compensation, applicable to members with at least 10 years of service credit or five years if credited as of January 1, 1985.

For Certain Local Miscellaneous Second Tier Members

A monthly allowance of 1.35 percent of final compensation for each year of service, improved under certain conditions to 33.33 percent of final compensation, applicable to members with at least five years of service credit.

INDUSTRIAL DISABILITY RETIREMENT

For Most Members

A monthly allowance of 50 percent of final compensation, applicable to California Highway Patrol (CHP) members, state and local safety members, state peace officer/firefighter members, state industrial members, local miscellaneous members (by contract amendment only), and certain state miscellaneous members defined by law. The injury or illness must be job related and the member must be serving in one of these categories at the time the industrial disability occurs. CHP members may be entitled to an enhanced benefit if specific qualifying factors are met.

By Contract Amendment Only for Local Agencies

A monthly allowance of 75 percent of final compensation, if found totally disabled.

By Contract Amendment Only for Local Agencies

A monthly allowance of 50 percent to 90 percent of final compensation, depending on the disability rating by the Workers' Compensation Appeals Board.

DEATH BENEFITS (BEFORE RETIREMENT)

STATE MEMBERS: LUMP SUM

Basic Death Benefit - State Members Only

Eligible to retire or not eligible to retire with 20 years or more of state service credit - a return of member contributions plus interest (compounded annually) and a state-paid portion equal to six months' pay (50 percent of the member's earnable pay for the 12 months prior to the member's death).

Not eligible to retire with less than 20 years of state service *credit* – a return of only the member contributions plus interest (compounded annually).

Insurance Benefit - State Members Only

Eligible to retire or not eligible to retire with 20 years or more of state service credit - \$5,000 in a lump sum. Not eligible to retire with less than 20 years of state service credit - \$5,000 in a lump sum plus six months' pay (50 percent of annual compensation).

STATE MEMBERS - MONTHLY

Alternate Death Benefit¹ – For State Members in **Bargaining Units Contracting for this Benefit**

Not Eligible to Retire, With 20 Years or More of State Service Credit – a monthly allowance payable to a surviving spouse or registered domestic partner until death, then to children under age 18. It is calculated similarly to pre-retirement Option 2W (if the beneficiary is a spouse or registered domestic partner), or like a 1957 Survivor Benefit (if the beneficiary is a minor child), as though the member had been old enough to retire. A spouse or registered domestic partner or minor child may receive continued health and dental insurance with the Alternate Death Benefit. Once the allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

⁽¹⁾ The surviving spouse or registered domestic partner of other than a state member, or a guardian of a minor child, may elect the Basic Death Benefit or the 1957 Survivor Benefit. The surviving spouse or registered domestic partner of a state member may elect the Basic Death Benefit or the Pre-Retirement Option 2W Death Benefit.

Pre-Retirement Option 2W Benefit¹ – For All State Members, Married, or Registered Domestic Partnership

A monthly allowance payable to the surviving spouse or registered domestic partner until death, then to children under age 18, equal to 100 percent of the option portion had the member retired on their date of death. Once the allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

1957 Survivor Benefit¹ – For All State Members, Not Married, or No Registered Domestic Partnership

For members eligible to retire who are not married or in a registered domestic partnership, a monthly allowance payable to the unmarried surviving minor children until age 18, equal to one-half of the highest allowance (unmodified) the member would have received had they retired on the date of death. Once allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

1959 Survivor Benefit - State Members

A monthly benefit paid to survivors of deceased members who died prior to retirement. This benefit is similar to the Social Security Survivor Benefit and is paid in addition to any other applicable pre-retirement death benefit, except the Special Death Benefit.

Special Death Benefit¹ – Survivors of State, State Industrial, State Peace Officer/Firefighter Members, State Miscellaneous³

A monthly allowance equal to 50 percent of final compensation payable to the surviving spouse or registered domestic partner until death, or if no spouse, to natural or adopted unmarried children up to age 22. The monthly allowance is recalculated annually on October 1 based on the salary rates for employees who work in the position the member held at the time of death until such time as the member would have attained age 50.

Special Death Benefit² - Violent Death

Provides increased benefits (up to 75 percent of final compensation) based upon the number of surviving children, if the member's death is the result of external violence or physical force.

SCHOOL MEMBERS – LUMP SUM

Basic Death Benefit - School Members

Eligible to retire or not—A return of member contributions plus interest (compounded annually) and an employer-paid portion equal to one month's compensation earnable for each year of current service to a maximum of six months.

SCHOOL MEMBERS - MONTHLY

1957 Survivor Benefit¹ - School Members, Married, or **Registered Domestic Partnership**

For all members eligible to retire who are married or in a registered domestic partnership, a monthly allowance payable to the surviving spouse or registered domestic partner until death, then to children under age 18, equal to one-half of the highest allowance (unmodified) the member would have received had they retired on the date of death. Once the allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

1957 Survivor Benefit - For All School Members, Not Married, or No Registered Domestic Partnership

For members eligible to retire who are not married or in a registered domestic partnership, a monthly allowance payable to the unmarried surviving minor children until age 18, equal to one-half of the highest allowance (unmodified) the member would have received had they retired on the date of death. Once allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

⁽¹⁾ The surviving spouse or registered domestic partner of other than a state member, or a guardian of a minor child, may elect the Basic Death Benefit or the 1957 Survivor Benefit. The surviving spouse or registered domestic partner of a state member may elect the Basic Death Benefit or the Pre-Retirement Option 2W Death Benefit.

⁽²⁾ The Special Death Benefit is payable if the member's death is job related.

⁽³⁾ The survivor of a state or local miscellaneous member qualifies for the Special Death Benefit if the member was killed or fatally injured while performing their official duties.

1959 Survivor Benefit - School Members

A monthly benefit paid to survivors of deceased members who died prior to retirement. This benefit is similar to the Social Security Survivor Benefit and is paid in addition to any other applicable pre-retirement death benefit, except the Special Death Benefit.

LOCAL AGENCY MEMBERS - LUMP SUM **Basic Death Benefit - Local Agency Members**

Eligible to retire or not – A return of member contributions plus interest (compounded annually) and an employer-paid portion equal to one month's compensation earnable for each year of current service to a maximum of six months.

