#### **NEW ISSUE – BOOK-ENTRY ONLY**

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority ("Bond Counsel"), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the 2019 Subordinate Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the "Code"), except that no opinion is expressed as to the status of interest on any 2019 Subordinate Bond for any period that such 2019 Subordinate Bond is held by a "substantial user" of the facilities financed or refinanced by the 2019 Subordinate Bonds or by a "related person" within the meaning of Section 147(a) of the Code. Bond Counsel observes, however, that interest on the 2019 Subordinate Bonds is a specific preference item for purposes of the federal alternative minimum tax. Bond Counsel is also of the opinion that interest on the 2019 Subordinate Bonds is exempt from State of California personal income taxes. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the 2019 Subordinate Bonds. See "Tax MATTERS."

This Limited Offering Memorandum relates to the issuance by the California Pollution Control Financing Authority (the "Authority") of its \$73,685,000 Solid Waste Disposal Revenue Bonds (CalPlant I Project), Series 2019 Subordinate Bonds (AMT) (the "2019 Subordinate Bonds"). Proceeds of the 2019 Subordinate Bonds will be lent to CalPlant I, LLC (the "Borrower") pursuant to a Loan Agreement. The 2019 Subordinate Bonds are payable from the revenues specifically pledged thereto, as described in this Limited Offering Memorandum, which consist primarily of loan repayments to be made by the Borrower.

The Borrower will use the proceeds of the 2019 Subordinate Bonds to finance a substantial portion of the costs of construction of a medium density fiberboard plant (the "Plant") to be operated in Willows, California, and for the other purposes described herein.

*The 2019 Subordinate Bonds are limited obligations of the Authority payable solely from certain revenues, consisting of loan repayments made by the Borrower under the Loan Agreement.* The 2019 Subordinate Bonds will be secured by a subordinate lien on the Plant and subordinate liens on other assets of the Borrower, as well as a first lien on at least 75% of the membership interests in the Borrower's parent company, CalPlant I Holdco, LLC. The 2019 Subordinate Bonds will also be secured by some of the funds established under the Indenture referred to below, including the Reserve Fund further described herein.

NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF OR ANY LOCAL AGENCY IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF, PREMIUM, IF ANY, OR INTEREST ON THE 2019 SUBORDINATE BONDS. THE AUTHORITY HAS NO TAXING POWER.

THE 2019 SUBORDINATE BONDS ARE BEING OFFERED ONLY TO QUALIFIED INSTITUTIONAL BUYERS AND INSTITUTIONAL ACCREDITED INVESTORS, IN MINIMUM DENOMINATIONS OF \$250,000 AND IN \$5,000 INCREMENTS ABOVE \$250,000, AND ARE SUBJECT TO CERTAIN TRANSFER RESTRICTIONS. SEE "NOTICE TO INVESTORS." THERE IS NO PUBLIC MARKET FOR THE 2019 SUBORDINATE BONDS AND NO RATINGS HAVE BEEN REQUESTED FOR THE 2019 SUBORDINATE BONDS.

This cover page contains certain information for convenient reference only and is not intended to be a summary of this issue. Investors must read the entire Limited Offering Memorandum including Appendices hereto to obtain information essential to making an informed investment decision.

Interest on the 2019 Subordinate Bonds will accrue from their date of delivery and will be payable on June 1 and December 1 of each year, commencing December 1, 2019. The 2019 Subordinate Bonds will be subject to redemption prior to maturity as described in this Limited Offering Memorandum.

The 2019 Subordinate Bonds are offered when, as and if issued by the Authority and received by the Underwriters, subject to approval of legality by Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority, and certain other conditions. Certain legal matters will be passed upon for the Authority by the Office of Honorable Xavier Becerra, Attorney General of the State of California, for the Borrower by its special counsels, Morrison & Foerster LLP and Hepner & Myers LLP, and for the Underwriters by their counsel, Nixon Peabody LLP. The Authority expects to deliver the 2019 Subordinate Bonds through the facilities of DTC on or about August 7, 2019, against payment therefor.

The Indenture (as defined herein) provides that, during the "Restricted Period" (defined below), the 2019 Subordinate Bonds are only to be sold (including in secondary market transactions) to "Qualified Institutional Buyers" as defined in Rule 144A promulgated under the Securities Act or institutional Accredited Investors (which consists of Accredited Investors within the meaning of Rule 501(a)(1),(2), (3) or (7) under the Securities Act, hereafter, "Institutional Accredited Investors", and together with Qualified Institutional Buyers, "Qualified Purchasers") in Authorized Denominations (as defined herein). Neither the Underwriters nor any Holder or Beneficial Owner of the 2019 Subordinate Bonds shall deposit the 2019 Subordinate Bonds in any trust or account under its control and sell any shares, participatory interest or certificates in such trust and account, and neither the Underwriters nor any Holder or Beneficial Owner shall deposit the 2019 Subordinate Bonds in any trust or account under its control the majority of the assets of which constitute the 2019 Subordinate Bonds, and sell shares, participatory interest or certificates in such trust or account except to Qualified Purchasers in Authorized Denominations; provided that none of the Underwriters, Holders or Beneficial Owners shall have an obligation to independently establish or confirm that any transferee of a 2019 Subordinate Bond is a Qualified Purchaser, however any actual transfer of a 2019 Subordinate Bond to any entity that is not a Qualified Purchaser shall be deemed null and void as provided in the Indenture. "Restricted Period" means the period from the date of delivery of the 2019 Subordinate Bonds until such time, if any, that the Authority agrees to terminate the Restricted Period. At any time, the Borrower may request that the Authority terminate the Restricted Period. The Authority may grant such approval in its discretion, but it will not unreasonably withhold such approval if the Borrower provides evidence that the 2019 Subordinate Bonds will be rated at least "A3/A-" by Moody's, S&P or Fitch. If certain conditions are satisfied, including the achievement of specified financial thresholds, the Borrower is obligated to seek a credit rating for the 2019 Subordinate Bonds from at least one nationally-recognized credit rating agency. The Underwriters have agreed under the Bond Purchase Agreement to sell the 2019 Subordinate Bonds such that:

## \$73,685,000 California Pollution Control Financing Authority Solid Waste Disposal Revenue Bonds (CalPlant I Project) Series 2019 Subordinate Bonds (AMT) (Green Bonds)

This Limited Offering Memorandum is provided to furnish information in connection with the issuance of \$73,685,000 Solid Waste Disposal Revenue Bonds (CalPlant I Project), Series 2019 Subordinate Bonds (AMT) (Green Bonds) (the "2019 Subordinate Bonds"). Capitalized terms used herein are defined in the glossary attached as APPENDIX A.

#### INTRODUCTION

The California Pollution Control Financing Authority (the "Authority") is issuing its 2019 Subordinate Bonds, and will lend the proceeds thereof to CalPlant I, LLC (the "Borrower") pursuant to a Loan Agreement, to finance a substantial portion of the costs of construction of a medium density fiberboard plant (the "Plant") to be operated in Willows, California and for the other purposes set forth in this Limited Offering Memorandum. The Borrower's development, construction, financing and operation of the Plant is referred to as the "Project." The 2019 Subordinate Bonds will be secured by a subordinate lien on the Plant and subordinate liens on other assets of the Borrower, as well as a first lien on at least 75% of the membership interests in the Borrower's parent company, CalPlant I Holdco, LLC ("Holdco"). The 2019 Subordinate Bonds will also be secured by some of the funds established under the Indenture (the "Indenture"), by and between the Authority and UMB Bank, N.A., as trustee (the "Bond Trustee").

#### **THE 2019 SUBORDINATE BONDS**

The following summarizes selected provisions of the 2019 Subordinate Bonds. Reference is made to the Indenture for the detailed provisions of the 2019 Subordinate Bonds. A draft form of the Indenture is attached as APPENDIX B.

#### General

The 2019 Subordinate Bonds will be issued in the form of one fully registered bond in an aggregate principal amount of \$73,685,000, will be dated the Delivery Date and will mature on the dates set forth on the inside cover page of this Limited Offering Memorandum.

Except as otherwise provided below, the 2019 Subordinate Bonds will bear interest at the rates set forth on the inside cover page. During the occurrence and continuance of an Event of Default, the 2019 Subordinate Bonds shall bear interest at a per annum rate equal to the stated interest rate on the 2019 Subordinate Bonds plus 2.0%.

Interest on the 2019 Subordinate Bonds will be computed on the basis of a year of 360 days consisting of 12 months of 30 days each and will be payable on each June 1 and December 1, commencing December 1, 2019 (each, an "Interest Payment Date"), and at maturity or earlier redemption.

Principal of and premium, if any, on the 2019 Subordinate Bonds will be payable at final maturity, acceleration or redemption upon surrender thereof at the corporate trust office of the Bond Trustee. Payment of the interest on any 2019 Subordinate Bonds will be made to the person appearing on the bond registration books of the Bond Trustee (in its capacity as Bond Registrar) as the holder thereof on the Record Date, such interest to be paid to such Holder, while the 2019 Subordinate Bonds are in the book-entry system, by wire transfer to DTC. The "Record Date" shall be the day which is the fifteenth day of the month prior to the Interest Payment Date, whether or not such date is a Business Day.

**Restrictions on Transfer.** Initially, only "Qualified Institutional Buyers" (as such term is defined by Rule 144A promulgated under the Securities Act of 1933 (the "Securities Act")) or institutional Accredited Investors (which consists of Accredited Investors within the meaning of Rule 501(a)(1),(2), (3) or (7) under the Securities Act, hereafter, "Institutional Accredited Investors"), each as in effect on the Delivery Date, may purchase 2019 Subordinate Bonds and in Authorized Denominations (as defined below), and subject to other limitations described under "NOTICE TO INVESTORS." During the Restricted Period, no 2019 Subordinate Bond shall be transferred except to a Qualified Purchaser in an Authorized Denomination. *Each registered owner of a 2019 Subordinate Bond agrees by purchase of the 2019 Subordinate Bond to abide by these limitations. Any purported transfer which is not in compliance with these requirements shall be null and void.* 

"Restricted Period" means the period from the Delivery Date until such time, if any, that the Authority agrees to terminate the Restricted Period. At any time, the Borrower may request that the Authority terminate the Restricted Period. The Authority may grant such approval in its discretion, but it agrees that it will not unreasonably withhold such approval if the Borrower provides evidence that the 2019 Subordinate Bonds will be rated at least "A3/A-" by Moody's, S&P, or Fitch.

"Authorized Denomination" means (i) during the Restricted Period, \$250,000 or any integral multiple of \$5,000 in excess thereof, or (ii) thereafter, \$5,000 or any integral multiple thereof; provided, however, that if it is not possible to deliver every 2019 Subordinate Bond required or permitted to be Outstanding in the denominations permitted above following any optional or mandatory redemption pursuant to the terms of the Indenture, one 2019 Subordinate Bond of each maturity may be delivered, but only to the extent necessary, in a different denomination.

THE 2019 SUBORDINATE BONDS ARE LIMITED OBLIGATIONS OF THE AUTHORITY PAYABLE SOLELY FROM CERTAIN REVENUES, CONSISTING OF LOAN REPAYMENTS MADE BY THE BORROWER UNDER THE LOAN AGREEMENT, AND SEPARATELY SECURED BY A DEED OF TRUST LIEN ON THE SITE AND THE PLANT, THE MEMBERSHIP INTERESTS IN THE BORROWER AND AT LEAST 75% OF THE MEMBERSHIP INTERESTS IN HOLDCO, AND OTHER COLLATERAL AS FURTHER DESCRIBED HEREIN AND SUBJECT TO THE TERMS OF THE COLLATERAL AGENCY AGREEMENT. NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF OR ANY LOCAL AGENCY IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF, PREMIUM, IF ANY, OR INTEREST ON THE 2019 SUBORDINATE BONDS. THE AUTHORITY HAS NO TAXING POWER.

## Redemption

The 2019 Subordinate Bonds are subject to redemption upon the below terms.

**Optional Redemption.** The 2019 Subordinate Bonds are subject to redemption prior to their stated maturity date at the option of the Borrower on any Interest Payment Date, from any source of available funds, on or after December 1, 2029, in whole or in part in an amount equal to the principal amount of the 2019 Subordinate Bonds called for redemption, together with interest accrued to the date fixed for redemption, without premium.

## Mandatory Redemption.

*Mandatory Redemption upon Invalidity.* Upon any Invalidity Event, the 2019 Subordinate Bonds Outstanding on the date of the occurrence of the invalidity shall be redeemed in whole at any time within 30 days thereafter at a redemption price of 100% of the principal amount thereof, without premium, plus accrued interest to the date of redemption. No redemption of 2019 Subordinate Bonds shall be made pursuant to any of the other redemption provisions following an Invalidity Event.

*Mandatory Redemption from Excess Proceeds.* On the Interest Payment Date following any deposit into the Excess Proceeds Account, the 2019 Subordinate Bonds shall be subject to redemption, in part, on a pro rata basis, in an amount equal to the amount on deposit in the Excess Proceeds Account, in denominations of \$5,000, at a price equal to the principal amount thereof, without premium, plus accrued interest to the date of redemption; provided that the 2019 Subordinate Bonds shall be redeemed in whole pursuant to the mandatory redemption from excess proceeds prior to the redemption pursuant to the mandatory redemption from excess proceeds of any Bonds that are not Tax-Exempt; and provided further that, unless the Borrower shall provide to the Bond Trustee and the Authority an Opinion of Bond Counsel to the effect that an alternative redemption of Bonds will not adversely affect the Tax-Exempt status of the 2019 Subordinate Bonds, the 2019 Subordinate Bonds so redeemed shall have a weighted average maturity no less than the weighted average maturity of all 2019 Subordinate Bonds Outstanding immediately prior to such redemption.

*Mandatory Redemption upon Receipt of Loss Proceeds.* The 2019 Subordinate Bonds are subject to redemption, in whole or in part, on a pro rata basis, from Loss Proceeds (other than Excluded Loss Proceeds), on the Interest Payment Date following the receipt of such Loss Proceeds by the Collateral Agent, in an amount equal to the Loss Proceeds received from the Collateral Agent, in denominations of \$5,000, at a price equal to the principal amount thereof, without premium, plus accrued interest to the date of redemption; provided that the 2019 Subordinate Bonds shall be redeemed in whole pursuant to the mandatory redemption upon receipt of Loss Proceeds prior to the redemption pursuant to the mandatory redemption upon receipt of Loss Proceeds of any Bonds that are not Tax-Exempt.

*Mandatory Redemption from Cash Sweep.* The 2019 Subordinate Bonds are subject to semi-annual redemption prior to their stated maturity from amounts deposited in the Principal Account. For a description of the terms and conditions of the mandatory redemption from cash sweep, see "FLOW OF FUNDS FOR THE 2019 SUBORDINATE BONDS—Mandatory Redemption from Cash Sweep" below.

Selection of 2019 Subordinate Bonds for Redemption. Whenever provision is made in this Indenture for the redemption of less than all of the 2019 Subordinate Bonds prior to their stated maturity, the particular 2019 Subordinate Bonds to be redeemed will be selected on a pro-rata pass-through distribution of principal basis in accordance with the rules and procedures of DTC. It is the Bond Trustee's intention that redemption allocations made by DTC, the DTC participants or such other intermediaries that may exist between the Bond Trustee and the Beneficial Owners of the 2019 Subordinate Bonds shall be made on a pro-rata pass-through distribution of principal basis. However, so long as the 2019 Subordinate Bonds are in book-entry only form, the selection for redemption of such 2019 Subordinate Bonds shall be made in accordance with the operational arrangements of DTC then in effect. The Bond Trustee shall not provide any assurance or shall have any responsibility or obligation to ensure that DTC, the DTC participants or any other intermediaries allocate redemptions of the 2019 Subordinate Bonds among Beneficial Owners on a pro-rata pass-through distribution of principal basis. If the DTC operational arrangements do not allow for the redemption of the 2019 Subordinate Bonds on a pro-rata pass-through distribution of principal basis, the 2019 Subordinate Bonds shall be selected for redemption, in accordance with DTC procedures, by lot.

Notice of Redemption. Notice of redemption will be mailed by first class mail not less than 30 days nor more than 60 days before an optional redemption as described in "-Optional Redemption" above and not less than 20 days in the case of all other redemptions before such redemption date, to the respective Holders and Beneficial Owners of any 2019 Subordinate Bonds designated for redemption at their addresses on the registration books maintained by the Bond Registrar. Each notice of redemption will state the redemption date, the place or places of redemption, if less than all of the 2019 Subordinate Bonds are to be redeemed, the CUSIP number(s) of the 2019 Subordinate Bonds to be redeemed, and in the case of 2019 Subordinate Bonds to be redeemed in part only, the respective portions of the principal amount thereof to be redeemed. Each such notice will also state that on said redemption date there will become due and payable on each of said 2019 Subordinate Bonds the principal thereof or a specified portion of the principal thereof in the case of a 2019 Subordinate Bond to be redeemed in part only, and that from and after such redemption date, interest thereon will cease to accrue, the Bond Trustee will require that such 2019 Subordinate Bonds be then surrendered, and, with regard to the optional redemption of 2019 Subordinate Bonds as described in "-Optional Redemption" above, in the event that funds required to pay the redemption price are not on deposit under the Indenture at the time the notice of redemption is sent, a statement to the effect that the redemption is conditioned upon the receipt of the appropriate funds required to pay the redemption price by the Bond Trustee on or prior to the redemption date. Neither failure to receive such notice nor any defect therein shall affect the sufficiency of such redemption.

*Partial Redemption of 2019 Subordinate Bonds*. Upon surrender of any 2019 Subordinate Bond redeemed in part only, the Authority will execute and the Bond Trustee will authenticate and deliver to the Holder thereof, at the expense of the Borrower, a new 2019 Subordinate Bond or 2019 Subordinate Bonds of Authorized Denominations equal in aggregate principal amount to the unredeemed portion of the 2019 Subordinate Bond surrendered.

*Effect of Redemption of 2019 Subordinate Bonds.* Notice of redemption having been duly given as described above, and moneys for payment of the redemption price of, together with interest accrued to the date fixed for redemption on, the 2019 Subordinate Bonds (or portions thereof) so called for redemption being held by the Bond Trustee, on the redemption date designated in such notice the 2019 Subordinate Bonds (or portions thereof) so called for redemption will become due and payable, interest on the 2019 Subordinate Bonds so called for redemption will cease to accrue, said 2019 Subordinate Bonds (or portions thereof) will cease to be entitled to any benefit or security under the Indenture (except for payment of particular 2019 Subordinate Bonds for which moneys are being held by the Bond Trustee and which money will be pledged to such payment), and the Holders of said 2019 Subordinate Bonds will have no rights in respect thereof except to receive payment of said principal, premium, if any, and interest accrued to the date fixed for redemption.

#### **Additional Bonds**

The Indenture permits the issuance of Additional Bonds if (i) the Required Bondholders have provided consent, (ii) after such issuance, no Bonds Outstanding prior to the issuance remain Outstanding, or (iii) the proceeds of Additional Bonds are used to refinance a portion of the Bonds Outstanding, and Debt Service on the Bonds in each year before giving effect to the refinancing is greater than or equal to Debt Service on the Bonds in each year after giving effect to the refinancing. The Additional Bonds will be payable from Revenues on parity with the 2019 Subordinate Bonds and secured *pari passu* in the collateral securing the 2019 Subordinate Bonds, as further described herein and subject to the terms of the Collateral Agency Agreement. See "APPENDIX B—FORM OF INDENTURE—ARTICLE II: THE BONDS—Conditions for the Issuance of Additional Bonds" and "—Procedure for the Issuance of Additional Bonds."

## **Green Bonds Determination**

The Borrower has determined that the 2019 Subordinate Bonds are "Green Bonds" based on a report from Stephen Vajda Consulting ("SVC" or the "Technical Advisor") using guidelines that are consistent with the "Green Bond Principles" set forth by the International Capital Market Association. A copy of the report is attached hereto as Appendix N. See "THE PROJECT – Construction Risk Mitigation—Project Oversight" for a description of SVC. The Borrower has agreed in the Loan Agreement that it will cause the independent consultant to annually (until the Plant Substantial Completion Date occurs) deliver a certificate to the effect that no changes have been made to the Project that would reasonably be expected to materially adversely affect the environmental benefits described in such report. The Authority undertakes no responsibility for the accuracy or completeness of such information, the Borrower's determination that the Bonds are Green Bonds, or for monitoring or enforcing any terms relating to such determination or such report. The purpose of the Borrower determining that the 2019 Subordinate Bonds are Green Bonds is to allow investors to invest directly in bonds that finance projects which support such environmental benefits. The 2019 Subordinate Bonds are secured by a pledge of Revenues under the Indenture, and the holders of the 2019 Subordinate Bonds do not assume any specific project risk or economic benefit related to the Project as a result of such designation. The determination that the 2019 Subordinate Bonds are "Green Bonds" is not a recommendation to any person to purchase, hold or sell the 2019 Subordinate Bonds and such determination does not address the market price or suitability of the 2019 Subordinate Bonds for a particular investor.

#### **AUTHORITY**

The Authority is a political subdivision and public instrumentality of the State created pursuant to the California Pollution Control Financing Authority Act, constituting Division 27 of the Health and Safety Code of the State of California (the "Act"), for the purpose of providing industry within the State with an alternative method of financing in providing, enlarging, and establishing pollution control facilities to the mutual benefit of the people of the State and to protect their health and welfare. In furtherance of such purposes, the Authority is authorized to issue revenue bonds and to make loans to lend financial assistance in the acquisition, construction or installation of pollution control facilities. The Authority consists of three public officials who hold office ex officio: the State Treasurer, the State Controller, and the State Director of Finance. Pursuant to the Act, the Authority authorized the issuance of the 2019 Subordinate Bonds, the loan of the proceeds of the 2019 Subordinate Bonds to the Borrower pursuant to the Loan Agreement and the securing of the Bonds by a pledge and assignment to the Bond Trustee of Revenues pursuant to the Indenture. The Authority's principal offices are located at 801 Capitol Mall, Second Floor, Sacramento, California 95814.

#### BORROWER

The Borrower is CalPlant I, LLC, a limited liability company formed under the laws of the State of California for the purpose of acquiring, developing, financing, constructing and operating the Plant. The Borrower is a single-purpose entity with no assets other than those related to the Project.

The Borrower is a wholly owned subsidiary of Holdco, which is owned by Occator Agricultural Properties, LLC ("Occator"), a wholly-owned subsidiary of Teachers Insurance and Annuity Association of America (commonly known as TIAA); Columbia Forest Products, Inc. ("CFP"); Siempelkamp Maschinen- und Anlagenbau GmbH ("Siempelkamp Germany"); CalAg, LLC ("CalAg"), which originated the Project; CalAg Preferred Investor, LLC, an affiliate of CalAg; ZC CalAg LLC ("ZC") and Not Wood, LLC ("Not Wood"). CalAg was founded in 1997 in anticipation of the 2001 prohibition on California rice straw burning. CalAg is owned by approximately 93 investors (including some of the key members of the Borrower's management team listed below under "Ownership and Governance of the Borrower—Borrower Management Team"), who have invested over \$22 million in obtaining the Patent, conducting production trials, acquiring the Site and developing the Project. The Borrower expects that Not Wood's interest in Holdco will be acquired by Holdco, and that Not Wood will cease to be a member of Holdco, on or before the Delivery Date.

The Borrower will be managed by Holdco, which is overseen by a board of directors of up to seven members. Jerry Uhland leads the executive management team as the Borrower's Chief Executive Officer. Mr. Uhland has been involved in the California rice industry for over 40 years and has been the primary proponent of the Project for more than 20 years. See "OWNERSHIP AND GOVERNANCE OF THE BORROWER."

#### **PROJECT CONSTRUCTION STATUS**

#### General

The Borrower has made substantial progress in the construction of the Plant. When completed, the Plant will consist of several structures that are connected through large-diameter, high-volume pneumatic connections or other mechanical connecting devices. When completed, the Plant's several structures will progressively prepare and refine rice straw and add resin as well as other steps before the treated fiber is delivered to the main production building where it will be inserted into the Plant's continuous press and manufactured into MDF. Currently, the Borrower has largely completed the construction of the main production building and partially installed the press and related equipment. The final stages of construction of the main production building will be to finish the construction of the pneumatics that will connect the main production building to other parts of the Plant and to provide the electrical connections and wiring to the equipment. In addition, the main production building and straw preparation buildings are awaiting the installation of certain ancillary equipment. The structures that will begin the processing of the rice straw are nearly complete, with the equipment in all of these structures awaiting electrical connections and wiring. The structure where the rice straw will be refined into fiber and the resin injected onto the fiber is still under construction. This structure's foundation has been laid, and the rest of the structure, including pneumatics and electrical work, remains under construction. The final structure before the main production building, where the treated fiber will be processed, is largely complete, with most of the remaining construction work also consisting of pneumatic and electrical work. Finally, two additional structures of the Plant remain at early stages of construction. The first is the energy building of the Plant that will provide heated oil and other temperature sensitive fluids or steam to the Plant. The second is the structure that will house the mechanical blenders.

#### **Construction Schedule**

The Borrower expects that it will be able to produce its first board of MDF in November 2019 even before all of the Plant is fully constructed. The Borrower will initially produce its MDF using one of the Plant's two resin-addition processes, the blow-line blending technology, while the construction of the other resin-addition process, the Plant's mechanical blenders, is completed. Most wood-based MDF plants use blow-line blending technology and the Borrower expects to rely heavily on the blow-line blending technology in the Plant. The Borrower expects that the Plant's mechanical blenders will be completed and integrated with the Borrower's manufacturing processes, which will allow for the tests and other work necessary to reach Plant Acceptance. At that point, the Borrower will seek to improve its operations to a sufficient level to permit it to achieve the Commercial Operations Date. How quickly the Borrower reaches these dates depends on numerous factors, and different MDF plants have achieved milestones at different rates. A few of the key factors that will determine the ability of the Borrower to achieve these milestone dates will include (1) the date on which the construction of the mechanical blenders is complete, (2) how

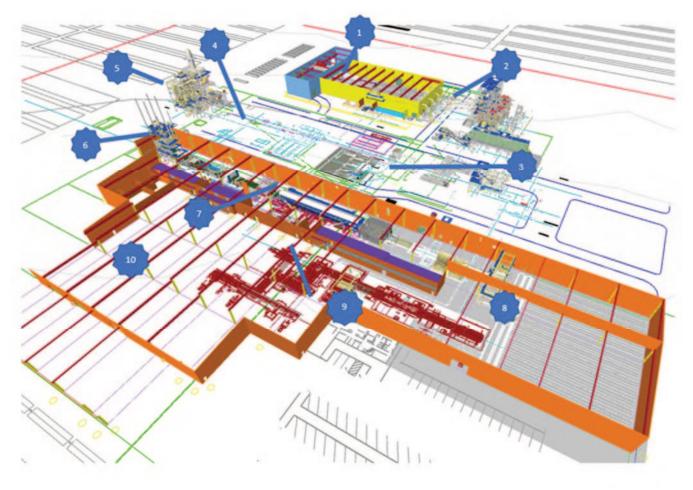

quickly the Borrower integrates the mechanical blenders into its manufacturing process after they are completed, (3) how much the Borrower will use the mechanical blenders in its manufacturing process and (4) how quickly the Borrower will be able to achieve operational efficiency. Since this is the first Plant in the world to use rice straw as its feedstock in a MDF manufacturing process, there is uncertainty about how long each of these steps will take. Currently, the Borrower believes that it will be able to achieve Plant Acceptance around January 2020 and the Commercial Operations Date around March 2020.

Siempelkamp Germany however is of the opinion that these dates are not realistic. Based on the information provided by the Borrower, Siempelkamp Germany currently believes that it will take at least an additional seven months to reach these milestones. As Siempelkamp Germany has a defined scope of supplies and services, the overall schedule outlined above depends on the timely performance of the work to be provided by third parties, the performance of which is beyond Siempelkamp Germany's control and responsibility. Siempelkamp Germany is of the opinion that the Borrower's manufacturing process will require mechanical blenders, and Siempelkamp Germany's performance guarantees are based on the use of the mechanical blenders. For a discussion of the risks associated with the Plant's construction and operations, see "INVESTMENT CONSIDERATIONS AND RISK FACTORS."

## THE PROJECT

## General

The Borrower is developing a MDF plant on a 273-acre site in Willows, California. The site is located in the northern portion of California's rice growing region, approximately 75 miles north of Sacramento.

MDF is a composite panel product created by combining cellulosic fibers with a resin binder and wax, and pressing the mixture into panels using high temperature and pressure. Because it can be made in a wide range of thicknesses, and because it is machineable, MDF has a wide variety of applications, such as construction, furniture, molding, flooring and decorative hardwood plywood.

Traditionally, MDF has been produced using fiber from either wood or wood byproducts. Using the patented production process developed by Mr. Uhland and CalAg, the Plant will produce

high-quality, environmentally-friendly MDF using annually renewable rice straw as its feedstock (the "CalAg Manufacturing Process").

Each harvest season, the Sacramento Valley has produced approximately at least 390% of the rice straw that will be needed for the Plant's targeted annual production capacity of 160 million square feet, <sup>3</sup>/<sub>4</sub>" basis<sup>\*</sup> ("MMsf <sup>3</sup>/<sub>4</sub>""). The straw, a byproduct of rice production, must be disposed of after each harvest, and, since 1991, when post-harvest burning regulations were initiated, no other economically viable post-harvest uses for the straw have been developed.

The Plant will use existing, proven technology common to modern MDF production plants, and will be the first facility to manufacture MDF on a commercial scale using rice straw as feedstock. The production process equipment is identical to that used in modern wood-based MDF plants using continuous press technology; the straw-handling "front-end" equipment is in common use in other industries. According to the Technical Advisor (as defined herein), comparable straw handling and production process equipment (although not the specific brands or models) proposed to be used in the Plant have been previously used on a commercial scale to produce composite panelboard using agricultural fiber as feedstock.

The Borrower has secured long-term fixed-price agreements to procure approximately 140% of the Plant's expected annual need for rice straw. The physical characteristics of fiber made from rice straw, as well as the Plant's location in the Sacramento Valley, provide the Borrower with several advantages relative to traditional wood-based production facilities in North America. The Borrower expects that the Plant will have significant cost and competitive advantages over current wood-based alternatives as outlined in the following table:

[Remainder of page intentionally left blank]

<sup>\*</sup> The MDF industry generally quotes both volumes and prices on a per thousand square feet,  $\frac{3}{4}$ " equivalent basis (Msf  $\frac{3}{4}$ ") or a per million square feet,  $\frac{3}{4}$ " basis (MMsf  $\frac{3}{4}$ ") in order to have a single benchmark for comparison. Unless otherwise noted, all MDF production costs and prices in the Borrower's projections are made using the Msf  $\frac{3}{4}$ " convention, and all annual volumes use the MMsf  $\frac{3}{4}$ " convention. For production volumes, the  $\frac{3}{4}$ " equivalent would be a board's thickness divided by  $\frac{3}{4}$ ; for example, if the Borrower produced 1,000 square feet of  $\frac{3}{8}$ " MDF, this would be the  $\frac{3}{4}$ " equivalent of 500 square feet [1000 \* ( $\frac{3}{8}$ ) / ( $\frac{3}{4}$ ]] on a  $\frac{3}{4}$ " equivalent price of  $\frac{3}{800}$  [\$400 \* ( $\frac{3}{4}$ )] on a  $\frac{3}{4}$ " equivalent basis.

	The Borrower's Plant	Wood-based MDF Plants	
Source of Feedstock	Rice straw.	Wood or wood byproducts.	
Availability of feedstock	Abundant within 25 miles of the Plant site.	Very limited in California; all other MDF plants in California have been closed down, partly due to lack of affordable feedstock.	
Cost of Supply	Relatively inexpensive because farmers' other means of disposing of post-harvest rice straw are significantly more expensive than giving access to the Borrower's baling and transportation companies.	Much more expensive due partly to competition for wood byproducts (e.g. pellets, power generation, advanced biofuels), constrained supply from Federal lands in the Western U.S., and costs of transporting the feedstock longer distances.	
Conversion process	Less refining time and less steam pressure.	Approximately six times longer refining time and two times as much steam pressure.	
Equipment	Substantially identical.	Substantially identical.	
Location	Closer to Bay Area and Los Angeles markets than any competitor.	No operational plants in California.	
Product Quality	Superior stability to wood fiber MDF; unlike wood fiber, rice fiber has a "curl index" that creates a physical, as well as a chemical, bond in MDF. Rice straw contains natural wax that gives the finished panel improved moisture resistance when compared to wood-based MDF.	Wood-based MDF is the current ANSI benchmark for quality and performance.	
Environmental	Made from a raw material that is renewable every year and fabricated with formaldehyde free binders. Eliminates the need for post-harvest re-flooding of rice fields thus reducing water use and the generation and release of methane gas into the atmosphere.	Use of wood fiber, with a multi-decade growing cycle, offers fewer environmental benefits.	

## Site

The Borrower is constructing the Plant on a 273-acre site (the "Site") owned by the Borrower and located at 6101 State Highway 162 near Willows, California. The Site is located at the northern end of the 50-mile north to south rice growing region within California. There are two deep wells on the Site that the Borrower expects will produce sufficient water supply to operate the Plant. Natural gas and electrical power are to be supplied by Pacific Gas and Electric ("PG&E") from distribution lines that PG&E has constructed to reach the Site. The operation of the natural gas line to the Site awaits the installation by PG&E of a usage meter, which the

Borrower expects to be accomplished in July, 2019. The electrical service to the Site has been tested and authorized for use by PG&E.

The Site is located in the midst of the California rice-growing region and is many miles from any of the locations where California has experienced major wildfires. In addition, while PG&E has announced a wildfire mitigation plan that involves cutting service to affected areas, the Site is located sufficiently far from areas where wildfires are prone that the Borrower does not have any reason to expect that it will be regularly affected by disruptions in power by PG&E's new wildfire mitigation plan.

## Patent

The Licensor is Agfiber IP, LLC. The Licensor is owned by most of the same owners as the owners of Holdco, but with different percentages of ownership. The Licensor has licensed to the Borrower the Patent and other related intellectual property.

The Licensor owns the Patent for the process for producing particleboard and MDF using rice straw. The Patent will expire on December 29, 2021. The Patent and other related intellectual property have been licensed by the Licensor to the Borrower on a non-exclusive basis under the terms of a license agreement (the "License Agreement"), subject to a restriction on the Licensor under the License Agreement and the Licensor's and Investors' Undertaking to not grant any third party a license to practice or use the Patent to make medium density fiberboard within Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming (the "Licensed Territory").

Borrower anticipates that it will improve the process represented by the Patent, with the goal of developing additional patent eligible subject matter prior to the expiration of the Patent in 2021. Any one of these modifications could provide advantages in performance or market differentiation, or both. Under the terms of the License Agreement, the Borrower will assign all intellectual property rights in such developments and improvements to the Licensor, and the Licensor will license back such rights to the Borrower. The Licensor will be responsible for pursuing patent protection for any eligible developments and improvements.

See "INVESTMENT CONSIDERATIONS AND RISK FACTORS—Operating Risk" herein.

## **Testing of Project Technology**

The CalAg Manufacturing Process has been tested in a number of pilot plants, as well as in a research and development facility assembled by Siempelkamp Germany, to evaluate whether it is capable of producing an amount and quality of MDF consistent with the Borrower's expectation. Although the CalAg Manufacturing Process has been tested, it has never been used on the scale the Borrower intends to use it. See "INVESTMENT CONSIDERATIONS AND RISK FACTORS—Operating Risk" herein.

## **Source of Feedstock**

The Plant's location in Willows, California places it close to its suppliers of rice straw. According to Randall Mutters, Ph.D., who was engaged to provide an independent analysis on the

availability of rice straw in the Sacramento Valley for use in the manufacture of medium density fiberboard, the estimated annual quantity of rice straw generated in the Sacramento Valley is over 1.65 million tons. California rice growers have incurred high costs to manage post-harvest straw since post-harvest burning regulations were initiated in 1991 and ramped up in 2001 when open field burning was severely restricted by state environmental regulations. The alternative disposal for the post-harvest straw—incorporating it into the soil and re-flooding the fields—is both water-intensive and costly. The Borrower estimates that this disposal procedure annually costs rice growers \$70 to \$100 per acre, which includes the cost of water, plowing of the straw into the soil and fungicides (which are required because reincorporated rice straw is a host material for fungus). The Borrower's rice straw supply plan offers growers the opportunity to have their straw removed at roughly one quarter of the cost of other alternatives. This annually renewable and readily available straw tonnage is, within a 25-mile radius of the Plant, approximately six times greater than the supply necessary to permit the Plant to produce the annual anticipated minimum production of MDF of 112.5 MMsf <sup>3</sup>/<sub>4</sub>", and at least five times what would be necessary for the Plant to produce its targeted annual production of 160 MMsf <sup>3</sup>/<sub>4</sub>".

The Borrower has secured fixed-price, rice straw supply contracts with six local and regional baling and transportation companies (all of which expire in 2034) for a maximum of 140% of the Plant's anticipated maximum annual rice straw needs (roughly 300,000 tons at 160 MMsf <sup>3</sup>/<sub>4</sub>"). Except for the tonnage commitments, all terms of the supply contracts, including delivered price, are substantially identical. On or before May 1<sup>st</sup> of each year, the Borrower will specify the tonnage of rice straw it will purchase from each supplier during the following autumn harvest season. These baling companies have assured the Borrower, and will annually affirm, that they have access to the required acreage under their respective contracts. These baling companies are under contract to gather, bale, and deliver rice straw at a fixed price to the Plant. They collectively have more than 100 years of experience baling and transporting agricultural raw materials. See "PRINCIPAL PROJECT AGREEMENTS—Rice Straw Supply Contracts".

The Borrower has purchased and stored at the Plant approximately 215,000 tons of rice straw, including 100,000 tons in 2017 and 115,000 tons in 2018. The Borrower expects that this amount of rice straw will meet the needs of the Borrower's first year of operations.

The Borrower expects that all of the feedstock and other supplies that it will use to manufacture MDF will be procured from domestic sources and thus does not expect that it will be impacted by any tariffs that the United States imposes on the importation of foreign goods.

#### **Marketing and Competition**

The Borrower has developed its sales and marketing strategy with CFP, and has entered into a 22-year agreement with CFP that provides for CFP to use its existing sales and distribution channels to arrange for the purchase of 100% of the Plant's MDF production. Headquartered in Greensboro, North Carolina, CFP is the largest hardwood plywood manufacturer in North America. Founded in 1957, CFP is an employee-owned company with over 2,000 employees and 14 veneer, plywood and secondary panel processing plants in the U.S. and Canada. CFP develops, manufactures, and distributes veneer, panelboards and decorative hardwood plywood products. The Borrower's MDF will be the most significant, and visible, product launch for CFP since the successful launch of its Purebond® branded products, which is CFP's formaldehyde-free resin

system, in 2005. As a result, CFP intends to devote significant experience, personnel, and resources to this effort. It will leverage its existing sales and marketing teams, its industry-leading expertise in marketing high-quality green products, its distribution channels, and its customer relationships. In addition to being employee-owners, CFP field sales representatives ("FSRs") are full-time, salaried employees. CFP is an internationally recognized leader in environmentally-focused board products.

CFP intends to purchase approximately 15-20% of the Plant's production for use in its own mills, and use its FSRs and distribution resources to sell the remainder of the Plant's production primarily to its existing customers, largely in the California market and western U.S. See "PRINCIPAL PROJECT AGREEMENTS—Columbia Forest Products, Inc. and the CFP Agreement."

According to forecasts from Forest Economic Advisors, LLC and Resource Information Systems, Inc., the Plant's minimum production (as guaranteed in the Siempelkamp Equipment Supply Contract) represents approximately 30% of the 2017 California demand for MDF and 15% of the 2017 western U.S. demand for MDF.

The Borrower and CFP have identified a list of prospective purchasers who have expressed an interest in purchasing the Borrower's MDF. The Borrower expects that sales to these purchasers will represent a substantial percentage of the Borrower's sales for the first year of the Plant's operations, if not longer. During the Plant's ramp-up period, the Borrower expects that it will sell substantially all of the Plant's output to these purchasers as the Borrower refines its production process and the quality of its MDF. CFP has been and will continue to actively contact these prospective purchasers for their interest in quantities, thickness, sizes, and other qualities of Borrower MDF to position the Borrower to market and sell its MDF during the ramp-up period of the Plant's operations. The Borrower's projected sale revenues during the period between substantial completion of the Plant and the Commercial Operations Date and for the year following the Commercial Operations Date are based on the expected sales to these purchasers. In addition, the Borrower expects that at least 50% of the terms of the sale of its MDF will be "net 10," which means that the purchaser will be required to pay invoices within 10 days of delivery of the product. See "APPENDIX G – PRO FORMA FINANCIAL INFORMATION."

The Borrower's sales and marketing strategy does not depend on any foreign sales of MDF and thus does not expect that its sale revenues will be directly impacted by any tariffs imposed by foreign countries in any material respect.

## **Construction of the Plant**

The Borrower is constructing the Plant through multi-contractor contracts, including with (1) Casey Industrial, Inc. ("Casey"), which has already completed in all material respects the supply and construction of site work, concrete work for foundations and slabs for the process equipment and buildings, and erection and installation of the straw preparation building and the MDF production building, (2) Siempelkamp Germany, which is providing the manufacturing process equipment for the Plant pursuant to the Siempelkamp Equipment Supply Contract, providing certain additional equipment and materials relevant to the installation of the equipment delivered by Siempelkamp Germany under the Equipment Supply Agreements, (3) Siempelkamp

Contracting, LLC ("Siempelkamp USA"), an affiliate of Siempelkamp Germany which is responsible for the installation in the main production building of the manufacturing process equipment supplied by Siempelkamp Germany under its Equipment Supply Agreements with the Borrower, (4) Phoenix Industrial, Inc. ("Phoenix"), which is responsible for structural steel erection, certain equipment erection (other than any equipment being installed by Siempelkamp USA), and piping installation of the Plant, and (5) International Line Builders, Inc. ("ILB"), which is providing electrical work other than underground utilities work completed by Casey and electrical work in the main production building, to the extent in Siempelkamp USA's scope under the terms of the Installation Contract.

The Borrower has coordinated and integrated the contracts with Siempelkamp Germany, Siempelkamp USA, Phoenix and ILB such that each party's responsibilities are clearly defined, and has set forth a contractual protocol for coordination that has been endorsed by all parties with continuing construction obligations. Siempelkamp Germany, Siempelkamp USA, Phoenix and ILB have agreed to create a cooperative and collaborative team approach on a multi-prime contracting basis. Each contractor is severally responsible for certain aspects of the construction of the Plant and the steps necessary to ensure that the process equipment achieves the full minimum guaranteed production level, all as per the terms of the various multi-contractor agreements. Additionally, under the terms of the Loan Agreement, the Borrower has agreed not to acknowledge that Mechanical Completion has occurred under the terms of the Siempelkamp Equipment Supply Contract without first obtaining the written acknowledgement of the Construction Monitor to the effect that Mechanical Completion has occurred. *See* "PROJECT CONSTRUCTION STATUS."

## **Permits and Approvals**

The Borrower has secured all permits necessary for the Plant that the Borrower is able to obtain based on the current status of construction of the Plant, and all of these permits are current. The Borrower expects that it will be able to obtain, either directly or through one or more of its contractors, any additional permits necessary for the Plant without material cost or delay. The Borrower is still required to obtain construction permits from Glenn County, which Glenn County issues at each successive stage of the construction of any structures or buildings. The Borrower has routinely obtained these permits in the past and does not expect that it will encounter material disruption in obtaining these permits as it completes the construction of the Plant.

## **Construction Risk Mitigation**

The Borrower has designed a construction strategy that includes cost contingencies, redundancies and oversight in order to mitigate unforeseen events that may threaten the construction of the Plant on a timely basis.

*Contractual Structure*. The Borrower has structured its contracts for the construction of the Plant in a manner to mitigate the risk of the Project. These include:

• <u>Single Supplier for All Process Equipment</u>. The process equipment for the Borrower's MDF production will be provided by Siempelkamp Germany and subject to the contractual protections set forth in the Equipment Supply Agreements.

• <u>Coordinated, Fixed Price Contracts</u>. The Borrower has coordinated and integrated the contracts with Siempelkamp Germany, Casey, Siempelkamp USA, Phoenix, and ILB such that each party's responsibilities are clearly defined and coordinated.

The Siempelkamp Equipment Supply Contract is a fixed-price contract with a base price of \$89,178,554, subject to certain modifications including change orders that may occur from time to time. The Siempelkamp Equipment Supply Contract assumes an allowance of \$2,864,409, plus a 7% freight and insurance handling fee, for third-party transportation costs. If Siempelkamp Germany's costs for third-party freight and transportation exceed this allowance estimate, Siempelkamp Germany will be entitled to compensation for its actual excess costs. If Siempelkamp Germany's actual costs plus the handling fee are less than the allowance, Siempelkamp Germany would be required to reimburse the Borrower for the difference.

The Casey Contract, which has been substantially completed, is a lump-sum fixedprice contract of \$43,459,391, of which \$188,304 remains unpaid (the unpaid amount represents retainage held by the Borrower until the Plant is mechanically complete).

The Installation Contract is a base lump-sum fixed-price contract of \$16,124,310, subject to certain modifications including change orders that may occur from time to time. If the cost of compensation for Siempelkamp USA or its subcontractors' personnel increases by more than 5% from the prevailing wages as of the Installation Contract's effective date, as measured by any change in the Bureau of Labor Statistics Employment Cost Index for compensation costs for construction workers in the United States, Siempelkamp USA will be entitled to a contract price increase for Siempelkamp USA's documented increase as a result of such wage increases. Likewise, if the costs of the lifting and handling equipment for which Siempelkamp USA is responsible increase by more than 5% from the costs as of the effective date of the Installation Contract, Siempelkamp USA will be entitled to a contract price to a contract price increase for such equipment costs increase.

The base price for the Additional Supply Agreement is a lump-sum amount of \$23,380,250, subject to certain adjustments including change orders that may occur from time to time. The Additional Supply Agreement contract price assumes an allowance of \$2,299,248 for third-party transportation costs, and \$456,200 for Siempelkamp Germany's purchase of 250 shipping containers, plus a 7% freight and insurance handling fee. If Siempelkamp Germany's costs for third-party transportation or shipping containers exceed these allowance estimates, Siempelkamp Germany will be entitled to compensation for its actual excess costs. If Siempelkamp Germany's actual costs plus the handling fee are less than the allowance, Siempelkamp Germany would be required to reimburse the Borrower for the difference.

The price for the Phoenix Contract is a lump-sum amount of \$22,323,208.

The price for the ILB Contract is a lump-sum amount of \$13,828,424.

- <u>Payment and Performance Bonds</u>. Casey, Phoenix and ILB have provided payment and performance bonds for the total amount of their respective contracts, along with multiple obligee riders in favor of the Collateral Agent.
- <u>Liquidated Damages</u>. Casey's obligations under the Casey Contract were completed in a timely manner, and no liquidated damages are due for failure to complete any milestones by the dates provided in the Casey Contract.

Similarly, Siempelkamp Germany's obligations to deliver the process equipment under the Siempelkamp Equipment Supply Contract were completed in a timely manner, and no liquidated damages are due for failure to deliver the process equipment under the Siempelkamp Equipment Supply Contract.

If Siempelkamp USA fails to achieve mechanical completion of its scope of work on or before the date that is 30 days after the scheduled mechanical completion date, other than as a result of a Borrower-caused delay or another expressly excusable event, the Borrower will be entitled to delay liquidated damages in the amount of \$55,000 per week, up to a maximum aggregate amount of 10% of the contract price.

If Siempelkamp Germany fails to deliver the equipment by the agreed final delivery date, then for each complete week of delay the Borrower will be entitled to delay liquidated damages in an amount equal to 0.5% of the portion of the contract price allocable to the delayed part, up to a maximum amount of 10% of the Additional Supply Agreement's contract price.

If Phoenix fails to substantially complete its work within 30 days after the scheduled substantial completion date in the Phoenix Contract, the Borrower will be entitled to delay liquidated damages in the amount of \$5,000 per day for the first 45 days after the scheduled date, and \$10,000 per day thereafter, up to the maximum aggregate amount of 10% of the Phoenix Contract's contract price. The originally scheduled substantial completion date in the Phoenix Contract was July 31, 2019, subject to extension for excusable delays, including for changes or suspensions in the work by the Borrower. Although Phoenix and the Borrower have not memorialized the revised substantial completion date in an executed change order, the Borrower expects to grant an extension in the completion schedule for Phoenix to align with the expected milestone completion schedule for the other Construction Agreements.

If ILB fails to substantially complete its work within 30 days after the scheduled substantial completion date in the ILB Contract, the Borrower will be entitled to delay liquidated damages in the amount of \$5,000 per day for the first 45 days after the scheduled date, and \$10,000 per day thereafter, up to the maximum aggregate amount of 10% of the ILB Contract's contract price. The originally scheduled substantial completion date in the ILB Contract was July 31, 2019, subject to

extension for excusable delays, including for changes or suspensions in the work by the Borrower. Although ILB and the Borrower have not memorialized the revised substantial completion date in an executed change order, the Borrower expects to grant an extension in the completion schedule for ILB to align with the expected milestone completion schedule for the other Construction Agreements.

Process Equipment Testing. Siempelkamp Germany agrees in the Siempelkamp • Equipment Supply Contract that, after the mechanical blenders have been completely installed and are in full operation, the process equipment will produce MDF from rice straw and achieve the SICO Guaranteed Values for production output, resin usage, MDF quality and other parameters, as demonstrated by Equipment Performance Tests pursuant to the Siempelkamp Equipment Supply Contract. Within the Equipment Performance Tests Siempelkamp Germany agrees that three nominal sanded board thicknesses (9.53 mm, 4.7 mm and 3.0 mm) will be included in the Equipment Performance Tests and will conform to the SICO Siempelkamp Germany would be obligated to pay Guaranteed Values. performance liquidated damages for failure to achieve the SICO Guaranteed Values in an amount that will not exceed 15% of the Siempelkamp Equipment Price. There is an additional cap on the combined delay and performance liquidated damages in an amount that will not exceed 20% of the Siempelkamp Equipment Price. If Siempelkamp Germany does not meet 85% of their production output guarantee in the Equipment Performance Tests, then, under the circumstances described in the Siempelkamp Equipment Supply Contract, the Borrower can require Siempelkamp Germany to remove the equipment and reimburse the Borrower for 100% of the Siempelkamp Contract Price.

**Project Oversight.** The Borrower has engaged Harris Group, Inc. ("Harris" or the "Construction Monitor") as the construction monitor for the Plant. The Construction Monitor is a multidiscipline engineering consulting firm founded in 1975, with offices located throughout the United States. Harris has experience providing technical due diligence and independent engineering review services of projects on behalf of lenders, investors, and owners since 1989 and has acted as a construction monitor for lenders and bondholders on a wide variety of industrial projects throughout the United States.

The Borrower has engaged SVC as the Technical Advisor. SVC was founded by Mr. Stephen Vajda in 2000. A specialist in wood technology and composite panel manufacture, Mr. Vajda has been involved in the composite and engineered wood panel industry since 1979. Mr. Vajda has participated in numerous plant feasibility studies, and has managed the design and engineering at several facilities. He is experienced in all aspects of the industry, including plant design, product development, market analysis, financial evaluations, and environmental performance.

The Borrower has retained both the Construction Monitor and the Technical Advisor for the benefit of the Bondholders to provide oversight to the construction of the Plant. The responsibilities of the Construction Monitor include, but are not limited to, the following services:

- Monitor and review the performance of the Borrower, Siempelkamp Germany, Casey, Siempelkamp USA, Phoenix and ILB during the construction and commissioning phases of the Plant for compliance with the respective contracts and generally accepted industry practices, and report on the construction progress.
- Conduct monthly site visits, review Siempelkamp Germany's, Casey's, Siempelkamp USA's, Phoenix's and ILB's monthly progress and attend project review meetings.
- Review Siempelkamp Germany's, Casey's, Siempelkamp USA's, Phoenix's and ILB's work plans and quality control procedures and observe the work in progress to determine if the Plant is proceeding in general accordance with the milestone schedule.
- Prepare and submit monthly reports summarizing the findings.
- Review requisitions and related documentation, compare actual budget and schedule progress against expected progress and submit payment certifications.
- Review Siempelkamp Germany's, Casey's, Siempelkamp USA's, Phoenix's and ILB's achievement of mechanical completion and substantial completion, as defined in their respective contracts, and subsequent achievement of each item on the respective punch lists.
- Review the test procedures and monitor data collection procedures and operating and testing personnel during Plant performance testing, and review test reports provided by Siempelkamp Germany.
- Upon successful testing and commissioning and achievement of substantial completion, verify the completion of punch list and other items required to achieve final completion as defined in the Siempelkamp Equipment Supply Contract.

The responsibilities of the Technical Advisor include, but are not limited to, the following services:

- If requested by the Construction Monitor, assist the Construction Monitor with the Construction Monitor's review of the work in progress in the construction of the Plant.
- If requested by the Construction Monitor, assist in the Construction Monitor's review of any proposed modifications to the scope or costs of the Project.
- Review the test procedures and monitor data collection procedures and plant operating and testing personnel during performance testing, and review and approve test reports provided by Siempelkamp Germany.

- Confirm whether the Plant has satisfied all requirements to the achievement of the Commercial Operations Date.
- After the Commercial Operations Date, and following any Calculation Period in which the Borrower's Historic Debt Service Coverage Ratio is 1.15 or less, approve or reject any Operating Budget proposed by the Borrower.
- Advise the Bond Trustee and the Bondholders regarding, and in some cases have approval rights over, certain modifications and replacements of Material Contracts.
- After the occurrence of Plant Acceptance, advise the Borrower, the Bond Trustee, and the Collateral Agent on a variety of matters, including whether proposed alterations of the Plant are technically and commercially viable.
- In the case of a casualty or condemnation of the Plant resulting in insurance proceeds or condemnation awards in excess of \$10 million, certify to the Collateral Agent that rebuilding the Plant is commercially feasible and, if so, verifying requisitions of any proceeds held by the Collateral Agent for expenditures of the restoration of the Plant.

SVC has prepared a report titled *Report to Bond Holders Process Design Changes to the CalPlant Rice Straw MDF Project Since Financial Close*, dated July 4, 2019 (the "SVC Report"). The SVC Report provides an outline of the major design changes, the reason for making the changes and the related benefits of those changes. The SVC Report is included in this Limited Offering Memorandum as APPENDIX M and should be read in its entirety.

*Contingent Financial Resources*. Following the sale of the 2019 Subordinate Bonds, the Borrower estimates that it will have approximately \$33 million of contingency funds to fund potential overruns in costs of the Project.

## Plant Operation, Staffing and Maintenance

The management team of the Borrower will manage the Plant and oversee planning and performance in all areas, including: safety, environmental compliance, forecasting and budgeting, production, quality, process control, maintenance and administration of personnel.

The process within the Plant will be highly automated, and controlled with sophisticated metering and process measuring devices and custom software. The Borrower will operate the Plant with an anticipated staff of 115 employees, plus 4 seasonal straw-handling employees during the harvest season. The Plant will operate most efficiently when continuously manufacturing MDF and run 24 hours a day every day of the year, except for approximately 12 days per year for scheduled maintenance shutdowns.

The Borrower expects to produce MDF at a level of 140 MMsf  $\frac{3}{4}$ " per year by the end of the second year of the Plant's operation. The Borrower expects that it will experience an annual increase in production over the next two years to reach the production of MDF of 160 MMsf  $\frac{3}{4}$ " per year by the end of the fourth year of the Plant's operation from operating efficiencies and faster

cure rates based on new or modified resin formulations. While it is possible that production will increase in subsequent years, the Borrower does not count on such increases, and no increases after reaching an annualized potential production of 160 MMsf<sup>3</sup>/<sub>4</sub>" are assumed in the Financial Model attached hereto as "APPENDIX G—PRO FORMA FINANCIAL INFORMATION." Siempelkamp Germany has expressed a concern that the Borrower's Plant may have a maximum output that does not exceed 140 MMsf<sup>3</sup>/<sub>4</sub>" per year.

Maintenance of the process equipment will be carried out by a maintenance superintendent, a maintenance manager, and a staff of 22 employees, using spare parts delivered by Siempelkamp Germany under the Siempelkamp Equipment Supply Contract. Siempelkamp Germany will provide ongoing maintenance assistance through a system that uses software for the organization and optimization of the maintenance of the process equipment. The Borrower will purchase most of the other spare parts from local vendors, except for proprietary components of the process equipment which the Borrower will purchase directly from Siempelkamp Germany. In the Financial Model described under the caption "The Project—Financing Projections" and attached hereto as Appendix G the Borrower has budgeted approximately \$8.6 million annually in expenses for maintenance of the process equipment.

For a discussion of some of the risks associated with operation of the Plant, see "INVESTMENT CONSIDERATIONS AND RISK FACTORS."

## **Financial Projections**

The Borrower's financial model (the "Financial Model") is included in the pro forma financial information in APPENDIX G. The Financial Model uses data that contains forward-looking statements about the business and prospects of the Borrower and the Plant. The forward looking statements made in the Financial Model are based on the Borrower's assumptions and expectations. Actual results may differ, materially and negatively, from those forecast; accordingly, no assurances are given, and no representations are made, that any of the assumptions are correct, that the projections contained in the Financial Model will be achieved, or that the forward-looking statements will correspond to actual results. See "FORWARD-LOOKING STATEMENTS" and "INVESTMENT CONSIDERATIONS AND RISK FACTORS" herein.

## PRINCIPAL PROJECT AGREEMENTS

#### **Equipment Supply Agreements**

The following is a summary of certain provisions of the Siempelkamp Equipment Supply Contract and the Additional Supply Agreement. This summary does not purport to be comprehensive or definitive and is qualified by reference to and is subject to the provisions of the Siempelkamp Equipment Supply Contract or the Additional Supply Agreement.

Siempelkamp Germany will furnish the process equipment for the entire MDF production line, including (a) rice straw preparation and rice straw fiber preparation; (b) resin blending and drying; (c) forming and pressing; and (d) finishing of the MDF panels. Siempelkamp Germany's personnel will supervise the installation, startup, process and product optimization and performance tests. All of the Siempelkamp Equipment has been delivered to the Site.

The base contract price (the "Siempelkamp Contract Price") is a lump sum amount of \$89,178,554. The Siempelkamp Contract Price includes \$84,138,178 for the Siempelkamp Equipment (the "Siempelkamp Equipment Price"), \$1,151,128 for spare parts, and \$3,889,248 for Siempelkamp Germany's management and supervisory services at the Plant. The Siempelkamp Contract Price includes an allowance for third-party transportation costs and will be adjusted for actual third-party transportation costs incurred by Siempelkamp Germany. If transportation costs are more than the allowance, then the Borrower will pay for the difference. If transportation costs are less than the allowance, the Siempelkamp Contract Price will be adjusted downward accordingly. The Borrower is obligated to pay certain taxes that may be imposed on Siempelkamp Germany or its employees or subcontractors in connection with Siempelkamp Germany's performance of its obligations under the Siempelkamp Equipment Supply Contract. Provision for such taxes has been made in the Borrower's budget for constructing the Plant. Payment of the Siempelkamp Contract Price will be made in installments upon the satisfaction of certain milestones, including commencement of construction, completion of the Siempelkamp Equipment layout, procurement of the Siempelkamp Equipment, delivery of the Siempelkamp Equipment, production of the First Board or deemed First Board and Plant Acceptance or deemed Plant Acceptance, as set forth more fully in the Siempelkamp Equipment Supply Contract. Siempelkamp Germany has granted the Borrower a perpetual, non-exclusive, royalty-free right to use any intellectual property rights related to the Siempelkamp Equipment.

Siempelkamp Germany is also required to meet production output and quality guarantees and a glue/resin consumption guarantee, as set forth more fully in the Siempelkamp Equipment Supply Contract. If such guarantees are not met, Siempelkamp Germany will owe liquidated damages. Siempelkamp Germany's aggregate liquidated damages for failing to meet the performance guarantees are 15% of the Siempelkamp Equipment Price. If Siempelkamp Germany does not meet 85% of the production output guarantee, then, under the circumstances described in the Siempelkamp Equipment Supply Contract, the Borrower can require Siempelkamp Germany to remove the equipment and reimburse the Borrower for 100% of the Siempelkamp Contract Price.

