REPORT LAYOUT

The Annual Comprehensive Financial Report is presented in three sections: Introductory, Financial, and Statistical. The Introductory Section includes the controller's transmittal letter and the state's organization chart. The Financial Section includes the auditor's opinion, management's discussion and analysis, the basic financial statements, and the combining statements and schedules. The Statistical Section includes fiscal, economic, and demographic information about the state.

INTERNET ACCESS

The Annual Comprehensive Financial Report and other financial reports are available on the State Controller's home page at:

Annual Comprehensive Financial Report

For the Fiscal Year Ended June 30, 2022

COLORADO

Office of the State Controller

Department of Personnel & Administration

COLORADO

Office of the State Controller

Department of Personnel & Administration
1525 Sherman St., 5th Floor
Denver, CO 80203

December 20, 2022

To the Citizens, Governor, and Legislators of the State of Colorado:

I am pleased to submit the State of Colorado’s Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2022. The State Controller is responsible for the contents of the ACFR and is committed to sound financial management and governmental accountability.

We believe the Basic Financial Statements contained in the ACFR are fairly presented in all material aspects. They are presented in a manner designed to set forth the financial position, results of operations, and changes in net position or fund balances of the major funds and nonmajor funds in the aggregate. All required disclosures have been presented to assist readers in understanding the State’s financial affairs.

Management has established a comprehensive framework of internal controls, which are designed to provide reasonable, but not absolute, assurance regarding the reliability of financial reporting. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from that control.

Except as noted below, the ACFR is prepared in conformity with generally accepted accounting principles (GAAP) applicable to governments as prescribed by the Governmental Accounting Standards Board (GASB). The schedules comparing budgeted to actual activity, included in the sections titled Required Supplementary Information and Supplementary Information, are not presented in accordance with GAAP. Rather, they reflect the budgetary basis of accounting which defers certain payroll, Medicaid, and other statutorily defined expenditures to the following fiscal year; for additional information, see the Cash Basis Accounting description in the Management’s Discussion and Analysis (MD&A).

The MD&A contains financial analysis and additional information that is required by GASB and should be read in conjunction with this transmittal letter. In addition to the Basic Financial Statements, the ACFR includes: combining financial statements that present information by fund, certain narrative information that describes the individual fund, supporting schedules, Taxpayer Bill of Rights (TABOR) Schedules and notes, and statistical tables that present financial, economic, and demographic data about the State.

The State Auditor performed an independent audit of the Basic Financial Statements contained in the ACFR and has issued an unmodified opinion. The State Auditor also applied limited audit procedures to the Required Supplementary Information (including the MD&A), but does not issue an opinion on such information. For more information regarding the audit and its results, see the Independent Auditor’s Report.

PROFILE OF THE STATE GOVERNMENT

The government of the State of Colorado serves an estimated 5,857,500 Coloradans. The services provided are categorized by function of government on the government-wide *Statement of Activities*. The largest of these are social assistance, unemployment insurance, higher education, and education.

Structure of the State Government

The State maintains a separation of powers by utilizing three branches of government: executive, legislative, and judicial. The executive branch comprises four major elected officials - Governor, State Treasurer, Attorney General, and Secretary of State. Most departments of the State report directly to the Governor; however, the Departments of Treasury, Law, and State report to their respective elected officials and the Department of Education reports to the elected State Board of Education.

The Legislature is bicameral and comprises thirty-five senators and sixty-five representatives. The Legislature's otherwise plenary power is checked by the requirement for the Governor to sign its legislation and by specific limitations placed in the State Constitution by voters. The most significant fiscal limitation is the restriction related to issuing debt, raising taxes, and changing existing spending limits. From a fiscal perspective, the Joint Budget Committee of the Legislature, because of its preparation of the annual budget and supplemental appropriations bills, heavily influences the financial decision making of the Legislature. The Committee is bipartisan with members drawn from each of the houses of the Legislature.

The Judicial Branch is responsible for resolving disputes within the State, including those between the executive and legislative branches of government, and for supervising offenders on probation. The Branch includes the Supreme Court, Court of Appeals, district courts, and county courts, served by more than 300 justices and judges in 22 judicial districts across the State. There are also seven water courts, one in each of the State's major river basins.

Component Units

The Basic Financial Statements include financial information for component units, which are entities that are legally separate from the State but included in the ACFR as prescribed by GAAP. The financial information for these component units is discretely presented, blended within the Higher Education Fund, or presented in the fiduciary fund statements. Below is a list of the entities reported in the Basic Financial Statements as component units:

- Discretely Presented Component Units:
 - Colorado Water Resources and Power Development Authority
 - University of Colorado Foundation
 - Other Component Units (nonmajor):
 - Denver Metropolitan Major League Baseball Stadium District
 - Statewide Internet Portal Authority
- Blended Component Units:
 - University Physicians Inc., d/b/a CU Medicine
 - University of Colorado Property Construction, Inc.
- Fiduciary Component Units:
 - University of Colorado Health and Welfare Trust
 - State Board for Community Colleges and Occupational Education Employee Benefit Trust Fund

There were other entities evaluated for inclusion as component units, but did not meet the criteria established by GASB. Many of these are discussed under Related Organizations in Note 18.

Budgetary Process and Budgetary Control

The State's budget consists of appropriated and non-appropriated General-funded, Federally-funded, and Cash-funded amounts. The appropriated portion of the budget is determined annually by the General Assembly, which

creates the annual Long Appropriation Act as well as other special and supplemental bills. In its appropriation bills, the General Assembly sets the legal level of budgetary control for appropriated amounts by department, line item, and funding source. The non-appropriated portion includes certain cash funds, for which existing state statutes prescribe the amounts authorized for spending, and most federal funds, for which a federal award document or other agreement establishes the amount authorized for spending. The budget is entered into the State’s accounting system, which tracks amounts spent and obligated, to ensure the budget is executed as authorized.

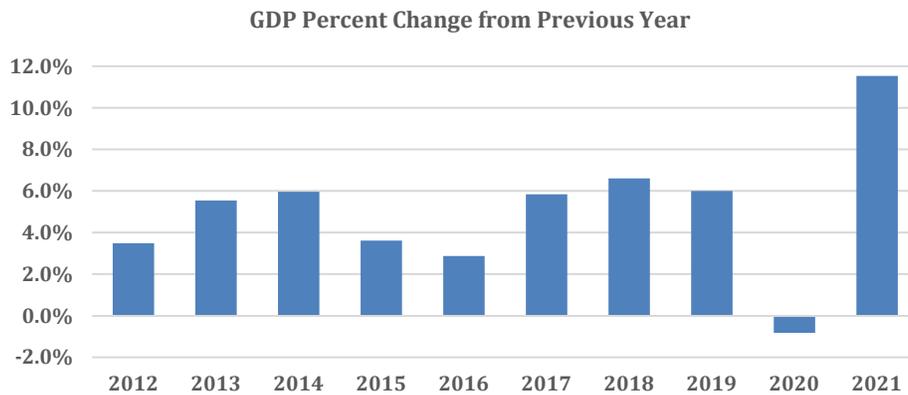

For the most part, operating appropriations lapse at the end of the fiscal year unless the State Controller approves, at a line item level, an appropriation roll-forward based on express legislative direction or extenuating circumstances. The State Controller may also, at a line item level and with the approval of the Governor, allow expenditures in excess of the appropriated budget. Capital construction appropriations are normally effective for three years and do not require State Controller roll-forward approval.

ECONOMIC CONDITION AND OUTLOOK

The State’s Economy

The State’s General Fund general-purpose revenues reflect the overall condition of the State economy, which showed a small decline in Fiscal Year 2022; General Fund revenues decreased by \$69 million (0.5 percent) from the prior year. Historically, Colorado economic activity and in-migration have been interdependent. Net migration has averaged approximately 34,400 from 2017 to 2021. Net migration has decreased over this period from approximately 42,400 (2017) to 15,100 (2021) and is projected to be 30,000 and 35,000 for 2022 and 2023, respectively.

The chart below shows the percent change from the previous year of Colorado’s gross domestic product (GDP) for the years 2012 to 2021. According to the Bureau of Economic Analysis (BEA), the GDP consistently increased from 2012 to 2021 with a single year of decrease in 2020. Colorado’s 2021 GDP of \$436,259.5 million is an 11.5 percent increase from 2020 and a 63.1 percent increase from 2011.

Colorado has a diverse economy, comprising many industries. The table below shows GDP in current dollars and percent of total GDP by industry for the years 2011 and 2021. Over this ten-year period, the industry profile of the State’s GDP has been stable, with growth across most industries.

Industry	2011		2021	
	2011 GDP (millions)	Percent of Total	2021 GDP (millions)	Percent of Total
Finance, Insurance, Real Estate, Rental, and Leasing	\$ 54,348.4	20.4 %	\$ 89,886.2	20.5 %
Professional and Business Services	37,770.7	14.1	67,659.4	15.5
Government and Government Enterprises	34,199.2	12.8	52,156.1	12.0
Educational Services, Health Care, and Social Assistance	19,097.6	7.1	30,391.5	7.0
Manufacturing	20,635.3	7.7	28,883.2	6.6
Information	18,858.4	7.0	27,315.0	6.3
Wholesale Trade	14,704.0	5.5	25,703.2	5.9
Retail Trade	14,143.4	5.3	24,884.8	5.7
Construction	9,500.2	3.6	24,527.9	5.6
Arts, Entertainment, Recreation, Accommodation, and Food Services	11,349.6	4.2	20,812.9	4.8
Mining, Quarrying, and Oil and Gas Extraction	13,364.3	5.0	13,475.9	3.1
Transportation and Warehousing	6,869.7	2.6	12,650.3	2.9
Other Services (Except Government and Government Enterprises)	5,917.4	2.2	9,651.7	2.2
Utilities	3,989.2	1.5	5,565.5	1.3
Agriculture, Forestry, Fishing and Hunting	2,768.7	1.0	2,795.9	0.6
All Industry Total	<u>\$ 267,516.1</u>		<u>\$ 436,359.5</u>	

The Governor’s Office of State Planning and Budgeting (OSPB) described Colorado’s economic outlook in the September 2022 *Colorado Economic and Fiscal Outlook*:

“Colorado’s job growth is expected to remain strong in 2022, exceeding 2021 growth. Job growth slows in the outyears but continues to outpace the nation, because the local economy has a higher concentration of service sectors that are expected to fare better over the forecast period. The primary Colorado inflation rate is expected to face additional upward pressure from shelter and service prices relative to the nation as a whole. Real retail sales growth remains positive in 2022 at a pace slightly higher than the U.S., but then similar to the country as a whole, turns negative in 2023 in the face of rising inflation.”

The OSPB has made the following calendar year forecasts for Colorado’s major economic variables:

- Unemployment will average 3.5 percent for 2022 compared with 5.4 and 6.9 percent in 2021 and 2020, respectively, and is expected to increase to 3.9 percent in 2023.
- Wages and salary income will increase by 10.4 percent in 2022, followed by increases of 4.1 percent in 2023 and 2024.
- Total personal income will increase by 3.6 percent in 2022 and will increase by 3.6 percent and 4.3 percent in 2023 and 2024, respectively.
- Inflation, measured by the Denver-Aurora-Lakewood Consumer Price Index, will be 8.3 percent in 2022 and 4.5 percent in 2023.

Long-Term Financial Planning, Relevant Financial Policies, and Major Initiatives

Section 24-75-201.1, C.R.S., establishes the State’s General Fund reserve requirement. The purpose of this limit on General Fund appropriations is to maintain sufficient available budgetary fund balance. The reserve is 13.4 percent of the amount appropriated for expenditure from the General Fund for Fiscal Year 2022 and 15.0 percent for fiscal years thereafter.

Section 24-51-414, C.R.S., addresses underfunded obligations of the Public Employees’ Retirement Association (PERA), which provides benefits to state and local government retirees. Per this Section, the State makes a direct distribution of \$225 million each fiscal year until there are no unfunded pension liabilities in any of PERA’s divisions.

Section 24-30-1310, C.R.S., provides an on-going funding mechanism for capital construction, controlled maintenance, and capital renewal. Over the depreciable life of capital assets that are acquired, constructed, or maintained, an amount equivalent to depreciation is annually transferred to a capital reserve account, the capital construction fund, or the controlled maintenance fund to be utilized for future capital expenditures.

The State has received about \$4.6 billion for programs in the American Rescue Plan. These include the State and Local Fiscal Recovery Fund (\$3.8 billion), Emergency Rental Assistance 1 and 2 (\$453 million), Homeowners Assistance Fund (\$175 million), and the Capital Projects Fund (\$163 million). In the 2021 and 2022 legislative sessions, the General Assembly appropriated almost all of the State and Local Fiscal Recovery Fund amount and the departments are in the process of obligating and spending these funds.

AWARDS AND ACKNOWLEDGEMENTS

The Certificate of Achievement for Excellence in Financial Reporting is an award given by the Government Finance Officers Association of the United States and Canada (GFOA). In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. The ACFR must satisfy both generally accepted accounting principles and applicable legal requirements and is valid for a period of one year only. The GFOA is still evaluating the State of Colorado's ACFR for the Fiscal Year ended June 30, 2021 for the award.

We believe that our current ACFR meets the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In conclusion, I thank my staff and the controllers, accountants, auditors, and program managers in the State departments and branches whose time and dedication have made this report possible. I reaffirm our commitment to maintaining the highest standards of accountability in financial reporting.

Sincerely,

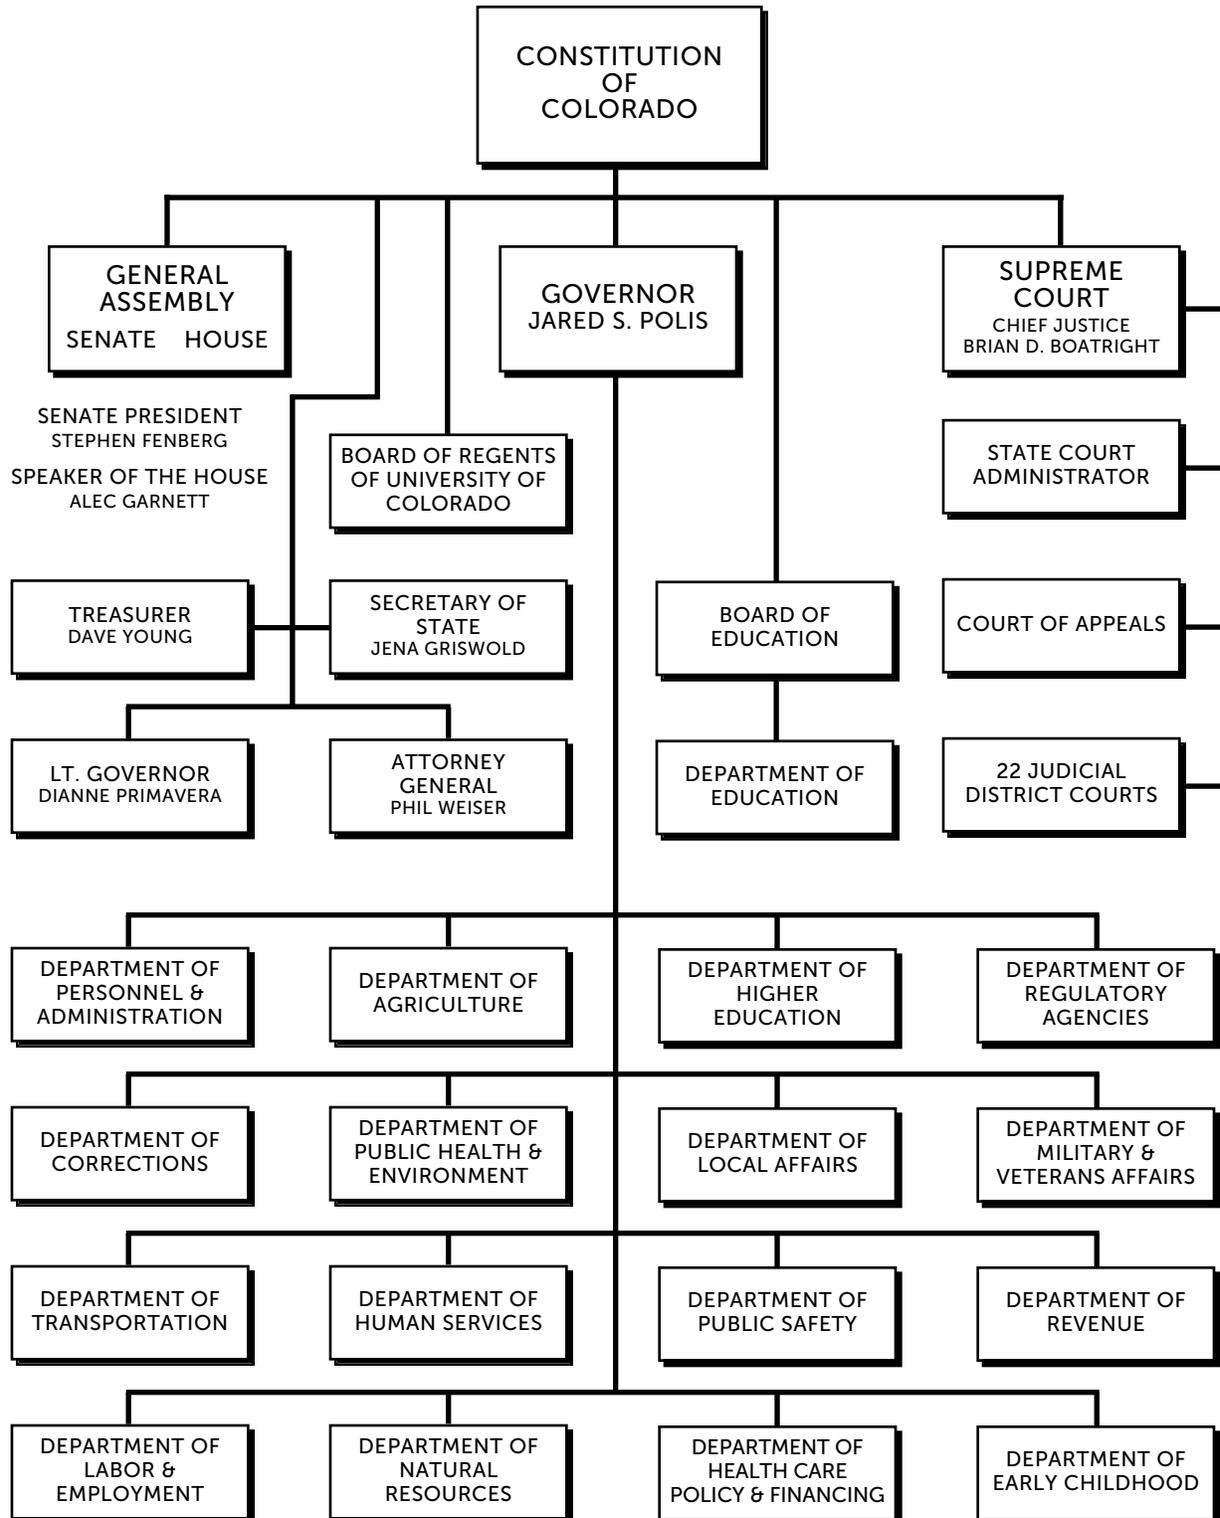

A handwritten signature in black ink that reads "Robert Jaros". The signature is written in a cursive, flowing style.

Annual Comprehensive Financial Report

For the Fiscal Year Ended June 30, 2022

COLORADO

Office of the State Controller

Department of Personnel & Administration

OFFICE OF THE STATE AUDITOR
KERRI L. HUNTER, CPA, CFE • STATE AUDITOR

Independent Auditor's Report

Members of the Legislative Audit Committee:

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Colorado (State), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents. We have also audited the State's budgetary comparison schedule—general fund component (schedule) and the related note for the fiscal year ended June 30, 2022, as displayed in the State's required supplementary information section.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information, as well as the budgetary comparison schedule—general fund component of the State of Colorado, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the discretely presented component units identified in Note 1; or the University Physicians Inc., DBA CU Medicine (CU Medicine); Altitude West, LLC; and University License Equity Holding Inc.; blended component units, which represent the following:

Percentage of Financial Statements Audited By Other Auditors			
Opinion Unit/Department	Assets and Deferred Outflows of Resources	Net Position	Revenues, Additions, and Other Financing Sources
Aggregate Discretely Presented Component Units	100%	100%	100%
Fund Statements—Proprietary Funds			
Higher Education Institutions—Major Fund			
CU Medicine; Altitude West, LLC; and University License Equity Holding Inc.	7%	17%	16%
Government-wide statements			
Business-type activities			
CU Medicine; Altitude West, LLC; and University License Equity Holding Inc.	5%	12%	8%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts and disclosures included for those discretely presented component units and for CU Medicine, Altitude West, LLC and University License Equity Holding Inc., are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the State of Colorado, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of the University of Colorado Foundation, the Statewide Internet Portal Authority, and the Denver Metropolitan Major League Baseball Stadium District, which are discretely presented component units; Altitude West LLC, a blended component unit; and the University of Colorado Health and Welfare Trust, a fiduciary component unit; were audited in accordance with auditing standards generally accepted in the United States, but were not audited in accordance with *Government Auditing Standards*.

Emphasis of Matter

New Accounting Standards

As discussed in Note 1 to the financial statements, the State has adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 87, *Leases*, for the year ended June 30, 2022. Accordingly, a restatement has been made to governmental, business-type, and fiduciary net position as of July 1, 2021, to restate beginning net position. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

The State's management is responsible for the preparation and fair presentation of these financial statements and schedule in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements and schedule that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the State's management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the State's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements and schedule as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements and schedule, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and schedule.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements and schedule.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the State's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the following be presented to supplement the basic financial statements:

Location of Required Supplementary Information	
Required Supplementary Information	Pages
Management's discussion and analysis	27-42
Budgetary comparison schedules	170-175
Notes to required supplementary information	176-190
Budgetary comparison schedule-general fund component	192-193

Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis, budgetary comparison schedules, and notes to required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on this information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The combining nonmajor fund financial statements and schedule of TABOR revenue and computations are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, based on our audit and the report of the other auditors, the combining nonmajor fund financial statements and schedule of TABOR revenue and computations are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, budget and actual schedules-budgetary basis non-appropriated, and statistical section, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we will issue a separate report dated December 20, 2022, on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance and should be read in conjunction with this report in considering the results of the audit.

Denver, Colorado

MANAGEMENT'S DISCUSSION AND ANALYSIS

INTRODUCTION

The following discussion and analysis is supplementary information required by the Governmental Accounting Standards Board (GASB), and is intended to provide an easily readable explanation of the information provided in the attached basic financial statements. It is by necessity highly summarized, and in order to gain a thorough understanding of the State's financial condition, the attached financial statements and notes should be reviewed in their entirety.

OVERVIEW OF THE FINANCIAL STATEMENT PRESENTATION

There are three major parts to the basic financial statements – government-wide statements, fund-level statements, and notes to the financial statements. Certain required supplementary information (in addition to this MD&A), including budget-to-actual comparisons and funding progress for other post-employment benefits, is presented following the basic financial statements. Supplementary information, including combining fund statements and schedules, follows the required supplementary information.

Government-wide Financial Statements

The government-wide statements focus on the government as a whole. These statements are similar to those reported by businesses in the private sector, but they are not consolidated financial statements because certain intra-entity transactions have not been eliminated. Using the economic resources perspective and the accrual basis of accounting, these statements include all assets, liabilities, deferred inflows, and deferred outflows on the *Statement of Net Position* and all expenses and revenues on the *Statement of Activities*. These statements can be viewed as an aggregation of the governmental and proprietary fund-level statements along with certain perspective and accounting-basis adjustments discussed below. Fiduciary activities are excluded from the government-wide statements because those resources are not available to support the State's programs.

The *Statement of Net Position* shows the financial position of the State at the end of the Fiscal Year. Net position measures the difference between assets and deferred outflows and liabilities and deferred inflows. Restrictions reported in net position indicate that certain assets, net of the related liabilities, can only be used for specified purposes. Increases in total net position from year to year indicate the State is better off financially, while decreases in total net position may or may not indicate the opposite.

The *Statement of Activities* shows how the financial position has changed since the beginning of the Fiscal Year. The most significant financial measure of the government's current activities is presented in the line item titled "Change in Net Position" at the bottom of the *Statement of Activities*. The statement is presented in a net program cost format, which shows the cost of programs to the government by offsetting revenues earned by the programs against expenses of the programs. Due to the large number of programs operated by the State, individual programs are aggregated into functional areas of government.

On the *Statement of Net Position*, columns are used to segregate the primary government, including governmental activities and business-type activities, from the discretely presented component units. On the *Statement of Activities*, both columns and rows are used for this segregation. The following bullets describe the segregation.

- Governmental activities are the normal operations of the primary government that are not presented as business-type activities. Governmental activities include Internal Service Funds and are primarily funded through taxes, intergovernmental revenues, and other nonexchange revenues.
- Business-type activities are primarily funded by charges to external parties for goods and services. These activities are generally reported in Enterprise Funds in the fund-level statements because the activity has revenue-backed debt or because legal requirements or management decisions mandate full cost recovery.
- Discretely presented component units are legally separate entities for which the State is financially accountable. More information on the discretely presented component units can be found in Note 1.

Fund-Level Financial Statements

The fund-level statements present additional detail about the State's financial position and activities. However, some fund-level statements present information that is different from the government-wide statements due to the differing basis of accounting used in fund statements compared to the government-wide statements. Funds are balanced sets of accounts tracking activities that are legally defined or are prescribed by generally accepted accounting principles. Funds are reported on the fund-level statements as major or nonmajor based on criteria set by the Governmental Accounting Standards Board (GASB). There are three types of funds operated by the State: governmental, proprietary, and fiduciary. In the fund statements, each fund type has a pair of statements that show financial position and activities of the fund; a statement showing cash flows is also presented for the proprietary fund type.

- Governmental Funds – A large number of the State's individual funds and activities fall in this fund type; however, only some are reported as major – the remaining funds are aggregated into the nonmajor column with additional fund detail presented in the Supplementary section of this report. Governmental Funds are presented using the current financial resources perspective, which is essentially a short-term view that excludes capital assets, debt, and other long-term liabilities. The modified accrual basis of accounting is used. Under modified accrual, certain revenues are deferred because they will not be collected within the next year, and certain expenditures are not recognized, even though they apply to the current period, because they will not be paid until later fiscal periods. This presentation focuses on when cash will be received or disbursed, and it is best suited to showing amounts available for appropriation. The governmental fund type includes the General Fund, Special Revenue Funds, Debt Service Fund, Capital Projects Fund, and Permanent Funds.
- Proprietary Funds – Proprietary fund type accounting is similar to that used by businesses in the private sector. It is used for the State's Enterprise Funds and Internal Service Funds. Enterprise Funds generally sell to external customers while Internal Service Funds generally charge other State agencies for goods or services. These funds are presented under the economic resources measurement focus, which reports all assets and liabilities. Accrual accounting is used, which results in revenues recognized when they are earned and expenses reported when the related liability is incurred. Because this is the same perspective and basis of accounting used on the government-wide statements, Enterprise Fund information flows directly to the business-type activities column on the government-wide statements without adjustment. Internal Service Fund assets and liabilities are reported in the governmental activities on the government-wide *Statement of Net Position* because Internal Service Funds primarily serve governmental funds. The net revenue or net expense of Internal Service Funds is reported as an increase or reduction to program expenses on the government-wide *Statement of Activities*. On the fund-level statements, nonmajor Enterprise Funds are aggregated in a single column, as are all Internal Service Funds.
- Fiduciary Funds – These funds report resources held under trust agreements for other individuals, organizations, or governments. The assets reported are not available to finance the State's programs, and therefore, these funds are not included in the government-wide statements. The State's fiduciary funds include Pension and Other Employee Benefits Trust Funds, several Private-Purpose Trust Funds, and several Custodial Funds. Custodial Funds track only assets and liabilities and do not report revenues and expenses on a statement of operations. All Fiduciary Funds are reported using the accrual basis of accounting.

The State has elected to present combining financial statements for its component units. In the report, the component unit financial statements follow the fund-level financial statements discussed above.

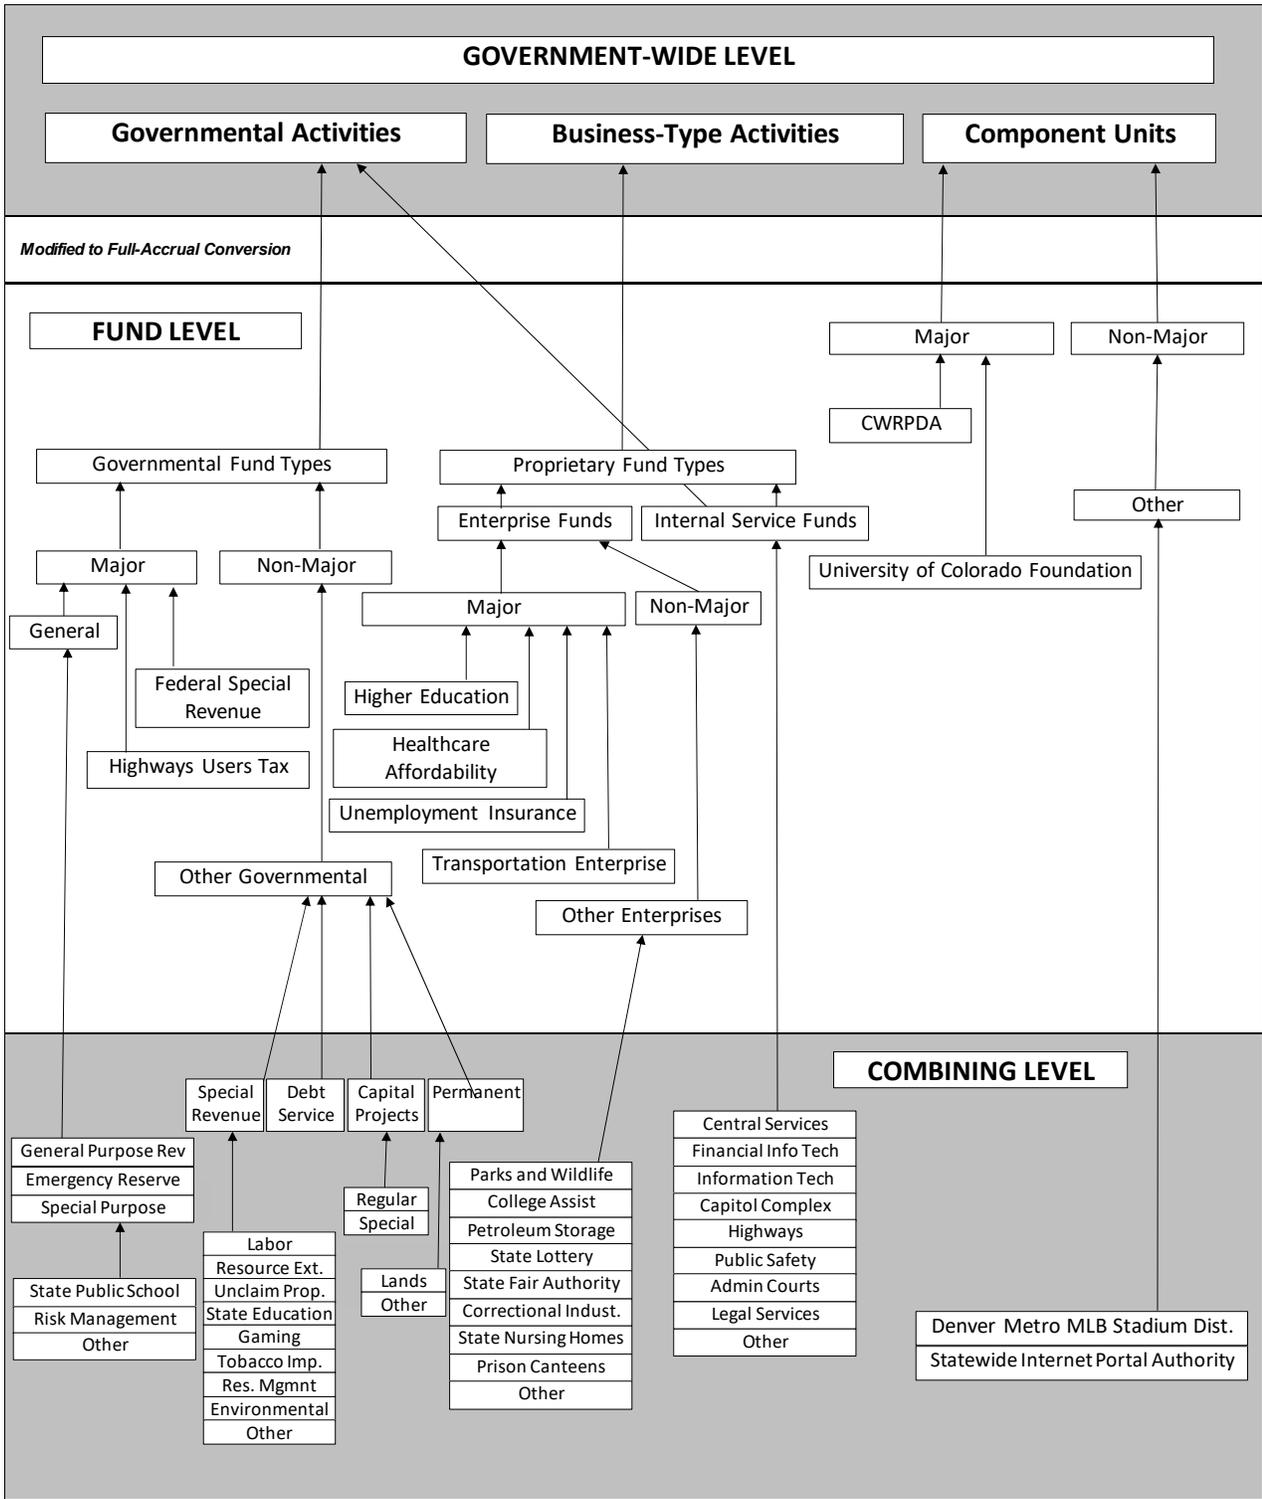

Notes to Basic Financial Statements

The notes to the financial statements are an integral part of the basic financial statements. They explain amounts shown in the financial statements and provide additional information that is essential to fair presentation.