LOCAL AGENCY MEMBERS - MONTHLY 1957 Survivor Benefit¹ – Local Agency Members, Married, or Registered Domestic Partnership

For all members eligible to retire who are married or in a registered domestic partnership, a monthly allowance payable to the surviving spouse or registered domestic partner until death, then to children under age 18, equal to one-half of the highest allowance (unmodified) the member would have received had they retired on the date of death. Once the allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

1957 Survivor Benefit – For All Local Agency Members, Not Married, or No Registered Domestic Partnership

For members eligible to retire who are not married or in a registered domestic partnership, a monthly allowance payable to the unmarried surviving minor children until age 18, equal to one-half of the highest allowance (unmodified) the member would have received had they retired on the date of death. Once allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

1959 Survivor Benefit - Local Agency Members Not **Coordinated With Social Security by Contract Option** Amendment

A monthly benefit paid to survivors of deceased members who died prior to retirement. This benefit is similar to the Social Security Survivor Benefit and is paid in addition to any other applicable pre-retirement death benefit, except the Special Death Benefit.

Alternate Death Benefit for Firefighters - Local Agencies by Contract With 20 Years or More of Total Service Credit

A monthly non-job-related allowance payable to a surviving spouse or registered domestic partner until death, then to children under age 18. It is calculated similarly to Pre-Retirement Option 2W (if the beneficiary is a spouse or registered domestic partner, even if the agency does not contract separately for the Pre-Retirement Option 2W benefit), or like a 1957 Survivor Benefit (if the beneficiary is a minor child), as though the member had either been old enough to retire (if the member died before reaching retirement age), or based on the member's actual age if the member was eligible to retire at the time of death. This benefit applies to all service credit earned by the member, including service that may have been earned with a local agency that does not contract for the Alternate Death Benefit, as long as the member was employed at the time of death by a local agency that provides this benefit in their contract. Once the allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

Pre-Retirement Option 2W Benefit - Local Agencies by Contract, Married, or Registered Domestic Partnership

A monthly allowance payable to the surviving spouse or registered domestic partner until death, then to children under age 18, equal to 100 percent of the option portion had the member retired on their date of death. Once the allowance stops, the total allowance paid is compared with the Basic Death Benefit amount, and any difference is paid in a lump sum to all of the member's surviving children.

⁽¹⁾ The surviving spouse or registered domestic partner of other than a state member, or a guardian of a minor child, may elect the Basic Death Benefit or the 1957 Survivor Benefit. The surviving spouse or registered domestic partner of a state member may elect the Basic Death Benefit or the Pre-Retirement Option 2W Death Benefit.

Special Death Benefit¹ – Survivors of Patrol, Local Safety & Local Miscellaneous by Contract Amendment³

A monthly allowance equal to 50 percent of final compensation payable to the surviving spouse or registered domestic partner until death, or if no spouse, to natural or adopted unmarried children up to age 22. The monthly allowance is recalculated annually on October 1 based on the salary rates for employees who work in the position the member held at the time of death until such time as the member would have attained age 50.

Special Death Benefit² – Violent Death

Provides increased benefits (up to 75 percent of final compensation) based upon the number of surviving children, if the member's death is the result of external violence or physical force.

COST-OF-LIVING ADJUSTMENTS

For All Members - Except State Second Tier

A maximum of 2 percent compounded annually (up to 5 percent maximum as a contract option for retired members of local agencies). Note: Does not apply to the 1959 Survivor Death Benefit.

For State Second Tier Members Only

A fixed 3 percent compounded annually.

SEPARATION FROM EMPLOYMENT/REFUNDS

At permanent separation from employment, members may either leave their contributions on deposit and defer retirement⁴ or terminate membership by electing to take a refund of member contributions plus interest (compounded annually). With a refund election, CalPERS is required to deduct federal withholding of 20 percent from the untaxed portion of the refund, unless the taxable portion is directly rolled over to a qualified plan or IRA.

⁽¹⁾ The surviving spouse or registered domestic partner of other than a state member, or a guardian of a minor child, may elect the Basic Death Benefit or the 1957 Survivor Benefit. The surviving spouse or registered domestic partner of a state member may elect the Basic Death Benefit or the Pre-Retirement Option 2W Death Benefit.

⁽²⁾ The Special Death Benefit is payable if the member's death is job-related

⁽³⁾ The survivor of a state or local miscellaneous member qualifies for the Special Death Benefit if the member was killed or fatally injured while performing their official duties.

⁽⁴⁾ A member who has less than the required amount of service credit may return to CalPERScovered employment to obtain the minimum service credit required to be eligible for retirement.

The presentation of the following table has been modified to better align statistical data with current categorizations of members and beneficiaries by rate plan and current pension reform changes. For financial reporting purposes only, the Public Employees' Retirement Fund (PERF) is comprised of and reported as three separate entities. PERF A is comprised of agent multiple-employer plans, which includes State of California and most public agencies' rate plans with more than 100 active members. PERF B is a cost-sharing multiple-employer plan of school employers consisting of non-teaching and non-certified employees. PERF C is a cost-sharing multiple-employer plan of public agencies' plans with generally fewer than 100 active members. Under applicable law, the CalPERS Board may terminate or a public agency may terminate that agency's plan under either PERF A or PERF C. The terminated agency is liable to the system for all costs to fund all benefits under the agency's contract. An unpaid deficit in funding will result in a commensurate reduction in benefits provided under that agency's contract.

PUBLIC AGENCY EMPLOYERS

CONTRACTS SUMMARY

On June 30, 2018, 1,579 public agency contracts provided retirement, death, and survivor benefits for participants of 57 county offices of education; 4 school district offices; 451 cities and towns; 37 counties; the State of California; and 1,029 districts and other public agencies. The 57 county offices of education contracts provide benefits for 1,313 school districts and charter schools, bringing the total number of public agency employers to 2,892.

During Fiscal Year 2017-18, four additional agencies contracted with CalPERS for retirement, death, and survivor benefits. The new contracting agencies are:

New Contracts

Effective Date	Public Agency	Misc. Member Formula	Safety Member Formula
7/1/2017	Graton Community Services District	2% @ 62	N/A
7/1/2017	Sonoma County Junior College District	N/A	2.7% @ 57
1/1/2018	Transportation Authority of Marin	2% @ 55 2% @ 62	N/A
5/4/2018	Channel Islands Beach Community Services District	2% @ 62	N/A

Amendments

Public agency contracts vary depending upon the member categories covered, the formula the agency elects to provide, and the optional benefit provisions selected from the group of 41 benefits. These optional benefits may be provided at the time the original contract is established or they may be added later through the contract amendment process.