In addition to the Siempelkamp Equipment Supply Contract, Siempelkamp Germany has also entered into the Additional Supply Agreement with the Borrower. Under the Additional Supply Agreement, Siempelkamp Germany will supply certain additional equipment and materials that are relevant to the installation work that Siempelkamp USA will perform, and that the Borrower and Siempelkamp Germany have jointly determined can be provided by Siempelkamp Germany from Europe at less cost than had the Borrower procured them directly.

The base price for the Additional Supply Agreement is a lump-sum amount of \$23,380,250, subject to adjustment for delay in issuance of notice to proceed and for increased transportation costs. The Additional Supply Agreement contract price assumes an allowance of \$2,299,248 for third-party transportation costs, and \$456,200 for Siempelkamp Germany's purchase of 250 shipping containers, but the Borrower has agreed to compensate Siempelkamp Germany for all of its third-party transportation costs, including shipping containers, plus a 7% freight and insurance handling fee. If Siempelkamp Germany's costs for third-party transportation or shipping containers exceed these allowance estimates, Siempelkamp Germany would be entitled to compensation for its actual excess costs. If Siempelkamp Germany's actual costs plus the handling

fee are less than the allowance, Siempelkamp Germany would be required to reimburse the Borrower for the difference.

If Siempelkamp Germany does not deliver the equipment supplied under the Additional Supply Agreement by the applicable dates set forth in the Additional Supply Agreement, then Siempelkamp Germany will pay liquidated damages to the Borrower in an amount equal to 0.5% of the portion of the contract price allocable to the delayed part. However, Siempelkamp Germany's aggregate liability for all delay liquidated damages under the Additional Supply Agreement will not exceed \$2,338,025.

## **Installation Contract**

The following is a summary of certain provisions of the Installation Contract. This summary does not purport to be comprehensive or definitive and is qualified by reference to and is subject to the provisions of the Installation Contract.

Under the Installation Contract, Siempelkamp USA will install certain processing equipment delivered by Siempelkamp Germany under the Siempelkamp Equipment Supply Contract. Siempelkamp USA will install all of the process equipment in the main production building, including most of the ducting in the production building.

The base price for the Installation Contract is a lump-sum amount of \$16,124,310. If the cost of compensation for Siempelkamp USA's or its subcontractors' personnel increases by more than 5% from the prevailing wages as of the Installation Contract's effective date, as measured by any change in the Bureau of Labor Statistics Employment Cost Index for compensation costs for construction workers in the United States, Siempelkamp USA will be entitled to a contract price increase for Siempelkamp USA's documented increased costs as a result of such wage increases. Likewise, if the cost of the lifting and handling equipment for which Siempelkamp USA is responsible increase by more than 5% from the costs as of the effective date of the Installation Contract, Siempelkamp USA will be entitled to a contract price increase.

## **Casey Contract**

The following is a summary of certain provisions of the Casey Contract. This summary does not purport to be comprehensive or definitive and is qualified by reference to and is subject to the provisions of the Casey Contract.

Casey was responsible for the following general categories of work, which work has been completed in all material respects: site work; underground utilities work; concrete work for the foundations and slabs for the process equipment and the buildings; and erection and installation of the straw preparation building and the MDF production building.

Casey's contract price is a lump-sum amount of \$43,459,391, all but \$188,304 of which has been paid.

### **Phoenix Contract**

The following is a summary of certain provisions of the Phoenix Contract. This summary does not purport to be comprehensive or definitive and is qualified by reference to and is subject to the provisions of the Phoenix Contract.

Under the Phoenix Contract, Phoenix agreed to perform the majority of the mechanical installation work at the Plant, including structural steel erection, and installation and erection of equipment and piping that is not otherwise being carried out by Siempelkamp USA pursuant to the Installation Contract. Phoenix's work will be performed under Siempelkamp Germany's supervision. The price for the Phoenix Contract is a lump-sum amount of \$22,323,208.

## **ILB Contract**

The following is a summary of certain provisions of the ILB Contract. This summary does not purport to be comprehensive or definitive and is qualified by reference to and is subject to the provisions of the ILB Contract.

Under the ILB Contract, ILB agreed to perform all electrical work for the portion of the Plant outside of the production building, other than underground utilities work, which is in Casey's scope. This will entail electrical connection of equipment not specifically related to the main process equipment, such as the heating plant, truck loading and unloading facilities, and material handling equipment, as well as the transmission and distribution of power throughout the Plant site. ILB's work will be performed under Siempelkamp Germany's supervision. The price for the ILB Contract is a lump-sum amount of \$13,828,424.

## **Certain Change Orders**

In the ordinary course of administering the Additional Supply Agreement and the ILB Contract, a number of change orders have been agreed upon and will be entered into, none of which individually is material, for the purpose of removing from the scope of the Additional Supply Agreement certain items that were more cost effectively and timely sourced locally (rather than overseas by Siempelkamp Germany) and adding them to the scope of the ILB Contract. These have added approximately \$1.6 million to the cost of the ILB Contract and are expected by the Borrower to reduce the price of the Additional Supply Agreement, although the amount of the reduction has not been finally agreed with Siempelkamp. Similarly, a number of such reduction in scope change orders were entered into under the Phoenix Contract and instead made the subject of separate contracts with third parties, and in most cases with a third party that is also a subcontractor to Phoenix. These have reduced the price of the Phoenix contract by approximately \$1 million, with the new contracts being in approximately the same aggregate amount.

#### **Rice Straw Supply Contracts**

The Borrower has secured fixed-price, rice straw supply contracts with six local and regional baling and transportation companies (all of which expire in 2034, for a maximum of approximately 140%, of the Plant's anticipated maximum annual rice straw needs (roughly 300,000 tons at 160 MMsf <sup>3</sup>/<sub>4</sub>" basis)). The six contracts are substantially similar. The terms of the contracts include:

- The Borrower to pay a fixed price of \$45 per ton for rice straw delivered to the Plant, with surcharges if the cost of diesel fuel rises above \$2 per gallon. The diesel surcharge is capped at one gallon of diesel fuel for every one ton of rice straw delivered pursuant to the agreement.
- Rice straw supplied to the Borrower must meet quality requirements related to bale size and weight, maximum amount of contaminants, and moisture content, in order to conform to the raw material quality requirements under the Siempelkamp Equipment Supply Contract.
- The baling companies are required to arrange access to fields, bale the rice straw, and transport the bales to the Plant.
- Each baling company is responsible for providing all equipment, supplies, and transportation necessary to deliver its annual supply commitments to the Plant.

Each baling company will annually provide assurance to the Borrower that it has access to the required acreage for such year's harvest. On or before May  $1^{st}$  of each year, the Borrower will specify the tonnage of rice straw needed from each baling company for the following autumn rice harvest season. For the 2019 harvest, the Borrower has ordered an aggregate of 115,000 tons of rice straw, but the Borrower will not have an immediate need for the full quantity of rice straw, and for budgetary reasons may reduce the tonnage requested. See "THE PROJECT – Source of Feedstock."

# **Resin Supply Contract**

The Borrower has entered into a resin supply contract with Huntsman which guarantees annual supply of up to approximately 17 million pounds of polymeric MDI, or, at Huntsman's option, not more than 120% of the average monthly purchase quantity since the inception of the supply contract. The Huntsman resin supply contract expires on December 31, 2019 but is automatically renewed for successive calendar year periods unless notice of non-renewal is delivered by either the Borrower or Huntsman on or before September 30 of the calendar year prior to the year of the renewal term.

# Columbia Forest Products, Inc. and the CFP Agreement

The Borrower and CFP have entered into a 22-year agreement (the "CFP Agreement") under which CFP (a) will market and sell the Borrower's MDF production, and (b) has agreed to purchase from the Borrower or otherwise arrange for the sale by the Borrower, during each contract year, beginning on the date of the first anticipated shipment of MDF to CFP, of no less than the Guaranteed Annual Amount. The "Guaranteed Annual Amount" means, for the first contract year, 111 MMsf of MDF (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis); for the second contract year, 120 MMsf of MDF (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis); and for subsequent contract years, the actual production of MDF at the Plant up to a maximum of 140 MMsf of MDF (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis) per year. The Borrower expects the first contract year to be 2020. For the first two contract years, if actual production of MDF at the Plant is, respectively, less than 111 MMsf (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis) and 120 MMsf (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis), the

Guaranteed Annual Amount for those years will be adjusted downward proportionately to equal the actual production of MDF (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis) at the Plant.

The CFP Agreement also requires that CFP use commercially reasonable efforts to purchase, or arrange for the sale of, 1/12 of the Guaranteed Annual Amount each month, so that the Borrower's cash flow and production requirements during the year would be relatively uniform. However, this is not an absolute obligation of CFP, and CFP could meet its obligation to purchase, or arrange for the sale of, the Guaranteed Annual Amount through larger purchases at irregular intervals. If a large percentage of the Guaranteed Annual Amount is purchased or sold late in the year, the Borrower could experience limited cash flows early in the year, negatively affecting the Borrower's financial condition.

Other than the first contract year, in which CFP will receive a 10% discount on purchases for CFP's internal uses only, all purchases by CFP under the CFP Agreement will be at market prices. However, the CFP Agreement provides that at least 85% of the purchases of MDF are required to be at least at the Minimum Selling Price, which is equal to a weighted average price of \$504.00 per 1,000 square feet of MDF (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis), plus actual transportation costs to deliver such purchased MDF. The Minimum Selling Price is substantially lower than the prices at which the Borrower expects that its MDF will be sold to customers. In comparison, the current average production costs for Western U.S. MDF manufacturers (as calculated by RISI) is \$555 per 1,000 square feet of MDF (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis). Based on the current Western U.S. average sale price for <sup>3</sup>/<sub>4</sub> inch MDF of \$625 per 1,000 square feet (as calculated by the Borrower from weekly data for 2019 compiled from Random Lengths price publications), a plant with a product mix weighted toward thin board (as the Borrower expects the Plant to be) would have an average selling price, as assumed in the Financial Model set forth in Appendix G of approximately \$1,000 per 1,000 square feet of MDF (converted to a <sup>3</sup>/<sub>4</sub> inch thickness basis). If the monthly average selling price during a calendar month is less than the Minimum Selling Price, CFP will pay to the Borrower, either in cash, or as an offset against the next portion of the sales commission fees due and owing to CFP, as mutually agreed upon by the parties, an amount sufficient so that the average selling price for 85% of such sales for such calendar month is equal to the Minimum Selling Price ("Price Makeup Amount").

If the monthly average selling price during a calendar month is greater than the Minimum Selling Price, the Borrower will provide to CFP an overpayment credit reflecting 85% of the difference (the "Overpayment Credit Amount"). The Overpayment Credit Amount: (a) may only be used by CFP if it has paid Price Makeup Amounts to the Borrower within 12 calendar months preceding the calendar month for which the Overpayment Credit Amount is credited, and only to the extent the Price Makeup Amount is paid by CFP to the Borrower for calendar months in the 12-calendar-month period; (b) may only be used by CFP as a credit to offset any invoices payable by CFP to the Borrower; and (c) may not be used if the result is that, after the use of the Overpayment Credit Amount, the Minimum Selling Price is not met for the calendar month in which it is used (for the purpose of determining which, the use of any Overpayment Credit Amount for invoices due from CFP for sales in any calendar month shall be treated as discounts to the selling price payable by CFP for those invoices).

The Borrower has the right to elect to accrue the sales commission fees for a particular period (net of that period's actual incremental and out of pocket expenses incurred by CFP to

comply with its obligations under the CFP Agreement) if there is insufficient cash flow available (after all reserves required to be set aside under the terms of the Collateral Agency Agreement and the Indenture) to make these payments in the Borrower's commercially reasonable discretion in such amounts as will avoid any default under the Indenture, the Loan Agreement, or the Senior Bond Documents. Any such accrued sales commission fees will be paid out from future excess funds generated by the Borrower (in excess of all reserves required to be set aside under the terms of the Collateral Agency Agreement and the Indenture) and only in such amounts as will not cause a default under the Indenture, the Loan Agreement, or the Senior Bond Documents.

For discussion of risks associated with the CFP Agreement, see "INVESTMENT CONSIDERATIONS AND RISK FACTORS—Market for MDF."

## Estimated Sources and Uses of Funds for Plant Construction Costs

<sup>(1)</sup>Siempelkamp is contractually obligated to invest \$5 million in Borrower equity; equity contributions are made pro-rata with payments made by Borrower on the equipment supply contract. As of July 25, 2019, approximately \$3.64 million of such equity contributions have been made.

<sup>(2)</sup> Includes payroll expenses during construction, insurance premiums, costs of construction management firm, post-June 2017 legal fees,

construction equipment rental costs, and other items. <sup>(3)</sup>Costs of straw purchases from 2017 and 2018 harvests, and estimated

costs of straw purchases from 2019 harvest.

<sup>(4)</sup> Includes original issue discount on and costs of issuance of the Senior Bonds and the 2019 Subordinate Bonds

The table above is based on the Borrower's estimated construction schedule and consequent estimates of production and sales of MDF. As discussed above (see "PROJECT CONSTRUCTION STATUS - Construction Schedule") there is uncertainty about whether the Borrower's estimates can be achieved. If, as Siempelkamp Germany believes, it will take as much as seven additional months beyond the Borrower's estimates to achieve the completion of the Plant, Plant Acceptance and the Commercial Operations Date, the Borrower estimates that it will nevertheless have sufficient financial resources to pay all of its operating expenses, feedstock expenses, and obligations under the Senior Bonds until at least January 1, 2021, and would then have a cash balance of approximately \$2 million. Interest on the 2019 Subordinate Bonds will be capitalized through December 1, 2020. See "FLOW OF FUNDS FOR THE 2019 SUBORDINATE BONDS - Capitalized Interest Account."

### **Recapitalization of the Project**

The Borrower is planning to issue the 2019 Subordinate Bonds to replace a mezzanine loan facility (the "Mezzanine Facility") between the Borrower's parent entity, Holdco, and Not Wood LLC, and to finance other Project Costs. The Collateral Agency Agreement will create a new account, the Subordinate Bond Proceeds Account, into which the Borrower will deposit the proceeds of the 2019 Subordinate Bonds (less proceeds used to pay Costs of Issuance of the 2019 Subordinate Bonds and to fund the Capitalized Interest Account and Reserve Fund for the 2019 Subordinate Bonds). Contemporaneously with the issuance of the 2019 Subordinate Bonds, Holdco will retire the Mezzanine Facility with the net proceeds of the Mezzanine Facility currently held by Holdco and other funds available to Holdco, including the additional equity described below. Amounts in the Subordinate Bond Proceeds Account under the Collateral Agency Agreement will be available to pay the Project Costs that the remaining net proceeds of the Mezzanine Facility would have paid. Among other costs, the Project Costs include approximately \$8.48 million of payments that will become due to Siempelkamp Germany under the Siempelkamp Equipment Supply Contract, which payments had been contractually deferred in connection with the Mezzanine Facility.

In addition to the issuance of the 2019 Subordinate Bonds, Holdco is currently in the process of securing additional equity from its investors. Holdco has secured approximately \$15 million of additional equity from and after June 17, 2019 and expects that it will secure at least an aggregate of \$20 million in equity from and after June 17, 2019, but neither the Borrower nor Holdco can provide any assurance that additional equity in excess of \$20 million will be secured. Holdco expects that, in addition to the currently remaining net proceeds of the Mezzanine Facility, much of the additional equity will be used to retire the Mezzanine Facility. To the extent that, after application of the remaining net proceeds of the Mezzanine Facility, the additional equity exceeds the amount necessary to retire the Mezzanine Facility, the Borrower anticipates that Holdco will deposit any excess additional equity received by Holdco prior to the Delivery Date in the Borrower Funds Account maintained by the Collateral Agent.

#### **Changes in Project Capitalization**

The following table sets forth the Borrower's capitalization of the Project as of the financial close of the Senior Bonds on June 14, 2017, the changes that occurred in the Borrower's capitalization of the Project as a result of the Mezzanine Facility on December 20, 2018 and the changes that the Borrower expects to occur in its capitalization contemporaneously with the issuance of the 2019 Subordinate Bonds. The following table was updated to reflect the final pricing of the 2019 Subordinate Bonds.

# Consolidated Changes to Project Capitalization (In Thousands)

<sup>(1)</sup> Siempelkamp is contractually obligated to invest \$5 million in Borrower equity; equity contributions are made pro-rata with payments made by Borrower on the equipment supply contract. As of July 25, 2019, approximately \$3.64 million of such equity contributions have been made.

<sup>(2)</sup> Occator/TIAA was contractually obligated to invest an additional \$4.8 million in Borrower equity. Holdco made a call on this contingent equity, which was funded in full on June 20, 2019.

(3) In addition to the \$13.5 million equity raised in accordance with the requirements of the Mezzanine Facility, Holdco raised an additional \$2.261 million of equity, net of fees.

(4) Figures in this column represent the estimated impact on Project capitalization if the Authority issues the 2019 Subordinate Bonds. The Borrower has made a number of assumptions upon which these figures are based, including that the 2019 Subordinate Bonds are issued not later than August 7, 2019.

#### **Subordinate Bond Proceeds Account**

The Collateral Agent will maintain the Subordinate Bond Proceeds Account for the net proceeds of the sale of the 2019 Subordinate Bonds as provided in the Collateral Agency Agreement. On the date of issuance of the 2019 Subordinate Bonds (the "Delivery Date") (and on any date thereafter and before the Commercial Operations Date on which Additional Bonds are sold by the Authority under the terms of the Indenture), the Bond Trustee shall deposit or cause to be deposited in the Subordinate Bond Proceeds Account the net proceeds of the sale of the 2019 Subordinate Bonds, after deducting from the gross proceeds from such sale received by the Bond Trustee from the Authority any amounts required under the terms of the Indenture (i) to be held by the Bond Trustee to pay interest or as reserves for debt service and (ii) any amount required to be paid or held by the Bond Trustee to pay costs of issuance of the 2019 Subordinate Bonds, *provided* that the amount deposited by the Bond Trustee to the Subordinate Bonds, proceeds

Account on the Delivery Date shall in any event be not less than \$58,562,597.98. From and after the Delivery Date, the Bond Trustee shall cause such other amounts to be deposited in the Subordinate Bond Proceeds Account when and as required by the Indenture.

The Collateral Agent shall cause the amounts from time to time on deposit in the Subordinate Bond Proceeds Account to be paid for Project Costs which are costs of the Tax-Exempt Project to or at the direction of the Borrower. Before each disbursement from the Subordinate Bond Proceeds Account, the Borrower shall request disbursements of such funds by delivering to the Collateral Agent (with copies to the Debt Representatives), not later than the fifth Business Day prior to the proposed date of disbursement (except any disbursement requested on the Delivery Date), a requisition (a "Subordinate Bond Funds Requisition") signed by an Authorized Representative of the Borrower in the as applicable form provided in the Collateral Agency Agreement, and, with respect to each Subordinate Bond Funds Requisition prior to Plant Acceptance, a certification by the Construction Monitor in the applicable form.

If the Collateral Agent receives a completed Unconditional Subordinate Bond Funds Requisition (except in the case of any Unconditional Subordinate Bond Funds Requisition received by the Collateral Agent on the Delivery Date, which the Collateral Agent shall fund on the Delivery Date), the Collateral Agent shall fund such Unconditional Subordinate Bond Funds Requisition within five Business Days after the Collateral Agent's receipt of the completed Unconditional Subordinate Bond Funds Requisition, provided that the Collateral Agent shall not honor any Subordinate Bond Funds Requisition if three or more Subordinate Bond Funds Requisitions previously have been submitted within the calendar month under the Collateral Agency Agreement. If the Borrower delivers a Conditional Subordinate Bond Funds Requisition, then the Collateral Agent shall fund such Conditional Subordinate Bond Funds Requisition only after following the procedures set forth in the Senior Bond Indenture, provided that, in the case of any Conditional Subordinate Bond Funds Requisition that takes exception to the certification set out in item (4) of the text of Form of Conditional Subordinate Bond Funds Requisition, the Collateral Agent shall fund such Conditional Subordinate Bond Funds Requisition only after also being instructed to do so by the Subordinate Loan Representative. Subject to the provisions of the immediately preceding sentence, the Collateral Agent may rely conclusively on, and shall be protected in acting upon, a completed Unconditional Subordinate Bond Funds Requisition or Conditional Subordinate Bond Funds Requisition as evidence of a Subordinate Bond Funds Requisition meeting the requirements of the Collateral Agency Agreement. The Collateral Agent shall be under no duty to make any investigation or inquiry of a completed Subordinate Bond Funds Requisition nor review any attachments thereto nor determine whether all documentation required to be attached to such requisition has been received.

After the Collateral Agent receives notice from the Borrower of the occurrence of the Commercial Operations Date, after payment of costs payable from the Subordinate Bond Proceeds Account, or provision having been made for payment of such costs not yet due, the Collateral Agent shall transfer any remaining balance in the Subordinate Bond Proceeds Account to the Bond Trustee for disposition in accordance with the terms of the Indenture.

So long as any funds remain on deposit in the Subordinate Bond Proceeds Account, (i) the Collateral Agent shall observe, for the benefit of the Bondholders, the covenants of the Bond Trustee under the Indenture (as in effect on the Delivery Date), but only with respect to the

Subordinate Bond Proceeds Account, and as if the Collateral Agent were the Bond Trustee for such purposes and (ii) as of December 31 and June 30 of each year, commencing with June 30, 2020, the Collateral Agent shall provide to the Authority an audit letter, which shall be received no later than January 15 or July 15 next following each such December 31 or June 30, as the case may be.

Following the Collateral Agent's receipt of a Notice of Default, the Collateral Agent shall, if and to the extent so directed by a Notice of Account Restriction, transfer sums then on deposit in the Subordinate Bond Proceeds Account to the Collateral Account.

## SECURITY AND SOURCES OF PAYMENT FOR THE 2019 SUBORDINATE BONDS

## General

Payment of principal of, and the premium, if any, and interest on, the 2019 Subordinate Bonds will be paid from payments received by the Bond Trustee from the Borrower pursuant to the Loan Agreement. The 2019 Subordinate Bonds are also payable from the proceeds from the sale of the 2019 Subordinate Bonds on deposit in accounts established and maintained by the Bond Trustee under the Indenture and from any other amounts held in any fund or account under the Indenture (other than the Rebate Fund), including by the Reserve Fund further described herein under "SECURITY AND SOURCES OF PAYMENTS FOR THE 2019 SUBORDINATE BONDS – Reserve Fund".

The Authority will assign to the Bond Trustee, as security for the 2019 Subordinate Bonds, its entire interest in the Loan Agreement (except for certain unassigned rights which the Authority will retain), including its rights to the amounts payable under the Loan Agreement required from time to time to be deposited in the Debt Service Fund established under the Indenture. The Borrower is obligated under the Loan Agreement to make payments which are sufficient to pay when due the principal of, and premium, if any, and interest on, the 2019 Subordinate Bonds. The Borrower's obligations to make such payments pursuant to the Loan Agreement will be absolute and unconditional and are not subject to any defense (other than receipt of payment by the Bond Trustee).

The 2019 Subordinate Bonds also are secured by the Collateral as described below under "—The Collateral."

# OTHER THAN THE COLLATERAL, THE 2019 SUBORDINATE BONDS ARE NOT SUPPORTED BY ANY GUARANTY OR LETTER OF CREDIT OR OTHER CREDIT OR LIQUIDITY ENHANCEMENT.

THE 2019 SUBORDINATE BONDS ARE LIMITED OBLIGATIONS OF THE AUTHORITY PAYABLE SOLELY FROM CERTAIN REVENUES, CONSISTING OF LOAN REPAYMENTS MADE BY THE BORROWER UNDER THE LOAN AGREEMENT, AND SEPARATELY SECURED BY A DEED OF TRUST LIEN ON THE SITE AND THE PLANT, THE MEMBERSHIP INTERESTS IN THE BORROWER AND AT LEAST 75% OF THE MEMBERSHIP INTERESTS IN HOLDCO AND OTHER COLLATERAL AS FURTHER DESCRIBED HEREIN AND SUBJECT TO THE TERMS OF THE COLLATERAL AGENCY AGREEMENT.

## **Senior Bonds**

On June 14, 2017, the Authority issued \$228,165,000 aggregate principal amount of Solid Waste Disposal Revenue Bonds (CalPlant I Project) Series 2017 (AMT) (Green Bonds) (the "Senior Bonds"), pursuant to the Indenture, dated as of June 1, 2017 (the "Senior Bond Indenture"), by and between the Authority and UMB Bank, N.A., as trustee for the Senior Bonds. Currently, the full amount of the Senior Bonds remains outstanding.

# The Collateral

The 2019 Subordinate Bonds will be secured, on a subordinate basis to the Senior Bonds, as provided in the Collateral Agency Agreement, by the Collateral held by the Collateral Agent in accordance with the terms of the Indenture, the Collateral Agency Agreement and pursuant to the other Collateral Instruments and the security represented by the Pledged Parent Collateral (collectively, the "Shared Collateral"). The 2019 Subordinate Bonds will also be secured by a first priority security interest in the Pledged Investor Collateral.

## **Shared Collateral**

The payment of the 2019 Subordinate Bonds will be secured, on a subordinate basis to the Senior Bonds, as provided in the Collateral Agency Agreement, by:

(i) the pledge and collateral assignment of and a grant by the Borrower to the Collateral Agent of a security interest in and a lien on all of the Borrower's right, title and interest in and to all of its assets (including, without limitation, the Site and all improvements owned by the Borrower and located thereon, including, once constructed, the Plant), whether now owned or in the future acquired, including the Borrower's rights under any agreements to which the Borrower is a party and all general intangibles, instruments, equipment, goods, inventory, agreements, contracts, governmental approvals and proceeds of property insurance policies, all as further provided in the Deed of Trust and the Security Agreement;

(ii) all funds and accounts held by, or under the control of the Collateral Agent pursuant to and subject to the Collateral Agency Agreement, and all funds deposited therein, including the Subordinate Bond Proceeds Account; and

(iii) the pledge by Holdco to the Collateral Agent of all right, title and interest of Holdco in and to all of Holdco's membership interests, securities, shares, units, options, warrants, interests, participations, or other equivalents, regardless of how designated, in the Borrower and all of Holdco's other legal and beneficial right, all title and interest in and to the Borrower, all right, title and interest of Holdco in and to all present and future payments, proceeds, dividends, distributions, instruments, compensation, property, assets, interests and rights in respect of or in exchange for limited liability company interests in the Borrower, and all proceeds thereof. Except that any pledged collateral shall not include any assets sold to a person (other than the Borrower or any of its affiliates) in compliance with the Debt Documents, any collateral as to which the Borrower has determined in its good faith that the collateral value is less than \$50,000 and is therefore insufficient to justify the difficulty, time or expense of obtaining a perfected security interest therein, and any property to the extent that such grant of a security interest is prohibited by a governmental authority, or requires consent not obtained of any governmental authority, among others, as more provided for in the Security Agreement.

The payment of the 2019 Subordinate Bonds will also be secured, on a first lien basis, by:

(i) certain funds and accounts held by the Bond Trustee under the Indenture, including a Reserve Fund and the Capitalized Interest Account; and

(ii) the pledge by certain of the Investors (representing at least 75% of the membership interests in Holdco and referred to as the "Designated Investors") to the Bond Trustee of all right, title and interest of the Designated Investors in and to all of the Designated Investors' membership interests, securities, shares, units, options, warrants, interests, participations, or other equivalents, regardless of how designated, in Holdco, all of the Designated Investors' other legal and beneficial right, all title and interest in and to Holdco, all right, title and interest of the Designated Investors in and to all present and future payments, proceeds, dividends, distributions, instruments, compensation, property, assets, interests and rights in respect of or in exchange for limited liability company interests in Holdco, and all proceeds thereof.

## The Collateral Agency Agreement

The following description of the Collateral Agency Agreement constitutes a summary of selected provisions thereof and should not be considered to be a full statement of the terms of such document. This description is qualified in its entirety by reference to the complete document. A draft form of the Collateral Agency Agreement is attached as APPENDIX D.

The Collateral Agent will hold, at the direction of the Indenture Trustees, for the benefit of the owners of the Secured Obligations, all of the Shared Collateral, in order to secure the payment and performance of the Secured Obligations existing at the time of execution of the Collateral Agency Agreement or thereafter existing, in the manner and to the extent set forth in the Collateral Instruments. Pursuant to the Collateral Agency Agreement, the Collateral Agent will, as agent of the Indenture Trustees for the exclusive benefit of the owners of the Secured Obligations, among other things, (i) receive, accept, enter into, hold, maintain, administer and enforce all Collateral Instruments, (ii) take all lawful action and commercially reasonable actions that it may deem necessary or desirable to protect or preserve its interest in the Shared Collateral and such interests, rights, powers and remedies; and sell, assign, collect, assemble, foreclose on, institute legal proceedings with respect to, or otherwise exercise or enforce the rights and remedies of a secured party (including as a deed of trust beneficiary and insurance beneficiary or loss payee) with respect to, any of the Shared Collateral or any of its interests, rights, powers and remedies granted or available to it under, pursuant to, or in connection with, any or all of the Collateral Instruments.

The Collateral Agent shall make withdrawals and transfers (by wire transfer or otherwise in the reasonable discretion of the Borrower) of amounts from the Revenue and Operating Account, to the extent then available in the Revenue and Operating Account, on the dates, in the amounts, under the circumstances, and for the purposes and in the order of priority set forth below:

First, with respect to any calendar month, on any Business Day from time to time as directed by the Borrower in an Account Transfer Certificate, but not earlier than the tenth Business Day before the first day of such calendar month, transfer all or any portion of the funds in the Revenue and Operating Account to the Local Bank Account as specified in the Account Transfer Certificate, *provided* that (a) for any calendar month the amount directed to be transferred to the Local Bank Account is no greater than the Operating Expenses of the Borrower for such calendar month, as estimated by the Borrower, and set forth in the Account Transfer Certificate, to be incurred or become due and payable during such calendar month, less such amounts as may at the time be on deposit in the Local Bank Account and not accounted for by (1) checks that have not yet cleared or (2) Operating Expenses incurred by the Borrower in prior periods but remaining unpaid, (b) for any calendar year, the Borrower shall not cause the aggregate of all amounts transferred in accordance with this clause First to exceed 110% of the Operating Expenses as shown on the Operating Budget then in effect for such calendar year, and, in the case of both clauses (a) and (b) of this proviso, not taking into account the Operating Expenses for the relevant period that are or would be funded by operation of the transfers described in clauses Second through Twelfth of Section 4.02 of the Collateral Agency Agreement, (c) if any funds being directed to be transferred to the Local Bank Account are intended to be used to pay CFP sales commissions under the CFP Agreement (or interest thereon, but not including CFP's actual incremental and out-of-pocket expenses incurred during the relevant period in complying with its obligations under the CFP Agreement), the Borrower shall certify in the Account Transfer Certificate that all transfers described in clauses Second through Twelfth below are being funded in full with other transfers directed in the Account Transfer Certificate or will otherwise be made in full, and (d) notwithstanding the provisions of the foregoing clause (c), at any time when any Subordinate Loan Obligations shall remain outstanding, and if so required by the provisions of the Subordinate Loan Documents, such funds as would otherwise be permitted to be transferred to the Local Bank Account to pay CFP sales commissions under the CFP Agreement (or interest thereon, but not including CFP's actual incremental and out-of-pocket expenses incurred during the relevant period in complying with its obligations under the CFP Agreement) shall instead be transferred to the Suspension Account;

<u>Second</u>, on any Business Day from time to time as directed by the Borrower in an Account Transfer Certificate, transfer all or any portion of the funds in the Revenue and Operating Account to the Local Bank Account as specified in the Account Transfer Certificate in the amount of any Extraordinary Expenses not provided for in any prior Account Transfer Certificate;

<u>Third</u>, on any Business Day from time to time as directed by the Borrower in an Account Transfer Certificate, after the application of clauses <u>First</u> and <u>Second</u> on such Business Day, transfer all or any portion of the funds in the Revenue and Operating Account to the Collateral Agent for the fees and expenses payable to the Collateral Agent under Section 7.03 of the Collateral Agency Agreement and due and payable (or reasonably expected to become due and payable) during the monthly period following the date of the Account Transfer Certificate;

<u>Fourth</u>, on any Business Day from time to time as directed by the Borrower in an Account Transfer Certificate, after the application of clauses <u>First</u> through <u>Third</u> above on such Business Day, transfer from the Revenue and Operating Account to (a) the Senior Bond Indenture Revenue Fund an amount (as set forth in the Account Transfer Certificate) equal to all administrative fees, costs and charges due and payable under the Senior Bond Loan Agreement or under the Senior Bond Indenture, less any amounts already transferred to the Senior Bond Indenture Revenue Fund for such purpose, and (b) the Subordinate Loan Representative an amount (as set forth in the Account Transfer Certificate) equal to all administrative fees, costs and charges due and payable under the Subordinate Loan Representative for such purpose, *provided* that such amounts transferred to the Subordinate Loan Representative under this <u>clause (b)</u> shall not exceed (i) \$10,000 in the aggregate in any calendar year if no Senior Bonds Event of Default exists, and (ii) \$50,000 in the aggregate during the existence of a Senior Bonds Event of Default;

<u>Fifth</u>, on each Transfer Date, after the application of clauses <u>First</u> through <u>Fourth</u> above on such Transfer Date, transfer from the Revenue and Operating Account to the Rebate Fund established and maintained by the Senior Indenture Trustee pursuant to the Senior Bond Indenture, an amount equal to the applicable Rebate Requirement, less any amounts already on deposit in the Rebate Fund (as set forth in an Account Transfer Certificate);

<u>Sixth</u>, on each Transfer Date beginning with the Transfer Date immediately preceding June 1, 2019, after the application of clauses <u>First</u> through <u>Fifth</u> above on such Transfer Date, transfer from the Revenue and Operating Account to the Senior Bond Indenture Revenue Fund an amount (as set forth in an Account Transfer Certificate) equal to one-sixth of the amount of the interest payable on the Senior Bonds on the next succeeding Senior Bond Interest Payment Date together with any amounts that on prior Transfer Dates were not transferred as otherwise required by this clause <u>Sixth</u> due to lack of funds in the Revenue and Operating Account, *provided* that in no event will any amounts be required to be transferred under this clause <u>Sixth</u> to any extent greater than necessary for the Interest Account to have sufficient funds as of the Transfer Date to pay the interest payable on the Senior Bonds on the next succeeding Senior Bond Interest Payment Date;

<u>Seventh</u>, on each Transfer Date beginning with the Transfer Date immediately preceding June 1, 2020, after the application of clauses <u>First</u> through <u>Sixth</u> on such Transfer Date, transfer from the Revenue and Operating Account to the Senior Bond Indenture Revenue Fund an amount (as set forth in an Account Transfer Certificate) equal to one-sixth of the amount of the principal payable on the Senior Bonds on the next succeeding Senior Bond Principal Payment Date together with any amounts that on prior Transfer Dates were not transferred as otherwise required by this clause <u>Seventh</u> due to lack of funds in the Revenue and Operating Account, *provided* that in no event will any amounts be required to be transferred under this clause <u>Seventh</u> to any extent greater than necessary for the Principal Account to have sufficient funds as of the Transfer Date to pay the principal payable on the Senior Bonds on the next succeeding Senior Bond Principal Payment Date;

<u>Eighth</u>, on each Transfer Date, after the application of clauses <u>First</u> through <u>Seventh</u> on such Transfer Date, transfer from the Revenue and Operating Account to the Senior Bond Debt Service Reserve Account an amount (as set forth in an Account Transfer Certificate) which is sufficient to cause the balance in the Senior Bond Debt Service Reserve Account, to equal the required balance as set forth in the Senior Bond Indenture as of such Transfer Date;

<u>Ninth</u>, on each Transfer Date, after the application of clauses <u>First</u> through <u>Eighth</u> on such Transfer Date, transfer from the Revenue and Operating Account to the Operating Expense Reserve Account an amount (as set forth in an Account Transfer Certificate) sufficient to cause the balance in the Operating Expense Reserve Account (including any portion of the balance that represents drawings under the Revolving Credit Facility) to at least equal the Operating Expense Reserve Requirement;

<u>Eleventh</u>, following the Commercial Operations Date, on the Transfer Date that immediately precedes the end of the First Semiannual Period in each calendar year and on each Transfer Date during the balance of the Second Semiannual Period (and after the application of clauses <u>First</u> through <u>Tenth</u> on such Transfer Date) transfer from the Revenue and Operating Account to the Feedstock Expense Reserve Account an amount (as set forth in an Account Transfer Certificate) sufficient to cause the balance in the Feedstock Expense Reserve Account to at least equal the Feedstock Expense Reserve Requirement as of such Transfer Date;

<u>Thirteenth</u>, on each Transfer Date, after the application of clauses <u>First</u> through <u>Twelfth</u> on such Transfer Date, transfer from the Revenue and Operating Account to the Suspension Account the balance of the amount then remaining in the Revenue and Operating Account.

If on any Transfer Date there are insufficient funds in the Revenue and Operating Account to make the transfers set forth in clauses <u>First</u> through <u>Seventh</u>, the Collateral Agent shall transfer amounts to the Revenue and Operating Account sufficient for such purposes from any available amounts in the following order: *first*, from the Suspension Account, *second*, from the from the Major Maintenance Reserve Account, but only to the extent of 50% of the amounts described in clause (b) of the definition of Major Maintenance Reserve Requirement (which amounts are to be determined by the Borrower), *third*, from the Operating Expense Reserve Account, *fourth*, from the Feedstock Expense Reserve Account, and *fifth*, from the balance of the Major Maintenance Reserve Account.

# **Reserve Fund**

Pursuant to the Indenture, the Bond Trustee will establish a Reserve Fund in which the Bond Trustee will deposit an amount equal to the Reserve Fund Requirement. The "Reserve Fund Requirement" means, with respect to the 2019 Subordinate Bonds, as of any date of calculation, an amount equal to the maximum amount of interest due within any six-month period on the Bonds as of their date of issuance. If on the Business Day immediately preceding an Interest Payment

Date, or any other date on which the principal or redemption price of, or interest on, 2019 Subordinate Bonds is due, the amount in the Principal Account, the Interest Account, the Redemption Account, the Capitalized Interest Account or the Revenue Fund available for such payment is less than the principal amount or redemption price of, or interest on, the 2019 Subordinate Bonds due on such date, the Bond Trustee shall transfer amounts from the Reserve Fund for application to the Principal Account or the Interest Account (or both) to the extent necessary to make good the deficiency.

# Additional Collateral For 2019 Subordinate Bonds

In addition to the collateral held by the Collateral Agent for the benefit of the holders of the Senior Bonds and, on a subordinate basis, for the Holders of the 2019 Subordinate Bonds, the 2019 Subordinate Bonds will be entitled to a first lien pledge on at least 75% of the membership interests in Holdco under the terms of the Investors' Pledge Agreement. The Holders of the 2019 Subordinate Bonds will be secured by a pledge of at least 75% of the membership interests in Holdco, which percentage takes into consideration legal and practical constraints that may preclude some of the Investors in Holdco from pledging their membership interests. However, as described below, the Holdco operating agreement will provide that, upon any foreclosure of the membership interests of the Designated Investors, the Bond Trustee will receive all of the distributions and control of Holdco until the 2019 Subordinate Bonds are retired. *The following description of the Investors' Pledge Agreement constitutes a summary of selected provisions thereof and should not be considered to be a full statement of the terms of the Investors' Pledge Agreement. Under the terms of the operating agreement of Holdco (as it will be amended and restated as of the Delivery Date), if the Bond Trustee or its designee acquires the pledged Holdco membership interests through or in lieu of the exercise of remedies by the Bond Trustee under the Investors' Pledge Agreement, until the payment in full of the 2019 Subordinate Bonds (a) no holder of unpledged membership interests in Holdco will be entitled to dividends or other payments on account of such unpledged membership interests, (b) the holders of such unpledged membership interests will not be entitled to any vote as a member of Holdco or to designate any director of Holdco, and (c) no director of Holdco other than directors appointed by the Bond Trustee or its designee shall be entitled to manage Holdco's business and affairs.

## FLOW OF FUNDS FOR THE 2019 SUBORDINATE BONDS

## **Suspension Account and Distribution Requirements**

While the 2019 Subordinate Bonds are Outstanding, the Collateral Agent will distribute amounts from the Suspension Account to the Bond Trustee upon the satisfaction of the requirements of the Collateral Agency Agreement including satisfaction of the applicable Distribution Requirements. Among the applicable Distribution Requirements that must be satisfied before the release of amounts from the Suspension Account to the Bond Trustee, the Borrower must establish that the Forward Looking Debt Service Coverage Ratio and the Historic Debt Service Coverage Ratio as of the most recent Calculation Date is equal or greater than 1.3x. See "SECURITY AND SOURCES OF PAYMENT FOR THE 2019 SUBORDINATE BONDS – The Collateral Agency Agreement."

## **Application of Revenues**

The Borrower has agreed in the Loan Agreement to promptly pay or cause to be paid Loan Repayments to the Bond Trustee for deposit in the Revenue Fund. These payments are expected to be made from the Capitalized Interest Account and from Revenues (including Revenues received by the Bond Trustee pursuant to the Collateral Agency Agreement). Subject to the arbitrage covenants in the Indenture, the Bond Trustee shall deposit in the Revenue Fund (i) all Revenues received from the Borrower upon receipt and (ii) all amounts received from the Collateral Agent pursuant to the Collateral Agency Agreement. Subject to the redemption of the 2019 Subordinate Bonds, the Bond Trustee, without any further authorization from the Authority, shall make disbursements from the Revenue Fund, to the extent then available in the Revenue Fund, on the dates, in the amounts, under the circumstances, for the purposes and in the order of priority set forth below:

<u>First</u>, on any Business Day from time to time as directed by the Borrower in an Account Transfer Certificate, to a special Account within the Revenue Fund an amount (as set forth in the Account Transfer Certificate) equal to all administrative fees, costs and charges due and payable to the Bond Trustee under the Bond Financing Documents, less

any amounts already transferred to the Bond Trustee for such purpose, to be applied in accordance with the Indenture;

<u>Second</u>, on each Transfer Date, to a special Account within the Revenue Fund (the "Rebate Fund") an amount equal to the applicable Rebate Requirement, less any amounts already on deposit in the Rebate Fund (as set forth in an Account Transfer Certificate), to be applied in accordance with the Indenture;

<u>Third</u>, on each Transfer Date beginning with the Transfer Date immediately preceding December 1, 2019, to a special Account within the Debt Service Fund (the "Interest Account") an amount equal to the interest payable on the 2019 Subordinate Bonds on the next succeeding Interest Payment Date less any amounts already on deposit in the Interest Account and amounts on deposit in the Capitalized Interest Account for the payment of such interest payable, to be applied in accordance with the Indenture;

<u>Fourth</u>, on each Transfer Date, to the Reserve Fund an amount sufficient to cause the balance in the Reserve Fund to equal the Reserve Requirement, to be applied in accordance with the Indenture;

<u>Fifth</u>, on any Business Day from time to time as may be directed by the Borrower in accordance with an Account Transfer Certificate, to the Local Bank Account an amount specified in the Account Transfer Certificate to pay to CFP all or any portion of amounts as are then owing as sales commissions (and interest thereon) under the CFP Agreement, provided, however, that such transfer shall only be permitted if sufficient funds exist in the Interest Account (including amounts in the Capitalized Interest Account available for such payment) to pay the interest due on the 2019 Subordinate Bonds on the next succeeding Interest Payment Date;

<u>Sixth</u>, on each Transfer Date, to a special Account within the Debt Service Fund (the "Principal Account") (i) the Shortfall Sweep, if any, up to the Maximum Shortfall Accrual Amount, and (ii) an amount necessary to make the Mandatory Redemption Payment required under the Indenture on the next succeeding Mandatory Redemption Date up to the Maximum Sweep Amount (after taking into account any amounts already on deposit in the Principal Account for such payment), to be applied in accordance with the Indenture; *see* "FLOW OF FUNDS FOR THE 2019 SUBORDINATE BONDS – Mandatory Redemption from Cash Sweep"; and

<u>Seventh</u>, on each Transfer Date, to an account specified by the Borrower the balance of the amount then remaining in the Revenue Fund, provided, however, that such transfer shall only be permitted if no Event of Default exists.

All money in the Revenue Fund and each special Fund and Account within the Revenue Fund or the Debt Service Fund established and maintained by the Bond Trustee pursuant to the Indenture (each of which the Bond Trustee is instructed to establish and maintain) shall be held in trust by the Bond Trustee and shall be applied, used and withdrawn only for the purposes hereinafter authorized in the Indenture.

#### **Mandatory Redemption from Cash Sweep**

The 2019 Subordinate Bonds are subject to semi-annual redemption prior to their stated maturity in part at the principal amount thereof together with interest accrued thereon to the date fixed for redemption, without premium. To the extent funded into the Principal Account pursuant to the Indenture (which consists of amounts transferred from the Collateral Agent from the Suspension Account after satisfaction of the Distribution Requirements), the 2019 Subordinate Bonds shall be redeemed on each June 1 and December 1 (a "Mandatory Redemption Date") in an aggregate amount (the "Mandatory Redemption Payment") equal to: (1) one hundred percent (100%) of the first \$2,500,000 (or portion thereof) remaining after the deposits required by sections First through Fifth of Section 5.02(a) of the Indenture, which shall be funded into the Principal Account pursuant to the Indenture, as described in clause Sixth of "THE INDENTURE AND THE LOAN AGREEMENT – The Indenture – Application of Revenues" in the period beginning on the date that is twenty-nine (29) days prior to the previous Mandatory Redemption Date and ending on the calendar day that is thirty (30) days prior to the Mandatory Redemption Date (such period the "Mandatory Redemption Sweep Period") on which the redemption payment is made, plus (2) fifty percent (50%) of the next \$2,500,000 (or portion thereof) remaining after the deposits required by sections First through Fifth of Section 5.02(a) of the Indenture, which shall be funded into the Principal Account pursuant to the Indenture, as described in clause Sixth of "THE INDENTURE AND THE LOAN AGREEMENT – The Indenture – Application of Revenues" during the Mandatory Redemption Sweep Period, plus (3) from and after December 1, 2025, any Shortfall Sweep (as such term is defined below). Subject to the provisions of the following sentence, for each Mandatory Redemption Date, the maximum Mandatory Redemption Payment payable is (such maximum amount is referred to as the "Maximum Sweep \$3,750,000 Amount"). Commencing with the Mandatory Redemption Date occurring on December 1, 2025, if there are insufficient funds in the Principal Account such that the Mandatory Redemption Payment on a Mandatory Redemption Date is less than the Maximum Sweep Amount (such deficiency is referred to as the "Shortfall Sweep"), then the Maximum Sweep Amount for the immediately following Mandatory Redemption Date will be increased by the aggregate Shortfall Sweep for all Mandatory Redemption Dates occurring on or after December 1, 2025, provided that the Maximum Sweep Amount for any Mandatory Redemption Date will be increased by an amount (the "Maximum Shortfall Accrual Amount") not more than (i) \$1,125,000 for the Mandatory Redemption Dates falling on each of June 1, 2026 and December 1, 2026, and (ii) by an additional \$125,000 for each Mandatory Redemption Date thereafter.

## **Capitalized Interest Account**

Pursuant to the Indenture, the Bond Trustee will establish a Capitalized Interest Account that will be used to pay interest on the 2019 Subordinate Bonds. In connection with the issuance of the 2019 Subordinate Bonds, an amount sufficient to pay interest on the 2019 Subordinate Bonds through the Interest Payment Date of December 1, 2020 will be deposited in the Capitalized Interest Account.

## **Expected Flow of Funds for the 2019 Subordinate Bonds**

<sup>(1)</sup> This table only covers the period that the Borrower expects the 2019 Subordinate Bonds to be Outstanding. The 2019 Subordinate Bonds will mature on December 1, 2039.

(2) Net Distributable Cashflow is based on the amounts projected in the Financial Model (attached as APPENDIX G) and subject to the same assumptions and methodologies as those set forth in the Financial Model. Among such assumptions, the Borrower assumes that Plant Acceptance will occur in January 2020 and the Commercial Operations Date will occur in March 2020. Siempelkamp Germany has expressed its concern that these projected milestone dates are unrealistic. See "PROJECT CONSTRUCTION STATUS" above.

#### THE INDENTURE AND THE LOAN AGREEMENT

## **The Indenture**

The following description of the Indenture constitutes a summary of selected provisions thereof and should not be considered to be a full statement of the terms of such document. This description is qualified in its entirety by reference to the complete document. A draft form of Indenture is attached as APPENDIX B.

*Events of Default*. The following shall constitute Events of Default under the Indenture:

- *Failure to Pay Principal or Premium.* A default in the due and punctual payment of the principal of, or premium (if any) on, any 2019 Subordinate Bond when and as the same shall become due and payable, whether at maturity as therein expressed, by proceedings for redemption, by declaration or otherwise.
- *Failure to Pay Interest.* A default in the due and punctual payment of any installment of interest on any 2019 Subordinate Bond, when and as the same shall become due and payable.
- *Failure to Observe Covenants.* Failure by the Authority to perform or observe any of the covenants, agreements or conditions on its part in the Indenture or in the 2019 Subordinate Bonds, and the continuation of such failure for 30 days after written notice thereof, provided that the Bond Trustee, the Holders and Beneficial Owners will not unreasonably withhold an agreement to extend such period beyond 30 days if the default cannot be corrected within such period and corrective action is instituted within such period and diligently pursued until corrected.
- Loan Default Event. The occurrence and continuance of a Loan Default Event.

See "-Loan Agreement" for a description of the Loan Default Events.

**Remedies**. During the continuance of an Event of Default under the Indenture, unless the principal of all of the 2019 Subordinate Bonds has already become due and payable, the Bond Trustee, subject to the provisions of the Collateral Agency Agreement, may, and upon written request of the Holders or Beneficial Owners of not less than a majority in aggregate principal of the Outstanding 2019 Subordinate Bonds shall, promptly upon such occurrence, by notice in writing to the Authority and the Borrower, declare the principal of all the 2019 Subordinate Bonds then Outstanding, and the interest accrued thereon, due and payable, anything in the Indenture or the 2019 Subordinate Bonds contained to the contrary notwithstanding.

# Loan Agreement

The following description of the Loan Agreement constitutes a summary of selected provisions thereof, should not be considered to be a full statement of the terms thereof and is subject to, and qualified in its entirety by reference to, all of the provisions thereof, including the definitions therein of certain terms. The form of Loan Agreement is attached as APPENDIX C.

**Payment Obligations.** Payments under the Loan Agreement are the primary source of funds to pay debt service on the 2019 Subordinate Bonds. Until the principal of, premium, if any, and interest on the 2019 Subordinate Bonds have been fully paid or provision for such payment has been made as provided in the Indenture, the Borrower is obligated to pay the following amounts to the Bond Trustee as repayment of the indebtedness under the Loan Agreement: (a) on or before the third Business Day prior to each Interest Payment Date, an amount equal to the aggregate amount of interest coming due on the 2019 Subordinate Bonds on such Interest Payment Date (net of amounts in the Capitalized Interest Account or already held in the Interest Account to

be applied to such interest), (b) on or before one Business Day before the Interest Payment Date, any amount needed to restore the Reserve Fund to the applicable Reserve Fund Requirement and (iii) on or before three (3) Business Days prior to each Principal Payment Date, an amount equal to the aggregate amount of principal coming due to the 2019 Subordinate Bonds (whether at maturity or as a Mandatory Redemption Payment) on such Principal Payment Date (net of amounts already held in the Redemption Account or the Principal Account to be applied to such payments). *See* "THE 2019 SUBORDINATE BONDS – Redemption."

The obligations of the Borrower to make such payments pursuant to the Loan Agreement and to perform and observe the other agreements contained therein will be absolute and unconditional, irrespective of any defense or any rights of set-off, recoupment or counterclaim it might otherwise have against the Authority, and during the term of the Loan Agreement, the Borrower will agree to pay all payments required to be made under the Loan Agreement free of any deductions and without abatement, diminution or set-off. Until such time as the principal of, premium, if any, and interest on, the 2019 Subordinate Bonds has been fully paid, or provision for the payment thereof has been made as required by the Indenture, the Borrower (i) will not suspend or discontinue any payments provided for in the Loan Agreement; (ii) will perform and observe all of its other covenants contained in the Loan Agreement; and (iii) except as provided therein, will not terminate the Loan Agreement for any cause.

Covenants. The Loan Agreement includes numerous covenants, including, among others:

- *Cash Distribution Covenant.* The Borrower may not make any Distributions, without the prior written consent of Required Bondholders, unless at the time of such Distribution, no Incipient Default or Event of Default has occurred and is continuing nor would occur as a result of such Distribution.
- *No Assignment.* The rights and obligations of the Borrower under the Loan Agreement may not be assigned in whole or in part.
- *Enforcement of Project Documents.* The Borrower will use commercially reasonable efforts to enforce material covenants in Project Documents and will comply with its obligations under the Project Documents except to the extent that the failure to do so would not reasonably be expected to have a Material Adverse Effect.

*Events of Default*. The following shall constitute events of default under the Loan Agreement (each, a "Loan Default Event"):

- *Failure to Pay Principal or Interest.* A failure of the Borrower to make any payment of interest or principal or a mandatory payment, as required by the Loan Agreement.
- *Failure to Pay Certain Other Amounts*. A failure of the Borrower to pay certain fees, expenses or other costs under the Loan Agreement within 5 Business Days after written notice delivered to the Borrower of such failure.

- *Failure to Comply with Insurance.* A failure of the Borrower to observe and perform its obligations with respect to the insurance required by the Loan Agreement, which failures continues for a period of 10 Business Days after any Authorized Representative of the Borrower obtains actual knowledge of such failure.
- *Failure to Comply with Covenants.* A failure by any Borrower Party to perform or observe certain covenants, agreements or conditions in the Loan Agreement or the other Bond Financing Documents, which continues for a period of 30 days after written notice; provided that if the failure cannot be cured within such period and would not be reasonably likely to result in a Material Adverse Effect, such period will be extended if corrective action is instituted within such period and diligently pursued until the default is corrected, but such period shall in any event terminate before the earlier of any Material Adverse Effect shall have occurred and 180 days.
- *Inaccuracy of Representation or Warranty.* Any representation or warranty made by the Borrower in any Bond Financing Document or in any certificate or document delivered by the Borrower to the Bond Trustee or the Authority proves to have been incorrect in any material respect as of the date when made or deemed to be made.
- Default on Other Financial Indebtedness. The Borrower defaults in the performance of any obligation under or any payment when due of principal of or interest on any Financial Indebtedness (other than under the Subordinate Loan Obligations but inclusive of the Senior Bonds Obligations) under agreements or instruments involving in the aggregate in excess of \$1,000,000 (as adjusted pursuant to the Loan Agreement) beyond the grace period, if any, provided in the instrument or agreement under which such Financial Indebtedness was created and as a result thereof the maturity of such Financial Indebtedness has been accelerated.
- *Act of Bankruptcy.* An Act of Bankruptcy occurs with respect to the Borrower, provided, however, that an Act of Bankruptcy not commenced by the Borrower will only result in a Loan Default Event if the same remains undismissed, undischarged or unbonded for a period of 90 days;
- *Abandonment of Plant.* The Borrower abandons all or a substantial part of the Plant or otherwise ceases to develop, construct, operate or maintain the Plant, which abandonment or cessation will be deemed to have occurred if the Borrower fails, without reasonable cause, for 90 consecutive days to take any action to develop, construct, operate or maintain, as applicable, the Tax-Exempt Project;
- *Judgments.* A final judgment is entered against the Borrower for the payment of money in excess of \$1,000,000 (as adjusted pursuant to the Loan Agreement), or any non-monetary final judgment is entered against the Borrower which is reasonably likely to result in a Material Adverse Effect, and, in each case, if such judgment remains unsatisfied without any procurement of a stay of execution within 30 calendar days after the date of entry of judgment or at any time thereafter becomes unsatisfied and unstayed.

- Ineffectiveness of Collateral Instrument. Except in accordance with its terms or as permitted pursuant to the terms of the Bond Financing Documents, any Collateral Instrument or the Investors' Pledge Agreement is not or ceases to be effective to grant a lien on the Collateral described therein (other than on an immaterial portion thereof) or any lien on the Collateral is not or ceases to be perfected, in each case, as set forth in the Bond Financing Documents, or any Bond Financing Document to which the Borrower is a party or any material provision therein ceases to be in full force and effect, and such event continues for 30 days after the earlier of notice from the Bond Trustee to the Borrower and the Borrower having actual knowledge of such event.
- *ERISA Event*. An ERISA Event has occurred which, when taken together with all other such ERISA Events for which liability is reasonably expected to occur, could reasonably be expected to result in a Material Adverse Effect.
- *Failure to Meet Deadlines.* Failure to reach the Commercial Operations Date by June 17, 2021 (unless a Force Majeure Event has occurred, in which case before the Force Majeure Adjusted Date).
- Unauthorized Uses of Funds. Funds on deposit in any funds and accounts established under the Indenture are used or withdrawn other than for the purposes specified or as expressly permitted in the Bond Financing Documents, unless such occurrence is caused by an administrative error and is remedied within five Business Days after the Borrower obtains knowledge of the error.
- *Failure to Obtain Governmental Approvals.* Any Governmental Approval necessary for the execution, delivery and performance by the Borrower of the Bond Financing Documents and the other Transaction Documents or the ownership and operation of the Tax-Exempt Project by the Borrower is not obtained, maintained, or complied with, in each case, as and when required, and such failure would reasonably be expected to have a Material Adverse Effect, unless in each case such failure is remedied within 30 days after notice to the Borrower, or such longer period as is reasonably necessary under the circumstances to remedy such failure, but in any event before any Material Adverse Effect shall have occurred.
- Events Affecting Material Contracts or Finance Documents. (i) A Material Contract ceases to be valid and binding and in full force and effect (except in accordance with its terms) or is terminated prior to its expiration date, (ii) any material provision of a Material Contract is declared null and void in a legal proceeding, or (iii) the Borrower or any counterparty to a Material Contract denies in writing further liability or obligation under such Material Contract (unless such Material Contract has expired or otherwise terminated in accordance with its terms); provided, however, that there will be no Loan Default Event under this clause if, within 90 days of the effective date of any of the events described in (i), (ii) or (iii), the Borrower satisfies certain replacement provisions set forth in the Loan Agreement with respect to such Material Contract.

- *Material Company Act of Bankruptcy.* An Act of Bankruptcy occurs and is continuing with respect to a Material Company; provided, however, that there will be no Loan Event of Default if, with respect to the Material Contract as to which the Material Company is the counterparty, within ninety (90) days of the Act of Bankruptcy, the Borrower satisfies certain replacement provisions set forth in the Loan Agreement with respect to such Material Contract.
- Breach of Licensor's and Investors' Undertaking. Failure of any party to the Licensor's and Investors' Undertaking (other than the Collateral Agent) to observe any covenant required to be observed by it under the terms of the Licensor's and Investors' Undertaking beyond any applicable notice or cure period, which continues for a period of 30 days after written notice; provided that if the failure cannot be cured within such period and would not be reasonably likely to result in a Material Adverse Effect, such period will be extended if corrective action is instituted within such period and diligently pursued until the default is corrected, but such period shall in any event terminate before the earlier of any Material Adverse Effect shall have occurred and 180 days.
- *Indenture Event of Default.* An occurrence of an Event of Default under the Indenture.
- *Construction Surety*. A failure of (i) the Construction Surety to pay any valid claim under the Construction Bond, within the time period permitted under the terms of the Construction Bond, after due presentation to the Construction Surety of all documentation required under the terms of the Construction Bond or (ii) either of the SICO Guarantors to pay any valid claim under its respective SICO Guarantee, within the time period permitted under the terms of the applicable SICO Guarantee, after due presentation to the applicable SICO Guarantee.