Required Supplementary Information (RSI)

Generally accepted accounting principles require certain supplementary information to be presented in this Management's Discussion and Analysis and following the notes to the financial statements. Required supplementary information differs from the basic financial statements in that the auditor applies certain limited procedures in reviewing the information. In this report, RSI includes budgetary comparison schedules, defined benefit pension plan schedules, and a schedule of funding progress for other post-employment benefits.

The chart on the following page is a graphic representation of how the State's funds are organized in this report. Fiduciary Funds are not shown in the chart because those resources are not available to support the State's programs.

OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS

Government-wide Statement of Net Position

The amount of total net position is one measure of the health of the State's finances, and serves as a useful indicator of a government's financial position over time. However, this measure must be used with care because large portions of the balances related to capital assets or restricted assets may be unavailable to meet the day-to-day payments of the State. The State's combined total net position of both governmental and business-type activities increased 15.6 percent from the prior fiscal year by \$2,996.5 million from \$19,203.0 million in Fiscal Year 2021, to \$22,199.5 million in Fiscal Year 2022. The following table was derived from the current and prior year government-wide *Statement of Net Position*.

(Amounts in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	FY 2022	FY 2021	FY 2022	FY 2021	FY 2022	FY 2021
Noncapital Assets	\$ 25,035,287	\$ 21,370,185	\$ 10,166,811	\$ 11,221,670	\$ 35,202,098	\$ 32,591,855
Capital Assets	13,676,105	13,069,596	12,336,622	11,237,496	26,012,727	24,307,092
Total Assets	38,711,392	34,439,781	22,503,433	22,459,166	61,214,825	56,898,947
Deferred Outflow of Resources	2,379,265	1,654,895	871,551	909,377	3,250,816	2,564,272
Current Liabilities	11,611,394	8,577,270	3,599,378	6,042,231	15,210,772	14,619,501
Noncurrent Liabilities	11,406,078	10,634,717	10,486,665	10,214,212	21,892,743	20,848,929
Total Liabilities	23,017,472	19,211,987	14,086,043	16,256,443	37,103,515	35,468,430
Deferred Inflow of Resources	3,689,509	3,531,733	1,473,096	1,260,085	5,162,605	4,791,818
Net Investment in Capital Assets	8,901,296	9,172,398	6,151,070	5,973,861	15,052,366	15,146,259
Restricted	4,669,335	4,095,294	1,095,670	1,025,132	5,765,005	5,120,426
Unrestricted	813,045	83,264	569,105	(1,146,978)	1,382,150	(1,063,714)
Total Net Position	\$ 14,383,676	\$ 13,350,956	\$ 7,815,845	\$ 5,852,015	\$ 22,199,521	\$ 19,202,971

The State's net investment in capital assets of \$15,052.4 million for the total primary government (governmental and business-type activities combined), represents a decrease of \$0.1 million (0.6 percent) compared to the prior fiscal year. Net investment in capital assets is a noncurrent asset, and therefore not available to meet related debt service requirements that must be paid from current revenues or available liquid assets.

Assets restricted by the State Constitution or external parties reduced by their related liabilities account for another \$5,765.0 million of total primary government net position. Restricted assets increased by \$644.6 million relative to the prior fiscal year. In general, these restrictions dictate how the related assets must be used by the State, and therefore, may not be available for use by any of the State's programs. Examples of restrictions on the use of net position include the constitutionally-mandated TABOR reserve, State Education Fund, Highway Users Tax Fund, and resources pledged to debt service.

The unrestricted component of net position for the total primary government is \$1,382.2 million for the fiscal year ended June 30, 2022, which represents an increase of \$2,445.9 million from the prior fiscal year. The increase is primarily due to increases in unrestricted cash and pooled cash of \$3,159.0 million, and a decrease of the net pension liability during the fiscal year of \$833.9 million related to the State and Judicial Division Trust Funds, administered by the Public Employees Retirement Association (PERA). These increases were offset by an increases in Notes, Bonds, and Certificates of Participation payable of \$1,486.9 million and \$307.3 million for Other Postemployment Benefits, respectively, from the prior fiscal year. The State's current liabilities reported on the Statement of Net Position increased by \$591.3 million over the prior fiscal year, and noncurrent liabilities increased by \$1,043.8 million from the prior fiscal year. Certain noncurrent liabilities, such as bonds and certificates of participation payable, have related capital assets while the net pension liability factors in trust plan assets managed by PERA.

Governmental Activities:

Overall, total assets and deferred outflows of resources of the State's governmental activities exceeded total liabilities and deferred inflows of resources by \$14,383.7 million, an increase in net position of \$1,032.7 million as compared to the prior fiscal year amount of \$13,351.0 million. Total cash (restricted and unrestricted) balances increased by \$3,197.4 million, and Taxes Receivable, net of refunds payable and Other Receivables, net, decreased by \$42.2 million, due to the increase in tax collections during the fiscal year. Total investments (restricted and unrestricted) decreased by \$245.2 million due to market value decreases. Capital assets, net of accumulated depreciation, increased by \$606.5 million due to various capital projects throughout the State.

Governmental activities' liabilities for notes, bonds, and Certificates of Participation at June 30, 2022 were \$4,754.4 million as compared to the prior fiscal year amount of \$3,992.2 million – an increase of \$762.2 million, primarily related to issuances of certificates of participation. These liabilities represent 29.2 percent of unrestricted financial assets (cash, receivables, and investments), and 12.3 percent of total assets of governmental activities. The governmental activities debt is primarily related to infrastructure, state buildings, and public school buildings. The infrastructure debt is secured by future federal revenues and state highway revenues, state building debt by gaming distributions and judicial fees, and public school buildings debt by School Trust Land revenues.

Governmental activities had a decrease of \$271.1 million in net investment in capital assets attributable primarily to the \$500.0 million issuance of State of Colorado Rural Colorado Certificates of Participation, Series 2022, and \$150.4 million in Building Excellent Schools Today Series 2021S refunding Certificates of Participation. Restricted net position for governmental activities increased by \$574.0 million, and unrestricted net position increased \$729.9 million from the prior year primarily due to the decrease in net pension liability and the increase in federal funding from Coronavirus State and Local Fiscal Recovery Funds. The change from deficit unrestricted net position in Fiscal Year 2020 to a positive net position in Fiscal Years 2021 and 2022 is primarily a result of a large influx of federal grants related to the COVID-19 pandemic. The unrestricted net position for governmental activities is expected to return to a deficit in the near term absent additional federal COVID-19 or economic recovery funding. The reason for deficit unrestricted net position in prior years was the initial recognition of the net pension liability in Fiscal Year 2015, and the recognition of the net OPEB liability in Fiscal Year 2018. The pension liability is expected to decrease over time due to additional funding measures put in place by Senate Bill 18-200.

Business-Type Activities:

Overall, total assets and deferred outflows of resources of the State's business-type activities exceeded total liabilities and deferred inflows of resources by \$7,815.8 million – an increase in net position of \$1,963.8 million as compared to the prior year amount of \$5,852.0 million. The increase is primarily attributed to decreases in current liabilities of approximately \$2,442.9 million, due to an accrual of approximately \$2,598.5 million for Unemployment Insurance benefit payments in Fiscal Year 2021 that was reversed in Fiscal Year 2022 as claims were paid and accurate data from the MyUI+ system was received.

The State's Enterprise Funds have notes, bonds, and Certificates of Participation outstanding that total \$5,911.8 million, as compared to the prior fiscal year amount of \$5,187.0 million – an increase of \$724.8 million. The majority of the outstanding revenue bonds is related to Higher Education Institutions and is invested in capital assets that generate a future revenue stream to service the related debt. The Division of Unemployment Insurance also has bonds outstanding secured by future employer insurance premiums.

Of the total net position for business-type activities, \$6,151.1 million was for investment in capital assets, \$1,095.7 million is restricted for the purposes of various funds, and unrestricted net position of approximately \$569.1 million.

The change from deficit unrestricted net position in Fiscal Year 2020 to a positive net position in Fiscal Years 2021 and 2022 is primarily a result of a large influx of federal grants from Coronavirus State and Local Fiscal Recovery Funds, in addition to a reduction in the net pension liability. The unrestricted net position for business-type activities is expected to return to a deficit in the near term absent additional federal COVID-19 or economic

recovery funding. The reason for deficit unrestricted net position in prior years was the initial recognition of the net pension liability in Fiscal Year 2015, and the recognition of the net OPEB liability in Fiscal Year 2018. The pension liability is expected to decrease over time due to additional funding measures put in place by Senate Bill 18-200. Business-type activities reported a \$177.2 million increase in net investment in capital assets, and restricted net position for business-type activities reported a slight increase of \$70.5 million from the prior fiscal year.

Government-wide Statement of Activities

The following table was derived from the current and prior year government-wide *Statement of Activities*.

(Amounts in Thousands)

Programs/Functions	Governmental Activities		Business-Type Activities		Total Primary Government

Accounting Changes	221	19,862	(10,430)	605	(10,209)	20,467
Net Position - Ending	\$ 14,383,676	\$ 13,350,956	\$ 7,815,845	\$ 5,852,015	\$ 22,199,521	\$ 19,202,971

For governmental activities, total revenues and permanent fund additions exceeded total expenses and transfers-out, which resulted in an increase to net position of \$1,023.5 million. Program revenues for governmental activities increased by \$782.7 million (6.1 percent), and General revenues for governmental activities increased by \$633.5 million (4.0 percent). Total expenses for governmental activities increased by \$4,726.8 million (19.5 percent) from the prior fiscal year, due to increases in education; health and rehabilitation; justice; and social assistance activities. These increases were slightly offset by a spending decreases in general government activities.

Business-type activities' total revenues, transfers-in, and permanent fund additions exceeded total expenses by \$996.2 million, resulting in an increase in net position. From the prior year to the current year, program revenue from business-type activities decreased by \$5,560.8 million (25.0 percent), while expenses also decreased by \$5,922.1 million (26.9 percent) due to significant decreases in unemployment insurance activities.

FUND-LEVEL FINANCIAL ANALYSIS

Governmental Funds:

Governmental fund assets exceeded liabilities resulting in total fund balance of \$13,459.4 million as compared to the prior fiscal year amount of \$12,745.5 million. The fund balance for all governmental funds increased from the prior fiscal year by \$713.9 million, which is comprised mainly of increases in Other Governmental Funds of \$1,235.1, offset by fund balance decreases for the General Fund, Federal Special Revenue Funds, and the Highways Users Tax funds of \$343.4 million, \$133.6 million, and \$44.1 million, respectively. Overall, the increase in fund balance for all governmental funds in total was primarily attributable to increases in sales and use taxes and federal grants and contracts during Fiscal Year 2022.

General Fund

The ending total fund balance of the General Fund was \$4,202.3 million, which was a decrease of \$343.4 from the prior year amount of \$4,545.7 million. General Fund revenues increased overall by approximately \$1,690.9 million (7.4 percent) over the prior year, and expenditures increased overall by \$3,760.6 million (18.7 percent) relative to the prior fiscal year. Transfers-in totaled \$676.0 million while transfers-out totaled \$2,083.0 million, resulting in a net outflow to other funds of \$1,407.0 million. Individual and fiduciary income taxes of \$7,163.0 million, sales and use taxes of \$4,580.3 million, and federal grants and contracts of \$10,799.3 million are the largest sources of revenue comprising 91.8 percent of total revenue of \$24,564.0 million. Overall expenditures increased from the prior year due to moderate spending increases in education, health and rehabilitation, social assistance, and intergovernmental functions.

General Fund Components & Legal Reserve Requirement

The General Fund is the focal point in determining the State's ability to maintain or improve its financial position. The General Fund includes all funds that do not have sufficient original source revenue streams to qualify as special revenue funds. As a result, the Public School Fund, Risk Management, and Other Special Purpose Funds reside in the General Fund. These funds are referred to as Special Purpose General Funds, while the General Purpose Revenue Fund comprises general activities of the State. Revenues of the General Purpose Revenue Fund consist of two broad categories – general-purpose revenues and augmenting revenues. General-purpose revenues are taxes, fines, and other similar sources that are collected without regard to how they will be spent. Other augmenting revenues include federal grants and contracts, user fees and charges, and other specific user taxes. Other augmenting revenues are usually limited as to how they can be spent. Even though significant federal grant revenues are accounted for in the General Purpose Revenue Fund, they have little impact on fund balance because most federal revenues are earned on a reimbursement basis and are closely matched with federal expenditures.

Of the overall fund balance of the General Fund, \$2,492.4 million (59.3 percent) was attributable to the General Purpose Revenue Fund, including non-spendable, committed, and assigned amounts. The General Purpose Revenue Fund

decreased by \$469.8 million from the prior fiscal year, which was attributable to decreases in individual income taxes from the accrual of Taxpayer Bill of Rights (TABOR) refunds in Fiscal Year 2022, and increases in overall spending across most government functions in Fiscal Year 2022. The General Purpose Revenue Fund experienced a significant increase in unrestricted cash and pooled cash at the end of Fiscal Year 2022 as compared to Fiscal Year 2021 due to Coronavirus State and Local Fiscal Recovery Funds from the federal government.

State law requires that the General Purpose Revenue Fund portion of the General Fund maintain a reserve of a percentage of General Purpose Revenue Fund appropriations. Section 24-75-201.1 C.R.S. restricts state appropriations from this component of the General Fund so that budgetary resources will be available for use in a state fiscal emergency. The reserve for Fiscal Year 2022 is approximately \$1,612.2 million. The reserve amount is included in the Budgetary Comparison Schedule for the General Fund – General Purpose Revenue Component, presented as Required Supplementary Information in the Annual Comprehensive Financial Report (ACFR). Beginning and ending budgetary fund balance as show on the Schedule are net of the required reserve.

Federal Special Revenue Fund

The Federal Special Revenue Fund was a new major fund for Fiscal Year 2020, and continues to be a major fund in Fiscal Year 2022. The Federal Special Revenue Fund primarily consists of the Coronavirus Aid, Relief, and Economic Security (CARES) Act Fund, and the Coronavirus Emergency Supplemental Fund. The ending total fund balance of the Federal Special Revenue Fund was a deficit of \$122.3 million. Fund revenues totaled \$472.1 million, and fund expenditures totaled \$611.1 million, resulting in a deficit of expenditures over revenues of \$139.0 million for Fiscal Year 2022. The main sources of revenue for the fund were federal grants and contracts of \$599.6 million (offset by investment losses of \$128.7 million); the main expenditures of the fund consist of outflows related to business, community, and consumer affairs of \$309.7 million, and intergovernmental cities function of \$133.7 million.

Highway Users Tax

The Highway Users Tax Fund qualified as a new major fund for Fiscal Year 2020, and remained a major fund in Fiscal Year 2022. The ending total fund balance of the Highway Users Tax Fund was \$708.3 million, which represents an 5.9 percent decrease over the prior year fund balance of \$752.4 million. Total cash (restricted and unrestricted) decreased by 8.9 percent from \$936.7 million in the prior fiscal year to \$853.7 million in Fiscal Year 2022. Fund revenues totaled \$1,890.1 million, and expenditures totaled \$2,459.6 million, resulting in a deficit of expenditures over revenues of \$569.5 million for Fiscal Year 2022. Fund revenues increased 1.8 percent, while fund expenditures also increased 5.0 percent from the prior fiscal year. The main sources of revenue for the fund were federal grants and contracts of \$690.6 million, excise taxes of \$633.3 million, and licenses, permits, and fines of \$429.3 million. The main expenditures of the fund consisted of transportation-related projects and highway maintenance of \$1,523.3 million, and intergovernmental expenditures for cities, counties, and special districts totaling approximately \$616.1 million in Fiscal Year 2022.

Proprietary Funds:

Higher Education Institutions

The net position of the Higher Education Institutions fund increased from the prior fiscal year by \$401.4 million, or 7.5 percent, which generally resulted from decreases in the net pension liability from the prior fiscal year. The higher education fund has a variety of revenue and funding sources, which, overall, were relatively consistent with the prior fiscal year. Overall operating revenues increased by \$1,118.3 million mainly due to increases in tuition and fees and sales of goods and services. Overall, total operating revenues increased by 17.6 percent, while total operating expenses increased by 20.1 percent. Higher Education Institutions received capital contributions of \$153.8 million and \$97.8 million in Fiscal Years 2022 and 2021, respectively. Net Transfers to the Higher Education Institutions fund totaled \$524.5 million for Fiscal Year 2022, an increase of \$91.5 million compared to the prior fiscal year amount of \$432.9 million. Transfers-in are primarily from the General Fund for student financial aid and vocational training and from the Capital Projects Fund for capital construction.

Healthcare Affordability

During the Fiscal Year 2017 legislative session, the general assembly passed Senate Bill 17-267 – Sustainability of Rural Colorado – which repealed the existing hospital provider fee program effective for Fiscal Year 2018. Section 17 of the bill created the new Colorado Healthcare Affordability and Sustainability Enterprise (CHASE) within the Department of Healthcare Policy and Financing. The fund qualifies as a major enterprise fund based on the amount of revenues in the fund related to total revenues of all enterprise funds. As of June 30, 2022, net position was \$175.3 million, an increase of \$107.4 million from the prior fiscal year amount of \$67.9 million. Operating revenues of the fund totaled \$4,681.3 million, which mainly consists of federal grants and contracts of \$3,551.6 million, and fees charged to healthcare providers of \$1,129.6 million. Operating revenues increased 11.7 percent by approximately \$489.4 million from the prior year amount of \$4,191.9 million. Total operating expenses of the fund totaled \$4,550.5 million, which mainly consisted of payments to hospital providers for Medicaid services. Because CHASE is an enterprise for purposes of the Taxpayer's Bill of Rights (TABOR), its revenue does not count against the state fiscal year spending limit (Referendum C cap).

Transportation Enterprise

The Transportation Enterprise met the classification as a major fund for Fiscal Year 2022. The Transportation Enterprise consists of the High Performance Transportation Enterprise and the Statewide Bridge Enterprise at the Colorado Department of Transportation. The ending total fund balance of the Transportation Enterprise was \$1,436.5 million, which was an increase of 5.4 percent from the prior year net position of \$1,363.5 million. Enterprise revenues totaled \$155.4 million; operating expenses totaled \$44.9 million; and nonoperating expenses totaled \$37.5 million; resulting in an excess of revenues over expenses of roughly \$73.0 million for Fiscal Year 2022. The main sources of revenue for the Enterprise were sales of goods and services, and federal grants and contracts; the main expenses of the Enterprise consist of depreciation and amortization of capital assets, and outflows related to salaries and fringe benefits, and operating and travel.

Unemployment Insurance

The Unemployment Enterprise met the classification as a major fund for Fiscal Year 2022, which consists of the Employee Leasing Company Certification, Employee Misclassification Advisory Opinion, Employment and Training Technology, Unemployment Bond Repayment, Unemployment Insurance, and the Unemployment Revenue Funds. The ending total fund balance for Fiscal Year 2022 was a deficit of \$617.6 million; the deficit decreased \$1,249.1 million from the prior year deficit net position of \$1,866.7 million. Fund revenues totaled \$1,877.1 million, and expenditures totaled approximately \$2,193.4 million, resulting in an excess of expenses over revenues for Fiscal Year 2022. The main sources of revenue for the fund were federal grants and contracts, and insurance premiums; the main expenses of the fund consist of unemployment benefit payments and debt service payments.

ANALYSIS OF BUDGET VARIANCES

The following analysis is based on the Budgetary Comparison Schedule for the General Fund – General Purpose Revenue Component included in Required Supplementary Information section of the ACFR. That schedule isolates general-purpose revenues and expenditures funded from those revenues, and it is therefore the best source for identifying general-funded budget variances.

Differences Between Original and Final Budgets

The following list shows departments that had net changes in general-funded budgets greater than \$10.0 million and the reasons for the change.

- Department of Health Care Policy and Financing – the Department had a net decrease of \$311.5 million in appropriations under supplemental House Bills 22-1173 and 22-1329, for decreases in medical services premiums for Medicaid eligible individuals.
- Department of Human Services – the Department had a net decrease of \$21.7 million in appropriations due

to the reallocation of general fund personal services, operating, travel, and special items to supplement various other programs, and legislative rollforwards.

- Department of Revenue – the Department had a net increase of \$242.7 million in appropriations primarily comprised of statutory retail marijuana sales tax transfers to the Older Coloradans program, the State Public School Fund, and the Marijuana Tax Cash Fund under Sections 39 and 22 C.R.S., Senate Bill 17-267, and House Bill 20-1367.
- Department of Treasury – the Department had a net increase of \$326.1 million in appropriations for transfers applicable to several programs under multiple legislative bills.

Differences Between Final Budget and Actual Expenditures

In total, state departments reported general-funded appropriations reversions of \$17.4 million for Merit Pay and \$4.7 million for Legislative reversions. In addition, departments reverted \$351.6 million to the General Fund for expenditures under the legally adopted final budget. The final budget is presented without reduction for restrictions in order to show the total reversion of appropriated budget. The following list shows those departments that had at least \$10.0 million of General Fund reversions, and the related budget line item:

- Department of Corrections – the Department reverted \$15.8 million in unspent funds, primarily comprised of programs related to payments to local jails, in-state private prisons, and Hepatitis C treatment costs.
- Department of Human Services – the Department reverted \$23.4 million in unspent funds, primarily comprised of programs related to aid to the needy and disabled including benefits assistance, child support enforcement, family and children’s programs, contract purchases, parole services, and temporary youth mental health services.
- Judicial Department – the Department reverted \$12.1 million in unspent funds across multiple programs including court and jury costs, conflict of interest contracts, mandated costs, and court-appointed counsel.
- Department of Public Safety – the Department reverted \$13.1 million in unspent funds primarily related to community corrections placements.
- Department of Revenue – the Department reverted \$40.0 million in unspent funds primarily related to retail marijuana sales tax distributions, and the old age pension program.
- Department of Health Care Policy and Financing – the Department reverted \$47.1 million in unspent funds across multiple programs and budget lines, with the largest consisting of general professional services and special projects, third-party liability cost avoidance contracts, child welfare services, behavioral health capitation payments, and regional centers.
- Department of Treasury – the Department reverted \$162.6 million in unspent funds primarily related to the senior citizen and disabled veteran property tax exemption program.

CAPITAL ASSETS AND LONG-TERM DEBT ACTIVITY

The State's net investment in capital assets at June 30, 2022 was \$15,052.4 million, as compared to \$15,146.3 million in Fiscal Year 2021. Included in this amount were \$19,532.8 million of net depreciable capital assets after reduction of \$16,099.0 million for accumulated depreciation. Non-depreciable capital assets totaled \$6,064.2 million – including land, construction in progress, non-depreciable infrastructure and other capital assets. The State added a net \$1,291.7 million and \$889.2 million of capital assets in Fiscal Years 2022 and 2021, respectively. Of the Fiscal Year 2022 additions, \$360.1 million were recorded in governmental activities, and \$931.6 million were recorded in business-type activities. General-purpose revenues funded \$227.0 million of capital and controlled maintenance expenditures during Fiscal Year 2022, and the balance of capital asset additions was funded by federal funds, cash funds, or borrowing.

The table below provides information on the State's capital assets by asset type for both governmental and business-type activities at June 30, 2022 and 2021 (see Note 5 for additional detail):

(Amounts in Thousands)	Governmental Activities		Business-Type Activities		Total Primary Government	
	FY 2022	FY 2021	FY 2022	FY 2021	FY 2022	FY 2021
	Capital Assets Not Being Depreciated					
Land and Land Improvements	\$ 148,649	\$ 147,728	\$ 759,367	\$ 740,663	\$ 908,016	\$ 888,391
Collections	11,213	11,213	37,577	34,150	48,790	45,363

Accumulated Depreciation	(8,685,162)	(8,240,780)	(7,413,802)	(6,913,012)	(16,098,964)	(15,153,792)
Total	\$ 13,425,108	\$ 13,064,980	\$ 12,171,831	\$ 11,240,261	\$ 25,596,939	\$ 24,305,241

The State is constitutionally prohibited from issuing general obligation debt except to fund buildings for State use, to defend the State or the U.S. in time of war, or to provide for unforeseen revenue shortfalls. Except for exempt enterprises, the Taxpayer's Bill of Rights (TABOR) requires a vote of the people for the creation of any debt unless existing cash reserves are irrevocably pledged to service the debt. TABOR does allow debt issuance to refinance a borrowing at a lower interest rate. These requirements limit management's ability to address revenue shortfalls by borrowing for capital expenditures. However, the State has issued Certificates of Participation (COPs) secured by buildings and vehicles and has issued revenue bonds that are secured by pledges of future revenues. The State has other forms of borrowing that are small in relation to the revenue bonds and COPs.

The schedule that follows shows the principal and interest that will be paid over the following thirty-five year period to retire the current borrowing for notes, bonds and COPs payable (see Note 11). Revenue bonds in this schedule include net payments on interest rate swap derivatives.

(Amounts in Thousands)	Fiscal Year 2022							
	Leases (GASB 87)		Revenue Bonds		Certificates of Participation		Total	
	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
Governmental Activities	\$ 262,426	\$ 9,471	\$ -	\$ -	\$ 4,351,305	\$ 2,090,007	\$ 4,613,731	\$ 2,099,478
Business-Type Activities	\$ 159,124	\$ 14,512	\$ 4,106,045	\$ 1,867,866	\$ 97,645	\$ 11,718	\$ 4,362,814	\$ 1,894,096
Total	\$ 421,550	\$ 23,983	\$ 4,106,045	\$ 1,867,866	\$ 4,448,950	\$ 2,101,725	\$ 8,976,545	\$ 3,993,574

(Amounts in Thousands)	Fiscal Year 2021							
	Capital Leases		Revenue Bonds		Certificates of Participation		Total	
	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
Governmental Activities	\$ 117,998	\$ 9,797	\$ -	\$ -	\$ 3,899,901	\$ 1,720,489	\$ 4,017,899	\$ 1,730,286
Business-Type Activities	\$ 74,224	\$ 38,322	\$ 4,485,403	\$ 2,135,452	\$ 114,607	\$ 16,495	\$ 4,674,234	\$ 2,190,269
Total	\$ 192,222	\$ 48,119	\$ 4,485,403	\$ 2,135,452	\$ 4,014,508	\$ 1,736,984	\$ 8,692,133	\$ 3,920,555

For Fiscal Year 2022, the total principal amount of leases, revenue bonds, and COPs increased by 3.3 percent from the prior year of \$8,692.1 million to \$8,976.5 million. The Fiscal Year 2022 increase is attributable primarily to the \$500.0 million issuance of State of Colorado Rural Colorado Certificates of Participation, Series 2022, and \$150.4 million in Building Excellent Schools Today Series 2021S refunding Certificates of Participation.

CONDITIONS EXPECTED TO AFFECT FUTURE OPERATIONS

Many of the conditions affecting future operations of the State remain unchanged from the prior fiscal year. These conditions are as follows:

Colorado Economic Outlook

Colorado's job growth is expected to remain strong in Calendar Year 2022, exceeding Calendar Year 2021 growth. Job growth slows in the out-years but continues to outpace the nation, because the local economy has a higher concentration of service sectors that are expected to fare better over the forecast period. The primary Colorado inflation rate is expected to face additional upward pressure from shelter and service prices relative to the nation as a whole. Real retail sales growth remains positive in 2022 at a pace slightly higher than the U.S., but then similar to the country as a whole, turns negative in 2023 in the face of rising inflation.

Taxpayer's Bill of Rights Revenue, Debt, and Tax-Increase Limits

Fiscal Year 2022 is the twenty-ninth year of State operations under Article X, Section 20 of the State Constitution revenue limitations, also known as the Taxpayer Bill of Rights (TABOR). With certain exceptions, the rate of growth of State revenues is limited to the combination of the percentage change in the State's population and inflation based on the Denver-Boulder-Greeley CPI-Urban index. The exceptions include revenues from federal funds, gifts, property sales, refunds, damage recoveries, transfers, voter-approved revenue changes, and qualified enterprise fund revenues.

Revenues collected in excess of the limitation must be returned to the citizens unless a vote at the annual election in November allows the State to retain the surplus. TABOR also limits the General Assembly's ability to raise taxes, to borrow money, and to increase spending limits. With the exception of a declared emergency, taxes can only be raised by a vote of the people at the annual election. Multiple year borrowings can only be undertaken after approval by a similar vote.

The TABOR limits are calculated and applied at the statewide level. However, refunds to taxpayers related to TABOR have historically been paid from the General Fund. Therefore, the TABOR revenue, expenditure, debt, and tax-increase limitations have historically been significant factors in the changing fiscal status of the State's General Fund. The decision to pay TABOR refunds out of the General Fund is notable because revenues in excess of the TABOR limit that are recorded by cash funds remain in those funds (barring Legislative action) but are required to be budgeted and expended from the General Fund Exempt Account created in the General Fund.

After the Referendum C five-year excess revenue retention period that encompassed Fiscal Years 2006 through Fiscal Year 2010, the State is subject to an Excess State Revenue Cap (ESRC) starting in Fiscal Year 2011. Calculation of the TABOR retention limit continues to apply, but the ESRC replaces it as the limit that triggers taxpayer refunds.

During the 2017 legislative session, the general assembly passed Senate Bill 17-267, which revised the TABOR refunding mechanism. Section 24 of the bill specifies that for any state fiscal year commencing on or after July 1, 2017, for which revenue in excess of the reduced Referendum C cap is required to be refunded in accordance with TABOR, reimbursement for the property tax exemptions for qualifying seniors and disabled veterans that is paid by the state to local governments for the property tax year that commenced during the state fiscal year is a refund of such excess state revenue. The exemptions continue to be allowed at current levels and the state continues to

reimburse local governments for local property tax revenue lost as a result of the exemptions regardless of whether or not there are excess state revenues. Section 27 prioritizes the new TABOR refund mechanism ahead of the existing temporary state income tax rate reduction refund and sales tax refund mechanisms as the first mechanism used to refund excess state revenue.

For Fiscal Year 2022, State revenues subject to TABOR were \$19,741.3 million, which was \$3,728.4 million over the ESRC, and \$6,811.0 million over the fiscal year spending limit. Revenue in excess of the ESRC must be refunded to the taxpayers in the next fiscal year including any remaining un-refunded revenues. Therefore, the total amount to be refunded in future fiscal years is \$3,848.1 million. Absent Referendum C, the State would have been required to refund the amount exceeding the fiscal year spending limit.

Additional information on TABOR – including Tax, Spending, and Debt Limitations – is found in Notes to the Financial Statements (Note 2B), and also in the Notes to the TABOR Schedule of Required Computations presented in the Supplementary Information section of the ACFR.

Public Employees Retirement Association (PERA) Reforms – The State Legislature passed Senate Bill 18-200 during the 2018 legislative session. Senate Bill 18-200 contained a package of reforms designed to reduce the overall risk profile of the PERA retirement plan and improve its funded status. The bill makes several changes to the pension plan including:

- Increasing contribution rates from employers and employees.
- Allocates \$225.0 million annually beginning in Fiscal Year 2019 to PERA to reduce the unfunded liability for the State, Judicial, Schools, and Denver Public Schools Divisions Trust Funds. To assist with reductions in spending for Fiscal Year 2021 resulting from the economic impact of COVID-19, the state legislature eliminated the \$225.0 million direct distribution for Fiscal Year 2021. The State resumed the direct distribution in Fiscal Year 2022.
- Modifies retirement benefits, including reducing the annual increase for all current and future retirees.
- Raises the retirement age for new employees; and
- Establishes an automatic adjustment provision designed to keep PERA on a path to full funding in 30 years by 2048.