During Fiscal Year 2017-18, 40 contract amendments were completed.

Two Years of Additional Service Credit - "Golden Handshake"

Contracting agencies may amend their contracts to provide additional service credit if there are impending mandatory transfers, layoffs, or demotions. Eligible employees who retire within a 90- to 180-day window period established by the employer receive two years additional service credit. The county offices of education may also contract for this benefit when there is an impending curtailment of, or change, in the manner of performing services, and their best interest would be served by granting the additional service credit. Once the contract is amended, the employer may establish additional window periods.

Popular Benefit Amendments

Benefit	Number of Amendments
Employees Sharing Additional Cost	27
Succeeding Agency	2
Pre-Retirement Option 2W Death Benefit	2
Fourth Level of 1959 Survivor Benefits	2
Post-Retirement Survivor Allowance	2
Removal of Contract Exclusions Prospectively Only	1
Termination of a Portion of the Contract	1
Credit for Unused Sick Leave	1
Partial Service Retirement	1
Additional Opportunity to Elect 1959 Survivor Benefits	1

Mergers

- San Diego Pooled Insurance Program Authority merged to the CSAC Excess Insurance Authority, effective July 1, 2017.
- · Loomis Fire Protection District merged to the South Placer Fire District, effective January 20, 2018.

Terminations

CalPERS pension contract terminations are permissible under the Public Employees' Retirement Law (PERL), which defines the methods in which a contracting agency voluntarily or involuntarily exits CalPERS' pension program. A contracting agency may voluntarily terminate its pension contract with the adoption of a formal resolution effectuating this action. The termination is effective with the agency's Board approval on the date designated in the resolution terminating the contract and any unfunded liabilities must be fully paid. In the case of an involuntary termination, the CalPERS Board has the authority to terminate a contracting agency's pension contracts due to specific inabilities by a contracting agency to meet the requirements of participation as defined by the PERL. There were no terminations effective during Fiscal Year 2017-18.

Reciprocal Systems

Reciprocity is a valuable addition to the CalPERS benefit package. Its purpose is to encourage career public service, by allowing members to move between employers under different public retirement systems without losing their retirement and related benefits. The following retirement systems have reciprocity with CalPERS:

Counties Under the County Employees' Retirement Law of 1937

 Alameda Sacramento Contra Costa · San Bernardino • Fresno · San Diego Imperial · San Joaquin Kern · San Mateo · Santa Barbara Los Angeles Sonoma Marin Mendocino Stanislaus Merced Tulare Ventura Orange

PARTICIPATING PUBLIC AGENCIES BY TYPE

The following tables are counts of active participants. excluding retirees, sorted by public agency. In most cases, a participant is only counted once. A participant could be counted more than once if he/she has multiple active appointments on the report effective date. An active member is currently employed by the State of California, a CalPERS contracting public agency, or a school district. Agencies that contract with CalPERS for retirement benefits and have zero participants were included.

For financial reporting purposes only, the PERF is comprised of and reported as three separate entities. PERF A is comprised of agent multiple-employer plans, which includes State of California and most public agency rate plans with more than 100 active members. PERF B is a cost-sharing multiple-employer plan of school employers consisting of nonteaching and non-certified employees. PERF C is a costsharing multiple-employer plan of public agency plans with generally fewer than 100 active members. Under applicable law, the CalPERS Board may terminate or a public agency may terminate that agency's plan under either PERF A or PERF C. The terminated agency is liable to the system for all costs to fund all benefits under the agency's contract. An unpaid deficit in funding will result in a commensurate reduction in benefits provided under that agency's contract.

LEGISLATORS' RETIREMENT SYSTEM PROGRAM DATA

PRIMARY BENEFITS

CalPERS has administered the Legislators' Retirement System (LRS) since its inception in 1947. The duties of the Board with respect to administering the LRS are the same as the PERF on such items as determining membership and benefit rights, making investments, crediting interest, and obtaining information necessary for administration. Benefits payable from the LRS are financed through the State's contribution as an employer, member contributions, and interest earned on investments.

The CalPERS Board is authorized to establish actuarially determined rates. For Fiscal Year 2017-18, the Board approved an employer contribution rate of 41.696 percent. Effective January 1, 2013, Assembly Bill 340 added Government Code section 7522.52. Section 7522.52 requires that a public employer's contribution to a defined benefit plan, in combination with employee contributions to that defined benefit plan, shall not be less than the normal cost.

Member contributions to the LRS are made by active members based on position and membership date. Active Legislative Members and Constitutional Officers contribute 4 percent of compensation if first elected before March 4, 1972, or 8 percent of compensation if first elected after March 4, 1972. The interest credited to member accounts is the net earnings rate of investments.

ASSEMBLY BILL 340 – PUBLIC EMPLOYEES' PENSION REFORM ACT (PEPRA)

The California Legislature passed and the Governor signed the Public Employees' Pension Reform Act of 2013 (PEPRA) on September 12, 2012. PEPRA contained a number of provisions intended to reduce future pension obligations. PEPRA primarily affects new pension plan members who are enrolled for the first time after December 31, 2012. The financial impact will be gradually realized as total pension costs and the employer share of those costs decrease.

PEPRA amended the Legislators' Retirement Law, and permanently closed the LRS to all Constitutional and Legislative Statutory Officers who take office on or after January 1, 2013.

PROPOSITION 140

Proposition 140, the Political Reform Act of 1990, requires that Legislators (Senators and Members of the Assembly) first elected after November 7, 1990 participate in the federal Social Security program and in no other retirement system.

MEMBERSHIP

Members of the Legislature serving prior to November 7, 1990; elected Constitutional Officers; and Legislative Statutory Officers serving prior to January 1, 2013, were eligible for membership.

SERVICE RETIREMENT

Retirement Age

The retirement age is 60, with four or more years of service credit, or any age with 20 or more years. The retirement age for Legislative Statutory Officers is 55, or any age with 20 years or more of service credit.

Members of the Legislature Benefit Formula

The retirement formula consists of three separate formulas that are totaled together to provide the members with their allowance. The first part of the formula consists of 5 percent of the first \$500 of salary up to 15 years of service. The second part is 3 percent per year of the same \$500 of salary for years in excess of 15 years. And finally, total years of service is multiplied by 3 percent per year of their salary above \$500. In no case may members receive more than two-thirds of their salary.