**Remedies.** If a Loan Default Event occurs and is continuing as a result of an Act of Bankruptcy the unpaid balance of principal and interest required under the Loan Agreement shall be due and payable immediately. If any other Loan Default Event occurs and is continuing the Bond Trustee may declare the unpaid balance of principal and interest required under the Loan Agreement due and payable immediately and may instruct the Collateral Agent, in accordance with the Collateral Agency Agreement, to take any action necessary to exercise its rights, remedies, powers and discretions under the Bond Financing Documents. The Bond Trustee's rights, powers and remedies under the Loan Agreement against the Borrower and the Collateral are limited in material respects by the provisions of Article X of the Collateral Agency Agreement. In addition, upon any Loan Default Event, the Bond Trustee will be permitted to foreclose upon the collateral provided by the Investors' Pledge Agreement, which consists of not less than 75% ownership interest in Holdco, which would cause the Bond Trustee to assume full control of Holdco and entitle the Bond Trustee to all revenues of Holdco, in each case until the retirement of the 2019 Subordinate Bonds.

#### **INVESTMENT CONSIDERATIONS AND RISK FACTORS**

Although the Borrower believes that the risks and uncertainties described below are the most material risks and uncertainties, they are not the only risks and uncertainties the Borrower or investors may face. Additional risks and uncertainties not presently known to the Borrower or that it currently deems immaterial may also have a material adverse effect on its business, results of operations or financial condition and may negatively affect the market value of the 2019 Subordinate Bonds. The sequence in which these risks are presented in no way reflects any order of importance, chance or materiality.

#### **Subordination Risk**

The 2019 Subordinate Bonds are subordinated to the Senior Bonds. Except as otherwise provided in the Collateral Agency Agreement, prior to the date on which all of the Senior Bonds have been paid in full in cash (or otherwise deemed satisfied under the terms of the Senior Bond Indenture), the Bond Trustee is not permitted to accept or receive payments of any kind or character from any Borrower Party, provided that the Bond Trustee is entitled to receive payment exclusively from the Separate Collateral. If the Senior Bonds are accelerated following an Event of Default and such acceleration is not rescinded, no payments of interest on and principal of any 2019 Subordinate Bonds will be made until all of the Senior Bonds have been paid in full (or otherwise deemed satisfied under the terms of the Senior Bond Indenture). In addition, if a Senior Bond Event of Default, the Collateral Agent is required to take instructions only from the Senior Indenture Trustee. If remedial action is taken against the Shared Collateral (including the Subordinate Bonds Proceeds Account), the Holders of the 2019 Subordinate Bonds will not be entitled to any proceeds of the sale of (or other realization against) the Shared Collateral until the Senior Bonds have been paid in full (or otherwise deemed satisfied under the terms of the Senior Bonds the Senior Collateral until the Senior Bonds have been paid in full (or otherwise deemed satisfied under the terms of the Senior Bonds have been paid in full (or otherwise deemed satisfied under the terms of the Senior Bonds have been paid in full (or otherwise deemed satisfied under the terms of the Senior Bonds have been paid in full (or otherwise deemed satisfied under the terms of the Senior Bonds have been paid in full (or otherwise deemed satisfied under the terms of the Senior Bond Indenture).

#### **Construction of the Plant**

The completion of the Plant, as with any major construction effort, involves many risks, including the possibility of cost increases, delays and other adverse effects resulting from, among other things, (a) design or construction problems, including design defects or omissions, and resulting change orders; (b) subsurface conditions, concealed or unknown conditions or other site or safety and health conditions; (c) geological or geotechnical problems, including, without limitation, settlement or expansion of the soil underneath the improvements, erosion of the soil on the Site, or ground water levels underneath the Site; (d) environmental conditions or compliance with environmental laws and regulations; (e) utility relocation problems; (f) labor or material price increases, shortages or interruptions; (g) permitting and governmental approval issues, including the inability to obtain or renew necessary permits; (h) inclement or severe weather conditions; (i) occurrence of a casualty, or damage or destruction of completed or partially completed work; (j) discovery of artifacts, fossils or relics that must be preserved and compliance with historic preservation laws and related agreements with historic preservation authorities; (k) discovery of endangered or threatened species protected under federal or state law; (l) changes in laws; and (m) other *force majeure* events.

The Borrower will depend on Siempelkamp USA, Phoenix and ILB to construct the Plant and on Siempelkamp Germany to supply certain equipment in order for the construction of the Plant to be completed on schedule. The construction of the Plant could be materially disrupted if Siempelkamp USA, Phoenix, ILB or Siempelkamp Germany do not or cannot perform their obligations under their contracts with the Borrower. This could include the following circumstances:

- Any of Siempelkamp USA, Phoenix, ILB or Siempelkamp Germany could encounter bankruptcy, insolvency or financial difficulties that could impact its ability to perform its obligations under its respective contract with the Borrower.
- Any of Siempelkamp USA, Phoenix, ILB or Siempelkamp Germany could fail to perform their obligations under the Installation Contract, the Phoenix Contract, the ILB Contract, the Siempelkamp Equipment Supply Contract or the Additional Supply Agreement.
- The remaining equipment to be delivered from overseas under the Additional Supply Agreement could not clear customs as expected. Although Siempelkamp Germany is responsible for the delivery to the Site of all of the equipment remaining to be delivered under the Additional Supply Agreement, the Borrower is responsible for clearing customs. If the Borrower encounters problems in clearing customs, any related delay could entitle Siempelkamp USA to an extension of time to complete the Plant, delay the commencement of operations, and increase the cost of construction of the Plant.
- The process equipment could not perform as expected and there is no adequate remedy to the Borrower. If the process equipment does not work as expected, the Borrower would be limited to the liquidated damages and other remedies set forth in the Siempelkamp Equipment Supply Contract, which may not be sufficient to complete the Plant.
- The Borrower, Siempelkamp USA, Phoenix, ILB or Siempelkamp Germany may encounter problems in coordinating the construction of the Plant and installation of the Siempelkamp Equipment. Siempelkamp USA is responsible under the Installation Contract for the installation in the main production building of the Siempelkamp Germany supplied equipment. Under the Siempelkamp Equipment Supply Contract, Siempelkamp Germany is required to supervise the installation of the Siempelkamp Equipment, and the Borrower is required to ensure that the instruction of Siempelkamp Germany's expert personnel are followed during installation, commissioning and testing. Although both the Installation Contract and the Siempelkamp Equipment Supply Contract include provisions that are intended to facilitate cooperation and coordination among the owner and the prime contractors, no assurance can be given that there will not be disputes among the Borrower, Siempelkamp USA and Siempelkamp Germany regarding responsibility or liability for defects and deficiencies in the Plant.
- Siempelkamp USA, Phoenix, ILB or Siempelkamp Germany or the Borrower could encounter disputes or litigation from their vendors or subcontractors that could result

in mechanic or statutory liens and that could cause a delay in the construction of the Plant.

Siempelkamp Germany has delivered bank guarantees intended to provide limited support for certain obligations of Siempelkamp Germany pursuant to the Siempelkamp Equipment Supply Contract and the Additional Supply Agreement. Such bank guarantees are of limited value because (a) the potential liability of the bank is limited to a small percentage of the applicable agreement's contract price, and (b) the guarantees only relate to specific limited obligations of Siempelkamp Germany and do not provide a broad guaranty of performance by Siempelkamp Germany. In addition, the banks providing the support are located in Germany and the guarantees specifically provide that they are governed by German law and any enforcement of the guarantees must be accomplished in Germany. No party to the transaction is providing an enforceability opinion on the guarantees.

Additionally, if any significant cost increases or delays in the construction of the Plant occur, the Borrower will depend on the availability of its sources of funds for cost overruns, including the Committed Equity. The Borrower anticipates having available contingency funds of approximately \$33 million. In the event cost overruns exceed contingent financial resources, sufficient funds may not be available to complete construction of the Plant. Neither Holdco nor any of its members is obligated to contribute additional equity to complete the Plant.

# **Operating Risk**

The Borrower has no operating history with the Project and is not expected to have any material assets or revenues, other than the Project and revenues derived therefrom. The projected results cannot be validated by historical results. Accordingly, timely payment of debt service of the 2019 Subordinate Bonds depends on projected and assumed results which may not materialize. As with any plants of similar size and nature, the Plant's operations could be affected by many factors, including start-up problems, the breakdown or failure of equipment or processes, the performance of the Plant below expected levels of output or efficiency and labor disputes. Here are some of the risks that the Borrower may encounter in its operations.

- Uncontrollable and unpredictable macroeconomic developments may place downward pressure on demand for and prices of MDF. Many unforeseeable events, including fluctuations in unemployment, consumer confidence, economic growth, exchange rates, and other domestic, regional, and international economic and political developments, as well as international terrorism and actions by various government agencies in response to terrorism, may cause sharp changes in housing starts, consumer purchasing patterns, and revenue generated by MDF manufacturers.
- The Borrower may not produce the expected quality or quantity of MDF using rice straw as its feedstock. The Borrower believes that rice straw has never before been used to produce MDF on commercial scale and the Plant will be the first in the world to do so. The Borrower has conducted successful MDF board manufacturing trials at multiple industry-accredited laboratories and pilot plants located in several different countries including the U.S.; however, there is no certainty that the technology will work on a large scale, which could have a material impact on the Borrower.

- *MDF produced from rice straw is a new product in the market.* The Borrower believes that rice straw has never before been used to produce MDF on a commercial scale and the Plant will be the first in the world to do so. The Borrower has consulted with many potential customers and expects the market to quickly accept the new product as equal or superior to MDF produced from wood fiber. However, there is no certainty that the market will accept large volumes of MDF produced from rice straw, and, if the market does not, it would have a material impact on the Borrower.
- The Borrower's access to rice straw or resin at expected prices may become limited. The ability of the Borrower to operate depends on its ability to obtain rice straw and MDI resin at expected prices. The Borrower has entered into fixed-price rice straw supply contracts with six local and regional baling and transaction companies that the Borrower expects will meet its rice straw needs during the duration of such contracts, which expire in 2034. However, the Borrower will depend on the financial solvency of those companies, the performance by those companies under those contracts and the general availability of rice straw near the Plant in order to secure rice straw at expected prices. The supply of rice straw may be reduced or the demand may be increased by many factors, including poor rice harvests, water supply disruptions, farmer's crop selection and planting decisions, weather, and crop disease, discovery of new uses for the straw, and changes in regulation. Low allocations of water as a result of the current or future California droughts could result in reduction of the California rice crop. The Borrower would consume rice straw from approximately 20% of the currently annually planted rice acreage in the Sacramento Valley to meet its maximum annual design production capacity requirement, and there is no assurance that the Borrower would be able to find a suitable replacement source for its supply of rice straw if the supply of rice straw in Sacramento Valley declined or if there were other economic means for rice farmers to dispose of their rice straw.

The Borrower has executed a resin supply contract with Huntsman that expires in December 31, 2019 under which the price of MDI is calculated using a fixed formula. The resin supply contract is automatically renewed for successive calendar year periods unless notice of non-renewal is delivered by either the Borrower or Huntsman on or before September 30 of the calendar year prior to the year of the renewal term. After the expiration of the resin supply contract, the Borrower will be subject to volatility in the market price for MDI resin. After expiration of the contract with Huntsman, there is a risk that the Borrower may not be able to obtain MDI resin in amounts and at prices sufficient to permit the Plant's profitable operation.

• Competitors use the Borrower's technology to compete with the Project. When the Patent expires in December 2021 or if it is earlier determined to be invalid or is not enforced effectively, then the Borrower may face increased competition from other MDF manufacturers. Much of the Project's competitive advantage is its ability to manufacture MDF with low feedstock costs in a location much closer to California MDF markets than its competitors. If the Borrower's protections under the Patent are no longer available to it, a competitor may build a competing plant that attempts to take advantage of the same opportunity, which could harm the Borrower's financial opportunity. This competition could result in: an increased demand for rice straw; an

increase in the price of rice straw supply; and increased number of competing products on the market that are priced lower than the Borrower's other wood-based MDF competitors. Each of these outcomes could challenge the Borrower's ability to generate the revenues it has forecasted. In addition, competitors might avoid infringement by designing around the Borrower's intellectual property rights or by developing noninfringing competing technologies.

In addition, Licensor will license the Patent to the Borrower on a non-exclusive basis under the License Agreement, and in the License Agreement and Licensor's and Investors' Undertaking will agree to not grant any third party a license under the Patent to make medium density fiberboard within the Licensed Territory. Any plant that Licensor licenses outside of those states could also compete against the Borrower using the technology protected by the Patent.

- The Borrower may become subject to a claim that it infringes a third party's intellectual property rights. A third party could allege that the Borrower is infringing or misappropriating its intellectual property. Any dispute or litigation regarding intellectual property could be costly and time-consuming due to the uncertainty of intellectual property litigation. The Borrower's intellectual property portfolio may not be useful in asserting a counterclaim, or negotiating a license, in response to a claim of infringement or misappropriation. In addition, as a result of such claims of infringement or misappropriation, the Borrower could lose its rights to critical technology, be unable to license critical technology or sell critical products, be required to pay substantial damages or license fees with respect to the infringed rights or be required to redesign its products or processes at substantial cost, any of which could adversely impact the Borrower's competitive position and financial statements.
- *The Borrower has limited control of energy costs.* Energy (electricity and natural gas) will be a significant factor in the production process from preparing rice straw to operating finishing equipment. While the Borrower's state-of-the-art machinery is the most energy-efficient equipment that is available, electricity prices and gas prices have been volatile in recent years and, if energy prices were to exceed those forecasted, operating margins would be adversely affected.
- *The Borrower may have difficulties in maintaining its machinery and equipment.* The Plant relies extensively upon machinery and equipment to produce MDF. Parts and components will need to be replaced or repaired from time to time. The Borrower plans to keep spare parts on site in an effort to expedite repair and replacement. However, major damage or breakdowns caused by unforeseen conditions or events could result in cessation or production, which in turn could adversely affect the Borrower's ability to produce its MDF product and generate revenues.
- The Borrower may have difficulties in attracting and retaining skilled production, maintenance, supervisory, and administrative personnel. While the Borrower intends to offer wages, benefits, and working conditions that are very competitive for industrial jobs in rural northern California, it is possible that the mill will experience difficulties in attracting and retaining sufficient skilled production, maintenance, supervisory, and

administrative personnel to operate the plant at peak efficiency. It is possible that certain employees could choose to organize collective bargaining units and that work stoppages or other industrial actions could eventually result.

- The Borrower may have difficulties in attracting and retaining necessary senior executives. The operation of the Borrower's business depends on the ability to attract and retain senior executives who have the necessary experience and expertise to manage and operate the business. The Borrower has entered into employment agreements with certain key executives who have worked together for many years for CalAg, LLC. The background of the current key executives of the Borrower is described below under "Ownership and Management—Borrower Management Team." The loss of any one of the key executives could have a material adverse effect on the Borrower's operations and financial performance. The Borrower does not maintain key man life insurance on the management team.
- The Plant can suffer damage from a casualty event and not have sufficient • insurance. The occurrence of natural disasters and other casualty events, such as damaging storms, floods, fires, explosions, droughts or earthquakes, among other events, could damage the Borrower's facilities, affect raw material and energy supplies, interrupt services and distribution of product or otherwise impair operations and the ability of the Borrower to produce revenues. The Borrower intends to maintain property and casualty insurance insuring the Plant against certain events of casualty. In the event of such a casualty, the Collateral Agent will have the first claim on and the ability to control the disbursement of available insurance proceeds pursuant to the Collateral Agency Agreement. It is possible that, in the event of casualty, such insurance proceeds will be insufficient to either cause the Plant to be rebuilt or repay the 2019 Subordinate Bonds. The Borrower expects to have business interruption insurance covering a period of twelve months, but if production is halted for an extended period of time or for a reason not covered by such insurance, or if this insurance is inadequate, there may be a material adverse effect on the operations, cash flows and financial performance of the Borrower.

# **Market for MDF**

If the MDF industry significantly declines, the Borrower's ability to generate revenues may be materially impaired because the Borrower will depend on only the production and sale of MDF to generate revenues. The demand for consumer goods, including MDF, is affected by the general economic conditions of the nation as a whole and by the economic conditions in the region where they are marketed. During times of depression or recession, the demand for and prices of consumer goods generally decline. While MDF prices held up reasonably well through the most recent economic downturn starting in 2008, this may not be true with future economic declines. Any material decline in the MDF market will likely materially adversely affect the financial condition of the Borrower.

The Borrower has entered into an exclusive 22-year agreement with CFP, under which CFP agrees to purchase the Guaranteed Annual Amount of the Plant's potential production capacity (as described above under "THE PROJECT – Plant Operation, Staffing and Maintenance"), and to use

its sales force in conjunction with that of the Borrower to market the Borrower's MDF. The Borrower's financial performance depends in large part upon the success, competence, and financial health of CFP. The Borrower's revenues could be detrimentally affected if CFP or another customer should breach its agreement with the Borrower, encounter financial difficulties, or for any reason be unable to pay its debts as such debts come due for payment. Furthermore, should CFP become a debtor in a bankruptcy case, it might reject the 22-year agreement in which instance that agreement could be treated as breached and CFP could be relieved of any further obligation to purchase product from the Borrower or to pay any guaranteed amount.

## Competition

The Borrower's business model depends on using its perceived competitive advantages over other competing MDF plants. These include the use of rice straw as a less expensive feedstock, its proximity to the California markets, and its capacity to produce thin MDF, which sells at a premium price. If other MDF producers develop competitive advantages that undermine these perceived advantages, the Borrower's ability to compete in the MDF market and to generate revenues may be adversely affected. This could include the construction of an MDF plant with comparable proximity to the California MDF market, the development of technology that allows other MDF producers to use less expensive feedstocks, a reduction in the cost or increase in availability of wood-based feedstocks, or the development of other products that compete with the MDF products of the Borrower.

## **Limitations on Recourse**

Satisfaction of all obligations of the Borrower under the Loan Agreement will be solely from the Borrower and the Collateral. There is no recourse whatsoever for any liability or claim for a Loan Default Event or any failure of the Borrower to perform is obligations under the Bond Financing Documents to or against any assets or properties of any affiliate of the Borrower (other than the membership interests in the Borrower that constitute a portion of the Collateral) or any of their respective officers, directors, employees, incorporators or stockholders, partners or members.

THE 2019 SUBORDINATE BONDS ARE LIMITED OBLIGATIONS OF THE AUTHORITY PAYABLE SOLELY FROM CERTAIN REVENUES, CONSISTING OF LOAN REPAYMENTS MADE BY THE BORROWER UNDER THE LOAN AGREEMENT, AND SEPARATELY SECURED BY A PLEDGE AND LIEN ON THE SITE, THE PLANT AND THE OTHER COLLATERAL.

NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF OR ANY LOCAL AGENCY IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF, PREMIUM, IF ANY, OR INTEREST ON THE 2019 SUBORDINATE BONDS. THE AUTHORITY HAS NO TAXING POWER.

# **Enforcement of Remedies**

The obligation of the Borrower to make payments under the Loan Agreement in amounts sufficient to pay the 2019 Subordinate Bonds are limited by bankruptcy, insolvency,

reorganization, moratorium, fraudulent conveyance or other similar laws and by equitable principles affecting the enforcement of creditors' rights.

*Limitations under Bankruptcy and Other Laws*. The obligations of the Borrower under the Loan Agreement with respect to the 2019 Subordinate Bonds are secured only by liens on the Borrower's real estate, equipment, membership interests in the Borrower and other assets and subject to certain permitted liens. Enforcement of the remedies available to Bondholders, through the Bond Trustee or Collateral Agent, either under the Collateral Instruments under the terms of the Collateral Agency Agreement or under applicable law may be limited, delayed or eliminated altogether in the event the Borrower were to become a debtor in a case filed pursuant to Title 11 of the United States Code (the "Bankruptcy Code"), or pursuant to other state or federal laws affecting creditors' rights. Those rights might also be substantially delayed and subject to judicial discretion in the event of litigation or the required use of statutory remedial procedures.

The various legal opinions to be delivered concurrently with the delivery of the 2019 Subordinate Bonds will be qualified as to the enforceability of the various legal instruments by limitations imposed by state and federal law, rulings and decisions affecting equitable remedies and by bankruptcy, reorganization, insolvency or other similar laws, whether general or specific in nature, affecting the enforcement of creditors rights.

**Bankruptcy of the Borrower**. The filing by, or against, the Borrower for relief under the Bankruptcy Code could cause delays or reductions in payments to the holders of the 2019 Subordinate Bonds. The filing would operate as an automatic stay of the commencement or continuation of any judicial or other proceeding against the Borrower and any interest it has in property. The effect of the automatic stay could delay payments to Bondholders.

If a bankruptcy court so ordered, the Borrower's property, including its revenues, could be used for the benefit of the Borrower despite the rights granted to the Bond Trustee for the benefit of the Bondholders under the Deed of Trust or any other Collateral Instrument, the Loan Agreement or the Indenture, or other documents executed in respect of the 2019 Subordinate Bonds, subject to the rights available to secured creditors, if any, to "adequate protection" for diminution of relevant collateral (discussed below in this section). If the Borrower were to be liquidated in a chapter 7 or 11 case under the Bankruptcy Code, either piecemeal or by the sale of all of its assets under the Bankruptcy Code's Section 363, then Bondholders could realize less than payment in full of the 2019 Subordinate Bonds because the assets so liquidated could produce net proceeds that are less than sufficient to pay in full all of the obligations secured by those assets.

In a case under chapter 11 of the current Bankruptcy Code, the Borrower and, in certain circumstances another party, could file and seek to confirm a plan of reorganization. The plan is the vehicle for satisfying, and provides for the comprehensive treatment of, all claims against the Borrower, and could result in the modification of rights of Bondholders. To confirm a plan of reorganization, with one exception discussed below, it must be approved by the vote of each class of impaired claims and interests. A class approves a plan if, of those who vote, those holding more than one-half in number and two-thirds in amount vote in favor of the plan. Approval by classes of interests, such as equity interests or member interests, requires a vote in favor of the plan by two-thirds in amount of the interests. If these levels of votes are attained, those voting against the plan or not voting at all are nonetheless bound by the terms thereof. Other than as provided in the

confirmed plan, all claims and interests against or in the Borrower are discharged and extinguished. If less than all of the impaired classes accept the plan, the plan may nevertheless be confirmed by the bankruptcy court, and the dissenting claims and interests would be bound thereby. For this to occur, one of the impaired classes must vote to accept the plan and the bankruptcy court must determine that the plan does not "discriminate unfairly" and is "fair and equitable" with respect to the nonconsenting class. A plan is fair and equitable if each class is treated in accordance with its credit priority and no class receives a distribution until classes senior to it are paid in full. The Bankruptcy Code establishes different fair and equitable tests for secured claims and interest holders. To be confirmed, the bankruptcy court must also determine that the plan, among other requirements, provides creditors with more than would be received in the event of liquidation, is proposed in good faith, and the debtor's future projected performance is feasible. Therefore, it is possible that a plan of reorganization could be confirmed without acceptance by the class that contains the claims of Bondholders, and such a plan could delay or reduce payments to Bondholders.

In a Borrower chapter 11 bankruptcy proceeding, a plan of reorganization could be confirmed that modifies the rights of creditors generally, or any class of creditors, secured (such as the Bond Trustee and, therefore, the Bondholders) or unsecured. In addition, if a bankruptcy court concludes that the holders of the 2019 Subordinate Bonds are "adequately protected," it may (1) substitute other security for the property presently pledged to secure payment of the 2019 Subordinate Bonds, and (2) subordinate the liens of the Deed of Trust and any other Collateral Instrument to: (a) claims by persons supplying goods and services to the Borrower after its filing in bankruptcy, (b) other such "administrative expenses" of the bankruptcy proceeding, and (c) a lien that under certain circumstances may be granted to a lender that provides funds to the Borrower during the pendency of the bankruptcy case. A bankruptcy court also has the power to invalidate or otherwise not enforce certain provisions of, among other instruments, the Collateral Agency Agreement, the Deed of Trust and any other Collateral Instrument. Furthermore, it is possible that a plan of reorganization could be confirmed that does not adhere to the provisions of the Collateral Agency Agreement.

Also, in a bankruptcy proceeding where the Borrower is the debtor, the Bond Trustee, the Collateral Agent and the holders of the 2019 Subordinate Bonds may only receive post-petition interest on their claims to the extent the value of their security exceeds the amount of their claims or to the extent the Borrower is solvent.

**Bankruptcy of Licensor**. Should the Licensor become a debtor in a bankruptcy case, it is possible that the License Agreement could be considered an executory contract and subject to rejection. Should rejection of the license agreement take place, under the Section 365(n) of the Bankruptcy Code, as it is presently composed, the Borrower will have the right to (a) elect to treat the License Agreement as terminated or (b) retain its rights under the License Agreement as they existed immediately before the bankruptcy filing with respect to U.S. patents, but arguably such rights will not extend to non-U.S. patents nor to any trademarks. If the Borrower elects under Section 365 of the Bankruptcy Code to retain its rights under the License Agreement, those rights will be limited to those that existed immediately before the date of the bankruptcy filing, and the Borrower will have to perform its obligations under the License Agreement, but the Licensor will not be required to continue performing its future obligations as set forth in the License Agreement, such as maintenance, technology updates or similar services. In addition, under Sections 363(b)

and (f) of the Bankruptcy Code, the Licensor could potentially seek to sell its intellectual property free and clear of any interest in such intellectual property, including the License Agreement and Borrower's rights under Section 365(n) of the Bankruptcy Code, after notice and a hearing (with the U.S. Bankruptcy Court's approval). The ability of a debtor in a bankruptcy case to sell intellectual property assets free and clear of a licensee's rights under Section 365(n) of the Bankruptcy Code, and real property under an analogous provision of the Bankruptcy Code free and clear of leases in the real property, remains the subject of debate among the courts and commentators. A few recent decisions suggest that the debtor does not have the right to sell free and clear of the licensee's rights under Section 365(n) over the objection of the non-debtor licensee. However, given the current state of the law, it is difficult to predict how any Bankruptcy Court would rule on this issue and, given the uncertainty, the limited decisions of the Bankruptcy Courts on this topic are often the subject of appeals. In addition, the Licensor will agree in the License Agreement and in the Licensor's and Investors' Undertaking not to grant any third party a license under the Patent to make medium density fiberboard within the Licensed Territory. If the Licensor becomes a debtor in a bankruptcy case, it is possible that this undertaking by the Licensor and the restrictions noted above could be rejected or deemed to be unenforceable in bankruptcy and thereafter relieve the Licensor of any of these restrictions.

Limited Value of Collateral. If the Collateral Agent were to foreclose on the collateral held by the Collateral Agent and securing the 2019 Subordinate Bonds, the proceeds from any such foreclosure would first be applied to the retirement of the Senior Bonds, and might be insufficient to retire the 2019 Subordinate Bonds in full. The facilities of the Borrower will not be general purpose facilities, will be specifically constructed to suit the specific production needs of the Borrower and would be of limited utility for purposes other than those for which they are intended and will likely be unsuitable for other industrial or commercial uses. As a result, in the event of a default by the Borrower under the Deed of Trust, the number of entities that could be expected to purchase or lease the Site and the Plant in the event of foreclosure may be limited. The ability of the Collateral Agent to realize funds from the sale or rental of the Site and the Plant following an event of default may be limited, and such proceeds will likely be less than the amount of the Senior Bonds and the 2019 Subordinate Bonds then outstanding. Foreclosure proceedings may also be subject to substantial delays. Attempts to foreclose on commercial property are frequently met with defensive measures such as protracted litigation and bankruptcy proceedings, and such defensive measures will greatly increase the expense and time involved in achieving such foreclosure or other realization. The net proceeds received by the Collateral Agent at foreclosure may thus be further reduced as a result of such procedural difficulties and delay and may be less than the principal amount of the Senior Bonds and the 2019 Subordinate Bonds then outstanding. If the Bond Trustee were to foreclose on the membership interests in Holdco that are the subject of the Investors' Pledge Agreement, although the proceeds from any such foreclosure would be available only for the retirement of the 2019 Subordinate Bonds (and not the Senior Bonds), the proceeds from any such foreclosure might be insufficient to retire the 2019 Subordinate Bonds in full. The value of the collateral pledged under the Investors' Pledge Agreement is the value of the equity in Holdco, and in the event of a default under the Investors' Pledge Agreement, the equity in Holdco will likely have value that will likely be less than the value of the 2019 Subordinate Bonds then outstanding. In addition, in the event of a taking (A) of the Plant, or (B) of all or part of the Site utilized by the Plant but not the Plant itself, there can be no assurance that the proceeds or damages, as the case may be, of such taking will be adequate to pay the principal of, premium, if any, or interest on the Senior Bonds and the 2019 Subordinate Bonds.

*Site Conditions*. While a Phase I Environmental Site Assessment was conducted by the Borrower in January 2014, which identified no recognized environmental conditions expected to have a significant environmental impact, and an Environmental Impact Statement was prepared in July 2000, which contained a negative declaration, indicating there is no substantial evidence that the Project or any of its aspects could result in significant adverse environmental impacts, the Borrower has not allocated any money for any environmental problems at the Site could adversely affect the value of the Collateral Agent's security interest in the Plant. While the Borrower has entered into an Environmental Indemnity Agreement in favor of the Collateral Agent, there can be no assurance that the Borrower will have the resources to honor its obligations under the Environmental Indemnity Agreement in the event of a substantial claim thereunder.

*Risks Related to Governmental Regulation, Approvals and Permits*. While the Borrower has secured all permits necessary for the Plant to its current state of completion and expects that it, or its contractor, can obtain any further permits necessary for the Plant without material cost or delay, the Borrower has not yet obtained all permits necessary to operate the Plant, nor undergone regulatory inspections to allow for such operation, and there is no guarantee that there will not be a cost or time delay associated with such. Additionally, legislative, regulatory, administrative or enforcement actions, including, without limitation, a change in law or technology that imposes more comprehensive or stringent requirements or redefines what satisfies the Maximum Achievable Control Technology standard under the Clean Air Act, 42 U.S.C. § 7401, et. seq., could adversely affect the operation of the Plant.

# **Risks Related to Tax Exemption**

Under certain circumstances, interest on the 2019 Subordinate Bonds could become includable in gross income for federal income tax purposes. See "TAX MATTERS." Furthermore, the occurrence of certain events, or the failure of the Borrower to comply with certain covenants contained in the Loan Agreement, may result in the interest on the 2019 Subordinate Bonds being includable in gross income for federal income tax purposes from the date the 2019 Subordinate Bonds were first issued.

Current and future legislative proposals, if enacted into law, clarification of the Internal Revenue Code of 1986 (the "Code") or court decisions may cause interest on the 2019 Subordinate Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any legislative proposals or clarification of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the 2019 Subordinate Bonds. If the tax-exempt status of the 2019 Subordinate Bonds is affected by any future change of law, it will have no impact on the interest rate on the 2019 Subordinate Bonds and there will be no increase in the interest rate on the 2019 Subordinate Bonds as a result of any such change.

The Internal Revenue Service ("IRS") has an active enforcement program which examines tax-exempt bonds. No assurance can be given that the IRS will not examine a Bondholder, the Borrower or the 2019 Subordinate Bonds. If such an examination were to occur, it could have an

adverse impact on the marketability and price of the 2019 Subordinate Bonds and could lead to claims by the IRS for payment of substantial amounts to resolve any issue.

## **Risks Related to Lack of Liquidity and Restrictions on Transferability**

The 2019 Subordinate Bonds are a new issue of securities for which there is currently no public market. Because of the lack of credit rating and the lack of probability that an active or sustained trading market for the 2019 Subordinate Bonds. The Underwriters are not obligated to make any market with respect to the 2019 Subordinate Bonds. Accordingly, there can be no assurance that a secondary market for the 2019 Subordinate Bonds will develop. If a secondary market for the 2019 Subordinate Bonds for an extended period of time.

As described in "Notice to Investors," during the Restricted Period, 2019 Subordinate Bonds may only be resold to Qualified Purchasers, provided that the Bond Trustee and the Initial Purchasers of the 2019 Subordinate Bonds shall have no obligation to independently establish or confirm that any transferee meets the definition of Qualified Purchaser, which restriction will limit the ability of investors to transfer 2019 Subordinate Bonds subsequent to their purchase. Consequently, such holders may not be able to liquidate their investments readily. The 2019 Subordinate Bonds should therefore be considered long-term investments in which funds are committed to maturity or until earlier mandatory sinking fund redemption. The forms of the Authority Investor Letter and Borrower/Underwriters Investor Letter that will be required of all initial purchasers of the 2019 Subordinate Bonds from the Underwriters are included in Appendix I hereto.

### **CONSTRUCTION MONITOR MEMORANDUM**

Harris has completed a review of the construction of the Plant and has issued its Independent Construction Monitor Memorandum (the "Construction Monitor Memorandum"), which is attached as Appendix L hereto. The Construction Monitor Memorandum reviews the construction status and schedule to First Board and provides an opinion that, barring any unforeseen circumstances, the Project should achieve First Board by the end of November 2019. See "APPENDIX L – CONSTRUCTION MONITOR MEMORANDUM."

## INDEPENDENT CONSULTANT'S REPORT

# **SVC Report**

SVC has completed a review of the changes to the Plant and has issued its SVC Report, which is attached as Appendix M hereto. The SVC Report outlines the major design changes, the reasons for making the changes and the related benefits of the changes. See "APPENDIX M—THE SVC REPORT."

### **TAX MATTERS**

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority ("Bond Counsel"), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the 2019 Subordinate Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the "Code"), except that no opinion is expressed as to the status of interest on any 2019 Subordinate Bond for any period that such 2019 Subordinate Bond is held by a "substantial user" of the facilities financed or refinanced by the 2019 Subordinate Bonds or by a "related person" within the meaning of Section 147(a) of the Code. Bond Counsel observes, however, that interest on the 2019 Subordinate Bonds is a specific preference item for purposes of the federal alternative minimum tax. Bond Counsel is also of the opinion that interest on the 2019 Subordinate Bonds is exempt from State of California personal income taxes. A complete copy of the proposed form of opinion of Bond Counsel is set forth in Appendix J hereto.

To the extent the issue price of any maturity of the 2019 Subordinate Bonds is less than the amount to be paid at maturity of such 2019 Subordinate Bonds (excluding amounts stated to be interest and payable at least annually over the term of such 2019 Subordinate Bonds), the difference constitutes "original issue discount," the accrual of which, to the extent properly allocable to each Beneficial Owner thereof, is treated as interest on the 2019 Subordinate Bonds which is excluded from gross income for federal income tax purposes and State of California personal income taxes. For this purpose, the issue price of a particular maturity of the 2019 Subordinate Bonds is the first price at which a substantial amount of such maturity of the 2019 Subordinate Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the 2019 Subordinate Bonds accrues daily over the term to maturity of such 2019 Subordinate Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such 2019 Subordinate Bonds to determine taxable gain or loss upon disposition (including sale, redemption, or payment on maturity) of such 2019 Subordinate Bonds. Beneficial Owners of the 2019 Subordinate Bonds should consult their own tax advisors with respect to the tax consequences of ownership of 2019 Subordinate Bonds with original issue discount, including the treatment of Beneficial Owners who do not purchase such 2019 Subordinate Bonds in the original offering to the public at the first price at which a substantial amount of such 2019 Subordinate Bonds is sold to the public.

2019 Subordinate Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) ("Premium 2019 Subordinate Bonds") will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, like the Premium 2019 Subordinate Bonds, the interest on which is excluded from gross income for federal income tax purposes. However, the amount of tax-exempt interest received, and a Beneficial Owner's basis in a Premium 2019 Subordinate Bond, will be reduced by the amount of amortizable bond premium properly allocable to such Beneficial Owner. Beneficial Owners of Premium 2019 Subordinate Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

The Code imposes various restrictions, conditions and requirements relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the 2019 Subordinate Bonds. The Authority and the Borrower have made certain representations and covenanted to comply with certain restrictions, conditions and requirements designed to ensure

that interest on the 2019 Subordinate Bonds will not be included in federal gross income. Inaccuracy of these representations or failure to comply with these covenants may result in interest on the 2019 Subordinate Bonds being included in gross income for federal income tax purposes, possibly from the date of original issuance of the 2019 Subordinate Bonds. The opinion of Bond Counsel assumes the accuracy of these representations and compliance with these covenants. Bond Counsel has not undertaken to determine (or to inform any person) whether any actions taken (or not taken), or events occurring (or not occurring), or any other matters coming to Bond Counsel's attention after the date of issuance of the 2019 Subordinate Bonds. Accordingly, the opinion of Bond Counsel is not intended to, and may not, be relied upon in connection with any such actions, events or matters.

Although Bond Counsel is of the opinion that interest on the 2019 Subordinate Bonds is excluded from gross income for federal income tax purposes and is exempt from State of California personal income taxes, the ownership or disposition of, or the accrual or receipt of amounts treated as interest on, the 2019 Subordinate Bonds may otherwise affect a Beneficial Owner's federal, state or local tax liability. The nature and extent of these other tax consequences depends upon the particular tax status of the Beneficial Owner or the Beneficial Owner's other items of income or deduction. Bond Counsel expresses no opinion regarding any such other tax consequences.

Current and future legislative proposals, if enacted into law, clarification of the Code or court decisions may cause interest on the 2019 Subordinate Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals or clarification of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the 2019 Subordinate Bonds. Prospective purchasers of the 2019 Subordinate Bonds should consult their own tax advisors regarding the potential impact of any pending or proposed federal or state tax legislation, regulations or litigation, as to which Bond Counsel is expected to express no opinion.

The opinion of Bond Counsel is based on current legal authority, covers certain matters not directly addressed by such authorities, and represents Bond Counsel's judgment as to the proper treatment of the 2019 Subordinate Bonds for federal income tax purposes. It is not binding on the Internal Revenue Service ("IRS") or the courts. Furthermore, Bond Counsel cannot give and has not given any opinion or assurance about the future activities of the Authority or the Borrower, or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the IRS. The Authority and the Borrower have covenanted, however, to comply with the requirements of the Code.

Bond Counsel's engagement with respect to the 2019 Subordinate Bonds ends with the issuance of the 2019 Subordinate Bonds, and, unless separately engaged, Bond Counsel is not obligated to defend the Authority, the Borrower or the Beneficial Owners regarding the tax-exempt status of the 2019 Subordinate Bonds in the event of an audit examination by the IRS. Under current procedures, parties other than the Authority, the Borrower and their appointed counsel, including the Beneficial Owners, would have little, if any, right to participate in the audit examination process. Moreover, because achieving judicial review in connection with an audit

examination of tax-exempt bonds is difficult, obtaining an independent review of IRS positions with which the Authority or the Borrower legitimately disagrees, may not be practicable. Any action of the IRS, including but not limited to selection of the 2019 Subordinate Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues may affect the market price for, or the marketability of, the 2019 Subordinate Bonds, and may cause the Authority, the Borrower or the Beneficial Owners to incur significant expense.

#### LITIGATION

# The Authority

There is no litigation of any nature now pending against the Authority with service of process having been completed or, to the knowledge of its officers, threatened, restraining or enjoining the issuance, sale, execution or delivery of the 2019 Subordinate Bonds, or in any way contesting or affecting the validity of the 2019 Subordinate Bonds, the validity or enforceability of the Loan Agreement or the Indenture or any proceedings or transactions relating to the issuance, sale or delivery of the 2019 Subordinate Bonds, the pledge and application of any money or security provided for the payment of the 2019 Subordinate Bonds, the use of proceeds of the 2019 Subordinate Bonds, the existence or powers of the Authority relating to issuance, sale and delivery of the 2019 Subordinate Bonds or any of the financing documents executed in connection therewith.

## Borrower

There is no controversy of any nature now pending against the Borrower, Holdco or their respective members or, to their knowledge, threatened, which would contest or affect the validity or enforceability of the Loan Agreement, the Indenture, the Collateral Agency Agreement, the Deed of Trust, the Security Agreement, the Environmental Indemnity Agreement, the Licensor's and Investors' Undertaking, the Pledge Agreement, the other Collateral Instruments or the tax exempt status of the 2019 Subordinate Bonds or which, if successful, would in the view of the Borrower or Holdco, be reasonably likely to materially adversely affect the Project or the operation or financial condition of the Borrower or the construction or operation of the Plant.

# **CONTINUING DISCLOSURE**

No financial or operating data concerning the Authority is material to any decision to purchase, hold or sell the Bonds and the Authority will not provide any such information. The Borrower has undertaken all responsibilities for any continuing disclosure to Bondholders as described below, and the Authority will have no liability to the Bondholders or any other person with respect to such disclosures.

The Borrower has covenanted for the benefit of the Bondholders to provide certain financial information and operating data relating to the Borrower by not later than 120 days following the end of the Borrower's fiscal year beginning with the fiscal year ending December 31, 2019 (the "Annual Report"), to provide certain monthly and quarterly financial and operating data relating to the Borrower and to provide notices of the occurrence of certain specified events. The Annual Report and notices of certain specified events, if any, will be filed by the Borrower with the MSRB in an electronic format as prescribed by the MSRB. The specific nature of the

information to be contained in the Annual Report and the events of which notice is to be provided as set forth in "APPENDIX K – CONTINUING DISCLOSURE UNDERTAKING."

The Borrower entered into a continuing disclosure undertaking for the benefit of the bondholders of the Senior Bonds. The Borrower posted on EMMA the Fiscal Year 2018 fourth quarter report twenty-seven days after the filing deadline. The Borrower should have provided a comparative form of the figures for the corresponding period in the previous year in the quarterly reports, but did not include such comparative figures. Additionally, in two instances certain information was posted without the certification of the Borrower. The Borrower has enhanced its continuing disclosure filing procedures to help ensure that information that is filed on EMMA in the future contains all required information.

The Borrower will compensate the Underwriters for transaction management and expense reimbursement in an amount of \$736,850.00, payable from the Borrower's available equity capital. If no such date is established for the applicable year, the "Interpolated AAA Yields" rate for the published maturities most closely corresponding to the applicable year will be determined, and the Applicable Tax-Exempt Bond Rate will be interpolated from those rates on a straight-line basis. Should MMD no longer publish the "Interpolated AAA Yields" rate, then the Applicable Tax-Exempt Bond Rate will equal the "Consensus Scale" rate for the applicable year as published by Municipal Market Advisors ("MMA"). Should MMD no longer publish the "Interpolated AAA Yields" rate and MMA no longer publish the "Consensus Scale" rate, then the Borrower will select another comparable index or if in the Borrower's determination no comparable index is available, the Applicable Tax-Exempt Bond Rate will be determined by a nationally recognized securities firm, as the quotation agent, based upon the rate per annum equal to the semiannual equivalent yield to maturity for those tax-exempt general obligation bonds rated in the highest rating category by Moody's and S&Ps, with a maturity date equal to the Par Call Date of such Tax-Exempt Bonds having characteristics (other than the ratings) most comparable to those of such Tax-Exempt Bonds in the judgment of the quotation agent. Upon delivery by DTC to the Trustee of written notice to the effect that DTC has determined to substitute a new nominee in place of Cede & Co., and subject to the transfer provisions hereof, the word "Cede & Co." in this Indenture shall refer to such new nominee of DTC.

(b) DTC may determine to discontinue providing its services with respect to the Bonds at any time by giving reasonable written notice to the Authority and the Trustee and discharging its responsibilities with respect thereto under applicable law.

> (1)The Authority, in its sole discretion and without the consent of any other Person, may terminate, upon provision of notice to the Trustee, the services of DTC with respect to the Bonds if the Authority determines that the continuation of the system of book-entry only transfers through DTC (or a successor securities depository) is not in the best interests of the Beneficial Owners of the Bonds or is burdensome to the Authority.

> (2) The Authority shall terminate the services of DTC with respect to the Bonds upon receipt by the Authority and the Trustee of written notice from DTC to the effect that DTC has received written notice from Direct Participants having interests, as shown in the records of DTC, in an aggregate principal amount of not less than 50% of the aggregate principal amount of the then Outstanding Bonds to the effect, that: (i) DTC is unable to discharge its responsibilities with respect to such Bonds, or (ii) a continuation of the requirement that all of the Outstanding Bonds be registered in the registration books kept by the Trustee in the name of Cede & Co., as nominee of DTC, is not in the best interest of the Beneficial Owners of such Bonds.

(c) Upon the termination of the services of DTC with respect to the Bonds pursuant to subsection (b) hereof after which no substitute Securities Depository willing to undertake the functions of DTC hereunder can be found or which, in the opinion of the Authority, is willing and able to undertake such functions upon reasonable and customary terms, the Bonds shall no longer be restricted to being registered in the registration books kept by the Trustee in the name of Cede & Co. as nominee of DTC. In such event, the Authority shall issue, and the Trustee shall transfer and exchange, Bond certificates as requested by DTC or Direct Participants of like principal amount, Series and maturity, in Authorized Denominations to the identifiable Beneficial Owners in replacement of such Beneficial Owners' beneficial interests in the Bonds.

(d) Notwithstanding any other provision of this Indenture to the contrary, so long as any Bond is registered in the name of Cede & Co., as nominee of DTC, all payments with respect to the principal or redemption price of, and interest on, such Bond and all notices with respect to such Bond shall be made and given, respectively, to DTC as provided in the letter of representations of the Authority and the Trustee, addressed to DTC with respect to the Bonds (the "DTC Letter of Representations").

(e) In connection with any notice or other communication to be provided to Bondholders pursuant to this Indenture by the Authority or the Trustee with respect to any consent or other action to be taken by Bondholders, the Authority or the Trustee, as the case may be, shall establish a record date for such consent or other action and give DTC notice of such record date not less than 15 calendar days in advance of such record date to the extent possible.

(f) Notwithstanding any provision herein to the contrary, the Authority and the Trustee may agree to allow DTC, or its nominee, Cede & Co., to make a notation on any Bond redeemed in part to reflect, for informational purposes only, the principal amount and date of any such redemption.

SECTION 2.10. <u>Conditions for the Issuance of Additional Bonds</u>. The Authority may at any time issue Additional Bonds payable from the Revenues as provided herein and secured by a pledge of and charge and lien upon the Revenues as provided herein equal to the pledge, charge and lien securing the Outstanding Bonds theretofore issued hereunder, for the purpose of refunding bonds or payment of additional Costs of the Tax-Exempt Project, but only subject to the following specific conditions, which are hereby made conditions precedent to the issuance of any such Additional Bonds:

(2)The authorized principal amount and designation of such Additional Bonds;

(3)The date and the maturity dates of and the sinking installment payment dates, if any, for such Additional Bonds; provided that (i) each maturity date shall fall upon December 1, (ii) all such Additional Bonds of like maturity shall be identical in all respects, except as to number and denomination, and (iii) serial maturities for serial bonds or sinking installment payments for term bonds, or any combination thereof, shall be established to provide for the retirement of such Additional Bonds on or before their respective maturity dates;

(4)The interest payment date for such Additional Bonds; provided that the interest payment dates for any Additional Bonds shall be on June 1 and December 1 in each year;

(5)The denomination or denominations of and method of numbering such Additional Bonds;

(6)The redemption premiums, if any, and the redemption terms, if any, for such Additional Bonds;

(7)The amount, if any, to be deposited from the proceeds of sale of such Additional Bonds in the Reserve Fund;

(8) The forms of such Additional Bonds; and

(9)Such other provisions as are necessary or appropriate and not inconsistent herewith, including whether the Additional Bonds shall be subject to a Restricted Period.

(c) The Loan Agreement shall have been amended so as to modify the Loan Repayments to reflect an amount at least sufficient to pay the principal of, premium, if any, and interest on the Bonds, including such Additional Bonds, as the same become due.

SECTION 2.11. <u>Procedure for the Issuance of Additional Bonds</u>. At any time after the sale of any Additional Bonds in accordance with the Act, the Authority shall execute such Additional Bonds for issuance hereunder and shall deliver them to the Trustee, and thereupon such Additional Bonds shall be authenticated and delivered by the Trustee to the purchaser thereof upon the written Request of the Authority, but only upon receipt by the Trustee of the following documents or money or securities, all of such documents dated or certified, as the case may be, as of the Delivery Date of such Additional Bonds by the Trustee (unless the Authority shall direct the Trustee to accept any of such documents bearing a prior date):

(a) A certified copy of the resolution of the Authority and Supplemental Indenture authorizing the issuance of such Additional Bonds;

(b) A written Request of the Authority as to the delivery of such Additional Bonds;

An Opinion of Bond Counsel to the effect that (1) the Authority has the (c) right and power under the Act to execute and deliver the Supplemental Indenture and the Supplemental Indenture has been duly and lawfully executed and delivered by the Authority, is in full force and effect and is valid and binding upon the Authority (except as enforcement may be limited by bankruptcy, insolvency, reorganization and other similar laws relating to the enforcement of creditors' rights and by equitable principles), (2) the Supplemental Indenture creates the valid pledge of and charge and lien upon the Revenues which it purports to create as provided therein, subject to the application thereof to the purposes and on the conditions permitted hereby, (3) such Additional Bonds are valid and binding special obligations of the Authority (except as enforcement may be limited by bankruptcy, insolvency, reorganization and other similar laws relating to the enforcement of creditors' rights and by equitable principles) and entitled to the benefits of the Act and hereof, and such Additional Bonds have been duly and validly authorized, executed, issued and delivered in accordance with the Act and herewith, (4) the amendments to the Loan Agreement, required by Section 2.10(c) hereof have been duly authorized, executed and delivered, and (5) the delivery of such Additional Bonds will not have an adverse effect on the exclusion from gross income for federal income tax purposes of the interest on the Tax-Exempt Bonds:

(d) A Certificate of the Authority containing such statements as may be reasonably necessary, as determined by Bond Counsel, to show compliance with the conditions for the issuance of such Additional Bonds contained herein, including the requirements set forth in Section 2.10(b)(1) hereof; and

(e) Such further documents, money or securities as are required by the provisions of the Supplemental Indenture providing for the issuance of such Additional Bonds.

### ARTICLE III ISSUANCE OF 2019 BONDS; APPLICATION OF PROCEEDS

SECTION 3.01. <u>Issuance of the 2019 Bonds</u>. At any time after the execution and delivery of this Indenture or from time to time thereafter, upon the execution of the 2019 Bonds by the Authority and delivery thereof to the Trustee, as hereinabove provided, and without any further action on the part of the Authority, the Trustee shall authenticate upon Request of the Authority, and deliver such 2019 Bonds in an aggregate principal amount not exceeding \$73,685,000.

SECTION 3.02. <u>Application of Proceeds of the 2019 Bonds</u>. The proceeds received by the Authority from the sale of the 2019 Bonds shall be deposited with the Trustee, who shall forthwith (i) deposit \$7,276,393.75 of such proceeds into the Capitalized Interest Account; (ii) deposit \$2,763,187.50 of such proceeds into the Reserve Fund; (iii) transfer

\$58,562,597.98 of such proceeds to the Collateral Agent for deposit into the Project Fund; and (iv) deposit \$621,874.41 of such proceeds into the Costs of Issuance Account.

SECTION 3.03. [Reserved].

SECTION 3.04. <u>Costs of Issuance Fund</u>. The Trustee shall establish a Fund for the payment of Costs of Issuance (the "Costs of Issuance Fund"). The Trustee shall create separate Accounts for the deposit of the Costs of Issuance Funds (each a "Costs of Issuance Account") for the 2019 Bonds and any Series of Additional Bonds. The moneys in each Costs of Issuance Account shall be held by the Trustee in trust and applied to the payment of Costs of Issuance for the related Series of Bonds, upon a sequentially numbered Requisition of the Borrower filed with the Trustee, in the form attached hereto as Exhibit D, together with invoices, signed by an Authorized Representative of the Borrower. The Trustee may rely upon any Requisition received in accordance with this Section 3.04 and shall have no obligation to review any accompanying invoices. All payments from the Costs of Issuance Account shall be reflected in the Trustee's regular accounting statements. Any amounts remaining in the Costs of Issuance Account three (3) months following the Delivery Date of the related Series of Bonds shall be transferred to the Project Fund.

SECTION 3.05. <u>Validity of Bonds</u>. The validity of the authorization and issuance of the Bonds is not dependent on and shall not be affected in any way by any proceedings taken by the Authority or the Trustee with respect to or in connection with the Loan Agreement. The recital contained in the Bonds that the same are issued pursuant to the Act and the Constitution and laws of the State of California shall be conclusive evidence of their validity and of compliance with the provisions of law in their issuance.

### ARTICLE IV REDEMPTION OF BONDS

SECTION 4.01. <u>Terms of Redemption of 2019 Bonds</u>. All prepayments pursuant to Section 8.2 of the Loan Agreement (other than Mandatory Redemption Payments) shall be deposited in the Redemption Account from the Revenue Fund; provided that, to the extent that any amounts on deposit in the Principal Account were deposited therein to pay the principal amount of any of such Bonds to be prepaid, the Trustee shall first transfer such amounts from the Principal Account from the Redemption Account prior to making any deposits in the Redemption Account from the Redemption principal to Section 4.01(f), and the Trustee shall not give notice of any such redemption, unless the Borrower has so directed and payment has been made of all required installments of the Borrower's obligations under the Loan Agreement, including without limitation amounts sufficient to pay all principal of, premium, if any, and interest due on the 2019 Bonds on the redemption date and all amounts required to be on deposit in the Debt Service Fund as of such notice date pursuant to Section 8.3 of the Loan Agreement.

(a) <u>Mandatory Redemption from Cash Sweep</u>. The 2019 Bonds shall be subject to semi-annual redemption prior to their stated maturity in part at the principal amount thereof together with interest accrued thereon to the date fixed for redemption, without

premium. The 2019 Bonds shall be redeemed on each Mandatory Redemption Date in an aggregate amount (the "Mandatory Redemption Payment") equal to: (1) one hundred percent (100%) of the first \$2,500,000 (or portion thereof) remaining after the deposits required by sections First through Fifth of Section 5.02(a), which shall be funded into the Principal Account pursuant to clause Sixth of Section 5.02(a) in the period beginning on the date that is twenty-nine (29) days prior to the previous Mandatory Redemption Date and ending on the calendar day that is thirty (30) days prior to the Mandatory Redemption Date (such period the "Mandatory Redemption Sweep Period") on which the redemption payment is made, plus (2) fifty percent (50%) of the next \$2,500,000 (or portion thereof) remaining after the deposits required by sections First through Fifth of Section 5.02(a), which shall be funded into the Principal Account pursuant to clause Sixth of Section 5.02(a) during the Mandatory Redemption Sweep Period, plus (3) from and after December 1, 2025, any Shortfall Sweep (as such term is defined below). Subject to the provisions of the following sentence, for each Mandatory Redemption Date, the maximum Mandatory Redemption Payment payable hereunder is \$3,750,000 (such maximum amount is referred to as the "Maximum Sweep Amount"). Commencing with the Mandatory Redemption Date occurring on December 1, 2025, if there are insufficient funds in the Principal Account such that the Mandatory Redemption Payment on a Mandatory Redemption Date is less than the Maximum Sweep Amount (such deficiency is referred to as the "Shortfall Sweep"), then the Maximum Sweep Amount for the immediately following Mandatory Redemption Date will be increased by the aggregate Shortfall Sweep for all Mandatory Redemption Dates occurring on or after December 1, 2025, provided that the Maximum Sweep Amount for any Mandatory Redemption Date will be increased by an amount (the "Maximum Shortfall Accrual Amount") not more than (i) \$1,125,000 for the Mandatory Redemption Dates falling on each of June 1, 2026 and December 1, 2026, and (ii) by an additional \$125,000 for each Mandatory Redemption Date thereafter.

(b) [Reserved.]

(c) <u>Mandatory Redemption Upon Invalidity</u>. Upon any Invalidity Event, the Bonds Outstanding on the date of the occurrence of the invalidity shall be redeemed in whole at any time within 30 days thereafter at a redemption price of 100% of the principal amount thereof, without premium, plus accrued interest to the date of redemption. No redemption of Bonds shall be made pursuant to any of the other provisions of this Section 4.01 following an Invalidity Event.

(d) <u>Mandatory Redemption from Excess Proceeds</u>. On the Interest Payment Date following any deposit into the Excess Proceeds Account, the Bonds shall be subject to redemption, in part, on a pro rata basis, in an amount equal to amounts on deposit in the Excess Proceeds Account, in denominations of \$5,000, at a price equal to the principal amount thereof, without premium, plus accrued interest to the date of redemption; provided that the Tax-Exempt Bonds shall be redeemed in whole pursuant to the terms of this Section 4.01(d) prior to the redemption pursuant to the terms of this Section 4.01(d) of any Bonds that are not Tax-Exempt; and provided further that, unless the Borrower shall provide to the Trustee and the Authority an Opinion of Bond Counsel to the effect that an alternative redemption of Bonds so redeemed shall have a weighted average maturity no less than the weighted average maturity of all Tax-Exempt Bonds Outstanding immediately prior to such redemption.

(e) <u>Mandatory Redemption Upon Receipt of Loss Proceeds</u>. The Bonds are subject to redemption, in whole or in part, on a pro rata basis, from Loss Proceeds (other than Excluded Loss Proceeds), on the Interest Payment Date following the receipt of such Loss Proceeds by the Collateral Agent, in an amount equal to the Loss Proceeds received from the Collateral Agent, in denominations of \$5,000, at a price equal to the principal amount thereof, without premium, plus accrued interest to the date of redemption; provided that the Tax-Exempt Bonds shall be redeemed in whole pursuant to the terms of this Section 4.01(e) prior to the redemption pursuant to the terms of this Section 4.01(e) of any Bonds that are not Tax-Exempt.

(f) <u>Optional Redemption of 2019 Bonds</u>. The 2019 Bonds are subject to redemption prior to their stated maturity date at the option of the Borrower from any source of available funds, in whole or in part, on any Interest Payment Date on or after December 1, 2029, in an amount equal to the principal amount of the 2019 Bonds called for redemption together with accrued interest to the date fixed for redemption, without premium.

(g) [Reserved.]

(h) With respect to redemption pursuant to Sections 4.01(d) and (e), any amount remaining due to redeeming in increments of \$5,000 shall be deposited in the Principal Account.

Selection of 2019 Bonds for Redemption. SECTION 4.02. Whenever provision is made in this Indenture for the redemption of less than all of the 2019 Bonds prior to their stated maturity, the particular 2019 Bonds to be redeemed will be selected on a pro-rata passthrough distribution of principal basis in accordance with the rules and procedures of DTC. It is the Trustee's intention that redemption allocations made by DTC, the DTC participants or such other intermediaries that may exist between the Trustee and the Beneficial Owners of the 2019 Bonds shall be made on a pro-rata pass-through distribution of principal basis. However, so long as the 2019 Bonds are in book-entry only form, the selection for redemption of such 2019 Bonds shall be made in accordance with the operational arrangements of DTC then in effect. The Trustee shall not provide any assurance or shall have any responsibility or obligation to ensure that DTC, the DTC participants or any other intermediaries allocate redemptions of the 2019 Bonds among Beneficial Owners on a pro-rata pass-through distribution of principal basis. If the DTC operational arrangements do not allow for the redemption of the 2019 Bonds on a pro-rata passthrough distribution of principal basis, the 2019 Bonds shall be selected for redemption, in accordance with DTC procedures, by lot.

SECTION 4.03. <u>Notice of Redemption</u>. Notice of redemption shall be mailed by first class mail not less than thirty (30) days nor more than sixty (60) days before an optional redemption pursuant to Section 4.01(f) and not less than twenty (20) days in the case of all other redemptions before such redemption date, to the respective Holders and Beneficial Owners of any Bonds designated for redemption at their addresses on the registration books maintained by the Bond Registrar. Each notice of redemption shall state the redemption date, the place or places of redemption, if less than all of the Bonds are to be redeemed, the distinctive number(s) and Series of the Bonds to be redeemed, and in the case of Bonds to be redeemed in part only, the respective portions of the principal amount thereof to be redeemed. Each such notice shall also state that on said date there will become due and payable on each of said Bonds the principal thereof or of said specified portion of the principal thereof in the case of a Bond to be redeemed in part only, and that from and after such redemption date interest thereon shall cease to accrue, and the Trustee shall require that such Bonds be then surrendered, and with regard to optional redemption pursuant to Section 4.01(f), in the event that funds required to pay the redemption price are not on deposit under this Indenture at the time the notice of redemption is sent, a statement to the effect that the redemption is conditioned upon the receipt of the appropriate funds required to pay the redemption price by the Trustee on or prior to the redemption date. Neither failure to receive such notice nor any defect therein shall affect the sufficiency of such redemption.

(a) Notice of redemption of such Series of Bonds shall be given by the Trustee, at the expense of the Borrower, for and on behalf of the Authority.