In order to recompense PERA for the cancellation of a previously scheduled July 1, 2020 direct distribution of \$225.0 million, the State Legislature also passed House Bill 22-1029. HB-22-1029 instructs the State treasurer to issue a warrant to PERA in the amount of \$380.0 million upon enactment, with reductions to future direct distributions scheduled to occur July 1, 2023, and July 1, 2024.

Election 2000 Amendment 23 – This constitutional requirement was originally designed to exempt a portion of State revenues from TABOR and dedicate those revenues to education programs. With the passage of Referendum C, revenues in excess of the TABOR limit are not being refunded. However, resources that were once general-purpose revenues continue to be diverted to the State Education Fund. The amendment requires the General Assembly to increase funding of education by one percent over inflation through Fiscal Year 2011 and by inflation thereafter. This requirement will have an increasing impact if the inflation rate increases. The revenue diversion and mandated expenditure growth infringes on general funding for other programs when State revenues decline with the business cycle. Notwithstanding these expenditure increases, the State continues to face legal challenges that assert the current school funding system fails to provide a thorough and uniform system of free public education as required by the Colorado Constitution.

Cash Basis Accounting – For Fiscal Year 2003 and following years, the Legislature changed the budgetary accounting for June payroll and certain Medicaid expenditures to the cash basis and deferred June pay-dates until July (after

Fiscal Year-end). During Fiscal Year 2008, similar treatment was extended to certain Old Age Pension, Medicare, and Children's Basic Health Plan expenditures. In Fiscal Year 2009, this treatment was applied to an additional month of Medicare payments, and legislation was passed to extend the pay-date shift beginning in Fiscal Year 2011 to all information technology staff formerly paid by the General Purpose Revenue Fund. Each of these items causes the outflow of resources to be deferred into the following year for General Fund budget purposes. As a result, the State does not use full or modified accrual accounting to calculate budgetary compliance. Instead, potentially significant liabilities are delayed until the following year assuming that subsequent revenues will be adequate to pay those liabilities. In Fiscal Year 2012, legislation was passed to eliminate the deferral of June pay dates until July for employees paid on a biweekly basis beginning in Fiscal Year 2013. It will be difficult for the State to return to the GAAP basis of accounting for budgetary expenditures because of the significant one-time budgetary impact of recording payroll, Medicaid, and other expenditures that were previously deferred.

General Fund Liquidity – The General Purpose Revenue Fund shows a cash balance of \$5,202.4 million at June 30, 2022. Due to the COVID-19 pandemic, the State delayed its statewide income tax filing deadline extension to July 2020 (FY 2021), resulting in less overall cash collections in Fiscal Year 2020, and a significant increase in tax collections in Fiscal Years 2021 and 2022. From the prior fiscal year to the current fiscal year, General Purpose Revenue Fund taxes receivable decreased by \$184.4 million to \$1,651.4 million; tax refunds payable also decreased by \$2.0 million to \$1,142.7 million; and deferred inflows related to the tax receivables not expected to be collected within the next year increased by \$3.4 million to \$158.0 million. The tax receivable and related refunds are based on the best economic data available at year-end; however, economic projections rarely identify inflection points in the economy. If the State's economy experiences another downturn, tax receivables will likely decline (due to declining personal income) and tax refunds will likely increase (due to higher than required estimated tax and withholding payments) putting additional pressure on the fund balance of the General Purpose Revenue Fund. The General Fund legally has access to short-term borrowing from the cash balances of other funds. However, those transfers become increasingly difficult as accessible cash fund balances are depleted from transfers in prior years.

Debt Service – Various state departments, agencies, and institutions of higher education have outstanding notes, bonds, and/or COPs for the purchase of equipment or to construct facilities or infrastructure. The average debt service related to governmental activities over the next five years is \$306.6 million for these agreements and debt instruments. The majority of the revenue streams to cover the debt service payments comprise general governmental resources; there is no general obligation associated with these debt instruments; and the investors' sole recourse is the leased asset. However, if the revenue streams intended to fund this debt service do not materialize, the State will need to find other ways to pay for the service-potential represented by these capital assets. The average debt service related to business-type activities including revenue bonds over the next five years is \$411.1 million.

The notes to the financial statements are an integral part of this statement.

Differences Between the *Balance Sheet – Governmental Funds* and *Governmental Activities on the Government-Wide Statement of Net Position*

- (A) Management uses Internal Services Funds to report the charges for and the costs of goods and services sold by state agencies solely within the state. Because the sales are primarily to governmental funds, the assets and liabilities of the Internal Service Funds are included in the governmental activities on the government-wide *Statement of Net Position*. Internal Service Funds are reported using proprietary fund-type accounting in the fund-level financial statements. In addition to minor training services provided by the Department of Personnel & Administration, and internal sales within the Department of Transportation and the Department of Public Safety, the State's Internal Service Funds provide the following goods and services to nearly all state agencies:
- ♦ Fleet management,
 - ♦ Printing and mail services,
 - ♦ Information technology and telecommunication services,
 - ♦ Building maintenance and management in the capitol complex,
 - ♦ Administrative court services,
 - ♦ Legal services, and
 - ♦ Others including debt collection.
- (B) Capital assets used in governmental activities are not current financial resources, and therefore, they are not included in the fund-level financial statements. However, capital assets are economic resources and are reported in the government-wide *Statement of Net Position*.
- (C) Long-term liabilities such as leases, bonds, notes, mortgages, and Certificates of Participation (including accrued interest) are not due and payable in the current period, and therefore, they are not included in the fund-level financial statements. However, from an economic perspective these liabilities reduce net position and are reported in the *Statement of Net Position*. The portion reported as current in the reconciliation is payable within the following fiscal year. Deferred outflows related to debt refunding losses require a similar adjustment. The largest single portion of the long-term balance is related to Transportation Revenue Anticipation Notes issued by the Department of Transportation.
- (D) Risk management liabilities are actuarially determined claims and consist of a current and long-term portion. Generally accepted accounting principles (GAAP) list claims and judgments as an exception to the full accrual basis of accounting that constitutes the modified accrual basis of accounting. The current portion (payable within one year) is excluded from the fund-level statements because it is not payable with expendable available financial resources. In this instance, "payable with expendable available financial resources" means the amounts are not accrued as fund liabilities because they are not budgeted in the current year. The long-term portion of the risk management liability is excluded from the fund-level statements because it is not due and payable in the current period.
- (E) Other measurement focus adjustments include:
- ♦ Interfund balances receivable from or payable to fiduciary funds are reported on the fund-level *Balance Sheet – Governmental Funds* as due from/to other funds. On the government-wide *Statement of Net Position*, these amounts are considered external receivables and payables.
 - ♦ Long-term assets and long-term taxes receivable are not available to pay for current period expenditures; therefore, the related revenue is reported as a deferred inflow of resources on the fund-level *Balance Sheet – Governmental Funds*. From an economic perspective, this revenue is earned and the related deferred inflow of resources is removed from the government-wide *Statement of Net Position* when the revenue is recognized on the government-wide *Statement of Activities*.
 - ♦ Compensated absences are a GAAP modification of the full accrual basis of accounting similar to claims and judgments discussed above. Therefore, both the current and long-term portions of the liability are shown on the government-wide *Statement of Net Position*, but they are not reported on the fund-level *Balance Sheet – Governmental Funds*.
 - ♦ Claims and Judgments Payable and other long-term liabilities including pension liabilities are not reported on the fund-level *Balance Sheet – Governmental Funds* because the amounts are not due and payable from current financial resources. However, from an economic perspective, these liabilities reduce net position, and they are therefore reported on the government-wide *Statement of Net Position*.
- (F) All interfund payable balances shown on the fund-level Balance Sheet – Governmental Funds are reported in the internal balances line on the government-wide Statement of Net Position along with all governmental-activities interfund receivables.

Differences Between the *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds* and *Governmental Activities on the Government-Wide Statement of Activities*

- (A) Management uses Internal Services Funds to report charges for and the costs of goods and services sold by state agencies solely within the state. Internal Service Funds are intended to operate on the cost reimbursement basis and should break even each period. If an Internal Service Fund makes a profit, the other funds of the State have been overcharged. If an Internal Service Fund has an operating loss, the other funds of the State have been undercharged. In order to show the true cost of services purchased from Internal Service Funds, an adjustment is made that allocates the net revenue/expense of each Internal Service Fund to the programs that purchased the service. Investment income, debt service, and transfers of the Internal Service Fund are not allocated. In addition to minor training services provided by the Department of Personnel & Administration, and internal sales within the Department of Transportation and the Department of Public Safety, the State's Internal Service Funds provide the following goods and services to nearly all state agencies:
- ♦ Fleet management,
 - ♦ Printing and mail services,
 - ♦ Information technology services and telecommunication services,
 - ♦ Building maintenance and management in the capitol complex,
 - ♦ Administrative court services,
 - ♦ Legal services, and
 - ♦ Others including debt collection.
- (B) The following adjustments relate to capital assets:
- ♦ Capital assets, received as donations, are not reported on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds* because they are not current financial resources. However, such donations increase net position and are reported on both the government-wide *Statement of Net Position* and *Statement of Activities*.
 - ♦ Depreciation is not reported on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds*, but it is reported for the economic perspective on which the government-wide *Statement of Activities* is presented.
 - ♦ Expenditures reported for capital outlay on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds* are generally reported as a conversion of cash to a capital asset on the government-wide *Statement of Net Position*. They are not reported as expenses on the government-wide *Statement of Activities*.
 - ♦ On the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds* all cash received on disposal of capital assets is reported as a gain on sale of capital assets. On the government-wide *Statement of Activities* the reported gain or loss on sale is based on the carrying value of the asset as well as the cash received.
- (C) The following adjustments relate to debt issuance and debt service including leases:
- ♦ Payments on principal and debt refunding payments are reported as expenditures and other financing uses, respectively, on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds*. These payments are reported as reductions of lease, bond, and other debt liability balances on the government-wide *Statement of Net Position* and are not reported on the government-wide *Statement of Activities*.
 - ♦ Amortization of debt premium/discount and gain/loss on refunding are not reported on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds*, but are reported on the government-wide *Statement of Activities*.
 - ♦ Lease proceeds, issuance of debt, and debt refunding proceeds are all reported as other financing sources on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds*. From an economic perspective lease proceeds, debt issuances, and debt refunding proceeds are reported as liabilities on the government-wide *Statement of Net Position* and are not reported on the government-wide *Statement of Activities*.
- (D) Other measurement focus adjustments include:
- ♦ Long-term taxes receivable and certain other long-term assets are offset by deferred inflows or unearned revenue and are not part of fund balance on the fund-level *Balance Sheet – Governmental Funds*; however, from a full accrual perspective, changes in the fund-level unearned revenue balances result in adjustments to revenue that are recognized and reported on the government-wide *Statement of Activities*.
 - ♦ Compensated absences accruals, pension liabilities, and claims and judgments are not normally expected to be liquidated from expendable available financial resources; and therefore, they are not reported on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds*. However, from a full accrual perspective, these are expenses that are reported on the government-wide *Statement of Activities*.

The notes to the financial statements are an integral part of this statement

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the State of Colorado have been prepared in conformance with generally accepted accounting principles (GAAP) for governments as prescribed by the Governmental Accounting Standards Board (GASB), which is the primary standard setting body for establishing governmental accounting and financial reporting principles. A summary of the State of Colorado’s significant accounting policies applied in the preparation of these financial statements follows.

A. NEW ACCOUNTING STANDARDS

The following accounting standards were implemented in Fiscal Year 2022:

GASB Statement No. 87 – Leases. In 2022, the State implemented GASB Statement No. 87. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows and resources or outflows of resources based on the payment provisions of the contract.

GASB Statement No. 89 – Accounting for Interest Cost Incurred before the End of a Construction Period. In 2022, the State implemented GASB Statement No. 89. This Statement seeks to enhance the relevance and comparability of information about capital assets and the costs of borrowing for a reporting period and to simplify accounting for interest costs incurred before the end of a construction period.

GASB Statement No. 92 – Omnibus 2020. In 2022, the State implemented GASB Statement No. 92. This Statement is to help enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements.

GASB Statement No. 93 – Replacement of Interbank Offered Rates. In 2022, the State implemented GASB Statement No. 93. Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR). The London Interbank Offered Rate (LIBOR) is the most often used. As a result of global reference rate reform, LIBOR is expected to no longer exist after December 31, 2021. This will cause governments to amend or replace financial instruments to replace LIBOR with other reference rates by either changing the reference rate or adding or changing fallback provisions related to the reference rate. Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, as amended, requires a government to terminate hedge accounting when it renegotiates or amends a critical term of a hedging derivative instrument, such as the reference rate of a hedging derivative instrument’s variable payment. In addition, in accordance with Statement No. 87, Leases, as amended, replacement of the rate on which variable payments depend in a lease contract would require a government to apply the provisions for lease modifications, including remeasurement of the lease liability or lease receivable. GASB 93 addresses these and other accounting and financial reporting implications that result from the replacement of an IBOR, such as LIBOR. GASB 93 establishes accounting and financial reporting requirements related to the replacement of IBORs in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for certain hedging derivative instruments.

GASB Statement No. 97 – Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. In 2022, the State implemented GASB Statement No. 97. The primary objectives of this Statement are to increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and

the primary government performs the duties that a governing board typically would perform; mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

GASB Statement No. 98 – The Annual Comprehensive Financial Report. In 2022, the State implemented GASB Statement No. 98. This Statement establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. This Statement was developed in response to concerns raised by stakeholders that the common pronunciation of the acronym for comprehensive annual financial report sounds like a profoundly objectionable racial slur. This Statement’s introduction of the new term is founded on a commitment to promoting inclusiveness.

B. FINANCIAL REPORTING ENTITY

For financial reporting purposes, the State of Colorado’s primary government includes all funds of the State, its three branches of government, departments, and agencies that make up the State’s legal entity. The State’s reporting entity also includes those component units that are legally separate entities, for which the State’s elected officials are financially accountable.

Financial accountability is defined in GASB Statement No. 14 – The Financial Reporting Entity, as amended by GASB Statement No. 61, The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34. The State is financially accountable for those entities for which the State appoints a voting majority of the governing board and either is able to impose its will upon the entity or there exists a financial benefit or burden relationship with the State.

For those entities that the State does not appoint a voting majority of the governing board, GASB Statement No. 14 includes them in the reporting entity if they are fiscally dependent and there exists a financial benefit or burden relationship with the State. Entities that do not meet the specific criteria for inclusion may still be included if it would be misleading to exclude them. Under GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units—an amendment of GASB Statement No. 14, individually significant legally separate tax-exempt organizations are included as component units if their resources are for the direct benefit of the State and the State can access those resources.

Blended Component Units:

Some legally separate component units are so intertwined with the State that they are reported as part of the State’s fund and government-wide financial statements and are considered blended component units.

The University Physicians Inc., d/b/a CU Medicine, is a Colorado non-profit corporation under Section 501(c)(3) of the Internal Revenue Code, organized to perform the billing, collection, and disbursement of functions for professional services rendered for CU Anschutz as authorized in Section 23-20-114 of the Colorado Revised Statutes (C.R.S). The State appoints a majority of CU Medicine’s governing body, and is able to impose its will. Additionally, CU Medicine exclusively benefits the State by providing the services described above.

Incorporated in 2015 with operations starting in Fiscal Year 2017, the University of Colorado Property Construction, Inc. (CUPCO), receives, holds, invests, and administers real and personal property for the benefit of the University of Colorado. The State appoints CUPCO's governing body, is able to impose its will on the organization, and the organization provides services entirely to the State.

The entities noted below are blended component units of state universities and, as such, are included with the balances for state universities in this report. This report does not include any disclosures specific to these entities, as they do not meet the state's threshold for disclosure.

- 18th Avenue, LLC
- Altitude West, LLC
- Colorado School of Mines Building Corporation
- Mines Applied Technology Transfer, Inc.
- University License Equity Holdings, Inc.

Discretely Presented Component Units:

The Colorado Water Resources and Power Development Authority's purpose is to initiate, acquire, construct, maintain, repair, and operate, or cause to be operated, projects for the protection, preservation, conservation, upgrading, development, and utilization of the water resources of the State. The Governor appoints the Board of Directors, subject to approval by the Senate. In addition, water projects are subject to General Assembly authorization giving the state the ability to impose its will.

The University of Colorado Foundation was incorporated in 1967 and is authorized by the Board of Regents of the University of Colorado to receive, hold, invest, and transfer funds for the benefit of the University of Colorado. The Foundation is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Service Code and is exempt from income tax on related income. Management believes it would be misleading to exclude this entity.

The Denver Metropolitan Major League Baseball Stadium District currently includes all or part of the seven counties in the Denver metro area. The district was created for the purpose of acquiring, constructing, and operating a major league baseball stadium. To accomplish this purpose, the General Assembly authorized the district to levy a sales tax of one-tenth of one percent throughout the district for a period not to exceed 20 years. However, the district discontinued the sales tax levy on January 1, 2001, upon the final defeasance of all its outstanding debt. Board members are appointed by the Governor, with consent of the Senate. The Board members serve at the pleasure of the Governor which gives the State the ability to impose its will.

The Statewide Internet Portal Authority (SIPA) was created by Colorado Statute in 2004 to develop the officially recognized statewide internet portal (Colorado.gov) in order to connect citizens with state and local government in Colorado. SIPA provides governments with the efficient technology solutions they need to enable their citizens to obtain information and conduct business electronically. SIPA is governed by a Board of Directors that are all appointed by the State or member by ex-officio due to position in the State which gives the State the ability to impose its will.

The State's financial statements do not include amounts relating to several component units that would be discretely presented. Based upon the State's determination, the following component units do not meet the minimum threshold required to be included in the State's financial statements:

- Colorado Channel Authority
- Colorado Energy Research Authority
- Colorado Horse Development Authority
- Colorado Mesa University Real Estate Foundation
- Colorado National Guard Foundation, Inc.
- Colorado Pet Overpopulation Authority
- Higher Education Competitive Research Authority

Fiduciary Component Units:

Under GASB Statement No. 84, Fiduciary Activities, component units that are engaged in fiduciary activities are presented in the fiduciary fund financial statements.

The University of Colorado Health and Welfare Trust is a fiduciary component unit of the State and is intended to be a voluntary employees’ beneficiary association under Section 501(c)(9) of the Internal Revenue Code of 1986, as amended. It was established to administer and manage certain health and welfare benefits for participating employees and retirees of member employers. Member employers of the Trust are the University of Colorado and University Physicians Inc., d/b/a CU Medicine. The Trust’s Board is controlled by the University of Colorado which gives the State the ability to impose its will.

The State Board for Community Colleges and Occupational Education (SBCCOE) Employee Benefit Trust Fund was created as a not-for-profit 501(c)(9) entity in 1983 and is a fiduciary component unit of the State. It was established to provide benefits to SBCCOE employees that may include life, accidental death and dismemberment, short-term and/or long-term disability, basic or major medical, dental, other sick or accident benefits, or other benefits, as determined by the Benefit Trust Committee. The SBCCOE appoints the Trust’s Board members, manages the benefit plans, and is administratively intertwined with the Trust, which gives the State the ability to impose its will.

C. BASIS OF PRESENTATION – GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements focus on the government as a whole. The *Statement of Net Position* and the *Statement of Activities* are presented using the economic resources measurement focus and the full accrual basis of accounting. Under this presentation, all revenues, expenses, and all current and long-term assets, deferred outflows and liabilities and deferred inflows of the government are reported including capital assets, depreciation, and long-term debt.

The government-wide statements report all non-fiduciary activities of the primary government and its component units. Fiduciary activities of the primary government and its component units are excluded from the government-wide statements because those resources are not available to fund the programs of the government. The primary government is further subdivided between governmental activities and business-type activities. Governmental

activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities include proprietary funds financed in whole or in part by fees charged to external parties for goods or services.

The *Statement of Net Position* presents the financial position of the government. The net position section of the statement focuses on whether assets and deferred outflows, net of related liabilities and deferred inflows, have been restricted as to the purpose for which they may be used. When an external party or the State Constitution places a restriction on the use of certain assets, those assets, net of related liabilities, are reported in the Net Position line items shown as Restricted. The nature of an asset may also result in a restriction on asset use. The line item Net Investment in Capital Assets, comprises capital assets (net of depreciation) reduced by the outstanding balance of leases, bonds, mortgages, notes, Certificates of Participation, or other borrowings that were used to finance the acquisition, construction, or improvement of the capital asset. The State does not report restrictions of net position related to enabling legislation because a settled court case determined that crediting money to a special fund does not mean that the General Assembly is prohibited from appropriating the money for another purpose. Internal Service Fund assets and liabilities are reported in the government-wide *Statement of Net Position* as part of the governmental activities.

The *Statement of Activities* shows the change in financial position for the year. It focuses on the net program cost of individual functions and business-type activities in State government. It does this by presenting direct and allocated indirect costs reduced by program revenues of the function or business-type activities. Direct costs are those that can be specifically identified with a program. The State allocates indirect costs based on the Statewide Appropriations/Cash Fees Plan. Program revenues comprise fines and forfeitures, charges for goods and services, and capital and operating grants.

Taxes, with the exception of unemployment insurance premiums supporting a business-type activity, are presented as general-purpose revenues. General-purpose revenues are presented at the bottom of the statement and do not affect the calculation of net program cost.

Interfund transactions, such as federal and state grants moving between State agencies, have been eliminated from the government-wide statements to the extent that they occur within either the governmental or business-type activities, except as follows. In order not to misstate the sales revenue and purchasing expenses of individual functions or business-type activities, the effects of interfund services provided and used have not been eliminated. Balances between governmental and business-type activities are presented as internal balances and are eliminated in the total column. Internal Service Fund activity has been eliminated by allocating the net revenue/expense of the Internal Service Fund to the function originally charged for the internal sale.

Some of the State's component units have fiscal year-ends that differ from the State's fiscal year-end, and as a result amounts receivable and payable between the primary government and component units may not be equal. Amounts shown as receivable and payable between the primary government and the component units are primarily with the University of Colorado Foundation, which has a matching fiscal year end, but also includes amounts related to component units not deemed material for discrete reporting.

Interfund balances between the primary government's fiduciary activities and the primary government are presented on the government-wide statements as external receivables and payables.

D. BASIS OF PRESENTATION – FUND FINANCIAL STATEMENTS

The fund-level statements provide additional detail about the primary government and its component units. The information is presented in four types – governmental funds, proprietary funds, fiduciary funds, and component units.

With the exception of the fiduciary fund type, each type is presented with a major fund focus. The State's major funds report the following activities:

GOVERNMENTAL FUND TYPE (MAJOR):

General Fund

Transactions that are not related to specific revenue streams for dedicated purposes for services traditionally provided by state government are accounted for in the General Fund. The General Fund contains the Emergency Reserve Fund as well as Special Purpose Funds, which include the State Public School, Risk Management, and Other Special Purpose Funds. Resources obtained from federal grants that support general governmental activities are accounted for in the General Fund consistent with applicable legal requirements. As a result of comingled current and cumulative general-purpose and special-purpose revenue in the General Fund, combining schedules detailing the components of the General Fund are included as supplementary information. The schedules segregate activities funded with general-purpose revenue in order to demonstrate compliance with the legal definition of the General Fund, which is referred to as the General Purpose Revenue Fund.

Federal Special Revenue Fund

This fund reports funds received from the Federal Government as part of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) and Coronavirus Emergency Supplemental Funding (CESF) programs. These programs were passed in response to the economic fallout of the COVID-19 pandemic in the United States.

Highway Users Tax Fund

Expenditures of this fund are for the construction and maintenance of public highways, the operations of the State Patrol, and the motor vehicle related operations of the Department of Revenue. Revenues are from excise taxes on motor fuels, driver, and vehicle registration fees, and other related taxes. In prior years, this fund has issued revenue bonds to finance construction and maintenance of highway infrastructure.

PROPRIETARY FUND TYPE (MAJOR):

Higher Education Institutions

This fund reports the activities of all state institutions of higher education. Fees for educational services, tuition payments, and research grants are the primary sources of funding for this activity. Higher Education Institutions have significant capital debt secured solely by pledged revenues.

Healthcare Affordability

The Colorado Healthcare Affordability and Sustainability Enterprise Act of 2017, created the Colorado Healthcare Affordability and Sustainability Enterprise (CHASE) as a government-owned business within the Department of Health Care Policy and Financing to collect a healthcare affordability and sustainability fee from hospitals to provide business services to Colorado hospitals. This fee, not to exceed six percent of net patient revenues, is assessed on hospital providers.

Transportation Enterprise

This fund consists of the Bridge Enterprise and the High Performance Transportation Enterprise in the Department of Transportation. The bridge and highway construction activity is financed through bond issuances and user fees.

Unemployment Insurance

This fund accounts for the collection of unemployment insurance premiums from employers, related federal support, the payment of unemployed benefits to eligible claimants, and revenue bonds issued through a related party, the Colorado Housing and Finance Authority.

Internal Service Funds

The State uses internal service funds to account for the sale of goods and services, primarily to internal customers, on a cost reimbursement basis. The major fund concept does not apply to internal service funds. The State's Internal Service Funds reported in supplementary information include Central Services, Statewide Financial Information Technology, Information Technology, Capitol Complex, Highways, Public Safety, Administrative Courts, Legal Services, and Other Enterprise Services. In the fund financial statements, these activities are aggregated into a single column. In the government-wide statements, the Internal Service Funds are included in the governmental activities on the *Statement of Net Position*, and they are included in the *Statement of Activities* through an allocation of their net revenue/expense back to the programs originally charged for the goods or services.

FIDUCIARY FUND TYPE:

Fiduciary Funds are used to report assets held in a trustee or custodial capacity for others. Therefore, the resources reported in Fiduciary Funds cannot be used to support the government's own programs and are excluded in the government-wide financial statements. The types of Fiduciary Funds maintained by the State consist of the following:

Pension and Other Employee Benefit Trust Funds

Pension and other employee benefit trust funds are used to account for the activities of the retirement system, which accumulates resources for pension benefit payments to qualified public employees. In the basic financial statements, the State reports in a single column the activities related to resources being held in trust for (1) members and beneficiaries of the Group Benefits Plan, which provides health, life, dental, and short-term disability benefits to state employees, and (2) the Colorado State University Other Post-Employment Benefit Trust Funds.

Private Purpose Trust Funds

Private purpose trust funds are used to report the resources held in trust for the benefit of other governments, private organizations, or individuals. A single column in the basic financial statements aggregates the Treasurer's Private Purpose Trusts, the College Savings Plan operated by CollegeInvest, and several smaller funds shown in the aggregate as Other.

Custodial Funds

Custodial funds are used to report resources held in a purely custodial capacity for other individuals, private organizations, or other governments. Custodial funds primarily include local sales tax collections, trustee investments related to State capital projects, and investments of the Colorado Water Resource and Power Development Authority.

Typically the time between receipt and disbursement of these resources is short and investment earnings are inconsequential.

PRESENTATION OF INTERNAL BALANCES

Intrafund transactions are those transactions that occur completely within a column in the financial statements, while interfund transactions involve more than one column. This definition applies at the level of combining financial statements in the Supplementary Information section of the Annual Comprehensive Financial Report. Substantially all intrafund transactions and balances of the primary government have been eliminated from the fund-level financial statements. Interfund sales and federal grant pass-throughs are not eliminated, but are shown as revenues and expenditures/expenses of the various funds. Substantially all other interfund transactions are classified as transfers-in or transfers-out after the revenues and expenses are reported on each of the Statements of Changes in Net Position, or the Statement of Revenues, Expenditures and Changes in Fund Balances.

FUNCTIONAL PRESENTATION OF EXPENDITURES

In the governmental fund types, expenditures are presented on a functional basis, rather than an individual program basis, because of the large number of programs operated by the State. The State's eight functional classifications and the State agencies or departments comprising each are:

General Government

Legislative Branch, Department of Personnel & Administration, most of the Department of Military and Veterans Affairs, part of the Governor's Office, part of the Department of Revenue, and Department of Treasury.

Business, Community, and Consumer Affairs

Department of Agriculture, part of the Governor's Office, Department of Labor and Employment, Department of Local Affairs, most of the Department of Regulatory Agencies, Gaming Division of the Department of Revenue, and Department of State.

Education

Department of Education, and the portion of the Department of Higher Education not reported as a business-type activity.

Health and Rehabilitation

Department of Public Health and Environment, and part of the Department of Human Services.

Justice

Department of Corrections, Division of Youth Corrections in the Department of Human Services, Judicial Branch, Department of Law, Department of Public Safety, and the Civil Rights Division of the Department of Regulatory Agencies.

Natural Resources

Department of Natural Resources.

Social Assistance

Department of Human Services, Department of Military and Veterans' Affairs, and the Department of Health Care Policy and Financing.

Transportation

Department of Transportation.

E. BASIS OF ACCOUNTING

The basis of accounting applied to a fund depends on both the type of fund and the financial statement on which the fund is presented.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

All transactions and balances on the government-wide financial statements are reported on the full accrual basis of accounting. Under full accrual, revenues, expenses, gains, losses, assets, deferred outflows, liabilities, and deferred inflows resulting from exchange transactions are recognized when the exchange takes place and the earnings process is complete. Similar recognition occurs for nonexchange transactions, depending on the type of transaction as follows:

- Derived tax revenues are recognized when the underlying exchange transaction occurs.
- Imposed nonexchange revenues are recognized when the State has an enforceable legal claim.
- Government mandated and voluntary nonexchange revenues are recognized when all eligibility requirements are met – assets are recognized if received before eligibility requirements are met.

FUND-LEVEL FINANCIAL STATEMENTS

Governmental Funds

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they are measurable and available. The State defines revenues as available if they are expected to be collected within one year. Historical data, adjusted for economic trends, are used to estimate the following revenue accruals:

- Sales, use, liquor, and cigarette taxes are accrued based on filings received and an estimate of filings due at June 30.
- Income taxes, net of refunds, to be collected from individuals, corporations, and trusts are accrued based on current income earned by taxpayers before June 30. Quarterly filings, withholding statements, and other historical and economic data are used to estimate taxpayers' current income. The related revenue is accrued net of an allowance for uncollectible taxes.

Revenues earned under the terms of reimbursement agreements with other governments or private sources are recorded at the time the related expenditures are made if other eligibility requirements have been met.

Expenditures are recognized in governmental funds when:

- The related liability is incurred and is due and payable in full (examples include professional services, supplies, utilities, and travel).
- The matured portion of general long-term indebtedness is due and payable (or resources have been designated in the Debt Service Fund and the debt service is payable within thirty days of fiscal year-end).
- The liability has matured and is normally expected to be liquidated with expendable available financial resources.

Under these recognition criteria, compensated absences, claims and judgments, and termination benefits are reported as fund liabilities only in the period that they become due and payable. Expenditures/liabilities not recognized in the fund-level statements are reported as expenses/liabilities on the government-wide statements.

Proprietary and Fiduciary Funds

All transactions and balances of the proprietary and fiduciary fund types are reported on the full accrual basis of accounting as described above for the government-wide statements.

F. ACCOUNTING POLICIES AFFECTING SPECIFIC ASSETS, LIABILITIES, AND NET POSITION

CASH AND POOLED CASH

For purposes of reporting cash flows, cash and pooled cash is defined as cash-on-hand, demand deposits, certificates of deposit with financial institutions, pooled cash with the State Treasurer, and warrants payable.

RECEIVABLES

Accounts receivable in the governmental and business-type activities consist mainly of amounts due from the Federal Government, customers, and others. Receivables from the Federal Government are reasonably assured; accordingly, no allowance for uncollectible accounts has been established. Accrued taxes include receivables for taxpayer-assessed taxes where the underlying exchange has occurred in the period ending June 30 or prior, net of applicable estimated refunds and allowances.

INVENTORIES AND PREPAIDS

Inventories of the various State agencies are primarily comprised of finished goods inventories held for resale and consumable items such as office and institutional supplies, fuel, and maintenance items. Inventories of the governmental funds are stated at cost, while inventories of the proprietary funds are stated at the lower of cost or fair value. The State uses various valuation methods (FIFO, average cost, etc.) as selected by individual State agencies. The method used in each agency is consistent from year to year. Consumable inventories that are deemed material are expensed at the time they are consumed. Immaterial consumable inventories are expensed at the time of purchase while inventories held for resale are expensed at the time of sale. Payments made to vendors for services representing costs applicable to future accounting periods are recorded as prepaid items in both the government-wide and fund financial statements.