Constitutional Officers' Benefit Formula

Five percent per year of service up to eight years (40 percent) of their highest salary. If the member has 24 or more years of service, the retirement allowance is 60 percent of their final salary.

Statutory Officers' Benefit Formula

Statutory Officers receive 3 percent per year of service, not to exceed 66 2/3 percent of final monthly compensation.

Early Retirement Options for Members of the Legislature & Constitutional Officers

Legislators and Constitutional Officers may retire before age 60 with 15 years of service. However, their retirement allowance is reduced by 2 percent for each year they retire before age 60.

DISABILITY RETIREMENT

Disability retirement uses the same formula as service retirement. There is no reduction if retirement is before age 60 for members of the Legislature.

LEGISLATORS' RETIREMENT SYSTEM PROGRAM DATA (CONTINUED)

DEATH BENEFITS (BEFORE RETIREMENT)

Not Eligible to Retire

One month's salary for each year of service, plus the return of the member's contributions with interest payable to a survivor.

Eligible to Retire

A surviving spouse will receive a monthly allowance equal to the Optional Settlement 2. In lieu of this benefit, a surviving spouse of a Member of the Legislature may receive a monthly allowance equal to one-half of the unmodified allowance, payable for life or until remarriage.

DEATH BENEFITS WHILE IN OFFICE

Beneficiaries receive a lump-sum benefit in an amount equal to the annual compensation of an LRS member during the 12 months preceding the member's death, regardless of whether the member was eligible to retire.

LRS Active & Inactive Members

Category	Active	Inactive	Total
Members of the Legislature	1	3	4
Constitutional Officers	6	4	10
Total	7	7	14

LRS Benefit Payments by Type

Category	Amount Paid
Service Retirement	\$6,721,691
Disability Retirement	107,205
Beneficiary Death Benefits	19,179
Beneficiary Death Benefits/Allowance	76,990
Adjustments ¹	(7,261)
Total	\$6,917,804

⁽¹⁾ Adjustments contain manual claims and overpayment recoveries.

DEATH BENEFITS (AFTER RETIREMENT)

Members choose between one of four options. The level of survivor benefit is based on the option chosen, without a reduction in allowance for members of the Legislature. Constitutional Officers and Statutory Officers receive a reduced allowance based on their age at time of retirement and the option they choose. Beneficiaries also receive a \$600 lump-sum payment.

COST-OF-LIVING ADJUSTMENTS (COLA)

The annual COLA is determined by the Consumer Price Index.

JUDGES' RETIREMENT SYSTEM PROGRAM DATA

PRIMARY BENEFITS

The Judges' Retirement System (JRS) was established in 1937. The operational activities of the JRS were transferred from the State Controller's Office to CalPERS in 1979. Benefits payable through the JRS are financed by the General Fund, the payroll contributions of members, and the State's contribution as an employer. Both employer and members contribute at the rate of 8 percent of compensation.

MEMBERSHIP

The Judges' Retirement System provides retirement, disability, death, and survivor benefits for Supreme and Appellate Court Justices and Superior Court Judges elected prior to November 9, 1994, and beneficiaries. Health and dental benefits are provided to eligible retirees and beneficiaries of the JRS under the Public Employees' Medical and Hospital Care Act (PEMHCA).

SERVICE RETIREMENT

Retirement Age

Members must be at least age 60 with 20 years of service, or age 70 with at least 10 years of service.

Retirement Benefit Formula

The retirement allowance is a percentage of the current salary of the last judicial office held and is increased proportionally with active judicial salaries. The allowance is based on a member's age and years of service as follows:

Age	Years of Service	Retirement Allowance
60-70	20	75%
66	18	65%
67	16	65%
68	14	65%
69	12	65%
70	10	65%

Judges can work as long as they want and receive their full pension of either 65 percent or 75 percent (depending on credited service).

Deferred Retirement

Judges are eligible for deferred retirement at any age if they have at least five years of service. However, judges are not paid the allowance until they reach the age they would be eligible for normal retirement if they had remained in office. A judge must be at least age 63, or age 60 with 20 years of service, to receive a retirement allowance. The allowance is based on years of service multiplied by a percentage of the judge's final salary—varying from 2 percent for five years to

3.75 percent for 12 or more years of service. The maximum benefit they can receive is 75 percent of salary.

DISABILITY RETIREMENT

Judges must apply to the Commission on Judicial Performance to receive a disability retirement. Judges receive the same allowance for work-related disability retirement as non-work related disability retirement. The retirement allowance is 65 percent of the judge's final salary, or 75 percent of their final salary if the judge has 20 or more years of service.

DISABILITY RETIREMENT (NON-WORK RELATED)

There is no age requirement, but there may be a service requirement depending on when the person became a judge. Any person who became a judge prior to January 1, 1980, is not subject to a service requirement. Any person who became a judge between January 1, 1980 and December 31, 1988, must have at least two years of judicial service. Any person who became a judge on or after January 1, 1989, must have at least four years of judicial service.

DISABILITY RETIREMENT (WORK RELATED)

There is no age or service requirement if the disability is a result of injury or disease arising out of and in the course of judicial service.

DEATH BENEFITS (BEFORE RETIREMENT) Not Eligible to Retire

Spouses or registered domestic partners can receive 25 percent of a current active judge's salary for life or return of contributions plus one month's salary, for each year of service not to exceed six months; or the surviving spouse or registered domestic partner can elect a monthly allowance for life, if the judge had paid an extra \$2 per month and had 10 to 20 years of service. This allowance would be equal to 1.625 percent of the salary multiplied by the number of years of service.

Eligible to Retire

Spouses or registered domestic partners receive one-half of what the retirement allowance would have been if the judge had retired on date of death. At any time while in office, a judge may make an irrevocable election for their eligible surviving spouse or registered domestic partner to receive the maximum survivor benefit (Option 2) in the event of the judge's pre-retirement death. This benefit is only payable if a judge dies after 20 or more years of service.

JUDGES' RETIREMENT SYSTEM PROGRAM DATA (CONTINUED)

DEATH BENEFITS (AFTER RETIREMENT)

Spouses or registered domestic partners receive one-half of the unmodified allowance for life, if the member retired with the standard retirement benefit formula, or on disability.

Judges may elect to take a reduced retirement allowance in order to enhance the survivor benefits to their spouse, registered domestic partner, or a designated beneficiary.