(b) At the same time that it sends notice of redemption to Owners of such Series of Bonds, the Trustee shall also send a copy of the notice by first class mail, by electronic mail, by telecopy or by overnight delivery to the Authority, the Securities Depositories and an Information Service. Failure to provide notice to the Authority, the Securities Depositories or an Information Service shall not affect the validity of proceedings for the redemption of such Series of Bonds.

SECTION 4.04. <u>Partial Redemption of Bonds</u>. Upon surrender of any Bond redeemed in part only, the Authority shall execute and the Trustee shall authenticate and deliver to the Owner thereof, at the expense of the Borrower, a new Bond or Bonds of Authorized Denominations and of like Series equal in aggregate principal amount to the unredeemed portion of the Bond surrendered.

SECTION 4.05. <u>Effect of Redemption</u>. Notice of redemption having been duly given as aforesaid, and moneys for payment of the redemption price of, together with interest accrued to the date fixed for redemption on, the Bonds (or portions thereof) so called for redemption being held by the Trustee, on the redemption date designated in such notice, the Bonds (or portions thereof) so called for redemption shall become due and payable, interest on the Bonds so called for redemption shall cease to accrue, said Bonds (or portions thereof) shall cease to be entitled to any benefit or security under this Indenture, except for payment of particular Bonds for which moneys are being held by the Trustee which moneys shall be pledged to such payment, and the Holders of said Bonds shall have no rights in respect thereof except to receive payment of said principal and interest accrued to the date fixed for redemption.

All Bonds redeemed pursuant to the provisions of this Article shall be canceled upon surrender thereof and shall be destroyed by the Trustee, in accordance with its corporate trust policies.

SECTION 4.06. <u>Redemption of Additional Bonds</u>. Additional Bonds shall be subject to redemption as provided in a related Supplemental Indenture.

# ARTICLE V REVENUES; FUNDS AND ACCOUNTS; PAYMENT OF PRINCIPAL AND INTEREST

SECTION 5.01. <u>Pledge and Assignment; Revenue Fund</u>.

(a) Subject only to the provisions of this Indenture permitting the application thereof for the purposes and on the terms and conditions set forth herein, all of the Revenues and any other amounts (including proceeds of the sale of Bonds) held in any Fund or Account established pursuant to this Indenture (except the Rebate Fund) are hereby pledged to secure the full payment of the principal of, premium, if any, and interest on the Bonds in accordance with their terms and the provisions of this Indenture. Said pledge shall constitute a lien on and security interest in such assets and shall attach, be perfected and be valid and binding from and after delivery by the Trustee of the Bonds, without any physical delivery thereof or further act.

(b) The Authority hereby transfers in trust, and assigns to the Trustee, for the benefit of the Holders from time to time of the Bonds, to the extent of its interest therein, all of the Revenues and other assets pledged in subsection (a) of this Section and all of the right, title and interest of the Authority in the Loan Agreement (except for Reserved Rights). Such assignment to the Trustee is solely in its capacity as Trustee under this Indenture, subject to the protections, immunities and limitations from liability afforded the Trustee hereunder. The Trustee shall be entitled to and shall collect and receive all of the Revenues, and any Revenues collected or received by the Authority (except Excluded Moneys) shall be deemed to be held, and to have been collected or received, by the Authority as the agent of the Trustee. The Trustee also shall be entitled to and shall take all steps, actions and proceedings reasonably necessary in its judgment to enforce, either jointly with the Authority or separately, all of the rights of the Authority (other than Reserved Rights) and all of the obligations of the Borrower under the Loan Agreement.

(c) All Revenues (except investment earnings, which shall be deposited as provided in Section 5.03) shall be promptly deposited by the Trustee upon receipt thereof in a special fund designated as the "Revenue Fund", which the Trustee shall establish, maintain and hold in trust. All Revenues deposited with the Trustee shall be held, disbursed, allocated and applied by the Trustee only as provided in this Indenture.

(d) Except as otherwise provided in Section 5.02 hereof, all moneys received by the Trustee and required to be deposited in the Redemption Account, if any, shall be promptly deposited in the Redemption Account, which the Trustee shall establish, maintain and hold in trust.

(e) The Trustee shall deposit all funds received by the Collateral Agent pursuant to the provisions of 3.10(d) of the Collateral Agency Agreement into a separate account within the Revenue Fund, which the Trustee shall establish and hold in trust, and which shall be entitled the "Excess Proceeds Account." The moneys in the Excess Proceeds Account shall be used and applied (subject to Section 5.03 hereof) at the written direction of the Borrower to redeem the Tax-Exempt Bonds in Authorized Denominations, to the maximum degree permissible, and at the earliest possible dates at which the Bonds can be redeemed pursuant to Section 4.01(d) of this Indenture. Notwithstanding Section 5.03 hereof, the moneys in the Excess Proceeds Account shall be invested at the written instruction of the Borrower at a yield no higher than the yield on the Outstanding Tax-Exempt Bonds (unless in the Opinion of Bond Counsel, addressed and delivered to the Authority, investment at a higher yield would not cause interest on the Tax-Exempt Bonds to become no longer Tax-Exempt), and all such investment income shall be deposited in the Excess Proceeds Account and expended or reinvested as provided above.

SECTION 5.02. <u>Use of Moneys in Revenue Fund</u>. (a) The Borrower has agreed in the Loan Agreement to promptly pay or cause to be paid Loan Repayments to the Trustee for deposit in the Revenue Fund. These payments are expected to be made from the Capitalized Interest Account and from Revenues (including Revenues received by the Trustee pursuant to the Collateral Agency Agreement). Subject to Section 6.06, the Trustee shall deposit in the Revenue Fund (i) all Revenues received from the Borrower upon receipt and (ii) all amounts from the Collateral Agent pursuant to Section 3.09 of the Collateral Agency Agreement. Subject to Section 4.01, the Trustee, without any further authorization from the Authority, shall make disbursements from the Revenue Fund, to the extent then available in the Revenue Fund, on the dates, in the amounts, under the circumstances, for the purposes and in the order of priority set forth below:

<u>First</u>, on any Business Day from time to time as directed by the Borrower in an Account Transfer Certificate, to a special Account within the Revenue Fund (the "Administrative Costs Fund") an amount (as set forth in the Account Transfer Certificate) equal to all administrative fees, costs and charges due and payable to the Trustee under the Bond Financing Documents, less any amounts already transferred to the Trustee for such purpose, to be applied in accordance with Section 5.02(g);

<u>Second</u>, on each Transfer Date, to a special Account within the Revenue Fund (the "Rebate Fund") an amount equal to the applicable Rebate Requirement, less any amounts already on deposit in the Rebate Fund (as set forth in an Account Transfer Certificate), to be applied in accordance with Section 5.02(e);

<u>Third</u>, on each Transfer Date beginning with the Transfer Date immediately preceding December 1, 2019, to a special Account within the Debt Service Fund (the "Interest Account") an amount equal to the interest payable on the Bonds on the next succeeding Interest Payment Date less any amounts already on deposit in the Interest Account and amounts on deposit in the Capitalized Interest Account for the payment of such interest payable, to be applied in accordance with Section 5.02(b);

<u>Fourth</u>, on each Transfer Date, to the Reserve Fund an amount sufficient to cause the balance in the Reserve Fund to equal the Reserve Requirement, to be applied in accordance with Section 5.02(f);

<u>Fifth</u>, on any Business Day from time to time as may be directed by the Borrower in accordance with an Account Transfer Certificate, to the Local Bank Account an amount specified in the Account Transfer Certificate to pay to CFP all or any portion of amounts as are then owing as sales commissions (and interest thereon) under the CFP Sales Agreement, provided, however, that such transfer shall only be permitted if sufficient funds exist in the Interest Account (including amounts in the Capitalized Interest Account available for such payment) to pay the interest due on the Bonds on the next succeeding Interest Payment Date;

<u>Sixth</u>, on each Transfer Date, to a special Account within the Debt Service Fund (the "Principal Account") (i) the Shortfall Sweep, if any, up to the Maximum Shortfall Accrual Amount, and (ii) an amount necessary to make the Mandatory Redemption Payment required under Section 4.01(a) on the next succeeding Mandatory Redemption Date up to the Maximum Sweep Amount (after taking into account any amounts already on deposit in the Principal Account for such payment), to be applied in accordance with Section 5.02(b); and

<u>Seventh</u>, on each Transfer Date, to an account specified by the Borrower the balance of the amount then remaining in the Revenue Fund, provided, however, that such transfer shall only be permitted if no Event of Default exists.

All money in the Revenue Fund and each special Fund and Account within the Revenue Fund or the Debt Service Fund established and maintained by the Trustee pursuant to this Section 5.01 (each of which the Trustee is hereby instructed to establish and maintain) shall be held in trust by the Trustee and shall be applied, used and withdrawn only for the purposes hereinafter authorized in this Section.

(b) <u>Debt Service Fund–Principal Account and Interest Account</u>. The Trustee shall deposit in the Interest Account all amounts paid to it with respect to interest on the Bonds. On or before each Interest Payment Date for any of the Outstanding Bonds or other date on which interest is due on Outstanding Bonds, the Trustee shall pay from the Interest Account the amount required for the interest payable on such date.

The Trustee shall deposit in the Principal Account all amounts paid to it with respect to principal on the Bonds (including amounts to be used for Mandatory Redemption Payments). On or before each Principal Payment Date or other date on which principal is due on Outstanding Bonds, the Trustee shall pay from the Principal Account the principal amount of Outstanding Bonds (including any Mandatory Redemption Payment) payable on such due date.

In the event of the refunding of all Outstanding Bonds, the Trustee shall, upon the written direction of an Authorized Representative of the Authority upon direction by the Borrower as provided in Section 8.5 of the Loan Agreement, withdraw from the Principal Account and the Interest Account amounts accumulated therein with respect to Debt Service on such Bonds (including any Mandatory Redemption Payments) and deposit such amounts with itself as Trustee to be held for the payment of the principal or redemption price, as applicable, of, and interest on, the Bonds being refunded; provided that such withdrawal shall not be made unless immediately thereafter the Bonds being refunded shall be deemed to have been paid pursuant to Section 10.02.

Any provision of this Indenture to the contrary notwithstanding, so long as there shall be held in the Principal Account, the Interest Account, the Reserve Fund (excluding financial guaranties), and the Capitalized Interest Account an amount sufficient to pay in full all Outstanding Bonds in accordance with their terms (including maturing principal amount or Mandatory Redemption Payments and interest thereon), no deposits shall be required to be made by the Borrower into the Principal Account or the Interest Account.

(c) <u>Debt Service Fund—Redemption Account</u>. On or before any date fixed for redemption for Outstanding Bonds (other than from Mandatory Redemption Payments), the Trustee shall pay from the Redemption Account the amount required for the payment of the redemption price of the Bonds then to be redeemed, exclusive of accrued interest, which shall be paid from the Interest Account. Amounts accumulated in the Redemption Account not required

for the payment of the redemption price of Bonds as to which a notice of redemption has been sent to Holders pursuant to Section 4.03 shall be applied by the Trustee, if so directed in writing by an Authorized Representative of the Authority upon direction by the Borrower as provided in Section 8.5 of the Loan Agreement, to the redemption of Bonds in accordance with Article IV hereof or to the purchase of Bonds at the prices and from the Holders specified in such written directions. Accrued interest on any Bonds so redeemed or purchased may be paid from the Interest Account.

(d) <u>Debt Service Fund—Capitalized Interest Account</u>. There shall be paid into the Capitalized Interest Account the proceeds of the 2019 Bonds specified in Section 3.02 hereof. Amounts in the Capitalized Interest Account shall be transferred by the Trustee to the Interest Account prior to and in place of any transfers to the Interest Account from the Debt Service Fund or the Revenue Fund required or authorized by Section 5.02(a) of this Indenture and applied to the payment of interest on the 2019 Bonds.

Rebate Fund. Within the Rebate Fund, the Trustee shall establish and (e) maintain any accounts as it is instructed by the Borrower to establish in order to comply with the terms and requirements of the Tax Certificate. Subject to the transfer provisions provided in paragraph (5) below, all money at any time deposited in the Rebate Fund, including any account therein, shall be held by the Trustee in trust, to the extent required to satisfy the Rebate Requirement (as defined in the Tax Certificate), for payment to the federal government of the United States of America, and no other Person shall have any rights in or claim to such money. All amounts deposited into or on deposit in the Rebate Fund, including any account therein, shall be governed by this Section 5.02(e), by Section 6.06 hereof and by the Tax Certificate (which is incorporated herein by reference). The Trustee shall be deemed conclusively to have complied with such provisions if it follows the directions of the Borrower, including supplying all necessary information in the manner provided in the Tax Certificate, shall not be required to take any actions thereunder, in the absence of written directions by the Borrower, and shall have no liability or responsibility to enforce compliance by the Borrower or the Authority with the terms of the Tax Certificate.

> (1)Upon the Borrower's written direction, an amount shall be deposited to the Rebate Fund by the Trustee from deposits by the Borrower, or from available investment earnings on amounts (other than moneys held for the payment of particular Bonds (including moneys held for non-presented Bonds or held under Section 10.03 hereof)) held in the Debt Service Fund, if and to the extent required, so that the balance of the amount on deposit thereto shall be equal to the Rebate Requirement. Computations of the Rebate Requirement shall be furnished by or on behalf of the Borrower in accordance with the Tax Certificate. The Trustee may rely conclusively upon the Borrower's determinations, calculations and certifications required by this Section 5.02(e)(2). The Trustee shall have no responsibility to make any independent calculations or determinations or to review the Borrower's calculations hereunder.

> (2)The Trustee shall have no obligation to rebate any amounts required to be rebated pursuant to this Section 5.02(e) other than from moneys held in the funds and accounts created under this Indenture (other than moneys held for the payment of particular Bonds (including moneys held for non-presented Bonds

or held under Section 10.03)) or from other moneys provided to it by or on behalf of the Borrower.

(3)The Trustee shall invest all amounts held in the Rebate Fund in Investment Securities as instructed in writing by the Borrower, and the Borrower shall be responsible for such Rebate Instructions complying with the Tax Certificate. Money shall not be transferred from the Rebate Fund except as provided in paragraph (4) below.

(4)Upon receipt of the Borrower's written directions, the Trustee shall remit part or all of the balances in the Rebate Fund to the United States, as so directed. In addition, if the Borrower so directs, the Trustee will deposit moneys into or transfer moneys out of the Rebate Fund from or into such accounts or funds (other than moneys held for the payment of particular Bonds (including moneys held for non-presented Bonds or held under Section 10.03 hereof)) as directed by the Borrower's written directions. Any funds remaining in the Rebate Fund after redemption and payment of all of the Bonds and payment and satisfaction of any Rebate Requirement, or provision made therefor shall be withdrawn and remitted to the Borrower upon the Borrower's written request.

(5)Notwithstanding any other provision of this Indenture, including in particular Article X hereof, the obligation to remit the Rebate Requirements to the United States and to comply with all other requirements of this Section 5.02(e) hereof, Section 6.06 hereof and the Tax Certificate shall survive the defeasance or payment in full of such Bonds.

(f) <u>Reserve Fund</u>. The Trustee shall deposit in the Reserve Fund the amounts provided for deposit therein. If on the Business Day immediately preceding an Interest Payment Date, or any other date on which the principal or redemption price of, or interest on, 2019 Bonds is due, the amount in the Principal Account, the Interest Account, the Redemption Account, the Capitalized Interest Account or the Revenue Fund available for such payment is less than the principal amount or redemption price of, or interest on, the 2019 Bonds due on such date, the Trustee shall transfer amounts from the Reserve Fund for application to the Principal Account or the Interest Account (or both) to the extent necessary to make good the deficiency.

The Trustee shall value the Reserve Fund on the first Business Day after each Interest Payment Date at the market value thereof. Except as provided in this Section 5.02(f), and subject to the provisions of Section 5.03 relating to the application of interest earnings, if on the Business Day after any Interest Payment Date the amount on deposit in the Reserve Fund shall exceed the Reserve Fund Requirement based on such valuation, such excess shall be deposited in the Project Fund until the Final Tax-Exempt Project Completion Date, and thereafter such amounts shall be deposited in the Reserve Fund and applied in accordance with Section 5.02 above. If the amount on deposit in the Reserve Fund is less than the Reserve Fund Requirement based on such valuation, the Trustee shall transfer sufficient funds from the Revenue Fund to the Reserve Account to satisfy the Reserve Fund Requirement in accordance with clause <u>Fourth</u> of Section 5.02(a) above. The Reserve Fund shall also be valued at the market value thereof prior to any Distribution and at any time requested by the Authority or the Borrower.

In the event of the refunding of the 2019 Bonds (or portions thereof), the Trustee shall, upon the written direction of an Authorized Representative of the Authority upon direction by the Borrower as provided in Section 8.5 of the Loan Agreement, withdraw from the Reserve Fund any or all of the amounts on deposit therein with respect to the 2019 Bonds being refunded and deposit such amounts with itself as Trustee to be held for the payment of the principal or redemption price, if any, of, and interest on, the 2019 Bonds (or portions thereof) being refunded; provided that such withdrawal shall not be made unless: (x) immediately thereafter the 2019 Bonds (or portions thereof) being refunded shall be deemed to have been paid pursuant to Section 10.02, and (y) the amount remaining in the Reserve Fund after such withdrawal, taking into account any deposits to be made in the Reserve Fund in connection with such refunding, shall not be less than the Reserve Fund Requirement.

(g) <u>Administrative Costs Fund</u>. The Trustee shall deposit in the Administrative Costs Fund the amounts provided for deposit therein by the Collateral Agent. Moneys in the Administrative Costs Fund shall be used only for payment, pursuant to a written direction from the Borrower, of costs, fees, taxes, indemnities or other expenses payable to or on the order of the Trustee or the Authority. When all of the principal and interest on the Bonds has been paid or provided for, any funds remaining in the Administrative Costs Fund shall be returned to the Collateral Agent for disposition as provided in the Collateral Agency Agreement.

SECTION 5.03. <u>Investment of Moneys</u>. All moneys in any of the Funds or Accounts established pursuant to this Indenture shall be invested by the Trustee, as directed in writing by the Borrower or its agent, solely in Investment Securities, provided that upon the occurrence and continuation of an Event of Default, all such moneys shall be invested only in Investment Securities described in paragraph (vi) of the definition thereof. Notwithstanding any other provision herein, in the absence of written investment instructions directing the Trustee by noon of the second Business Day preceding the day when investments are to be made, the Trustee is directed to invest available funds in Investment Securities described in paragraph (vi) of the definition thereof. The Trustee shall not be liable for any losses resulting from any investments made pursuant to the preceding two sentences.

Investment Securities may be purchased at such prices as the Trustee may be directed by the Borrower or its agent. All Investment Securities shall be acquired subject to the limitations set forth in Section 6.05 hereof, the limitations as to maturities hereinafter in this Section set forth and such additional limitations or requirements consistent with the foregoing as may be established by Request of the Borrower.

Moneys in all Funds and Accounts shall be invested in Investment Securities maturing not later than the date on which such moneys will be required for the purposes specified in this Indenture. Notwithstanding anything else in this Section 5.03, any moneys in the Interest Account, the Principal Account or the Redemption Account held for the payment of particular Bonds of any Series shall be invested at the written direction of the Borrower in direct obligations of the United States or bonds or other obligations guaranteed by the United States government or for which the full faith and credit of the United States is pledged for the full and timely payment of principal and interest thereof (or mutual funds consisting solely of such investments which are rated Moody's "Aaa" or equivalent), rated in the highest Rating Category applicable to such

investments which mature not later than the date on which it is estimated that such moneys will be required to pay such Bonds (but in any event maturing in not more than thirty days).

All interest, profits and other income received from the investment of moneys in any Fund or Account (other than the Rebate Fund) established pursuant to this Indenture shall be deposited (i) in the Project Fund if such interest, profits and other income is with respect to an account relating to the Tax-Exempt Bonds and is received prior to the Final Tax-Exempt Project Completion Date and (ii) in the Revenue Fund, if received after the Commercial Operations Date. Notwithstanding anything to the contrary contained in this paragraph, an amount of interest received with respect to any Investment Security equal to the amount of accrued interest, if any, paid as part of the purchase price of such Investment Security shall be credited to the Fund from which such accrued interest was paid. To the extent that any Investment Securities are registrable, such Securities shall be registered in the name of the Trustee or its nominee.

For the purpose of determining the amount in any Fund, all Investment Securities credited to such Fund shall be valued at the market value thereof. All Funds shall be valued on the first Business Day after every Bond Payment Date and at any other time requested by the Authority or the Borrower.

Subject to Section 6.06 hereof, investments in any and all Funds and Accounts (other than moneys held for the payment of particular Bonds (including moneys held for non-presented Bonds or 10.03 hereof)) may be commingled for purposes of making, holding and disposing of investments, notwithstanding provisions herein for transfer to or holding in particular Funds and Accounts, the amounts received or held by the Trustee hereunder, provided that the Trustee shall at all times account for such investments strictly in accordance with the Funds and Accounts to which they are credited and otherwise as provided in this Indenture. Subject to Section 6.05 hereof, any moneys invested in accordance with this Section may be invested in a pooled investment account consisting solely of funds held by the Trustee as a fiduciary. The Authority (and the Borrower by its execution of the Loan Agreement) acknowledges that to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grant the Authority or the Borrower the right to receive brokerage confirmations of security transactions as they occur, the Authority and the Borrower specifically waive receipt of such confirmations to the extent permitted by law. The Trustee will furnish the Authority and the Borrower periodic cash transaction statements which include detail for all investment transactions made by the Trustee hereunder. The Trustee may act as principal or agent in the making or disposing of any investment. The Trustee may sell or present for redemption any Investment Securities whenever it shall be necessary to provide moneys to meet any required payment, transfer, withdrawal or disbursement from the Fund to which such Investment Security is credited, and the Trustee shall not be liable or responsible for any loss resulting from such investment.

## ARTICLE VI PARTICULAR COVENANTS

SECTION 6.01. <u>Punctual Payment</u>. The Authority shall punctually pay or cause to be paid the principal, premium, if any, and interest to become due in respect of all the Bonds, in strict conformity with the terms of the Bonds and of this Indenture, according to the true intent and meaning thereof, but only out of Revenues and other assets pledged for such payment

as provided in this Indenture. When and as paid in full, all Bonds, if any, shall be delivered to the Trustee, shall forthwith be canceled and destroyed, and a certificate of such destruction shall thereafter be delivered to the Authority.

SECTION 6.02. <u>Extension of Payment of Bonds</u>. The Authority shall not directly or indirectly extend or assent to the extension of the maturity of any of the Bonds or the time of payment of any claims for interest by the purchase or funding of such Bonds or claims for interest or by any other arrangement and in case the maturity of any of the Bonds or the time of payment of any such claims for interest shall be extended, such Bonds or claims for interest shall not be entitled, in case of any default hereunder, to the benefits of this Indenture, except subject to the prior payment in full of the principal of all of the Bonds then Outstanding and of all claims for interest thereon which shall not have been so extended. Nothing in this Section shall be deemed to limit the right of the Authority to issue bonds for the purpose of refunding any Outstanding Bonds, and such issuance shall not be deemed to constitute an extension of maturity of Bonds.

SECTION 6.03. <u>Against Liens</u>. The Authority shall not create, or permit the creation of, any pledge, lien, charge or other encumbrance upon the Revenues and other assets pledged or assigned under this Indenture while any of the Bonds are Outstanding, except the pledge and assignment created by this Indenture, the Collateral Agency Agreement, the Collateral Instruments or the Investors' Pledge Agreement, as applicable. Subject to this limitation, the Authority expressly reserves the right to enter into one or more other indentures for any of its corporate purposes, including other programs under the Act, and reserves the right to issue other obligations for such purposes.

SECTION 6.04. <u>Power to Issue Bonds and Make Pledge and Assignment</u>. The Authority represents that it is duly authorized pursuant to law to issue the Bonds and to enter into this Indenture and to pledge and assign the Revenues and other assets purported to be pledged and assigned, respectively, under this Indenture in the manner and to the extent provided in this Indenture. The Bonds and the provisions of this Indenture are and will be the legal, valid and binding limited obligations of the Authority in accordance with their terms, and the Authority and Trustee shall at all times, to the extent permitted by law, defend, preserve and protect said pledge and assignment of Revenues and other assets and all the rights of the Bondholders under this Indenture against all claims and demands of all Persons whomsoever, subject to the limitations set forth in Article VIII relating to the Trustee.

SECTION 6.05. <u>Accounting Records and Reports</u>. The Trustee shall keep or cause to be kept proper books of record and account in which complete and correct entries shall be made of all transactions made by it relating to the receipt, investment, disbursement, allocation and application of the Revenues and the proceeds of the Bonds. Such records shall specify the Account or Fund to which each investment (or portion thereof) held by the Trustee is to be allocated and shall set forth, in the case of each Investment Security, (a) its purchase price, (b) identifying information, including par amount, coupon rate, and payment dates, (c) the amount received at maturity or its sale price, as the case may be, (d) the amounts and dates of any payments made with respect to establishing market price, to the extent provided to it, or as the Trustee is otherwise directed in writing by the Borrower to retain with respect to establishing compliance with any requirements set forth in the Tax Certificate. Such records shall be open to inspection by

the Authority and any Holder at any reasonable time during regular business hours on reasonable notice.

SECTION 6.06. <u>Arbitrage Covenants</u>. The Authority and the Borrower each covenant and agree that it will not take any action, or fail to take any action that is within its control to take, if such action or failure to take such action would adversely affect the exclusion from gross income of the interest payable on the Tax-Exempt Bonds under Section 103 of the Code. Without limiting the generality of the foregoing, the Authority and the Borrower each covenants and agrees that it will comply with its requirements under the Tax Certificate.

(a) The Borrower will pay, or cause to be paid, from time to time all amounts required to be rebated to the United States pursuant to Section 148(f) of the Code and any temporary, proposed or final Regulations as may be applicable to the Tax-Exempt Bonds from time to time. This covenant shall survive payment in full or defeasance of such Bonds. The Authority and the Borrower specifically covenant to pay or cause to be paid to the United States at the times and in the amounts determined under Section 5.02(e) hereof the Rebate Requirement, as described in the Tax Certificate. The Trustee agrees to comply with all written Rebate Instructions of the Borrower given pursuant to the Tax Certificate; provided, however, that the Borrower shall be responsible for such Rebate Instructions complying with the Tax Certificate.

The Trustee conclusively shall be deemed to have complied with the provisions of this Section 6.06(a) if it follows the Rebate Instructions and directions of the Borrower and shall not be required to take any action under this Section 6.06(a) in the absence of such directions from the Borrower. The Trustee shall not be liable for any consequences resulting from its failure to act if no Rebate Instructions from the Borrower (or in the absence of Rebate Instructions from the Borrower, instructions from the Authority) are delivered to it.

(b) Notwithstanding any provision of this Section, if the Borrower shall provide to the Trustee and the Authority an Opinion of Bond Counsel that any action required under Section 5.02(e) or this Section 6.06 is no longer required, or that some further action is required to maintain the Tax-Exempt status of interest on the Tax-Exempt Bonds, the Trustee and the Authority may rely conclusively on such opinion in complying with the requirements of this Section, and the covenants contained herein shall be deemed to be modified to that extent.

## SECTION 6.07. Other Covenants.

(a) The Trustee shall promptly collect all amounts due from the Borrower pursuant to the Loan Agreement, shall perform all duties imposed upon it pursuant to the Loan Agreement and shall diligently enforce, and take all steps, actions and proceedings reasonably necessary for the enforcement of all of the rights of the Authority (except Reserved Rights) and all of the obligations of the Borrower pursuant to the Loan Agreement.

(b) The Authority shall not amend, modify or terminate any of the terms of the Loan Agreement, or consent to any such amendment, modification or termination, without the prior written consent of the Trustee. The Trustee shall give such written consent only if (1) the Trustee shall have received an opinion of Borrower's counsel to the effect that such amendment, modification or termination will not materially adversely affect the interests of the Bondholders or

result in any material impairment of the security hereby given for the payment of any affected Series of Bonds (for which purpose the Borrower's counsel may rely on such certification as to factual matters as the Borrower's counsel may deem appropriate), or (2) the Trustee first obtains the written consent of the Required Bondholders to such amendment, modification or termination, provided that, in the case of an Unanimous Consent Amendment, the Trustee shall not provide its consent without first having obtained the written consent of all of the Holders of the Bonds then Outstanding and an Opinion of Counsel to the effect that there will be no adverse effect on the Tax-Exempt status of the Tax-Exempt Bonds (unless the Holders of all of the Bonds then Outstanding shall have expressly waived such Opinion of Counsel). The Trustee and the Authority shall be entitled to rely upon an Opinion of Counsel with respect to the effect of any amendments hereto or to the Loan Agreement. The Trustee may in its discretion but shall not be obligated to give its written consent if such amendment, modification or termination affects the Trustee's own rights, duties or immunities.

(c) The Trustee shall not amend, modify or terminate or consent to any amendment, modification or termination, of the Bond Financing Documents (except as set forth in Section 6.07(b) or Article IX hereof), but the Trustee shall give such consent if (1) the Trustee shall have received an opinion of Borrower's counsel to the effect that such amendment, modification or termination will not materially adversely affect the interests of the Bondholders or result in any material impairment of the security hereby given for the payment of any affected Series of Bonds (for which purpose the Borrower's counsel may rely on such certification as to factual matters as the Borrower's counsel may deem appropriate) or (2) the Trustee first obtains the written consent of the Required Bondholders to such amendment, modification or termination; provided that, in the case of an Unanimous Consent Amendment, the Trustee shall not provide its consent without first having obtained the written consent of all of the Holders of the Bonds then Outstanding and an Opinion of Counsel to the effect that there will be no adverse effect on the Tax-Exempt status of the Tax-Exempt Bonds (unless the Holders of all of the Bonds then Outstanding shall have expressly waived such Opinion of Counsel). The Trustee shall be entitled to rely upon an Opinion of Counsel with respect to the effect of any such amendment, modification or termination. The Trustee may in its discretion but shall not be obligated to give its written consent if such amendment, modification or termination affects the Trustee's own rights, duties or immunities.

SECTION 6.08. Information to Beneficial Owners; Approvals and Veto Rights of Required Bondholders.

(a) The Trustee shall provide information to Holders and Beneficial Owners as provided in the Loan Agreement and in this Indenture. Such information shall be sent to Holders at their addresses on the registration books maintained by the Bond Registrar and to Beneficial Owners by filing with EMMA.

(b) Upon written request from the Borrower to the Trustee that the Trustee deliver to the Holders and the Beneficial Owners a notice from the Borrower (a copy of which notice shall be included with the Borrower's request to the Trustee) to the effect that an event or action has occurred under this Indenture or under the Loan Agreement that triggers any Veto Right, the Trustee shall promptly provide such notice from the Borrower to the Holders and the Beneficial Owners.

(c) While any monies remain on deposit in the Project Fund, if the Borrower submits a Conditional Subordinate Bond Funds Requisition to the Collateral Agent that takes exception to the certification set out in item (4) of the text of Exhibit E-2 attached to the Collateral Agency Agreement, then the Trustee shall promptly deliver written notice to the Holders and the Beneficial Owners (A) attaching a copy of the Conditional Subordinate Bond Funds Requisition and all related documentation provided by the Borrower and (B) informing the Holders and the Beneficial Owners that they have a Veto Right over funding the Conditional Subordinate Bond Funds Requisition. If the Required Bondholders deliver a Stop Funding Notice referring to the Trustee's notice within fifteen (15) days of the Trustee's notice, then the Trustee shall notify the Collateral Agent and the Borrower of the Stop Funding Notice and the Collateral Agent shall not fund the Conditional Subordinate Bond Funds Requisition pursuant to the provisions in Section 3.10(c) of the Collateral Agency Agreement. Notwithstanding the foregoing provisions of this Section 6.08(c), if the Borrower delivers to the Trustee a Required Bondholders Approval Certificate with respect to any Conditional Subordinate Bond Funds Requisition that takes exception to the certification set out in item (4) of the text of Exhibit E-2 attached to the Collateral Agency Agreement, then the Veto Right with respect to such exception shall immediately be deemed waived and the Trustee shall instruct the Collateral Agent to fund the Requisition as soon thereafter as practicable, subject to the rights of the Senior Bondholders pursuant to the provisions in Section 3.10(c) of the Collateral Agency Agreement.

(d) [Reserved.]

(e) Except for Stop Funding Notices pursuant to Section 6.08(c) above, which shall be governed in all respects by Section 6.08(c), whenever under the terms of this Indenture or the Loan Agreement, the Required Bondholders have a Veto Right or any right to object to or reject a proposed action or determination by the Borrower or any other party, the following shall control:

(1)The Borrower shall notify the Trustee that the Required Bondholders have a Veto Right and provide to the Trustee a notice, intended for the Holders and the Beneficial Owners, containing a sufficiently detailed description of the subject matter of the Veto Right;

(2)The Trustee shall deliver the Borrower's notice describing the subject matter of the Veto Right to all of the Holders and the Beneficial Owners as soon as practicable (but in any event within three (3) Business Days) following notification from the Borrower, together with any documentation or other information provided by the Borrower for the Holders and the Beneficial Owners to evaluate the Veto Right;

(3)If the Trustee receives a written instrument or written instruments executed by Persons who are identified as authorized to act on behalf of the applicable Beneficial Owners and in which such Persons shall represent in writing that (A) they are the Beneficial Owners of the Bonds and specifying the outstanding principal amounts of the Bonds of which they are the Beneficial Owners, and (B) they are exercising the applicable Veto Right, then, if the aggregate principal amount of the Bonds for which such written instruments are received represent the Required Bondholders, the Veto Right shall be exercised and the Trustee shall notify the Borrower no later than one Business Day following the receipt of such written instruments; and

(4) If the Trustee does not receive the written instrument(s) described in clause (3) above within thirty (30) days following the delivery of the notice by the Trustee pursuant to clause (2) above, then it shall be deemed that no Veto Right shall have been exercised and any right of the Required Bondholders to exercise the Veto Right shall have been waived, and the Trustee shall notify the Borrower of such no later than one (1) Business Day following the end of such 30-day period; provided that if the Borrower delivers to the Trustee a Required Bondholders Approval Certificate under the terms of which the applicable Veto Right is waived, then the Veto Right shall immediately be deemed waived and the Trustee shall so notify the Borrower no later than one (1) Business Day following the receipt of such Required Bondholders Approval Certificate.

(f) Any direction shall be binding upon the Holder or Beneficial Owner of the Bond giving such direction and, anything herein to the contrary notwithstanding, upon any subsequent Holder or Beneficial Owner of that Bond and of any Bond issued in exchange therefor (regardless of whether the subsequent Holder or Beneficial Owner has notice of the relevant event). A direction, however, may be revoked by a writing to the Trustee, by the Holder or Beneficial Owner who gave the direction or by a subsequent Holder or Beneficial Owner of the Bond at any time prior to the filing by the Trustee of the statement described in the next sentence. Upon the receipt of direction to take a specified action (or failure of the requisite aggregate principal amount to veto an action subject to their Veto Right within the permitted timeframe) from the requisite aggregate principal amount of Holders or Beneficial Owners, the Trustee shall make and file with the Authority, the Collateral Agent and the Borrower a written statement that the Holders or Beneficial Owners of the required percentage of Bonds have filed direction (or failed to veto) in response to such event. That written statement shall be conclusive evidence that the directions have been so filed or that such vetoes have not been received.

(g) If the Holders or Beneficial Owners of the required percentage in aggregate principal amount of Bonds outstanding shall have exercised a Veto Right, provided direction, or failed to provide a Veto Right within applicable time limits, no Holder or Beneficial Owner shall have any right to object to any subsequent action taken or required to be taken by (i) the Trustee or Collateral Agent upon receipt of such direction or upon noting such failure to veto or (ii) the Borrower upon the receipt of certification of such Veto Right, direction or failure to exercise a Veto Right.

(h) Any notice delivered by the Trustee to the Beneficial Owners by filing with EMMA shall be deemed effective notice for all purposes of the Bond Financing Documents.

(i) For all purposes of this Indenture and the other Bond Financing Documents, in any circumstance in which a consent, approval or waiver by the Required Bondholders is required or permitted for any purpose, such consent, approval or waiver may be evidenced by a Required Bondholders Approval Certificate specifying the circumstance with respect to which the Required Bondholders Approval Certificate is given. Upon delivery to the Trustee of a Required Bondholders Approval Certificate, the Trustee and the Collateral Agent shall be entitled to rely thereon for all purposes of this Indenture and the other Bond Financing Documents, and to treat the Required Bondholders Approval Certificate as definitively establishing the consent, approval or waiver with respect to the circumstance for which the Bondholders Approval Certificate is given.

(j) At any time and from time to time upon notice from the Borrower to the Trustee, the Trustee shall use commercially reasonable efforts to obtain (including by making a request of DTC and otherwise) a list of the then current names and contact information for the Beneficial Owners. The Trustee shall commence making such efforts promptly following the delivery to the Trustee of the Borrower's notice and shall thereafter promptly deliver to the Borrower all information obtained by the Trustee in response to such efforts.

SECTION 6.09. <u>Waiver of Laws</u>. The Authority shall not at any time insist upon or plead in any manner whatsoever, or claim or take the benefit or advantage of, any stay or extension law now or at any time hereafter in force that may affect the covenants and agreements contained in this Indenture or in the Bonds, and all benefit or advantage of any such law or laws is hereby expressly waived by the Authority to the extent permitted by law.

SECTION 6.10. <u>Further Assurances</u>. The Authority will make, execute and deliver any and all such further indentures, instruments and assurances as may be reasonably necessary or proper to carry out the intention or to facilitate the performance of this Indenture and for the better assuring and confirming unto the Holders of the Bonds of the rights and benefits provided in this Indenture.

#### **ARTICLE VII**

# EVENTS OF DEFAULT AND REMEDIES OF BONDHOLDERS; MEETINGS AND ACTIONS BY HOLDERS OR BENEFICIAL OWNERS

SECTION 7.01. <u>Events of Default; Acceleration; Waiver of Default</u>. Each of the following events which has occurred and is continuing shall constitute an "Event of Default" hereunder:

(a) default in the due and punctual payment of the principal of, or premium (if any) on, any Bond when and as the same shall become due and payable, whether at maturity as therein expressed, by proceedings for redemption, by declaration or otherwise;

(b) default in the due and punctual payment of any installment of interest on any Bond, when and as the same shall become due and payable;

(c) failure by the Authority to perform or observe any other of the covenants, agreements or conditions on its part in this Indenture or in the Bonds contained, and the continuation of such failure for a period of 30 days after written notice thereof, specifying such default and requiring the same to be remedied, shall have been given to the Authority and the Borrower by the Trustee, or to the Authority, the Borrower and the Trustee by the Required Bondholders; or

## (d) the occurrence and continuance of a Loan Default Event.

No default specified in (c) above shall constitute an Event of Default unless the Authority shall have failed to correct such default within the applicable period. At the direction of the Required Bondholders, the Trustee will agree in writing to an extension of the period referred to in (c) above, and the Trustee (and the Holders and Beneficial Owners of the Bonds) will not unreasonably withhold such agreement if the default cannot be corrected within such period and corrective action is instituted within such period and diligently pursued until corrected. With regard to any alleged default concerning which notice is given to the Borrower under the provisions of this Section 7.01, the Borrower may perform any covenant or obligation the non-performance of which is alleged in said notice to constitute a default with full power to do any and all things and acts to the same extent that the Authority could.

During the continuance of an Event of Default, unless the principal of all the Bonds shall have already become due and payable, the Trustee may, and, upon the written request of the Required Bondholders, the Trustee shall, subject to the provisions of the Collateral Agency Agreement, promptly upon such occurrence, by notice in writing to the Authority and the Borrower, declare the principal of all the Bonds then Outstanding, and the interest accrued thereon, to be due and payable immediately, and upon any such declaration the same shall become and shall be immediately due and payable, anything in this Indenture or in the Bonds contained to the contrary notwithstanding. The Trustee shall promptly notify the Bondholders of the date of declaration of acceleration in the same manner as for a notice of redemption.

The preceding paragraph, however, is subject to the condition that if, at any time after the principal of the Bonds shall have been so declared due and payable, and before any judgment or decree for the payment of the moneys due shall have been obtained or entered as hereinafter provided, there shall have been deposited with the Trustee a sum sufficient to pay all the principal of the Bonds matured prior to such declaration and all matured installments of interest (if any) upon all the Bonds, with interest on such overdue installments of principal as provided in the Loan Agreement, and the reasonable fees and expenses of the Trustee, including reasonable fees and expenses of its attorneys, and any and all other defaults known to the Trustee (other than in the payment of principal of and interest on the Bonds due and payable solely by reason of such declaration) shall have been made good or cured to the satisfaction of the Trustee or provision deemed by the Trustee to be adequate shall have been made therefor, then, and in every such case, the Required Bondholders, by written notice to the Authority and to the Trustee, may, on behalf of the Holders and Beneficial Owners of all the Bonds, rescind and annul such declaration and its consequences and waive such default; but no such rescission and annulment shall extend to or shall affect any subsequent default, or shall impair or exhaust any right or power consequent thereon.

SECTION 7.02. <u>Institution of Legal Proceedings by Trustee</u>. Subject to Section 7.01 hereof and the provisions of the Collateral Agency Agreement, if one or more of the Events of Default shall happen and be continuing, the Trustee in its discretion may, and upon the written request of the Required Bondholders and upon being indemnified to its satisfaction therefor pursuant to Section 8.03(f) hereof shall, proceed to protect or enforce its rights or the rights of the Holders or Beneficial Owners of Bonds under the Act or under this Indenture or the Loan Agreement by a suit in equity or action at law, either for the specific performance of any covenant or agreement contained herein or therein, or in aid of the execution of any power herein or therein

granted, or by mandamus or other appropriate proceeding for the enforcement of any other legal or equitable remedy as the Trustee shall deem most effectual in support of any of its rights or duties hereunder.

SECTION 7.03. <u>Application of Revenues and Other Funds After Event of</u> <u>Default</u>. If an Event of Default shall occur and be continuing, all Revenues and any other funds then held or thereafter received by the Trustee under any of the provisions of this Indenture (except for any funds in the Rebate Fund and subject to Sections 6.06 and 11.11 hereof) shall be promptly applied by the Trustee as follows and in the following order:

(a) To the payment of reasonable fees and expenses of the Trustee (including reasonable fees and disbursements of its counsel) incurred in and about the performance of its powers and duties under this Indenture;

(b) To the payment of the principal of and interest then due on the Bonds (upon presentation of the Bonds to be paid, and stamping thereon of the payment if only partially paid, or surrender thereof if fully paid) subject to the provisions of this Indenture (including Section 6.02 hereof), as follows:

(i) Unless the principal of all of the Bonds shall have become or have been declared due and payable,

<u>First</u>: To the payment to the Persons entitled thereto of all installments of interest then due in the order of the maturity of such installments, and, if the amount available shall not be sufficient to pay in full any installment or installments maturing on the same date, then to the payment thereof ratably, according to the amounts due thereon, to the Persons entitled thereto, without any discrimination or preference; and

<u>Second</u>: To the payment to the Persons entitled thereto of the unpaid principal of any Bonds which shall have become due, whether at maturity or by call for redemption, with interest on the overdue principal at the rate borne by the respective Bonds, and, if the amount available shall not be sufficient to pay in full all the Bonds, together with such interest, then to the payment thereof ratably, according to the amounts of principal due on such date to the Persons entitled thereto, without any discrimination or preference.

(ii) If the principal of all of the Bonds shall have become or have been declared due and payable, to the payment of the principal and interest then due and unpaid upon the Bonds, with interest on the overdue principal at the rate borne by the Bonds, and, if the amount available shall not be sufficient to pay in full the whole amount so due and unpaid, then to the payment thereof ratably, without preference or priority of principal over interest, or of interest over principal, or of any installment of interest over any other installment of interest, or of any Bond over any other Bond, according to the amounts due respectively for principal and interest, to the Persons entitled thereto without any discrimination or preference.

SECTION 7.04. Trustee to Represent Bondholders. The Trustee is hereby irrevocably appointed (and the successive respective Holders of the Bonds, by taking and holding the same, shall be conclusively deemed to have so appointed the Trustee) as trustee and true and lawful attorney-in-fact of the Holders of the Bonds for the purpose of exercising and prosecuting on their behalf or through the Collateral Agent (by instructing the Collateral Agent to deliver "Notices of Default", "Notices of Account Restriction" or other notices required or permitted under the Collateral Agency Agreement, or otherwise) as may be appropriate such rights and remedies as may be available to such Holders under the provisions of the Bonds, this Indenture, the Loan Agreement, the Collateral Agency Agreement, the Collateral Instruments, the Investors' Pledge Agreement, the Act and applicable provisions of any other law. Subject to Section 7.01 hereof and the provisions of the Collateral Agency Agreement, upon the occurrence and during the continuance of an Event of Default, in a Borrower bankruptcy or insolvency case or upon any other occasion giving rise to a right in the Trustee to represent the Bondholders, the Trustee in its discretion may, and upon the written request of the Required Bondholders, and upon being indemnified to its satisfaction therefor, shall, proceed to protect or enforce its rights and the rights of the Holders by such appropriate action, at law or in equity, including but not limited to a suit, mandamus, objection, statement, declaration, motion, proof of claim, appeal or other action or proceedings as it shall deem most effectual to protect and enforce any such right and otherwise to collect in full what is owed by the Borrower under the Bond Financing Documents, including by specific performance of any covenant or agreement contained herein, or in aid of the execution of any power herein granted, or for the enforcement of any other appropriate legal or equitable right or remedy vested in the Trustee or in such Holders under this Indenture, the Loan Agreement, the Collateral Agency Agreement, the Collateral Instruments, the Investors' Pledge Agreement, the Act or any other law or at equity; and upon instituting any proceeding, the Trustee shall be entitled, as a matter of right, to the appointment of a receiver of the Revenues and other assets pledged under this Indenture, pending such proceedings. All rights of action under this Indenture, the Bonds, the Collateral Instruments, the Investors' Pledge Agreement or otherwise may be prosecuted and enforced by the Trustee without the possession of any of the Bonds or the production thereof in any proceeding relating thereto, and any such suit, action or proceeding instituted by the Trustee shall be brought in the name of the Trustee for the benefit and protection of all the Holders of such Bonds, subject to the provisions of this Indenture (including Section 6.02 hereof).

SECTION 7.05. <u>Bondholders' Direction of Proceedings</u>. Anything in this Indenture to the contrary notwithstanding, but subject to Section 8.03(f), the Required Bondholders shall have the right, by an instrument or concurrent instruments in writing executed and delivered to the Trustee, to direct the method of conducting all remedial proceedings taken by the Trustee hereunder, provided that such direction shall not be otherwise than in accordance with law and the provisions of this Indenture, and that the Trustee shall have the right to decline to follow any such direction which in the opinion of the Trustee would be unjustly prejudicial to Bondholders not parties to such direction or for which it has not been provided adequate indemnity.

SECTION 7.06. <u>Limitation on Bondholders' Right to Sue</u>. Subject to Section 7.01 hereof and the provisions of the Collateral Agency Agreement, no Holder or Beneficial Owner of any Bond shall have the right to institute any suit, action or proceeding at law or in equity, for the protection or enforcement of any right or remedy under this Indenture, the

Loan Agreement, the Act or any other applicable law with respect to such Bond, unless (1) such Holder or Beneficial Owner shall have given to the Trustee written notice of the occurrence of an Event of Default; (2) the Required Bondholders shall have made written request upon the Trustee to exercise the powers hereinbefore granted or to institute such suit, action or proceeding in its own name; (3) subject to Section 8.03(f) hereof, such Holder(s) or Beneficial Owners(s) shall have tendered to the Trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request; and (4) the Trustee shall have refused or omitted to comply with such request for a period of 60 days after such written request shall have been received by, and said tender of indemnity shall have been made to, the Trustee.

Such notification, request, tender of indemnity and refusal or omission are hereby declared, in every case, to be conditions precedent to the exercise by any Holder or Beneficial Owner of Bonds of any remedy hereunder or under law; it being understood and intended that no one or more Holders or Beneficial Owners of Bonds shall have any right in any manner whatever by such Holders' or Beneficial Owners' action to affect, disturb or prejudice the security of this Indenture or the rights of any other Holders or Beneficial Owner of Bonds, or to enforce any right under this Indenture, the Loan Agreement, the Act or other applicable law with respect to the Bonds, except in the manner herein provided, and that all proceedings at law or in equity to enforce any such right shall be instituted, had and maintained in the manner herein provided and for the benefit and protection of all Holders of the Outstanding Bonds, subject to the provisions of this Indenture (including Section 6.02 hereof).

SECTION 7.07. <u>Absolute Obligation of Authority</u>. Nothing in Section 7.06 or in any other provision of this Indenture, or in the Bonds, contained shall affect or impair the obligation of the Authority, which is absolute and unconditional, to pay the principal of and interest on the Bonds to the respective Holders of the Bonds at their respective dates of maturity, or upon call for redemption, as herein provided, but only out of the Revenues and other assets herein pledged therefor, or affect or impair the right of such Holders, which is also absolute and unconditional, to enforce such payment by virtue of the contract embodied in the Bonds.

SECTION 7.08. <u>Termination of Proceedings</u>. In case any proceedings taken by the Trustee or any one or more Bondholders or Beneficial Owners on account of any Event of Default shall have been discontinued or abandoned for any reason or shall have been determined adversely to the Trustee or the Bondholders or Beneficial Owners, then in every such case the Authority, the Trustee and the Bondholders or Beneficial Owners, subject to any determination in such proceedings, shall be restored to their former positions and rights hereunder, severally and respectively, and all rights, remedies, powers and duties of the Authority, the Trustee and the Bondholders and Beneficial Owners shall continue as though no such proceedings had been taken.

SECTION 7.09. <u>Remedies Not Exclusive</u>. Subject to the provisions of Section 7.06, no remedy herein conferred upon or reserved to the Trustee or to the Holders or Beneficial Owners of the Bonds is intended to be exclusive of any other remedy or remedies, and each and every such remedy, to the extent permitted by law, shall be cumulative and in addition to any other remedy given hereunder or now or hereafter existing at law or in equity or otherwise.

SECTION 7.10. <u>No Waiver of Default</u>. No delay or omission of the Trustee or of any Holder or Beneficial Owner of the Bonds to exercise any right or power arising upon the

occurrence of any default shall impair any such right or power or shall be construed to be a waiver of any such default or an acquiescence therein; and every power and remedy given by this Indenture to the Trustee or to the Holders or Beneficial Owners of the Bonds may be exercised from time to time and as often as may be deemed expedient.

#### ARTICLE VIII THE TRUSTEE, THE PAYING AGENT, THE BOND REGISTRAR AND COLLATERAL AGENT

SECTION 8.01. <u>Duties, Immunities and Liabilities of Trustee</u>. The Trustee and the Registrar shall, prior to an Event of Default, and after the curing of all Events of Default which may have occurred, perform such duties and only such duties as are specifically set forth in this Indenture. The Trustee shall, during the existence of any Event of Default (which has not been cured), exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in their exercise, as prudent persons would exercise or use under the circumstances in the conduct of their own affairs. Notwithstanding any other provision of this Indenture, the Trustee shall perform all duties required of it hereunder. The Trustee shall not be liable for any action taken or omitted by it in the performance of its duties under this Indenture except for its own negligence or willful misconduct.

No provision of this Indenture shall be construed to relieve the Trustee or the Registrar from liability for its own negligent action or its own negligent failure to act, except that:

(a) Prior to such an Event of Default hereunder and after the curing of all Events of Default which may have occurred,

(i) the duties and obligations of the Trustee and the Registrar, as the case may be, shall be determined solely by the express provisions of this Indenture, the Trustee and Registrar, as the case may be, shall not be liable except for the performance of such duties and obligations as are specifically set forth in this Indenture, and no implied covenants or obligations shall be read into this Indenture against the Trustee and the Registrar, as the case may be; and

(ii) in the absence of bad faith on the part of the Trustee or the Registrar, as the case may be, the Trustee or Registrar, as the case may be, may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon any certificate or opinion furnished to the Trustee or the Registrar, as the case may be, conforming to the requirements of this Indenture; and

(b) At all times, regardless of whether or not any Event of Default shall exist,

(i) the Trustee and the Registrar shall not be liable for any error of judgment made in good faith by a responsible officer, director or employee of the Trustee or the Registrar unless it shall be proved that the Trustee or the Registrar, as the case may be, was negligent in ascertaining the pertinent facts;

(ii) neither the Trustee nor the Registrar shall be liable with respect to any action taken or omitted to be taken by it in good faith in accordance with the direction of the

Holders or Beneficial Owners (where applicable) of not less than a majority, or such larger percentage as may be required hereunder, in aggregate principal amount of the Bonds at the time outstanding relating to the time, method and place of conducting any proceeding for any remedy available to the Trustee or Registrar, or exercising any trust or power conferred upon the Trustee or the Registrar under this Indenture.

None of the provisions contained in this Indenture shall require the Trustee or Registrar to expend or risk their own funds or otherwise incur individual financial liability in the performance of any of their duties or in the exercise of any of their rights or powers other than to notify the Authority that they intend to take no particular action or to notify the Bondholders that they will take no action, if adequate indemnity against such risk or liability is not assured to them. All indemnifications and releases from liability granted herein to the Trustee shall extend to the directors, officers, employees, representatives and agents of the Trustee.

(c) The Authority may remove the Trustee upon thirty (30) days written notice at any time upon its own decision or (unless an Event of Default has occurred and is continuing) upon Request of the Borrower, and shall remove the Trustee (and replace with a Trustee described in such removal) if at any time requested to do so by an instrument or concurrent instruments in writing signed by the Holders of not less than a majority in aggregate principal amount of the Bonds then Outstanding (or their attorneys duly authorized in writing) or if at any time the Trustee shall cease to be eligible in accordance with subsection (f) of this Section, or shall become incapable of acting, or shall be adjudged bankrupt or insolvent, or a receiver of the Trustee or its property shall be appointed, or any public officer shall take control or charge of the Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation, in each case by giving written notice of such removal to the Trustee, and thereupon shall appoint a successor Trustee by an instrument in writing.

(d) The Trustee may at any time resign by giving written notice of such resignation to the Authority and by giving the Bondholders and Beneficial Owners notice of such resignation by mail at the addresses shown on the registration books maintained by the Trustee. Upon receiving such notice of resignation, the Authority shall promptly appoint a successor Trustee by an instrument in writing. The Trustee shall not be relieved of its duties until such successor Trustee has accepted appointment.

(e) Any removal or resignation of the Trustee pursuant to (c) or (d) above and appointment of a successor Trustee shall become effective upon acceptance of appointment by the successor Trustee. If no successor Trustee shall have been appointed and have accepted appointment within 45 days of giving notice of removal or notice of resignation as aforesaid, the resigning Trustee or any Bondholder (on behalf of itself and all other Bondholders) may petition any court of competent jurisdiction for the appointment of a successor Trustee, and such court may thereupon, after such notice (if any) as it may deem proper, appoint such successor Trustee. Any successor Trustee appointed under this Indenture shall signify its acceptance of such appointment by executing and delivering to the Authority and to its predecessor Trustee a written acceptance thereof, and thereupon such successor Trustee, without any further act, deed or conveyance, shall become vested with all the moneys, estates, properties, rights, powers, trusts, duties and obligations of such predecessor Trustee, with like effect as if originally named Trustee herein; but, nevertheless at the Request of the Authority or the request of the successor Trustee, upon the

payment of such predecessor Trustee's fees and expenses, such predecessor Trustee shall execute and deliver any and all instruments of conveyance or further assurance and do such other things as may reasonably be required for more fully and certainly vesting in and confirming to such successor Trustee all the right, title and interest of such predecessor Trustee in and to any property held by it under this Indenture and shall pay over, transfer, assign and deliver to the successor Trustee any money or other property subject to the trusts and conditions herein set forth. Upon request of the successor Trustee, the Authority shall execute and deliver any and all instruments as may be reasonably required for more fully and certainly vesting in and confirming to such successor Trustee all such moneys, estates, properties, rights, powers, trusts, duties and obligations. Upon acceptance of appointment by a successor Trustee as provided in this subsection, the successor Trustee shall mail a notice of the succession of such Trustee to the trusts hereunder to the Bondholders at the addresses shown on the registration books maintained by the Trustee.

(f) Any Trustee appointed under the provisions of this Section in succession to the Trustee shall be a trust company, association, corporation or bank having the powers of a trust company which either (i) has a combined capital and surplus of at least ten billion dollars (\$10,000,000,000), and is subject to supervision or examination by federal or state authority or (ii) is a wholly-owned subsidiary of a bank, trust company, corporation or bank holding company meeting, on an aggregate basis, the tests set out in clause (i). If such bank, association, bank holding company, corporation or trust company publishes a report of condition at least annually, pursuant to law or to the requirements of any supervising or examining authority above referred to, then for the purpose of this subsection the combined capital and surplus of such bank, association, bank holding company, corporation or trust company shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. In case at any time the Trustee shall cease to be eligible in accordance with the provisions of this subsection (f), the Trustee shall resign immediately in the manner and with the effect specified in this Section.

(g) The Trustee is not responsible for effecting, maintaining or renewing any policies of insurance of the Borrower or for any representations regarding the sufficiency of any policy of insurance of the Borrower and shall not be responsible for monitoring or reviewing any policy of insurance of the Borrower or be obligated to file claims or proofs of loss in the case of insurance or to pay taxes or assessments.

(h) The Trustee is not responsible for filing financing or continuation statements.

(i) Subject to the provisions of Sections 5.03 and 10.03 hereof, all moneys received by the Trustee shall, until used or applied as herein provided, be held in trust for the purposes for which they were received and shall be held segregated from all other funds held by the Trustee. The Trustee shall be under no liability for interest on any moneys received by them hereunder except such as it may agree with the Authority to pay thereon. Any interest allowed on any such moneys shall be deposited in the fund or account to which such moneys are credited. Any moneys held by the Trustee may be deposited by it in its banking department and invested as provided herein.

(j) The Trustee agrees to accept and act upon facsimile transmission of written instructions or directions pursuant to this Indenture provided, however, that: (1) subsequent to such facsimile transmission of written instructions or directions the Trustee shall forthwith receive the originally executed instructions or directions, (2) such originally executed instructions or directions shall be signed by a person as may be designated and authorized to sign for the party signing such instructions or directions, and (3) the Trustee shall have received a current incumbency certificate containing the specimen signature of such designated person. Instructions or directions executed by an Authorized Representative of the Borrower shall be deemed to be in compliance with clauses (2) and (3) of this paragraph.

(k) In the event the Borrower fails to take out or maintain the full insurance coverage required by Section 5.7 of the Loan Agreement, the Trustee may (but shall not be obligated to), after three (3) days' written notice to the Borrower (unless such insurance would lapse during such notice period) take out the required policies of insurance and pay the premiums on the same, in which event the Trustee shall promptly notify the Borrower of the same.

SECTION 8.02. <u>Merger or Consolidation</u>. Any company into which the Trustee may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which the Trustee may sell or transfer all or substantially all of its corporate trust business, provided such company shall be eligible under subsection (f) of Section 8.01 shall be the successor to such Trustee without the execution or filing of any paper or any further act, anything herein to the contrary notwithstanding.

# SECTION 8.03. Liability of Trustee.

(a) The recitals of facts herein and in the Bonds contained shall be taken as statements of the Authority, and the Trustee shall assume no responsibility for the correctness of the same or make any representations as to the validity or sufficiency of this Indenture or of the Bonds. In addition, the Trustee shall assume no responsibility with respect to this Indenture or the Bonds other than in connection with the duties or obligations assigned to or imposed upon the Trustee herein or in the Bonds. The Trustee shall, however, be responsible for its representations contained in its certificate of authentication on the Bonds. The Trustee shall not be liable in connection with the performance of its duties hereunder, except for its own negligence or willful misconduct. The Trustee may become the Holder of Bonds with the same rights it would have if it were not Trustee and, to the extent permitted by law, may act as depositary for and permit any of its officers or directors to act as a member of, or in any other capacity with respect to, any committee formed to protect the rights of Bondholders, whether or not such committee shall represent the Holders of a majority in principal amount of the Bonds then Outstanding.

(b) The Trustee may execute any of the trusts or powers set forth herein and perform the duties required of it hereunder by or through attorneys, agents, or receivers. The Trustee shall be entitled to the advice of counsel concerning all matters of trusts and its duties herein.