INVESTMENTS

Investments, including those held by the State Treasurer and reported as pooled cash, include both short and long-term investments. They are stated at fair value, except for certain investments which are measured at their Net Asset Value (see Note 4). Investments that do not have an established market are reported at their estimated fair value. The State Treasurer records investment interest in individual funds based on book yield as adjusted for amortization of investment premiums and discounts.

CAPITAL ASSETS

Depreciable capital assets are reported at historical cost, net of accumulated depreciation, on the government-wide *Statement of Net Position*. Donated capital assets are carried at their estimated acquisition value at the date of donation. Donated capital assets acquired prior to July 1, 2015 are stated at fair value as of the date of donation. Land, certain land improvements, construction in progress, and certain works of art or historical treasures are reported as nondepreciable assets.

The following table lists the range of capitalization thresholds established by the State, as well as lower thresholds adopted by some State agencies. State agencies are allowed to capitalize assets below established thresholds. The University of Colorado adopted a \$75,000 threshold for land and leasehold improvements, buildings, intangibles, and infrastructure. All land and library materials/collections are capitalized regardless of cost.

Asset Class	Lower Threshold	Established State Thresholds
Land Improvements	\$ 5,000	\$ 50,000
Buildings	5,000	50,000
Leasehold Improvements	5,000	50,000
Intangible Assets	5,000	50,000
Vehicles and Equipment	NA	5,000
Software (purchased)	NA	5,000
Software (internally developed)	NA	50,000
Works of Art/Historical Treasure	NA	5,000
Other	5,000	NA
Infrastructure	5,000	500,000

All depreciable capital assets are depreciated using the straight-line method. State agencies are required to use actual experience in setting useful lives for depreciating capital assets. The following table lists the range of lives that State agencies normally use in depreciating capital assets. Certain historical and Department of Transportation buildings are depreciated over longer lives, but they are excluded from the following table. Useful life for intangible assets, excluding software, vary based upon the nature of the asset.

Asset Class	Estimated Useful Life
Land Improvements	5 to 100 years
Buildings	3 to 100 years
Leasehold Improvements	1 to 50 years
Vehicles and Equipment	1 to 50 years
Software	2 to 20 years
Library Books & Collections	3 to 20 years
Other Capital Assets	2 to 50 years
Infrastructure	10 to 75 years

Roads and bridges, except for right-of-way and fiber optic infrastructure, owned by the Department of Transportation and other infrastructure primarily owned by the Department of Natural Resources, are capitalized and depreciated. The Department of Transportation depreciates roadways over 40 years, and bridges over 75 years.

The State capitalizes interest incurred during the construction of capital assets that are reported in enterprise funds.

UNEARNED REVENUE AND DEFERRED INFLOWS

Under reimbursement agreements, receipts from the federal government and other program sponsors are not earned until the related expenditures occur. These receipts are recorded as unearned revenue, except for amounts recorded as deferred inflows when the only eligibility requirement not met is the time requirement.

On the fund-level governmental financial statements, revenues related to taxes receivable that the State does not expect to collect until after the following fiscal year, are not earned and are reported as deferred inflows. However, taxes receivable are recognized as revenue on the government-wide financial statements.

ACCRUED COMPENSATED ABSENCES LIABILITY

State law concerning the accrual of sick leave was changed effective July 1, 1988. After that date all employees in classified permanent positions within the State Personnel System accrue sick leave at the rate of 6.66 hours per month. Total sick leave per employee is limited to the individual's accrued balance on July 1, 1988, plus 360 additional hours. Employees that exceed the limit at June 30 are required to convert five hours of unused sick leave to one hour of annual leave. Employees or their survivors are paid for one-fourth of their unused sick leave upon retirement or death. Annual leave is earned at increasing rates based on employment longevity. No classified employee is allowed to accumulate more than 42 days of annual leave at the end of a fiscal year. Employees are paid 100 percent of their annual leave balance upon leaving State service.

Compensated absence liabilities related to the governmental funds are recognized as liabilities of the fund only to the extent that they are due and payable at June 30. For all other fund types, both current and long-term portions are recorded as individual fund liabilities. On the government-wide *Statement of Net Position*, all compensated absence liabilities are reported.

INSURANCE

The State has an agreement with Broadspire to act as the third party administrator for the State's self-insured workers' compensation claims. The State reimburses Broadspire for the current cost of claims paid and related administrative expenses. Actuarially determined liabilities are accrued for claims to be paid in future years.

The State insures its property through a combination of self-insurance and commercial insurance carriers and is self-insured against liability risks for both its officials and employees (see Note 9). It is self-funded for employee healthcare plans, however, in the healthcare instance, the risk resides with the employees, because the State contribution to the plan is subject to appropriation each year, and employees are required to cover the balance of any premiums due. The State pays the actual costs of unemployment benefits paid to separated employees, rather than unemployment insurance premiums.

NET POSITION

In the government-wide and proprietary fund financial statements, net position is the difference between assets, liabilities, deferred inflows, and deferred outflows. Net investment in capital assets, represents capital assets; less accumulated depreciation; and less any outstanding borrowings related to the acquisition, construction, or improvement of those assets. Certain net positions are restricted for highway maintenance, education, unemployment insurance, debt service, donor restrictions, and various other funds that were established at the direction of the federal government, the courts, the State Constitution, or other external parties.

FUND BALANCES

Nonspendable – Nonspendable fund balances are amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained. This fund balance category consists of inventories; prepaid expenditures such as advances to counties for social assistance programs, local entities for species conservation, and to Colorado cities and special districts from emergency management funds; permanent funds related to state lands, and the corpus of other permanent funds.

Restricted – This classification is the portion of fund balance that is restricted by the State Constitution or external parties, and therefore, the related fund balance can only be expended as directed by the State Constitution or the external party.

Committed – This fund balance classification consists of amounts constrained by the General Assembly, the State's highest level of decision-making authority. Changes to constraints require legislative action by the General Assembly. The classification applies to the majority of governmental funds, excluding the General Purpose Revenue Fund.

In the General Purpose Revenue Fund, the Committed category represents the requirement in Colorado Revised Statutes 24-75-201.1(1)(d). See Note 15 for additional detail.

Committed balances also include earned augmenting revenue, such as insurance proceeds, that State agencies are not required to revert into the General Purpose Revenue Funds' fund balance.

In the Capital Projects Fund, the Committed classification represents the fund balance of the Corrections Expansion Reserve and the balance of certain other projects that are allowed to maintain a fund balance. These projects are not required to revert excess cash revenue to the Capital Projects Fund.

Assigned – This classification represents the portion of the General Purpose Revenue Fund fund balance related to certain Fiscal Year 2020 appropriations that the Colorado State Controller approved in accordance with Fiscal Rule 7-3 for use in the subsequent fiscal year.

Unassigned – This is the residual classification for the General Fund, and is not shown in other governmental funds, unless the fund balance is a deficit.

When an expenditure incurred could be funded from either restricted or unrestricted sources, unrestricted dollars are spent first, and within unrestricted sources funding is allocated first from unassigned, then assigned, and then committed resources. However, in certain circumstances restricted and/or committed resources are spent without regard to other available funding sources including transfers to pay indirect costs, to fund programs operating in the General Purpose Revenue Fund, to support health-related programs funded by tobacco tax, to support programs partially funded by Highway Users' Tax funds, and other situations that are not individually significant.

G. ACCOUNTING POLICIES AFFECTING REVENUES, EXPENDITURES/ EXPENSES

PROGRAM REVENUES

The government-wide *Statement of Activities* presents two broad types of revenues – program revenues and general revenues. All taxes, with the exception of unemployment insurance premiums used to support a business-type activity, are reported as general revenues. Unrestricted investment earnings and the court ordered awards of the Tobacco Litigation Settlement Fund, a nonmajor Other Special Revenue Fund, are also reported as general revenues. Except for transfers, permanent fund additions, and special items, all other revenues are reported as program revenues. In general, program revenues include:

- Fees for services, tuition, licenses, certifications, and inspections
- Fines and forfeitures
- Sales of products
- Rents and royalties
- Donations and contributions
- Intergovernmental revenues (including capital and operating grants)

INDIRECT COST ALLOCATION

The State allocates indirect costs on the government-wide *Statement of Activities*. In general, the allocation reduces costs shown in the general government functions and increases costs in the other functions and business-type activities. The allocation is based on the Statewide Appropriations/Cash Fees Plan.

The Plan uses allocation statistics from Fiscal Year 2019 and costs from the Fiscal Year 2021 (SB20-1360 and other special or supplemental bills) Appropriations bill that were incorporated in State agency budgets for Fiscal Year 2022.

The allocation of costs between the governmental activities and business-type activities would normally result in an adjustment of internal balances on the government-wide *Statement of Net Position*. However, since the amount allocated from the governmental activities to the business-type activities is small, an offsetting adjustment is made to the (Transfers-Out)/Transfers-In line item at the bottom of the *Statement of Activities*.

OPERATING REVENUES AND EXPENSES

The State reports four major enterprise funds, multiple nonmajor enterprise funds, and multiple internal service funds. Because these funds engage in a wide variety of activities, the State's definition of operating revenues and expenses is highly generalized. For these funds, operating revenues and expenses are defined as transactions that result from the core business activity of the proprietary fund.

In general, this definition provides consistency between operating income on the *Statement of Revenues, Expenses, and Changes in Net Position* and cash from operations on the *Statement of Cash Flows*. However, certain exceptions occur including:

- Interest earnings and expenses of proprietary funds, for which the core business activity is lending, are reported as operating revenues and expenses on the *Statement of Revenues, Expenses, and Changes in Net Position* but are reported as investing activities on the *Statement of Cash Flows*.
- Some rents, fines, donations, and certain grants and contracts are reported as nonoperating revenues on the *Statement of Revenues, Expenses, and Changes in Net Position*, but are reported as cash from operations on the *Statement of Cash Flows*.

The State's institutions of higher education have defined operating revenues and expenses as generally resulting from providing goods and services for instruction, research, public service, or related support services to an individual or entity separate from the institution.

NOTE 2 – STEWARDSHIP, ACCOUNTABILITY, AND LEGAL COMPLIANCE

A. OVEREXPENDITURES

Depending on the accounting fund type involved, expenditures/expenses are determined using the modified accrual or accrual basis of accounting even if the accrual will result in an overexpenditure. In the General Purpose Revenue Fund and Regular Capital Projects Fund, if earned cash revenues plus available reserved fund balance and earned federal revenues are less than cash and federal expenditures, then those excess expenditures are considered general-funded expenditures. If general-funded expenditures exceed the general-funded appropriation, then an overexpenditure occurs even if the expenditures did not exceed the total legislative line item appropriation. Absent general-funded appropriations, agencies are not allowed to use general-purpose revenue to support an expenditure/expense that was appropriated from cash or federal funds. Budget-to-actual comparisons are presented in the Required Supplementary Information Section. Differences noted between departmental reversions or overexpended amounts on the budgetary schedules and the overexpended amounts discussed below are due to offsetting underexpended line item appropriations.

Within the limitations discussed below, the State Controller, with the approval of the Governor, may allow certain overexpenditures of the legal appropriation, as provided by Section 24-75-109, C.R.S. Unlimited overexpenditures are allowed in the Medicaid program. The statute also provides for \$250,000 of general-funded overexpenditure authority in the Children’s Basic Health Plan. The Department of Human Services is allowed \$1.0 million of overexpenditures not related to Medicaid, and unlimited overexpenditures for self-insurance of its workers’ compensation plan. Statute also allows overexpenditures up to \$3.0 million in total for the remainder of the Executive Branch. An additional \$1.0 million of combined transfers and overexpenditures are allowed for the Judicial Branch.

The State Controller is generally required by statute to restrict the subsequent year appropriation whether or not an overexpenditure is approved. Such a restriction requires the agency to seek a supplemental appropriation from the General Assembly, earn adequate cash or federal revenue to cover the expenditure in the following year, and/or reduce their subsequent year’s expenditures. Per Section 24-75-109(2)(b) C.R.S., neither the Governor nor the State Controller is allowed to approve any overexpenditure in excess of the unencumbered balance of the fund from which the overexpenditure is made.

Total overexpenditures at June 30, 2022, were \$704.9 million as described in the following paragraphs.

Approved Medicaid Overexpenditures:

- Medical Services Premiums – The Department of Health Care Policy & Financing overspent this line item by \$13.4 million general funds. The overexpenditure was driven by lower-than-anticipated revenue in the Healthcare Affordability and Sustainability Fee cash fund.
- Behavioral Health Fee-for-Service Payments – The Department of Health Care Policy & Financing overspent this line item by \$0.2 million cash funds and \$0.01 million general funds. The overexpenditure in the Healthcare Affordability and Sustainability (HAS) Fee cash fund and general funds occurred because of higher than anticipated utilization of Medicaid members funded by these sources. The Department also incorrectly calculated the federal match for these services in the request for funding. As a result, state funds are over-expended and federal funds are under-expended. Additionally, MAGI Parents (Modified Adjusted Gross Income) and Caretakers and MAGI Adults had a higher share of the Fee-For-Service (FFS) expenditure than expected based on forecasted caseload, which are funded through the HAS Fee. The FFS expenditure is historically volatile by nature of the program making it harder to forecast.

Behavioral Health Capitation Payments – The Department of Health Care Policy & Financing overspent this line item by \$3.8 million cash funds. The Department overexpended cash funds due to higher-than-anticipated percentage of expenditure claimed at the lower/standard Federal Medical Assistance Percentage (FMAP) rate, rather than the higher ACA FMAP rate for members funded through the HAS Fee.

Approved Department of Human Services Overexpenditures, Other Than Medicaid, subject to the \$1.0 million limit:

- None at June 30, 2022.

Approved State Departments Overexpenditures Subject to the \$3.0 Million Limit:

- Fleet Management Program and Motor Pool Services, Fuel and Automotive Supplies – The Department of Personnel overspent this line by \$0.8 million reappropriated funds. This is due to instability in the world markets created an environment that produced the highest fuel prices in history. Additionally the aging fleet due to a lack of replacements in the past two fiscal years has driven maintenance cost up 28% year over year.

Approved Judicial Overexpenditures, subject to the \$1.0 million limit:

- None at June 30, 2022.

Overexpenditures Not Allowed to Be Approved (Deficit Fund Balances):

- Highway Fund – The Department of Transportation had a deficit in this fund of \$0.3 million. This fund is for the CDOT Sign Shop. The Sign Shop relies on revenue from sales of finished traffic signs. The negative fund balance is due to lagging sales post COVID-19 pandemic and increased inflation on materials and goods. The Sign Shop has started implementing new programmatic changes and a new fee structure in fiscal year 2023, which is forecasted to correct this negative fund balance.
- Unemployment Insurance Fund – The Department of Labor and Employment had a deficit in this fund of \$681.4 million. Due to the recession caused by the COVID-19 pandemic, estimated unemployment insurance benefits payable exceeded available and estimated resources at the end of fiscal year 2022. The Department has options available to address the deficit including, but not limited to, assessing unemployment insurance premium surcharges.
- Disaster Emergency Fund – The Department of Public Health and Environment had a deficit in this fund of \$2.3 million. The COVID-19 expenditures in this fund are generally reimbursable from Federal Emergency Management Agency (FEMA) or statewide Disaster Emergency Fund. Due to a methodology change in the division since the COVID pandemic, the department is uncertain all the expenditures are qualified for FEMA reimbursement. The deficit fund balance is due to the timing of FEMA reimbursement and department reconciliation of qualified reimbursable expenditures.

The deferral of Medicaid expenditures and revenues for budget purposes only is authorized in Section 25.5-8-108(5) C.R.S. However, those expenditures are recognized in the current fiscal year for financial statement presentation under Generally Accepted Accounting Principles (GAAP). The recognition of those expenditures on the GAAP basis resulted in fund balance deficits. Because the budget deferral that caused the GAAP deficit fund balance is in compliance with statute, no restriction of fiscal year 2023 spending authority is recommended. The following cash funds were in a deficit fund balance position as a result of Department of Health Care Policy and Financing Medicaid activity as of June 30, 2022:

- Colorado Autism Treatment Fund - \$0.1 million

- Health Care Expansion Fund - \$1.7 million
- Adult Dental Fund - \$0.9 million

A separately issued report comparing line item expenditures to authorized budget is available upon request from the Office of the State Controller.

B. TAX, SPENDING, AND DEBT LIMITATIONS

Certain State revenues, primarily taxes and fees, are limited under Article X, Section 20 (TABOR) of the State Constitution. Growth in these revenues from year to year is limited to the rate of population growth plus the rate of inflation. The TABOR section of the State Constitution also requires voter approval for any new tax, tax rate increase, or new debt. These limitations apply to the State as a whole, not to individual funds, departments, or agencies of the State. Government run businesses accounted for as enterprise funds that have the authority to issue bonded debt and that receive less than ten percent of annual revenues from the State and its local governments are exempt from the TABOR revenue limits.

In the 2005 general election, voters approved Referendum C, a statutory measure referred to the ballot by the Legislature that authorized the State to retain revenues in excess of the limit for the five fiscal years from 2006 through 2010. With the end of the Referendum C five-year excess revenue retention period, the State is subject to an Excess State Revenue Cap (ESRC), which began in Fiscal Year 2011. Calculation of the original TABOR limit continues to apply, but the ESRC replaces the previous TABOR limit for triggering taxpayer refunds. The beginning base for the ESRC was the highest adjusted TABOR revenue during the five-year period, which occurred in Fiscal Year 2008.

In Fiscal Year 2022, revenue subject to TABOR was \$19,741.3 million, which was above the \$16,012.9 million ESRC by \$3,728.4 million, and by \$6,811.0 million over the original TABOR limit. Therefore, there is a refund payable from Fiscal Year 2022 revenue of \$3,728.4 million. During the year, the State reimbursed \$405.8 million of excess revenue from Fiscal Years 2015, 2019 and 2021. The State's liability for TABOR refunds was \$3,848.1 million at June 30, 2022, which includes the Fiscal Year 2022 revenue above the ESRC and prior-year revenue adjustments that lowered the amount refundable by \$22.4 million. Since the inception of Referendum C in Fiscal Year 2006, the State has retained \$30,539.7 million (unadjusted for prior year errors) – \$3,593.6 million during the initial five-year revenue retention period, and an additional \$26,946.1 million as a result of the higher ESRC limit in Fiscal Year 2011 through Fiscal Year 2022.

TABOR requires the State to reserve three percent of fiscal year nonexempt revenues for emergencies. The estimated reserve for Fiscal Year 2022 was based on the revenue projection prepared in the spring of 2021 by the Legislative Council. In SB 21-227, the funds designated below and the maximum balances from each, constitute the reserve.

At June 30, 2022, the financial net positions, or fund balances of the following funds were restricted:

- Major Medical Insurance Fund, a portion of the nonmajor Labor Fund – \$59.0 million .
- State Emergency Reserve Cash Fund – 201.0 million.
- Colorado Water Conservation Board Construction Fund, a portion of the major Resource Extraction Fund – \$33.0 million.
- Disaster Emergency Fund – \$48.0 million.
- Unclaimed Property Tourism Promotion Trust Fund, a portion of the nonmajor Private Purpose Trust Fund – \$5.0 million.

- Marijuana Tax Cash Fund - \$100 million.

SB 21-227 also designated the Capitol Annex building, with a value exceeding \$29 million, as the remainder of the emergency reserve.

Based on actual fiscal year nonexempt revenues in Fiscal Year 2022, the required reserve was \$592.2 million. Because the actual reserve requirement was more than the amount set in SB 21-227, the total amount restricted for the reserve was \$91.0 million less than the combined maximums allowable in the designated funds detailed above.

During Fiscal Year 2022, eleven executive orders called for a net amount of \$125.0 million to be spent from, or encumbered in the Disaster Emergency Fund (DEF). The amounts spent or encumbered were for fire suppression efforts (\$34.1 million), COVID-19 (\$84.7 million), health emergencies (\$1.2 million) and other natural disaster emergencies (\$5.0 million).

NOTE 3 – CASH, RECEIVABLES, INVENTORIES, PREPAIDS, AND OTHER

CASH AND POOLED CASH

The State Treasury acts as a bank for all State agencies, with the exception of the University of Colorado. Moneys deposited in the Treasury are invested until the cash is needed. Interest earnings on these investments are credited to the General Purpose Revenue Fund unless a specific statute directs otherwise. Most funds are required to be invested in noninterest bearing warrants of the General Purpose Revenue Fund if the General Purpose Revenue Fund overdraws its rights in the pool. This means that under certain conditions participating funds would not receive the interest earnings to which they would otherwise be entitled. The detailed composition of the Treasury pooled cash and investment are shown in the Treasurer's Investment Reports. Where a major fund or fund category has a cash deficit, that deficit has been reclassified to an interfund payable to the General Purpose Revenue Fund – the payer of last resort for the pool.

State agencies are authorized by various statutes to deposit funds in accounts outside the custody of the State Treasury. Legally authorized deposits include demand deposits and certificates of deposit. The State's cash management policy is to invest all significant financial resources as soon as the moneys are available within the banking system. To enhance availability of funds for investment purposes, the State Treasurer uses electronic funds transfers to move depository account balances into the Treasurer's pooled cash.

Colorado statutes require protection of public moneys in banks beyond that provided by the federal insurance corporations. The Public Deposit Protection Act in Colorado Revised Statutes 11-10.5-107(5) requires all eligible depositories holding public deposits, including those of the State's component units, to pledge designated eligible collateral having market value equal to at least 102 percent of the deposits exceeding the amounts insured by federal insurance. Upon liquidation of a defaulting eligible depository, the statute requires the banking board to seize the eligible collateral, liquidate the collateral, and repay the public deposits to the depositing government.

The State had an accounting system cash deposit balance of \$1,138.2 million as of June 30, 2022. Under the GASB Statement No. 40 definitions, \$28.7 million of the State's total bank balance of \$1,226.6 million was exposed to custodial credit risk because the deposits were uninsured and the related collateral was held by the pledging institution or was held by the pledging institution's trust department or agent, but not in the State's name.

RECEIVABLES

The Taxes Receivable of \$1,706.1 million shown on the government-wide *Statement of Net Position* in current assets net of long-term taxes receivable of \$166.7 million, primarily comprises the following:

- \$1,651.4 million in the General Purpose Revenue Fund, mainly self-assessed income and sales tax. This amount includes \$166.7 million of Taxes Receivable expected to be collected after one year that are reclassified on the *Governmental Funds Balance Sheet Reconciled to Statement of Net Position* so they can be reported as Other Long-Term Assets on the government-wide *Statement of Net Position*.
- \$148.8 million of unemployment insurance premiums receivable primarily recorded in the Unemployment Insurance Fund.
- \$70.2 million recorded in non-major special revenue funds that includes approximately \$23.8 million from insurance premium tax, \$16.4 million from gaming tax, and \$29.6 million from Other Special Revenue.

The Restricted Receivables of \$346.2 million shown for Governmental Activities on the government-wide *Statement of Net Position* in non-current assets related primarily to \$14.6 million of other receivables in the General Fund; \$2.1 million of taxes receivable, \$95.9 million of other receivables, and \$233.5 million of intergovernmental

receivables recorded in the Highway Users Tax Fund and State Highway Fund. All three items were reported as Restricted Receivables because the State Constitution and federal requirements restrict that portion of the Highway Users Tax Fund and State Highway Fund. The tax receivable was primarily fuel taxes while the intergovernmental receivable was primarily due from the Federal Government.

The Other Receivables of \$1,876.2 million shown on the government-wide *Statement of Net Position* are net of \$292.0 million in allowance for doubtful accounts and primarily comprise the following:

- \$540.8 million of receivables recorded in the General Fund, of which \$66.5 million is from interest receivable on investments. The Department of Health Care Policy and Financing recorded receivables of \$431.3 million related primarily to rebates from drug companies and overpayments to healthcare providers, and the Colorado Mental Health Institutes recorded \$10.4 million of patient receivables.
- \$689.9 million of student and other receivables of Higher Education Institutions.
- \$135.8 million of receivables recorded by the Department of Health Care Policy and Financing in the Colorado Healthcare Affordability and Sustainability Enterprise Fund related primarily to rebates from drug companies associated with prescriptions for Medicaid clients.
- \$170.0 million of receivables recorded by the Department of Labor and Employment primarily for unemployment insurance overpayments.

INVENTORIES

Inventories of \$299.0 million shown on the government-wide *Statement of Net Position* at June 30, 2022, primarily comprise the following:

- \$208.6 million of consumable supplies inventories, of which \$117.7 million was recorded in the Disaster Emergency Fund; \$28.3 million was recorded by the Department of Natural Resources for the Colorado Water Conservation Board Fund; \$37.4 million was recorded in the General Fund; \$10.5 million was recorded by Higher Education Institutions; and \$11.7 million was recorded for Highways.
- \$75.4 million of resale inventories, of which \$34.3 million was recorded for Resource Extraction; \$29.6 million recorded by Higher Education Institutions; and \$6.2 million recorded for Highways.
- \$9.4 million of warehouse and consignment inventories recorded in the General Fund; and \$4.4 million of raw material, work in process, and finished goods inventories recorded by Correctional Industries – a nonmajor enterprise fund.

PREPAIDS, ADVANCES, AND DEPOSITS

Prepays, Advances, and Deposits of \$190.6 million shown on the government-wide *Statement of Net Position* are primarily general prepaid expenses. The significant items include:

- \$29.8 million advanced to Colorado counties by the General Purpose Revenue Fund primarily related to emergency management and social assistance programs.
- \$25.3 million prepaid by Higher Educational Institutions.
- \$29.1 million prepaid from the Marijuana Tax Cash Fund was to designated service organizations by the Department of Human Services primarily for behavioral health.

- \$10.0 million advanced to Colorado cities and special districts by the Division of Homeland Security and Emergency Management.
- \$9.5 million advanced by the Office of Economic Development for grants from the Advance Industries program.
- \$9.7 million advanced to conservation organizations by the Department of Natural Resources from the Species Conservation Fund, a portion of the Resource Extraction Fund. \$13.8 million advanced to Public Housing Agency.
- \$8.8 million prepaid by the Governor’s Office of Information Technology primarily for multi-year maintenance and licensing agreements.
- \$5.2 million of prize expense paid by the Colorado Lottery to a multistate organization related to participation in the Powerball lottery game.

OTHER LONG-TERM ASSETS

The \$997.7 million shown as Other Long-Term Assets on the government-wide *Statement of Net Position* is primarily long-term taxes receivable and long-term loans. Long-term taxes receivable of \$166.7 million recorded in the General Purpose Revenue Fund are not included as Other Long-Term Assets on the *Balance Sheet – Governmental Funds* but are shown in Taxes Receivable.

The \$608.9 million of Other Long-Term Assets shown on the fund-level *Balance Sheet – Governmental Funds* is primarily related to loans issued by the Highway Users Tax Fund (\$28.2 million), and the Resource Extraction Fund (\$496.2 million), a non-major special revenue fund. This balance primarily comprises water loan activity. The Water Conservation Board makes water loans from the Water Projects Fund, part of the Resource Extraction Fund, to local entities for the purpose of constructing water projects in the State.

The water loans are made for periods ranging from 10 to 30 years. Interest rates range from 2 to 6 percent for most projects, and they require the local entities or districts to make a yearly payment of principal and interest.

The \$220.8 million shown as Other Long-term Assets on the *Statement of Net Position – Proprietary Funds* is primarily student loans issued by Higher Education Institutions but also includes livestock.

NOTE 4 – INVESTMENTS

The State holds investments both for its own benefit and as an agent for certain entities as provided by statute. The State does not invest its funds with any external investment pool. Funds not required for immediate payment of expenditures are administered by the authorized custodian of the funds or pooled and invested by the State Treasurer.

Colorado Revised Statutes 24-75-601.1 authorizes the types of securities in which public funds of governmental entities, including State agencies, may be invested. Investments of the Public Employees Retirement Association discussed in Note 6 and other pension funds are not considered public funds. In general, the statute allows investment in: Certificates of Participation related to a lease or lease purchase commitment, local government investment pools, repurchase and reverse repurchase agreements (with certain limitations), securities lending agreements, corporate or bank debt securities denominated in US dollars, guaranteed investment or interest contracts including annuities and funding agreements, securities issued by or fully guaranteed by the United States Treasury or certain federal entities and the World Bank, inflation indexed securities issued by the United States Treasury, general obligation and revenue debt of other states in the United States and their political subdivisions (including authorities), or registered money market funds with policies that meet specific criteria.

The statute establishes high minimum credit quality ratings by at least two national rating agencies for most investment types. That statute also sets maximum time to maturity limits, but allows the governing body of the public entity to extend those limits. Public entities may also enter securities lending agreements that meet certain requirements. The statute prohibits investment in subordinated securities and securities that do not have fixed coupon rates unless the variable reference rate is a United States Treasury security with maturity less than one year, the London Interbank Offer Rate, or the Federal Reserve cost of funds rate. The above statutory provisions do not apply to the University of Colorado.

Colorado Revised Statutes 24-36-113 authorizes securities in which the State Treasurer may invest and requires prudence and care in maintaining investment principal and maximizing interest earnings. In addition to the investments authorized for all public funds, the State Treasurer may invest in securities of the federal government and its agencies and corporations without limitation, asset-backed securities, certain bankers' acceptances or bank notes, certain commercial paper, certain international banks, certain loans and collateralized mortgage obligations and certain debt obligations backed by the full faith and credit of the state of Israel. The Treasurer's statute also establishes credit quality rating minimums specific to the Treasurer's investments. The Treasurer's statute is the basis for a formal investment policy published on the State Treasurer's website. In addition to the risk restrictions discussed throughout this Note 4, the Treasurer's investment policy precludes the purchase of derivative securities.

The State Treasurer maintains a custodial fund for the Great Outdoors Colorado Program (GOCO), a related organization. At June 30, 2022 and 2021, the treasurer had \$80.4 million and \$82.1 million at fair value, respectively, of GOCO's funds on deposit and invested.

The investment earnings of the Unclaimed Property Tourism Trust Fund, a nonmajor special revenue fund, are assigned by law to the Colorado Travel and Tourism Promotion Fund, a nonmajor special revenue fund, to the State Fair, a nonmajor enterprise fund, and to the Agriculture Management Fund, a nonmajor special revenue fund.

As provided by State statute, the State Treasurer held \$13.9 million of investment in residential mortgages representing payments of property taxes of certain elderly State citizen homeowners that qualify for the Property Tax Deferral Program. The investment is valued based on the outstanding principal and interest currently owed to the State as there is no quoted market price for these investments.

The following schedule reconciles deposits and investments to the financial statements for the primary government including fiduciary funds:

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure, the State will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured, are not registered in the State's name, and are held by either the counterparty to the investment purchase or are held by the counterparty's trust department or agent but not held in the State's name.

The State Treasurer's investment policy requires all securities to be held by the State Treasurer or a third party custodian designated by the Treasurer with each security evidenced by a safekeeping receipt. Certain trustees have selected the State Treasurer's pool as their primary investment vehicle. The Treasurer accounts for the trustees' deposits in custodial funds, and the investment types and related risks are disclosed through the Treasurer's pool investments.

Open-end mutual funds and certain other investments are not subject to custodial risk because ownership of the investment is not evidenced by a security. The following tables list the investments of the State Treasurer's pooled cash, major governmental funds, and nonmajor governmental funds in aggregate, by investment type at fair value.

Credit Quality Risk

Credit quality risk is the risk that the issuer or other counterparty to a debt security will not fulfill its obligations to the State. This risk is assessed by nationally recognized rating agencies, which assign a credit quality rating for many investments. Credit quality ratings for obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not reported. However, credit quality ratings are reported for obligations of U.S. Government agencies that are not explicitly guaranteed by the U.S. Government.

The State Treasurer's formal investment policy requires that eligible securities must be rated at least by one and preferably two nationally recognized rating organizations. One rating must be from Moody's, Standard & Poor's, or Fitch. The policy sets acceptable credit quality ratings by investment portfolio and investment type.

The fair value amount of rated and unrated debt securities is detailed in the following table by the lowest known credit quality rating, which shows the Treasurer's Pool, Higher Education Institutions, Fiduciary Funds, and All Other Funds in the aggregate. The credit quality ratings shown are Moody's, Standard and Poor's, and Fitch, respectively.

Interest Rate Risk

Interest rate risk is the risk that changes in the market rate of interest will adversely affect the value of an investment. The State manages interest rate risk using either weighted average maturity or duration. Weighted average maturity is a measure of the time to maturity, measured in years, that has been weighted to reflect the dollar size of individual investments within an investment type. Various methods are used to measure duration; in its simplest form, duration is a measure, in years, of the time-weighted present value of individual cash flows from an investment divided by the price of the investment.