COST-OF-LIVING ADJUSTMENTS

The allowance increases are based on the current salary of an active judge. Retirees receive the same increase as active judges.

⁽¹⁾ Reporting for PEPRA active members began in Fiscal Year 2014-15.

JUDGES' RETIREMENT SYSTEM II PROGRAM DATA

PRIMARY BENEFITS

The Judges' Retirement System II (JRS II) was established in 1994 to create a fully funded, actuarially sound retirement system for judges appointed or elected on or after November 9, 1994. This system provides two different types of retirement benefits: a traditional defined benefit plan or a cash balance (monetary credits) plan. The defined benefit plan provides a lifetime monthly retirement allowance of up to 75 percent of final compensation.

Alternatively, a judge may elect to receive the amount of his or her monetary credits in either a lump sum or an annuity of actuarially equivalent value.

ASSEMBLY BILL 340 - PUBLIC EMPLOYEES' PENSION REFORM ACT (PEPRA)

The California Legislature passed and the Governor signed the Public Employees' Pension Reform Act of 2013 (PEPRA) on September 12, 2012. PEPRA contained a number of provisions intended to reduce future pension obligations. PEPRA primarily affects new pension plan members who are enrolled for the first time after December 31, 2012. The financial impact will be gradually realized as total pension costs and the employer share of those costs decrease.

The new law implemented new member contribution requirements for judges who meet the definition of a new member under PEPRA, effective January 1, 2013. The new requirements provide that all new PEPRA members must contribute to the JRS II an amount equal to half of the normal cost.

MEMBERSHIP

JRS II provides retirement, disability, death, and survivor benefits for Supreme and Appellate Court Justices, and Superior Court Judges, first appointed or elected on or after November 9, 1994, and their beneficiaries. Health and dental benefits are provided to eligible retirees and beneficiaries of JRS II under PEMHCA.

SERVICE RETIREMENT

Retirement Age

Judges must be at least age 65 with 20 years of service or age 70 with a minimum of five years of service to receive the defined benefit plan. Judges who leave office with five or more years of service but who do not meet the above criteria receive the amount of their monetary credits.

RETIREMENT FORMULA

Defined Benefit Plan

This option provides a defined benefit of 3.75 percent of the judge's final compensation per year of service, up to 75 percent of the judge's final compensation. Optional settlements are available which reduce a judge's retirement allowance to provide a lifetime benefit for a surviving spouse upon death of the judge.

The Public Employees' Pension Reform Act of 2013 (Chapter 296, Stats. 2012) (PEPRA) also added Government Code section 7522.32, which for the purpose of determining the retirement benefits to be paid to a new member of a public retirement system, defines final compensation as the highest average annual pensionable compensation earned by the member during a period of at least 36 consecutive months.

Monetary Credit Plan

The judge may elect to have his or her monetary credits paid in a single lump sum, as an annuity for his or her lifetime, or pursuant to one of the available optional settlements.

DISABILITY RETIREMENT (NON WORK-RELATED)

Judges who have five years of service and become permanently disabled because of a mental or physical disability may apply to the Commission on Judicial Performance for disability retirement.

A judge who retires for non work-related disability will receive an allowance in an amount equal to the lower of the

- · 3.75 percent of the judge's final compensation on the effective date of the disability retirement multiplied by the number of years of service the judge would have been credited had the judge continued to work until the age the judge would have first been eligible for service retirement,
- 65 percent of the judge's final compensation on the effective date of the disability retirement.

DISABILITY RETIREMENT (WORK RELATED)

Judges receive 65 percent of their final compensation on the effective date of the disability retirement, regardless of age or length of service, if the disability is predominantly a result of injury arising out of and in the course of judicial service.

JUDGES' RETIREMENT SYSTEM II PROGRAM DATA (CONTINUED)

DEATH BENEFITS (BEFORE RETIREMENT)

Not Eligible to Retire

Spouses or registered domestic partners receive the judge's monetary credits or three times the judge's annual salary at the time of death, whichever is greater.

Eligible for the Defined Benefit Plan

Spouses or registered domestic partners receive either a monthly retirement allowance equal to one-half of the judge's defined benefit plan allowance or the judge's monetary credits. Or if elected by the judge, the surviving spouse or registered domestic partner of an eligible judge who dies after 20 or more years of service, will receive the maximum survivor benefit (Option 2).

DEATH BENEFITS (AFTER RETIREMENT)

Defined Benefit Plan

Spouses or registered domestic partners receive one-half of the judge's monthly allowance for life. Judges who retired under a service retirement may also elect an optional settlement to increase the monthly benefits to their eligible surviving spouse or registered domestic partner.

Monetary Credit Plan

If the judge elected to receive his or her monetary credits in a lump sum or as a lifetime annuity for his or her life alone, there are no other benefits payable. If the judge elected one of the available optional settlements, his or her surviving spouse or registered domestic partner will receive benefits based on the optional settlement elected.

COST-OF-LIVING ADJUSTMENTS

The retirement allowance of retired judges who have elected the defined benefit plan will be adjusted every January after the judge has been retired for more than six months. The adjustment is based on the United States city average of the Consumer Price Index for All Urban Consumers, as published by the United States Bureau of Statistics. No adjustment will be made unless the cost-of-living increase equals or exceeds 1 percent, and the allowance cannot be increased more than 3 percent in a single year.

DEFINED CONTRIBUTION PLANS

California Public Employees' Retirement System (CalPERS) administers a defined contribution plan and a deferred compensation plan to certain members to save for retirement.

These plans include:

- Deferred Compensation Program
- Supplemental Contributions Program

DEFERRED COMPENSATION PROGRAM

The Deferred Compensation Program is a way for participants to defer a portion of pre-tax salary into investments of an individual's choosing. It allows both the amount deferred and the amount earned on the investment to be protected from income tax until the money is distributed. The plan is intended to provide for supplemental savings to CalPERS or other defined benefit plans. Eligible public agencies and school employers may elect to offer the Deferred Compensation Program to their employees.

The CalPERS Board designates the investment fund options made available to participants and provides the administrative functions of the program. Assets are held in trust by the Board for the exclusive benefit of participating employees.

As of June 30, 2018, the Deferred Compensation Program was adopted by 794 California public agencies and school districts. For a full listing of the program's participating public agencies, please visit our public agency employer page at www.calpers.ca.gov.