(c) The Trustee shall not be liable for any error of judgment made in good faith by a responsible officer, director or employee unless it shall be proved that the Trustee was negligent in ascertaining the pertinent facts.

(d) The Trustee shall not be liable with respect to any action or inaction taken or omitted to be taken by it in good faith in accordance with the direction of the Holders of not less than a majority in aggregate principal amount of the Bonds at the time Outstanding relating to the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee under this Indenture.

(e) The Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request, order or direction of any of the Bondholders pursuant to the provisions of this Indenture unless such Bondholders shall have offered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities which may be incurred therein or thereby.

(f) The Trustee shall not be liable for any action or inaction taken by it in good faith and believed by it to be authorized or within the discretion or rights or powers conferred upon it by this Indenture.

(g) The Trustee shall not be deemed to have knowledge of any default or Event of Default hereunder other than payment defaults unless and until it shall have received written notice thereof, at its Corporate Trust Office. Except as otherwise expressly provided herein, the Trustee shall not be bound to ascertain or inquire as to the performance or observance of any of the terms, conditions, covenants or agreements herein or of any of the documents executed in connection with the Bonds, or as to the existence of a default or Event of Default thereunder. The Trustee shall not be responsible for the validity or effectiveness of any collateral given to or held by it.

(h) No provision of this Indenture shall require the Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of its rights or powers, other than to notify the Authority that it intends to take no particular action or to notify the Bondholders that it will take no action, if repayment of such funds or adequate indemnity against such risk or liability is not reasonably assured to it. The Trustee shall, however, in any case, pay principal of and premium, if any, or interest on the Bonds as it becomes due and accelerate the Bonds as required by this Indenture, notwithstanding anything to the contrary herein.

(i) The Trustee shall have no responsibility, opinion or liability with respect to any information statement or recital found in the Offering Memorandum or other disclosure material, prepared or distributed with respect to the issuance of such bonds, except for information provided by the Trustee.

(j) In no event shall the Trustee be liable for incidental, special, consequential or punitive damages or penalties (including but limited to profits), even if the Trustee has been advised of the likelihood of such damages or penalty and regardless of the form of action.

SECTION 8.04. <u>Right of Trustee to Rely on Documents</u>. The Trustee shall be protected, absent its own negligence or willful misconduct, in acting upon any notice, resolution, request, consent, order, certificate, report, opinion, bond or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties; in particular, the Trustee shall be entitled to rely upon a Certificate of the Borrower to the effect that no Act of Bankruptcy with respect to the Borrower or any other member of the Group has occurred. The Trustee may consult with counsel, who may be counsel of or to the Authority or the Borrower, with regard to legal questions, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance therewith.

The Trustee shall not be bound to recognize any Person as the Holder of a Bond unless and until such Bond is submitted for inspection, if required, and its title thereto is satisfactorily established, if disputed.

Whenever in the administration of the trusts imposed upon it by this Indenture the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action hereunder, such matter (unless other evidence in respect thereof be herein specifically prescribed) may be deemed to be conclusively proved and established by a Certificate of the Authority, and such Certificate shall be full warrant to the Trustee for any action taken or suffered in good faith under the provisions of this Indenture in reliance upon such Certificate, but in its discretion the Trustee may, in lieu thereof, accept other evidence of such matter or may require such additional evidence as it may deem reasonable.

SECTION 8.05. <u>Preservation and Inspection of Documents</u>. All documents received by the Trustee under the provisions of this Indenture shall be retained in its possession and shall be subject at all reasonable times to the inspection of the Authority and any Bondholder, and their agents and representatives duly authorized in writing, at reasonable hours and under reasonable conditions.

SECTION 8.06. Compensation and Indemnification. The Authority shall pay to the Trustee, the Paying Agent and the Registrar (solely from Additional Payments) from time to time reasonable compensation for all services rendered under this Indenture, and also all reasonable expenses, charges, legal and consulting fees and other disbursements and those of its attorneys, agents and employees, incurred in and about the performance of its powers and duties under this Indenture, and following an Event of Default hereunder the Trustee shall have a lien therefor on any and all funds (except the Rebate Fund, the moneys held for particular Bonds called for redemption (including non-presented Bonds) and moneys held pursuant to Section 10.03) at any time held by it under this Indenture which lien shall be prior and superior to the lien of the Holders of the Bonds. The Authority further covenants and agrees, to the extent authorized by law, and solely from Additional Payments to indemnify and save the Trustee, the Paying Agent and the Registrar, and their officers, directors, employees, agents and representatives, harmless against any losses, expenses and liabilities which they may incur arising out of or in the exercise and performance of its powers and duties hereunder, including the costs and expenses of defending against any claim of liability, but excluding liabilities which are due to the negligence or willful default of the indemnified party. The obligations of the Authority under this Section shall survive

resignation or removal of the Trustee, the Paying Agent and the Registrar under this Indenture and payment of the Bonds and discharge of this Indenture.

SECTION 8.07. <u>Paying Agent</u>. The Authority, but only if there are at least twenty-five (25) Holders of Bonds, may appoint and at all times have a Paying Agent in such cities as the Authority deems desirable, for the payment of the principal of, and the interest (and premium, if any) on, the Bonds. It shall be the duty of the Trustee to make such credit arrangements with such Paying Agent as may be necessary to assure, to the extent of the moneys held by the Trustee for such payment, the prompt payment of the principal of, and interest (and premium, if any) on, the Bonds presented at either place of payment. The Trustee will not be responsible for the failure of any party to make funds available to the Trustee or Paying Agent. The Trustee is the initial Paying Agent. If the Paying Agent is any entity other than the Trustee, (i) the Paying Agent may not hold any such funds and (ii) the Paying Agent shall be subject to the same standards and qualifications applicable to the Trustee as set forth in this Indenture.

SECTION 8.08. <u>Notices to the Authority</u>. The Trustee shall provide the Authority with the following:

(a) On or before December 15 of each year during which any of the Bonds are Outstanding, commencing December 15, 2019, or upon any significant change that occurs which would adversely impact the Trustee's ability to perform its duties under this Indenture, a written disclosure of any such change, or if applicable, of any conflicts that the Trustee may have as a result of other business dealings between the Trustee and the Borrower, provided that (1) the Trustee shall have no independent obligation to determine the occurrence of a significant change that would adversely impact the Trustee's ability to perform its duties under this Indenture or any conflicts that the Trustee may have, and (2) the Trustee may conclusively rely on a Certificate of the Borrower delivered pursuant to Section 5.15(a)(viii) of the Loan Agreement to the extent of the information required in such certificate for purposes of this subparagraph (a). In the absence of the receipt of written notice from the Borrower to the contrary, the Trustee may assume no such change has occurred and no such conflicts exists. If there are not such instances of a significant change, or of a conflict existing, then a statement to that effect shall be provided on such date;

(b) If there is a failure to pay any amount of principal, or premium, if any, or interest on any Bond when due; or if there is a failure of the Borrower to provide any notice, certification or report specified in Section 5.15 of the Loan Agreement; or if there is an occurrence of an Event of Default hereunder, of which the Trustee has actual knowledge, the Trustee shall provide written notice to the Authority within five Business Days of receipt of notice of its occurrence and such notice shall include a statement setting forth the steps the Trustee is taking to remedy such failure or Event of Default, as applicable; and

(c) As of December 31 and June 30 of each year, commencing June 30, 2020, a Trustee Audit Letter, in the form of Exhibit B attached hereto, which shall be received no later than January 15 or July 15 next following each such December 31 or June 30, as the case may be.

SECTION 8.09. <u>Appointment and Duties of Bond Registrar</u>. The Authority hereby designates the Trustee as initial Bond Registrar. The Bond Registrar shall not be entitled

to any compensation from the Authority or the Trustee but, rather, shall only be entitled to compensation from the Borrower.

SECTION 8.10. <u>Eligibility of Bond Registrar</u>. A Bond Registrar appointed pursuant to this Indenture shall be a corporation or association organized and doing business under the laws of the United States or any state or the District of Columbia, subject to supervision or examination by federal or state authority and shall either (i) have a combined capital and surplus of at least fifty million dollars (\$50,000,000), or (ii) be a wholly-owned subsidiary of a bank, association, trust company or bank holding company meeting, on an aggregate basis, the tests set out in clause (i). If such bank, association, corporation or trust company publishes a report of condition at least annually, pursuant to law or to the requirements of any supervising or examining authority above referred to, then for the purpose of this subsection the combined capital and surplus of such bank, association, corporation or trust company shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. The Bond Registrar or the bank, association, trust company or bank holding company of which the Bond Registrar is a wholly-owned subsidiary shall have a rating of at least Moody's "Baa3/P-3" or Fitch "BBB-/F3" or an equivalent rating from another Rating Agency, or be approved by the Rating Agency.

SECTION 8.11. <u>Bond Registrar's Performance of Duties</u>. The Bond Registrar shall perform the duties provided for in this Indenture and in exercising such duties shall be subject to the same standards and entitled to the same rights and immunities applicable to the Trustee as set forth in this Indenture and shall not be liable for any action or omission to act except for negligence or willful misconduct.

SECTION 8.12. Replacement of Bond Registrar. The Bond Registrar may resign by notifying the Authority, the Trustee and the Bondholders at least thirty (30) days before the effective date of such resignation. The Authority may remove the Bond Registrar at any time upon its own decision or upon Request of the Borrower or the Trustee, and shall remove the Bond Registrar (and replace with a Bond Registrar described in such removal) if at any time requested to do so by an instrument or concurrent instruments in writing signed by the Holders of not less than a majority in aggregate principal amount of the Bonds then Outstanding (or their attorneys duly authorized in writing) or if at any time the Bond Registrar shall cease to be eligible in accordance with Section 8.10, or shall become incapable of acting, or shall be adjudged bankrupt or insolvent, or a receiver of the Bond Registrar or its property shall be appointed, or any public officer shall take control or charge of the Bond Registrar or of its property or affairs for the purpose of rehabilitation, conservation or liquidation, in each case by giving written notice of such removal to the Bond Registrar and the Borrower and thereupon shall appoint, with the consent of the Borrower, a successor Bond Registrar by an instrument in writing. No resignation or removal shall be effective until the successor has delivered an acceptance of its appointment to the Trustee and the predecessor Bond Registrar.

In the event of the resignation or removal of the Bond Registrar, such Bond Registrar shall pay over, assign and deliver any moneys held by it as Bond Registrar to its successor, or if there is no successor, to the Trustee. In the event that for any reason there shall be a vacancy in the office of Bond Registrar, the Trustee shall act as such Bond Registrar to the extent it has operational capacity to perform such tasks.

SECTION 8.13. <u>Appointment and Direction of Collateral Agent</u>. Pursuant to request of the Borrower, the Trustee hereby designates UMB Bank, N.A. a national banking association organized and existing under and by virtue of the laws of the United States of America, as the initial Collateral Agent. Whenever the terms of any of the Collateral Instruments expressly requires the consent of the Collateral Agent before an action may be taken by any other party to such Collateral Instrument, the Trustee shall, if requested by the Borrower, and if so directed by the Required Bondholders, direct the Collateral Agent to provide such consent.

# ARTICLE IX MODIFICATION OR AMENDMENT OF THE INDENTURE

SECTION 9.01. <u>Amendments Permitted</u>.

This Indenture and the rights and obligations of the Authority and of the (a) Holders of the Bonds and of the Trustee may be modified or amended from time to time and at any time by an indenture or indentures supplemental hereto, which the Authority and the Trustee may enter into, but only with the written consent of the Required Bondholders and the Borrower, which shall have been filed with the Trustee; provided that no Unanimous Consent Amendment shall take effect without the written consent of the Holders of all of the Bonds then Outstanding. It shall not be necessary for the consent of the Bondholders or the Borrower to approve the particular form of any Supplemental Indenture, but it shall be sufficient if such consent shall approve the substance thereof. Promptly after the execution by the Authority and the Trustee of any Supplemental Indenture pursuant to this subsection (a), the Trustee shall mail a notice, setting forth in general terms the substance of such Supplemental Indenture, to the Holders of the Bonds at the address shown on the registration books of the Trustee and to the Borrower and the Collateral Agent provided that so long as the Bonds held by DTC or any other Depository, such notice may be given by electronic means in lieu of mailed notice. Any failure to give such notice, or any defect therein, shall not, however, in any way impair or affect the validity of any such Supplemental Indenture.

(b) This Indenture and the rights and obligations of the Authority, of the Trustee and of the Holders of the Bonds may also be modified or amended from time to time and at any time by an indenture or indentures supplemental hereto, which the Authority and the Trustee may enter into without the consent of any Bondholders or Beneficial Owners, but with the consent of the Borrower, but only to the extent permitted by law and after receipt of an Opinion of Bond Counsel that the provisions of such Supplemental Indenture shall not materially adversely affect the interests of the Holders of the Bonds and that there will be no adverse effect on the Tax-Exempt status of the Tax-Exempt Bonds, for any one or more of the following purposes:

> (1)to add to the covenants and agreements of the Authority in this Indenture contained other covenants and agreements thereafter to be observed, to pledge or assign additional security for the Bonds (or any portion thereof), or to surrender any right or power herein reserved to or conferred upon the Authority;

> (2)to make such provisions for the purpose of curing any ambiguity, inconsistency or omission, or of curing or correcting any defective provision, contained in this Indenture, or in regard to matters or questions arising under this

Indenture, as the Authority may deem necessary or desirable and not inconsistent with this Indenture or the Loan Agreement;

(3)to modify, amend or supplement this Indenture in such manner as to permit the qualification hereof under the Trust Indenture Act of 1939, as amended, or any similar federal statute hereafter in effect, and to add such other terms, conditions and provisions as may be permitted by said act or similar federal statute;

(4) with the consent of the Borrower, to obtain a rating on the Bonds;

(5)to provide for the issuance of a Series of Bonds, and to provide the terms and conditions under which such Bonds may be issued, subject to and in accordance with the provisions of Article II (which shall not require determination by the Trustee of the effect on the interests of Holders of Bonds); or

(6)to modify, amend or supplement this Indenture in such a manner to permit the Authority, the Borrower or any other responsible party to comply with the requirements of S.E.C. Rule 15c2-12, as it may from time to time be amended or supplemented, with respect to the Bonds.

(c) The Trustee may in its discretion, but shall not be obligated to, enter into any such Supplemental Indenture authorized by subsections (a) or (b) of this Section which materially adversely affects the Trustee's own rights, duties or immunities under this Indenture or otherwise.

SECTION 9.02. <u>Effect of Supplemental Indenture</u>. Upon the execution of any Supplemental Indenture pursuant to this Article, this Indenture shall be deemed to be modified and amended in accordance therewith, and the respective rights, duties and obligations under this Indenture of the Authority, the Trustee and all Holders and Beneficial Owners of Bonds Outstanding shall thereafter be determined, exercised and enforced hereunder subject in all respects to such modification and amendment, and all the terms and conditions of any such Supplemental Indenture shall be deemed to be part of the terms and conditions of this Indenture for any and all purposes. Any such Supplemental Indenture shall comply with the terms of this Article IX, and the Trustee and the Authority may conclusively rely on an Opinion of Counsel that the Supplemental Indenture complies with the provisions therein.

SECTION 9.03. <u>Endorsement of Bonds; Preparation of New Bonds</u>. Bonds delivered after the execution of any Supplemental Indenture pursuant to this Article may, and if the Trustee so determines shall, bear a notation by endorsement or otherwise in form approved by the Authority and the Trustee as to any modification or amendment provided for in such Supplemental Indenture, and, in that case, upon demand of the Holder of any Bond Outstanding at the time of such execution and presentation of such Holder's Bond for the purpose at the office of the Trustee or at such additional offices as the Trustee may select and designate for that purpose, a suitable notation shall be made on such Bond. If the Supplemental Indenture shall so provide, new Bonds so modified as to conform, in the opinion of the Authority and the Trustee, to any modification or amendment contained in such Supplemental Indenture, shall be prepared and

executed by the Authority and authenticated by the Trustee, and upon demand of the Holders of any Bonds then Outstanding shall be exchanged at the Corporate Trust Office of the Trustee, without cost to any Bondholder, for Bonds then Outstanding, upon surrender for cancellation of such Bonds, in equal aggregate principal amounts of the same Series and maturity.

SECTION 9.04. <u>Amendment of Particular Bonds</u>. The provisions of this Article shall not prevent any Bondholder from accepting any amendment as to the particular Bonds held by him or her, provided that due notation thereof is made on such Bonds.

### ARTICLE X DEFEASANCE

SECTION 10.01. <u>Discharge of Indenture</u>. Bonds of any Series to the maturity of such Series of Bonds may be paid by the Authority in any of the following ways, provided that the Authority also pays or causes to be paid any other sums payable hereunder by the Authority and related to the respective Series:

(a) by paying or causing to be paid the principal of, interest and premium, if any, on the Bonds of the Series Outstanding, as and when the same become due and payable;

(b) by depositing with the Trustee, in trust, at or before maturity, money or securities in the necessary amount (as provided in Section 10.03) to pay or redeem all Bonds of the Series then Outstanding; or

(c) by delivering to the Trustee, for cancellation by it, the Bonds of the Series then Outstanding.

If the Authority shall also pay or cause to be paid all other sums payable hereunder by the Authority, then and in that case, at the election of the Authority (evidenced by a Certificate of the Authority, filed with the Trustee, signifying the intention of the Authority to discharge all such indebtedness and this Indenture), and notwithstanding that any Bonds shall not have been surrendered for payment, this Indenture and the pledge of Revenues and other assets made under this Indenture and all covenants, agreements and other obligations of the Authority under this Indenture shall cease, terminate, become void and be completely discharged and satisfied except only as provided in Section 10.02 hereof. In such event, upon Request of the Authority, the Trustee shall cause an accounting for such period or periods as may be requested by the Authority to be prepared and filed with the Authority and shall execute and deliver to the Authority all such instruments as may be necessary or desirable to evidence such discharge and satisfaction, and the Trustee shall pay over, transfer, assign or deliver all moneys or securities or other property held by it pursuant to this Indenture (other than the Rebate Fund) which are not required for the payment or redemption of Bonds not theretofore surrendered for such payment or redemption and any amounts owed to the Trustee hereunder to the Borrower, provided, however, that the Borrower may not receive any funds derived from moneys held for the payment of particular Bonds (including moneys held for non-presented Bonds).

SECTION 10.02. <u>Discharge of Liability on Bonds</u>. Upon the deposit with the Trustee, in trust, at or before maturity, of money or securities in the necessary amount (as provided

in Section 10.03 hereof) to pay or redeem any Outstanding Bond (whether upon or prior to its maturity or the redemption date of such Bond), provided that, if such Bond is to be redeemed prior to maturity, notice of such redemption shall have been given as in Article IV provided or provision satisfactory to the Trustee shall have been made for the giving of such notice, then all liability of the Authority in respect of such Bond shall cease, terminate and be completely discharged, except only that the Holder thereof shall thereafter be entitled to payment of the principal of, premium, if any, and interest on such Bond by the Authority, and the Authority shall remain liable for such payment, but only out of such money or securities deposited with the Trustee as aforesaid for their payment and such money or securities shall be pledged to such payment; provided further, however, that the provisions of Section 10.04 hereof shall apply in all events.

The Authority may at any time surrender to the Trustee for cancellation by it any Bonds previously issued and delivered, which the Authority may have acquired in any manner whatsoever, and such Bonds, upon such surrender and cancellation, shall be deemed to be paid and retired.

SECTION 10.03. <u>Deposit of Money or Securities With Trustee</u>. Whenever in this Indenture it is provided or permitted that there be deposited with or held in trust by the Trustee money or securities in the necessary amount to pay or redeem any Bonds, the money or securities to be deposited or held may include money or securities held by the Trustee in the funds and accounts established pursuant to this Indenture (exclusive of the Rebate Fund) and shall be:

(a) Cash in an equal amount to the principal amount of such Bonds, and all unpaid interest thereon to maturity except that, in the case of Bonds which are to be redeemed prior to maturity and in respect of which notice of such redemption shall have been given as in Article IV provided or provision satisfactory to the Trustee shall have been made for the giving of such notice, the amount to be deposited or held shall be the principal amount or redemption price of such Bonds and all unpaid interest thereon to the redemption date; or

(b)Investment Securities of the type described in clause (ii) of the definition of Investment Securities which are nonredeemable and noncallable, the principal of and interest on which when due and without reinvestment will provide money sufficient to pay the principal of, premium, if any, all unpaid interest to maturity, or to the redemption date, on the Bonds to be paid or redeemed, as such principal and interest become due, provided that, in the case of Bonds which are to be redeemed prior to the maturity thereof, notice of such redemption shall have been given as in Article IV provided or provision satisfactory to the Trustee shall have been made for the giving of such notice, and provided, in each case, that (i) the Trustee shall have been irrevocably instructed (by the terms of this Indenture or by Request of the Authority) to apply such money or Investment Securities to the payment of such principal, premium, if any, and interest with respect to such Bonds, (ii) the Authority shall have delivered to the Trustee an Opinion of Bond Counsel addressed to the Authority and the Trustee to the effect that the such Bonds are no longer Outstanding under this Indenture and (iii) the Authority and the Trustee shall have received a report prepared by an independent certified public accountant, a firm of independent certified public accountants or another institution satisfactory to the Trustee and the Authority to the effect that the principal of, and interest on, the Investment Securities, together with any cash deposited pursuant to (a) above will be sufficient and available without reinvestment to pay when due the

principal, redemption price and unpaid interest on the Bonds through redemption or maturity thereof.

SECTION 10.04. <u>Payment of Bonds After Discharge of Indenture Obligation</u>. Notwithstanding any provisions of this Indenture, any moneys deposited with the Trustee in trust for the payment of the principal of, or interest or premium on, any Bonds remaining unclaimed after the principal of any Bond has become due and payable (whether at maturity or upon call for redemption or by declaration as provided in this Indenture), shall be disposed of as provided by law and the Holders of such Bonds shall thereafter be entitled to look only to the transferee of such moneys (presently the California State Controller) for payment thereof, and all liability of the Trustee with respect to such moneys shall thereupon cease.

### ARTICLE XI MISCELLANEOUS

SECTION 11.01. Liability of Authority Limited to Revenues. Notwithstanding anything in this Indenture or in the Bonds contained to the contrary, the Authority shall not be required to advance any moneys derived from any source other than the Revenues and other assets pledged under this Indenture for any of the purposes in this Indenture mentioned, whether for the payment of the principal of or interest on the Bonds or for any other purpose of this Indenture. Nevertheless, the Authority may, but shall not be required to, advance for any of the purposes hereof any funds of the Authority which may be made available to it for such purposes. NEITHER THE FULL FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF OR ANY LOCAL AGENCY IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF, PREMIUM, IF ANY, OR INTEREST ON THE BONDS. The Authority shall not be liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reason of or in connection with the Loan Agreement, the Bonds or this Indenture, except only to the extent amounts are received for the payment thereof from the Borrower under the Loan Agreement.

SECTION 11.02. <u>Successor Is Deemed Included in All References to</u> <u>Predecessor</u>. Whenever in this Indenture either the Authority or the Trustee is named or referred to, such reference shall be deemed to include the successors or assigns thereof, and all the covenants and agreements in this Indenture contained by or on behalf of the Authority or the Trustee shall bind and inure to the benefit of the respective successors and assigns thereof whether so expressed or not. All the covenants, stipulations, promises and agreements in this Indenture contained, by or on behalf of the Authority, shall bind and inure to the benefit of its successors and assigns, whether so expressed or not. If any of the powers or duties of the Authority shall hereafter be transferred by any law of the State of California, and if such transfer shall relate to any matter or thing permitted or required to be done under this Indenture by the Authority, then the body or official of the State of California who shall succeed to such powers or duties shall act and be obligated in the place and stead of the Authority as in this Indenture provided.

SECTION 11.03. <u>Limitation of Rights to Parties and Bondholders</u>. Nothing in this Indenture or in the Bonds expressed or implied is intended or shall be construed to give to any Person other than the Authority, the Trustee, the Borrower, the Direct Participants, the Holders of

the Bonds and the Beneficial Owners of the Bonds, any legal or equitable right, remedy or claim under or in respect of this Indenture or any covenant, condition or provision therein or herein contained; and all such covenants, conditions and provisions are and shall be held to be for the sole and exclusive benefit of the Authority, the Trustee, the Borrower, the Direct Participants, the Holders of the Bonds and the Beneficial Owners of the Bonds.

SECTION 11.04. <u>Waiver of Notice</u>. Whenever in this Indenture the giving of notice by mail or otherwise is required, the giving of such notice may be waived in writing by the Person entitled to receive such notice and in any such case the giving or receipt of such notice shall not be a condition precedent to the validity of any action taken in reliance upon such waiver.

SECTION 11.05. <u>Destruction of Bonds</u>. Whenever in this Indenture provision is made for the cancellation by the Trustee and the delivery to the Authority of any Bonds, the Trustee may, in lieu of such cancellation and delivery, destroy such Bonds, and deliver a certificate of such destruction to the Authority.

SECTION 11.06. <u>Severability of Invalid Provisions</u>. If any one or more of the provisions contained in this Indenture or in the Bonds shall for any reason be held to be invalid, illegal or unenforceable in any respect, then such provision or provisions shall be deemed severable from the remaining provisions contained in this Indenture and such invalidity, illegality or unenforceability shall not affect any other provision of this Indenture, and this Indenture shall be construed as if such invalid or illegal or unenforceable provision had never been contained herein. The Authority hereby declares that it would have entered into this Indenture and each and every other Section, paragraph, sentence, clause or phrase hereof and authorized the issuance of the Bonds pursuant thereto irrespective of the fact that any one or more Sections, paragraphs, sentences, clauses or phrases of this Indenture may be held illegal, invalid or unenforceable.

SECTION 11.07. <u>Governing Law; Venue</u>. This Indenture shall be construed in accordance with and governed by the Constitution and laws of the State applicable to contracts made and performed in the State. This Indenture shall be enforceable in the State, and any action arising out of this Indenture shall be filed and maintained in the Sacramento County Superior Court, Sacramento, California, unless the Authority waives this requirement. In the event of any action or proceeding (a) between the Borrower as a third-party beneficiary of this Indenture and the Trustee, (b) between the Borrower and the Trustee (as assignee of the Authority) under the Loan Agreement, or (c) between the Borrower and the Collateral Agent under the Collateral Agency Agreement, the losing party in such action or proceeding shall pay all costs and expenses incurred by the prevailing party in connection therewith, including but not limited to attorneys' fees, provided that any such payment required to be made by the Trustee or Collateral Agent shall be made only from and to the extent of amounts for which the Trustee or Collateral Agent has been indemnified by Beneficial Owners.

SECTION 11.08. <u>Notices</u>. Notices shall be delivered to each Bondholder by first-class mail, postage prepaid, at the address set forth for such Bondholder on the registration books of the Trustee or by e-mail. Any notice to or demand upon the Trustee may be served or presented, and such demand may be made, at the Corporate Trust Office of the Trustee, which at the date of adoption of this Indenture is as follows:

With a copy to:

UMB Bank, N.A.

or at such other address as may have been filed in writing by the Trustee with the Authority. Any notice to or demand upon the Authority or the Borrower shall be deemed to have been sufficiently given or served for all purposes by being delivered or sent by e-mail (except in the case of notices of an Event of Default) or by being deposited, postage prepaid, in a post office letter box, addressed, as the case may be, as follows:

If to the Construction Monitor:

If to the Technical Advisor:

or such other addresses as may have been filed in writing with the Trustee.

SECTION 11.09. Evidence of Rights of Bondholders. Any request, consent or other instrument required or permitted by this Indenture to be signed and executed by Bondholders or Beneficial Owners may be in any number of concurrent instruments of substantially similar tenor and shall be signed or executed by such Bondholders or Beneficial Owners in person or by an agent or agents duly appointed in writing. Proof of the execution of any such request, consent or other instrument or of a writing appointing any such agent, or of the holding by any Person of Bonds transferable by delivery, shall be sufficient for any purpose of this Indenture and shall be conclusive in favor of the Trustee and of the Authority if made in the manner provided in this Section.

(a) The fact and date of the execution by any Person of any such request, consent or other instrument or writing may be proved by the certificate of any notary public or other officer of any jurisdiction, authorized by the laws thereof to take acknowledgments of deeds, certifying that the individual signing such request, consent or other instrument acknowledged to such notary public or other officer the execution thereof, or by an affidavit of a witness of such execution duly sworn to before such notary public or other officer.

(b) The ownership of registered Bonds shall be proved by the bond registration books held by the Trustee. The Trustee and the Authority may conclusively assume that such ownership continues until written notice to the contrary is served upon the Trustee. The fact and the date of execution of any request, consent or other instrument and the amount and distinguishing numbers of Bonds held by the Person so executing such request, consent or other instrument may also be proved in any other manner which the Trustee may deem sufficient. The Trustee may nevertheless, in its discretion, require further proof in cases where it may deem further proof desirable.

Any request, consent, or other instrument or writing of the Holder of any Bond shall bind every future Holder of the same Bond and the Holder of every Bond issued in exchange therefor or in lieu thereof, in respect of anything done or suffered to be done by the Trustee or the Authority in accordance therewith or reliance thereon.

SECTION 11.10. Disqualified Bonds. In determining whether the Holders or Beneficial Owners of the requisite aggregate principal amount of Bonds have concurred in any demand, request, direction, consent or waiver under this Indenture, Bonds which are owned or held by or for the account of the Authority or the Borrower, or by any other obligor on the Bonds, or by any Person directly or indirectly controlling or controlled by, or under direct or indirect common control with, the Authority or the Borrower or any other obligor on the Bonds, shall be disregarded and deemed not to be Outstanding for the purpose of any such determination provided that, for the purpose of determining whether the Trustee shall be protected in relying on any such demand, request, direction, consent or waiver, only Bonds which the Trustee knows to be so owned shall be disregarded. Bonds so owned which have been pledged in good faith may be regarded as Outstanding for the purposes of this Section if the pledgee shall establish to the satisfaction of the Trustee the pledgee's right to vote such Bonds and that the pledgee is not a Person directly or indirectly controlling or controlled by, or under direct or indirect common control with, the Authority or the Borrower or any other obligor on the Bonds. Upon request of the Trustee, the Authority and the Borrower shall specify to the Trustee those Bonds disqualified pursuant to this Section and the Trustee may conclusively rely on such certificate. Notwithstanding the foregoing, with respect to the certificate of the Authority, the Authority shall be required to specify only those Bonds that are owned or held by or for the account of the Authority or any Person directly or indirectly controlling, or controlled by, or under direct or indirect common control with, the Authority, if any, of which the officer signing the certificate on behalf of the Authority has actual knowledge. In case of a dispute as to such right, any decision by the Trustee taken upon the advice of counsel shall be full protection to the Trustee.

SECTION 11.11. <u>Money Held for Particular Bonds</u>. The money held by the Trustee for the payment of the interest, principal, or premium due on any date with respect to particular Bonds (or portions of Bonds in the case of registered Bonds redeemed or tendered in part only) shall, on and after such date and pending such payment, be set aside on its books and held by it uninvested in trust for the Holders of the Bonds entitled thereto, subject, however, to the provisions of Section 10.04 hereof.

SECTION 11.12. Funds and Accounts; Business Day.

(a) Any Fund or Account required by this Indenture to be established and maintained by the Trustee may be established and maintained in the accounting records of the Trustee, either as a Fund or an Account, and may, for the purposes of such records, any audits thereof and any reports or statements with respect thereto, be treated either as a Fund or as an Account; but all such records with respect to all such Funds and Accounts shall at all times be maintained in accordance with corporate trust industry standards and with due regard for the requirements of Section 6.05 hereof and for the protection of the security of the Bonds and the rights of every Holder thereof. The Trustee may establish and maintain for as long as necessary one or more temporary Funds or Accounts under this Indenture in order to carry out the purposes set forth therein.

(b) Any payment or transfer which otherwise would become due on any day which is not a Business Day shall become due or shall be made on the next Business Day, with the same effect as if it had been made on the due date.

SECTION 11.13. <u>Waiver of Personal Liability</u>. No member, officer, agent or employee of the Authority, and no officer, official agent or employee of the State of California or any department, board or agency of the foregoing shall be individually or personally liable for the payment of the principal of or premium or interest on the Bonds or be subject to any personal liability or accountability by reason of the issuance thereof; but nothing herein contained shall relieve any such member, officer, agent or employee from the performance of any official duty provided by law or by this Indenture.

SECTION 11.14. <u>Opinion of Bond Counsel</u>. Whenever in this Indenture, the Loan Agreement, or the Collateral Agency Agreement it is required that prior to the taking of any action (including but not limited to any modifications of arbitrage covenants contained in Section 6.06 hereof) an Opinion of Bond Counsel is required to be delivered to the effect that such action will not adversely affect the Tax-Exempt status of the Tax-Exempt Bonds and such opinion is not given by Orrick, Herrington & Sutcliffe LLP (or any successor thereto, "Orrick"), none of the Authority or the Borrower shall be entitled to rely on or refer to the original final bond opinion delivered by Orrick on the Delivery Date in connection with the issuance of the 2019 Bonds without the consent of Orrick. In addition, such successor Bond Counsel shall also render an opinion that interest on the 2019 Bonds is Tax-Exempt and will remain so after the action in question.

SECTION 11.15. <u>Compliance With Collateral Agency Agreement</u>. At the request of the Borrower, the Authority authorizes the Trustee to enter into the Collateral Agency Agreement and the Trustee hereby agrees to comply with the provisions thereof and to exercise its rights and remedies thereunder and hereunder in accordance with the Collateral Agency Agreement. At the request of the Borrower, the Authority authorizes the Trustee to deliver such statements and certificates as may be required or otherwise provided for under the terms of the Collateral Agency Agreement, including, without limitation, certificates required under Section 8.08 of the Collateral Agency Agreement.

SECTION 11.16. <u>Complete Agreement</u>. The parties agree that the terms and conditions of this Indenture supersede those of all previous agreements between the parties relative

to the Bonds, and that this Indenture, together with the documents referred to in this Indenture, contains the entire agreement between the parties hereto relative to the Bonds.

SECTION 11.17. <u>Execution in Several Counterparts</u>. This Indenture may be executed in any number of counterparts and each of such counterparts shall for all purposes be deemed to be an original; and all such counterparts, or as many of them as the Authority and the Trustee shall preserve undestroyed, shall together constitute but one and the same instrument.

SECTION 11.18. THIRD-PARTY BENEFICIARIES. The parties agree that the California Debt Limit Allocation Committee is a third-party beneficiary of this Indenture for purposes of enforcing the Allocation Resolution.

Interest shall be computed at the interest rate per annum set forth above, payable on June 1 and December 1 in each year (each, an "Interest Payment Date"), commencing on December 1, 2019, based on a 360-day year of twelve 30-day months. Interest payments on this Bond shall be made to the Person appearing on the bond registration books of the Trustee, as bond registrar (the "Bond Registrar"), as the Bondholder thereof on the applicable Record Date, which is the date as of the close of business on the fifteenth day of the calendar month preceding any

This Bond is one of a duly authorized issue of bonds of the Authority designated as "California Pollution Control Financing Authority Solid Waste Disposal Revenue Bonds (CalPlant I Project) Subordinate Bonds" (the "Bonds"), unlimited in aggregate principal amount, except as otherwise provided in the Indenture hereinafter mentioned, which issue consists of or may consist of one or more series of varying dates, maturities, interest rates, redemption and other provisions, all issued pursuant to the provisions of Division 27 of the California Health and Safety Code as amended and supplemented (the "Act"). The Bonds are limited obligations of the Authority and, as and to the extent set forth in the Indenture, are payable solely from, and secured by a pledge of and charge and lien on, the Revenues (as defined in the Indenture), and there shall be no other recourse against the Authority or any property now or hereafter owned by it. Proceeds from the sale of the Bonds will be loaned by the Authority to CalPlant I, LLC, a California limited liability company (the "Borrower"), under the terms of a Loan Agreement, dated as of August 1, 2019 (the "Agreement"), between the Authority and the Borrower. The Bonds are all issued under and secured by and entitled to the benefits of an Indenture, dated as of August 1, 2019 (the "Indenture"), between the Authority and the Trustee.

This Bond is also one of a duly authorized series of bonds of the Authority additionally designated as "Series 2019", limited in aggregate principal amount as provided in, and issued under and secured by the Indenture. Reference is hereby made to the Indenture and all indentures supplemental thereto for a description of the rights thereunder of the registered Bondholders of the Bonds, of the nature and extent of the security, of the rights, duties and immunities of the Trustee and of the rights and obligations of the Authority thereunder, to all of the provisions of which Indenture and of the Agreement the Holder of this Bond, by acceptance hereof, assents and agrees.

All terms not herein defined shall have the meanings ascribed to them in the Indenture.

The Bonds are issuable as fully registered bonds without coupons in Authorized Denominations of, during the Restricted Period, \$250,000 or any integral multiple of \$5,000 in excess of thereof, or, thereafter, \$5,000 or any integral multiple thereof. Subject to the limitations and upon payment of the charges, if any, provided in the Indenture, Bonds may be exchanged at the Corporate Trust Office of the Trustee, for a like aggregate principal amount of Bonds of other Authorized Denominations of like maturity.

This Bond is transferable by the Bondholder hereof, in person, or by its attorney duly authorized in writing, but only in the manner, subject to the limitations and upon payment of the charges provided in the Indenture, and upon surrender and cancellation of this Bond. Upon such transfer a new fully registered Bond or Bonds, in an Authorized Denomination or Denominations, for the same aggregate principal amount, and of like maturity, will be issued to the transferee in exchange therefor. The Authority and the Trustee may treat the Bondholder hereof as the absolute Bondholder hereof for all purposes, and the Authority and the Trustee shall not be affected by any notice to the contrary.

The Bonds are subject to redemption as set forth in the Indenture.

The Holder of this Bond shall have no right to institute any suit, action or proceeding at law or in equity, for the protection or enforcement of any right or remedy under the Indenture, the Loan Agreement, the Act, or any other applicable law with respect to this Bond, except as provided in the Indenture.

Under certain circumstances described in the Indenture, the Authority and the Trustee may enter into a Supplemental Indenture without consent of Holders, but with the consent of the Borrower.

The Indenture prescribes the manner in which it may be discharged and after which the Bonds shall no longer be secured by or entitled to the benefits of the Indenture, except for the purposes of payment of the principal of and premium, if any, and interest on the Bonds as the same become due and payable, including a provision that under certain circumstances the Bonds shall be deemed to be paid if certain securities, as defined in the Indenture, maturing as to principal and interest in such amounts and at such times as to insure the availability of sufficient moneys to pay the principal of, premium, if any, and interest on such Bonds and all necessary and proper fees, compensation and expenses of the Trustee shall have been deposited with the Trustee.

No member, officer, agent or employee of the Authority, and no officer, official agent or employee of the State of California or any department, board or agency of the foregoing shall be individually or personally liable for the payment of the principal of or premium or interest on this Bond or be subject to any personal liability or accountability by reason of the issuance thereof.

It is hereby certified that all of the conditions, things and acts required to exist, to have happened and to have been performed precedent to and in the issuance of this Bond do exist, have happened and have been performed in due time, form and manner as required by the Constitution and statutes of the State of California.

This Bond shall not be entitled to any benefit under the Indenture, or become valid or obligatory for any purpose, until the certificate of authentication hereon endorsed shall have been manually signed by the Trustee.

In particular, the Borrower will comply with all requirements set forth in the Tax Certificate. The Borrower intends that it will own and operate the Tax-Exempt Project as solid waste disposal facilities pursuant to the Act until the earlier of the end of the useful life of the Tax-Exempt Project or the time the principal of, the premium, if any, and the interest on the Tax-Exempt Bonds will have been paid in full.

The Borrower reasonably expects that all Governmental Approvals required to construct, own and operate the Plant will be obtained when required in due course on commercially reasonable terms.

(o) No Incipient Default or Event of Default has occurred and is continuing.

(p) To the best knowledge of the Borrower, no employee, member, officer, or other official of the Authority has any financial, ownership or managerial interest in the Borrower, any Material Company, any Participating Affiliate of the Borrower, or in any Project Documents or any other transactions contemplated by this Loan Agreement.

(q) The Borrower and all Participating Affiliates anticipated by the Borrower to be an owner or operator of the Tax-Exempt Project or a portion thereof are engaged in operations within the State that require financing pursuant to this Loan Agreement to aid and assist in the control, remediation or elimination of pollution of the environment of the State.

(r) There is no action, suit, proceeding, inquiry or investigation, before or by any court or other governmental authority, pending, or to the Borrower's knowledge, after reasonable investigation, threatened, against or affecting the Borrower or any member of the Group or the Plant or any material part thereof, which, if determined adversely to the Borrower or any member of the Group or their interests, would reasonably be expected to have a Material Adverse Effect, and the Borrower, to the best of its knowledge after reasonable inquiry, is not in default (and no event has occurred and is continuing which with the giving of notice or the passage of time or both could constitute a default) with respect to any order or decree of any court or any order, regulation or demand of any governmental authority, which default would reasonably be expected to have a Material Adverse Effect.

(s) The Borrower has not engaged in any business other than the ownership, construction, operation of and financing for the Plant and the activities related or incident thereto, and the Borrower has no obligations or liabilities other than those directly related to the conduct of such ownership, construction, operation and financing.

All premiums due with respect thereto have been paid.

(u) The Pro Forma Financial Information attached to the Offering Memorandum as Appendix G discloses all material assumptions and was prepared in good faith and represents, in the opinion of the Borrower, reasonable projections on the Delivery Date of the future performance of the Borrower (it being understood that projections contain significant uncertainty and actual results may differ significantly from projections).

(w) Neither the Borrower nor any ERISA Affiliate has any material liability under ERISA or under the Code with respect to any Pension Plan or Multiemployer Plan;

(x) None of the execution, delivery or performance by the Borrower of each of this Loan Agreement, the Collateral Agency Agreement, the other Transaction Documents or any other document contemplated hereby to which the Borrower is a party violates or constitutes a default or requires consent by any other Persons under any material Law applicable to the Borrower or the Plant or any of the material contractual obligation to which the Borrower is party; none of the execution, delivery or performance of this Loan Agreement, the Collateral Agency Agreement, the other Transaction Documents or any other document contemplated hereby to which the Borrower is a party results in, or requires, the creation or imposition of any Lien on any of the Collateral or any other properties or revenues of the Borrower except for Permitted Liens.

The recordings and filings shown on Exhibit L attached hereto are all the recordings and filings necessary as of the Delivery Date, in order to establish, protect and perfect in favor of the Collateral Agent, the liens on, or security interest in, the right, title, estate and interest of the Borrower in and to the Collateral described in Collateral Instruments (other than any item of Collateral as to which a security interest cannot be perfected by filing or recording).

(aa) The Borrower has not entered into any agreement, or taken any action, that would limit, amend or modify the terms of any provision of this Loan Agreement, the Collateral Agency Agreement, the other Transaction Documents or any other document contemplated hereby to which the Borrower is a party by actions, by conduct of the parties or otherwise.

(bb) As of the Delivery Date,

(i) None of this Loan Agreement, the Collateral Agency Agreement, the other Transaction Documents nor any document, certificate or written statement furnished to the Trustee or the Authority by the Borrower, or information, statements, representations, covenants or warranties provided or agreed to by the Borrower in this Loan Agreement, the Collateral Agency Agreement, any other Transaction Document or any other document contemplated hereby to which the Borrower is a party, contains, to the best of its knowledge, an untrue statement of a material fact; and

(ii) The Offering Memorandum does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements contained therein, in the light of the circumstances under which they were made, not misleading;

*provided*, however, that with respect to the representations made in this subsection (bb), (x) any projections or forward-looking statements made by the Borrower herein and therein (1) are based on assumptions believed to be reasonable by the Borrower as to all relevant legal and factual matters, and to the extent any such assumptions are material, such assumptions are appropriately disclosed in the Offering Memorandum, (2) are consistent in all material respects with the provisions of this Loan Agreement, the Collateral Agency Agreement, the other Transaction Documents and any other document contemplated hereby to which the Borrower is a party, (3) have been prepared in good faith and with due care, and (4) fairly represent the reasonable expectations of the Borrower as to the matters covered thereby as of their date; and (y) the Third Party Reports are (A) based on information and assumptions that were provided by and/or reviewed with and agreed to by the Borrower, (B) reflect the Borrower's expected courses of action and the expected financial and operating results of the Borrower and the Plant, and (C) present conclusions and analysis that the Borrower believes are reasonable.

(cc) As of the Delivery Date,

(i) Each of the Transaction Documents (which for these purposes shall only include such contracts as are included in such definition as of the Delivery Date) have been duly authorized, executed and delivered by the Borrower and, to the best knowledge of the Borrower, by all other parties thereto, and constitute legal, valid and binding obligations of each of the Borrower and (to the best knowledge of the Borrower) the other parties thereto, enforceable against the Borrower and (to the best knowledge of the Borrower) each such other party in accordance with the terms thereof, except as such enforceability (1) may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the rights of creditors generally and (2) is subject to general principles of equity (regardless of whether enforceability is considered in equity or at law);

(iii) (1) Each of the Transaction Documents executed and delivered on or prior to the Delivery Date is in full force and effect (except, in the case of any Project Document other than a Material Contract, where the failure of such Project Document to be in full force and effect would not be reasonably likely to result in a Material Adverse Effect) and (2) (a) the Borrower is not in default under any Transaction Document and (b) to the best knowledge of Borrower, no defaults by any other party thereto have occurred and are continuing thereunder and no event or circumstance exists that, with the giving of notice or the passage of time, would constitute a default under any Transaction Document.

(dd) As of the Delivery Date, the Borrower is not a party to any material agreements with total payments as of the Delivery Date by or to the Borrower in excess of \$1,000,000 (as adjusted by the Inflation Factor from the Delivery Date to the date of calculation), other than this Loan Agreement, the Collateral Agency Agreement, the other Bond Financing Documents, the Transaction Documents, and the Senior Bond Documents.

(ee) The Borrower owns or holds a valid and enforceable license or right to use the Technology and Intellectual Property Rights necessary to construct, operate, use, maintain, convey and dispose of the Plant in a commercially reasonable manner and as contemplated in connection with the Plant and to comply with its obligations under Section 3.1 hereof.

#### ARTICLE 3 CONSTRUCTION OF THE PROJECT; ISSUANCE OF THE 2019 BONDS

#### SECTION 3.1 AGREEMENT TO CONSTRUCT THE PROJECT AND THE PLANT.

The Borrower agrees that it will acquire, equip, construct, rehabilitate, (a) install, commission and test or complete the acquisition, construction, equipping, rehabilitation, installation, commissioning and testing of, the Plant, and will acquire, equip, construct, rehabilitate and install all other facilities and real and personal property deemed necessary for the operation of the Plant, substantially in accordance with the Construction Budget and the Plans and Specifications. The Borrower agrees that it will ensure that such acquisition, equipping, construction, rehabilitation, installation, commissioning and testing of the Plant is accomplished (i) with due care and diligence, (ii) in accordance with Prudent Operating Practice, (iii) in all material respects in accordance with the Plans and Specifications, (iv) in all material respects in accordance with applicable Law and (v) in all respects in accordance with any requirements of, and so as not to vitiate in any way, the insurance required pursuant to Section 5.7 hereof. The Borrower further agrees to proceed with due diligence to complete the Tax-Exempt Project. Except as otherwise permitted pursuant to this Section 3.1 or Sections 5.35, 5.36 and 5.37 hereof, the Borrower also agrees that it will own and operate the Plant during the term of this Loan Agreement or, if shorter, the useful life of any component of the Plant.

(b) The Plans and Specifications and Construction Budget may be modified only in accordance with Section 5.39 of this Loan Agreement.

After Plant Acceptance, the Borrower will demonstrate to the Trustee and (c)the Technical Advisor, with copies of such materials to the Authority, by means of the Post Acceptance Run during which test run the Plant will achieve the production volume equivalency of 112,158 thousand square feet, <sup>3</sup>/<sub>4</sub>" basis ("Msf <sup>3</sup>/<sub>4</sub>") annually (the "Design Capacity") for one continuous 60-day period ending no later than the end of the twentyfourth month immediately following Plant Acceptance, subject to Force Majeure Events. To avoid counterproductive activities while at the same time meeting the Borrower's customer requirements, the volume produced for the Post Acceptance Run will include all MDF thicknesses and qualities per the purchase order specifications during the 60-day period. No special runs or scheduling will be required to establish the beginning date of the Post Acceptance Run, and to avoid any confusion or doubt, the Post Acceptance Run will be deemed fully satisfied and complete through the computation of daily production records for any continuous 60-day period. The exact 60-day volume (18,437 Msf <sup>3</sup>/<sub>4</sub>") is determined by dividing 112,158 Msf <sup>3</sup>/<sub>4</sub>" by 365 (days per year) multiplied by 60 (days). Upon verification by the Technical Advisor that the Post Acceptance Run has been achieved, the Borrower and the Technical Advisor will deliver a certificate (the "PAR Certificate") to the Trustee and the Post Acceptance Run will be deemed accepted and fully satisfied.

SECTION 3.2 <u>DEPOSITS WITH THE TRUSTEE</u>; ISSUANCE OF BONDS. To provide funds for the purposes of financing a portion of the Costs of the Tax-Exempt Project, Costs of Issuance, capitalized interest on the 2019 Bonds and a reserve for the 2019 Bonds, the Issuer will

issue, sell and deliver the 2019 Bonds to the Underwriters as set forth in the Bond Purchase Agreement. The 2019 Bonds will be issued pursuant to the Indenture with the terms set forth therein. The Borrower hereby approves the terms and conditions of the Indenture and the 2019 Bonds and the terms and conditions under which the 2019 Bonds will be issued, sold and delivered. The proceeds from the sale of the 2019 Bonds will be paid over to the Trustee for the benefit of the Borrower and deposited as provided in Section 3.02 of the Indenture.

#### SECTION 3.3 ESTABLISHMENT OF FINAL TAX-EXEMPT PROJECT COMPLETION DATE AND PLANT SUBSTANTIAL COMPLETION DATE; NOTIFICATION OF FINAL TAX-EXEMPT COMPLETION, PLANT SUBSTANTIAL COMPLETION DATE, PLANT ACCEPTANCE AND COMMERCIAL OPERATIONS DATE; OBLIGATION OF BORROWER TO COMPLETE.

(a) As soon as the Tax-Exempt Project is completed, an Authorized Representative of the Borrower, on behalf of the Borrower, will evidence the Final Tax-Exempt Project Completion Date by providing to the Trustee, the Collateral Agent and the Authority a Final Tax-Exempt Project Completion Certificate, substantially in the form attached hereto as Exhibit B, which shall be approved by the Construction Monitor (after consultation with the Technical Advisor as required by the Construction Monitor).

(b) As soon as the Plant is substantially completed, an Authorized Representative of the Borrower, on behalf of the Borrower, will evidence the Plant Substantial Completion Date by providing to the Trustee, the Collateral Agent and the Authority a Plant Substantial Completion Certificate in the form attached hereto as Exhibit K, which shall be approved by the Construction Monitor.

(c) An Authorized Representative of the Borrower, on behalf of the Borrower, shall provide notice to the Authority, the Collateral Agent and the Trustee of the achievement of Plant Acceptance and the Commercial Operations Date by providing a certification of such achievement approved by the Construction Monitor (after consultation with the Technical Advisor as required by the Construction Monitor).

(d) If the moneys available under the Collateral Agency Agreement for costs of Plant Construction and the Committed Equity should be insufficient to pay the costs of the Tax-Exempt Project in full, the Borrower agrees to pay directly, or to deposit with the Collateral Agent moneys sufficient to pay, any costs of completing Plant Construction in accordance with the Plans and Specifications in excess of the moneys available for such purpose. The Authority makes no express or implied warranty that the funds available pursuant to the Collateral Agency Agreement or Committed Equity will be sufficient to pay all the amounts which may be incurred for Costs of the Tax-Exempt Project or such costs of Plant Construction.

Any moneys in any Fund or Account held by the Trustee shall, at the written request of an Authorized Representative of the Borrower, be invested or reinvested by the Trustee as directed in writing by the Borrower and as provided in the Indenture. Such investments shall be held by the Trustee and shall be deemed at all times a part of the Fund or Account from which such investments were made, and the interest

accruing thereon, and any profit or loss realized therefrom, shall be credited or charged to such Fund or Account.

Additional Bonds may only be issued if one of the following requirements is satisfied: (x) after giving effect to such issuance, no Bonds that were Outstanding prior to such issuance remain Outstanding after such issuance, (y) if the proceeds of Additional Bonds are used to refinance a portion of the Bonds Outstanding, Debt Service on the Bonds in each year before giving effect to the refinancing is greater than or equal to Debt Service on the Bonds in each year after giving effect to the refinancing, or (z) Required Bondholders have provided their written consent to the issuance of such Additional Bonds. Prior to the issuance of such Additional Bonds, (1) the terms thereof, the purchase price to be paid therefor and the manner in which the proceeds therefrom are to be disbursed shall have been approved in writing by the Borrower; (2) the Authority shall have entered into an amendment to this Loan Agreement to provide for a modification of the amount payable under Section 4.2 hereof as shall be necessary to pay the principal of, premium, if any, and interest on the Additional Bonds as provided in the supplemental indenture required by Sections 2.10 and 2.11 of the Indenture, and to extend the term of this Loan Agreement if the maturity of any of the Additional Bonds would otherwise occur after the expiration of the term of this Loan Agreement; and (3) the Authority shall have otherwise complied with the provisions of Sections 2.10 and 2.11 of the Indenture with respect to the issuance of such Additional Bonds.

#### ARTICLE 4 LOANS OF PROCEEDS; REPAYMENT PROVISIONS

The Authority further covenants and agrees that it will take all actions within its authority to keep this Loan Agreement in effect in accordance with its terms. Pursuant to said covenants and agreements, the Authority will issue the 2019 Bonds upon the terms and conditions contained in this Loan Agreement and the Indenture and will cause the proceeds of the 2019 Bonds to be applied as provided in Article III of the Indenture. Notwithstanding the foregoing, if on any date the amount held by the Trustee in such Funds and Accounts is insufficient to make any required payments of principal of (whether at maturity or upon redemption or acceleration), and interest and premium (if any) on, the Bonds as such payments become due, the Borrower will forthwith pay such deficiency as a Loan Repayment hereunder.

The Borrower also agrees to pay (i) the annual fee of the Trustee for its (b) ordinary services rendered as Trustee, and its ordinary expenses incurred under the Indenture, as and when the same become due, (ii) the reasonable fees, charges and expenses (including reasonable legal fees and expenses) of the Trustee, as bond registrar and paying agent, the reasonable fees of any other paying agent on the Bonds as provided in the Indenture, and the reasonable fees, charges and expenses of the Construction Monitor and the Technical Advisor, as and when the same become due, (iii) the reasonable fees, charges and expenses of the Trustee for the necessary extraordinary services rendered by it and extraordinary expenses (including, but not limited to reasonable attorneys' fees and expenses) incurred by it under the Indenture, as and when the same become due, (iv) the annual fee of the Collateral Agent for its ordinary services rendered as the Collateral Agent, and its ordinary expenses incurred under the Collateral Agency Agreement, as and when the same becomes due, (v) the cost of printing any Bonds required to be furnished by the Authority at the expense of the Authority, (vi) reasonable administrative fees of the Authority, and (vii) any amounts required to be deposited in the Rebate Fund to comply with the provisions of Section 5.13 hereof and Section 6.06 of the Indenture and the payment of any rebate analyst. The Trustee's compensation shall not be limited by any provision of law regarding the compensation of a Trustee of an express trust. The provisions of this subsection shall survive any resignation or removal of the Trustee, the retirement of the Bonds and the termination of this Loan Agreement.

(c) The Borrower also agrees to pay, (i) as soon as practicable after receipt of request for payment thereof, all expenses required to be paid by the Borrower under the terms of the Bond Purchase Agreement; and (ii) all reasonable expenses of the Authority related to the Tax-Exempt Project which are not otherwise required to be paid by the Borrower under the terms of this Loan Agreement including, but not limited to, all Costs of Issuance, provided that the Authority shall have obtained the prior written approval of an Authorized Representative of the Borrower for any expenditures other than those provided for herein or in the Bond Purchase Agreement.

(d) The Borrower also agrees to pay fees and expenses of independent certified public accountants necessary for the preparation of annual or other audits, reports or summaries thereof required by the Indenture or by the Authority, including a report of an independent certified public accountant with respect to any fund established under the Indenture; and reasonable expenses of the Authority pursuant to Sections 44525 and 44548 of the California Health and Safety Code, and any agency of the State or any other counsel selected by the Authority to act on its behalf in connection with the Bonds.

The Borrower agrees to pay such amounts, when due (after giving effect to any applicable grace period expressly provided for), together with interest thereon, until such amount and all interest thereon have been paid in full. Interest thereon shall be at the average per annum rate of interest borne by the Bonds, or, if such rate is greater than the rate then permitted by law, at the maximum rate so permitted. Interest on overdue payments required under subsection (a) above shall be applied as provided in Section 5.02 of the Indenture.

(f) The Borrower has delivered or caused to be delivered (i) to the Collateral Agent the Collateral Instruments creating Liens in favor of the Collateral Agent on all of the Collateral (other than the Pledged Investor Collateral) to secure the payment and performance of the Secured Debt now or hereafter existing under or in respect of the Bond Financing Documents, including this Loan Agreement and the Indenture, for the benefit of the Trustee and the Bondholders, in the manner and to the extent set forth in the Collateral Instruments, and (ii) to the Trustee the Investors' Pledge Agreement creating Liens in favor of the Obligations now or hereafter existing under or in respect of the Bond Financing Documents, including this Loan Agreement and the Indenture, for the benefit of the Trustee on the Pledged Investor Collateral to secure the payment and performance of the Obligations now or hereafter existing under or in respect of the Bond Financing Documents, including this Loan Agreement and the Indenture, for the benefit of the Trustee and the Bondholders, in the manner and to the extent set forth in the Collateral Agreement.

The Borrower will cause the Technical Advisor to deliver to the Authority a report in the form of Exhibit G ("Green Bonds Annual Report") within thirty (30) days following each anniversary of the Delivery Date until the Plant Substantial Completion Date.

(h) The Borrower will deliver a copy of the CFP Agreement to the Trustee.

(i) Within ten (10) Business Days of the Borrower obtaining knowledge that the amount on deposit in the Reserve Fund is, or is expected to be due to an anticipated transfer or transfers, less than (x) fifty percent (50%) of the then applicable Reserve Fund Requirement or (y) twenty-five percent (25%) of the then applicable Reserve Fund Requirement, the Borrower shall deliver notice to the Trustee of the balance in the Reserve Fund and direct the Trustee to send notice to the Holders and the Beneficial Owners of the Bonds as provided in Section 6.08 of the Indenture.

(j) Contemporaneously with the delivery of each Operating Report, the Borrower agrees to deliver to the Trustee a supplement to the Operating Report setting out the following additional information:

(i) compliance with the Operating Budget and, in case of material adverse deviations therefrom, an explanation of the reasons for the non-achievement of budget targets, their expected future impact and measures planned or implemented to cure such deviations (any deviation equal to or greater than \$100,000 and equal to or greater than five percent (5%) of the budget target in any line item shall be deemed to be a material deviation); and

#### SECTION 5.16 ANNUAL OPERATING BUDGET.

(a) Beginning with the calendar year in which Plant Acceptance occurs, the Borrower must supply to the Trustee a proposed Operating Budget for (i) in the case of the calendar year in which Plant Acceptance occurs, the balance of the calendar year beginning with the date of Plant Acceptance and (ii) in the case of each other calendar year, for such calendar year. (b) In addition, the Borrower may propose modifications to the current Operating Budget by written notice to the Trustee to account for increases in "Operating Expenses" resulting from actual production being in excess of the quantities assumed by the applicable Operating Budget. The Trustee will promptly provide a copy of the proposed modifications to the Operating Budget to each Holder and Beneficial Owner in accordance with Section 6.08 of the Indenture and notify the Holders and the Beneficial Owners that the Required Beneficiaries have the right to reject such modifications to the Operating Budget through the Veto Process or such corresponding process under the Senior Bond Indenture.