Statute requires the State Treasurer to formulate investment policies regarding liquidity, maturity, and diversification for each fund or pool of funds in the State Treasurer's custody. The State Treasurer's formal investment policy targets a weighted average effective duration of 3 years within range of 1-5 years and a maximum stated maturity limited to 30 years from the settlement date for Treasurer's pool funds. The policy also sets maturity limits for the Unclaimed Property Tourism Promotion Trust Fund (1 - 30 years). The policy also mitigates interest rate risk through the use of maturity limits delineated to meet the needs of each funds and the use of active management to react to changes in the yield curve, economic forecasts, and the liquidity needs of the fund.

The following table shows the weighted average maturity and fair value amount for those investments managed using the weighted average maturity measure.

(Dollar Amounts in Thousands, Weighted Average Maturity in Years)

Investment Type	Treasurer's Pool		Higher Education Institutions		Fiduciary Funds		All Other Funds

Total Investments	<u>\$16,728,669</u>		<u>\$ 1,919,742</u>		<u>\$ 167,179</u>		<u>\$ 915,568</u>	

The table below presents the fair value amount and duration measure for State agencies that manage some or all of their investments using the duration measure.

The CollegeInvest program has investments reported in the College Savings Plan, a Private Purpose Trust Fund. CollegeInvest uses duration to manage the interest rate risk of selected mutual funds in the College Savings Plan. CollegeInvest's Private Purpose Trust Fund holds inflation linked bond mutual funds (Bond Mutual Fund-8) for \$223.4 million with a duration of 4.59 years and a short-term inflation protected securities index fund (Bond Mutual Fund-4) for \$88.8 million with a duration of 2.49 years. These securities are excluded from the duration table below because interest rate risk is effectively mitigated by the inflation protection attribute of the funds.

(Dollar Amounts in Thousands, Duration in Years)

Bond Mutual Fund-10	7,184	4.500
Bond Mutual Fund-11	457	6.350
Other	460,690	3.340

Foreign Currency Risk

Foreign Currency risk is the risk that changes in exchange rates will adversely affect their value of an investment or deposit. The Treasurer's formal investment policy does not allow for investments in foreign currency. Risk is mitigated by only permitting a maximum of 4% of treasury pool assets to be invested in sovereign/government/supranational securities.

Concentration of Credit Risk

The State Treasurer's formal investment policy sets minimum and maximum holding percentages for each investment type for the investment pool and for the Unclaimed Property Tourism Promotion Trust Fund. The pool and the Unclaimed Property Tourism Promotion Trust Fund may be 100 percent invested in U.S. Treasury securities with more restrictive limits (ranging from 5 percent to 80 percent) set for the other allowed investment types. For the pool and the Unclaimed Property Tourism Promotion Trust Fund, the policy sets maximum concentrations in an individual issuer for certain investment types.

Fair Value Measurements

To the extent available, the State's investments are recorded at fair value as of June 30, 2022. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

Level 1 Investments – values are based on quoted prices (unadjusted) for identical assets (or liabilities) in active markets that a government can access at the measurement date.

Level 2 Investments – inputs other than quoted prices included within Level 1 – that are observable for an asset (or liability), either directly or indirectly.

Level 3 Investments – classified as Level 3 have unobservable inputs for an asset (or liability) and may require a degree of professional judgment.

The following table summarizes the State's investments within the fair value hierarchy at June 30, 2022:

(Amounts in Thousands)

Fair Value Measurements Using

On June 30, 2022, the Colorado School of Mines held an investment in an equity trust valued at \$21.7 million. The value was determined using the University's Net Asset Value (NAV) per share in the equity trust, redemption frequencies for these funds range from monthly to annually and redemption notice period range from five to 90 days.

On June 30, 2022, the University of Colorado held investments in a guaranteed investment agreements with a contract value of \$7.0 million, and private equities measured at a cost of \$18.5 million. It is the State's policy to report money market fund investments at fair market value unless the institution managing the investment reports its value at amortized cost. At June 30, 2022, the University of Colorado held \$283.2 million of money market funds valued at amortized cost.

Treasurer's Investment Pool

Participation in the State Treasurer's cash/investment pool is mandatory for all State agencies with the exception of Colorado Mesa University, Colorado State University System, Colorado School of Mines, Fort Lewis State College, and the University of Colorado and its blended component units; however, all participate in the Treasurer's Pool. The Treasurer, in consultation with the State's investment custodian, determines the fair value of the pool's investments at each month-end for performance tracking purposes. Short-term realized gains, losses, and interest earnings, adjusted for amortization of investment premiums and discounts, are distributed monthly. If the statutes authorize the participant to receive interest and investment earnings, these gains or losses are prorated according to the average of the participant's daily balance during the month.

NOTE 5 – CAPITAL AND RIGHT-TO-USE ASSETS

On the government-wide *Statement of Activities*, depreciation charged to functional programs and business-type activities is as follows:

GOVERNMENTAL ACTIVITIES	(Amounts in Thousands)	Depreciation Amount
General Government		58,862.3
Business, Community and Consumer Affairs		4,343.5
Education		39,494.0
Health and Rehabilitation		12,444.4
Justice		49,740.5
Natural Resources		466.1
Social Assistance		28,233.1
Transportation		317,246.9
Total Depreciation Expense - Governmental Activities		<u>510,830.8</u>
BUSINESS-TYPE ACTIVITIES		
Higher Education		504,655.0
Parks and Wildlife		18,782.8
State Nursing Homes		1,867.2
Unemployment Insurance		3,312.6
Transportation		26,800.1
Social Assistance		5,328.9
Other Enterprise Funds		2,397.2
Total Depreciation Expense - Business-Type Activities		<u>563,143.8</u>
Total Depreciation Expense Primary Government		<u>\$ 1,073,974.6</u>

The schedules on the following pages show the capital asset and right-to-use asset activity during Fiscal Year 2022. The capital asset schedule shows that \$425.5 million of construction in progress projects were completed and added to capital assets for Governmental activities, and \$795.8 million of construction in progress were completed and added to capital assets for Business-Type activities. These amounts are net of additions.

NOTE 6 – DEFINED BENEFIT PENSIONS

Summary of Significant Accounting Policies

The State of Colorado is a participating employer in the State Division Trust Fund (“SDTF”) and the Judicial Division Trust Fund (“JDTF”), both cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees’ Retirement Association of Colorado (“PERA”). The State of Colorado is also a governmental nonemployer contributing entity in the SDTF, JDTF, School, and Denver Public Schools Division Trust Fund (“DPS”) Divisions. In addition, the University of Colorado offers a single-employer, defined benefit Alternate Medicare Payment pension plan to retirees of its Optional Retirement Plan. The net pension liability, deferred outflows of resources, deferred inflows of resources, pension expense, aid to other governments, information about the fiduciary net position, and additions to/deductions from the fiduciary net position of the SDTF, JDTF, School Division, DPS Division, and the Alternate Medicare Payment Plan have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Senate Bill (SB)18-200 entitled *Modifications To PERA Public Employees’ Retirement Association To Eliminate Unfunded Liability* requires a direct distribution from the State Treasury to PERA for \$225 million annually to reduce unfunded PERA liabilities. The direct distributions are to occur until no unfunded actuarial accrued liabilities exist for any PERA Division Trust. PERA allocates the direct distribution to four PERA Division Trusts in proportion with payroll-based contributions. The direct distribution for fiscal year 2022 is shown below.

	(In Actual Dollars)		
	Additional Employer	Non-employer	Total Direct
<u>PERA Division Trust</u>	<u>Contributions</u>	<u>Contributions</u>	<u>Distribution</u>
State	\$ 73,273,864	\$ 3,431,803	\$ 76,705,667
Judicial	1,261,601	98,620	1,360,221
School	-	19,153,010	19,153,010
Denver Public Schools	-	127,781,102	127,781,102
	<u>\$ 74,535,465</u>	<u>\$ 150,464,535</u>	<u>\$ 225,000,000</u>

General Information about the Pension Plan

Eligible employees of the State of Colorado receive a pension benefit through the SDTF and the JDTF, both cost-sharing multiple-employer defined benefit pension plans administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes, administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. The Colorado General Assembly may amend Colorado State law provisions from time to time. PERA issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at www.copera.org/investments/pera-financial-reports.

PERA provides retirement, disability, and survivor benefits. Retirement benefits determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at Sections 24-51-602, 604, 1713, and 1714, C.R.S.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee’s member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the DPS benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases, the service retirement benefit is limited to 100 percent of highest average salary and cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Upon meeting certain criteria, benefit recipients who elect to receive a lifetime retirement benefit generally receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Subject to the automatic adjustment provision (AAP) under C.R.S. § 24-51-413, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007, and all eligible benefit recipients of the DPS benefit structure will receive the maximum annual increase (AI) or AI cap of 1.00% unless adjusted by the AAP. Eligible benefit recipients under the PERA benefit structure who began membership on or after January 1, 2007, will receive the lesser of an annual increase of the 1.00% AI cap or the average increase of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed a determined increase that would exhaust 10% of PERA’s Annual Increase Reserve (AIR) for the SDTF. The AAP may raise or lower the aforementioned AI cap by up to 0.25% based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. For the SDTF, State Troopers whose disability is caused by an on-the-job injury are immediately eligible to apply for disability benefits and do not have to meet the five years of service credit requirement. For the JDTF, the five-year requirement is not applicable to active judges. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions

Eligible employees and the State are required to contribute to the SDTF at rates established under Section 24-51-401, C.R.S., *et seq.* and Section 24-51-413, C.R.S. Employee and employer contribution rates for the period July 1, 2021 through June 30, 2022 are presented in the following tables:

State Division Trust Fund	July 1, 2021 Through June 30, 2022
Employee contribution (all employees except State Troopers)	10.50%
State Troopers Only	12.50%

Employee contribution rates for the SDTF are expressed as a percentage of salary as defined in Section 24-51-101(42) C.R.S.

The employer contribution requirements for all employees except State Troopers are summarized in the table below:

State Division Trust Fund	July 1, 2021 Through December 31, 2021	January 1, 2022 Through June 30, 2022
Employer contribution rate	10.90%	10.90%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	(1.02)%	(1.02)%
Amount apportioned to the SDTF	9.88%	9.88%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411	5.00%	5.00%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411	5.00%	5.00%
Defined Contribution Supplement as specified in C.R.S. § 24-51-415	0.05%	0.10%
Total employer contribution rate to the SDTF	19.93%	19.98%

The employer contribution requirements for State Troopers are summarized in the table below:

State Division Trust Fund	July 1, 2021 Through December 31, 2021	January 1, 2022 Through June 30, 2022
Employer contribution rate	13.60%	13.60%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	(1.02)%	(1.02)%
Amount apportioned to the SDTF	12.58%	12.58%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411	5.00%	5.00%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411	5.00%	5.00%
Defined Contribution Supplement as specified in C.R.S. § 24-51-415	0.05%	0.10%
Total employer contribution rate to the SDTF	22.63%	22.68%

Contribution rates for the SDTF are expressed as a percentage of salary as defined in Section 24-51-101(42), C.R.S.

Eligible employees and the State are required to contribute to the JDTF at rates established under Section 24-51-401 C.R.S., *et seq.* and Section 24-51-413, C.R.S. Employee and employer contribution rates for the period July 1, 2021 through June 30, 2022 are presented in the following tables:

Judicial Division Trust Fund	July 1, 2021 Through June 30, 2022
Employee contribution	15.5%

Judicial Division Trust Fund	July 1, 2021 Through December 31, 2021	January 1, 2022 Through June 30, 2022
Employer contribution rate	9.41%	9.41%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	(1.02)%	(1.02)%
Amount apportioned to the JDTF	8.39%	8.39%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411	4.20%	4.60%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411	4.20%	4.60%
Total employer contribution rate to the JDTF	16.79%	17.59%

Contribution rates for the JDTF are expressed as a percentage of salary as defined in Section 24-51-101(42), C.R.S.

As specified in Section 24-51-414 C.R.S., the State is required to contribute \$225.0 million each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SDTF and JDTF based on the proportionate amount of annual payroll of those division trust funds to the total annual payroll of each trust to the School Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. A portion of the direct distribution allocated to the SDTF and JDTF is considered a nonemployer contribution for financial reporting purposes. In addition to the \$225 million (actual dollars) direct distribution due July 1, 2022, House Bill (HB) 22-1029, instructs the State treasurer to issue a warrant to PERA in the amount of \$380 million (actual dollars), upon enactment, with reductions to future direct distributions scheduled to occur July 1, 2023, and July 1, 2024.

Employer contributions are recognized by the SDTF and by the JDTF in the period in which the compensation becomes payable to the member and the State is statutorily committed to pay the contributions to the SDTF and to the JDTF. Employer contributions made by the State to the SDTF and to the JDTF were \$709.6 million and \$10.3 million, respectively, for the year ended June 30, 2022.

Net Pension Liability

The net pension liability for the SDTF and for the JDTF were measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020. Standard update procedures were used to roll-forward the total pension liability to December 31, 2021. The State's proportion of the net pension liability of the SDTF and of the JDTF is based on the State's contributions to the SDTF and to the JDTF for calendar year 2021 relative to the total contributions of all participating employers and the nonemployer contributions made by the State to the SDTF and to the JDTF.

The State reports a net pension liability in accordance with the requirements of GASB Statement No. 68 – *Accounting and Financial Reporting for Pensions* using the Schedule of Employer and Nonemployer Allocations and Schedule of Collective Pension Amounts published by PERA. Refer to the last four tables in Note RSI-2 for historical information on the State of Colorado's proportionate share of collective pension amounts as a nonemployer contributing entity. Historical information on the collective pension amounts is available in the Required Supplementary Information section of PERA's annual comprehensive financial report (ACFR) available at <https://www.copera.org/investments/pera-financial-reports>.

For purposes of GASB 68 paragraph 15, a circumstance continues to exist in which a nonemployer contributing entity is legally responsible for making contributions to the State, Judicial, School and DPS Division Trust Funds and is considered to meet the definition of a special funding situation.

At June 30, 2022, the State reported a total liability of \$8.29 billion for its proportionate share of the net pension liability. The amounts recognized by the State for its proportionate share of the net pension liability are as follows:

(Amounts in thousands)	PERA Division Trust Fund				
	State	Judicial	School	DPS	Total
Proportionate share of the net pension liability attributable to:					
State's own employees	\$ 7,045,081	\$ 8,507	-	-	\$ 7,053,588
Employees of other governments	34,307	81	1,196,870	1,355	1,232,613
Total	\$ 7,079,388	\$ 8,588	\$ 1,196,870	\$ 1,355	\$ 8,286,201

Proportionate Share

The State's proportionate share at December 31, 2020 and December 31, 2021 as well as how the proportionate share increased or decreased is presented in the following table:

As a Participating Employer			
PERA Division	Proportionate Share		Increase (Decrease)
	12/31/2020	12/31/2021	
State	95.60%	95.53%	-0.07%
Judicial	93.49%	92.75%	-0.74%

As a Governmental Nonemployer Contributing Entity			
PERA Division	Proportionate Share		Increase (Decrease)
	12/31/2020	12/31/2021	
State	0.00%	0.47%	0.47%
Judicial	0.00%	0.88%	0.88%
School	0.00%	10.28%	10.28%
DPS	0.00%	22.70%	22.70%

Pension Expense & Aid to Other Governments

For the year ended June 30, 2022, the State recognized pension expense for its own employees and expense to aid other governments related to support provided by the State as a governmental nonemployer contributing entity. The components of expense are presented in the following table.

(Amounts in thousands)	PERA Division Trust Fund				Total
	State	Judicial	School	DPS	
Pension expense	\$ (201,750)	\$ (43,574)	-	-	\$ (245,324)
Aid to other governments*	(8,969)	(120)	36,342	7,963	35,216
Total	\$ (210,719)	\$ (43,694)	\$ 36,342	\$ 7,963	\$ (210,108)

* Amortization of employer-level deferrals only.

Deferred Outflows of Resources and Deferred Inflows of Resources

The State participates in the SDTF and the JDTF as both an employer and as a governmental nonemployer contributing entity. The following tables therefore segregate deferred outflows of resources and deferred inflows of resources between balances related to the State's own employees and balances related to employees of other governments. At June 30, 2022, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

State Division Trust Fund

(Amounts in thousands)	Deferred Outflows of Resources Related to		Deferred Inflows of Resources Related to	
	State's Own Employees	Employees of Other Governments	State's Own Employees	Employees of Other Governments
	Difference between expected and actual experience	\$ 47,937	\$ 233	\$ 9,801
Changes of assumptions or other inputs	251,184	1,223	-	-
Net difference between projected and actual earnings on pension plan investments	-	-	2,424,400	11,806
Changes in proportion and differences between contributions recognized and proportionate share of contributions	184,489	30,550	209,474	17,138
Contributions subsequent to the measurement date	354,886	-	-	-
Total	\$ 838,496	\$ 32,006	\$ 2,643,675	\$ 28,992

Deferred outflows of resources of \$354.9 million related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

State Division Trust Fund

Year ended June 30:	(Amounts in thousands)
2023	(344,196)
2024	(931,216)
2025	(586,834)

Total	\$ 15,248	\$ 1,375	\$ 75,451	\$ 1,425

Deferred outflows of resources of \$4.6 million related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Judicial Division Trust Fund

Year ended June 30:	(Amounts in thousands)
2023	(29,211)
2024	(17,947)
2025	(11,512)
2026	(6,195)

School & Denver Public Schools Division Trust Funds

The State participates in the School Division Trust Fund and the Denver Public Schools (DPS) Division Trust Fund as a governmental nonemployer contributing entity. Therefore, the deferred outflows of resources and deferred inflows of resources associated with the School and DPS Divisions relate only to employees of other governments.

School & DPS Division Trust Funds

(Amounts in thousands)	Deferred Outflows of Resources		Deferred Inflows of Resources	
	School Division	DPS Division	School Division	DPS Division
	Difference between expected and actual experience	\$ 45,821	\$ 11,571	\$ -

Total	\$ 1,481,387	\$ 193,401	\$ 1,576,583	\$ 257,572

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as expense to aid other governments as follows:

School and DPS Division Trust Funds

Year ended June 30:	(Amounts in thousands)
2023	(169,868)
2024	612
2025	80,477
2026	(70,589)

Actuarial Assumptions

The total pension liability in the December 31, 2020 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

	State Division Trust Fund	Judicial Division Trust Fund	School Division Trust Fund	DPS Division Trust Fund
Actuarial cost method	Entry age	Entry age	Entry age	Entry age
Price inflation	2.30 percent	2.30 percent	2.30 percent	2.30 percent
Real wage growth	0.70 percent	0.70 percent	0.70 percent	0.70 percent
Wage inflation	3.00 percent	3.00 percent	3.00 percent	3.00 percent
Salary increases, including wage inflation	3.30 - 10.90 percent	2.80 - 5.30 percent	3.40 - 11.00 percent	3.80 - 11.50 percent
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25 percent	7.25 percent	7.25 percent	7.25 percent
Discount rate	7.25 percent	7.25 percent	7.25 percent	7.25 percent
Post-retirement benefit increases:				
PERA benefit structure hired prior to 1/1/07	1.00 percent	1.00 percent	1.00 percent	1.00 percent
PERA benefit structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve			

Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

The total pension liability as of December 31, 2021, includes the anticipated adjustments to contribution rates and the AI cap, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. The mortality tables described below are generational mortality tables developed on a benefit-weighted basis. Pre-retirement mortality assumptions for members other than State Troopers were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for State Troopers were based upon the PubS-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for members other than State Troopers were based upon the PubG-2010 Healthy Retiree Table, adjusted as follows:

- Males: 94% of the rates prior to age 80 and 90% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 87% of the rates prior to age 80 and 107% of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- Males: 97% of the rates for all ages, with generational projection using scale MP-2019.
- Females: 105% of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions for members other than State Troopers were based upon the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.

Disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.

The actuarial assumptions used in the December 31, 2020, valuation were based on the results of the 2020 experience analysis for the period January 1, 2016, through December 31, 2019, and were reviewed and adopted by the PERA Board at their November 20, 2020, meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25 percent.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.

- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200, required adjustments resulting from the 2018 AAP assessment, and the additional 0.50% resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200, required adjustments resulting from the 2018 AAP assessment, and the additional 0.50% resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the State, as a nonemployer contributing entity, will provide an annual direct distribution of \$225 million (actual dollars), commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the FNP and the subsequent AIR benefit payments were estimated and included in the projections.
- The projected benefit payments reflect the lowered AI cap, from 1.25% to 1.00%, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the fiduciary net position of the SDTF, JDTF, and the School Division were projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Sensitivity of the net pension liability to changes in the discount rate

The following table presents the proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

Discount rate sensitivity

(Amount in thousands)	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
	<u>Proportionate Share of the Net Pension Liability</u>		
State Division Trust Fund	\$ 9,985,223	\$ 7,079,388	\$ 4,636,521
Judicial Division Trust Fund	54,925	8,588	(31,150)
School Division Trust Fund	1,761,694	1,196,870	725,545
DPS Division Trust Fund	130,656	1,355	(105,405)

Pension plan fiduciary net position. Detailed information about the SDTF's fiduciary net position is available in PERA's annual comprehensive financial report (ACFR) which can be at www.copera.org/investments/pera-financial-reports.

Payables to the PERA Defined Benefit Pension Plan

A short-term payable of approximately \$3.45 million existed at June 30, 2022 for employer and employee contributions due to PERA. C.R.S. 24-51-401 requires employer, employee, and retiree contributions be remitted to PERA within five days after the date the members and retirees are paid. PERA Rule 4.10-A specifies that employers are responsible for payment of interest computed on a daily rate for contributions not remitted timely.

Alternate Medicare Payment

Plan description. The University of Colorado offers an Alternate Medicare Payment (AMP) to retirees of the University of Colorado Optional Retirement Plan (ORP) participating in Medicare as an alternative to healthcare coverage provided under the University OPEB Plan (University OPEB). The AMP is a single- employer, defined benefit, pension plan established by the University who also administers and has the authority to amend benefits (e.g., ad hoc postemployment benefit changes). No assets are accumulated in a trust as the University funds the AMP on a pay-as-you-go basis. No stand-alone financial report is issued, and the AMP is not included in the report of a public employee retirement system.

Benefits. A participant must be in a benefits-eligible position at 50 percent or greater appointment immediately preceding retirement and have met the required number of service years. Only ORP retirees participating in Medicare are eligible to receive AMP benefits. The AMP is available to the employee and eligible spouse/same gender domestic partner. AMP benefits are not provided for dependent children. The AMP is non-contributory for the retiree and provides a monthly, non-salary dependent, cash payment to offset healthcare-related costs. As the monthly cash payments are not restricted as to use, they are considered a pension benefit rather than OPEB. Since the AMP's inception, monthly cash payments have been \$154 for a retiree, \$262 for a retiree plus spouse/same gender domestic partner, and \$108 for a surviving spouse.

Employees Covered by Benefit Terms. The actuarial valuation was based on census data as of March 1, 2022. Table below is a summary of the employees covered by the benefit terms used in the valuation.

Employees Covered by AMP's Benefit Terms

Active employees	15,114
Retirees and beneficiaries currently receiving benefit payments	887
Retirees and beneficiaries entitled to but not yet receiving benefit payments	266
Total	16,267

Total Pension Liability. The AMP's total pension liability at June 30, 2022 of \$124.7 million was measured as of June 30, 2021, and was determined by an actuarial valuation as of that date. The University contributed \$2.0 million for the year ended June 30, 2022.

Actuarial Assumptions and Other inputs. The AMP's total pension liability in the June 30, 2021 actuarial valuation was determined using the actuarial assumptions and other inputs in Table below.

AMP's Actuarial Assumptions and Other Inputs

Actuarial cost method	Entry age
Inflation rate	2.50%
Discount rate	2.15%
Benefit cost trend rate	2.50%

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Bond Index.

Mortality rates were based upon the PUB-2010 Amounts-Weighted Teachers Classification Table for Employees with generational projection using Scale MP-2021. With the exception of the mortality assumption, the demographic

assumptions (retirement rates, termination rates, and salary scale) are based upon the December 31, 2019 Colorado PERA assumption study.

Changes in the Total Pension Liability. Table below details the changes in the AMP's total pension liability during Fiscal Year 2022.

**Reconciliation of AMP's Total Pension Liability
(in thousands)**

Fiscal Year Ending June 30, 2022	
Total pension liability, beginning of year	\$119,804
Changes recognized for the fiscal year:	
Service cost	7,048
Interest on total AMP liability	2,771
Differences between expected and actual experience	(5,842)
Changes of assumption	2,700
Estimated benefit payments	(1,819)
Net changes	4,858
Total pension liability, end of year	\$124,662

Sensitivity of the total pension liability to changes in the discount rate. The following table presents the total pension liability of the AMP, as well as what the AMP's total pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate.

**Sensitivity of AMP's Total Pension Liability to Changes in the
Discount Rate (in thousands)**

	1% Decrease	Discount Rate	1% Increase
Fiscal year ended	1.15%	2.15%	3.15%
June 30, 2022	150,762	124,662	104,308

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension. The University recognized \$13.4 million of pension expense for the AMP in Fiscal Year 2022. The following table presents the AMP's deferred outflows of resources and deferred inflows of resources related to pension from the following sources as of June 30, 2022.

AMP Deferred Outflows and Inflows of Resources (in thousands)		
	Deferred Outflows	Deferred Inflows
Changes in Assumptions	29,170	1,310
Differences between expected and actual experience	-	9,194
Benefit payments subsequent to the measurement date	2,029	-
Total	31,199	10,504

The \$2.03 million reported as deferred outflows of resources as of June 30, 2022, resulting from benefit payments subsequent to the measurement date, will be recognized as a reduction to the AMP's total pension liability in the year ended June 30, 2023.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as summarized in table below.

**Future Amortization of AMP's Deferred
Outflows of Resources and Inflows of
Resources (in thousands)**

Years ending June 30:		
2023	\$	3,581
2024		3,581
2025		2,941
2026		2,681
2027		2,663
2028-2030		3,219
Total	\$	18,666

The following table lists the amortization bases included in the AMP's deferred outflows and inflows of resources as of June 30, 2022.

Amortization of AMP Deferred Outflows of Resources and Deferred Inflows of Resources (in thousands)						
Date Established	Type of Base	Period		Balance		Annual Amortization
		Original	Remaining	Original	Remaining	
July 1, 2016	Differences between expected and actual experience	8.5	2.5	\$ (101)	(29)	(12)
July 1, 2016	Changes in assumptions	8.5	2.5	10,999	3,235	1,294
July 1, 2017	Differences between expected and actual experience	8.5	3.5	(3,377)	(1,392)	(397)
July 1, 2017	Changes in assumptions	8.5	3.5	(3,180)	(1,310)	(374)
July 1, 2018	Differences between expected and actual experience	8.3	4.3	(109)	(57)	(13)
July 1, 2018	Changes in assumptions	8.3	4.3	4,940	2,560	595
July 1, 2019	Differences between expected and actual experience	8.3	5.3	(3,865)	(2,467)	(466)
July 1, 2019	Changes in assumptions	8.3	5.3	4,845	3,093	584
July 1, 2020	Differences between expected and actual experience	8.5	6.5	(124)	(94)	(15)
July 1, 2020	Changes in assumptions	8.5	6.5	23,408	17,900	2,754
July 1, 2021	Differences between expected and actual experience	8.5	7.5	(5,842)	(5,155)	(687)
July 1, 2021	Changes in assumptions	8.5	7.5	2,700	2,382	318
				Total	\$ 18,666	\$ 3,581

NOTE 7 – OTHER POST EMPLOYMENT BENEFIT (OPEB) PLANS

Summary of OPEB Plans

The State of Colorado participates in the following OPEB plans:

- PERA Health Care Trust Fund (HCTF) OPEB
- University of Colorado Healthcare and Life Insurance Subsidy
- Colorado State University OPEB
 - Retiree Medical Premium Refund Plan for DCP Participants
 - Retiree Medical Premium Subsidy for PERA Participants
 - Retiree Umbrella Rx Plan for PERA Participants
 - Long-Term Disability Plan

Disclosures provided in this note are applicable to the PERA Health Care Trust Fund (HCTF) OPEB and to the University of Colorado OPEB.

PERA Health Care Trust Fund OPEB

Summary of Significant Accounting Policies

The State of Colorado participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the OPEB Plan

Eligible employees of the State are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues an annual comprehensive financial report (ACFR) available at: www.copera.org/investments/pera-financial-reports.

Benefits Provided

The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

DPS Benefit Structure

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Contributions

Pursuant to Title 24, Article 51, Section 208(1) (f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the State is statutorily committed to pay the contributions. Contributions made by the State and allocated to the HCTF for purposes of financial reporting were \$31.6 million for the year ended June 30, 2022.

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

At June 30, 2022, the State reported a liability of \$276.9 million for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2020. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2021. The State’s proportion of the net OPEB liability is based on contributions to the HCTF from the State for the calendar year 2021 relative to the total contributions of participating employers to the HCTF.

At December 31, 2021, the State’s proportion was 32.11 percent, which was a decrease of 0.85 percent from its proportion measured as of December 31, 2020.

For the fiscal year ended June 30, 2022, the State recognized OPEB expense of \$2.25 million. At June 30, 2022, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

(Amounts in thousands)	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 422	\$ 65,648
Changes of assumptions or other inputs	5,732	15,018
Net difference between projected and actual earnings on pension plan investments	-	17,138
Changes in proportion and differences between contributions recognized and proportionate share of contributions	15,927	29,449
Contributions subsequent to the measurement date	17,420	-
Total	<u>\$ 39,501</u>	<u>\$ 127,253</u>

\$17.4 million reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30:	(Amounts in thousands)
2023	\$ (28,081)
2024	\$ (30,226)
2025	\$ (28,068)
2026	\$ (13,676)
2027	\$ (4,414)
Thereafter	\$ (708)

Actuarial Assumptions

The total OPEB liability in the December 31, 2020 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

	Trust Fund			
	State	School	Local	Judicial
	Division	Division	Government	Division
Actuarial cost method	Entry age	Entry age	Entry age	Entry age
Price inflation	2.30%	2.30%	2.30%	2.30%
Real wage growth	0.70%	0.70%	0.70%	0.70%
Wage inflation	3.00%	3.00%	3.00%	3.00%
Salary increases, including wage inflation:				
Members other than State Troopers	3.30%-10.90%	3.40%-11.00%	3.20%-11.30%	2.80%-5.30%
State Troopers	3.20%-12.40%	N/A	3.20%-12.40%*	N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

In determining the additional liability for PERACare enrollees who are age sixty-five or older and who are not eligible for premium-free Medicare Part A, the following monthly costs/premiums are assumed for 2021 for the PERA Benefit Structure:

Medicare Plan	Cost for Members Without Medicare Part A	Premiums for Members Without Medicare Part A
Medicare Advantage/Self-Insured Prescription	\$633	\$230
Kaiser Permanente Medicare Advantage HMO	\$596	\$199

The 2021 Medicare Part A premium is \$471 per month.

In determining the additional liability for PERACare enrollees in the PERA Benefit Structure who are age sixty-five or older and who are not eligible for premium-free Medicare Part A, the following chart details the initial expected value of Medicare Part A benefits, age adjusted to age 65 for the year following the valuation date:

Medicare Plan	Cost for Members Without Medicare Part A
Medicare Advantage/Self-Insured Prescription	\$591
Kaiser Permanente Medicare Advantage HMO	\$562

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2020, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2021	4.50%	3.75%
2022	6.00%	3.75%
2023	5.80%	4.00%
2024	5.60%	4.00%
2025	5.40%	4.00%
2026	5.10%	4.25%
2027	4.90%	4.25%
2028	4.70%	4.25%
2029+	4.50%	4.50%

Mortality assumptions used in the December 31, 2020, valuation for the determination of the total pension liability for each of the Division Trust Funds as shown below, reflect generational mortality and were applied, as applicable, in the determination of the total OPEB liability for the HCTF, but developed using a headcount-weighted basis. Affiliated employers of the State, School, Local Government and Judicial Divisions participate in the HCTF.

Pre-retirement mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for State Troopers were based upon the PubS-2010 Employee Table with generational projection using scale MP-2019.

The pre-retirement mortality assumptions for the School Division were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for the Judicial Division were based upon the PubG-2010(A) Above-Median Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Healthy Retiree Table, adjusted as follows:

- Males: 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the School Division were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows:

- Males: 112 percent of the rates prior to age 80 and 94 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 83 percent of the rates prior to age 80 and 106 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the Judicial Division were based upon the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- Females: 105 percent of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions for Members other than State Troopers were based upon the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

Disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.

The mortality tables described above are generational mortality tables on a head-count weighted basis.