SUPPLEMENTAL CONTRIBUTIONS PROGRAM

The Supplemental Contributions Program is available to State of California employees who are members of CalPERS, and active judges who are members of the Judges' Retirement System I or II. Participants may invest after-tax contributions through payroll deductions or cash contributions by check. Participant earnings grow tax-deferred until the program participants begin to take withdrawals in retirement or upon separation from state employment.

INVESTMENT FUND LINEUP

The Deferred Compensation Program and Supplemental Contributions Program for the Fiscal Year 2017-18 investment line-up allows participants to choose from 10 target retirement date funds and six core funds.

The investment fund lineup includes:

Ten Target Retirement Date Funds

- Structured with five-year increments to allow participants to target their retirement date.
- Utilizes glide path strategy intended to reduce volatility risk as the member approaches retirement.

Six Core Funds

- Provides a broad range of asset class coverage to create a portfolio consistent with the participants' individual investment goals, time horizons, and risk tolerance.
- Spans the risk-return spectrum, without duplication.

LONG-TERM CARE PROGRAM DATA

As of June 30, 2018, the total long-term care (LTC) participant count decreased 3.0 percent to 124,472. This decrease may be attributable to the LTC program stabilization and sustainability measures and realized participant population attrition. Annual premiums as of June 30, 2018, were \$296.3 million.

CHIEF COMPLIANCE OFFICER'S LETTER

The Annual Compliance Report outlines key accomplishments on ethics and compliance activities covering Fiscal Year (FY) 2017-18. This report is included as a complement to the Comprehensive Annual Financial Report (CAFR). The Enterprise Compliance Branch (Enterprise Compliance) of the California Public Employees' Retirement System (CalPERS) is responsible for coordinating, supporting, and promoting an effective enterprise-wide ethics and compliance program. Enterprise Compliance is at the forefront of compliance and ethics at CalPERS, working to protect the enterprise by ensuring we are following all the laws and regulations that govern our business.

Consistent with CalPERS' values of Integrity, Openness, and Accountability, Enterprise Compliance is keenly aware of our responsibility to set the example of ethical behavior and practices. To leverage our effectiveness, we embrace partnerships with other program areas to maximize our impact.

This work relies on our partnerships across the enterprise to help inform and raise awareness about the importance of compliance and ethics. Enterprise Compliance is staffed with 26 team members to oversee the ethics and compliance in an organization with approximately 2,900 employees.

Enterprise Compliance also recognizes that effective compliance programs grow organically; our job is to make sure everyone knows how they can positively impact our organization. For instance, we have embedded compliance liaisons in some of our largest program areas who serve as first line compliance experts. We are grateful for their participation and partnership throughout the CalPERS organization.

Marlene Timberlake D'Adamo Chief Compliance Officer

CULTURE OF COMPLIANCE

We strive to embed compliance into the CalPERS culture. strategy, and day-to-day business operations. All of Enterprise Compliance's activities and accomplishments directly support our organization's strategic plan and core values.

During the FY 2017-18, Enterprise Compliance was transitioned from a division within the Financial Office to its own Branch. The Chief Compliance Officer now reports directly to the Chief Executive Officer, Marcie Frost. Not only did this move help set the "tone at the top" of the importance of compliance, but it allows for improved communication, visibility, and influence for compliance efforts.

In 2004, CalPERS established a separate and distinct compliance office to support the enterprise level commitment to strong ethics, compliance, and risk management practices. Since then, the office has continued to grow and develop.

In 2015, Enterprise Compliance developed a new multi-year compliance plan, building upon the already effective compliance practices in place.

The five-year compliance plan is aimed at building and enhancing compliance capabilities to mature the program and is consistent with changes in the broader compliance landscape (see Figure 1). The compliance plan focuses on strengthening our compliance and ethics program by fostering a culture of compliance, clarifying the compliance governance structure, and providing our CalPERS' Board and management with compliance tools and information to fulfill their oversight responsibilities. We have just completed the third year of the compliance plan and are on track to begin implementing our FY 2018-19 planned activities.

FIGURE 1: FIVE-YEAR COMPLIANCE PLAN

(Figure 1)

INTEGRATED ASSURANCE MODEL: THREE LINES OF DEFENSE

To implement our governance, risk, and compliance practices, we have embraced an Integrated Assurance Model to promote a multi-faceted approach to compliance awareness and accountability. The model centers on a Three Lines of Defense

framework (see Figure 2), which promotes collaboration and an increased understanding of roles and responsibilities to detect, prevent, and correct instances of non-compliance.

FIGURE 2: INTEGRATED ASSURANCE MODEL

(Figure 2)

- First Line of Defense The first level of the control environment are the program areas, which perform dayto-day risk management activities. In addition to performing day-to-day operations, the functional areas are responsible for compliance and risk mitigation.
- **Second Line of Defense** The Enterprise Compliance Branch and Enterprise Risk Management Division partner collaborate to provide oversight, guidance, monitoring of governance, risk, and compliance activities. As a result of this partnership, we are able to support the organization in mitigating strategic and operational risks along with strengthening the organization's control environment and promoting strong ethical business practices. To demonstrate this alignment, both work closely together to develop and implement their annual plans.
- Third Line of Defense Internal audits provides independent assurance on the effectiveness of governance, risk management, and internal controls. The Office of Audit Services participates in a joint organization

wide-risk assessment with the Risk and Compliance offices. This coordination assists with the development of a common view of risk across the organization.

The Integrated Assurance Model helps clarify roles and responsibilities and promote ownership of compliance throughout the organization. Through the Three Lines of Defense, CalPERS encourages a culture of doing the right thing. By fostering a work environment based on our core values of quality, respect, integrity, openness, accountability and balance, CalPERS also recognizes that compliance is everyone's responsibility. The partners within the Integrated Assurance Model hold monthly working sessions to collaboratively discuss, plan, and receive feedback on each party's inter-related efforts. These monthly meetings help ensure cooperation and improve timing of reviews by reducing over-lapping efforts and encourage collaboration with the program areas.

FISCAL YEAR 2017-18 ETHICS AND COMPLIANCE PROGRAM INITIATIVES HIGHLIGHTS

Enterprise Compliance is guided by compliance standards set out in a variety of federal and state guidelines. Federal Sentencing Guidelines identify consistent, continuous promotion and enforcement of compliance and ethics standards as essential components of an effective compliance program. The California State Leadership Accountability Act also sets compliance industry best practices, benchmarks, and organizational needs for the state agencies of California.