(c) In any circumstance in which an Operating Budget for a calendar year has not been agreed in accordance with the Bond Financing Documents, the previously agreed Operating Budget will apply. For the avoidance of doubt, the failure of the Borrower to achieve financial results in accordance with the Operating Budget will not, as such, constitute an Event of Default.

(d) If after the Commercial Operations Date, as of any Calculation Date immediately preceding the date on which the Borrower is required to supply to the Trustee a proposed Operating Budget (i) the Historic Debt Service Coverage Ratio as of such Calculation Date is 1.15 or less or (ii) the production of the Plant in the twelve (12) -month period preceding such Calculation Date is less than 112,000 square feet of medium density fiberboard (on a  $\frac{3}{4}$ " equivalent basis), then the Borrower shall (x) obtain the approval of the Technical Advisor of such Operating Budget before supplying any such Operating Budget to the Trustee, and (y) request recommendations from the Technical Advisor with respect to improving the operations of the Plant, including production matters and expense items. For any calendar year for which the Borrower is obligated to obtain the Technical Advisor's approval of the Operating Budget and request the Technical Advisor's operations recommendations in accordance with the immediately preceding sentence, the Borrower will follow any recommendations made by the Technical Advisor, except to the extent that the Borrower objects in good faith to such recommendations and informs the Trustee in writing of such objections and the Borrower's reasons for such objections.

(d) The Borrower will obtain and maintain all Governmental Approvals as and when necessary for the construction, use or operation of the Plant, as applicable, except where the failure to maintain such Governmental Approvals would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect.

SECTION 5.18 <u>FINANCING AND CONTINUATION STATEMENTS</u>. The Borrower hereby agrees to file or cause to be filed all financing and continuation statements required to be filed, if any, by the Bond Financing Documents (including Section 5.11 hereof) and provide copies of such filings to the Trustee.

Thereafter the Borrower will have succeeding contracts providing for the supply of resin, each for a term of at least twelve (12) months and otherwise on substantially the same terms as the Resin Supply Agreement existing as of the Delivery Date (other than as to price), provided that such contracts may also from time to time provide for the supply of such alternative resin compounds as may be compatible with the SICO Equipment (as that term is defined in the Equipment Supply Agreement) and is shown to the reasonable satisfaction of the Technical Advisor not to adversely impact the ability of the Plant to operate in accordance with Prudent Operating Practice and applicable laws. If at any time the Borrower shall fail to satisfy the requirements of the immediately preceding sentence, the Borrower shall not be in default of this covenant if:

(i) the Borrower promptly notifies the Trustee of such failure and of the amount of resin then on hand or still under contract and the date on which such resin then on hand or to be delivered under contract is first projected to be less than the resin then required for 100% production for a six (6) week period, together with appropriate evidence demonstrating the basis for such notification; and

(h) an Act of Bankruptcy occurs with respect to the Borrower, provided, however, that an Act of Bankruptcy not commenced by the Borrower will only result in a Loan Default Event if the same remains undismissed, undischarged or unbonded for a period of ninety (90) days;

(i) the Borrower abandons all or substantially all of the Plant or otherwise ceases to develop, construct, operate or maintain the Plant, which abandonment or cessation will be deemed to have occurred if the Borrower fails, without reasonable cause, for ninety (90) consecutive days to take any action to develop, construct, operate or maintain, as applicable, the Tax-Exempt Project;

(j) a final judgment is entered against the Borrower for the payment of money in excess of \$1,000,000 (as adjusted by the Inflation Factor from the Senior Bonds Delivery Date to the date of calculation), or any non-monetary final judgment is entered against the Borrower which is reasonably likely to result in a Material Adverse Effect, and, in each case, if such judgment remains unsatisfied without any procurement of a stay of execution within thirty (30) calendar days after the date of entry of judgment or at any time thereafter becomes unsatisfied and unstayed;

(k) except in accordance with its terms or as permitted pursuant to the terms of the Bond Financing Documents, (A) any Collateral Instrument or the Investors' Pledge Agreement is not or ceases to be effective to grant a lien on the Collateral described therein (other than on an immaterial portion thereof) or (B) any lien on the Collateral is not or ceases to be perfected, in each case, as set forth in the Bond Financing Documents, or (C) any Bond Financing Document to which the Borrower is a party or any material provision therein ceases to be in full force and effect except in accordance with its terms, and such event continues for thirty (30) days after the earlier of notice from the Trustee to the Borrower and the Borrower having actual knowledge of such event;

(l) an ERISA Event has occurred which, when taken together with all other such ERISA Events for which liability is reasonably expected to occur, would reasonably be expected to result in a Material Adverse Effect;

(m) failure to achieve the Commercial Operations Date by June 17, 2021 (unless a Force Majeure Event has occurred, in which case before the Force Majeure Adjusted Date);

(n) funds on deposit in any Funds and Accounts are used or withdrawn by or at the instruction of the Borrower other than for the purposes specified or as expressly permitted in the Bond Financing Documents, unless such occurrence is caused by an administrative error and is remedied within five (5) Business Days after the Borrower obtains knowledge of the error;

(o) any Governmental Approval necessary for the execution, delivery and performance by the Borrower of the Bond Financing Documents and the other Transaction Documents or the ownership and operation of the Tax-Exempt Project by the Borrower is not obtained, maintained, or complied with, in each case, as and when required, and such failure would reasonably be expected to have a Material Adverse Effect, unless in each case, such failure is remedied within thirty (30) days after written notice from the Trustee to the Borrower, or such longer period as is reasonably necessary under the circumstances to remedy such failure, but in any event before any Material Adverse Effect shall have occurred;

(p) (i) a Material Contract ceases to be valid and binding and in full force and effect (except in accordance with its terms) or is terminated prior to its expiration date, (ii)

any material provision of a Material Contract is declared null and void in a legal proceeding, or (iii) the Borrower or any counterparty to a Material Contract denies in writing further liability or obligation under such Material Contract (unless such Material Contract has expired or otherwise terminated in accordance with its terms); provided, however, that there will be no Loan Default Event under this clause (p) if, within ninety (90) days of the effective date of any of the events described in (i), (ii) or (iii), the Borrower satisfies the "Construction Replacement Provisions" set forth in Section 5.39(b)(ii) of the Senior Bond Loan Agreement or the CFP Replacement Provisions, as the case may be, with respect to such Material Contract;

(q) an Act of Bankruptcy occurs and is continuing with respect to a Material Company; provided, however, that there will be no Loan Event of Default under this clause (q) if, with respect to the Material Contract as to which the Material Company is the counterparty, within ninety (90) days of the Act of Bankruptcy, the Borrower satisfies the "Construction Replacement Provisions" set forth in Section 5.39(b)(ii) of the Senior Bond Loan Agreement or the CFP Replacement Provisions, as the case may be, with respect to such Material Contract;

(r) failure of any party to the Licensor's and Investors' Undertaking (other than the Collateral Agent) to observe any covenant required to be observed by it under the terms of the Licensor's and Investors' Undertaking beyond any applicable notice or cure period, which continues for a period of thirty (30) days after written notice delivered to the Borrower, which notice will specify such failure and request that it be remedied, given to the Borrower by the Authority or the Trustee; provided, however, that if the failure stated in the notice cannot be corrected within such period and would not be reasonably likely to result in a Material Adverse Effect, such period will be extended if corrective action is instituted within such period and diligently pursued until the default is corrected, but such period shall in any event terminate before the earlier of any Material Adverse Effect shall have occurred and one hundred eighty (180) days; and

(s) failure of (i) any of the Construction Sureties to pay any valid claim under its respective Construction Bond, within the time period permitted under the terms of the applicable Construction Bond, after due presentation to the applicable Construction Surety of all documentation required under the terms of applicable Construction Bond or (ii) any of the SICO Guarantors to pay any valid claim under its respective SICO Guarantee, within the time period permitted under the terms of the applicable SICO Guarantee, after due presentation to the applicable SICO Guarantee.

SECTION 7.2 <u>REMEDIES ON DEFAULT</u>. Whenever any Loan Default Event has occurred and is continuing,

(a) Upon the occurrence and continuance of a Loan Default Event under Section 7.1(h), the unpaid balance of the amount payable under Section 4.2 of this Loan Agreement shall be due and payable immediately without any further action or notice.

(b) Upon the occurrence and continuance of any other Loan Default Event, the Trustee, by written notice to the Authority and the Borrower, shall declare the unpaid balance of the loan payable under Section 4.2(a) of this Loan Agreement to be due and payable immediately, provided that concurrently with or prior to such notice the unpaid principal amount of the Bonds shall have been declared to be due and payable under the Indenture. Upon any such declaration such amount shall become and shall be immediately due and payable as determined in accordance with Section 7.01 of the Indenture.

(c) The Trustee may have access to and may inspect, examine and make copies of the books and records and any and all accounts, data and federal income tax and other tax returns of the Borrower; provided that the Trustee shall be obligated to protect the confidentiality of such information to the extent provided by State and federal law and prevent its disclosure to the public, except the Authority.

(d) The Authority or the Trustee may take whatever action at law or in equity as may be necessary or desirable to collect the payments and other amounts then due and thereafter to become due or to enforce performance and observance of any obligation, agreement or covenant of the Borrower under this Loan Agreement.

(e) The Trustee may, and with respect to Collateral held under the Collateral Agency Agreement shall (subject to such Collateral Agency Agreement), instruct the Collateral Agent to take whatever action, including without limitation foreclosure under the Deed of Trust or other enforcement actions pursuant to the terms of the Collateral Instruments, at law or in equity may appear necessary or desirable to collect the payments then due and thereafter to become due hereunder, whether on the stated due date or by declaration of acceleration or otherwise, for damages or for specific performance or otherwise to enforce performance and observance of any obligation, condition or covenant of the Borrower under this Loan Agreement, all as provided in Article V of the Collateral Agency Agreement.

The Borrower covenants that, in case a Loan Default Event shall occur with respect to the payment of any Loan Repayment payable under Section 4.2(a) hereof, then, upon demand of the Trustee, the Borrower shall pay to the Trustee the whole amount that then shall have become due and payable under said Section, with interest on the amount then overdue at the Default Rate. Such overdue rate shall remain in effect until such overdue amount has been paid.

In case the Borrower shall fail forthwith to pay such amounts upon such demand, the Trustee shall be entitled and empowered to institute any action or proceeding at law or in equity for the collection of the sums so due and unpaid, and may prosecute any such action or proceeding to judgment or final decree, and may enforce any such judgment or final decree against the Borrower and collect in the manner provided by law the moneys adjudged or decreed to be payable.

In case proceedings shall be pending for the bankruptcy or for the reorganization of the Borrower under the federal bankruptcy laws or any other applicable law, or in case a receiver or trustee shall have been appointed for the property of the Borrower or in the case of any other similar judicial proceedings relative to the Borrower, or the creditors or property of the Borrower, then the Collateral Agent and the Trustee, as applicable, shall be entitled and empowered, by intervention in such proceedings or otherwise, to file and prove a claim or claims for the whole amount owing and unpaid pursuant to this Loan Agreement and, in case of any judicial proceedings, to file such proofs of claim and other papers or documents as may be necessary or advisable in order to have the claims of the Collateral Agent or the Trustee, as applicable, allowed in such judicial proceedings relative to the Borrower, its creditors or its property, and to collect and receive any moneys or other property payable or deliverable on any such claims, and to distribute such amounts as provided in the Indenture after the deduction of its reasonable charges and expenses to the extent permitted by the Indenture. Any receiver, assignee or trustee in bankruptcy or reorganization is hereby authorized to make such payments to the Collateral Agent or the Trustee, as applicable, and to pay to the Collateral Agent or the Trustee, as applicable, any amount due it for reasonable compensation and expenses, including reasonable expenses and fees of counsel incurred by it up to the date of such distribution.

The Trustee's rights, powers and remedies under this Loan Agreement against the Borrower and the Collateral are subject to the provisions of Article X of the Collateral Agency Agreement.

SECTION 7.3 <u>AGREEMENT TO PAY ATTORNEYS' FEES AND EXPENSES</u>. In the event the Borrower should default under any of the provisions of this Loan Agreement and the Collateral Agent or the Trustee should employ attorneys or incur other expenses for the collection of the payments due under this Loan Agreement or the enforcement of performance or observance of any obligation or agreement on the part of the Borrower herein contained, the Borrower agrees to pay to the Collateral Agent or the Trustee the reasonable fees of such attorneys and such other reasonable expenses so incurred by the Collateral Agent or the Trustee. In the event the Borrower prevails in any such enforcement proceeding, the Trustee shall pay the reasonable attorneys' fees and expenses of the Borrower, provided that any such payment shall be made only from and to the extent of amounts for which the Trustee has been indemnified by Beneficial Owners.

SECTION 7.4 <u>NO REMEDY EXCLUSIVE</u>. Subject to the terms of the Collateral Agency Agreement, no remedy herein conferred upon or reserved to the Authority, the Collateral Agent or the Trustee is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Loan Agreement or now or hereafter existing at law or in equity or by statute. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle the Authority, the Collateral Agent or the Trustee to exercise any remedy reserved to it in this Article, it shall not be necessary to give any notice, other than such notice as may be herein or in the Collateral Agency Agreement expressly required. The Collateral Agent, the Trustee and the Holders of the Bonds shall be considered third party beneficiaries for the purposes of enforcing the rights of the Authority and their own respective rights.

SECTION 7.5 <u>NO ADDITIONAL WAIVER IMPLIED BY ONE WAIVER</u>. In the event any agreement or covenant contained in this Loan Agreement should be breached by the Borrower and thereafter waived by the Authority, the Collateral Agent or the Trustee, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder.

## ARTICLE 8

### PREPAYMENT

SECTION 8.1 <u>REDEMPTION OF BONDS WITH PREPAYMENT MONEYS</u>. By virtue of the assignment of the rights of the Authority under this Loan Agreement to the Trustee as is provided in Section 4.4 hereof, the Borrower agrees to and shall pay directly to the Trustee any amount permitted or required to be paid by it under this Article VIII. The Trustee shall use the moneys so paid to it by the Borrower to redeem the Bonds on the date set for such redemption pursuant to Article IV of the Indenture (other than as set forth in Section 4.01(a) of the Indenture). The Authority shall call Bonds for redemption as required by Article IV of the Indenture and as requested by the Borrower pursuant to the terms of the Indenture and this Loan Agreement.

SECTION 8.2 <u>OPTIONS TO PREPAY INSTALLMENTS</u>. The Borrower shall have the option to prepay the amounts payable under Section 4.2(a) hereof by paying to the Trustee, for deposit in the Revenue Fund, the amount set forth in Section 8.4 hereof, at the price and time and under the conditions set forth in Section 4.01(f) of the Indenture.

SECTION 8.3 <u>MANDATORY PREPAYMENT</u>. Upon any mandatory redemption event described in Sections 4.01(c) through (e) of the Indenture, the Borrower shall prepay the Loan Repayments pursuant to Section 4.2(a)(i) hereof in an amount sufficient to redeem the Bonds at the redemption price thereof on or before the date such Bonds are to be redeemed as provided in the Indenture.

SECTION 8.4 <u>AMOUNT OF PREPAYMENT</u>. In the case of a prepayment of the entire amount due hereunder pursuant to Section 8.2 or 8.3 hereof, the amount to be paid shall be a sum sufficient, together with other funds and the yield on any securities deposited with the Trustee and available for such purpose, to pay (1) the principal of all Bonds Outstanding on the redemption date as provided in the Indenture, plus interest accrued and to accrue to the payment or redemption date of the Bonds, plus premium, if any, pursuant to the Indenture, (2) all reasonable and necessary fees and expenses of the Authority, the Trustee and any paying agent accrued and to accrue through final payment of the Bonds and (3) all other liabilities of the Borrower accrued and to accrue under this Loan Agreement.

In the case of partial prepayment of the Loan Repayments, the amount payable shall be a sum sufficient, together with other funds deposited with the Trustee and available for such purpose, to pay the principal amount of and premium, if any, and accrued interest on the Bonds to be redeemed, as provided in the Indenture, and to pay expenses of redemption of such Bonds. All partial prepayments of the Loan Repayments shall be applied in inverse order of the due dates thereof.

SECTION 8.5 <u>NOTICE OF PREPAYMENT</u>. To exercise an option granted in or to perform an obligation required by this Article VIII, the Borrower will give written notice, at least two Business Days prior to the last day by which the Trustee is permitted to give notice of redemption pursuant to Section 4.03 of the Indenture, to the Authority and the Trustee specifying the amount to be prepaid and the date upon which any prepayment will be made. If the Borrower fails to give such notice of a prepayment in connection with a mandatory redemption under this

Loan Agreement, such notice may be given by the Authority, by the Trustee or by any Holder or Holders or Beneficial Owner or Beneficial Owners of 10% or more in aggregate principal amount of the Bonds Outstanding. The Authority and the Trustee, at the request of the Borrower or any such Bondholder, shall forthwith take all steps necessary under the applicable provisions of the Indenture (except that the Authority shall not be required to make payment of any money required for such redemption) to effect redemption of all or part of the then Outstanding Bonds, as the case may be, on the earliest practicable date thereafter on which such redemption may be made under applicable provisions of the Indenture.

### **ARTICLE 9**

### NON-LIABILITY OF AUTHORITY; EXPENSES; INDEMNIFICATION

SECTION 9.1 <u>NON-LIABILITY OF AUTHORITY</u>. The Authority shall not be obligated to pay the principal of, or premium, if any, or interest on the Bonds, except from Revenues. The Borrower hereby acknowledges that the Authority's sole source of moneys to repay the Bonds shall be provided by the payments made by the Borrower pursuant to this Loan Agreement, together with other Revenues, including investment income on certain Funds and Accounts held by the Trustee under the Indenture, and hereby agrees that if the payments to be made hereunder shall ever prove insufficient to pay all principal of, and premium, if any, and interest on the Bonds as the same shall become due (whether by maturity, redemption, acceleration or otherwise), then upon notice from the Trustee, the Borrower shall pay such amounts as are required from time to time to prevent any deficiency or default in the payment of such principal, premium or interest, including, but not limited to, any deficiency caused by acts, omissions, nonfeasance or malfeasance on the part of the Trustee, the Borrower, the Authority or any third party.

SECTION 9.2 <u>EXPENSES</u>. The Borrower covenants and agrees to pay and to indemnify the Authority and the Trustee against all costs and charges, including reasonable fees and disbursements of attorneys, accountants, consultants and other experts, incurred in good faith in connection with this Loan Agreement, the Bonds or the Indenture.

SECTION 9.3 INDEMNIFICATION. The Borrower releases the Authority and the Trustee (including as Paying Agent and Registrar) from, and covenants and agrees that neither the Authority nor the Trustee shall be liable for, and covenants and agrees, to the extent permitted by law, to indemnify and hold harmless the Authority and the Trustee and their members, officers, employees, directors, representatives and agents from and against, any and all losses, claims, damages, liabilities or expenses (including, without limitation, reasonable attorneys' fees, litigation and court costs, amounts paid in settlement and amounts paid to discharge judgments), of every conceivable kind, character and nature whatsoever (including, without limitation, federal and state securities laws) arising out of, resulting from or in any way connected with (1) the Plant, or the conditions, occupancy, use, possession, conduct or management of, or work done in or about the Plant or the other facilities of the Borrower, or from the planning, design, acquisition, construction, rehabilitation, renovation, improvement, installation or equipping of the Plant or any part thereof; (2) the issuance, sale or resale of any Bonds or any certifications or representations made in connection therewith, the execution and delivery of this Loan Agreement, the Indenture or the Tax Certificate or any amendment thereto and the carrying out of any of the transactions contemplated by the Bonds, the Indenture and this Loan Agreement; (3) the Trustee's acceptance

or administration of the trusts under the Indenture, or the exercise or performance of any of their powers or duties under the Indenture or this Loan Agreement; (4) any untrue statement or alleged untrue statement of any material fact or omission or alleged omission to state a material fact required to be stated or necessary to make the statements made, in the light of the circumstances under which they were made, not misleading, in any official statement or other offering circular utilized by the Authority or any underwriter or placement agent in connection with the sale or remarketing of any Bonds or in any disclosure made by Borrower to comply with the requirements of S.E.C. Rule 15c2-12; (5) any violation of any Environmental Requirement or the release of any Hazardous Materials from, on or near the Plant or any other facilities of the Borrower; (6) the defeasance and/or redemption, in whole or in part, of the Bonds; or (7) any declaration of taxability of interest on the Bonds, or allegations that interest on the Bonds is taxable or any regulatory audit or inquiry regarding whether interest in the Bonds is taxable; provided that with respect to indemnification of the Authority and its members, officers, employees and agents, such indemnity shall not be required for damages that result from the gross negligence or willful misconduct on the part of the party seeking such indemnity and with respect to any other indemnified party, such indemnity shall not be required for damages that result from the negligence or willful misconduct on the part of the party seeking such indemnity. The Borrower further covenants and agrees, to the extent permitted by law, to pay or to reimburse the Authority and the Trustee and their members, officers, employees and agents for any and all costs, reasonable attorneys' fees and expenses, liabilities or other expenses incurred in connection with investigating, defending against or otherwise in connection with any such losses, claims, damages, liabilities, expenses or actions, except to the extent that the same arise out of the gross negligence or willful misconduct of the Authority and its members, officers, employees and agents claiming such payment or reimbursement or out of the negligence or willful misconduct of the Trustee and its members, officers, employees and agents claiming such payment or reimbursement. The provisions of this Section shall survive any resignation or removal of the Trustee, the retirement of the Bonds and the termination of this Loan Agreement.

SECTION 10.2 <u>SEVERABILITY</u>. If any provision of this Loan Agreement shall be held or deemed to be, or shall in fact be, illegal, inoperative or unenforceable, the same shall not affect any other provision or provisions herein contained or render the same invalid, inoperative, or unenforceable to any extent whatever.

SECTION 10.3 <u>EXECUTION OF COUNTERPARTS.</u> This Loan Agreement may be simultaneously executed in several counterparts, each of which shall be an original and all of which will constitute but one and the same instrument; *provided*, however, that for purposes of perfecting a security interest in this Loan Agreement by the Trustee under Article 9 of the California Uniform Commercial Code, only the counterpart delivered, pledged, and assigned to the Trustee shall be deemed the original.

SECTION 10.4 <u>AMENDMENTS</u>, <u>CHANGES</u>, <u>AND</u> <u>MODIFICATIONS</u>. Except as otherwise provided in this Loan Agreement or the Indenture, subsequent to the initial issuance of Bonds and prior to their payment in full, or provision for such payment having been made as provided in the Indenture, this Loan Agreement may not be effectively amended, changed, modified, altered or terminated without the written consent of the Trustee, given in accordance with Section 6.07(b) of the Indenture.

SECTION 10.5 <u>OPINIONS OF BOND COUNSEL</u>. Whenever in this Loan Agreement, the Indenture, or the Collateral Agency Agreement it is required that prior to the taking of any action an Opinion of Bond Counsel is required to be delivered, and such opinion is not given by Orrick, Herrington & Sutcliffe LLP, neither the Authority nor the Borrower shall be entitled to rely on or refer to the original final bond opinion delivered by Orrick, Herrington & Sutcliffe LLP on the Date of Delivery in any context without the consent of Orrick, Herrington & Sutcliffe LLP. Successor Bond Counsel shall also render an opinion that interest on the Tax-Exempt Bonds is Tax-Exempt and will remain so after the action in question.

This Loan Agreement shall be enforceable in the State, and any action arising out of this Loan Agreement shall be filed and maintained in the Sacramento County Superior Court, Sacramento, California, unless the Authority waives this requirement. SECTION 10.7 <u>AUTHORIZED REPRESENTATIVE</u>. Whenever under the provisions of this Loan Agreement the approval of the Borrower is required or the Borrower is required to take some action at the request of the Authority, such approval or such request shall be given on behalf of the Borrower by an Authorized Representative, and the Authority and the Trustee shall be authorized to act on any such approval or request and neither party hereto shall have any complaint against the other or against the Trustee as a result of any such action taken.

SECTION 10.8 <u>LIABILITY</u> OF <u>AUTHORITY</u> <u>LIMITED</u> TO <u>REVENUES</u>. Notwithstanding anything in this Loan Agreement, the Authority shall not be required to advance any moneys derived from any source other than the Revenues and other assets pledged under the Indenture for any of the purposes in the Indenture mentioned, whether for the payment of the principal of or interest on the Bonds or for any other purpose of the Indenture. NEITHER THE FULL FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF OR ANY LOCAL AGENCY IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF, PREMIUM, IF ANY, OR INTEREST ON THE BONDS. The Authority shall not be liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reason of or in connection with this Loan Agreement, the Bonds or the Indenture, except only to the extent amounts are received for the payment thereof from the Borrower under this Loan Agreement.

The Borrower hereby acknowledges that the Authority's sole source of moneys to repay the Bonds will be provided by the payments made, or caused to be made, by the Borrower to the Trustee pursuant to this Loan Agreement, together with investment income on certain Funds and Accounts held by the Trustee under the Indenture, and hereby agrees that if the payments to be made hereunder shall ever prove insufficient to pay all principal (or redemption price) and interest on the Bonds as the same shall become due (whether by maturity, redemption, acceleration or otherwise), then upon notice from the Trustee, the Borrower shall pay such amounts as are required from time to time to prevent any deficiency or default in the payment of such principal (or redemption price) or interest, including, but not limited to, any deficiency caused by acts, omissions, nonfeasance or malfeasance on the part of the Trustee, the Borrower, the Authority or any third party, subject to any right of reimbursement from the Trustee, the Authority or any such third party, as the case may be, therefor.

SECTION 10.10 <u>INDENTURE PROVISIONS</u>. The execution of this Loan Agreement shall constitute conclusive evidence of approval of the Indenture, as in effect in the Delivery Date, by the Borrower. Whenever the Indenture by its terms imposes a duty or obligation upon the Borrower, such duty or obligation shall be binding upon the Borrower to the same extent as if the

Borrower were an express party to the Indenture, and the Borrower shall carry out and perform all of its obligations under the Indenture as fully as if the Borrower were a party to the Indenture.

SECTION 10.11 <u>NO PREVAILING PARTY</u>. Subject to Section 7.03 hereof, nothing in this Loan Agreement shall be construed to provide for the award of attorneys' fees and costs to the Authority or the Borrower for the enforcement of this Loan Agreement, as described in Section 1717 of the California Civil Code. Nothing in this Section 10.11 affects the rights or obligations of the Trustee as provided herein or the Indenture (including, without limitation, the Trustee's rights and obligations as assignee of the Authority of this Agreement).

SECTION 10.12 <u>TERM OF THE LOAN AGREEMENT</u>. This Loan Agreement shall be in full force and effect from the date hereof and shall continue in effect as long as any of the Bonds is outstanding or the Trustee holds any moneys under the Indenture, whichever is later. All representations and certifications by the Borrower as to all matters affecting the Tax-Exempt status of the Tax-Exempt Bonds shall survive the termination of this Loan Agreement.

SECTION 10.13 <u>BINDING EFFECT</u>. This Loan Agreement shall inure to the benefit of and shall be binding upon the Authority, the Borrower and their respective successors and assigns; subject, however, to the limitations contained in Section 5.4 hereof.

SECTION 10.14 <u>SURVIVAL OF FEE OBLIGATION</u>. The right of the Authority and the Trustee to receive any fees or be reimbursed for any expenses incurred pursuant to this Loan Agreement, and the right of the Authority and the Trustee to be protected from any liability as provided in this Loan Agreement, shall survive the retirement of the Bonds or the resignation or removal of a Trustee.

SECTION 10.15 <u>COMPLETE AGREEMENT</u>. The parties agree that the terms and conditions of this Loan Agreement supersede those of all previous agreements between the parties relative to the Bonds, and that this Loan Agreement, together with the documents referred to in this Loan Agreement, contains the entire agreement relative to the Bonds between the parties hereto.

SECTION 10.16 <u>REQUIRED BONDHOLDERS</u>. For all purposes of this Agreement, in any circumstance in which a consent, approval or waiver by the Required Bondholders is required or permitted for any purpose, such consent, approval or waiver may be evidenced by a Required Bondholders Approval Certificate given in accordance with Section 6.08(i) of the Indenture.

SECTION 10.17 <u>THIRD-PARTY BENEFICIARIES</u>. The parties agree that the California Debt Limit Allocation Committee is a third-party beneficiary of this Loan Agreement for the purpose of enforcing the terms and conditions set forth in the Allocation Resolution.

The Borrower shall indemnify and hold harmless the Collateral Agent and each agent or sub-agent of the Collateral Agent, and their respective Related Parties and any successors and permitted assigns (each of the foregoing, an "Indemnified Party"), to the full extent permitted by applicable law, from and against any and all claims, obligations, actions, suits, costs, demands, losses, judgments, damages, expenses and liabilities (including liabilities for penalties) or disbursements of any kind incurred by or asserted against any of them as a result of, or arising out of, or in any way related to, or by reason of, any actual or prospective investigation, claim, litigation or other proceeding (whether based on contract, tort or other theory and regardless of whether or not any Indemnified Party is a party thereto) related to the entering into or performance of any Collateral Instrument in its capacity as Collateral Agent, or any other agreement or instrument contemplated by any of the foregoing or the consummation of any other transaction contemplated in any Collateral Instrument, including the reasonable fees and disbursements of counsel incurred in connection with any such investigation, claim, litigation or other proceeding (but excluding any such losses, liabilities, claims, demands, judgments, damages or expenses of an Indemnified Party to the extent incurred by reason of the gross negligence or willful misconduct of such Indemnified Party, as determined by a final and non-appealable order or judgment of a court of competent jurisdiction). If any proceeding, including any governmental investigation, shall be instituted involving any Indemnified Party, in respect of which indemnity may be sought against the Borrower, the Indemnified Party shall promptly notify the Borrower in writing, and the Borrower shall assume the defense thereof on behalf of the Indemnified Party including the employment of counsel (reasonably satisfactory to the Indemnified Party) and payment of all reasonable fees and expenses. Any Indemnified Party shall have the right to employ separate counsel in any such proceeding and participate in the defense thereof, but the fees and expenses of such separate counsel shall be at the expense of the employing Indemnified Party unless the employment of such separate counsel has been specifically authorized by the Borrower or the rules of ethics governing conflicts of interest require the employ of separate counsel. At any time after the Borrower has assumed the defense of any proceeding involving any Indemnified Party in respect of which indemnity has been sought against the Borrower, the Indemnified Party may elect, by notice to the Borrower, to withdraw its request for indemnity and thereafter the defense of such proceeding shall be maintained by counsel of the Indemnified Party's choosing and at the Indemnified Party's expense. The foregoing indemnity agreement includes any reasonable costs incurred by an Indemnified Party in connection with any action or proceeding which may be instituted in respect of the foregoing by the Collateral Agent or any agent or sub-agent of the Collateral Agent, or by any other Person either against the Collateral Agent or any agent or sub-agent of the Collateral Agent, or in connection with which any officer or employee of any of the foregoing is called as a witness or deponent, including the reasonable fees and disbursements of counsel, any reasonable out-of-pocket costs incurred in appearing as a witness or in otherwise complying with legal process served upon them. Any payment to be made by the Borrower to the Collateral Agent shall be made on the date due without setoff or counterclaim. The obligations of the Borrower under this Section 7.06 shall survive the termination of this Agreement. Any amount due under this Section 7.06 shall be payable by the Borrower promptly after written demand therefor.

Section 7.07 **Condemnation and Casualty**. The Borrower shall deliver to the Collateral Agent and the Debt Representatives a copy of any documents served upon or by the Borrower in connection with any Condemnation proceedings relating to any portion of the Plant. The Borrower may take such actions in connection with any actual or threatened Condemnation as are not prohibited under the provisions of the Senior Bond Documents or, after the Senior Bonds Repayment Date, the Subordinate Loan Documents. If the Borrower requests the Collateral Agent to take any action with

respect to such actual or threatened Condemnation, and provides to the Collateral Agent a certificate of the Borrower to the effect that such action is permitted under the Senior Bond Documents (or, after the Senior Bonds Repayment Date, the Subordinate Loan Documents) and provides satisfactory indemnification by the Borrower to the Collateral Agent (which indemnification shall not require any collateral other than the Collateral provided under this Agreement), then the Collateral Agent shall take the requested action unless the Collateral Agent is otherwise advised by counsel such actions shall subject it to liability not indemnified against as provided in this Agreement or otherwise adversely affects the interests of the Collateral Agent. All Loss Proceeds received by the Borrower shall be deposited by the Borrower into the Loss Proceeds Account and shall be used as provided in <u>Section</u> 7.08.

Section 7.08 **Delivery of Loss Proceeds**. (a) If (i) a Loss Event occurs and (ii) either (A) the Borrower determines not to Restore the Plant or (B) the Borrower determines that the Plant cannot be Restored to permit operation of the Plant on a Commercially Feasible Basis, then, upon delivery to the Collateral Agent of a certificate of the Borrower certifying to the foregoing (together with, in the case of <u>clause (B)</u> of this sentence, a certificate from the Technical Advisor concurring with such Borrower's certificate), then the Collateral Agent shall deposit the Loss Proceeds received in connection with the Loss Event with the Designated Debt Representative, *first*, for deposit in the Senior Bond Indenture Revenue Fund for application to the redemption of the Bonds in accordance with Section 4.01(e) of the Senior Bond Indenture, until the Senior Bonds Repayment Date and, *second*, to the extent of any remaining Loss Proceeds, for deposit in such corresponding fund or account under the Subordinate Loan Documents until the Subordinate Bond Indenture, and, *third*, to the extent of any remaining Loss Proceeds, to the Borrower.

(b) If (i) a Loss Event occurs, (ii) the Borrower or the Collateral Agent receives Loss Proceeds in respect of such Loss Event, and (iii) the Borrower determines that the Plant can be Restored to permit operation of the Plant on a Commercially Feasible Basis, the Borrower shall deliver to the Collateral Agent a certificate of the Borrower certifying to the foregoing and (in the case a Loss Event resulting in more than \$10,000,000 in Loss Proceeds) a certificate from the Technical Advisor concurring with such Borrower's certificate, and such Loss Proceeds shall be applied as set forth in Section 7.08(c).

(c) If the Borrower from time to time requires any funds held in the Loss Proceeds Account in order to Restore the Plant, the Borrower shall request disbursements of such funds by delivering to the Collateral Agent (with a copy to the Debt Representatives), not later than the fifth Business Day prior to the proposed date of disbursement, a requisition signed by an Authorized Representative of the Borrower in the form of Exhibit B (together with, in the case a Loss Event resulting in more than \$10,000,000 in Loss Proceeds, a certificate of the Technical Advisor in the form of Annex 1 to Exhibit B) and the Collateral Agent shall comply with any such requisition received in compliance with this Section 7.08(c).

(d) The Borrower agrees that any certification to be delivered by the Borrower under Section 7.08(a) or (b) shall be made within a commercially reasonable time following the date of the applicable Loss Event, taking into consideration the scale of the applicable Loss Event and complexity of reconstruction required.

Section 7.09 Further Assurances (a) The Borrower agrees, from time to time, at its own expense, to execute, acknowledge, deliver, record, re-record, file, re-file, register and re-register, and cause any other relevant Borrower Parties, to promptly execute, acknowledge, deliver, record, rerecord, file, re-file, register and re-register any and all such further documents, financing statements and continuations thereof, notices of assignment, transfers, certificates, assurances and other instruments, and to take such actions, in each case, as may be reasonably necessary or desirable, or as the Collateral Agent or any of its agents or sub-agents, or the Designated Debt Representative, may reasonably request from time to time in order (i) to carry out more effectively the purposes of this Agreement, (ii) to subject to the Liens and security interests created by any of the Collateral Instruments, any of the properties, rights or interests of the Borrower or any other Borrower Parties covered or now or hereafter intended to be covered by any of the Collateral Instruments, (iii) to perfect and maintain the validity, effectiveness and priority of any of the Collateral Instruments and the Liens and security interests intended to be created thereby, (iv) to better assure, convey, grant, assign, transfer, preserve, protect and confirm to the Collateral Agent the rights granted or now or hereafter intended to be granted to the Collateral Agent under any Collateral Instrument or under any other instrument executed in connection with any Collateral Instrument to which the Borrower or a Borrower Party is or may become a party, and (v) to enable the Collateral Agent to exercise and enforce its rights and remedies hereunder and under each other Collateral Instrument with respect to any Collateral.

(b) The Borrower hereby authorizes the Collateral Agent to file one or more financing or continuation statements relative to all or any part of the Collateral with a description of the "Collateral" as "all personal property and after-acquired personal property", and amendments thereto to correct the name and address of the Borrower or the Collateral Agent, in each case without the signature of the Borrower where permitted by law. A photocopy or other reproduction of this Agreement, any other Collateral Instrument or any financing statement where permitted by law.

(c) The Collateral Agent shall not have any duty to file and shall not be responsible or liable for any such filings referred to in this <u>Section 7.09</u>.

(d) The Borrower will furnish such information about the Borrower or any of the Collateral as the Collateral Agent may reasonably request from time to time for the purposes of monitoring the Collateral.

## **ARTICLE VIII**

## THE COLLATERAL AGENT

Section 8.01 **Collateral Agent's Acceptance**. The Collateral Agent, for itself, its agents, sub-agents and its successors, hereby accepts the obligations created by this Agreement upon the terms and conditions of this Agreement, including those contained in this <u>Article VIII</u>. Further, the Collateral Agent, for itself, its agents, sub-agents and its successors, does hereby declare that it will hold all of the estate, right, title and interest in (a) the Collateral as agent for the Debt Representatives for the benefit of the Beneficiaries and at the direction of the Debt Representatives as provided herein, and (b) each account as may be established pursuant to <u>Section 6.02</u>. The Collateral Agent shall not have, by reason of this Agreement, any Collateral Instrument, or any Debt Documents, a fiduciary relationship in

respect of either Debt Representative or any Beneficiary, and nothing herein or any of the other Collateral Instruments or Debt Documents, expressed or implied, is intended to or shall be so construed as to impose upon the Collateral Agent any obligations in respect hereof or any of the Collateral Instruments or Debt Documents except as expressly set forth herein or therein.

Section 8.02 **Exculpatory Provisions**. (a) Neither the Collateral Agent nor any of its agents or sub-agents shall be responsible in any manner whatsoever for the correctness of any recitals, statements, representations or warranties contained in this Agreement or in any of the Collateral Instruments, all of which are made solely by the Borrower Parties party thereto. Neither the Collateral Agent nor any of its agents or sub-agents makes any representations as to the value or condition of the Collateral or any part thereof, or as to the title of the Borrower Parties thereto or as to the security afforded by this Agreement or any of the Collateral Instruments or as to the validity, execution (except the Collateral Agent's own execution), enforceability, legality or sufficiency of this Agreement or any of its agents or sub-agents whatters. Neither the Collateral Agent nor any of its agents or sub-agents shall be responsible for insuring the Collateral or for the payment of taxes, charges, assessments or Liens upon the Collateral or otherwise as to the maintenance of the Collateral, except that in the event that any Collateral Agent or any of its agents or sub-agents enters into possession of a part or all of the Collateral, such Person shall preserve the part in its possession.

(b) The Collateral Agent shall not be required to ascertain or inquire as to the performance by the Borrower Parties of any of the covenants or agreements contained herein, in any Collateral Instrument or any of the Debt Documents.

(c) The Collateral Agent shall not be liable or responsible for any loss or diminution in the value of any of the Collateral, by reason of the act or omission of any carrier, forwarding agency or other agent or bailee selected by the Collateral Agent in good faith.

(d) The Collateral Agent shall not be responsible for the existence, genuineness or value of any of the Collateral or for the validity, perfection, priority or enforceability of the Liens in any of the Collateral, whether impaired by operation of law or by reason of any action or omission to act on its part hereunder, except to the extent such action or omission constitutes gross negligence or willful misconduct, as determined by a final and non-appealable order or judgment of a court of competent jurisdiction, on the part of the Collateral Agent, for the validity or sufficiency of the Collateral or any agreement or assignment contained therein, for the validity of the title of the Collateral Agent to the Collateral, for insuring the Collateral or for the payment of taxes, charges, assessments or Liens upon the Collateral or otherwise as to the maintenance of the Collateral.

(e) The Collateral Agent shall not be liable for any action taken, suffered, or omitted to be taken by it in good faith and believed by it to be authorized or within the rights or powers conferred upon it by this Agreement or any of the Collateral Instruments, unless the Collateral Agent was grossly negligent or engaged in willful misconduct, as determined by a final and non-appealable order or judgment of a court of competent jurisdiction in ascertaining the pertinent facts. (f) The rights, privileges, protections, immunities and benefits given to the Collateral Agent, including its right to be indemnified, are extended to, and shall be enforceable by, the Collateral Agent and each agent, custodian and other Person employed by the Collateral Agent to act hereunder.

(g) The permissive right of the Collateral Agent to take or refrain from taking action hereunder or under any of the Collateral Instruments shall not be construed as a duty.

(h) To the extent permitted by applicable law, anything in this Agreement or in any of the Collateral Instruments notwithstanding, in no event shall the Collateral Agent be liable for special, indirect, punitive or consequential loss or damage of any kind whatsoever (including but not limited to loss of profit), even if the Collateral Agent has been advised as to the likelihood of such loss or damage and regardless of the form of action.

(i) The Collateral Agent shall not be responsible or liable for any failure or delay in the performance of its obligations under this Agreement or any of the Collateral Instruments or the Debt Documents arising out of or caused, directly or indirectly, by circumstances beyond its control, including acts of God; earthquakes; fire; flood; terrorism; wars and other military disturbances; sabotage; epidemics; riots; interruptions; loss or malfunctions of utilities, computer (hardware or software) or communication services; accidents; labor disputes; acts of civil or military authority and governmental action; it being understood that the Collateral Agent shall use reasonable efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances and that the Collateral Agent shall not by reason of this <u>Section 8.02(i)</u> be exculpated from the results of its gross negligence or willful misconduct, as determined by a final and non-appealable order or judgment of a court of competent jurisdiction.

(j) The Collateral Agent shall not be responsible to either Debt Representative or any Beneficiary for the execution, effectiveness, genuineness, validity, enforceability, collectability or sufficiency hereof or any of the Collateral Instruments or Debt Documents, or for any representations, warranties, recitals or statements made herein or therein or made in any written or oral statements or in any financial or other statements, instruments, reports or certificates or any other documents furnished or made by the Collateral Agent to the Debt Representatives or the Beneficiaries in connection with the Debt Documents, and the transactions contemplated thereby or for the financial condition or business affairs of the Borrower or any other Person liable for the payment of any Secured Obligations, nor shall the Collateral Agent be required to ascertain or inquire as to the performance or observance of any of the terms, conditions, provisions, covenants or agreements contained in any of the Collateral Instruments or Debt Documents, or as to the use of any proceeds or as to the existence or possible existence of any Senior Bonds Event of Default or Subordinate Loan Event of Default or to make any disclosures with respect to the foregoing.

(k) The Collateral Agent shall be entitled to refrain from any act or the taking of any action (including the failure to take an action) in connection herewith or any of the other Collateral Instruments, or from the exercise of any power, discretion or authority vested in it hereunder or thereunder unless and until the Collateral Agent shall have received written instructions in respect thereof from the Designated Debt Representative, and, upon receipt of such written instructions, the Collateral Agent shall be entitled to act or (where so instructed) refrain from acting, or to exercise such power, discretion or authority, in accordance with such instructions and the other provisions of this Agreement. Without prejudice to the generality of the foregoing, (i) the Collateral Agent shall be entitled to rely, and shall be fully protected in relying, upon any communication, instrument or document believed by it to be genuine and correct and to have been signed or sent by the proper Person or Persons, and shall be entitled to rely and shall be protected in relying on advice, opinions and judgments of attorneys (who may be attorneys for either Debt Representative), accountants, experts and other professional advisors selected by it (and shall have no duty whatsoever to investigate or verify whether any such signature is genuine or authorized or whether the information in any such communication, instrument or other document is genuine or accurate); and (ii) neither the Debt Representatives nor any Beneficiary shall have any right of action whatsoever against the Collateral Agent, as a result of the Collateral Agent acting or (where so instructed) refraining from acting hereunder or any of the other Collateral Instruments or Debt Documents, in accordance with written instruction from the Designated Debt Representative.

(1) None of the provisions of this Agreement or the Collateral Instruments shall be construed to require the Collateral Agent in its individual capacity to expend or risk its own funds or otherwise to incur any personal financial liability in the performance of any of its duties hereunder or thereunder.

Section 8.03 **Delegation of Duties**. The Collateral Agent may execute or perform any right, power, remedy or duty under this Agreement either directly or by or through employees, agents, sub-agents or attorneys-in-fact (which shall not include any Affiliate of the Borrower or any officer or employee of the Borrower or any Affiliate of the Borrower). The Collateral Agent and any such employee, agent or attorney may perform any and all of its duties and exercise its rights and powers by or through their respective Affiliates. The Collateral Agent shall be entitled to rely upon advice of reasonably selected counsel and other professionals concerning all matters pertaining to such rights, powers, remedies and duties. The exculpatory provisions of Section 8.02 shall apply to any such employee, agent or attorney and to the Affiliates of the Collateral Agent and any such agent, employee or attorney. The Collateral Agent shall not be responsible for the negligence or misconduct of any of its agents, sub-agents or attorneys-in-fact reasonably selected by the Collateral Agent in good faith and with reasonable care.

Section 8.04 **Reliance by Collateral Agent**. The Collateral Agent shall be entitled to rely upon any certificate, notice or other document (including any cable, telegram, telecopy or facsimile) reasonably believed by it to be genuine and to have been signed or sent by or on behalf of the proper Person or Persons, and upon advice of legal counsel, independent accountants and other experts selected by the Collateral Agent in good faith and shall have no liability for its actions taken thereupon, unless due to the willful misconduct or gross negligence of the Collateral Agent, as determined by a final and non-appealable order or judgment of a court of competent jurisdiction. The Collateral Agent shall be fully justified in failing or refusing to take any action under this Agreement (i) if such action would, in the reasonable opinion of the Collateral Agent be contrary to applicable law or the terms of this Agreement, (ii) if such action is not specifically provided for in this Agreement, or (iii) if, in connection with the taking of any such action that would constitute an exercise of remedies under this Agreement (whether such action is or is intended to be an action of the Collateral Agent), it shall not first be indemnified to its satisfaction against any and all liability and expense (including the fees and expenses of its counsel) which may be incurred by it by reason of taking or continuing to take

any such action. The Collateral Agent may request that the Borrower deliver a certificate setting forth the names of individuals or titles of officers, or both, authorized at such time to take specified actions pursuant to this Agreement or any of the Debt Documents or the Collateral Instruments, which certificate may be signed by any person authorized to sign such a certificate, including any person specified as so authorized in any such certificate previously delivered and not superseded. Whenever the Collateral Agent is directed by the Designated Debt Representative in accordance with this Agreement to take (or refrain from taking) any action, to the extent the taking (or refraining from taking) of such action shall require approval of any of the Beneficiaries, the Designated Debt Representative shall conclusively be deemed to have obtained such approval. The Collateral Agent may act on advice or opinion of counsel selected with due care and shall not be responsible for any loss or damage resulting from any action or non-action by it taken or omitted to be taken in good faith and in reliance upon the advice or opinion of such counsel.

Section 8.05 **Limitations on Duties of the Collateral Agent**. The Collateral Agent undertakes to perform only the duties expressly set forth in this Agreement and in the Collateral Instruments, and no implied covenant or obligation shall be read into this Agreement or any of the Collateral Instruments against the Collateral Agent or any of its agents or sub-agents.

(a) The Collateral Agent and any of its agents or sub-agents may exercise the rights and powers granted to it by this Agreement and the other Collateral Instruments, but only pursuant to the terms of this Agreement and the other Collateral Instruments and where applicable in accordance with any written instruction from the Designated Debt Representative. Neither the Collateral Agent nor any of its agents or sub-agents shall be liable with respect to any action taken or omitted by it in accordance with this Agreement and the Collateral Instruments and in accordance with a written instruction from the Designated Debt Representative except in the case of its own gross negligence, or willful misconduct, in any case as determined by a final and non-appealable order or judgment of a court of competent jurisdiction.

(b) The Collateral Agent shall not be under any obligation to take any action that is discretionary under the provisions of this Agreement or under any Collateral Instrument. For the purpose of the immediately preceding sentence, any provision to the effect that the Collateral Agent's consent may not be unreasonably withheld or delayed (or similar formulation) shall be construed to require a discretionary action. The Collateral Agent shall not be required to initiate or conduct any litigation or collection proceeding under this Agreement unless indemnified to its reasonable satisfaction by the party requesting that such action be taken.

(c) The Collateral Agent shall be under no obligation to exercise any of the rights or powers vested in it by this Agreement or any Collateral Instrument at the request or direction of a written instruction from the Designated Debt Representative pursuant to this Agreement, unless the Collateral Agent shall have been furnished security or indemnity satisfactory to the Collateral Agent against the costs, expenses and liabilities that might be incurred by the Collateral Agent in complying with such request or direction.

(d) The Collateral Agent may refrain from taking any action in any jurisdiction if, in its good faith opinion, the taking of such action in that jurisdiction would be contrary to any law of that jurisdiction or of the State of New York, it would otherwise render it liable to any Person in that jurisdiction or the State of New York (unless first indemnified to the reasonable satisfaction as provided in <u>Section 8.05(b)</u>), the taking of such action would require it to obtain any license or otherwise qualify to do business or subject it to taxation in such jurisdiction, it would not have the power or authority to take such action in such jurisdiction by virtue of any law in that jurisdiction or in the State of New York, or it is determined by any court or other competent authority in that jurisdiction or in the State of New York that it does not have such power or authority.

(e) If the Collateral Agent shall be required under this Agreement or pursuant to any directions given by the Borrower or the Designated Debt Representative to make any withdrawal, disbursement, transfer or payment on a day other than a Business Day, the Collateral Agent shall make such withdrawal, disbursement, transfer or payment on the next succeeding Business Day.

Section 8.06 **Moneys to Be Held in Trust**. All moneys received by the Collateral Agent under or pursuant to any provision of this Agreement or any Collateral Instrument shall be separated and held in trust for the purposes for which they were paid or are held and the Collateral Agent shall exercise ordinary care in the handling of any such moneys actually received by it.

### Section 8.07 **Resignation and Removal of Collateral Agent**.

The Collateral Agent may at any time, by giving at least 30 days' prior (a) notice to the Borrower, the Authority, and the Debt Representatives, resign and be discharged of its responsibilities created by this Agreement and the Collateral Instruments. Any resignation of the Collateral Agent shall become effective only upon the appointment of a successor Collateral Agent by the Borrower, which appointment shall be effective if not objected to by the Designated Debt Representative or by the Authority within 30 days of the date of such appointment, provided that, if a Debt Documents Event of Default shall have occurred and be continuing, the successor Collateral Agent shall be appointed by the Designated Debt Representative rather than by the Borrower. The Collateral Agent may be removed, with or without cause, at any time and a successor Collateral Agent appointed (a) if no Debt Documents Event of Default shall have occurred and be continuing, by a written instruction from the Borrower, which appointment shall be effective if not objected to by the Designated Debt Representative or the Authority within 30 days of the date of such appointment or (b) if a Debt Documents Event of Default shall have occurred and be continuing, by a written instruction from the Designated Debt Representative, provided that, in either case, the removed Collateral Agent shall be entitled to its fees and expenses accrued to the date of its removal. If no successor Collateral Agent shall be appointed and approved within 30 days after the date of the giving of a notice of resignation or within 30 days after the date of such vote for removal, the Collateral Agent shall be consented to through a written instruction from the Designated Debt Representative (in each case only with the approval of the Required Beneficiaries) who may, under the respective circumstances described above, apply to any court of competent jurisdiction to appoint a successor Collateral Agent to act until such time, if any, as a successor Collateral Agent shall have been appointed as above provided. Any successor Collateral Agent so appointed by such court shall immediately and without further act be superseded by any Collateral Agent approved as above provided. Any successor Collateral Agent appointed pursuant to this Section 8.07 must satisfy the requirements of Section 8.08.

(b) If at any time the Collateral Agent shall become incapable of acting, or if at any time a vacancy shall occur in the office of the Collateral Agent for any other cause, a successor Collateral Agent shall be promptly appointed as provided in <u>Section 8.07(a)</u>, and the powers, duties, authority and title of the predecessor Collateral Agent terminated and cancelled without procuring the resignation of such predecessor Collateral Agent, and without any formality (except as may be required by applicable law) other than appointment of a successor Collateral Agent in writing delivered to the predecessor Collateral Agent and the Borrower.

The appointment of a Collateral Agent referred to in Section 8.07(a) or (c) 8.07(b) shall be sufficient evidence of the right and authority of the Designated Debt Representative and the Borrower to make the appointment and of all the facts recited in the appointment, and this Agreement shall vest in the successor Collateral Agent, without any further act, deed or conveyance, all of the estate and title of the predecessor Collateral Agent, and the successor Collateral Agent shall become fully vested with all the estates, properties, rights, powers, trusts, duties, authority and title of its predecessor. Notwithstanding the provisions of the immediately preceding sentence, the predecessor Collateral Agent shall nevertheless execute, acknowledge and deliver such instruments as may be necessary (for public record in the case of the Deed of Trust and any other Collateral Instruments as may require public recordings, notices or filings, or for which such public recordings, notices or filings may be advisable as directed in a written instruction from the Designated Debt Representative) to transfer to the successor Collateral Agent all the estates, properties, rights, powers, trusts, duties, authority and title of such predecessor hereunder and shall deliver all securities and moneys held by it to the successor Collateral Agent. Should any deed, conveyance or other instrument in writing from any Borrower Party be required by any successor Collateral Agent for more fully and certainly vesting in such successor Collateral Agent the estates, properties, rights, powers, trusts, duties, authority and title vested or intended to be vested in the predecessor Collateral Agent, any and all such deeds, conveyances and other instruments in writing shall, on request of such successor Collateral Agent, be executed, acknowledged and delivered by the Borrower (and, in the case of any such deed, conveyance or other instrument required to be executed, acknowledged and delivered by any other Borrower Party, the Borrower shall cause such other Borrower Party to execute, acknowledge and deliver the same). Upon satisfying the requirements of this Section 8.07(c), the resigning or removed Collateral Agent shall be discharged from its duties and obligations hereunder and under the Collateral Instruments.

Section 8.08 **Status of Collateral Agent**. The Initial Collateral Agent and any successor Collateral Agent appointed as provided in <u>Section 8.07</u> shall (a) be a bank or trust company in good standing and having power so to act, incorporated under the laws of the United States or any State thereof or the District of Columbia, and (b) shall have capital, surplus and undivided profits of not less than \$100,000,000, if there be such an institution with such capital, surplus and undivided profits that is willing, qualified and able to serve as the Collateral Agent upon reasonable or customary terms.

Section 8.09 **Merger of the Collateral Agent**. Any Person into which the Collateral Agent may be merged, or with which it may be consolidated, or any Person resulting from any merger or consolidation to which the Collateral Agent shall be a party, or to which all or substantially all of the Collateral Agent's corporate trust business is sold, shall become the Collateral Agent and be vested with all the rights, powers, privileges and duties of the Collateral Agent under this Agreement without the execution or filing of any paper or any further act on the part of the parties hereto. The Collateral

Agent covenants that any Person becoming the Collateral Agent by operation of the immediately preceding sentence (or by operation of law with the same effect) shall satisfy the eligibility requirements specified in <u>Section 8.08</u> and that prior to any transaction described in the immediately preceding sentence, the Collateral Agent shall notify the Borrower, the Authority, and the Debt Representatives thereof in writing.

Section 8.10 **Reasonable Care**. The Collateral Agent and its agents and sub-agents shall be deemed to have exercised reasonable care in the custody and preservation of the Collateral in their possession if the Collateral is accorded treatment substantially equal to that which the Collateral Agent or such agents and sub-agents accord their own property.

Section 8.11 **Notice of Default**. The Collateral Agent shall not be deemed to have actual knowledge or notice of the occurrence of any Debt Documents Event of Default unless the Collateral Agent has received a Notice of Default referring to this Agreement and the applicable document or documents governing such Debt Documents Event of Default, describing such Debt Documents Event of Default and stating that such notice is a "Notice of Default".

## **ARTICLE IX**

### **RELEASE OF COLLATERAL**

Section 9.01 **Permitted Releases of Collateral**. The Collateral Agent may release any Collateral to the Borrower when it is instructed to so release by a joint written instruction from the Debt Representatives or upon payment in full of the Secured Obligations or as required in the Debt Documents.

Section 9.02 **Automatic Releases of Collateral**. Upon the occurrence of any of the following, the Lien of the Collateral Instruments in the applicable Collateral specified below shall automatically, without further action, be released:

(a) With respect to amounts distributed by the Collateral Agent from the Collateral Account pursuant to, and in accordance with the provisions of this Agreement, upon such distribution, the Lien of the Collateral Instruments in such amounts shall automatically, without further action, be released.

(b) With respect to any Collateral for which the release of the Lien of the Collateral Instruments is expressly provided for pursuant to a provision of any Collateral Instrument, the Lien of the Collateral Instruments on such Collateral shall automatically, without further action, hereunder be released as provided in such provision.

Following any of the foregoing, and receipt by the Collateral Agent of written certification thereof by the Borrower, the Collateral Agent shall take action under <u>Section 9.04</u> with respect thereto.

Section 9.03 **Release Upon Termination of Collateral Agency**. The Lien of the Collateral Instruments in all Collateral shall automatically, without further action, be released upon the release of all Collateral in accordance with <u>Section 9.01</u>. Following the foregoing, and receipt by the Collateral Agent of written certification thereof by an Authorized Representative of the Borrower, the Collateral Agent shall take action under <u>Section 9.04</u> with respect thereto.

Section 9.04 **Procedures for and Effect of Release of Collateral**. (a) For any release of Collateral under Section 9.01, 9.02 or 9.03, on or before the date of the release of Collateral (or if not feasible on or before such date, as promptly thereafter as possible, but in no event later than five Business Days thereafter), the Collateral Agent shall provide, at the Borrower's direction and expense, written releases (including Uniform Commercial Code termination statements, and, if applicable, instruments of satisfaction, discharge or reconveyance) ready for filing or recording as to the Collateral released, and any items of Collateral in the possession of the Collateral Agent or any sub-agent that are released shall be returned promptly to the Borrower or as otherwise directed by the Borrower. Any execution and delivery of releases pursuant to this Section 9.04(a) shall be without recourse to or warranty (either express or implied) by the Collateral Agent, and upon execution and delivery shall be conclusive and binding and may be relied upon by any Person.

Upon the effectiveness of the release of the Collateral pursuant to (b)Section 9.03, and subject to Section 9.04(c), (i) all right, title and interest of the Collateral Agent and the Beneficiaries in, to and under the Collateral and the Collateral Instruments shall terminate and shall revert to the Borrower, (ii) the estate, right, title and interest of the Collateral Agent therein shall thereupon cease, and (iii) upon the written request of the Borrower, and at the cost and expense of the Borrower, the Collateral Agent shall promptly execute and deliver a satisfaction of the Collateral Instruments and such instruments as are necessary or desirable to terminate and remove of record any documents constituting public notice of the Collateral Instruments and the security interests granted thereunder and shall transfer, or cause to be transferred, and shall deliver or cause to be delivered to the Borrower Parties, all property, including all moneys, instruments and securities of the Borrower Parties then held by the Collateral Agent, including all amounts on deposit in any of the accounts established by the Collateral Agent pursuant to the provisions of Article III. The cancellation and satisfaction of the Collateral Instruments shall be without prejudice to the rights of the Collateral Agent or any successor trustee or trustees to charge and be reimbursed for any expenditures that they may thereafter incur in connection therewith.

(c) Notwithstanding the provisions of <u>Section 9.04(b)</u>, upon the effectiveness of the release of Collateral pursuant to <u>Section 9.03</u>, any moneys held in any account which has been established at the request of either Debt Representative pursuant to <u>Section 6.02</u> shall be released only upon receipt by the Collateral Agent from the applicable Debt Representative of written instructions to do so. If the Collateral Agent shall not have received an instruction so to release such Collateral, the Collateral Agent shall not release such Collateral unless and until the applicable Debt Representative or a court of competent jurisdiction so directs the Collateral Agent.