The following health care costs assumptions were updated and used in the roll forward calculation for the HCTF:

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2021 plan year.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by the Board’s actuary, as discussed above. The actuarial assumptions used in the December 31, 2020, valuation were based on the results of the 2020 experience analysis for the period January 1, 2016, through December 31, 2019, and were reviewed and adopted by the PERA Board at their November 20, 2020, meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25 percent.

Sensitivity to Changes in Health Care Cost Trend Rates

The following table presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

Sensitivity - Health Care Cost Trend Rates

(Amounts in thousands)	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
Initial PERACare Medicare trend rate	3.50%	4.50%	5.50%
Ultimate PERACare Medicare trend rate	3.50%	4.50%	5.50%
Initial Medicare Part A	2.75%	3.75%	4.75%
Ultimate Medicare Part A	3.50%	4.50%	5.50%
Net OPEB Liability	\$268,912	\$276,863	\$286,073

Discount rate. The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2021, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the HCTF’s fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Sensitivity to Changes in the Discount Rate

The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

Sensitivity - Discount rate

(Amount in thousands)	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate Share of the Net OPEB Liability	\$ 321,548	\$ 276,863	\$ 238,695

OPEB plan fiduciary net position. Detailed information about the HCTF’s fiduciary net position is available in PERA’s ACFR which can be obtained at www.copera.org/investments/pera-financial-reports.

Payables to the PERA Health Care Trust OPEB Plan

A short-term payable of approximately \$167 thousand existed at June 30, 2022 for employer and employee contributions due to PERA. Section 24-51-401(1.7)(a)(I), C.R.S. requires employer, employee, and retiree contributions be remitted to PERA within five days after the date the members and retirees are paid. PERA Rule 4.10-

A specifies that employers are responsible for payment of interest computed on a daily rate for contributions not remitted timely.

University of Colorado Healthcare and Life Insurance Subsidy (University OPEB)

Plan description. University OPEB provides OPEB for University employees who participate in either the University of Colorado Optional Retirement Plan (ORP) or the University of Colorado PERA Retirement Plans (PERA). University OPEB is a single-employer, defined benefit, OPEB plan administered by the University, and established by the Regents (Regent Policy 11.F Benefits) who have the authority to amend plan provisions. No assets are accumulated in a trust that meets the criteria established in GAAP, as the University funds University OPEB on a pay-as-you-go basis. No stand-alone financial report is issued, and University OPEB is not included in the report of a public employee retirement system.

Benefits. The University subsidizes a portion of healthcare and life insurance premiums for retirees on a pay-as-you-go basis. All employees in a benefit-eligible position at 50 percent or greater appointment immediately preceding retirement are eligible to participate based on age and years of service. Spouses/partners, surviving spouses/partners, and dependents are eligible for benefits. The University specifies the maximum amount that it will contribute towards retiree healthcare benefits at the beginning of each coverage period. The retiree is required to make up the difference between the total cost and the amount contributed by the University. Benefits are not dependent on salary. For non-Medicare retirees, the subsidy for medical plans ranges from \$610 per month to \$1,736 per month depending on the number of individuals covered. For Medicare retirees, the subsidy ranges from \$406 per month to \$1,030 per month depending on the number of individuals covered. For dental plans, the subsidy ranges from \$0 per month to \$58 per month. The amount of life insurance offered is the lesser of 25 percent of the employee’s pre-retirement benefit or \$3,000. It is assumed for purposes of this report that everyone is eligible for the maximum life insurance benefit of \$3,000.

For ORP retirees, normal retirement benefits are available at age 55 with 20 years of service. Early retirement benefits begin at age 55 with 15 years of service. For PERA retirees, normal retirement benefits begin at 20 years of service and the individual must meet requirements as defined by PERA. The individual must retire with PERA concurrent with or prior to retirement from the University. Early retirement is available with fewer than 20 years of service. Healthcare benefits for PERA retirees cease at age 65. Following the death of an active employee, the surviving spouse receives 100 percent of the University contribution for a period of two years. After two years, the surviving spouse receives the portion of the University contribution that the employee earned immediately prior to death.

The percentage of the University contribution the retiree receives is based on the retiree’s years of service at retirement divided by the required number of years of service. Enrollment in University OPEB is voluntary. University and participant payments for healthcare benefits are paid to the University of Colorado Health and Welfare Trust which is responsible for administration of healthcare benefits. The University contributed \$16.2 million for the fiscal year ended June 30, 2022.

Employees Covered by Benefit Terms. The actuarial valuation was based on census data as of March 1, 2022. The following table presents a summary of the employees covered by the benefit terms used in the valuation.

	Healthcare		Life Insurance	
	ORP	PERA	ORP	PERA
Active employees	15,114	5,831	16,593	5,030
Retirees and beneficiaries	1,648	536	2,337	3,305
Total	16,762	6,367	18,930	8,335

Total OPEB Liability. The University OPEB’s total OPEB liability at June 30, 2022 of \$1.29 billion was measured as of June 30, 2021, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the actuarial assumptions and other inputs in the following table, applied to all periods included in the measurement, unless otherwise specified.

University OPEB's Actuarial Assumptions and Other Inputs

Actuarial cost method	Entry age
Discount rate	2.15% at 6/30/2021 measurement date
Inflation	2.50%

Healthcare Cost Trend Rates:

Year	Non-Medicare			Medicare		
	Medical	Rx	Contributions	Medical	Rx	Contributions
2021-2022	6.7%	9.5%	7.3%	5.7%	9.5%	8.3%
2022-2023	6.6%	9.0%	7.1%	5.6%	9.0%	7.9%
2023-2024	6.4%	8.5%	6.9%	5.4%	8.5%	7.5%
2024-2025	6.1%	7.9%	6.6%	5.3%	7.9%	7.1%
2025-2026	5.9%	7.4%	6.2%	5.1%	7.4%	6.7%
2026-2027	5.6%	6.8%	5.9%	5.0%	6.8%	6.3%
2027-2028	5.3%	6.2%	5.5%	4.9%	6.2%	5.8%
2028-2029	5.0%	5.6%	5.2%	4.8%	5.6%	5.4%
2029-2030	4.8%	5.1%	4.8%	4.6%	5.1%	4.9%
2030-2031+	4.5%	4.5%	4.5%	4.5%	4.5%	4.5%

Dental trend rate 4.50% in all years.

Administrative expense trend rate is 3.00% in all years.

Retirees' Share of Benefit Related Costs:

Plan	Retiree Only	Retiree and Spouse or Partner
Kaiser Medical	\$ 116.00	\$ 315.50
Exclusive Medical	\$ 54.00	\$ 193.50
High Deductible Medical	\$ -	\$ 20.00
Medicare Primary Medical	\$ 41.31	\$ 207.00
Essential Dental	\$ -	\$ 17.00
Choice Dental	\$ 17.00	\$ 51.50
Premier Dental	\$ 46.50	\$ 82.50

The discount rate was based upon the Bond Buyer General Obligation 20-Bond Municipal Bond Index.

Mortality rates were based upon the PubT.H-2010 – Healthy Retiree Table for Males or Females, as appropriate, with generational projection using Scale MP-2020.

With the exception of the mortality assumption, the demographic assumptions (retirement rates, termination rates, and salary scale) are based upon the December 31, 2019 Colorado PERA assumption study,

Changes in the Total OPEB Liability. The following table details the changes in the University's total OPEB plan liability during fiscal year 2022.

Reconciliation of University OPEB's Total OPEB Liability *(in thousands)*

	Total OPEB Liability
Balance recognized at June 30, 2021	\$ 941,595
Changes recognized for the fiscal year:	
Services cost	68,640
Interest on total OPEB liability	22,068
Differences between expected and actual experience	201,889
Changes of assumption	67,418
Benefit payments	(14,407)
Net changes	345,608
Balance recognized at June 30, 2022	\$ 1,287,203

Changes of assumptions and other inputs reflect:

- Discount rate changed from 2.20 percent to 2.15 percent.
- Mortality table was updated from PUB-2010 "Teachers" table with generational projection using Scale PM-2020 to the PUB-2010 "Teachers" table with generational projection using Scale MP-2021.
- Retirement rates for PERA employees, termination rates, and salary scale were updated from the December 31, 2015 Colorado PERA assumption study to the December 31, 2019 Colorado PERA assumption study.
- Claims and trend rates were updated to better reflect expected future plan experience.

Sensitivity of the total OPEB liability to changes in the discount rate. The following table presents the total OPEB liability of the University OPEB, as well as what University OPEB's total OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current discount rate for the fiscal year ended June 30, 2022.

Sensitivity of University OPEB's Total OPEB Liability to Changes in the Discount Rate *(in thousands)*

	1% Decrease	Discount Rate	1% Increase
Fiscal year ended	1.15%	2.15%	3.15%
June 30, 2022	1,540,846	1,287,203	1,088,688

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The following table presents the total OPEB liability of the University OPEB, as well as what the University OPEB's total OPEB liability would be if it were calculated using healthcare cost trend rates that are one-percentage-point lower or one-percentage-point higher than the current healthcare cost trend rates for the fiscal year ended June 30, 2022.

Sensitivity of University OPEB's Total OPEB Liability to Changes in the Healthcare Cost Trend Rate *(in thousands)*

	1% Decrease	Trend Rate	1% Increase
Fiscal year ended			
June 30, 2022	1,057,189	1,287,203	1,594,139

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

Related to OPEB. The University recognized \$107.0 million in OPEB expense for the University OPEB Plan in fiscal year 2022. There are no assets accumulating in trust for the University OPEB plan. The following table illustrates the deferred outflows and inflows of resources from various sources as of June 30, 2022.

University OPEB's Deferred Outflows and Inflows of Resources *(in thousands)*

	Deferred Outflows	Deferred Inflows
Differences between expected and actual experience	175,883	153,399
Changes in Assumptions	202,699	15,051
Contributions subsequent to the measurement date	16,226	-
Total	394,808	168,450

The \$16.2 million reported as deferred outflows of resources as of June 30, 2022 resulting from contributions subsequent to the measurement date, will be recognized as a reduction to the University's OPEB liability in the year ending June 30, 2023.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as shown in the following table.

Future Amortization of University OPEB's Deferred Outflows of Resources and Inflows of Resources (in thousands)	
Years ending June 30:	
2023	\$ (16,294)
2024	(16,294)
2025	(27,162)
2026	(32,129)
2027	(43,407)
2028-2029	(74,846)
Total	\$ (210,132)

Amortization bases included in the University's OPEB deferred outflows and inflows of resources as of June 30, 2022 are presented in the following table.

Amortization of University OPEB's Deferred Outflows of Resources and Deferred Inflows of Resources (*in thousands*)

Date Established	Type of Base	Period		Balance		Annual Amortization
		Original	Remaining	Original	Remaining	
July 1, 2017	Differences between expected and actual experience	7.4	2.4	\$ (87,654)	(28,429)	(11,845)
July 1, 2017	Changes in assumptions	7.4	2.4	(46,406)	(15,051)	(6,271)
July 1, 2018	Differences between expected and actual experience	7.5	3.5	(1,728)	(808)	(230)
July 1, 2018	Changes in assumptions	7.5	3.5	35,919	16,763	4,789
July 1, 2019	Differences between expected and actual experience	7.5	4.5	(209,938)	(124,162)	(27,592)
July 1, 2019	Changes in assumptions	7.5	4.5	3,678	2,208	490
July 1, 2020	Differences between expected and actual experience	7.7	5.7	287	213	37
July 1, 2020	Changes in assumptions	7.7	5.7	168,948	125,066	21,941
July 1, 2021	Differences between expected and actual experience	7.7	6.7	201,889	175,670	26,219
July 1, 2021	Changes in assumptions	7.7	6.7	67,418	58,662	8,756
				Total	\$ 210,132	\$ 16,294

NOTE 8 – OTHER EMPLOYEE BENEFITS

A. MEDICAL AND DISABILITY BENEFITS

The Group Benefit Plans Fund is a Pension and Other Employee Benefits Trust Fund established for the purpose of risk financing employee and state-official medical claims. The fund includes several medical plan options ranging from provider of choice to managed care. The State uses a self-funded approach for certain employee and state-official medical claims. The State's contribution to the premium is subject to appropriation by the legislature each year, and State employees pay the difference between the State's contribution and the premium required to meet actuarial estimates. Since the amount of the State contribution is at the discretion of the legislature, employees ultimately bear the risk of funding the benefit plans.

The premiums, which are based on actuarial analysis, are intended to cover claims, reserves, third party administrator fees, stop-loss premiums and other external administration costs (such as COBRA and case management). Premiums also include a fee to offset the internal costs of administering the plan. Internal costs include developing plan offerings, maintaining the online benefits system, and communicating benefit provisions to employees. Employee healthcare premiums are allowed on a pretax basis under the State's Salary Reduction Plan Document. Effective July 1, 2013, premiums also included a fee to implement a statewide wellness program. During Fiscal Year 2022, covered employees who elected to participate in the wellness plan received a monthly health insurance premium credit of \$20 depending on the level of participation.

The Group Benefit Plans short-term disability program provides an employee with 60 percent of their pay beginning after 30 days of disability or exhausting their sick leave balance, whichever is later. This benefit expires six months after the beginning of the disability.

For the fiscal year ended June 30, 2022, the State offered three statewide, self-funded PPO options administered by Cigna and three regional, fully-insured HMO options administered by Kaiser Permanente. Two of these medical options were HSA-qualified high-deductible health plans (HDHPs). The State offers two statewide dental PPO plans and two statewide vision PPO plans administered by Delta Dental and EyeMed, respectively.

The Public Employees Retirement Association (PERA) covers short-term disability claims for State employees eligible under its retirement plan (see Note 6). The Group Benefit Plans Fund provides short-term disability coverage for employees not yet qualified for the retirement plan and secondary benefits for employees also covered under the PERA short-term disability plan.

B. DEFINED CONTRIBUTION RETIREMENT PLANS

Defined Contribution Retirement Plan (PERA DC Plan)

Plan Description – Employees of the State of Colorado that were hired on or after January 1, 2006, and employees of certain community colleges that were hired on or after January 1, 2008, which were eligible to participate in the SDTF, a cost-sharing multiple-employer defined benefit pension plan, have the option to participate in the SDTF or the Defined Contribution Retirement Plan (PERA DC Plan). Pursuant to C.R.S. § 24-51-1501(4), the PERA DC Plan eligibility was extended to certain new classified employees at State Colleges and Universities beginning on January 1, 2019. The PERA DC Plan is an Internal Revenue Code Section 401(a) governmental profit-sharing defined contribution plan. Title 24, Article 51, Part 15 of the C.R.S., as amended, assigns the authority to establish Plan provisions to the PERA Board of Trustees. The DC Plan is also included in PERA's Annual Report as referred to above.

Funding Policy – All participating employees in the PERA DC Plan and the State of Colorado are required to contribute a percentage of PERA-includable salary to the PERA DC Plan. Employee contribution rates increased

0.50% on July 1, 2021, pursuant to C.R.S. § 24-51-401(1.7). In addition, employee contribution rates will increase 0.50% on July 1, 2022, pursuant to the Automatic Adjustment Provision (AAP), as specified in C.R.S. § 24-51-413.

The employee and employer contribution rates are summarized in the tables below:

	January 1, 2021 Through June 30, 2021	July 1, 2021 Through December 31, 2021	January 1, 2022 Through June 30, 2022
Employee Contribution Rates:			
All employees other than State Troopers	10.00%	10.50%	10.50%
State Troopers	12.00%	12.50%	12.50%
Employer Contribution Rates:			
On behalf of all employees other than State Troopers	10.15%	10.15%	10.15%
State Troopers	12.85%	12.85%	12.85%

Contribution Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Additionally, the employers are required to contribute AED, SAED, and other statutory amounts, as follows:

	January 1, 2021 Through June 30, 2021	July 1, 2021 Through December 31, 2021	January 1, 2022 Through June 30, 2022
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411	5.00%	5.00%	5.00%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411	5.00%	5.00%	5.00%
Automatic Adjustment Provision (AAP), as specified in C.R.S. § 24-51-413	0.50%	0.50%	0.50%
Defined Contribution statutory contribution as specified in C.R.S. § 24-51-1505	0.25%	0.25%	0.25%
Defined Contribution Supplement as specified in C.R.S. § 24-51-415	0.05%	0.05%	0.10%
Total employer contribution rate to the SDTF	10.80%	10.80%	10.85%

Contribution Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Contribution requirements are established under Title 24, Article 51, Section 1505 of the C.R.S., as amended. Participating employees of the PERA DC Plan are immediately vested in their own contributions and investment earnings and are immediately 50 percent vested in the amount of employer contributions made on their behalf. For each full year of participation, vesting of employer contributions increases by 10 percent. Forfeitures are used to pay expenses of the PERA DC Plan in accordance with PERA Rule 16.80 as adopted by the PERA Board of Trustees in accordance with Title 24, Article 51, Section 204 of the C.R.S. As a result, forfeitures do not reduce pension expense.

For the Fiscal Year ending June 30, 2022, the State of Colorado recognized pension expense of \$17.5 million for the PERA DC Plan.

University of Colorado - Optional Retirement Plan

Under the University's optional retirement plan (ORP), a 401(a) plan, certain members of the University are required to participate in a defined contribution retirement plan administered by the University for the benefit of full-time faculty and exempt staff members. The State constitution assigns the authority to establish and amend plan provisions to the Regents. The contribution requirements of plan members and the University are established and may be amended by the Regents. Generally, employees are eligible for participation in the ORP upon hire and are vested immediately upon participation.

For the year ended June 30, 2022, the University's contribution to the defined contribution retirement plan was equal to 10 percent of covered payroll, and the employee contribution was equal to 5 percent of covered payroll. The University's contribution under the ORP approximated \$187.2 million.

Participants in the University's ORP choose to invest all contributions with one or more of three designated vendors. In addition, participants in the University's ORP are covered under federal Social Security. Federal Social Security regulations require both the employer and employee to contribute a percentage of covered payroll to Social Security.

Colorado State University - University Optional Retirement Plan – The Defined Contribution Plan for Retirement (DCP)

Under the University's optional retirement plan, all Academic Faculty, Administrative Professionals, Post-Doctoral Fellows, Veterinary Interns and Clinical Psychology Interns appointed on or after April 1, 1993, are required as a condition of employment under Colorado law to participate in either the University's Defined Contribution Plan (DCP) for Retirement or, in very limited cases, in the PERA Defined Benefit plan (as eligibility permits). DCP participants may select from three investment companies as follows:

- Fidelity Investments / MetLife (eligible Faculty/Staff at CSU-Pueblo do not have access to this investment company)
- Teachers Insurance and Annuity Association (TIAA)
- AIG Retirement Services (AIG)

The defined contribution retirement plans are established pursuant to state statute (24 54.5 101 to 24 54.5 107 C.R.S.). The CSU plan was adopted by the Board of Governors in December 1992 and the CSU-Pueblo plan was adopted in April 1993. The Defined Contribution Retirement Plan is a qualified plan under Section 401(a) of the IRC. CSU and CSU-Pueblo are the Plan Sponsors. All participants contribute the required eight percent of eligible salary. As required, CSU provides a matching contribution of 12.0 percent of eligible salary for all "permanent" appointees (those with regular, special and senior teaching appointments at half time or greater) and for temporary appointees with appointments of half time or greater for the second and subsequent consecutive year(s). CSU-Pueblo provides a matching contribution of 11.1 percent, as required, of eligible salary for all nonstudent employees, including those employees at less than half time and nonstudent temporary, hourly employees. Both employee and employer contributions are vested immediately. Investments are participant directed within the funds available through the authorized investment companies. For the year ended June 30, 2022, the System's contribution to the defined contribution retirement plan was equal to 11.3 percent of covered payroll, and the employee contribution was equal to 8 percent of covered payroll. The System's contribution under the ORP approximated \$56.4 million during the year ended June 30, 2022.

NOTE 9 – RISK MANAGEMENT

State Risk Management – Liability Fund and Workers' Compensation

The State currently self-insures its agencies, officials, and employees for certain risks of loss to which they are exposed. These include general liability, motor vehicle liability, and workers' compensation. The State also purchases Stop Loss insurance to mitigate the risk of loss on claims paid. The State receives reimbursement for claims by individual claimant over \$500,000.

Workers' Compensation losses are self-insured pursuant to the Risk Management Act (24-30-1501). Excess Worker's Compensation insurance policy is purchased with a \$10,000,000 per occurrence deductible and a \$50,000,000 per occurrence limit.

Property Losses - "all risk, including flood and equipment breakdown" insurance policy is purchased with a \$500,000 per occurrence deductible, and a limit of \$450,000,000 per occurrence. Per statute, individual Department property claims have a \$5,000 per occurrence deductible (effective July 1, 2011).

Liability losses are self-insured pursuant to the Risk Management Act, including automobile liability, general liability, employment liability, and other claims brought under State and Federal law. Claims brought under state law are limited to \$387,000 per person and \$1,093,000 (for claims that occur on or after January 1, 2018 and before January 1, 2022) per accident pursuant to the Colorado Governmental Immunity Act (CGIA 24-10-101). Excess Public Liability coverage is purchased for claims outside of Colorado and claims brought under Federal law with a \$2,000,000 per occurrence deductible and a \$5,000,000 per occurrence limit. A Crime insurance policy is purchased with \$250,000 per occurrence deductible and a \$10,000,000 per occurrence limit to cover losses due to employee dishonesty and theft. There were no reductions in coverage. No settlements or judgments exceeded insurance coverage for each of the past five fiscal years. The estimated fiscal year end Incurred But Not Reported liability was provided by an independent actuary. No participation in a risk pool. We contract with an actuary to estimate liabilities in the workers' compensation and liability funds. There are no outstanding amounts for claims where annuities were purchased and the related liability removed from the books.

All funds and agencies of the State, except for the University of Colorado, Colorado State University (not including CSU-Pueblo and CSU-Global), the University of Northern Colorado, Colorado School of Mines, Fort Lewis College, Colorado Mesa University, Western State Colorado University, Adams State University and component units participate in the State Risk Management Fund. State agency premiums are based on an assessment of risk exposure and historical claims experience.

Claims are reported in the General Fund in accordance with GASB Interpretation No. 6, and therefore, related liabilities are only reported to the extent that they are due and payable at June 30. On the government-wide statements, risk management liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Those liabilities include an amount for claims that have been incurred but not reported and an adjustment for non-incremental claims expense that is based on current administrative costs as a percentage of current claims and projected to the total actuarial claims estimate.

Because actual claims liabilities depend on complex factors such as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. A contractor completes an actuarial study each year determining both the current and long-term liabilities of the Risk Management Fund.

Colorado employers, including the State, are liable for occupational injuries and diseases of their employees through workers' compensation insurance or self-insurance. Benefits are prescribed by the Workers' Compensation Act of Colorado for medical expenses and loss of wages resulting from job-related injuries. The State is self-insured and uses the services of a third party administrator, CorVel Corporation, to administer its plan. The State reimburses CorVel the current cost of claims paid and related administrative expenses.

From January 1, 2000 through June 30, 2005, the State and its employees purchased insurance for medical claims. Beginning July 1, 2005, the State returned to the self-funding approach (used prior to January 1, 2000) for medical claims except for stop-loss insurance purchased for claims over \$500,000 per individual. The State also maintains a fully insured health plan with Cigna that is separate from the self-funded plan. In Fiscal Year 2022, the State recovered \$6.2 million related to the stop-loss insurance claims. The State's contribution to medical premiums is subject to appropriation by the legislature each year, and State employees pay the difference between the State's contribution and the premium required to meet actuarial estimates. Since the amount of the State's contribution is at the discretion of the legislature, employees ultimately bear the risk of funding the benefit plans. The claims and related liabilities are reported in the Group Benefit Plans, a Pension and Other Employee Benefits Trust Fund.

The State recorded approximately \$9.8 million of insurance recoveries during Fiscal Year 2022. Of that amount approximately \$1.1 million was related to asset impairments that occurred in prior years. The remaining \$8.7 million relates to the current year and was primarily recorded by Group Benefits Plans (including the \$6.2 million, as noted above), a Pension and Other Employee Benefits Fund, and \$1.3 million by Higher Education in the Higher Education Institutions Fund.

University of Colorado – General Liability, Property, and Workers' Compensation

The University of Colorado is self-insured for workers' compensation, auto, property and general liability claims. The Fund's liabilities are projected on a semi-annual basis by an actuary, Willis Towers Watson. The University has purchased excess insurance to cover losses over its' self-insured retention (SIR), which varies by line of coverage and policy year. The current SIR levels are \$500,000 per property claim, \$1,500,000 per workers' compensation claim, and \$1,250,000 per general liability claim. Tort claims are subject to the governmental immunity act, and damages are capped for specified areas at \$350,000 per person and \$990,000 per occurrence.

In October 2018, the University of Colorado formed a captive insurance company, Altitude West. A captive is a limited purpose, licensed insurance company; the main business purpose of which is to insure the risks of the captive's owner, who is also its principal beneficiary. The captive insurance company owner has direct involvement in and influence over the captive's major operations, including underwriting, claims management, policy form, and investments. Altitude West operates by and for the University of Colorado. The advantages offered by Altitude West as a captive insurer are significant. It gives the University the ability to provide customized coverage specific policy forms that will allow CU to address its unique risks and exposures. There were no reductions in insurance coverage in the prior year. There are 4 claims that exceeded coverage in the past three fiscal years: two Property and two General Liability.

University of Colorado Denver – Graduate Medical Education Health Benefits Program and Medical Malpractice

The University of Colorado Anschutz Medical Campus and its faculty and staff are self-insured for medical malpractice liability under the terms of the Colorado Governmental Immunity Act. The University of Colorado Self-Insurance Trust to cover claims greater than \$500,000 per claimant and \$1,500,000 per occurrence. The policy provides \$10,000,000 coverage in aggregate annually; GME Health Benefit Program: The CU Graduate Medical Education (GME) Health Benefits Program is a comprehensive health and dental insurance program for physicians in training at the Anschutz Medical Campus. Coverage includes major medical, outpatient, lab, x-ray, prescriptions and personal psychiatric services for residents plus their immediate family (spouses and children). The plan's exposure to loss results from medical and dental claims filed on behalf of the enrolled members after receiving medical and dental services from qualified health care providers. Effective 7/1/2021, the program has been transferred to the University of Colorado Health and Welfare Trust, a fiduciary component unit of the University. No significant reductions in insurance coverage occurred during the fiscal year. Over the past three years, the plan has collected \$133,784 from the stop-loss insurance carrier for settlements in excess of the individual stop-loss insurance coverage; GME Health Benefit Program: Effective 7/1/2021, GME Health Benefits Program has been transferred to the University of Colorado Health and Welfare Trust, a fiduciary component unit of the University. No significant changes of reductions in insurance coverage from coverage in the prior year. The self-insured for medical malpractice liability in Anschutz Medical Campus is not in a risk pool. The basis of estimating the liability is from an annual actuarial study. The liability balance is discounted and established at a 75% confidence level. Additional information is on file in the Finance Office; GME Health Benefit Program: GME does not participate in a risk pool for this program. Liabilities are estimated using actuarial calculations from a professional insurance brokerage firm. Due to the nature of the plan,

claims are filed promptly after services are provided (typically within 30 days) with a limit stated in the plan that claims must be filed within 1 year of the date of service.

Colorado State University – Medical, Dental, and Disability Benefits and General Liability

The University of Colorado Graduate Medical Education (GME) Health Benefits Program is a comprehensive health and dental insurance program for physicians in training at the Anschutz Medical Campus. Coverage includes major medical, outpatient, lab, x-ray, prescriptions and personal psychiatric services for residents plus their immediate family (spouses and children). The plan's exposure to loss results from medical and dental claims filed on behalf of the enrolled members after receiving medical and dental services from qualified health care providers. Excess risk exposure is covered by the purchase of stop-loss insurance, which entitles GME to get reimbursement for claims exceeding \$325,000 per individual and per plan year. There were no reductions of insurance coverage in Fiscal Year 2021 for this program. There have been no claims against the aggregate stop-loss insurance in the previous three years; however, the University collected \$5.7 million from the stop-loss insurance carrier for individual claims in excess of the threshold over the previous three years. There was a high-cost claimant incurred in Fiscal Year 2020 with a result of \$5.1 million in reimbursements. An insurance brokerage firm estimates liabilities of the plan using actuarial methods.

Colorado State University is self-insured for medical, dental, short-term disability, liability and workers comp. Liabilities are based on a calculation using past experience and current data. CSU also purchases re-insurance which covers individual health care claims of more than \$350,000 in any plan (calendar) year. The health care plans have reserves that are set by CSU based upon the underwriting review by our benefits consultant and our third-party administrator. Workers comp, liability and property liability also have reserve accounts established. CSU instructs an Actuarial company to perform an annual actuarial study of CSU's Workers' Compensation and Liability self-insurance programs. CSU is self-insured for liability insurance and carries Excess Public Liability for claims exceeding \$500,000 per occurrence. CSU is liable for the first \$500,000 and purchases excess liability in the amount of \$25,000,000 per occurrence in two layers: the first layer of \$10,000,000 with United Educators, with a sexual abuse sublimit of \$5,000,000, and an additional layer of \$10,000,000 with Munich RE, and Indian Harbor, and Genesis providing an additional layer of \$5,000,000 for employers liability, and general and auto liability, respectively. CSU carries excess Workers Compensation. Under this coverage CSU is liable for the first \$500,000 and Safety National Casualty Company covers the rest up to Workers' Compensation's statutory limits. CSU carries excess insurance for property insurance with FM Global which provides coverage up to \$1,000,000,000 per occurrence after CSU covers the first \$100,000. CSU purchases standalone Terrorism insurance with limits of \$200,000,000. CSU purchases a standalone Fine Arts/Special Collections policy with limits of \$30,000,000. CSU carries Cyber Risk Liability Insurance with Homeland Insurance of New York (Resilience) with a liability limit of \$3,000,000 after the following deductible amount is met: \$500,000. CSU has International Liability Insurance with Great Northern Insurance Company for \$1,000,000. CSU carries Non-Owned Aviation Liability Insurance (Non-Owned) with Allianz with a liability limit of \$50,000,000 after CSU pays the \$1,000 deductible for each occurrence. CSU also carries UAV (Unmanned Aerial Vehicles) Liability Insurance with USAIG with a single limit of \$1,000,000 per occurrence. Insurance policies are reviewed regularly for gaps in coverage, and where appropriate additional coverage may be purchased. For FY19, additional limits of \$1,000,000 were purchased for social engineering coverage. As of March 1, 2016, CSU purchased liability, professional liability and pollution liability for all CEMML operations, including their prescribed burn operations. This insurance included a primary layer of \$2,000,000 aggregate, an umbrella layer of \$5,000,000, and an excess layer of \$5,000,000. Effective October 2017, CSU purchased additional limits of \$50,000,000 for CEMML operations, including additional responsibility for prescribed burning. There were no significant reductions in insurance coverage from the prior fiscal year. The amount of settlements has not exceeded coverage in any of the past three years. There are currently no discounted unpaid claims and no claims liabilities for which annuity contracts have been purchased.

Changes in claims liabilities were as follows:

Changes in Claims Liabilities
(Amounts in Thousands)

Fiscal Year	Liability at July 1	Current Year Claims and Changes in Estimates	Claim Payments	Liability at June 30
State Risk Management:				
Liability Fund

NOTE 10 – LEASES

For Fiscal Year 2022, the State implemented the requirements of Governmental Accounting Standards Board Statement No. 87 – Leases.

State as Lessee

The State leases office space, buildings, software, and equipment. The total lease liability at June 30, 2022 is \$262.4 million for governmental activities and \$159.1 million for business-type activities. There are no significant residual payments excluded from the measurement of the lease liability. Outflows of resources recognized in the reporting period for variable payments not previously included in the measurement of the lease liability are \$14.1 million. There are no significant outflows of resources recognized in Fiscal Year 2022 for other payments, including residual value guarantees or termination penalties, not previously included in the measurement of the lease liability. Interest expense on leases recognized in Fiscal Year 2022 is \$1.9 million for governmental activities and \$3.2 million for business-type activities.

The following table presents lease principal and interest requirements to maturity.

(Amounts in Thousands)

Fiscal Year(s)	Governmental Activities		Business-Type Activities	
	Principal	Interest	Principal	Interest
2023	\$ 44,761	\$ 1,526	\$ 21,277	\$ 2,429
2024	47,367	1,389	20,273	2,158
2025	42,936	1,192	16,629	1,854
2026	39,730	1,004	15,804	1,584
2027	25,125	835	14,514	1,327
2028 to 2032	41,085	2,569	46,092	3,849
2033 to 2037	18,150	836	21,133	1,177
2038 to 2042	3,126	109	3,160	121
2043 to 2047	87	9	200	13
2048 to 2052	59	2	42	-
Total	\$ 262,426	\$ 9,471	\$ 159,124	\$ 14,512

There were no significant commitments under leases that existed before the commencement of the lease term; no significant losses associated with impairments; no significant sublease or sale-leaseback/lease-leaseback transactions; and no significant collateral as security.