Through our internal partnerships, Enterprise Compliance identified program areas and topics where additional time and attention are necessary to continue to meet compliance requirements, support ethical behaviors and ensure overall organizational integrity.

ENTERPRISE COMPLIANCE BRANCH

The Enterprise Compliance Branch is committed to ensuring CalPERS maintains compliance with the letter and spirit of all applicable laws, regulation, and policies in partnership with program areas. This Branch is comprised of four units:

- · Enterprise Compliance Monitoring and Oversight,
- · Enterprise Ethical Standards and Investigations,
- Enterprise Policy and Delegation Management, and
- Enterprise Compliance Operations, Communications, and Reporting.

Enterprise Compliance Monitoring and Oversight Unit

This unit is responsible for developing consistency in program area compliance activities and ongoing monitoring and reporting of the enterprise.

Compliance Monitoring and Oversight

- Implemented regular monitoring of Investment decisionmaking materials and incorporated reporting of Investment Policy violations to the Risk and Audit Committee
- Conducted targeted compliance reviews and compliance monitoring of program areas
- Developed framework to track legislative change implementation

Embedded Compliance Program

- Partnered with embedded compliance liaisons to strengthen compliance controls, oversight, and awareness
- Collaborated with Customer Services and Support and Operations and Technology liaisons to create and adopt Branch compliance plans
- Clarified roles and responsibilities for new Financial Office and Health Policy and Benefits Branch compliance liaisons

Enterprise Ethical Standards and Investigations Unit

This unit oversees all ethics policies and conflict of interest disclosures. The unit is involved in many business areas of CalPERS where decision makers are required to file the Statement of Economic Interests From 700 to stay in compliance with the California Fair Political Practices Commission regulations. This unit also oversees the Ethics Helpline, which is a reporting tool for anonymous complaints that are then researched and investigated by appropriate program areas.

Conflicts of Interest

- Aligned Conflict of Interest Rules with vendor management process
- Created contract review tools to improve consultant Form 700 filing processes
- Developed new training and improved communications process to better outline vendor Form 700 roles and responsibilities for contract mangers and compliance liaisons
- · Enhanced reporting and outreach to all Form 700 filers

Ethics Laws & Policies Oversight

- Evaluated, revised, and consolidated CalPERS ethicsrelated laws and policies
- Reviewed and prepared revisions to CalPERS Statement of Incompatible Activities
- Conducted review of CalPERS Conflict of Interest Code, including assessments of new classification for potential Form 700 filer requirements
- Created a roadmap of all ethics-related policies to be combined into a single manual for clarity and ease of understanding
- Enhanced program administration to ensure consistency across intake channels
- Standardized the tracking and reporting of Ethics Helpline cases in the ethics case management system
- Completed the transition to online tracking/reporting through our ethics case management system

Enterprise Policy and Delegation Management Unit

This unit has the responsibility for maintaining a policy and authoritative source governance program. The purpose of this program is to maintain current comprehensive policies, delegations and charters conveying CalPERS' expectations. CalPERS has established enterprise-wide standards for policy management and delegations of authority consistent with professional best practice.

FISCAL YEAR 2017-18 ETHICS AND COMPLIANCE PROGRAM INITIATIVES HIGHLIGHTS (CONTINUED)

Policy Management

- · Expanded frameworks to include guidance on committee governance and guidelines
- Developed governance framework, including standardized templates for committee charters and bylaws
- Developed on-demand policy training materials, to support CalPERS team members in navigating each step of the Enterprise policy lifecycle

Delegation Management

- · Aligned Board-approved policies and reporting with Board delegations of authority
- · Developed a framework to ensure Board Committee reporting complies with Committee delegations of authority
- Conducted preliminary historical assessment of Board Agenda Items for future alignment with Board Delegations of Authority in support of enterprise efforts to streamline and improve Board Reporting

Compliance Operations, Communications and Reporting

The Compliance Education, Communications, and Reporting unit is responsible for external mandated reporting, communications, education, and training

Communications

- · Continued to enhance compliance education and communication
- Developed and rolled out the Compliance Discussion Guides to align Core Values with compliance principles to help initiate conversations on building a strong ethical culture
- Hosted Second Annual National Compliance and Ethics Week in November 2017, including an Executive Panel Discussion on Ethical Leadership for managers and an Enterprise Compliance open-house
- · Sponsored onsite training on Compliance Metrics Development
- · Published InCalPERS articles and an internal social media platform weekly posts highlighting compliance related priorities, team members and topics
- Presented CalPERS' Compliance Program at the 2017 **Education Forum**
- Participated in outreach events to create awareness of the compliance program during CalPERS Career Fair and Take Our Daughters and Sons to Work Day

· Set baselines for Employee Awareness Survey, Stakeholder Assessment, and Maturity Program Assessment that support the CalPERS Five-Year Strategic Goal

Compliance Reporting

- · Continued to expand compliance reporting to include program operations
- · Updated the Enterprise Compliance Activity Report with additional metrics, including trend information

Incorporated Investment Office, Operations and Technology Branch, and Customer Services and Support into the Enterprise Compliance Fiscal Year 2017-18 Mid-Year Plan Update

EMBEDDED COMPLIANCE PROGRAM

An important strategy Enterprise Compliance uses to help meet compliance efforts is partnering with embedded compliance liaisons in key program areas to provide reporting mechanisms and help solidify the enterprise-wide culture of compliance. Embedded liaisons are individuals or team members that have a portion of their job function to help their program areas promote, coordinate, and facilitate compliance efforts. Sometimes referred to as Compliance Champions, the embedded compliance liaisons often help bridge compliance concerns between Enterprise Compliance and program team members.

Health Policy and Benefits Branch

The Health Policy and Benefits Branch (HPBB) administers and oversees the CalPERS Health Benefits Program and Long-Term Care Program. HPBB is composed of the following divisions:

- Health Account Management Division
- Health Benefits Administrative Support
- Health Plan Administration Division
- · Health Policy Research Division

Policy Management

· Implemented health benefit delivery policies and procedures in compliance with the administration of the Public Employees' Medical and Hospital Care Act (PEMHCA) and Affordable Care Act (ACA)

Compliance Monitoring and Oversight

· Conducted semi-annual my|CalPERS user access reviews to comply with information security standards

Compliance Reporting

 Developed and submitted annual report on health premium increases and decreases

FISCAL YEAR 2017-18 ETHICS AND COMPLIANCE PROGRAM INITIATIVES HIGHLIGHTS (CONTINUED)

Health Benefits Program

 Developed and submitted an annual report on Health Benefits Program pursuant to California Government Code Section 22866(a)

Customer Services and Support Branch

The Customer Services and Support (CSS) branch administers health and pension benefits as well as related services to our members and business partners, delivering end-to-end customer service that is adaptive to our customers' needs. Within CSS, the Embedded Compliance program supports a coordinated effort in ensuring compliance with applicable laws, regulations and polices which govern our business.