No amendment to any Senior Bond Document or waiver of any provision thereof shall affect the subordination of the Subordinate Loan Obligations or the Subordinate Loan Documents set forth in this <u>Section 10.02</u>. The Subordinate Indenture Trustee consents to and authorizes, at the option of the Senior Bondholders and the Senior Indenture Trustee, the release of all or any portion of the Collateral, and the Subordinate Indenture Trustee waives any equitable right in respect of marshalling the Subordinate Indenture Trustee might otherwise have in connection with the release of any portion of the Collateral by the Senior Indenture Trustee in its capacity as Designated Debt Representative.

Payment Subordination. All of the rights of the Subordinate Indenture Section 10.03 Trustee to payment of the Subordinate Loan Obligations are hereby subordinated to all of the Senior Bond Obligations and the Senior Indenture Trustee's rights to receive payments from the Borrower of the Senior Bond Obligations. Other than payments expressly permitted by this Agreement, prior to the Senior Bonds Repayment Date the Subordinate Indenture Trustee will not accept or receive payments of any kind or character from any Borrower Party, including payments in cash or other property and whether received directly, indirectly or by set-off, counterclaim or otherwise, provided that the Subordinate Indenture Trustee shall in any case be entitled to payment exclusively from the Subordinate Loan Obligations Separate Collateral and to enforce its rights against the Subordinate Loan Obligations Separate Collateral, in either case in accordance with the terms of the Subordinate Loan Documents. Other than payments expressly permitted by this Agreement to be made to the Subordinate Indenture Trustee or the Subordinate Debt Representative, the Senior Indenture Trustee shall be entitled to receive payment in full in cash of all of the Senior Bond Obligations before the Subordinate Indenture Trustee or the Subordinate Debt Representative is entitled to receive any payment on account of the Subordinate Loan Obligations, including in any Proceeding. In no event shall the Subordinate Indenture Trustee take any action or institute any proceeding against any Borrower Party prior to the Senior Bonds Repayment Date, except to the extent necessary to enforce the Subordinate Loan Obligations exclusively against the Subordinate Loan Obligations Separate Collateral in accordance with the terms of the Subordinate Loan Documents.

Rights of Subrogation; Bankruptcy. No payment to the Senior Indenture Section 10.04 Trustee made in accordance with this Agreement (or the further distribution of any such payment to the Senior Bondholders) shall entitle the Subordinate Indenture Trustee to any right of subrogation prior to the Senior Bonds Repayment Date. The provisions of this Article X shall be applicable both before and after the commencement, whether voluntary or involuntary of any Proceeding. Prior to the Senior Bonds Repayment Date, the Subordinate Indenture Trustee shall not, and shall not solicit any other Person to, and shall not direct or cause the Borrower or any other Person to (a) commence any Proceeding, (b) institute proceedings to have the Borrower adjudicated a bankrupt or insolvent, (c) consent to or acquiesce in the institution of any Proceeding against the Borrower, (d) file a petition or consent to the filing of a petition seeking reorganization, arrangement, adjustment, winding up, dissolution, composition, liquidation or other relieve by or on behalf of the Borrower, (e) seek or consent to the appointment of a receiver, liquidator, assignee, trustee, sequestrator, custodian or any similar official for the Borrower or all or any portion of the Collateral, (f) make any assignment for the benefit of any creditor of the Borrower, (g) seek to consolidate the Collateral with any assets of Holdco or any other Affiliate of the Borrower in any Proceeding, or (h) take any action in furtherance of the foregoing. In any Proceeding, (a) the Subordinate Indenture Trustee shall not make any election, give any consent, commence any action or file any motion, claim, obligation, notice or application, or take

any other action by or against the Borrower without the prior consent of the Senior Indenture Trustee, (b) the Senior Indenture Trustee may vote any and all claims of the Subordinate Indenture Trustee or the Beneficiaries of the Subordinate Loan Obligations, and the Subordinate Indenture Trustee hereby appoints the Senior Indenture Trustee as its agent, and grants to the Senior Indenture Trustee an irrevocable power of attorney coupled with an interest, and its proxy, for the purpose of exercising any and all rights and taking any and all actions that would otherwise be available to the Subordinate Indenture Trustee or the Beneficiaries of the Subordinate Loan Obligations to file and prosecute any claims, to vote to accept or reject a plan of reorganization, and to make any election under Section 1111(b) of the Bankruptcy Code, (c) the Subordinate Indenture Trustee shall not challenge the validity or amount of any claim submitted by the Senior Indenture Trustee against any Borrower Party or any valuations of any portion of the Collateral, and (d) the Subordinate Indenture Trustee shall not take any other action adverse to the Senior Indenture Trustee's enforcement of its claim or receipt of adequate protection (as that term is defined in the Bankruptcy Code). In furtherance of the foregoing (a) the Subordinate Indenture Trustee hereby assigns to the Senior Indenture Trustee, until the Senior Bonds Repayment Date, all of the Subordinate Indenture Trustee's rights to vote in connection with any dissolution, liquidation, arrangements, plan of reorganization or other matter with respect to the Borrower, Holdco, or any other Affiliate of the Borrower in any Proceeding, and (b) the Subordinate Indenture Trustee shall not, without the Senior Indenture Trustee's prior consent, make any filing or motion or vote or take any other action in any Proceeding, the result of which would be that the Senior Indenture Trustee's rights in any the Proceeding, including Senior Indenture Trustee's ability to receive payments on account of the Senior Bond Obligations (or the amount or time of receipt of such payments), would be adversely affected as a result of the existence of the Subordinate Loan Obligations. To the extent any payment on account of the Senior Bond Obligations (whether by or on behalf of Borrower, as proceeds of the Collateral, enforcement of any right of setoff, or otherwise) is declared to be fraudulent or preferential, set aside or required to be paid to a trustee, receiver or other similar party under any bankruptcy, insolvency, receivership or similar law, then if such payment is recovered by, or paid over to, such trustee, receiver or other similar party, and notwithstanding any prior termination of this Agreement, (a) the Senior Bond Obligations or part thereof originally intended to be satisfied by such payment shall for all purposes of this Agreement be deemed to be reinstated and outstanding as if such payment had not occurred and (b) the Senior Indenture Trustee's rights under this Agreement shall be deemed to be reinstated as if such payment had not occurred.

Section 10.05 **Cure Rights**. The Subordinate Indenture Trustee shall at all times have the right, but not the obligation, to cure any payment default existing under the terms of the Senior Bond Documents, but any such cure shall entitle the Subordinate Indenture Trustee to a right of subrogation against the Borrower only with respect to the amounts advanced by the Subordinate Indenture Trustee in effecting such cure, and no such cure shall entitle the Subordinate Indenture Trustee to any right of reimbursement from the Senior Indenture Trustee or the Collateral Agent or to any right of subrogation in the Senior Indenture Trustee's rights or preferences in the Collateral or otherwise under the terms of this Agreement.

- (f) Invoices or other satisfactory evidence for each item for the payment of costs of Plant Construction provided for in the Borrowing Requisition are attached to the Requisition.
- The major construction and operation activities (if any) and the progress of the (g) construction of the Plant through the date of this Certificate are anticipated to allow, to the best of our knowledge, the Plant Substantial Completion Date to occur on or ]<sup>1</sup> (the "Anticipated Plant Substantial Completion Date"), before [ barring events currently unanticipated. #### **BOOK-ENTRY ONLY SYSTEM**

The Depository Trust Company ("DTC") will act as securities depository for the 2019 Subordinate Bonds. The 2019 Subordinate Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered 2019 Subordinate Bond will be issued for the 2019 Subordinate Bonds, in the aggregate principal amount of the 2019 Subordinate Bonds, and will be deposited with the Bond Trustee as custodian for DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the 2019 Subordinate Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the 2019 Subordinate Bonds on DTC's records. The ownership interest of each actual purchaser of each 2019 Subordinate Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the 2019 Subordinate Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in 2019 Subordinate Bonds, except in the event that use of the book-entry system for the 2019 Subordinate Bonds is discontinued.

To facilitate subsequent transfers, all 2019 Subordinate Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of 2019 Subordinate Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the

2019 Subordinate Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such 2019 Subordinate Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of 2019 Subordinate Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the 2019 Subordinate Bonds, such as redemptions, tenders, defaults, and proposed amendments to the 2019 Subordinate Bond documents. For example, Beneficial Owners of 2019 Subordinate Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Bond Trustee and request that copies of notices be provided directly to them. THE AUTHORITY, THE BORROWER, THE UNDERWRITERS AND THE BOND TRUSTEE WILL NOT HAVE ANY RESPONSIBILITY OR OBLIGATION TO SUCH DIRECT AND INDIRECT PARTICIPANTS OR THE PERSONS FOR WHOM THEY ACT AS NOMINEES WITH RESPECT TO THE 2019 SUBORDINATE BONDS.

Redemption notices shall be sent to DTC. If less than all of the 2019 Subordinate Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to 2019 Subordinate Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Authority as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the 2019 Subordinate Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the 2019 Subordinate Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Authority or the Bond Trustee, on payable dates in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Bond Trustee, or the Authority, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Authority or the Bond Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of DTC, and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the 2019 Subordinate Bonds at any time by giving reasonable notice to the Authority or the Bond Trustee. In addition, the Authority, in its sole discretion and without the consent of any other Person, may terminate, upon provision of notice to the Bond Trustee and the Borrower, the services of DTC with respect to the 2019 Subordinate Bonds if the Authority determines that the continuation of the system of book-entry only transfers through DTC (or a successor securities depository) is not in the best interests of the Beneficial Owners of the 2019 Subordinate Bonds or is burdensome to the Authority. Under such circumstances, in the event that a successor securities depository is not obtained, 2019 Subordinate Bonds are required to be printed and delivered as described in the Indenture.

AUTHORITY, THE BOND TRUSTEE, THE BORROWER AND THE THE UNDERWRITERS SHALL NOT HAVE ANY RESPONSIBILITY OR OBLIGATION TO ANY DIRECT OR INDIRECT PARTICIPANT, ANY BENEFICIAL OWNER OR ANY OTHER PERSON CLAIMING A BENEFICIAL OWNERSHIP INTEREST IN THE 2019 SUBORDINATE BONDS UNDER OR THROUGH DTC OR ANY DTC PARTICIPANT, OR ANY OTHER PERSON WHICH IS NOT SHOWN ON THE REGISTRATION BOOKS OF THE BOND TRUSTEE AS BEING A HOLDER, WITH RESPECT TO THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC OR ANY DIRECT OR INDIRECT PARTICIPANT; THE PAYMENT BY DTC OR ANY DIRECT OR INDIRECT PARTICIPANT OF ANY AMOUNT IN RESPECT OF THE PRINCIPAL OF, PREMIUM, IF ANY, OR INTEREST ON THE 2019 SUBORDINATE BONDS; ANY NOTICE WHICH IS PERMITTED OR REQUIRED TO BE GIVEN TO OWNERS UNDER THE INDENTURE; THE SELECTION BY DTC OR ANY DIRECT OR INDIRECT PARTICIPANT OF ANY PERSON TO RECEIVE PAYMENT IN THE EVENT OF A PARTIAL REDEMPTION OF THE 2019 SUBORDINATE BONDS; ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS AN OWNER; OR ANY OTHER PROCEDURES OR OBLIGATIONS OF DTC UNDER THE BOOK-ENTRY SYSTEM.

SO LONG AS CEDE & CO. (OR SUCH OTHER NOMINEE AS MAY BE REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC) IS THE REGISTERED OWNER OF THE 2019 SUBORDINATE BONDS, AS NOMINEE OF DTC, REFERENCES HEREIN TO THE HOLDERS OR OWNERS OR REGISTERED HOLDERS OR REGISTERED OWNERS OF THE 2019 SUBORDINATE BONDS MEANS CEDE & CO., AS AFORESAID, AND DOES NOT MEAN THE BENEFICIAL OWNERS OF THE 2019 SUBORDINATE BONDS.

The foregoing description of the procedures and record keeping with respect to Beneficial Ownership Interests in the 2019 Subordinate Bonds, payment of principal, interest and other payments on the 2019 Subordinate Bonds to Direct and Indirect Participants or Beneficial Owners, confirmation and transfer of Beneficial Ownership Interest in such 2019 Subordinate Bonds and other related transactions by and between DTC, the Direct and Indirect Participants and the Beneficial Owners is based on information the Authority believes to be reliable, but the Authority takes no responsibility for the accuracy thereof. Accordingly, no representations can be made concerning these matters, and neither the Direct nor Indirect Participants nor the Beneficial Owners should rely on the foregoing information with respect to such matters, but should instead confirm the same with DTC.

FORM OF LICENSOR'S AND INVESTORS' UNDERTAKING

[THIS PAGE INTENTIONALLY LEFT BLANK]

#### CONFORMED WITH PROPOSED AMENDMENTS

#### LICENSOR'S AND INVESTORS' UNDERTAKING

THIS LICENSOR'S AND INVESTORS' UNDERTAKING (as it may from time to time be amended, amended and restated, supplemented or otherwise modified, renewed or replaced, this "*Agreement*") is dated as of June 14, 2017 (the "*Effective Date*"), and is entered into among CalPlant I Holdco, LLC, a Delaware limited liability company ("*Holdco*"), CalPlant I, LLC, a California limited liability company (the "*Borrower*"), Agfiber IP, LLC, a Delaware limited liability company (the "*Licensor*"), Occator Agricultural Properties, LLC, a Delaware limited liability company (the "*TIAA Investor*"), Columbia Forest Products, Inc., an Oregon corporation (the "*CFP Investor*"), ZC CalAg LLC, an Ohio limited liability company (the "*ZC Investor*"), Siempelkamp Maschinen- und Anlagenbau GmbH, a German limited liability company (the "*SICO Investor*"), CalAg, LLC, a California limited liability company (the "*Investors*" and each an "*Investor*"), in favor of UMB Bank, N.A., a national banking association (in its capacity as Collateral Agent under the terms of the Collateral Agency Agreement referred to below, and together with its successors and assigns in that capacity, the "*Collateral Agent*").

#### BACKGROUND

A. The Borrower, UMB Bank, N.A., in its capacity as Trustee under the Senior Bond Indenture (the "*Senior Indenture Trustee*"), UMB Bank, N.A., in its capacity as Trustee under the Subordinate Bond Indenture (the "*Subordinate Indenture Trustee*"), and the Collateral Agent entered into the Amended and Restated Collateral Agency and Intercreditor Agreement, dated as of the Second Supplement Effective Date (as it may from time to time be further amended, amended and restated, supplemented or otherwise modified, renewed or replaced, is referred to as the "*Collateral Agency Agreement*"). Capitalized terms used and not otherwise defined in this Agreement shall have the meanings specified in the Collateral Agency Agreement or, if not defined in the Collateral Agency Agreement, the meanings specified in the Senior Bond Indenture.

B. Licensor is the owner of United States patent no. 6,596,209, issued on July 22, 2003 (the "*Patent*"), subject to the Intellectual Property Agreement, dated as of the Effective Date (the "*IP Agreement*"), under the terms of which the CalAg Investor (as the prior owner of the Patent) licensed, among other intellectual property, the Patent to the Borrower.

C. It is a condition to the issuance of the Secured Obligations that the parties to this Agreement enter into this Agreement to provide certain undertakings for the ultimate benefit of the Beneficiaries.

D. It is in the financial interest of the Investors, Holdco and the Licensor, as well as the Borrower, that the Secured Obligations be issued in order to provide financing for the construction of the Plant.

E. In order to secure additional funds for the construction of the Plant, the Borrower has obligated itself for the Subordinate Bond Obligations in connection with the Subordinate Bond Loan Agreement and the Subordinate Bond Indenture.

#### AGREEMENT

In consideration of the foregoing and the mutual agreements set forth in this Agreement, and for so long as any of the Secured Obligations remain outstanding, the parties hereto (the *"Parties"*) agree as follows:

#### 1. UNDERTAKINGS REGARDING CAPITAL CONTRIBUTIONS

(a) **SICO Capital Contributions**. The SICO Investor agrees to make the capital contributions to Holdco required to be made after the Effective Date by the SICO Investor (such capital contributions are referred to as the "*SICO Capital Contributions*") under, at the times, and subject to the terms of the Holdco Unit Purchase Agreement, as in effect on the date hereof without giving effect to any amendment thereto or waiver thereof. For the benefit of the Collateral Agent (and the ultimate benefit of the Beneficiaries), the SICO Investor agrees to make the SICO Capital Contributions notwithstanding any breach by Holdco, the CalAg Investor or any other party to the Holdco Unit Purchase Agreement of its obligations under the Holdco Unit Purchase Agreement, other than the failure by the Borrower to make any payment under the Equipment Supply Agreement that is a predicate to the SICO Investor's obligation to make any of the SICO Capital Contributions to Holdco.

(b) **Holdco Contributions**. Holdco agrees to direct the SICO Investor to make the SICO Capital Contributions directly to the Borrower at the Borrower's account maintained with the Collateral Agent and referred to in the Collateral Agency Agreement as the Borrower Funds Account. If the SICO Investor makes any SICO Capital Contribution to any other account of the Borrower, the Borrower agrees, promptly after obtaining knowledge of the making of the SICO Equity Contribution, to transfer the SICO Capital Contribution to the Borrower Funds Account.

#### 2. UNDERTAKINGS REGARDING PAYMENTS TO AND FROM BORROWER

Each Investor agrees that it shall not, and agrees that its Affiliates shall not, directly or indirectly provide any funds to the Borrower other than in the form of equity contributions to the Borrower, *provided* that no payment made to the Borrower (i) as required under the terms of the SICO Supply Agreements or the Construction Agreements or (ii) by the CFP Investor as required under the terms of the CFP Sales Agreement shall, in either case, be deemed to be in breach of the Borrower's obligations under this Agreement or the Debt Documents. Each Investor agrees that it shall not, and agrees that its Affiliates shall not, accept any payment from the Borrower if such payment would constitute a breach by the Borrower of its obligations under this Agreement or the Debt Documents, *provided* that no payment made by the Borrower (i) as required under the terms of the CFP Sales Agreement shall, in either case, be deemed to be in breach of the Debt Documents, *provided* that no payment made by the Borrower (i) as required under the terms of the CFP Sales Agreement shall, in either case, be deemed to be in breach of the Borrower (i) as required under the terms of the CFP Sales Agreement shall, in either case, be deemed to be in breach of the Borrower's obligations under this Agreements or the Construction Agreements or (ii) to the CFP Investor as required under the terms of the CFP Sales Agreement shall, in either case, be deemed to be in breach of the Borrower's obligations under this Agreement or the Debt Documents.

#### 3. UNDERTAKINGS REGARDING TRANSFERS

For the purposes of this Agreement, any voluntary or involuntary sale, conveyance, mortgage, grant, bargain, encumbrance, pledge, assignment, or other transfer of an interest directly in the equity interests in Borrower or Holdco is referred to as a "*Transfer*". Holdco agrees not to effect any Transfer of equity interests in the Borrower except pursuant to the Pledge Agreement. Each Investor (other than the ZC Investor) agrees not to effect any Transfer of equity interests in Holdco prior to the Commercial Operations Date, unless such Transfer is consented to in writing by the Required Beneficiaries (which approval may not be unreasonably withheld), *provided*, however, that:

(i) with respect to the TIAA Investor, the restriction imposed by this sentence will not apply (x) if, by reason of any change in Section 13 of the Bank Holding Company Act or regulations issued thereunder (or other authoritative guidance with respect thereto or change in official interpretation thereof), in the good faith judgment of the TIAA Investor, the TIAA Investor is or may be required to no longer hold equity securities (or to hold a lesser amount of equity securities), or (y) to any Transfer by the TIAA Investor to any Affiliate of the TIAA Investor if, in the good faith judgment of the TIAA Investor to any Affiliate of the TIAA Investor if, in the good faith judgment of the TIAA Investor, such Transfer is necessary or desirable in order to avoid any adverse accounting treatment for the financial statements of the TIAA Investor or its Affiliates or to avoid any reserve requirements or other adverse regulatory consequences to the TIAA Investor or its Affiliates;

(ii) with respect to the CFP Investor, the restriction imposed by this sentence will not apply to a pledge of the CFP Investor's equity interest in Holdco to the lenders under the CFP Investor's senior credit facility (or a Transfer resulting from the exercise by such lenders of remedies under the pledge);

(iii) with respect to each investor other than the CFP Investor, the restriction imposed by this sentence will not apply to a pledge of such Investor's equity interest in Holdco to the Subordinate Loan Representative in order to secure the Borrower's obligations under the Subordinate Loan Documents (or a Transfer resulting from the exercise by the Subordinate Loan Representatives of remedies under the pledge); and

(iv) with respect to any of the Investors to which the restriction imposed by this sentence applies, the restriction imposed by this sentence is in any event inapplicable to any voluntary or involuntary sale, conveyance, mortgage, grant, bargain, encumbrance, pledge, assignment, or other transfer of a direct or indirect interest in the CalAg Investor, the TIAA Investor, the SICO Investor or the CFP Investor (or in any entity holding a direct or indirect equity interest in the CalAg Investor, the SICO Investor or the CFP Investor).

The SICO Investor agrees that its obligations under <u>Sections 1(a)</u> shall not be affected by any Transfer of its equity interests in Holdco permitted by this <u>Section 3</u>. Each of the Investors agrees not to effect any Transfer of equity interests in Holdco to any Person that cannot satisfy for the

benefit of the Collateral Agent and the Beneficiaries customary requirements relating to (i) "Know Your Customer" and anti-money laundering laws and regulations, (ii) avoiding doing business with any Person subject to sanction by the Office of Foreign Assets Control of the U.S. Department of the Treasury, and (iii) similar restrictions resulting from applicable rules and regulations and at the time customarily applicable to financing parties.

#### 4. UNDERTAKING REGARDING PATENT RIGHTS

Without the prior written consent of the Required Beneficiaries, the Licensor agrees not to license or otherwise grant any person any right to practice or use the Patent for the purpose of making medium density fiberboard in any of the following states: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming.

#### 5. OTHER UNDERTAKINGS

(a) **Constitutional Documents**. After the First Supplement Effective Date, each Investor agrees not to consent to any amendment to the constitutional documents of the Borrower, the Licensor or, prior to the Commercial Operations Date, Holdco, without the written consent of the Required Beneficiaries, *provided* that, in the case of Holdco, no consent of the Required Beneficiaries shall be required for any amendments to the operating agreement of Holdco that are not materially adverse to the interests of the Beneficiaries. The Licensor agrees not to permit any amendment to the constitutional documents of the Licensor without the written consent of the Required Beneficiaries.

(b) **Bankruptcy of Holdco or the Borrower**. Each Investor agrees not to (i) commence or consent to bankruptcy proceedings against Holdco or the Borrower, (ii) petition for the bankruptcy of Holdco or the Borrower, (iii) accede to or acquiesce in any petition or other action seeking bankruptcy relief with respect to Holdco or the Borrower or Licensor, or (iv) seek any other resolution or order for the voluntary winding up or dissolution of Holdco or the Borrower. In any dissolution or winding up of Holdco or the Borrower, each Investor agrees that it shall not, and shall cause its affiliates not to, claim, demand or sue for any payment of any amount for any cause unless all amounts payable under the Bond Documents have been indefeasibly paid in full by the Borrower. Each Investor further agrees that in any bankruptcy proceeding of Holdco or the Borrower, such Investor shall not, and shall cause its respective Affiliates not to, seek or promote the substantive consolidation of Holdco or the Borrower with any other Person.

(c) **Existence**. Each of the Investors, Holdco, and the Licensor undertakes to preserve and maintain its existence and legal rights and obtain and maintain in full force and effect all necessary authorizations applicable to it in connection with this Agreement as and when such necessary authorizations are required to be obtained in accordance with applicable law.

#### 6. **REPRESENTATIONS AND WARRANTIES**

Each of the Investors, Holdco, and the Licensor represents and warrants to the Collateral Agent as follows:

(a) **Existence and Due Authorization**. That it is validly existing and in good standing under the laws of its jurisdiction of organization and it has the power to enter into and perform its obligations under this Agreement, and all necessary actions to authorize its entering into, performance and delivery of this Agreement have been taken.

(b) **Enforceability**. This Agreement constitutes its legal, valid and binding obligation enforceable in accordance with its terms, subject only to bankruptcy laws, equitable principles, and other laws of general application governing the rights of creditors.

(c) **No Conflict**. Its entering into and performance of its obligations under this Agreement do not and will not:

(i) conflict with any applicable law or regulation or judicial or official order which could reasonably be expected to have a material adverse effect on its ability to perform its obligations under this Agreement;

(ii) conflict with its constitutive documents; or

(iii) conflict with any document binding upon it or upon any of its assets in such a manner as could reasonably be expected to have a material adverse effect on its ability to perform its obligations under this Agreement.

(d) **Litigation**. There is no litigation, arbitration, administrative proceeding or claim relating to it before any court, tribunal, arbitrator or other relevant authority pending or, to the best of its knowledge, threatened and that, if resolved adversely, could reasonably be expected to have a material adverse effect on its ability to perform its obligations under this Agreement or on the validity or enforceability of this Agreement.

(e) **Holdco Operating Agreement**. Attached hereto as <u>Exhibit A</u> to this Agreement is an accurate and complete copy of the Holdco Operating Agreement. Other than the Holdco Operating Agreement, it is not a party to any other agreement relating to Holdco with other members of Holdco.

#### 7. NATURE OF OBLIGATIONS

The obligations of the SICO Investor to make the capital contributions to Holdco described in <u>Section 1</u> shall not be extinguished if, at any time following the making of such contribution, all or any portion of the contribution is rescinded or must otherwise be returned upon the insolvency, bankruptcy, reorganization, winding-up, dissolution or liquidation of Holdco, the Borrower or any other Person. The obligations of each Investor, Holdco and the Licensor under this Agreement shall not be discharged or affected in any way by reason of (a) the avoidability or unenforceability of this Agreement with respect to any other Party, or (b) the insolvency, bankruptcy, reorganization, liquidation, winding up or dissolution of the Borrower or any other Party. The obligations of each Investor, Holdco and the Licensor under this Agreement (a) shall be in addition to and independent of every assurance, guaranty or security that the Collateral Agent may at any time hold for any of the obligations of the Borrower under the Debt Documents, (b) shall remain in full force and effect as a continuing security as long as any of the Secured Obligations shall remain outstanding, and (c) shall not be discharged, impaired or otherwise affected by (i) any failure by the Collateral Agent to enforce any other assurance, guaranty or security available to the Collateral Agent, (ii) time or other indulgence given or agreed to be given by the Collateral Agent to the Borrower in respect of the Borrower's obligations under the Debt Documents or to any other Person in respect of its obligations under any assurance, guaranty or security relating to the Borrower's obligations under the Debt Documents, (iii) any amendment to any Debt Document or any amendment, release, or exchange of any such assurance, guaranty, or security; (iv) any amendment to, or variation of, the constitutive documents of the Borrower, or (v) any other act or event or omission which (but for this provision) might operate to impair or discharge the obligations created by this Agreement.

#### 8. NOTICES

(a) **Communications in Writing**. (a) **Governing Law**. This Agreement shall be governed by, and construed in accordance with, the laws of the State of New York without regard to its conflict of laws principles.

(b) **Consent to Jurisdiction; Venue.** Each of the Investors, Holdco and the Licensor hereby irrevocably and unconditionally submits, for itself and its property, to the nonexclusive jurisdiction of any New York State court or Federal court of the United States of America sitting in New York County, and any appellate court thereof, in any action or proceeding arising out of or relating to this Agreement, and each of the Parties hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York State Court or, to the extent permitted by law, in such Federal court. Each of the Parties agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this <u>Section 9</u> shall affect the right of the Collateral Agent to

bring any action or proceeding against any Investor, Holdco, or the Licensor (or its property) in the courts of any other jurisdictions where such action or proceeding may be heard. Each of the Investors, Holdco and the Licensor hereby irrevocably and unconditionally waives to the fullest extent it may legally and effectively do so (i) any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement in any New York State or Federal court and the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court, and (ii) any immunity from suit or from the jurisdiction of any New York State court or Federal court of the United States of America sitting in New York County in which judicial proceedings may at any time be commenced with respect to this Agreement or from any legal process with respect to itself or its property (including attachment prior to judgment, attachment in aid of execution of judgment, set-off, execution of a judgment or any other legal process), and to the extent that in any such jurisdiction there may be attributed to such Person such an immunity (whether or not claimed), such Person hereby irrevocably agrees not to claim such immunity.

(c) Agent for Service of Process. The SICO Investor also agrees that service of process may be made on it by any other method of service provided for under the applicable laws in effect in the State of New York or and other forum in which action may be commenced.

#### **10. WAIVER OF JURY TRIAL**

EACH OF THE INVESTORS, HOLDCO, AND THE LICENSOR IRREVOCABLY WAIVES ANY AND ALL RIGHT TO TRIAL BY JURY IN ANY LEGAL ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT. If any action or proceeding is filed in a court of the State of California by or against any party hereto in connection with any of the transactions contemplated by this Agreement, the court shall, and is hereby directed to, make a general reference pursuant to California Code of Civil Procedure Section 638 to a referee (who shall be a single active or retired judge) to hear and determine all of the issues in such action or proceeding (whether of fact or of law) and to report a statement of decision, provided that at the option of any party to such proceeding, any such issues pertaining to a "provisional remedy" as defined in California Code of Civil Procedure Section 1281.8 shall be heard and determined by the court.

#### 11. MISCELLANEOUS

(a) **Amendments**. Amendments to this Agreement shall be made only in writing, executed on behalf of all Parties to this Agreement against whom enforcement of such amendments may be sought.

(b) **Liabilities Several**. The liability of the Investors, Holdco, the Licensor, and the Borrower for any breach of this Agreement shall in all cases be several, and not joint, and

no breach by any Party to this Agreement of its obligations under this Agreement shall subject any Party other than the breaching to liability for such breach.

(c) **Remedies, Waivers, Consents and Approvals**. No failure to exercise, nor any delay in exercising, on the part of the Collateral Agent any right or remedy hereunder, shall operate as a waiver, nor shall any single or partial exercise of any right or remedy prevent any further or other exercise thereof or the exercise of any other right or remedy. The rights and remedies herein provided are cumulative and not exclusive of any rights or remedies provided by law.

(d) **Severability**. Without prejudice to any other provision hereof, if at any time one or more provisions hereof are or become invalid, illegal or unenforceable in any respect under any law of any jurisdiction or with respect to any Party, such invalidity, illegality, unenforceability in such jurisdiction or with respect to such Party shall not, to the fullest extent permitted by applicable law, render invalid, illegal or unenforceable such provision or provisions in any other jurisdiction or with respect to the Parties. Such invalid, illegal or unenforceable provision shall be deemed replaced by the Parties with a provision that comes as close as reasonably possible to the commercial intentions of the invalid, illegal, unenforceable or omitted provision.

(e) **No Third-Party Beneficiaries**. Other than the Collateral Agent and the Beneficiaries (acting through the Collateral Agent or their respective Debt Representatives), no Person is intended to be a beneficiary of the obligations of Holdco, the Licensor or the Investors under this Agreement.

(f) **Attorneys' Fees**. In the event of any dispute relating to this Agreement, the substantially prevailing party shall be entitled to reimbursement of its reasonable legal fees and expenses in connection with the dispute.

(g) **Counterparts**. This Agreement may be executed in separate counterparts, each of which shall be an original and all of which taken together shall constitute one and the same instrument. Delivery of any executed counterpart of a signature page of this Agreement by facsimile or in electronic format (such as ".pdf" or ".tif") shall be effective as delivery of a manually signed counterpart of this Agreement.

(h) **Headings**. Section, subsection and other headings used in this Agreement are for convenience of reference only and shall not affect the construction of the provisions of this Agreement.

(i) **Interpretation**. The rules of interpretation specified in the Collateral Agency Agreement (including Section 1.02 thereof) shall be applicable to this Agreement, *mutatis mutandis*, *provided* that all references in this Agreement to Sections are references to Sections of this Agreement unless otherwise specified.

  - (a) Each Pledgor represents, warrants, and covenants as follows:

(i) This Agreement is effective to create in favor of the Trustee for the benefit of the Bondholders as provided in the Bond Financing Documents, a legal, valid and enforceable security interest in the Pledged Collateral and the proceeds thereof. Such Pledgor is a member of Holdco. As of the Effective Date, the Pledged Securities set forth on the Pledged Securities Schedule constitute all of the Pledged Securities of such Pledgor. The security interest created by this Agreement in the Pledged Collateral shall, upon the filing of a financing statement with the Secretary of State of the State of Delaware, create a perfected First Priority security interest in and to such Pledged Collateral and the proceeds, thereof, subject, except as expressly permitted pursuant to the Bond Financing Documents, to no other pledge, lien, mortgage, hypothecation, security interest, charge, option or encumbrance or to any agreement purporting to grant to any other third party a security interest in the Pledged Collateral.

(ii) Such Pledgor shall cause Holdco to deliver any certificates or other distributions of Pledged Securities directly to the Trustee, in each case to be held by the Trustee in accordance with the terms hereof.

(iii) Holdco is managed by a board of directors appointed by the members of Holdco.

(iv) Such Pledgor's Pledged Collateral is owned by such Pledgor free and clear of any Lien, except for any Liens expressly permitted pursuant to the Bond Financing Documents. Such Pledgor shall, at its own cost and expense, defend title to such Pledgor's Pledged Collateral and the First Priority security interest and Lien granted to the Trustee with respect thereto against all claims and demands of all Persons at any time claiming any interest therein materially adverse to the Trustee, other than Liens permitted under the Bond Financing Documents. Except as expressly permitted by the Bond Financing Documents, there is no agreement to which such Pledgor is a party, order, judgment or decree, and such Pledgor shall not enter into any agreement or take any other action, that would reasonably be expected to restrict the transferability of any of the Pledged Collateral or otherwise impair or conflict in any material respect with such Pledgor's obligations or the rights of the Trustee hereunder.

(v) Such Pledgor has not executed, filed, nor authorized any third party to file any financing statement or other instrument similar in effect covering all or any part of the Pledged Collateral or listing such Pledgor as debtor in any recording office, except such as have been filed in favor of the Trustee pursuant to this Agreement or as otherwise required with respect to the other Collateral Instruments or permitted under the Bond Financing Documents. Such Pledgor shall not execute, authorize or permit to be filed in any recording office any financing statement or other instrument similar in effect covering all or any part of the Pledged Collateral or listing such Pledgor as debtor with respect to all or any part of the Pledged Collateral, except financing statements and other instruments filed in respect of Liens permitted under the Bond Financing Documents.

(vi) On the Effective Date, such Pledgor's type of organization, jurisdiction of organization, legal name, Federal Taxpayer Identification Number, organizational identification number (if any) and chief executive office or principal place of business are indicated next to its name in <u>Schedule 1</u>. <u>Schedule 1</u> also lists all of such Pledgor's jurisdictions and types or organization, legal names and locations of chief executive office or principal place of business at any time during the four months preceding the Effective Date, if different from those referred to in the immediately preceding sentence.

(vii) Such Pledgor shall not, except upon not less than 15 Business Days' prior written notice to the Trustee, or such lesser notice period agreed to by the Trustee, and delivery to the Trustee of all additional financing statements, information and other documents necessary or reasonably requested by the Trustee to maintain the validity, perfection and priority of the security interests provided for herein:

(1) change its legal name or type of organization;

(2) change the location of its chief executive office or its principal place of business or its mailing address;

(3) change its Federal Taxpayer Identification Number or organizational identification number (if such Pledgor did not have an organizational identification number and obtains one, such Pledgor shall forthwith notify the Trustee of such organizational identification number); or (4) change its jurisdiction of organization (in each case, including by merging with or into any other entity, reorganizing, organizing, dissolving, liquidating, reincorporating or incorporating in any other jurisdiction).

(viii) Such Pledgor shall, prior to any change described in <u>Section</u> 5(a)(vii), take all actions necessary or reasonably requested by the Trustee to maintain the perfection and priority of the security interest of the Trustee in the Pledged Collateral intended to be granted hereunder, including providing the Trustee with certified organizational documents reflecting any of the changes described in <u>Section 5(a)(vii)</u>.

(ix) Such Pledgor has the corporate power and authority to execute and deliver, and to perform its obligations under, this Agreement, and has taken all necessary corporate action to authorize the execution, delivery and performance of this Agreement.

(x) The Pledged Securities listed on the Pledged Securities Schedule hereto have been duly authorized and validly issued and are fully paid and non-assessable, to the extent such concepts are applicable, and are not subject to any options to purchase or similar rights of any Person.

(xi) This Agreement constitutes the legal, valid and binding obligation of such Pledgor, enforceable against such Pledgor in accordance with its terms, except as such enforceability may be limited by (i) bankruptcy, insolvency, reorganization, moratorium or similar laws relating to or affecting the enforcement of creditors' rights generally and remedies and (ii) the availability of injunctive relief and other equitable remedies.

(xii) The execution, delivery, and performance of this Agreement by such Pledgor will not violate any law or regulation, or any order or decree of any court or governmental instrumentality, or any provision of the organizational documents, the charter, by-laws or operating agreement of, or any securities issued by such Pledgor, and will not conflict with, or result in the breach of, or constitute a default under, any indenture, mortgage, agreement or other instrument to which such Pledgor is a party or by which such Pledgor is bound, and will not result in the creation or imposition of any lien, charge or encumbrance upon any of the property of such Pledgor pursuant to the provisions of any of the foregoing.

(xiii) No consent of any other Person and no consent, license, permit, approval or authorization of, exemption by, notice or report to, or registration, filing (other than the filing of financing statements) or declaration with, any governmental instrumentality is required in connection with the execution, delivery, performance, validity, or enforceability of this Agreement.

(xiv) There are no actions, suits or proceedings at law or in equity now pending or threatened in writing against or affecting such Pledgor or the Pledged Collateral, which, if determined against such Pledgor or the Pledged Collateral, would reasonably be expected to adversely affect the ability of such Pledgor to perform any of such Pledgor's obligations hereunder.

(xv) Such Pledgor is not in default in the performance, observance or fulfillment of any of the obligations, covenants or conditions contained in any agreement or instrument to which such Pledgor is a party or by which such Pledgor is, or the Pledged Collateral are, bound.

(xvi) Such Pledgor shall not, without the prior written consent of the Required Bondholders in each instance vote the Pledged Securities in favor of or consent to any resolution or action which does or might:

(1) impose any restrictions upon the sale, transfer or disposition of the Pledged Collateral other than restrictions, if any, the application of which is waived to the full satisfaction of the Trustee as to the Pledged Securities;

(2) amend, modify, terminate or replace the organizational documents of Holdco in any manner that would undermine, frustrate or materially and adversely affect the rights of the Trustee under this Agreement; or

result in the issuance of any additional interest in the Pledged (3)Securities including without limitation, (A) any additional membership interests or other equity interests of Holdco, (B) any securities, convertible either voluntarily by the holder thereof or automatically upon the occurrence or nonoccurrence of any event or condition into, or any securities exchangeable for any such membership interests or other equity interests, (C) any warrants, options, contracts or other commitments entitling any Person to purchase or otherwise acquire any such membership interests or other equity interests, or otherwise adversely affect the value of the Pledged Securities, or (D) any other class of Pledged Securities not in existence on the Effective Date, provided that the restrictions of this Section 5(a)(xvi)(3) shall not apply to (x) any Pledged Securities that are made the subject of a pledge in favor of the Trustee under this Agreement or (y) any Pledged Securities the voting and economic rights of which are subordinated under the terms of Holdco's operating agreement to the rights of the Trustee such that, from and after the foreclosure or other acquisition by the Trustee (or its designee) of the Pledged Collateral and until Final Payment (I) no dividends, distributions or other payments may be made on the Pledged Securities and (II) no holder of Pledged Securities other than the Pledged Collateral shall be entitled to any vote as a member of Holdco or to designate any manager or director of Holdco, and no director or manager of Holdco shall be entitled to manage Holdco's business and affairs other than directors or managers appointed by the Trustee or its designee as owner of the Pledged Collateral.

(xvii) A complete and accurate list and description of all Pledged Securities as of the Effective Date is set forth on the Pledged Securities Schedule.

(xviii) The Pledged Securities specifically identified on the Pledged Securities Schedule constitute the percentage of the outstanding equity of Holdco as indicated on the Pledged Securities Schedule.

(b) Holdco represents, warrants, and covenants as follows:

(i) All of the membership interests in Holdco are certificated, and all of the certificates evidencing such membership interests have been delivered to the Trustee.

(ii) The Pledgors, together with CFP, are all of the members of Holdco and shall, subject to the rights of the Trustee pursuant to Section 4(c), remain all of the members of Holdco.

members.

(iii) Holdco is managed by a board of directors appointed by its

6. <u>Voting Rights and Certain Payments Prior to Indenture Event of Default</u>. Except during the existence of an Event of Default, the Pledgors shall be entitled:

(a) to exercise, as they shall deem fit, but in a manner not in violation of the terms hereof or of the other Bond Financing Documents, the voting power with respect to the Pledged Collateral; and

(b) to receive and retain for its own account any and all Permitted Payments.

7. <u>Voting Rights and Ordinary Payments After an Event of Default</u>. During the existence of an Event of Default, all rights of the Pledgors to exercise or refrain from exercising the voting and other consensual rights that it would otherwise be entitled to exercise pursuant to <u>Section 6</u> and to receive the payments, proceeds, dividends, distributions, monies, compensation, property, assets, instruments or rights that the Pledgors would otherwise be authorized to receive and retain pursuant to <u>Section 6</u> shall cease, and thereupon the Trustee shall be entitled to exercise all voting power with respect to the Pledged Securities of the Pledgors and to receive and retain, as additional collateral hereunder, any and all payments, proceeds, dividends, distributions, monies, compensation, property, assets, instruments or rights at any time declared or paid upon any of the Pledged Collateral during the existence of such Event of Default and otherwise to act with respect to the Pledged Collateral of the Pledgors as outright owner thereof.

8. <u>Remedies Upon Default</u>. During the existence of an Event of Default, the following provisions shall apply:

(a) In addition to the other rights and remedies provided for herein or in any other Collateral Instrument or Bond Financing Document or otherwise available to the Trustee, the Trustee may exercise, without any further notice to or demand upon the Pledgors (except as expressly provided below), all the rights and remedies of a secured party upon default under the UCC (whether or not the UCC applies to the affected Pledged Collateral) and also may:

(i) after notice to the Pledgor, register in the name of the Trustee or its nominee any or all of the Pledged Securities and exercise all rights of voting, exercise and conversion with respect to the Pledged Collateral, and to receive and retain, as additional collateral hereunder, any and all payments (including payments that would otherwise be Permitted Payments) declared or paid upon or in connection with the Pledged Collateral; and (ii) exercise any and all other rights and remedies of the Pledgors under or in connection with the Pledged Interests, or otherwise in respect of the Pledged Interests, including all rights and remedies of a secured party upon default under the UCC, the right to resort to other security, at any time and from time to time sell, resell, assign and deliver, in its sole discretion, all or any of the Pledged Collateral, in one or more parcels at the same or different times, and all right, title and interest, claim and demand therein and right of redemption thereof, on any securities exchange on which any Pledged Collateral may be listed, or at public or private sale, for cash, upon creditor or for future delivery, and in connection therewith the Trustee may grant options and may exercise any and all rights of the Pledgors to demand or otherwise require payment of any amount under the Pledged Collateral.

The Pledgors agree that, to the extent notice of sale shall be required by law, at least 10 days' notice to the Pledgors of the time and place of any public sale or the time after which any private sale is to be made shall constitute reasonable notification. At any sale of the Pledged Collateral, if permitted by applicable law, the Trustee may be the purchaser or recipient of the Pledged Collateral or any part thereof and shall be entitled, for the purpose of bidding and making settlement or payment of the purchase price for all or any portion of the Pledged Collateral sold at such sale, to use and apply any of the Bond Obligations as a credit on account of the purchase price of the Pledged Collateral or any part thereof payable at such sale. To the extent permitted by applicable law, the Pledgors waive all claims, damages and demands they may acquire against the Trustee arising out of the exercise by it of any rights hereunder. The Pledgors hereby waive and release to the fullest extent permitted by law any right or equity of redemption with respect to the Pledged Collateral after sale hereunder, and all rights, if any, of marshalling the Pledged Collateral and any other security for the Bond Obligations or otherwise. The Trustee shall not be liable for failure to collect or realize upon any or all of the Pledged Collateral or for any delay in so doing nor shall it be under any obligation to take any action with regard thereto. The Trustee shall not be obligated to make any sale of Pledged Collateral regardless of notice of sale having been given. If any of the Pledged Collateral is sold by the Trustee upon credit or for future delivery, the Trustee shall not be liable for the failure of the purchaser to purchase or pay for the same and, in the event of any such failure, the Trustee may resell such Pledged Collateral. In no event shall the Pledgors be credited with any part of the proceeds of such sale of any Pledged Collateral until cash payment therefor has actually been received by the Trustee. The Trustee may adjourn any public or private sale from time to time by announcement at the time and place fixed therefor, and such sale may, without further notice, be made at the time and place to which it was so adjourned.

The Pledgors recognize that the Trustee may be unable to effect a public sale of all or part of the Pledged Collateral consisting of securities by reason of certain prohibitions contained in the Securities Act of 1933, as amended (the "*Securities Act*"), or in applicable "blue sky" or other state securities Laws, as now or hereafter in effect, but may be compelled to resort to one or more private sales to a restricted group of purchasers who will be obliged to agree, among other things, to acquire such securities for their own account, for investment and not with a view to the distribution or resale thereof. The Trustee shall have no obligation to delay the sale of any such securities for the period of time necessary to permit the issuer of such securities, even if such issuer would agree, to register such securities for public sale under the Securities Act. All payments received by the Pledgors in respect of the Pledged Collateral shall be received in trust for the benefit of the Trustee in the same form as so received (with any necessary endorsement).

(b) The Trustee may, without notice to the Pledgors except as required by law and at any time or from time to time, charge, set off and otherwise apply all or part of the Bond Obligations against any funds deposited with it or held by it.

No failure on the part of the Trustee to exercise, no course of dealing with respect to, and no delay on the part of the Trustee in exercising, any right, power or remedy hereunder shall operate as a waiver thereof; nor shall any single or partial exercise of any such right, power, privilege or remedy hereunder preclude any other or further exercise thereof or the exercise of any other right, power, privilege or remedy; nor shall the Trustee be required to look first to, enforce or exhaust any other security, collateral or guaranties. No demand, advertisement or notice, all of which are hereby expressly waived, shall be required in connection with any sale or other disposition of any part of the Pledged Collateral that threatens to decline speedily in value or that is of a type customarily sold on a recognized market. All rights and remedies herein provided are cumulative and are not exclusive of any rights or remedies provided by law.

Holdco hereby expressly agrees to and acknowledges the Trustee's rights in this Section 8.

9. Disposition of Pledged Interests. In connection with any proposed sale of all or any interest in the Pledged Collateral by the Trustee pursuant to the exercise of its remedies, the Trustee may (i) approach and negotiate with a limited number of potential purchasers meeting such financial and sophistication requirements as established by the Trustee, (ii) restrict the prospective bidders for or purchasers of the Pledged Collateral to persons who will represent and agree that they are purchasing the Pledged Collateral for their own account for investment and not with a view to the distribution or resale thereof, (iii) advertise dispositions of Pledged Collateral through publications or media of general circulation, (iv) contact other Persons, whether or not in the same business as a Pledgor, for expressions of interest in acquiring all or any portion of the Pledged Collateral, (v) hire one or more professional auctioneers to assist in the disposition of Pledged Collateral, (vi) dispose of Pledged Collateral by utilizing Internet sites that provide for the auction of assets of the types included in the Pledged Collateral or that have the reasonable capability of doing so, or that match buyers and sellers of assets, (vii) disclaim disposition warranties or (viii) to the extent deemed appropriate by the Trustee, obtain the services of brokers, investment bankers, consultants and other professionals to assist the Trustee in the disposition of any of the Pledged Collateral. If any of the Pledged Interests are sold at private sale, the Pledgors agree that if any of the Pledged Interests are sold for a price that the Trustee in good faith believes to be reasonable, based on information made available to it, then (1) the sale shall be deemed to be commercially reasonable in all respects, (2) the Pledgors shall not be entitled to a credit in excess of the selling price, and (3) the Trustee shall incur no liability or responsibility to the Pledgors in connection therewith, notwithstanding the possibility that a substantially higher price might have been realized at a public sale. The Pledgors further agree that a 10-day notice in respect of the time and place of any public sale or the time after which a private sale may be conducted is and will be deemed reasonable under the UCC. Upon the exercise by the Trustee of its remedies hereunder, any proceeds received by the Trustee in respect of any realization upon any Pledged Collateral shall be applied, together with any other sums then held by the Trustee pursuant to this Agreement, in accordance with the Bond Financing Documents. The Borrower shall remain liable for any deficiency if the proceeds of any sale or other disposition of the Pledged Collateral are insufficient to pay the Bond Obligations and the fees and other charges of any attorneys employed by the Trustee to collect such deficiency.

## 10. <u>Concerning the Trustee</u>.

(a) *Appointment*. The Trustee has been appointed as trustee in the Indenture and shall act under this Agreement in accordance with the terms of the Indenture. The Trustee may exercise or refrain from exercising any rights (including making demands and giving notices) and take or refrain from taking any action, in accordance with this Agreement and the other Bond Financing Documents. The Trustee may employ agents and attorneys-in-fact in connection herewith and shall not be liable for the negligence of any such agents or attorneys-in-fact selected by it in good faith. The Trustee may resign and a successor Trustee may be appointed in the manner provided in the Indenture. On the acceptance of appointment as the successor trustee, the successor trustee shall thereupon succeed to and become vested with all the rights, powers, privileges and duties of the retiring Trustee under this Agreement, and the retiring Trustee shall thereupon be discharged from its duties and obligations under this Agreement. After any retiring Trustee's resignation, the provisions hereof shall inure to its benefit as to any actions taken or omitted to be taken by it under this Agreement while it was the Trustee.

(b) *Duty of Care.* The Trustee's sole duty with respect to the custody, safekeeping and physical preservation of the Pledged Collateral in its possession, under Section 9-207 of the UCC or otherwise, shall be to deal with it in the same manner as the Trustee deals with its own property consisting of similar instruments or interests. The Trustee shall not have responsibility for (i) ascertaining or taking action whatsoever with regard to any Pledged Collateral or (ii) taking any necessary steps to preserve rights against any Person with respect to any Pledged Collateral.

(c) *Reliance*. The Trustee shall be entitled to rely upon any written notice, statement, certificate, order or other document or any telephone message believed by it to be genuine and correct and to have been signed, sent or made by the proper individual, and, with respect to all matters pertaining to this Agreement and its duties hereunder, upon advice of counsel selected by it.

11. Performance by the Trustee. If the Pledgors shall fail to perform any covenants contained in this Agreement after giving effect to all applicable grace periods or if any representation or warranty on the part of the Pledgors contained herein shall be breached, the Trustee may (but shall not be obligated to) during the existence of an Event of Default do the same or cause it to be done or remedy any such breach, and may make payments for such purpose, *provided* that the Trustee shall in no event be bound to inquire into the validity of any tax, Lien, imposition or other obligation that a Pledgor fails to pay or perform as and when required hereby and that such Pledgor does not contest in accordance with the provisions of this Agreement or the Bond Financing Documents. Any and all amounts so paid by the Trustee shall be reimbursed by the Pledgors in accordance with the provisions of <u>Section 16</u>. Neither the provisions of this <u>Section 11</u> nor any action taken by the Trustee pursuant to the provisions of this <u>Section 11</u> shall prevent any such failure to observe any covenant contained in this Agreement nor any breach of representation or warranty from constituting an Event of Default.

## 12. <u>Power of Attorney</u>.

(a) Each Pledgor hereby appoints the Trustee its attorney-in-fact, with full power and authority in the place and stead of such Pledgor and in the name of such Pledgor, or otherwise, from time to time during the existence of an Event of Default in the Trustee's discretion to take any action and to execute any instrument consistent with the terms of the Bond Financing Documents that the Trustee may deem necessary or advisable to accomplish the purposes hereof (but the Trustee shall not be obligated to and shall have no liability to the Pledgors or any third party for failure to so do or take action). The Trustee shall use commercially reasonable efforts to provide notice to the Pledgors prior to taking any action pursuant to the immediately preceding sentence (except where prior notice is expressly required by the terms of this Agreement, in which cases the Trustee shall provide such notice), *provided* that (unless prior notice is expressly required by the terms of this Agreement) failure to deliver such notice shall not limit the Trustee's right to take such action or the validity of any such action. The foregoing grant of authority is a power of attorney coupled with an interest and such appointment shall be irrevocable for the term hereof.

(b) Without limiting the generality of the foregoing, the Trustee shall, during the existence of an Event of Default, have the right and power to:

(i) receive, endorse and collect all checks and other orders for the payment of money made payable to a Pledgor representing any interest or dividend or other distribution or amount payable in respect of the Pledged Collateral or any part thereof and to give full discharge for the same;

(ii) execute endorsements, assignments or other instruments of conveyance or transfer with respect to all or any of the Pledged Collateral;

(iii) exercise all rights of the Pledgors as owners of the Pledged Collateral including, without limitation, the right to sign any and all amendments, instruments, certificates, proxies, and other writings necessary or advisable to exercise all rights and privileges of (or on behalf of) the owner of the Pledged Collateral, including, without limitation, all voting rights with respect to the Pledged Securities;

(iv) ask, demand, collect, sue for, recover, compound, receive and give acquittance and receipts for moneys due and to become due under or in respect of any of the Pledged Collateral;

(v) file any claims or take any action or institute any proceedings that the Trustee may deem necessary or desirable for the collection of any of the Pledged Collateral or otherwise to enforce the rights of the Trustee with respect to any of the Pledged Collateral; and

(vi) generally to sell, transfer, pledge, make any agreement with respect to or otherwise deal with any of the Pledged Collateral as fully and completely as though the Trustee were the absolute owner thereof for all purposes, and to do, at the Trustee's option and the Pledgors' expense, at any time or from time to time, all acts and things that the Trustee deems reasonably necessary to protect, preserve or realize upon the Pledged Collateral. (c) Each Pledgor hereby ratifies and approves all acts of the Trustee made or taken pursuant to this <u>Section 12</u> (*provided* that the Pledgors do not, by virtue of such ratification, release any claim that they may otherwise have against the Trustee for any such acts made or taken by the Trustee through gross negligence or willful misconduct).

13. <u>Continuing Security Interest and Assignment</u>. This Agreement shall create a continuing security interest in the Pledged Collateral and shall (a) be binding upon the Pledgors and their respective successors and assigns and (b) inure, together with the rights and remedies of the Trustee hereunder, for the benefit of the Bondholders as provided in the Bond Financing Documents and each of their respective permitted successors, transferees and assigns, *provided* that the Pledgors shall not assign or otherwise transfer any of their respective rights or obligations under this Agreement without the prior written consent of the Required Bondholders and any attempted assignment or transfer without such consent shall be null and void.

## 14. <u>Termination and Release</u>.

(a) The Pledged Collateral shall be released from the Liens created hereby at the times and under the circumstances specified in the Bond Financing Documents, and this Agreement and all obligations (other than those expressly stated to survive such termination) of the Trustee and the Pledgors hereunder shall then terminate, all without delivery of any instrument or any further action by any party, and all rights to the Pledged Interests shall revert to the Pledgors. At the request and sole expense of the Pledgors following any such termination, the Trustee shall deliver to the Pledgors any Pledged Collateral held by the Trustee hereunder, and execute and deliver to the Pledgors such documents as the Pledgors shall reasonably request to evidence such termination.

(b) If any of the Pledged Collateral shall be sold, transferred or otherwise disposed of by the Pledgors in a transaction permitted by the Bond Financing Documents, then the Lien created pursuant to this Agreement in such Pledged Collateral shall be released, and the Trustee, at the request and sole expense of the Pledgors, shall execute and deliver to the Pledgors all releases and other documents reasonably necessary or advisable for the release of the Liens created hereby on such Pledged Collateral, *provided* that the Pledgors shall provide to the Trustee evidence of such transaction's compliance with the Bond Financing Documents as the Trustee shall reasonably request.

## 15. <u>Pledgors' Waivers</u>.

(a) Each Pledgor waives diligence, protest, presentment and demand, notice (including notice of loans made, notice of collateral received or delivered, notice of the extension of credit from time to time to the Borrower under any of the Bond Financing Documents and the creation, existence or acquisition of Bond Obligations, notice of the amount of the Bond Obligations, notice of adverse change in the Borrower's or Holdco's financial condition or of any other fact that might increase the Pledgors' risk), and waives the benefit of all provisions of law that are or might be in conflict with the terms of this Agreement, except to the extent that this Agreement might otherwise specify the giving of notice to the Pledgors. Each Pledgor further waives any defense arising by reason of the cessation from any cause whatsoever of the liability of the Borrower and further agrees that nothing contained in this Agreement shall prevent the Collateral Agent from foreclosing on the lien of the Deed of Trust, or from exercising any rights available to it thereunder or under the Collateral Agency Agreement, and that the exercise of any of such rights shall not constitute a legal or equitable discharge of the Pledgors from their obligations under this Agreement. Each Pledgor expressly waives any and all defenses based upon an election of remedies by the Trustee or the Collateral Agent that destroys, diminishes or otherwise adversely affects the Pledgors' subrogation rights against the Borrower or Holdco or the Pledgors' rights to proceed against the Borrower or Holdco for reimbursement, contribution, indemnity or otherwise, including any election by the Collateral Agent to conduct a non-judicial foreclosure sale under the Deed of Trust. Nevertheless, each Pledgor authorizes and empowers the Trustee and the Collateral Agent to exercise, in their sole discretion, any rights or remedies, or any combination thereof, that may be available to the Trustee or the Collateral Agent, it being the intention of the Pledgors that the obligations under this Agreement shall, in accordance with their express terms, be absolute, independent and unconditional. Without limiting the generality of the foregoing, each Pledgor expressly waives any and all suretyship defenses, rights and benefits to which it would otherwise be entitled. Each Pledgor further waives any defense arising by reason of any disability or other defense of the Borrower or Holdco or by reason that other indemnity, guaranty, or security was to be obtained. The Pledgors shall not have the right of subrogation, reimbursement or indemnity nor the right of recourse to or with respect to any assets or property of the Borrower nor to any collateral for the Bond Obligations. At any time and from time to time, without the consent of or notice to the Pledgors, without incurring any liability to the Pledgors, and without impairing or releasing the obligations of any Pledgor under this Agreement, the Trustee or the Collateral Agent may: (i) change or extend the manner, place or terms of payment of or renew or alter any portion of the Bond Obligations, (ii) take any action under or in respect of the Bond Financing Documents or the other Collateral Instruments in the exercise of any remedy, power or privilege contained therein or available to the Trustee or the Collateral Agent at law, equity or otherwise, or waive or refrain from exercising any such remedies, powers or privileges, (iii) amend or modify in any respect the Bond Financing Documents or the other Collateral Instruments, (iv) extend or waive the time for the Borrower's performance of or compliance with, any term, covenant or agreement on its part to be performed or observed under the Bond Financing Documents or the other Collateral Instruments, or waive such performance or compliance or consent to a failure of or departure from such performance or compliance, (v) sell, exchange, release, dispose of or otherwise deal with any property pledged, mortgaged or conveyed, or in which the Trustee or the Collateral Agent has been granted a Lien, to secure any indebtedness of the Borrower, and (vi) apply any sums by whomever paid or however realized to any amounts owing by the Pledgors, Holdco or the Borrower to the Trustee or the Collateral Agent in such manner as the Trustee or the Collateral Agent, as applicable, shall determine in their sole discretion.

(b) In confirmation and not in limitation of the provisions of <u>Section 15(a)</u>, and to the maximum extent permitted by law:

(i) each Pledgor waives all rights of subrogation, reimbursement, indemnification, and contribution and any other rights and defenses that are or may become available to such Pledgor in accordance with the laws of Delaware or any other jurisdiction; and

(ii) each Pledgor waives all rights and defenses that such Pledgor may have because the Bond Obligations are secured by real property or other collateral. This means, among other things: (A) the Trustee and the Collateral Agent may collect from and otherwise enforce their respective rights against the Pledgors, Holdco or the Borrower without first foreclosing on any real or personal property collateral pledged, if any, by the Pledgors, Holdco or the Borrower; (B) if the Collateral Agent forecloses on the Deed of Trust, (1) the amount of the Bond Obligations may be reduced only by the price for which that collateral is sold at the foreclosure sale, even if the collateral is worth more than the sale price, (2) the Trustee may collect from, and otherwise enforce its rights against, the Pledgors even if the Collateral Agent, by foreclosing on the real property collateral, has destroyed any right that the Pledgors may have to collect from Holdco or the Borrower.