Refer to *Note 5 – Capital and Right-to-Use Assets* for additional information on the total amount of leased assets by major class and related accumulated amortization.

State as Lessor

The State leases land use rights, buildings, office space, and excess facilities owned by institutions of higher education. There are no significant variable payments excluded from the measurement of the lease receivable and no significant inflows of resources from variable or other payments not previously included in the measurement of the lease receivable. The lease receivable at June 30, 2022 is \$837 thousand for governmental activities and \$103.2 million for business-type activities.

The State recognized rental income of \$164 thousand for governmental activities and \$18.7 million for business-type activities and interest income on leases of \$3 thousand for governmental activities and \$2.9 million for business-type activities. Inflows of resources recognized in the reporting period for variable and other payments not previously included in the measurement of the lease receivable are \$7.7 million. There are no significant leases with

options for the lessee to terminate the lease or abate payments if the State issues debt for which the principal and interest payments are secured by the lease payments.

There are no significant leases of assets that are held as investments; no significant regulated leases; and no leasing of assets to other entities considered to be a principal and ongoing operation of the State.

NOTE 11 – NOTES, BONDS, AND CERTIFICATES OF PARTICIPATION PAYABLE

Various institutions of higher education, History Colorado, the Judicial Branch, and the Departments of Corrections, Transportation, Agriculture, Public Administration, Public Safety, and Treasury have outstanding notes, bonds, and/or Certificates of Participation (COPs) for the purchase of equipment or to construct facilities or infrastructure. Except for the Department of Corrections that receives Capital Projects Fund appropriations and the Department of Public Safety that receives General Purpose Revenue Fund appropriations for lease payments related to COPs, specific user revenues are pledged for the payments of interest and future retirement of the obligations. The State is not allowed by its Constitution to issue general obligation debt except to fund buildings for State use, to defend the State or the U.S. (in time of war), or to provide for unforeseen revenue deficiencies; additional restrictive limitations related to the valuation of taxable property also apply.

Collectively, the State’s business-type activities had \$2,137.6 million in available net revenue after operating expenses to meet the \$243.8 million of debt service requirement related to revenue bonds.

The revenue of an individual business-type activity is generally not available to meet the debt service requirements of another business-type activity. (See additional disclosures regarding pledged revenue in Note 17.)

During Fiscal Year 2022, the State recorded \$346.5 million of interest costs, of which \$159.4 million was recorded by governmental activities and \$187.1 million was recorded by business-type activities. The governmental activities interest cost primarily comprises \$5.4 million of Highway Users Tax Fund interest on Transportation Revenue Anticipation Notes issued by the Department of Transportation, \$15.6 million of interest on Certificates of Participation issued by the Judicial Branch, and \$53.9 million of interest on Certificates of Participation issued by the State Treasurer for the Building Excellent Schools Today program. The business-type activities interest cost primarily comprises \$144.8 million of interest on revenue bonds issued by institutions of higher education, \$7.8 million of interest paid to lending institutions that made loans to students under the College Assist loan guarantee program, and \$34.4 million of interest on bonds issued by the Bridge Enterprise in the Transportation Enterprise. College Assist and the Transportation Enterprise are nonmajor enterprise funds. Annual maturities of notes, bonds, and COPs payable at June 30, 2022, are as follows:

(Amounts in Thousands)

Governmental Activities (Non-Direct Borrowings and Non-Direct Placements)

Fiscal Year	Notes Payable		Certificates of Participation		Totals	
	Principal	Interest	Principal	Interest	Principal	Interest
2023	\$ 23,638	\$ 2,195	\$ 116,616	\$ 174,142	\$ 140,254	\$ 176,337
2024	20,424	1,674	209,310	168,139	229,734	169,813
2025	16,466	1,249	128,920	161,929	145,386	163,178

In March 2008, the Colorado School of Mines entered a derivative instrument agreement (interest rate swap) as an effective hedge against expected increasing interest costs on its variable rate debt.

Assuming current interest rates are applied over the term of the debt, at June 30, 2022, the Colorado School of Mines' aggregate debt service payments and net swap cash payments are reflected in the table below:

(Amounts in Thousands)

Net Debt Service for Colorado School of Mines' Interest Rate Swap Agreement

Totals	\$ 44,930	\$ 10,221	\$ 5,526	\$ 60,677

The original principal amount of the State's debt disclosed in the above tables is as follows:

Non-Direct Borrowings and Non-Direct Placements (Amounts in Thousands)

	Revenue Bonds	Notes Payable	Mortgages Payable	Certificates of Participation	Total
Governmental Activities	\$ -	\$ 245,327	\$ -	\$ 4,284,653	\$ 4,529,980
Business-Type Activities	5,296,943	717,367	12,450	227,990	\$ 6,254,750
Total	\$ 5,296,943	\$ 962,694	\$ 12,450	\$ 4,512,643	\$ 10,784,730

Direct Borrowings and Direct Placements (Amounts in Thousands)

	Revenue Bonds	Notes Payable	Mortgages Payable	Certificates of Participation	Total
Governmental Activities	\$ -	\$ 9,520	\$ -	\$ 317,750	\$ 327,270
Business-Type Activities	847,361	201,047	12,450	34,080	\$ 1,094,938
Total	\$ 847,361	\$ 210,567	\$ 12,450	\$ 351,830	\$ 1,422,208

Assets pledged as collateral for debt across state departments and institutions of higher education include the following:

- The Colorado Bureau of Investigations (CBI) Grand Junction Regional Office and Forensic Laboratory (related to direct borrowing/direct placement for governmental activities);
- The CBI Pueblo Regional Office and Forensic Laboratory (related to direct borrowing/direct placement for governmental activities);
- The CBI Forensic Laboratory Equipment (related to direct borrowing/direct placement for governmental activities);
- The Colorado Department of Transportation (CDOT) Headquarters (related to non-direct borrowing/non-direct placement for governmental activities) and Regional Office Buildings (related to both non-direct borrowing/non-direct placement and direct borrowing/direct placement for governmental activities);
- The Colorado History Building at 1200 Broadway in Denver (related to direct borrowing/direct placement for governmental activities).

Regarding terms specified in debt agreements related to significant (1) events of default with finance-related consequences, (2) termination events with finance-related consequences, and (3) subjective acceleration clauses, the following points were noted across state departments and institutions of higher education:

- In each Certificate of Participation (COP), the State has the right to purchase the Leased Property in connection with the defeasance or redemption of all of the Series 201X Certificates, as described in the section of the agreements' State's Purchase Option Price. Upon a nonrenewal of the Lease Term/s by reason of a Lease Event of Default or Lease Event of Nonappropriation, and so long as the State or Sublessee has not exercised its purchase option with respect to all the Leased Property, the State or Sublessee must vacate the Leased Property within 90 days. The Trustee/s may proceed to exercise any remedies available for the benefit of the Owners of the Certificates and may exercise any other remedies available upon default as provided in the Lease, including the sale of or lease of the Trustees' interest under the Site Lease/s (related to direct borrowing/direct placement for governmental activities).
- For Notes Payable, in the event of termination acceleration of payment for debt due (or to be due within that fiscal year) and the relinquishment of the equipment purchased through the energy performance contract measures could occur (related to direct borrowing/direct placement for business-type activities).
- CDOT will take over the payments for the C-470 bonds in the event High Performance Transportation Enterprise (HPTE) is unable to pay (related to non-direct borrowing/non-direct placement for business-type activities). Additionally, for Notes Payable, CDOT would take over debt service payments if HPTE was in default (related to direct borrowing/direct placement for business-type activities).

Derivative Instruments

Colorado State University: On January 16, 2018, the System entered into a floating to fixed interest rate swap agreement (2015 D Swap Agreement) in connection with the Series 2015 D System Enterprise Revenue Bonds (Notes from Direct Placements). The 2015 D Swap Agreement was entered into with the objective of protecting against the potential rising of interest rates. The 2015 D Swap Agreement had a notional value of \$66.7 million and a positive fair value of \$648 thousand as of June 30, 2022. The fair value of the 2015 D Swap Agreement was recorded as a noncurrent asset and a deferred inflow of resources as of fiscal year ended June 30, 2022. The 2015 D Swap Agreement had a notional value of \$66.7 million and a negative fair value of \$8.2 million as of June 30, 2021. The fair value of the 2015 D Swap Agreement was recorded as a noncurrent liability and a deferred outflow of resources as of fiscal year ended June 30, 2021. The 2015 D Swap Agreement has an effective date of July 1, 2019 and a termination date of March 1, 2047.

The 2015 D Swap Agreement provides for certain payments by The Royal Bank of Canada (RBC) equal to the difference between the fixed rate of 1.91390 percent payable by the System and 70 percent of one-month UDS-LIBOR-

BBA, payable by RBC. RBC, counterparty to the 2015 D Swap Agreement, determined the fair value as of June 30, 2022 using a discounted forecasted cash flow.

On February 18, 2020, the System entered into a floating to fixed interest rate swap agreement (2015 A Swap Agreement) in connection with the Series 2015 A System Enterprise Revenue Bonds. The 2015 A Swap Agreement was entered into with the objective of protecting against the potential rising of interest rates. The 2015 A Swap Agreement had a notional value of \$108.7 million and a positive fair value of \$8.3 million as of June 30, 2022. The fair value of the 2015 A Swap Agreement was recorded as a noncurrent asset and a deferred inflow of resources as of fiscal year ended June 30, 2022. The 2015 A Swap Agreement had a notional value of \$108.7 million and a negative fair value of \$646 thousand as of June 30, 2021. The fair value of the 2015 A Swap Agreement was recorded as a noncurrent liability and a deferred outflow of resources as of fiscal year ended June 30, 2021. The 2015 A Swap Agreement has an effective date of March 1, 2025 and a termination date of March 1, 2055.

The 2015 A Swap Agreement provides for certain payments by RBC equal to the difference between the fixed rate of 1.74250 percent payable by the System and 70 percent of one-month UDS-LIBOR-BBA, payable by RBC. RBC, counterparty to the 2015 A Swap Agreement, determined the fair value as of June 30, 2022 using a discounted forecasted cash flow.

There can be risks inherent to interest rate swaps that the System addressed and monitors pursuant to entering into interest rate Swap Agreements:

- Termination Risk – Termination Risk is the need to terminate the transaction in a market that dictates a termination payment by the System. It is possible that a termination payment is required in the event of termination of a Swap Agreement due to a counterparty default. In general, exercising the right to optionally terminate an agreement should produce a benefit to the System, either through receipt of a payment from a termination, or if a termination payment is made by the System, a conversion to a more beneficial debt instrument or credit relationship.
- Credit Risk – Credit Risk is the risk that the counterparty will not fulfill its obligations. The System considers the Swap Agreement counterparty's (RBC) credit quality rating and whether the counterparty can withstand continuing credit market turmoil. As of June 30, 2022, RBC's credit rating is rated Aa1 by Moody's, AA- by S&P, and AA by Fitch.

The Swap Agreement contract contains a credit support annex that allows for collateral to be posted if the market value threshold exceeds \$25.0 million at both parties' current credit rating or \$10.0 million if the parties credit rating falls to A3/A-.

- Basis Index Risk – Basis Index Risk arises as a result of movement in the underlying variable rate indices that may not be in tandem, creating a cost differential that could result in a net cash outflow from the System. Basis Index Risk can also result from the use of floating, but different, indices.

Metropolitan State University: On September 30, 2020 MSU Denver executed a Novation agreement which transferred the Hotel and Hospitality Learning Center (HLC) @ Metro Inc's floating to fixed interest rate swap agreement (Swap Agreement) with RBC to the University. This was a part of the University's acquisition of most of the HLC's assets and liabilities on June 30, 2020. The Swap Agreement was entered with the objective of protecting against the potential increase of interest rates. The Swap Agreement had a notional value of \$48.7 million and a negative fair value of \$516K and \$7.1M as of June 30, 2022 and 2021, respectively. The fair value of the Swap Agreement was recorded as a noncurrent liability and a deferred outflow of resources as of fiscal year ended June 30, 2022 and 2021. The Swap Agreement has an effective date of September 1, 2020 and a termination date of July 1, 2042.

Pursuant to the interest rate swap, the University will pay RBC a fixed rate of 2.451% per annum. RBC will pay the University 80% of USD-LIBOR-BBA. In addition, the University was to pay JPMorgan, as owner of the Series 2020 Bonds, 80% of LIBOR, plus 150 basis points. This arrangement produced an interest rate on the Series 2020 Bonds equal to approximately 3.95% and helped ensure the University could leverage a low interest rate in an otherwise unpredictable market. Subsequently, in August 2021 MSU Denver issued its Series 2021, Institutional Enterprise Revenue Refunding bonds directly to PNC Bank to refund the Series 2020 bonds. The Series 2021 bonds

required the University to pay PNC Bank 80% of LIBOR plus 46 basis points which produced an effective interest rate of approximately 2.91%. The Series 2021 bonds retained the terms of the swap. MSU Denver classified this Swap Agreement in level 2 of the fair value hierarchy; whereby, RBC, the counterparty to the Swap Agreement, determined the fair value as of June 30, 2022 and 2021 using an indicative mid-market valuation.

There can be risks inherent to interest rate swaps that the University addressed and monitors pursuant to entering into interest rate Swap Agreements:

- **Termination Risk** – Termination Risk is the need to terminate the transaction in a market that dictates a termination payment by the University. It is possible that a termination payment is required in the event of termination of a Swap Agreement due to a counterparty default. In general, exercising the right to optionally terminate an agreement should produce a benefit to the University, either through receipt of a payment from a termination, or if a termination payment is made by the University, a conversion to a more beneficial debt instrument or credit relationship.
- **Credit Risk** – Credit Risk is the risk that the counterparty will not fulfill its obligations. MSU Denver considers the Swap Agreement counterparty's (RBC) credit quality rating and whether the counterparty can withstand continuing credit market turmoil. As of June 30, 2022, RBC's credit rating is rated Aa1 by Moody's and AA- by S&P.

The Swap Agreement contract contains a credit support annex that allows for collateral to be posted if the market value threshold exceeds \$5.0 million and the credit rating is equal to A3 as rated by Moody's or A- as rated by S&P, or if threshold is zero but the credit ratings are Baa1 as rated by Moody's or BBB+ as rated by S&P.

- **Basis Index Risk** – Basis Index Risk arises as a result of movement in the underlying variable rate indices that may not be in tandem, creating a cost differential that could result in a net cash outflow from the University. Basis Index Risk can also result from the use of floating, but different, indices.

Colorado School of Mines: In Fiscal Year 2008, the University entered into a floating to fixed interest rate swap agreement (Swap Agreement) in connection with the 2008A issuance. The Swap Agreement was entered into with the objective of protecting against the potential of rising interest rates. The 2008A issuance was refunded with the Series 2010A issuance. The Series 2010A was refunded with the issuance of the Series 2018A Refunding Bonds. The Swap Agreement was not terminated and was associated with the Series 2018A issuance. The Swap Agreement has a notional amount of \$35,335,000 and \$36,185,000 and a fair value of (\$4,525,000) and (\$9,645,000) at June 30, 2022 and 2021, respectively. The Swap Agreement provides for certain payments to or from Morgan Stanley equal to the difference between the fixed rate of 3.59 percent payable by the University and 67 percent of one-month USD-LIBOR-BBA, 1.787 percent and 0.100 percent at June 30, 2022 and 2021, respectively, payable by Morgan Stanley. The fair value of the swap is classified as a noncurrent liability and the change in fair value of the swap is classified as a deferred outflow at June 30, 2022 and 2021. On the date of the refunding of the Series 2010A Bonds, the fair market value of the swap was (\$6,999,000) and was included in the calculation of deferred loss on refunding and is being amortized over the life of the Series 2018A Refunding Bonds. Accumulated amortization of the deferred loss as of June 30, 2022 and 2021 was \$3,452,000 and \$2,929,000 respectively. Morgan Stanley, counterparty to the Swap Agreement, determined the fair value as of June 30, 2022 and 2021, using a discounted forecasted cash flows; however, the actual method and significant assumptions used are proprietary. The Swap Agreement has an effective date of March 5, 2008 and a termination date of December 1, 2038.

There can be risks inherent to interest rate swaps that the University addressed and monitors pursuant to entering into interest rate Swap Agreements:

- **Termination Risk** – The need to terminate the transaction in a market that dictates a termination payment by the University. It is possible that a termination payment is required in the event of termination of a swap agreement due to a counterparty default or following a decrease in credit rating. In general, exercising the right to optionally terminate an agreement should produce a benefit to the University, either through receipt of a payment from a termination, or if a termination payment is made by the University, a conversion to a more beneficial debt instrument or credit relationship.

- Credit Risk – The risk that the counterparty will not fulfill its obligations. The University considers the Swap Agreement counterparty’s (Morgan Stanley) credit quality rating and whether the counterparty can withstand continuing credit market turmoil. As of June 30, 2022, Morgan Stanley’s long term credit rating is A1 by Moody’s and A- by Standards & Poor’s.

For the outstanding Swap Agreement, the University has a maximum possible loss equivalent to the swaps’ fair value at June 30, 2022 and 2021 related to the credit risk. However, the University was not exposed to this loss because of the negative fair value of the swaps as of June 30, 2022 and 2021. In addition, these agreements required no collateral and no initial net cash receipt or payment by the University.

- Basis Index Risk – Basis risk arises as a result of movement in the underlying variable rate indices that may not be in tandem, creating a cost differential that could result in a net cash outflow from the University. Basis risk can also result from the use of floating, but different, indices. To mitigate basis risk, it is the University’s policy that any index used as part of an interest rate swap agreement shall be a recognized market index, including, but not limited to, the Securities Industry and Financial Markets Association (SIFMA) or the London Interbank Offered Rate (LIBOR).

NOTE 12 – CHANGES IN LONG-TERM LIABILITIES & SHORT-TERM DEBT

LONG-TERM LIABILITIES

Primary Government

The following table summarizes the changes in long-term liabilities for Fiscal Year 2022:

	(Amount in Thousands)				
	Beginning Balance July 1	Changes		Ending Balance June 30	Due Within One Year
		Additions	Reductions		
Governmental Activities					
Deposits Held In Custody For Others	\$ 12,367	\$ 1	\$ 5,850	\$ 18,218	\$ 16,736
Accrued Compensated Absences	230,201	18,852	(24,271)	224,782	21,087
Claims and Judgments Payable	186,474	214	(13,806)	172,882	46,036
Leases Payable*	118,219	141,271	2,937	262,427	44,761
Certificates of Participation from Direct Borrowings and Direct Placements**	303,708	-	(3,828)	299,880	3,160
Certificates of Participation from Non-Direct Borrowings and Non-Direct Placements**	3,686,225	805,418	(140,338)	4,351,305	116,616
Notes, Anticipation Warrants, Mortgages from Direct Borrowings and Direct Placements	2,315	204	(1,036)	1,483	1,052
Notes, Anticipation Warrants, Mortgages from Non-Direct Borrowings and Direct Placements	1	78,108	23,636	101,745	23,638
Net Pension Liability	5,874,655	-	(46,349)	5,828,306	-
Other Postemployment Benefits	203,724	-	(21,003)	182,721	-
Other Long-Term Liabilities	228,926	32,712	(26,223)	235,415	-

Total Primary Government Long-Term Liabilities	\$ 21,237,898	\$ 3,157,086	\$ (1,973,998)	\$ 22,420,986	\$ 528,243

*Beginning balances were restated for FY2022 due to the implementation of GASB 87. Beginning balances are equal to FY21 ending balances plus the balances from the Fund Balance - Accounting Change balance sheet account.

**Total beginning balance for COP is equal to prior year ending balance but there was \$14.8 million reclassified from direct to non-direct by a State agency.

***Total beginning balance for Bonds is equal to prior year ending balance but there was a \$1.2 million net reclassification between direct and non-direct from two institutions of higher education.

**** Total beginning balance for Notes is equal to prior year ending balance but there was \$9.8 million reclassified from non-direct to direct from an institution of higher education.

Liabilities for accrued compensated absences, net pension liabilities, and other postemployment benefits of both governmental activities and the business-type activities are normally liquidated using resources of the fund that are responsible for paying the employee's salary. As a result, the resources of nearly all of the State's funds are used to liquidate the compensated absence, net pension, and OPEB liabilities.

The amounts in the table above for the changes in net pension liability and other postemployment benefits liability are netted and presented as either additions or reductions. See Note 6 for additional information on pensions and Note 7 for additional information on OPEB.

The amounts shown in the schedule above for Notes, Bonds, and Certificates of Participation do not include short-term borrowing disclosed in Note 10. A current portion is not normally identifiable for Claims and Judgments

Payable, Derivative Instrument Liabilities, Other Post-Employment Benefits in business-type activities and Other Long-Term Liabilities in both governmental activities and business-type activities.

Long-term liabilities that are actuarially determined include amounts for claims that are incurred but not yet reported. Since these liabilities are not based on individually identifiable claims, it is not practicable to report gross additions and reductions. (See Notes 7 and 9 for the amount of claims reported and paid and other adjustments to these actuarially determined liabilities.)

Governmental activities include internal service funds which apply full accrual accounting, and as a result, additions to Capital Lease Obligations shown above include amounts that are not shown as capital lease proceeds on the *Statement of Revenues, Expenditures, and Changes in Fund Balance – Governmental Funds*.

SHORT-TERM DEBT

Education Loan Program Tax and Revenue Anticipation Notes (ETRAN)

The State Treasurer is authorized by law to issue notes and lend the proceeds to school districts in anticipation of local revenues for school district to be collected later.

On July 20, 2021, the State Treasurer issued \$370.0 million of ETRAN, Series 2021A. The coupon rate was 3.7 percent, total interest costs of \$12.9 million, premium of \$12.6 million, with net interest costs (including cost of issuance) of \$0.6 million, or 0.070 percent. The notes matured on June 29, 2022, and were repaid.

On January 19, 2022, the State Treasurer issued \$400.0 million of ETRAN, Series 2021B. The coupon rate was 1.19 percent, interest costs of \$2.1 million, premium of \$1.8 million, with net interest costs (including cost of issuance) of \$0.4 million, or 0.175 percent. The notes matured on June 29, 2022 and were repaid.

Other Short-Term Financing

On June 20, 2018, the Board of Governors of the Colorado State University System authorized the issuance of Commercial Paper Notes (Notes) in the aggregate principal amount not to exceed \$50.0 million as part of the Series A (tax-exempt) and Series B (taxable) issuance. The maturity date of any Notes issued may not exceed two hundred and seventy days from the date of issuance and no maturity may be later than March 1, 2037. Pursuant to the Bond Resolution, the obligations are payable solely from net revenues paid in portions by both CSU and CSU-Pueblo, as defined in the bond agreement. The Notes are being used to finance certain projects, as determined by the Board, for any of the campuses for which the Board has spending authority.

The following schedule shows the changes in short-term financing for the period ended June 30, 2022:

	(Amounts in Thousands)			Ending Balance June 30
	Beginning Balance July 1	Changes		
		Additions	Reductions	
Governmental Activities:				
Education Loan Anticipation Notes	-	770,000	(770,000)	-
Total Governmental Activities Short-Term Financing	-	770,000	(770,000)	-
Business-Type Activities:				
Tax Exempt Commercial Paper	49,690	-	(21,270)	28,420
Total Business-Type Activities Short-Term Financing	49,690	-	(21,270)	28,420
Total Short-Term Financing	\$ 49,690	\$ 770,000	\$ (791,270)	\$ 28,420

NOTE 13 – DEFEASED DEBT AND POLLUTION REMEDIATION OBLIGATIONS

DEFEASED DEBT

Debt is defeased by depositing in escrow accounts an amount sufficient, together with known minimum investment yields, to pay principal, interest, and any redemption premium on the debt to be defeased. During Fiscal Year 2022, debt was defeased in both governmental and business-type activities.

At June 30, 2022, the remaining balances of amounts previously placed in escrow accounts with paying agents are as follows:

(Amount in Thousands)	
<u>Agency</u>	<u>Amount</u>
Governmental Activities:	
Department of Treasury	\$ 552,950
Business-Type Activities:	
University of Colorado	783,975
Colorado State University	436,330
Colorado Community College System	39,530
Colorado School of Mines	33,070
Metropolitan State University of Denver	21,520
Total	<u>\$ 1,867,375</u>

The Board of Regents of the University of Colorado issued \$69.6 million of its 2021C-1 Refunding Bonds to partially defease its Series 2012A-2, 2012B, 2018B, 2019B Bonds. The defeased debt a new debt has various interest rates. The remaining term of the debt was 28 years and the estimated debt service cash flows decreased by \$9.6 million. The defeasance resulted in an economic gain of \$6.1 million, and book loss of \$2.6 million that will be amortized as an adjustment of interest expense over the remaining 28 years of the new debt.

The Board of Regents of the University of Colorado issued \$227.6 million of its 2021C-2ABC Refunding Bonds to partially defease its Series 2015A, 2016B-1, 2017A-2 Bonds. The defeased debt a new debt has various interest rates. The remaining term of the debt was 15 years and the estimated debt service cash flows decreased by \$19.0 million. The defeasance resulted in an economic gain of \$15.9 million, and book loss of \$19.0 million that will be amortized as an adjustment of interest expense over the remaining 15 years of the new debt.

The State of Colorado, on behalf of the University of Colorado Denver, issued \$9.4 million of its State of Colorado, Certificates of Participants, Series 2021 to partially defease its State of Colorado, Certificates of Participants, Series 2012A. The defeased debt had an interest rate of 2.50 percent, and the new debt had an interest rate of 2.05 percent. The remaining term of the debt was 1 year and the estimated debt service cash flows increased by \$1.4 million. The defeasance resulted in an economic loss of \$1.4 million, and book loss of \$1.5 million that will be amortized as an adjustment of interest expense over the remaining year of the new debt.

The State of Colorado, on behalf of the University of Colorado Denver, issued \$63.4 million of its State of Colorado, Certificates of Participants, Series 2021 to partially defease its State of Colorado, Certificates of Participants, Series 2013A. The defeased debt had an interest rate of 5.98 percent, and the new debt had an interest rate of 2.05 percent. The remaining term of the debt was 9 years and the estimated debt service cash flows decreased by \$5.9 million. The defeasance resulted in an economic loss of \$0.8 million, and book loss of \$5.5 million that will be amortized as an adjustment of interest expense over the remaining 9 years of the new debt.

The Board of Governors of Colorado State University issued \$46.0 million of its System Enterprise Revenue Refunding Bond, Taxable Series 2021D-1 to partially defease its System Enterprise Revenue Refunding Bonds Series 2015C and 2017C and System Enterprise Revenue Bonds Series 2018 A. The defeased debt had an interest rate of 4.30 percent, and the new debt had an interest rate of 2.71 percent. The remaining term of the debt was 24 years and the estimated debt service cash flows decreased by \$4.7 million. The defeasance resulted in an economic gain of \$3.0 million, and book loss of \$1.6 million that will be amortized as an adjustment of interest expense over the remaining 26 years of the new debt.

The Board of Governors of Colorado State University issued \$28.9 million of its System Enterprise Revenue Refunding Bond, Taxable Series 2021D-2 to partially defease its System Enterprise Revenue Bonds Series 2013D and System Enterprise Revenue Refunding Bonds Series 2016B. The defeased debt had an interest rate of 4.31 percent, and the new debt had an interest rate of 2.61 percent. The remaining term of the debt was 17 years and the estimated debt service cash flows decreased by \$2.6 million. The defeasance resulted in an economic gain of \$1.8 million, and book loss of \$1.7 million that will be amortized as an adjustment of interest expense over the remaining 19 years of the new debt.

The Board of Governors of Colorado State University issued \$27.7 million of its System Enterprise Revenue Refunding Bond Series 2021E to partially defease its System Enterprise Revenue Refunding Bond Series 2015C. The defeased debt had an interest rate of 3.57 percent, and the new debt had an interest rate of 1.96 percent. The remaining term of the debt was 15 years and the estimated debt service cash flows decreased by \$5.3 million. The defeasance resulted in an economic gain of \$4.4 million, and book gain of \$0.7 million that will be amortized as an adjustment of interest expense over the remaining 15 years of the new debt.

The Board of Trustees of the University of Northern Colorado issued \$33.0 million of its Series 2021A Institutional Enterprise Revenue Refunding Bonds Taxable Convertible to Tax Exempt to partially defease its Series 2014A Institutional Enterprise Revenue Refunding Bonds. The defeased debt had an interest rate of 4.43 percent, and the new debt had an interest rate of 1.90 percent. The remaining debt was defeased and the estimated debt service cash flows decreased by \$4.6 million. The defeasance resulted in an economic gain of \$4.0 million, and book loss of \$1.0 million that will be amortized as an adjustment of interest expense over the remaining 13.5 years of the new debt.

The Board of Trustees of Metropolitan State University of Denver issued \$23.1 million of its Institutional Enterprise Revenue Refunding Bond (Taxable Convertible to Tax-Exempt) Series 2022A to partially defease its Institutional Enterprise Revenue Bonds (Aerospace and Engineering Sciences Building Project) Series 2016. The defeased debt had an interest rate of 3.49 percent, and the new debt had an interest rate of 3.59 percent. The remaining term of the debt was 24 years and the estimated debt service cash flows decreased by \$2.5 million. The defeasance resulted in an economic gain of \$1.9 million, and book gain of \$0.8 million that will be amortized as an adjustment of interest expense over the remaining 24 years of the new debt.

The Board of Trustees of Metropolitan State University of Denver issued \$46.3 million of its Institutional Enterprise Revenue Refunding Bond (Hotel Refinancing Project) Series 2021 to partially defease its Institutional Enterprise Revenue Refunding Bond (Hotel Refinancing Project) Series 2020. The defeased debt had an interest rate of 3.95 percent, and the new debt had an interest rate of 2.91 percent. The remaining term of the debt was 21 years and the estimated debt service cash flows decreased by \$5.6 million. The defeasance resulted in an economic gain of \$5.0 million, and no book loss/gain.

The Board of Trustees of Colorado Mesa University issued \$33.3 million of its Enterprise Refunding Bond Series 2022A&B&C to partially defease its Enterprise Revenue Bonds Series 2012A&B, Enterprise Revenue Bonds Series 2013, and Enterprise Revenue Bonds Series 2016. The defeased debt had an interest rate of 4.20 percent, and the

new debt had an interest rate of 2.16 percent. The remaining term of the debt was 11.4 years and the estimated debt service cash flows decreased by \$5.6 million. The defeasance resulted in an economic gain of \$4.9 million, and book loss of \$1.7 million that will be amortized as an adjustment of interest expense over the remaining 11.2 years of the new debt.

POLLUTION REMEDIATION OBLIGATIONS

Various state agencies have pollution remediation obligations as defined by GASB Statement No. 49. Liability amounts are included in Other Current Liabilities or Other Long-Term Liabilities on the government-wide and proprietary fund-level *Statement of Net Position*.

The State has instances of hazardous waste contamination that qualify as Superfund sites. Superfund is the federal government's program to clean up these hazardous waste sites. A hazardous waste site becomes a Superfund site when placed on an Environmental Protection Agency (EPA) list that ranks sites according to a process that assesses current or potential health impacts. The following individually significant items are all Superfund sites under the control of the Department of Public Health and Environment.

The State's total amount of pollution remediation obligations as of June 30, 2022 was \$204.9 million, of which \$6.5 million is a current liability. Individually significant pollution remediation obligations are disclosed below:

- The Department of Public Health & Environment recorded a liability for remediation activities in the Clear Creek Basin of approximately \$85.7 million related to a number of inactive precious metal mines that caused contamination in surface water and soil in the basin. The liability includes remediation and site clean-up activities, projected post-remediation operating and monitoring costs, the State operation of an existing water treatment plant, and operation of a water treatment plant. Current operating and maintenance costs are estimated at \$1.5 million beginning in Fiscal Year 2022, increasing to approximately \$2.6 million in Fiscal Year 2029, with a projected annual increase of 2 percent thereafter. The department shares the remaining costs to complete the remediation projects with the EPA in a cost-sharing ratio of 10 percent State, 90 percent EPA for 10 years. After this time, the State assumes 100 percent of the operating and maintenance costs. Costs are estimated based on past experience with similar construction projects adjusted for such factors as differences in water flow needing treatment, previous site studies, preliminary design work, and cost changes for labor, materials, etc. Operating costs are similarly estimated giving consideration to generally the same factors as for construction costs.
- The Department of Public Health & Environment recorded a liability for remediation activities at the Summitville Mine of approximately \$91.4 million related to the operation of a water treatment plant. The mine is located in the San Juan Mountains, surrounded by the Rio Grande National Forest. The operating and maintenance costs of the treatment plant are to be shared with the EPA in a cost-sharing ratio of 10 percent State, 90 percent EPA through Fiscal Year 2022. Beginning in Fiscal Year 2023, the State will assume 100 percent of the operating costs of the treatment plant, with a projected total cost of approximately \$2.0 million per year, with a projected annual increase of 2 percent thereafter. Operating and maintenance estimates are based on experience in operating existing plants adjusted for the newer design and technological advancements. Potential changes affecting these estimates include regulatory changes in the EPA cost-sharing ratio, as well as technology and pricing changes that could impact operating costs. At of June 30, 2022, the State has \$0.6 million in recoveries funded from other responsible parties.