Communication

- Led efforts to address significant changes in the audit compliance and resolution process through the Audit Resolution Project
- The team developed a six-month process that incorporated communications, education, escalation, and enforcement phases
 - Provides structure and uniformity to increase efficiencies within CalPERS and with our business partners
 - Increased interactions and reduced response times resulted in 100 percent of surveyed agencies reporting they were "very satisfied" with the audit resolution process.

Compliance Monitoring and Oversight

Service Credit Purchase Elections Compliance

- Successfully resolved over 170 survivor benefit cases that did not receive a Service Credit purchase payment
- Collected over \$1.1 million in outstanding accounts receivables contributing to the overall sustainability of the fund

Compliance Reporting

- Worked with business partners to reconcile retirement appointments in my|CalPERS and reduced the number of outstanding unreconciled appointments by 126,000, a reduction of over 50 percent
- Reduced the number of participant retirement enrollment appointments with missing payroll over 12-months by 94 percent

Investment Office

The Investment Compliance and Operational Risk office serves as an embedded compliance function and assists our

Investment Office staff by ensuring compliance with key policies, laws, and regulations that impact the Investment Office.

Compliance Monitoring and Oversight

 Partnered with Investment Office's asset classes to produce and present the Assembly Bill (AB) 2833 (Alternative Investment Fee Transparency) report to the Investment Committee as part of the disclosure for Public Investment Funds

Controls Enhancements

 Worked with the Global Fixed Income team to design and implement additional controls to enhance pre-trade compliance reviews

Compliance Reporting

 Continued to lead the Investment roadmap initiative relating to broker selection and evaluation practices; and associated reporting and governance activities

Operations and Technology Branch

The Operations and Technology (OPT) Embedded Compliance Team acts as branch liaisons between OPT divisions and Enterprise Compliance, the Enterprise Risk Management Division and the Office of Audit Services, to help ensure compliance with mandatory training and disclosures, assist with policy creation and updates, and ensure compliance with contracting delegations of authority, as well as coordinating resolution of audit findings within OPT.

Information Technology Services

The Information Technology Services Branch (ITSB) partners with CalPERS business stakeholders to design and implement technology solutions that add business value and deliver customer focused results. These services include system analysis, design, programming, testing, implementation, and maintenance for major computer systems and databases. ITSB also provides technical support and training for personal computers, local area networks, and office automation facilities.

Compliance Monitoring and Oversight

- Coordinated and led the completion of the Identity Access
 Management Policy and Program which provides
 governance, oversight and management of enterprise
 identity and access management processes. The Identity
 Access Management Program's goal is to ensure that the
 right people have the right access, at the right time
- Facilitated the appropriate, timely management of user identities, and associated system access throughout the enterprise and by automating on-boarding, allowing for a streamlined user-provisioning and account set-up process

FISCAL YEAR 2017-18 ETHICS AND COMPLIANCE PROGRAM INITIATIVES HIGHLIGHTS (CONTINUED)

Operations Support Services Division

The Operations Support Services Division (OSSD) provides a variety of essential support services to the CalPERS Board, management, and staff. These include contracts management, copy and printing services, facilities and building management, mailroom and receiving services, parking and rideshare, purchasing, records and asset management and CalPERS Board Elections.

Embedded Compliance Program

- · Collaborated with Enterprise Compliance Branch's Targeted Compliance Review of contracting practices
- · Conducted a targeted compliance review of contracting practices resulting in strengthened internal controls
- Operations Support Services Division and Enterprise Compliance and presented to the Integrated Assurance Risk Council in March 2018
- Created a new Spring-Fed Pool/Letter of Engagement unit to support effective administration and oversight of Spring-Fed Pools
- · Developed an enterprise-wide training/education plan regarding proper Spring-Fed Pool/Letter of Engagement use and is currently drafting procedures to standardize the letter of engagement process across the enterprise

Human Resource Services Division

The Human Resources Division leads the enterprise strategies in talent management practices to acquire, develop, motivate and retain a diverse, high-performing workforce, in compliance with applicable laws, rules and regulations.

Policy Management

· Partnered with Enterprise Compliance to develop and begin work on a formal policy management plan, to ensure all human resource policies are up to date and working as intended, in compliance with enterprise standards

Conflicts of Interest

- · Enhanced Conflicts of Interest process
- Refined Form 700 notification process
- · Human Resources and Enterprise Compliance developed a process to streamline identification of new staff or staff moving into positions required to file Form 700

Communications

- Improved Human Resources Process Documentation
- · Worked with program staff to develop and improve process maps and desk manuals to provide consistency and ensure compliant processes.

- Enhanced Human Resources Leadership Development
- Offered CalPERS' leaders multiple opportunities for leadership training that counted toward the 20-hour requirement of ongoing biennial/leadership development training as stated in California Government Code 19995.4:
 - 15 seven-hour Leadership Development classes
 - One two-day workshop of Executive Presentation Skills
 - · One two-day coaching clinic for 25 Emerging Leader Program mentors
 - Two Leadership Forums
 - One Executive Presentation Skills Panel Member Opportunity
 - Five Supervisory Skills Enhancement classes

Compliance Reporting

Improved Mandatory Training Reporting

· Operations and Technology Branch's embedded compliance team facilitated their branch's approximate 100% completion rate of mandatory trainings, Form 700 filings, and Personal Trading attestations.

SUMMARY

The compliance efforts at CalPERS continues to mature and make progress. The efforts of dedicated compliance resources and our internal partners is an investment in the long-term foundation of CalPERS' culture of ethical behavior and the processes that strengthen internal controls. Elements of compliance can be found interwoven in all six of CalPERS' Core Values of Quality, Respect, Accountability, Integrity, Openness, and Balance. Enterprise Compliance takes pride in helping with these efforts and will continue to give guidance and direction to help CalPERS continue to build a sustainable future based on a strong foundation of integrity and compliance.