#### 16. <u>Indemnity and Expenses</u>.

(a) Each Pledgor hereby agrees to indemnify and hold harmless the Trustee (and any sub-agent thereof), and the Trustee's members, officers, employees, directors, representatives and agents (each such indemnified Person being called an "Indemnitee") from any losses, damages, liabilities, claims and related expenses (including the reasonable fees and expenses of any counsel for any Indemnitee), incurred by any Indemnitee or asserted against any Indemnitee by any Person (including any Pledgor) other than such Indemnitee and its Related Parties, arising out of, in connection with or resulting from such Pledgor's breach of its obligations under or the Trustee's performance of its obligations under this Agreement (including enforcement of this Agreement) whether brought by a third party or by the Pledgors, and regardless of whether any Indemnitee is a party hereto, provided that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities or related expenses (i) resulted from the fraud, gross negligence or willful misconduct of such Indemnitee or (ii) resulted from an adjudicated claim brought by the Pledgors against an Indemnitee where the Indemnitee was found to have acted in bad faith of such Indemnitee's obligations hereunder or under any Bond Financing Document.

(b) To the fullest extent permitted by applicable law, each Pledgor hereby agrees not to assert, and hereby waives, any claim against any Indemnitee, on any theory of liability, for special, indirect, consequential or punitive damages (as opposed to direct or actual damages) arising out of, in connection with, or as a result of, this Agreement or any Bond Financing Document or any agreement or instrument contemplated hereby, the transactions contemplated hereby or thereby, any extension of credit under the Bond Financing Documents or the use of proceeds thereof.

California Pollution Control Financing Authority 801 Capitol Mall, Second Floor Sacramento, California 95814

Re: Solid Waste Disposal Revenue Bonds (CalPlant I Project) Series 2019 Subordinate Bonds (AMT)

Ladies and Gentlemen:

The undersigned purchaser (the "<u>Purchaser</u>") of \$[\_\_\_\_] aggregate principal amount of Solid Waste Disposal Revenue Bonds (CalPlant I Project), Series 2019 Subordinate Bonds (AMT) (the "<u>2019 Bonds</u>"), hereby acknowledges receipt of the 2019 Bonds in fully registered form. The 2019 Bonds have been acquired, checked, inspected and approved by the Purchaser. This letter is being provided pursuant to an Indenture (the "<u>Indenture</u>"), dated as of August 1, 2019, between the California Pollution Control Financing Authority (the "<u>Issuer</u>") and UMB Bank, N.A. (the "<u>Trustee</u>") and a Bond Purchase Agreement dated July 25, 2019 by and among the Issuer, the Treasurer of the State of California (the "Treasurer"), Citigroup Global Markets Inc. and Stifel, Nicolaus & Company, Incorporated (collectively, the "<u>Underwriters</u>") and approved by CalPlant I, LLC (the "<u>Borrower</u>") (the "<u>Bond Purchase Agreement</u>").

The undersigned acknowledges that the 2019 Bonds were issued for the purpose of assisting in financing the costs of construction, improvement and/or installation of buildings and related facilities and the acquisition of equipment for a medium density fiberboard plant to be operated in Willows, California (the "Project"), as more particularly described in that certain Loan Agreement, dated as of August 1, 2019 (the "Loan Agreement" and together with the Indenture and the Bond Purchase Agreement, the "Bond Documents"), between the Issuer and Borrower, as duly amended or supplemented from time to time in accordance with its terms. The undersigned further acknowledges that the 2019 Bonds are secured by the Indenture, which creates a security interest in the Revenues and other funds and moneys pledged under the Indenture for the benefit of the holders and owners of the 2019 Bonds.

In connection with the purchase of the 2019 Bonds on or about August 7, 2019 (the "<u>Delivery Date</u>"), the Purchaser hereby makes the following representations upon which representations you may rely:

1. The Purchaser is either a "qualified institutional buyer" as defined in Rule 144A promulgated under the Securities Act of 1933 (the "<u>1933 Act</u>") or an "accredited investor" who falls within the categories defined in Rule 501(a)(1), (2), (3) or (7) under the 1933 Act, each as in effect on the Delivery Date.

2. The Purchaser has been provided, and has read and understood the Bond Documents, the Bond Financing Documents and the limited offering memorandum relating to the 2019 Bonds and all exhibits thereto.

3. The Purchaser has sufficient knowledge and experience in financial and business matters, including purchase and ownership of municipal and other tax-exempt obligations, to be able to evaluate the risks and merits of the investment represented by the Bond Documents and the 2019 Bonds. The Purchaser is able to bear the economic risks of such investment indefinitely.

4. The Purchaser understands that the obligations of the Issuer to make payments under the 2019 Bonds are special, limited obligations payable solely from amounts paid to Issuer from Borrower pursuant to the terms of the Loan Agreement, the Indenture and the 2019 Bonds and are subject to the availability of funds to be provided pursuant to the Collateral Agency Agreement; notwithstanding anything to the contrary contained therein, the Issuer shall not be obligated to use any other moneys or assets of the Issuer to pay any portion of the costs of the Project, the Costs of Issuance or make any other payment or advance any moneys or be liable for any other costs or expenses in connection with the Project, the Costs of Issuance, the 2019 Bonds or the Bond Documents, except from Revenues and other assets pledged under the Indenture, and no such payment shall constitute a charge against the general credit of Issuer or the State of California. The Purchaser further understands that Issuer shall not be directly or indirectly or contingently or morally obligated to use any other moneys or assets of Issuance or for all or any portion of such other costs or expenses.

5. The Purchaser acknowledges that it has either been supplied with, or has been given access to, information, including financial statements and other financial information which it has requested from Borrower in order to make an informed investment decision, and has had the opportunity to ask questions and receive answers from knowledgeable individuals concerning Borrower, the Project, the Bond Documents, the 2019 Bonds, the Bond Financing Documents and the security therefor, so that it has been able to make an informed investment decision with respect to the 2019 Bonds. No information requested by the Purchaser was denied to the Purchaser. The Purchaser acknowledges that it has not relied upon the Issuer or its members, employees, officers or agents as to the accuracy or completeness of any information provided to the Purchaser by the Borrower concerning the Borrower, the Project, the Bond Documents, the 2019 Bonds and the security therefor.

6. The Purchaser has made its own inquiry and analysis with respect to the Bond Documents, the Bond Financing Documents and the 2019 Bonds and the security therefor, and

other material factors affecting the security and payment of such payments set forth in the Bond Documents and the tax exemption of the 2019 Bonds. The Purchaser is aware that the business of the Borrower involves certain economic variables and risks that could adversely affect the security for the 2019 Bonds. The Purchaser has examined drafts in final form of the basic legal documents relating to the Bond Documents and the Bond Financing Documents, including the Tax Certificate and the proposed legal opinions to be delivered by Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Issuer.

7. The Purchaser has made its own inquiry and analysis and conducted its own due diligence, to the extent the Purchaser deemed necessary, with respect to its purchase of the 2019 Bonds.

8. The Purchaser is acquiring the 2019 Bonds solely for its own account for investment purposes and not with a view to resale, and does not presently intend to make a distribution of, or to offer for sale, pledge, transfer, convey or dispose of the 2019 Bonds or any interest therein. However, Purchaser may, during any Restricted Period (as such term is defined in the Indenture), sell the 2019 Bonds, in whole or in part, to a Qualified Purchaser in Authorized Denominations in accordance with the terms of the Indenture.

9. The Purchaser acknowledges that the 2019 Bonds have not been and will not be registered or qualified for sale under the 1933 Act or under any state "Blue Sky" laws and that such registration or qualification is not legally required. The Purchaser further acknowledges: (i) that the Purchaser is solely responsible for such compliance and agrees that the Purchaser will comply with any applicable state and federal securities laws then in effect with respect to any subsequent disposition of the 2019 Bonds contemplated by, and in accordance with, paragraph (8) above, including laws relating to disclosure of material information, (ii) that any current exemptions from registration of the 2019 Bonds do not affect or diminish the requirement set forth in this paragraph (9); and (iii) that neither the Issuer nor the Borrower has agreed, or is obligated in any fashion, to supply any information or otherwise participate in any fashion in any such subsequent disposition of the 2019 Bonds (other than Borrower's obligations under the Loan Agreement to provide certain reports and notices to Bondholders).

10. The Purchaser acknowledges that the Purchaser has been informed that the 2019 Bonds: (i) will not be listed on any stock or other securities exchange; (ii) have not been assigned a rating by any national securities rating agency; and (iii) may not be readily marketable.

11. The Purchaser acknowledges that the Purchaser is responsible for consulting with its advisors concerning any obligations, including, but not limited to, any obligations pursuant to federal and state securities and income tax laws the Purchaser may have with respect to the subsequent sale of the 2019 Bonds in accordance with the Indenture, if and when any such future sale of the 2019 Bonds may occur.

12. The Purchaser acknowledges that the Purchaser is aware that neither the Issuer nor its members, staff, counsel, financial advisors or agents nor any other individuals have made any independent investigation with respect to the sufficiency of the revenues of the Borrower to pay amounts owed with respect to the 2019 Bonds.

13. The Purchaser acknowledges that, as between the Purchaser and the Issuer, the Purchaser has assumed responsibility for obtaining such information and making such review as the Purchaser deemed necessary or desirable in connection with its decision to purchase the 2019 Bonds. The Purchaser acknowledges that the Purchaser has not relied upon the Issuer for any information in connection with the Purchaser's purchase of the 2019 Bonds.

14. The Purchaser has the authority to purchase the 2019 Bonds and to execute this letter and any other instruments and documents required to be executed by the Purchaser in connection with its purchase of the 2019 Bonds. The undersigned is a duly appointed, qualified, and acting representative of the Purchaser, is authorized to make the certifications, representations and warranties contained herein on behalf of the Purchaser and is authorized to execute and deliver this letter and any other instruments and documents required to be executed by the Purchaser in connection with the purchase of the 2019 Bonds.

15. The undersigned hereby waives any and all claims, actions, or causes of action which the undersigned may have from and after the date hereof against the Issuer or Treasurer or their respective members, officers, agents, and employees growing out of any action which the Issuer or Treasurer took or could have taken in connection with the authorization, execution, delivery, and sale of the 2019 Bonds or the purchase thereof by the Purchaser or in connection with any statements or representations which induced the Purchaser to purchase the 2019 Bonds.

16. The Purchaser has executed and delivered this letter in connection with the execution and delivery of the Bond Documents as an inducement to the Issuer to cause the execution and delivery of the Bond Documents. Only the addressees hereof may rely upon this letter.

#### **PROPOSED FORM OF OPINION OF BOND COUNSEL**

[Closing Date]

California Pollution Control Financing Authority Sacramento, California

> California Pollution Control Financing Authority Solid Waste Disposal Revenue Bonds (CalPlant I Project) <u>Series 2019 Subordinate Bonds (AMT)</u> (Final Opinion)

Ladies and Gentlemen:

We have acted as bond counsel to the California Pollution Control Financing Authority (the "Issuer") in connection with the issuance of \$73,685,000 aggregate principal amount of California Pollution Control Financing Authority Solid Waste Disposal Revenue Bonds (CalPlant I Project) Series 2019 Subordinate Bonds (AMT) (the "Bonds"), issued pursuant to an indenture, dated as of August 1, 2019 (the "Indenture"), between the Issuer and UMB Bank, N.A., as trustee (the "Trustee"). The Indenture provides that the Bonds are issued for the stated purpose of making a loan of the proceeds thereof to CalPlant I, LLC (the "Borrower"), pursuant to a loan agreement, dated as of August 1, 2019 (the "Loan Agreement"), between the Issuer and the Borrower. Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Indenture.

In such connection, we have reviewed the Indenture, the Loan Agreement, the Tax Certificate and Agreement, dated the date hereof (the "Tax Certificate"), between the Issuer and the Borrower, opinions of counsel to the Issuer, the Trustee and the Borrower, certificates of the Issuer, the Trustee, the Borrower and others, and such other documents, opinions and matters to the extent we deemed necessary to render the opinions set forth herein.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to our attention after the date hereof. Accordingly, this letter speaks only as of its date and is not intended to, and may not, be relied upon or otherwise used in connection with any such actions, events or matters. Our engagement with respect to the Bonds has concluded with their issuance, and we disclaim any obligation to update this letter. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and

validity against, any parties other than the Issuer. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents and of the legal conclusions contained in the opinions, referred to in the second paragraph hereof. Furthermore, we have assumed compliance with all covenants and agreements contained in the Indenture, the Loan Agreement and the Tax Certificate, including (without limitation) covenants and agreements compliance with which is necessary to assure that future actions, omissions or events will not cause interest on the Bonds to be included in gross income for federal income tax purposes. We call attention to the fact that the rights and obligations under the Bonds, the Indenture, the Loan Agreement and the Tax Certificate and their enforceability may be subject to bankruptcy, insolvency, receivership, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases, and to the limitations on legal remedies against authorities of the State of California. We express no opinion with respect to any indemnification, contribution, liquidated damages, penalty (including any remedy deemed to constitute a penalty), right of set-off, arbitration, judicial reference, choice of law, choice of forum, choice of venue, non-exclusivity of remedies, waiver or severability provisions contained in the foregoing documents, nor do we express any opinion with respect to the state or quality of title to or interest in any of the real or personal property described in or as subject to the lien of the Indenture or the Loan Agreement or the accuracy or sufficiency of the description contained therein of, or the remedies available to enforce liens on, any such property. Our services did not include financial or other non-legal advice. Finally, we undertake no responsibility for the accuracy, completeness or fairness of the Limited Offering Memorandum or other offering material relating to the Bonds and express no opinion with respect thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds constitute the valid and binding limited obligations of the Issuer.

2. The Indenture has been duly executed and delivered by, and constitutes the valid and binding obligation of, the Issuer. The Indenture creates a valid pledge, to secure the payment of the principal of and interest on the Bonds, of the right, title and interest of the Issuer (except for the Reserved Rights) in the Loan Agreement, including Loan Repayments, and any other amounts held by the Trustee in any fund or account established pursuant to the Indenture, except the Rebate Fund established under the Indenture, subject to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in the Indenture.

3. The Loan Agreement has been duly executed and delivered by, and constitutes a valid and binding agreement of, the Issuer.

4. The Bonds are not a lien or charge upon the funds or property of the Issuer except to the extent of the aforementioned pledge. Neither the faith and credit nor the taxing power of the State of California or of any political subdivision thereof or any local agency is pledged to the payment of the principal of or interest on the Bonds. The Bonds are not a debt of the State of California, and said State is not liable for the payment thereof.

5. Interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the "Code"), except that no opinion is expressed as to the status of interest on any Bond during any period that such Bond is held by a "substantial user" of any facilities financed or refinanced by the Bonds or by a "related person" within the meaning of Section 147(a) of the Code. We observe, however, that interest on the Bonds is a specific preference item for purposes of the federal alternative minimum tax. We are further of the opinion that interest on the Bonds is exempt from State of California personal income taxes. We express no opinion regarding other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds.

Very truly yours,

ORRICK, HERRINGTON & SUTCLIFFE LLP

## Reference: CalPlant I Project Independent Construction Monitor Memorandum

Dear Mr. Uhland:

Harris Group Inc. ("Harris Group") has been engaged by you, CalPlant I, LLC ("CalPlant"), pursuant to that certain engagement letter dated October 29, 2018 (the "Engagement Letter") to serve as independent construction monitor ("Construction Monitor") with respect to the CalPlant I project near Willows, CA (the "Project").

You have informed us that CalPlant intends to consummate a subordinated bond offering (the "2019 Bond Offering") with the California Pollution Control Financing Authority, pursuant to which the CPCFA will loan the proceeds of the 2019 Bond Offering to CalPlant, to finance a portion of the costs of construction of the Project.

In connection with the 2019 Bond Offering, Harris Group, as Construction Monitor, issues to you this memorandum (the "Memorandum") as to the general status of construction of the Project, and a status of certain matters with respect to the production of the first solid board, when raw material is run through the system to culminate in the production of such board ("First Board"), as set forth in more detail below.

Harris Group, Inc. ("Harris Group") is a multidiscipline engineering consulting firm founded in 1975, with offices located throughout the United States. Harris Group has provided technical due diligence and independent engineering review services of projects on behalf of lenders, investors, and owners since 1989 and has acted as a construction monitor for lenders and bondholders on a wide variety of industrial projects throughout the United States.

## **CONSTRUCTION STATUS AND SCHEDULE TO FIRST BOARD**

Although construction commenced in fall 2017, the construction activity has accelerated over the past six months and has featured the erection of the two main process buildings and the installation of numerous pieces of process equipment. A summary of the overall construction follows:

General Status of the Construction of the Plant:

- Sitework and Underground Utilities: ~95% complete. Most of what remains is the final grading, landscaping and paving.
- Buildings/Structures:
  - Straw Prep Building and Production Building: 100% complete, with the exception a few punch list items. Building mechanical and electrical are 100% complete in both areas.
  - The center area of the site is occupied by 4 buildings: Energy Building, Refiner Building, Glue Building, and Blender Building. The first three of these are Pre-Engineered Metal Buildings, which are already on site.
     Foundations are complete or nearly complete for these three buildings and equipment setting has started. The Blender Building is going to be the last one completed. It is not necessary for startup of the plant, and CalPlant will be bypassing this building for the first several months of operation.
  - Some steel structures on the site are virtually complete, including the erection of the equipment (e.g. Separators, Fiber Storage, West Electrostatic Precipitators, Sifters, etc.) contained in them. Piping and electrical work are well underway in most of these structures.
  - Streel structures to support other equipment (e.g. Drying System, Cyclones, etc.) and Silos are under construction.
- Process Equipment:
  - Straw Prep Building: Equipment is ~95% complete and process piping and electrical are ~25% complete.
  - Production Building: Equipment is ~80% complete and process piping and electrical are ~25% complete.
  - Balance of Plant: Together, equipment and piping are ~35% complete: Electrical is ~25% complete.

## Significant Items Not on Site

CalPlant estimates that 10% of the equipment and materials have not yet been delivered to site. In addition, CalPlant reports that it anticipates these items will be on site within several weeks and has no indication that any of it will be delayed.

The major items that are not yet on site include:

- Pneumatic Piping: Supplied by Siempelkamp, some piping is currently on a ship, with the balance arriving by mid-August or before. According to CalPlant, piping could be manufactured locally if necessary. To expedite the schedule, CalPlant has sourced about 1/3 of the piping locally to date.
- Motor Control Cabinets: Supplied by Siempelkamp, some cabinets are currently on site, with the balance arriving by mid-August. According to CalPlant, these could not reasonably be manufactured locally, but they are ready for shipment or nearly ready for shipment, and the risk on this item seems small.

## Schedule to Achieve First Board

□ As of 6/20/2019, CalPlant's schedule shows that the plant will be mechanically complete (not including Blenders) by October or early November 2019, with First Board produced by the end of November 2019. For reasons discussed below, the process will bypass mechanical blending to achieve First Board. To achieve First Board by the end of November, CalPlant has formulated a staggered commissioning schedule. The construction of the Refiner Building determines the critical path to First Board. However, several other process systems will be mechanically complete prior to the Refiner Building being finished. Therefore, these systems (e.g. straw bale receiving, bale de-stringing, bale breaking and chopping, hammer milling, primary separation, among others) can be commissioned while the Refiner Building is still under construction. This will shorten the overall commissioning schedule.

## Harris Group's Opinion Regarding Construction Status and Schedule:

Harris Group visits the Project site once a month to observe the construction progress and meet with the contractors to review upcoming invoices and schedules. It is our opinion that the construction to date has been managed in a professional manner and, over the past six months during which we have been involved, construction has progressed at a pace commensurate with or better than - that of other well-run projects of similar size and scope with which we are familiar.

It is Harris Group's opinion that CalPlant's assessment that, outside the Motor Control Cabinets being supplied by Siempelkamp, the items that are not on site can be sourced locally, if necessary, to avoid schedule delays. Further, it is our opinion that, while the current delivery schedule of the Motor Control Cabinets is not a concern, their delivery should be monitored closely to ensure they do not delay the schedule.

Harris Group reviewed the schedule to achieve First Board by the end of November 2019. It is our opinion that, barring unforeseen circumstances (e.g. weather, etc.), the Project should be able to achieve Frist Board by the end of November 2019. It is our opinion that CalPlant may have to take measures to ensure it can reach that milestone. These measures likely include increasing site manpower, doubling shifts, extending shifts, and longer work weeks. According to CalPlant, these are already in the works, with the mechanical and electrical contractors ramping up manpower. It is Harris Group opinion that these contractors are large enough to be able to easily support the manpower increases CalPlant anticipates.

## **CHANGES IN PROJECT SCOPE OF WORK**

Since the issuance of the 2017 Bonds, the Project has undergone changes to the contracting strategy and the design/construction. These changes are addressed below.

## Contracts

At the time the 2017 Bonds were issued, the Plant was to be constructed using a two-contractor, multi-prime contracting structure, under which Siempelkamp Maschinen- und Anlagenbau GmbH ("SICO") would supply the manufacturing process equipment and Casey Industrial, Inc. ("Casey") would perform the engineering, procurement, and construction of the buildings and utilities and install the process equipment under the supervision of SICO.

To accommodate SICO's recommended upgrades and additions, CalPlant entered into agreements for a new multi-contractor, multi-prime construction arrangement, with SICO, an affiliate of SICO, Casey, and other contractors providing the supply, construction, and professional services. CalPlant expects the upgrades and additions to significantly improve the efficiency and capacity of the Plant and the quality of its product.

Under the new construction arrangements, Casey's scope of work was reduced to the supply and construction of only site work, concrete work for the foundations and slabs for the equipment and buildings, underground utilities, and the construction of the MDF production and straw preparation buildings. Like the original Casey contract, the new Casey contract was formulated as a lump-sum, fixed price basis (subject to certain limited adjustments).

Under the new construction arrangements, SICO's scope includes supplying the manufacturing process equipment under the Equipment Supply Agreement as originally contemplated but including the upgraded and additional equipment at no additional direct cost. SICO and CalPlant have amended the Equipment Supply Agreement to reflect the reduction in Casey's scope, the change from a two-contractor arrangement to the multi-contractor arrangement, and certain other clarifying changes.

CalPlant has entered into a second supply contract with SICO (the "Additional Supply Agreement"), under which SICO will supply certain ancillary materials, not included in the Equipment Supply Agreement and required for the construction of the Plant.

Additionally, Siempelkamp Contracting, LLC, a wholly-owned U.S.-based subsidiary of SICO ("SICO USA"), has agreed to install the manufacturing process equipment supplied by SICO under the Equipment Supply Agreement, which installation work is no longer in Casey's scope of work. For this purpose, CalPlant and SICO USA entered into a new installation contract (the "Installation Contract") dated October 10, 2018. The Installation Contract is on a lump-sum, fixed-price basis, subject to adjustment in certain limited circumstances.

To reduce CalPlant's overall expenses of constructing the Plant and shorten what would otherwise be a lengthier construction schedule, CalPlant has contracted directly with Phoenix Industrial, Inc. ("Phoenix"), under a Construction Services Agreement. Phoenix is a general contractor based in the Pacific Northwest that specializes in structural, mechanical, and piping work for heavy industry. Under the Phoenix contract, Phoenix will be responsible for structural steel erection, certain equipment erection (other than the core manufacturing process equipment), and piping installation for the areas outside of the Plant's main production building. SICO USA will be responsible for the piping installation in the main production building.

Under the new construction arrangements, electrical work at the Plant, other than the underground utilities work that was in Casey's scope, and electrical work in the main production

building, which is in SICO USA's scope, will now be performed by International Line Builders, Inc. ("ILB") under a Construction Services Agreement between CalPlant and ILB. ILB is part of MDU Construction Services Group, Inc. (which is part of MDU Resources Group, Inc. (NYSE: MDU)) and has more than 5,000 skilled employees across the country with authorization to work in 47 states, including California. ILB has offices in several of these states and supports CalPlant from ILB's Sacramento office.

Both the Phoenix and the ILB contracts are on a lump-sum, fixed-price basis. SICO continues to be responsible for supervising Phoenix and ILB in the performance of their services at the Plant.

For the 2017 Bonds, Industrial Projects Consulting, LLC ("IPC") had acted as the Construction Monitor. Under the new construction arrangements for the Project, CalPlant contracted with IPC to act as Construction Manager for the Project.

In addition to the above-mentioned contracts, CalPlant has entered into other direct contracts for services and for the procurement of certain equipment and materials. To take advantage of certain sales and use tax exemptions not available to contractors, CalPlant will directly procure the structural steel for the Plant in addition to widely available off-the-shelf minor equipment and materials. The services CalPlant will obtain directly include services for design and engineering, on-site security, ancillary construction services, and construction consulting and management. By entering into these direct contracts, CalPlant expects to avoid materially greater costs and longer performance schedules that would likely have resulted from incorporating the same services, equipment, and materials in the scope of a general contractor.

## **Design/Construction**

Since the issuance of the 2017 Bonds, the Project has undergone changes to its design and construction. These changes are addressed below.

## Dryer Cyclone/Mat Reject/Blender Tower

Despite assurances from the Federal Aviation Administration ("FAA") that the Project, as originally designed, would not exceed its height restrictions, the FAA ultimately required that the height of the blender tower be reduced by approximately 100 feet. This restriction necessitated a significant re-design of the original structure known as the Dryer Cyclone/Mat Reject/Blender Tower. The re-design resulted in the separation of the Dryer Cyclone from being positioned above the original structure and establishing the Dryer Cyclone Tower and its companion Dryer Duct Riser Tower as separate and independent structures supported at grade.

The overall change to the project resulted in three distinct structures supported at grade and each comprised of individual structural steel towers:

- Dryer Cyclone Tower
- Duct Riser Tower
- □ Blender/Mat Reject Tower.

The re-designs for the Dryer Cyclone Tower and the Duct Riser Tower are complete and construction has commenced. It is anticipated that they will be constructed and commissioned to

meet the current Project schedule. Because the re-design of the Blender/Mat Reject Tower is more complex, its construction will not be completed in time to meet the current Project schedule. Therefore, CalPlant developed an alternative approach to accelerate completion schedules of sufficient equipment to allow the overall commissioning of the plant to continue. This alternative approach entails bypassing the Blender and relying on what is known as Blow-Line Blending to mix glue onto the straw fibers. This approach will allow the plant to operate and achieve First Board production while the Blender construction is being completed. The Blender Tower is expected to be completed late January or early February 2020.

## <u>Blending</u>

The purpose of blending is to achieve even distribution of resin on the dry fibers. The original blending method employed in early medium density fiberboard ("MDF") plants was in mechanical blenders. However, because the resin is added to dry fiber, there would be areas of high concentration of resin (resin balls) that would result in resin spots in the pressed board. Resin spots were problematic for coatings and overlays and would show through these finishes. Additionally, the mechanical blenders required frequent cleaning which contributed to maintenance costs and down time.

An alternate method of adding resin into the refiner blow line was developed, which eliminated the resin balls in the fiber and resin spots in the board. The blow line method of blending increased the amount of resin required, but this was deemed to be less problematic than the resin spots and resulting problems with surface quality. Globally, well over 80% of the MDF industry uses blow line blending.

Siempelkamp has designed the Project with both blow line and mechanical blending for the resin that will be used. Their rationale for doing this stems from the fact that their performance guarantee stipulates the maximum amount of resin use to achieve quality board. Having the flexibility of blow-line blending and mechanical blending assists their ability to meet the performance guarantee.

## Harris Group Opinion Regarding Changes in Scope:

Harris Group reviewed the changes in overall contracting strategy for the Project. It is our experience that changes in contracting strategies are not uncommon on large projects. Many projects experience scope changes between the preliminary design and detailed design phases. These can lead to situation in which the original contracting strategy is not ideal or even inappropriate. Based on the information we reviewed, it is Harris Group's opinion that the contracting changes enacted by CalPlant were in the best interests of the Project and will result in a better overall Project compared to the original contracting strategy.

Harris Group reviewed the major changes to the Project's design that took place between preliminary design and detailed design. First, it is our opinion that the changes to the Dryer Cyclone/Mat Reject/Blender Tower, necessitated by the FAA, were unavoidable and performed in a professional manner. Second, it is our opinion that incorporating both blow line and mechanical resin blending in the final design has several advantages, including:

- □ satisfying SICO that it will meet its performance guarantee with respect to resin use;
- □ allowing the Project to continue producing MDF when one of the resin blending systems requires maintenance;
- □ enabling CalPlant to provide high quality MDF without resin spots; and
- via its redundant design, allowing the Project to add, at a future date, product enhancers such as fire retardants, fiber colorants, and other specialized materials to produce valueadded MDF products.

Further, Harris Group reviewed an August 2018 memo from Steven Vajda Consulting ("SVC") that concluded that blow line blending is the more common method of resin blending in new MDF plants and starting up the plant with a blow line blending system poses no risk to producing saleable MDF. It is our opinion that because of its extensive history in the design and start-ups of MDF plants, SVC has the expertise to make those conclusions and it researched the topic in a professional manner.

Please let us know if you have any questions.

Sincerely,

Strum Aum

# **Report to Bond Holders**

Process Design Changes to the CalPlant Rice Straw MDF Project Since Financial Close July 4, 2019

#### 1. Introduction

Stephen Vajda Consulting (SVC) is the Technical Advisor to the Bond Trustee with respect to the CalPlant Rice Straw-based MDF project located in Willows, CA. SVC also wrote the Independent Consultant's Report (ICR), dated April 28, 2017, of the project prior to financial closing and commencement of construction of the project.

Since financial close there have been material changes to the project design as well as the project contracting structure. The Construction Monitor, Harris Group, has prepared a report, dated June 21, 2019, regarding the status of construction, schedule to produce first board, and changes to the contracting structure. This report also outlines the major design changes, the reasons for making them and the related benefits.

Other events unrelated to the project design and process have been identified by stakeholders and SVC has been asked to comment on any impact these events may have on the project.

## 2. Key Process and Equipment Changes

There have been a number of changes to the process, including the addition of equipment and changes to equipment specifications. This section describes those changes. It is to be noted that CalPlant questioned a number of the changes, and the value of the benefits relative to the additional costs. However, since Siempelkamp is providing the process guarantees, they maintain control over the process and equipment design. To force or even convince them not to make the changes would potentially relieve them of their performance obligations and of the penalties that would be due to CalPlant in the event the guarantees are not met.

Cost increases due to these changes arise not from the cost of equipment added by Siempelkamp or Siempelkamp's related, and additional, process and plant engineering; but only from the costs related to additional structural steel, concrete, electrical and control equipment and installation costs. While those costs are not insignificant, the value of the added equipment provided by Siempelkamp is very significant and comes to CalPlant at no additional cost.

The major design and equipment changes are as follows.

## 2.1 Straw Bale Crane

The lifting capacity of the overhead straw bale crane has increased from 8,000 kg to 16,000 kg. The higher capacity crane required a re-design of the straw storage building and related foundations. It's unclear as to the reason for the change, since to the best of our knowledge the number of bales the crane grapple can hold remains at 10 and therefore the lifting capacity should not have changed.

This change has resulted in a small increase to the total project costs but will not have any impact on the project completion date, product quality or operating costs.

## 2.2 Addition of Hammermills

The original concept for straw bale processing was to use bale breaker/choppers to convert bales to chopped straw in a single step and single machine. This concept was used in the early product development work. However, Siempelkamp believes that scaling up to the full-scale plant will require a two-step process consisting of bale choppers followed by hammermills. The two-step process will ensure better control of the length of the chopped straw which is important for assuring consistent flow through the straw handling and refining equipment.

We agree it's important to prepare the straw to the correct size. If the straw pieces are too long there will be continual risk of blockages and inconsistent material flow through conveying systems and other process equipment upstream of the refiner. The ability to maintain a very consistent straw feed rate to the refiner is key to achieving high quality fiber and MDF panels.

Although Siempelkamp is providing the hammermills at no added cost to their contract, there are significant costs associated with the addition, including additional building area, added equipment foundations, larger pneumatic system, additional motors and electrical distribution equipment. The added motors will result in increased power consumption and cost. However, for the reasons noted above, we believe the additions of the hammermills is a worthwhile addition to the project scope.

## 2.3 Primary Straw Cleaning Systems

As a result of testing conducted at their laboratory in 2017 just ahead of financial close, Siempelkamp has added a set of four primary separators, one for each straw bale processing line. The purpose of primary separators is to remove unwanted material from the prepared straw such as dirt, grit, silicates, metal and fines (small straw particles less than about 1/16" long). Siempelkamp has stated that removing these materials will increase refiner plate life, reduce resin consumption and enhance fiber and board quality.

MDF is often used in applications where it is highly machined and tool wear is a very important property for MDF users. Accordingly, MDF manufacturers are often required to stat the grit content (inorganic material) in their product.

While we agree with the concept that fiber should be as clean as practical, the early pilot plant work conducted by CalAg, including limited testing by MDF users indicated that grit content and tool wear was not a problem. We believe that in their desire for the CalPlant product to have good acceptance in the market, Siempelkamp is being extra cautious in the process design of the plant.

Siempelkamp is providing the primary separators at no additional cost, however the costs associated with increased structural steel, foundations, power distribution, engineering and installation labor are not included in Siempelkamp's scope of supply and will add to the total project cost. The added motor loads will increase power consumption and costs.

## 2.4 Revised Design of Straw Storage and Dosing System

The original design incorporated a 400 m3 vertical straw storage silo that fed two 10 m3 dosing bins, one for each refiner. This equipment has been replaced with a 400 m3 horizontal storage and metering bin utilizing a live bottom belt, rake back conveyor and doffing rolls. Chopped straw is delivered to the two refiners via a set of conveyors arranged to provide and overfeed and return system. Slightly more material is delivered to the pin drum feeders of each refiner system and the excess is returned to the horizontal storage bin.

In our opinion the horizontal storage bin is better suited to handling chopped straw and the overfeed system is less complicated from a process control perspective. Overall this is a positive change.

There is no increase in equipment cost associated with this change. There will be some additional cost for support steel, concrete foundations, electrical equipment and installation labor

## 2.5 Refiner Motor Size Increase

The refiner motors size has increases 17% from 3000 kW to 3500 kW (4023 hp to 4694 hp). Various other changes have given rise to the potential for greater plant production and the larger refiner motors are being provided to add to refiner capacity and provide sufficient power to generate more highly refined fiber.

In our view it's not clear that the additional power is necessary and in our ICR we stated that the product development work completed by CalAg indicated that the power required to refine rice straw was less than for wood. We believe Siempelkamp is taking a conservative approach and does not want to risk being short of refining power.

The larger motors will require larger power distribution equipment and motor cables and this will increase project costs. However, the larger motors will not lead to greater power consumption and cost if the refining energy ends up being as stated in the ICR.

## 2.6 Dryer Length

Siempelkamp has increased the length of the dryer duct from 328 ft. to 523 ft. or about 60%. To accommodate the increased resistance induced by the addition length, the fan motor has increased from 738 hp to 1033 hp, about 40%. We believe the dryer air volume has also been increased based on the amount of the fan motor size increase.

The purpose of this change is to reduce the dryer inlet temperature and thereby reduce pre-cure of the pMDI resin and reduce resin consumption and cost, in the event blowline blending becomes the preferred method of resin application. We note that the inlet temperature of the dryer described in the original contract documents is 428 F, and in our view a "low temperature" dryer would have an inlet temperature in the range of 300 F to 350 F.

There will be additional costs associated with the installation of the longer dryer duct as well as the power distribution equipment to support the larger dryer fan motor.

## 2.7 Reduction of Dryer Cyclone and Stack Height

Despite assurances from the local office of the Federal Aviation Administration (FAA) that the dryer exhaust stack height was acceptable, when final approval was sought for permitting, the height was deemed too high and the project team had to re-design the area to lower the cyclone about 100 feet.

The dryer cyclone was located in the same support structure that housed and supported the blenders, the secondary separators, the mat reject cyclone and silo, and the dryer duct riser. In order to lower the dryer cyclone, the single large cyclone has been lowered, the cyclone support structure has been separated from the blender and mat reject tower, and a separate tower has been provided for the main dryer duct riser section. In essence there are now three discrete steel structures where there was one.

Re-design of the dryer cyclone and duct riser tower is complete, and the delay should not affect the project schedule any further. However, the blender and mat reject tower re-design is more complicated and it will not be finished in time for plant start-up and commissioning. Therefore, the plant will start-up without the blending equipment and will instead add resin to the fiber using the blowline method. The mat reject system will also be fully functional at plant start-up. Blowline blending is used by the majority of MDF plants worldwide and has been the preferred method of resin addition over the past 4 decades. We are aware of two plants in Western North America who successfully blend fiber and pMDI resin using the blowline method, and we therefore see no technical risk to the use of blowline blending.

The impact on project costs of this re-design is not fully known at this point other than it will increase costs.

The mechanical blending system is expected to be operational by the end of February 2020.

## 2.8 Addition of Secondary Separators

In their effort to provide a very clean and grit free fiber and low tool wear MDF product, Siempelkamp believes a second stage of cleaning should be done on the refined straw or fiber. This equipment is located after the fiber is dried and before resin is added in the mechanical blenders. In their view, the refining process will further loosen grit and silicates from the straw and have designed the secondary separators to remove this material. The secondary separators are similar in design to the primary separators but with different air flow characteristics better suited to fiber as compared to chopped straw.

CalPlant has tried to convince Siempelkamp this equipment is not necessary and SVC shares that view. However, as stated a number of times, maintaining the integrity of Siempelkamp's product quality guarantees means they control the design.

We have learned from CalPlant that they have reached a compromise with Siempelkamp whereby the secondary separator equipment will not initially be installed and will only be installed if plant and product acceptance tests are not passed.

While this is a reasonable compromise, there are still impacts on plant cost because the layout, foundations and electrical power distribution systems will be designed and built to facilitate possible installation at a later date.

### 2.9 Addition of Spare Mechanical Blender

Siempelkamp believes that mechanical blending is the preferred method of resin application and will result in lower resin consumption. This is generally borne out by experience in the MDF industry, however, along with mechanical blending comes two negative impacts. It is very difficult to evenly distribute resin onto dry fiber, regardless of whether it is wood- or straw-based, and this has historically resulted in resin clumps or balls in the fiber and spots on the surface of the board which cause problems in finishing operations such as coating and overlaying with papers and veneers. The second impact is that mechanical blenders need to be cleaned quite frequently to remove resinous material that builds up inside the blender. Taking a blender out of service has an obvious impact on cost to operate the plant and plant production.

Blender designs have evolved over the past decade and manufacturers claim that the resin spot problem has been largely eliminated and with the addition of fiber sifters to the process (these are incorporated into the CalPlant design) they are removed. To address the material build-up and cleaning problem, Siempelkamp is supplying an additional fifth blender that will be installed alongside the required four units, so that four blenders will always be operating, and one will always be offline and being cleaned.

While this sounds like a good solution, the design of the layout that allows feeding to any four of the five blenders and the ability to physically move any of the blenders to a cleaning position is complicated and results in larger support structures and setting equipment at higher elevations; all of which adds to project costs.

In our view it's necessary in order to maintain a consistent operation using mechanical blending and avoid undue downtime. In addition to the protection an installed spare blender provides, changing over to blowline blending is another option which should take about 30 minutes.

#### 2.10 Addition of Fiber Sifter

The original design had a single large fiber sifter. Siempelkamp wanted to increase sifter capacity but the original sifter selected was the largest available so two smaller units have replaced the larger single unit.

Here again, out of concern for fiber and board quality, and in anticipation of greater production capacity, Siempelkamp has elected to supply additional equipment. We agree that this type of air separation equipment is more effective with a larger air to fiber ratio, but this results in a larger sifting box, greater airflow, higher power fans, larger ductwork, more support steel, larger foundations and more electrical distribution equipment; all of which adds to material and labor costs.

It is important to point out that in addition to improving fiber quality in the board, fiber sifting technology was developed to protect continuous presses when making thin panels. Any hard lumps in the mat that are near the panel thickness can damage the steel belts of the press. These high-density points in the mat will dent the steel belts and require a patch to be installed and if too frequent require premature replacement of the belt. Each belt costs over \$500,000 and repairs result in undue downtime and lost production. For this reason, the larger sifting capacity will prove beneficial in the long run.

### 2.11 Press Upgraded to Generation 9 and Line Speed Increased

The press originally to be supplied was Siempelkamp's Generation 8 version, but has been replaced with their latest version, the Generation 9 press. They claim this new version will reduce resin consumption and we believe there have been improvements to the control of distance between platens (platens are the heated steel plates that apply pressure to the steel belt and fiber mat) across the press and along the press length. Additionally, the maximum forming line and press speed has been increased from 48 m/minute to 60 m/minute.

Both are welcome changes, especially the speed change. Siempelkamp has produced presses that run at 60 m/minute for at least 20 years and we never understood why the speed was limited to 48 m/min other than to reduce motor size and cost. The increased speed is especially useful for thin panels and the increased speed will allow CalPlant to produce very thin, 2.0mm panels (originally only as thin as 2.5mm).

The impact on project costs should be minimal, mostly related to the larger motors.

#### 2.12 Increase in Heat Output of Thermal Oil Heater

The thermal oil heater supplies hot oil to heat the press. The heat output capacity has been increased from 4.9 MW to 8 MW (16.7 to 27.3 million Btu/hr) in anticipation of greater production rates through the press. The heat capacity increase is 60% which seems high relative to what the increased production rate through the press is estimated to be. However, since the press speed increase is geared towards thin boards and the density of thin boards is higher than standard thickness panels, the increase in fiber mass through the press is proportionally higher than the increase in board volume. This may account for the relatively high increase in heater capacity.

The larger heater will require larger diameter piping connections, more insulation and larger power distribution equipment. This will increase project costs minimally and those added costs will be borne by CalPlant.

#### 2.13 Larger Steam Generator

Steam is used to pressurize and heat the two refiners and to heat fresh air entering the fiber sifter. Steam generating capacity has been increased from 17,700 kg/h to 26,500 kg/hr (8,000 to 12,000 lbs/hr) or 50%. This has been done to accommodate production rate increases throughout the plant.

As described for the thermal oil heater above, the added cost associated with the larger steam generator will be minimal and due to the same effects.

#### 3. Impact of Increased Electrical Loads on Operating Costs

This report describes a number of changes to the process design that has increased the total connected electrical load and will also increase the monthly/annual power cost. We have tallied the additional loads and the increase is about 20%. This does not necessarily mean power consumption will increase 20%, only that there is the potential for power consumption to increase 20%. Moreover, many of the added loads are geared to increasing plant capacity, and when taking this into account, the increase in power consumption and cost per unit o production (MMsf  $\frac{34}{7}$ )

In the ICR we stated that power consumption at the CalPlant1 mill will be lower than for wood based MDF plants due to three main factors as follows.

- 1. Lower energy input into refining straw compared to wood
- 2. CalPlant uses natural gas fired thermal generating equipment whereas most wood based MDF plants use biomass fuels or combinations of biomass and natural gas.
- 3. CalPlant has less pollution control equipment which consumes a significant amount of electric power.

For these reasons we are confident that even with the added electrical loads, CalPlant's unit power consumption will be lower than it's wood based competitors.

#### 4. Impacts to the Project from Non-Project Related Events

#### 4.1 Straw Supply

The latest version of the Independent Consultant's Report was issued April 28, 2017, a few months before financial closing of the project. Investors have asked if there have been any material changes to the regional supply of rice straw or to the availability of baling contractors to collect and deliver straw to the MDF plant.

While SVC has not conducted further investigation into this topic, we note that during the fall of 2017 and 2018, over 200,000 tons of baled rice straw were delivered and placed onto CalPlant's straw storage yard and fully protected with tarps, as per the original plan. This is a good indication that the systems developed to procure, bale, deliver and protect the straw are working relatively well and will continue to ramp up to supply the mill with its annual requirements every year.

We are not aware of any events, current or in the near future, that would result in the reduction of land area planted to rice in the Sacrament Valley. In discussion with Jerry Uhland, he indicated that since the CalPlant project has become a reality and straw collection activities can clearly be seen by the presence of the haul trucks on local roads, more rice growers have contacted CalPlant to offer their land and straw.

#### 4.2 Risk Associated with Area Forest Fires.

California saw a number of large and destructive fires in 2018 including the Carr Fire near Redding and the Camp Fire that swept through Paradise. Some believe these large fires will occur more frequently than in past years due to climate change trends, and how these fires may impact the operations of CalPlant is a question some investors have asked.

These fires started and burned in forested areas at higher elevations, away from the flat agricultural region of the Sacramento Valley. In the case of the Camp Fire, which was the closest to CalPlant's site, approximately 40 miles away, it started some 1500 ft. above the valley floor and strong winds drove the fire southwest down towards the valley. As trees gave way to scrub vegetation at lower elevations the fire died out due to lack of fuel. The fire never crossed State Highway 99, did not impact the town of Chico and was never closer to CalPlant than about 40 miles.

Lack of trees and vegetation on the lower slopes of the valley acted as a natural fire break stopping the spread of the fire even with high winds. Irrigated agricultural lands on the valley floor provide further protection from fires on the slopes above the valley.

The effect on continuity of electrical service by wildfires is a concern of some, however, electrical service to the plant was never interrupted due to fire in 2018.

#### 4.3 Tariffs on Manufacturing Inputs

Recent policies of the US Federal government have seen tariffs imposed on a number of imported goods originating from number of countries. And while some of these have been withdrawn, there is lingering uncertainty and investors may be wondering what impact this could have on the cost of CalPlant's manufacturing inputs.

All manufacturing inputs are provided from within the United States including rice straw, resin and other additives, electric power, labor, etc.. The only items that will be imported over the operating term of the plant will be spare parts manufactured by the original equipment manufacturer. Many of the parts on this equipment are standard components available from US manufacturers. It is our opinion, therefore, that there is minimal risk to the cost structure of CalPlant from rising import or export tariffs.

With respect to tariffs on finished goods, wood and agfiber panel products trade between the NAFTA countries (Canada, USA & Mexico) is duty and tariff free. We are not familiar with tariffs for goods imported to the USA from countries outside North America but as far as we know, there has been no change in tariffs since 2017.

# Independent Consultant's Report Confirming that the CalPlant I Project Is Consistent with the Green Bond Principles and California's Environmental Objectives July 3, 2019

The California Pollution Control Financing Authority (CPCFA) has authorized the issue of Tax Exempt Revenue Bonds, in an aggregate principal amount up to \$228,165,000 of Senior bonds and approximately \$70,000,000 of Subordinate bonds, the proceeds of which will be used to make a secured loan to CalPlant I, LLC. The bond proceeds will be used exclusively to finance the construction and startup of a medium density fiberboard (MDF) plant (the Project) to be built at Willows in Glenn County CA.

These bonds are designated as "Green Bonds" as defined by the International Capital Market Association (ICMA). <u>www.icmagroup.org/greenbonds</u>. The ICMA developed a set of principles and guidelines for issuing Green Bonds (the "Green Bond Principles"), available at: <u>http://www.icmagroup.org/Regulatory-Policy-and-Market-Practice/green-bonds/green-bond-principles/</u>.

Stephen Vajda Consulting (SVC), the author of this Independent Consultant's Report, provides here a brief analysis confirming that the Project meets the requirements of ICMA's Green Bond Principles, as well as supporting multiple of California's environmental policy objectives.

Green Bond Principles have four core components:

- 1. Use of Proceeds
- 2. Process for Project Evaluation and Selection
- 3. Management of Proceeds
- 4. Reporting

A complete description of the four components is contained in the Green Bond Principles document, which can be found at the web link above.

These components are written in contemplation that bond proceeds may be part of a larger bond issuance program of an issuer, unallocated to specific projects at the time of issue, and may be used to finance multiple projects. By contrast, the CalPlant I Project for which the Bonds are issued here represents a single, specific project with known environmental benefits, which simplifies the confirmation of the four core components.

### **Use of Proceeds**

The cornerstone of a Green Bond is that essentially all proceeds from the bond offering be used for Green Projects. The definition of Green Project, as discussed in detail below, is a project with clear environmental benefits, which will be assessed, and, where feasible, quantified by the bond issuer. As the Project has multiple clear environmental benefits, as assessed and qualified below, it is clear that the Project qualifies as a Green Project. Since the Bonds here are exclusively dedicated to the CalPlant I

Project, and represent approximately 70% of the total financing required to complete the Project; we can therefore confirm that this component of the Green Bond Principles is met.

## **Management of Proceeds**

This principle is meant to ensure that Green Bond proceeds which may go into general investment funds are managed and tracked in a transparent manner to demonstrate that the proceeds are being used to finance Green Projects and not to other projects managed by the general investment fund that may not qualify as Green Projects.

CalPlant I, LLC has no other projects that it is constructing or developing, and is a single-purpose entity that is constrained by both debt and equity documents from any other activities besides constructing and operating the project. The loan agreement with CPCFA and the Collateral Agency Agreement lay out a strict protocol whereby expenditures from bond proceeds must be approved by a Construction Monitor and a Technical Advisor. Furthermore, the Bond indenture contains specific requirements that ensure that the Bond proceeds will be spent only on the Project. Therefore the management of funds to ensure that the Green Bond proceeds are exclusively used for the intended project will be straightforward and easily tracked. Thus the Management of Proceeds component is satisfied as well.

## Reporting

Issuers of Green Bond should make available up-to-date information on the use of the Green Bond proceeds periodically until full allocation. This reporting contemplates that proceeds may be used to finance more than one Green Bond project.

Here SVC will be acting as Technical Advisor to the Project during the construction and start-up phases. As part of this assignment SVC will report on Project progress and expenditures, general compliance with design specifications, changes to project design or specifications and the impact on technical and financial performance. In addition, both debt and equity investors in the project will receive monthly reports from the Borrower during construction and ramp-up. Finally, the loan agreement related to the Bonds requires CalAg to report each year that the Project has not changed in a manner that would materially adversely affect the environmental benefits of the Project. Therefore, this component is clearly fulfilled.

### **Process for Project Evaluation and Selection**

The Green Bond Principles explicitly recognize several broad categories of projects that are eligible as "Green Projects". The ICMA Green Bond Principles recommend that Green Bond issuers outline a process to determine how the project fits within these eligible Green Project categories. These categories are not exclusive:

- 1. Renewable energy
- 2. Energy efficiency
- 3. Pollution prevention and control
- 4. Sustainable management of living natural resources
- 5. Terrestrial and aquatic biodiversity conservation
- 6. Clean transportation
- 7. Sustainable water management
- 8. Climate change adaptation
- 9. Eco-efficient products, production technologies and processes

Similarly, the State of California has its own set of environmental goals and policies, which broadly include, but are not limited to the following.

- 1. Reduction of air pollution
- 2. Reduction of climate pollution
- 3. Reduction of water pollution
- 4. Water conservation
- 5. Increasing energy efficiency
- 6. Stewarding natural resources

The Project fulfills many of these categories in the above two lists, as shown below.

## **Background and Information**

Most of the environmental benefits of the Project stem from the raw material used to make the finished MDF products. The raw material is rice straw, a waste product of the rice farming industry. In the Sacramento Valley, rice straw used to be burned after the harvest, until the passing of the Connelly-Areias-Chandler Rice Straw Burning Reduction Act (AB 1378, Ch787, 1991) by the California Air Resources Board (CARB), which prohibited this practice to improve air quality. The ban was implemented in 1991 and by 2001 all burning ended (except in special cases to help destroy certain diseases). Since then, straw has been re-incorporated into the soil to decompose, and the fields are re-flooded to accelerate this process. Additionally the decomposition process results in the formation of methane, a strong greenhouse gas. When straw is removed from the fields for other uses such as making MDF, post-harvest water usage can thus be reduced significantly, and the methane gas generated by the decomposition process reduced significantly as well.

The amount of water conserved and methane gas decreased is based on the acres of rice cultivation required to supply the total fiber requirements of the MDF plant. This is determined as follows

Annual MDF Production	140,000 Msf <sup>3</sup> / <sub>4</sub> "/year	Project Specification
Unit Straw Consumption	1.952 tons/Msf <sup>3</sup> / <sub>4</sub> "	From Financial Model
Annual Straw Consumption	273,280 tons/year	By Calculation
Straw Production per Acre	> 2.75 tons/acre	See reference below this table
Acres required for CalPlant I	99,375 acres/year	By Calculation

# Water Conservation

As described above, removing straw from the field eliminates the need to re-flood the fields to start the decomposition process. The amount of water conserved is determined as follows.

Acres required for CalPlant I	99,375 acres/year	From Table above
Project		
Unit water use for decomposition	0.60 acre-feet/acre	See reference below this table
Water use reduction	59,625 acre-feet	By Calculation
Gallons per acre-foot	325,851 gal/acre-foot	See reference below this table
Water use reduction (gallons)	19,429 million g/year	By Calculation

Water used for straw decomposition: <u>http://www.calrice.org/Environment/Balance+Sheet/Chapter+2+-+Water+Supply.htm</u> Volume conversion reference: <u>https://en.wikipedia.org/wiki/Acre-foot</u>

Assuming the average per capita water use in the Bay area is 60 gallons per day, the amount of water conserved represents the water consumption of 887,000 residents. <u>http://www.swrcb.ca.gov/press\_room/press\_releases/2015/pr040715\_rgcpd\_febconservation.pdf</u>

## **Reduction of Climate Pollution**

When straw is incorporated into the soil and the fields flooded to start decomposition, the oxygen- starved environment promotes anaerobic decomposition, which produces methane gas emissions. A similar process takes place in landfills deep below the surface. The removal of straw from fields eliminates this process and the methane gas emissions. The quantity of methane gas and CO2 equivalents for emissions avoided is shown in the table below.

Acres required for CalPlant I	99,375 acres/year	From Table above
Project		
Methane emissions per acre	500 to 1250 lbs./acre	See reference below this table
Methane emissions per acre	0.25 to 0.625 tons/acre	Unit conversion – 2,000 lbs./ton
Methane emissions reduction	24,844 to 62,109 tons/year	By Calculation
CO <sub>2</sub> greenhouse gas equivalent	21	See reference below this table
CO <sub>2</sub> Equivalent Tons Abated	521,724 to 1,304,289 tons/year	By Calculation

### **Reduction in Toxins**

The current practice of water-assisted decomposition has led to an increase in soil and crop diseases. This is countered by application of fungicides and other chemicals. Removing straw for MDF production reduces the use of these chemicals and the corresponding negative effects they have on ground and surface water quality. At this time we are unable to quantify of the amount of chemical application reduction and the related effects on water quality.

There are also unquantifiable benefits to farm worker health and safety due to the reduction or elimination of handling these chemicals in fields where straw has been removed for MDF production.

### **Stewarding Natural Resources**

Current MDF plants almost exclusively use wood as the raw material input. Wood in all its forms--whole logs or residues from primary and secondary processing operations--is almost always used nowadays for economic benefit. Mill residues such as sawdust and shavings can therefore no longer be considered a waste product as they were in the 1950s through 80s.

CalPlant I's technology for using rice straw therefore represents a method to reduce non-waste raw product consumption. If all the fiber for CalPlant I were to come from logs harvested from forests, it is estimated that 4,200 acres of forests would be harvested annually. While the CalPlant I plant may not guarantee that those acres would not be harvested, the wood from them could be used for other purposes and products where rice straw cannot be used.

## **Increasing Energy Efficiency**

The use of rice straw will result in the reduction of volatile organic compounds (VOC) compared to a typical wood-based MDF plant. The primary VOC emitting processes in a MDF plant are the fiber dryers and the panel press where the fiber material is heated. The amount of VOC emission is governed by the temperature of the process, as well as by the quantity of organic compounds naturally found in the fiber. Wood contains significant amounts of organic resins which is evident by the odor of fresh cut wood. The higher the temperature the wood is exposed to, the greater will be the amount of the organic resins that will be converted to gases and be driven off from the wood.

Rice straw contains far fewer organic resins than wood, and can be dried at lower temperatures because the moisture content is lower than that of most forms of wood used by MDF plants. The exception would be the use of sawdust and shavings generated from processing of kiln-dried lumber.

A further benefit of the reduced VOC emission potential of rice straw is the elimination of air emission reduction equipment required to meet target emission levels, such as wet thermal oxidizers which consume natural gas and electrical power, which in turn produce have their own air quality and greenhouse gas contributions.

## Eco-efficient products, production technologies and processes

The technology employed in the CalPlant I facility will consume comparatively less thermal and electrical energy per unit of production than that used in most wood-based MDF plants.

We estimate from various benchmarking reports that CalPlant I's electrical power consumption will be about 80% of the average power consumption of North American MDF plants. The reason for this is twofold. The refining equipment which converts the raw material to fibrous material uses large electric motors and energy input is 250 to 400 kWh/ton. The energy required to refine rice straw is lower, more in the area of 150 kWh/ton. As noted above, the emission profile of the CalPlant I technology requires less air emission control equipment; these devices can have large fans with motors over 1,000 hp.

As regards thermal energy, the low moisture content of rice straw compared to wood reduces the energy consumed for fiber drying. For a plant the size of CalPlant I's, and assuming the moisture content of the straw fiber entering the dryer is 30% lower than that of wood, the reduction in thermal energy consumption is estimated at 30 million BTU/hr (net heat input). This is equivalent to 240 million cubic feet of natural gas per year.

The CalPlant I project also requires much lower transportation fuel consumption for the delivery of raw material than is the case with most wood-based MDF plants. Due to the competition for wood and wood byproducts from several industries--including animal bedding, wood pellets and fuel, as well as particleboard and MDF--the distances that wood is transported to many plants is upwards of 300 miles. The average is likely lower, perhaps in the 150 mile range, but by comparison all of CalAg's rice straw will be sourced from within a 25 mile radius.

# **Improved Indoor Air Quality**

Most MDF in North America is made with formaldehyde-based resins or adhesives. This results in off gassing of formaldehyde into homes, offices and other places where MDF based products such as furniture, cabinets, flooring and millwork are found. In April 2007, CARB adopted an Airborne Toxic

Control Measure (ATCM) that requires manufacturers of composite wood products, including MDF, to reduce formaldehyde emissions from their products. The regulation was implemented in two phases. Phase 1 came into effect in January 2009, and Phase 2 in January 2011. Phase 1 brought California in line with current regulations that were adopted in Europe and Japan over a decade ago; Phase 2 made California the world leader in limiting formaldehyde emissions from MDF and other composite panel products. CalPlant I's MDF will use a formaldehyde-free adhesive with near zero formaldehyde off gassing, and is therefore in full compliance with the CARB regulation and the Project will contribute to improved indoor air quality. Moreover, rice straw is very resistant to mold and mildew formation, which will also contribute to a higher quality of indoor air.

## Conclusion

In our opinion, the Project meets the criteria for Green Bond principles developed by the International Capital Markets Association and State of California environmental goals and policies. By reference specifically to the ICMA Principles, this Project meets the standards for Use of Proceeds, Management of Proceeds and Reporting, by virtue of the fact that this is a single project, where proceeds are monitored by a bond trustee. Environmental benefits of the Project, based on both comparison to other methods of disposing of waste rice straw, and the conventional manufacturing process for medium density fiberboard using wood feedstock, can be summarized as follows:

- 1. Water use reduction of approximately 59,600 acre-feet (19.4 million gallons) per year.
- 2. Reduction of methane emissions of approximately 24,800 to 62,100 tons per year, which is a CO2 equivalent reduction of 521,000 to 1.3 million tons per year.
- 3. Reduction in the use of fungicides and other chemicals in the fields, with benefits to water quality and farm worker health and safety.
- 4. Offset of use of wood as a feedstock, which can be put to other, better uses, equivalent to approximately 4,200 acres of forest harvest per year.
- 5. Reduction of emission of volatile organic compounds from the plant due to use of rice straw in place of wood in the process, with corresponding ability to reduce the need for air pollution control equipment in the plant.
- 6. Reduction of heat and electricity usage in the plant compared to use of wood feedstock.
- 7. Reduced air pollutant emissions from transportation of feedstock to the plant, compared to wood, as all the plant's needs will be met within a 25-mile radius.
- 8. Improved indoor air quality at the homes and buildings using the CalPlant I product, compared to conventional wood-based MDF, by the use of a formaldehyde-free resin in the CalPlant I process.