- The Department of Public Health & Environment recorded a liability for remediation activities at the Bonita Peak Mining District site is located near Silverton, Colorado for approximately \$6.0 million. The Bonita Peak Mining District is within the Mineral Creek, Cement Creek, and the Upper Animas River drainages. The site consists of 48 historic mines or mining-related sources where ongoing releases of metal-laden water and sediments occur within Mineral Creek, Cement Creek, and the Upper Animas. An interim record of decision (IROD) establishes a site-wide repository for disposing of site-related mine waste from remedial action cleanups, sludge generated at the water treatment plant, and waste from future water treatment operations. The projected five-year costs are \$0.1 million per year for the first four years with a \$1.0 million projected cost in Fiscal Year 2026. The site-wide repository is estimated at \$0.3 million per year for a five-year period ending in Fiscal Year 2027. The State's share of O&M is not projected to start until Fiscal Year 2028, where projected annual costs are \$0.1 million, with a 2% annual increase thereafter. Approximately 20 of the 48 sites do not have viable responsible parties. Therefore, these sites will likely be addressed using a fund-financed remedial action of 90% EPA and 10% State, at which time the State's share will increase. As of June 30, 2022, the State has \$0.3 million in recoveries funded from other responsible parties.
- The Nelson Tunnel is a former mining site outside of Creede, CO, which has a large waste pile. Runoff from this pile adversely affects the Rio Grande River via Willow Creek. While a portion of the project is reasonably estimable, the State cannot estimate a majority of the project costs. The water treatment component of the project has historically been included as a presumptive remedy. However, no decision document has been executed that would require water treatment. Although the State believes there will be associated water treatment costs in the future, these costs won't be included in the projection until there is an idea of what the remedy and long-term operating/maintenance costs are. Any long-term remedies are dependent on the initial assessment and monitoring procedures. Additionally, once a long-term remedy is identified, the Department will negotiate with the EPA to determine which entity is responsible for what share of the costs (typically 90% federal, 10% state).

NOTE 14 – DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

Deferred outflows of resources represent a consumption of assets by the entity that is applicable to a future reporting period, and deferred inflows of resources represent an acquisition of assets by the entity that is applicable to a future reporting period. The table below provides information about amounts reported as deferred outflows/inflows on the *Statement of Net Position* as of June 30, 2022.

(Amounts in Thousands)

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Total</u>
Deferred Outflows of Resources:			
Refunding Losses	\$ 22,698	\$ 188,602	\$ 211,300
Derivatives	-	516	516
Other	5,639	591	6,230
Other Post Employment Benefits	29,694	409,964	439,658
Pensions	2,321,234	271,878	2,593,112
	<u>2,379,265</u>	<u>871,551</u>	<u>3,250,816</u>
Deferred Inflows of Resources:			
Refunding Gains	414	1,431	1,845
Derivatives	-	9,253	9,253
Lease Components	701	105,340	106,041
Nonexchange Transactions	-	8	8
Other	17,390	1,743	19,133
Unavailable Revenue	795	-	795
Service Concession Arrangements	-	124,929	124,929
Other Post Employment Benefits	75,914	230,482	306,396
Pensions	3,594,295	999,910	4,594,205
	<u>\$ 3,689,509</u>	<u>\$ 1,473,096</u>	<u>\$ 5,162,605</u>

NOTE 15 – NET POSITION AND FUND BALANCE

PRIOR PERIOD ADJUSTMENTS AND ACCOUNTING CHANGES TO NET POSITION

A. PRIOR PERIOD ADJUSTMENTS

Fund balances and net position at July 1, 2021 have been increased (decreased) as follows in order to correct errors:

<u>GOVERNMENTAL ACTIVITIES</u>	(Dollars in Thousands)
Nonmajor Governmental Funds	
Federal Special Revenue Fund	
To correct fiscal year 2021 expenditures related to COVID-19 that were reimbursable by FEMA	\$ 8,978
Total Nonmajor Governmental Funds	<u>8,978</u>
TOTAL GOVERNMENTAL ACTIVITIES	<u>\$ 8,978</u>
<u>BUSINESS-TYPE ACTIVITIES</u>	
Major Enterprise Funds	
Unemployment Insurance Fund	
To correct fiscal year 2021 payables to claimants which was overstated by \$2.4 billion, and correct a related receivables understatement of \$1.4 billion, with a net increase of \$978,053.	\$ 978,053
Total Major Enterprise Funds	<u>978,053</u>
TOTAL BUSINESS-TYPE ACTIVITIES	<u>\$ 978,053</u>

B. ACCOUNTING CHANGES

Fund balance, net position, and fiduciary net position at July 1, 2021 have been increased (decreased) as follows in order to implement the requirements of GASB Statement No. 87 – Leases.

<u>GOVERNMENTAL ACTIVITIES</u>	(Dollars in Thousands)
Government-wide Reconciling Items	
General Full Accrual Account Group	
Department of Corrections	\$ 221
Total Government-wide Reconciling Items	<u>221</u>
TOTAL GOVERNMENTAL ACTIVITIES	<u>\$ 221</u>
<u>BUSINESS-TYPE ACTIVITIES</u>	
Major Enterprise Funds	
Higher Education Institutions	
Colorado Community Colleges	\$ 20
Colorado Mesa University	(70)
Colorado School of Mines	461
Colorado State University	434
Fort Lewis College	(2)
Metropolitan State University	384
University of Colorado	<u>(11,657)</u>
Total Enterprise Funds - Major	<u>(10,430)</u>
TOTAL BUSINESS-TYPE ACTIVITIES	<u>\$ (10,430)</u>
<u>COMPONENT UNITS</u>	
Nonmajor Other Component Units	
Statewide Internet Portal Authority	\$ 2
Total Nonmajor Other Component Units	<u>2</u>
TOTAL COMPONENT UNITS	<u>\$ 2</u>

C. FUND BALANCE

On the *Balance Sheet – Governmental Funds*, the fund balance is comprised of the following (refer to Note 1 for additional information):

	(Dollars in Thousands)		
	Restricted Purposes	Committed Purposes	Assigned Purposes
GENERAL FUND			
General Government	\$ 351,739	\$ 2,213,389	\$ -

D. STABILIZATION ARRANGEMENTS

Restriction on State Appropriations – General Fund Reserve

In accordance with Section 24-75-201.1(1)(d) C.R.S., state general fund appropriations are limited in order to maintain sufficient available budgetary fund balance (the reserve) for the General Fund - General Purpose Revenue Component. For the fiscal year ended June 30, 2022, the required reserve is calculated as thirteen and four-tenths percent of General Purpose Revenue Fund appropriations less exceptions pursuant to Section 24-75-201.1(2) C.R.S. Section 24-75-201.5(1)(a) C.R.S. further requires the Governor to take action within the fiscal year to preserve one half of the reserve when economic forecasts indicate revenues will not be adequate to maintain the required reserve. In conjunction with the Governor's actions to reduce expenditures, the legislature has traditionally taken action to use the reserve.

Historically, the statutory reserve has only been expended during recessionary periods when other budget measures have been exhausted. As of June 30, 2022, on a legal budgetary basis the reserve was \$1.61 billion. Refer to the Budgetary Comparison Schedule General Fund – General Purpose Revenue Component, and to Note RSI-4 for additional information.

Emergency Reserve

Senate Bill (SB) 21-227 established the State Emergency Reserve Cash Fund effective with the State’s fiscal year ended June 30, 2021. SB 21-227 required a transfer of \$101.0 million from the General Purpose Revenue Component of the General Fund and a transfer of \$100.0 million from the Controlled Maintenance Trust Fund to the to the State Emergency Reserve Cash Fund. The State Emergency Reserve Cash Fund is reported as the Emergency Reserve component of the State’s General Fund. Refer to the Combining Balance Sheet – General Fund Components and to the Combining Statement of Revenues, Expenditures, and Changes in Fund Balance – General Fund Components for additional information. The Emergency Reserve was \$112.7 million at June 30, 2022. The Emergency Reserve shall not be expended or appropriated for any purpose other than for an emergency declared by the Governor pursuant to 24-33.5-704(4). Refer to Note RSI-4 for additional information.

E. MINIMUM FUND BALANCE POLICIES

The appropriations process and statutory structure that governs State fiscal matters generally does not provide for the ability to set aside fund balances outside of those processes. However, in limited circumstances, boards and committees have fiscal policy and/or rulemaking authority. No minimum fund balances were established under this type of authority for Fiscal Year 2022.

F. NET POSITION DEFICITS

The following table shows deficit net position balances for individual nonmajor funds. See Note 2 for information regarding statutory spending violations and over expenditures.

Interfund balances represent amounts owed between funds at the end of the fiscal year. They occur when there are timing differences between when transactions are recognized and when the related cash payments are made. They also occur when loans are made between funds.

Of the \$40.7 million owed from the General Fund to Institutions of Higher Education, \$28.1 million was due from the Department of Higher Education to Institutions of Higher Education for various purposes.

\$37.1 million was owed to Other Governmental Funds from the General Fund. \$14.5 million of this relates to a transfer to the Economic Recovery and Relief Cash Fund, which is reported in the Environment and Health Protection Fund. An additional \$10.1 million of this relates to a transfer to the Capital Complex Master Plan Implementation Fund, which is reported in the Capital Projects Fund.

The \$30.8 million due to the General Fund from Other Enterprises primarily consists of amounts owed from the State Lottery Fund as of June 30, 2022 for distributions related to the fourth quarter of Fiscal Year 2022 that were made in Fiscal Year 2023.

The Healthcare Affordability Fund had a payable to the General Fund of \$27.7 million. This amount represents Medicaid payments to providers in Fiscal Year 2022 for which the State was reimbursed in Fiscal Year 2023 due to the timing of the receipt of federal monies into the Healthcare Affordability Fund.

The balance of \$22.8 million due from Other Governmental Funds to the General Fund consists primarily of \$14.1 million due from the Gaming Fund.

The \$21.1 million owed from the Transportation Enterprise Fund to the Highway Users Tax Fund represents loans within the Colorado Department of Transportation and are not expected to be paid within one year.

Other Governmental Funds report an internal receivable of \$17.0 million from Other Enterprises. Most of this balance, \$14.9 million, reflects outstanding loans payable from the Parks and Wildlife Fund to the Resource Extraction Fund that are not expected to be repaid within one year.

As a normal order of business, the General Assembly appropriates a large number of transfers between funds to allocate the State's resources to support programs across the State government.

The \$1,369.6 million transferred from the General Fund to Other Governmental Funds includes \$218.8 million to the Capital Projects Fund, as directed by Senate Bill 21-224. In addition, \$165.7 million of Marijuana Sales Tax Revenues was transferred to the Marijuana Tax Cash Fund, an Other Special Revenue Fund, as directed by Senate Bill 17-267.

Transfers from Other Governmental Funds to the General Fund totaled \$523.3 million. The largest of these transfers is \$112.4 million of investment income from the State Lands Fund, a Permanent Fund. An additional \$97.3 million was transferred from the Retail Marijuana Excise Tax Fund, an Other Special Revenue Fund.

There were \$377.3 million of transfers from the General Fund to the Highway Users Tax Fund. This primarily consists of \$170.0 million, \$124.0 million, \$40.0 million, and \$36.5 million as prescribed by Senate Bill 21-260, Senate Bill 21-265, Senate Bill 22-180, and House Bill 22-1411, respectively.

\$330.5 million is reported as transfers from Other Governmental Funds to Other Governmental Funds. This amount is comprised primarily of \$181.3 million of tobacco tax transfers from the 2020 Tax Holding Fund to the State Education Fund.

General Fund transfers to Higher Education Institutions totaled \$320.8 million. The majority of these transfers, \$183.1 million, were for student financial aid.

NOTE 17 – PLEDGED REVENUE AND DONOR RESTRICTED ENDOWMENTS

PLEDGED REVENUE

Various institutions of higher education and the Department of Transportation have issued bonds, notes, and/or Certificates of Participation (COPs) for the purchase of equipment, and the construction of facilities and infrastructure. Specific user revenues are pledged for the payments of interest and future retirement of the obligations. In Fiscal Year 2022, the following pledges were in place:

The Department of Transportation Statewide Bridge Enterprise pledged \$114.7 million (gross) of federal highway funds, Build America Bonds, and surcharges to meet the current year interest payments on debt issued for construction activities related to the Funding Advancement for Surface Transportation and Economic Recovery (FASTER) Bridge Program. The debt was originally issued in Fiscal Year 2011 and has a final maturity date of Fiscal Year 2046. The pledged revenue represents 100 percent of the revenue stream, and \$506.9 million of the pledge commitment remains outstanding.

The Department of Transportation High-Performance Transportation Enterprise pledged \$8.9 million (gross) of C-470 Express Lanes Senior Revenue Bonds to meet the current year interest payments on debt issued for the cost of designing, engineering, developing and constructing an Express Lanes project on a portion of C-470, widening and replacing adjacent general purpose lanes and rehabilitating or reconstructing related bridges. The debt was originally issued in Fiscal Year 2018 and has a final maturity date of Fiscal Year 2057. The pledged revenue represents 100 percent of the revenue stream, and \$401.5 million of the pledge commitment remains outstanding.

Higher Education Institutions have pledged auxiliary fees primarily related to student housing rent, and in some cases tuition, to meet the debt service commitment of their various bond issues. The debt issues involved had an earliest origination date in Fiscal Year 1999 and furthest maturity date of Fiscal Year 2055. In some instances, the gross revenue of the activity is pledged and in other instances the net available revenue is pledged. Total pledged revenue of the Higher Education Institutions is approximately \$2.0 billion. Individually significant Higher Education Institution pledges include:

- \$1.4 billion (net) pledged by the University of Colorado to secure \$109.1 million of current principal and interest on debt issued to finance the construction of enterprise facilities and to refund prior enterprise debt. The related debt was issued in Fiscal Year 2007 and has a final maturity date of Fiscal Year 2051. The pledged revenue represents approximately 76.8 percent of the revenue stream, and \$2.4 billion of the pledge (principal and interest) remains outstanding.
- \$207.3 million (net) pledged by Colorado State University to secure \$26.7 million of current principal and interest on debt issued to finance the construction, expansion, or renovation of certain recreation, research, athletic, and academic facilities. The related debt was originally issued in Fiscal Year 2022 and has a final maturity date of Fiscal Year 2055. The pledged revenue represents 64.0 percent of the total revenue stream, and \$1.7 billion of the pledge (principal and interest) remains outstanding.
- \$58.8 million (net) pledged by the Colorado School of Mines to secure \$19.1 million of current principal and interest on debt issued to finance or refinance the construction, acquisition, improvement, renovation, and equipment for certain facilities and complete qualified conservation improvement projects. The debt issuances had an earliest origination date of Fiscal Year 1999 and furthest maturity date of Fiscal Year 2048. The pledged revenue represents approximately 74.8 percent of the revenue stream, and \$402.7 million of the pledge (principal and interest) remains outstanding.

- \$127.7 million (gross) pledged by Metropolitan State University of Denver to secure \$10.3 million of current principal and interest on debt issued to finance the construction, expansion, or renovation of certain academic facilities. The related debt was originally issued in Fiscal Year 2010 and has a final maturity date of Fiscal Year 2046. The pledged revenue represents 10 percent of the tuition revenue stream and 100 percent of the fee and other revenues revenue stream, and \$179.6 million of the pledge (principal and interest) remains outstanding.
- \$96.6 million (net) pledged by Colorado Mesa University to secure \$15.9 million of current principal and interest on debt issued to construct auxiliary facilities. The related debt was originally issued in Fiscal Year 2010 and has a final maturity date of Fiscal Year 2049. The pledged revenue represents approximately 79.5 percent of the revenue stream and \$314.3 million of the pledge (principal and interest) remains outstanding.
- \$35.0 million pledged by the University of Northern Colorado to secure \$10.3 million of current principal and interest on debt issued to finance refunding of previous debt and for improvements of auxiliary facilities. The debt issuances had an earliest origination date of Fiscal Year 2014 and furthest maturity date of Fiscal Year 2046. The pledged revenue represents 45.7 percent of the net total auxiliary, extended studies, and student fee revenue streams; 100 percent of gross facility & admin cost recoveries; and 10 percent of gross general fund tuition revenue. \$177.5 million of the pledge (principal and interest) remains outstanding.
- \$10.7 million (net) pledged by the Western State Colorado University to secure \$7.2 million of current principal and interest on debt issued to finance a new student apartment complex and a new sports complex. The debt issuances had an earliest origination date of Fiscal Year 2010 and furthest maturity date of Fiscal Year 2045. The pledged revenue represents 38.3 percent of the revenue stream, and \$143.3 million of the pledge (principal and interest) remains outstanding.

Revenue available to meet debt service requirements is shown in the following table:

(Amounts In Thousands)

Agency Name	Gross Revenue	Direct Operating Expense	Available Net Revenue	Debt Service Requirements		
				Principal	Interest	Total
Higher Education Institutions	\$ 2,696,364	\$ (682,283)	\$ 2,014,082	\$ 111,448	\$ 107,051	\$ 218,499
Statewide Bridge Enterprise	114,658	-	114,658	-	17,181	17,181
High Performance Transportation Enterprise	8,867	-	8,867	-	8,090	8,090
	<u>\$ 2,819,889</u>	<u>\$ (682,283)</u>	<u>\$ 2,137,607</u>	<u>\$ 111,448</u>	<u>\$ 132,322</u>	<u>\$ 243,770</u>

DONOR RESTRICTED ENDOWMENTS

The State's donor restricted endowments exist solely in its institutions of higher education. The policies of individual boards govern the spending of net appreciation on investments; there is no State law that governs endowment spending. Donor restricted endowment appreciation reported by the State's institutions of higher education totaled \$22.1 million.

The University of Colorado reported net appreciation on endowment investments of \$21.0 million that was available for spending. The University reported the related net position in Restricted for Permanent Funds and Endowments – Expendable on the Statement of Net Position – Proprietary Funds. The University spends its investment income in accordance with the University of Colorado Foundation's established spending policy.

The Colorado School of Mines reported \$1.7 million of net appreciation on endowment investments that was available for spending. The School reported the related net position in Restricted for Permanent Funds and Endowments –

Expendable on the Statement of Net Position – Proprietary Funds. The School has an authorized spending rate of 4.25% of the rolling 36-month average market value of the endowment investments.

Colorado State University reported negative net appreciation on endowment investments of (\$0.5) million. The University reported the related net position in Restricted for Permanent Funds and Endowments – Expendable on the Statement of Net Position – Proprietary Funds. The University spends its investment income as authorized by the University’s President.

NOTE 18 – RELATED PARTIES

RELATED ORGANIZATIONS

The following related organizations, for which the State appoints a voting majority of their governing boards, are not part of the reporting entity based on the criteria of GASB Statement No. 14, as amended by GASB Statements No. 39 and 61:

- Colorado Agricultural Development Authority
- Colorado Beef Council Authority
- Colorado Educational and Cultural Facilities Authority
- Colorado Health Benefit Exchange
- Colorado Health Facilities Authority
- Colorado Housing and Finance Authority
- Colorado New Energy Improvement District
- Colorado Sheep and Wool Authority
- Fire and Police Pension Association
- Pinnacle Assurance
- The State Board of the Great Outdoors Colorado Trust Fund
- Venture Capital Authority

Even though the appointment of governing boards of these authorities is similar to those included in the reporting entity, the State cannot impose its will upon these entities and it does not have a financial benefit or burden relationship with them. Detailed financial information may be obtained directly from these organizations.

RELATED PARTY TRANSACTIONS

The Colorado Housing & Finance Authority (CHFA) provides administrative services while serving as a fiscal agent for small business programs to provide relief to business that are affected by COVID-19, helps businesses that typically struggle to get access to a bank loan, and programs that promote energy efficiency and renewable energy in Colorado. The State paid a total of \$15.4 million to CHFA for the administration of these programs during Fiscal Year 2022.

The University of Colorado Health (UCHealth) is a legal entity separate from the University of Colorado. Faculty members of the University's School of Medicine perform a majority of their clinical practice and clinical training at UCHealth. The clinical revenue for these clinical services provided by the University's faculty is collected by University Physicians Inc., d/b/a CU Medicine, a blended component unit of the State. The University enters into contracts with UCHealth to support the University's educational mission. During Fiscal Year 2022, UCHealth paid the University \$114.7 million, and the University paid UCHealth \$15.0 million. At June 30, 2022, the University had accounts receivable from UCHealth of \$2.7 million.

The State Board of the Great Outdoors Colorado (GOCO) Trust Fund is a constitutionally created entity whose purpose is to administer the GOCO Program and Trust Fund. The purpose of the program is to promote the wildlife and outdoor recreation resources of the State using funds it receives from the Colorado Lottery. During Fiscal Year 2022, the Board awarded \$84.2 million to the Division of Parks and Wildlife at the Department of Natural Resources. At June 30, 2022, the amount the Division spent on GOCO grants was \$38.4 million, and GOCO owed the Department of Natural Resources \$9.8 million. Additionally, the GOCO Trust Fund is reported as a fiduciary fund in the State's financial statements. The Department of Treasury recorded deposits of \$82.5 million and

disbursements of \$79.4 million in the GOCO Trust Fund, and the Trust Fund had an ending cash balance of \$84.7 million as of June 30, 2022.

The Colorado Health Benefit Exchange, operating as Connect for Health Colorado, operates the State's health insurance marketplace. During Fiscal Year 2022, the Colorado Health Benefit Exchange received \$12.8 million in payments from the State for eligibility determinations and system changes.

The Colorado Beef Council Authority oversees the sale of cattle in Colorado and imported beef and beef products. Statute requires the Brand Board within the Department of Agriculture to collect a fee up to \$1 on each head of cattle inspected and remit it to the Colorado Beef Council Authority. In return for collecting and administering the fee, 3 percent is paid back to the Brand Board. During Fiscal Year 2022, the Brand Board paid \$3.3 million to the Colorado Beef Council Authority, and the Colorado Beef Council Authority paid \$0.1 million to the Brand Board.

NOTE 19 – COMMITMENTS AND CONTINGENCIES

COMMITMENTS

The State does not have any significant commitments at June 30, 2022.

SERVICE CONCESSION ARRANGEMENTS

On February 25 2014, the High Performance Transportation Enterprise (HPTE) and Plenary Roads Denver (PRD) completed the financial close of a 50-year concession arrangement. The concession arrangement is HPTE and CDOT's first public private partnership (P3) project, where public and private sectors work together to provide transportation improvements.

The commercial close of the concession arrangement transferred from HPTE to PRD the operations, maintenance, and revenues related to the existing I-25 High Occupancy Toll (HOT) lanes and the U.S. 36 Phase I project. Additionally, PRD assumed HPTE's 50-year \$54 million TIFIA loan at the completion of U.S. 36 Phase I. PRD also financed, designed, and constructed U.S. 36 Phase II. In March 2016, PRD transferred the completed Phase II capital asset with an acquisition value of \$88.7 million to HPTE. PRD subsequently assumed the operations, maintenance, and revenues from U.S. 36 Phase II. PRD has the right to collect tolls and raise rates with permission from the HPTE Board. If the Board does not approve the rate increase, HPTE must compensate PRD for any lost revenue.

HPTE reported deferred inflow of resources related to the arrangement of \$124.9 million, which is included on the *Statement of Net Position*. The table below shows the carrying amount of HPTE's capital assets at fiscal year-end pursuant to the concession arrangement.

Project	Description	Carrying Amount
U.S. 36 Phase II	Tolling Equipment and Software	\$ -
U.S. 36 Phase II	Managed Lanes	89,139,183
U.S. 36 Phase II	36 Tolling Stations	78,256

ENCUMBRANCES

Most encumbrances are supported by annual appropriations and lapse at year-end. However, the Capital Projects Funds, Institutions of Higher Education, and Colorado Department of Transportation Funds (primarily the Highway Users Tax Fund) include multi-year encumbrances of \$67.6 million, \$303.8 million, and \$1.8 billion, respectively, which are related to purchase orders and long-term contracts for the construction of major capital projects and infrastructure.

FINANCIAL GUARANTEES

Colorado statutes (Section 22-41-110, C.R.S.) hold the State liable for defaults on school district bonds and other obligations unless a school district board of education adopts a resolution stating it will not accept payment on their behalf. The State Treasurer shall recover the amount forwarded on behalf of the school districts by withholding amounts from the school district's payments of the state share of the district's total program received and from property tax and specific ownership tax revenues collected by the county treasurer on behalf of the school district; except that the State Treasurer may not recover amounts from property tax revenues that are pledged to pay notes

and bonds issued by the school district. The guarantee will continue to be in effect as long as any bonds or other obligations of a school district remain outstanding. As of June 30, 2022, \$11.3 billion of the school district bond is outstanding and no liability has been recorded, as the school districts have been deemed capable of meeting the debt service payments.

CONTINGENCIES

Numerous court cases are pending in which the plaintiffs allege that the State has deprived persons of their constitutional rights, civil rights, inadequately compensated them for their property, engaged in regulatory misfeasance, or breached contracts. In the aggregate, the monetary damages (actual, punitive, and attorney's fees) claimed in the constitutional and civil rights cases would exceed the insurance coverage available by a material amount. The property compensation and breach of contract suits are generally limited to the appraised value of the property or the contract amount. In the breach of contract suits, the State often files counterclaims. While it is reasonably possible that awards of judgment could occur, it is unlikely that those awards would have a material adverse effect on the State's financial condition.

Significant matters that are deemed a contingent liability to the State requiring disclosure are summarized below. A significant matter is defined as a single instance where an unfavorable outcome would result in damages of \$5.0 million or more.

Grants

The State receives federal grants for specific purposes that are subject to review and audit by grantor agencies. This federal funding is conditional upon compliance with the terms and conditions of such grant agreements and applicable federal laws and regulations. Issues resulting from federal reviews or audits can potentially cause disallowance of expenditures and consequently, a liability of the State.

The federal Department of Health and Human Services, Centers for Medicare and Medicaid (CMS) demanded the State return approximately \$38.4 million of performance bonus payments under the Children's Health Insurance Program Reauthorization Act of 2009, on the basis the State improperly included individuals in current enrollment counts. The State is vigorously defending against the recovery demand, but the likelihood of an unfavorable outcome is uncertain.

General Litigation

The State is a defendant in a number of lawsuits or is subject to potentially be named as a party to lawsuits that are associated with its normal governmental operations. Although the outcomes are uncertain, some of these litigations could involve substantial losses. However, the State believes in most cases that it will not incur a resulting liability that would have a material or adverse effect on the State's financial condition. Should the State incur a loss through an unfavorable outcome, some of the losses may be covered through liability insurance.

Plaintiffs filed a class action suit on behalf of at least 160 women against the Department of Corrections, alleging violations of the Colorado Anti-Discrimination Act (CADA) for discrimination in a place of public accommodation based on sexual orientation and disability. The State will vigorously defend against an estimated \$50.0 million of damage claims in the action, including by invoking any available immunity defenses. The State also intends to reopen discussions with Plaintiffs about potential settlement including changes to CDOC policies and practices.

Multiple lawsuits have been filed against the Department of Higher Education on behalf of all students enrolled at the University of Colorado and Colorado State University who have paid tuition and the mandatory student fees for

the Spring 2020 semester. Plaintiffs allege breach of contract and, in the alternative, unjust enrichment. The dispute relates to transition to remote delivery of educational services for the latter portion of the Spring 2020 semester in response to the COVID-19 pandemic. Although the likelihood of an unfavorable outcome is uncertain, should the court award a full refund of fees paid for the portion of the semester during which educational services were delivered remotely to all enrolled students, each institution's liability could potentially exceed \$10.0 million. The State will vigorously defend the claims in the action.

The Department of Public Health & Environment has been named as a defendant related to a claim that it ordered a regulatory taking by prohibiting a corporate entity from legally distributing wastewater. Although the plaintiff seeks \$70.0 million in compensatory damages, a reliable loss or range of loss cannot be estimated at this time. The likelihood of an unfavorable outcome is 50 percent, and the State is vigorously defending the case.

The Department of Revenue has been named as a defendant in a claim whereby the plaintiff challenges the denial of an income tax refund claim on the basis that retroactive changes in the CARES Act allegedly carried through to Colorado law despite a regulation to the contrary. If plaintiffs win, it would overturn the regulation. It would also have a very significant impact on other taxpayers, with a combined impact of several hundred million dollars. For this case, the Department of Revenue's potential exposure could be in excess of \$8.0 million. The State is vigorously defending its position.

A lawsuit filed against the Colorado Department of Transportation (CDOT) arises from the design and construction of approximately one mile of I-25 between City Center Drive and Santa Fe Drive in Pueblo, CO. The plaintiff is claiming that CDOT forced the plaintiff to accelerate construction, and claims that it is entitled to an additional \$13.0 million in payments from CDOT due to purported scheduling changes allegedly caused by CDOT. CDOT and its' counsel at the Attorney General's office are vigorously defending this lawsuit.

A dispute entering arbitration filed against the Colorado Department of Transportation (CDOT) arises from the construction of a new peak period shoulder lane on I-70 near Idaho Springs. The contractor alleges that CDOT caused the delays and cost overruns, and claims that it is entitled to additional payments from CDOT. CDOT and its counsel at the Attorney General's office are vigorously defending this matter, but the range of loss is \$2.5 to \$12.0 million.

NOTE 20 – TAX ABATEMENTS

The Governor’s Office of Economic Development and International Trade (OEDIT) – through the State Economic Development Commission (EDC) – supports recruitment, retention, and economic growth throughout the State by offering a variety of incentives and tax credits. OEDIT provided significant tax abatements under three programs during the fiscal year: Colorado Enterprise Zone Business and Contribution Tax Credits, Job Growth Incentive Tax Credits, and the Regional Tourism Act program.

- The Colorado Enterprise Zone (EZ) program was created under Article 30 of Title 39 of the Colorado Revised Statutes (C.R.S.) to promote a business friendly environment in economically distressed areas by offering state income tax credits that incentivize businesses to locate and develop in these communities. The Enterprise Zone Contribution Credit is a sub-credit of the Enterprise Zone program created under Section 39-30-103.5, C.R.S. The Contribution Credit is issued to taxpayers that contribute to an economic development project initiated by the local zone administrator and approved by the EDC. Taxpayers investing in Enterprise Zones can earn a credit on their Colorado income tax by planning and executing specific economic development activities. The following incentives can be earned by businesses located in Enterprise Zones:

Business Income Tax Credits	Credit Amount
Investment Tax Credit	3.0 percent of equipment purchases
Commercial Vehicles Investment Tax Credit	1.5 percent of commercial vehicle purchases
Job Training Tax Credit	12 percent of qualified training expenses
New Employee Credit	\$1,100 per new job created
Agricultural Processor New Employee Credit	\$500 per new job created
Employer Sponsored Health Insurance Credit	\$1,000 per covered employee
Research & Development Increase Tax Credit	3 percent of increased R&D expenditures
Vacant Commercial Building Rehabilitation Tax Credit	25 percent of rehabilitation expenditures
Additional EZ Incentives	Incentive Amount
Manufacturing/Mining Sales and Use Tax Exemption	Expanded Sales & Use tax exemption in EZ
Contribution Tax Credit	25 percent cash/12.5 percent in-kind

Areas with high unemployment rates (25% above the State average), low per capita income (25% below the State average), and/or slower population growth (less than 25% of the State average in rural areas) may be approved for EZ designation by the EDC.

Each income tax year, a business located in an EZ must apply and be pre-certified prior to beginning an activity to earn any of the business tax credits listed in the table above. When pre-certifying, the business states that the credit is a contributing factor to the start-up, expansion, or relocation of the business. To certify for the credit, the investments and/or new jobs must have been made. At the end of the income tax year, a business must certify that the activities were performed. Contribution Tax Credits are earned by taxpayers making donations to eligible EZ Contribution Projects, and certifying those donations with the project organization or Local Enterprise Zone Administrator. The Commercial Vehicle Investment Tax Credit has a separate online application process.

The provision for recapturing abated taxes would be an income tax return audit conducted by the Department of Revenue.

- The Job Growth Incentive Tax Credit (JGITC) is a performance-based job creation incentive program created under Section 39-22-531 C.R.S., in which businesses must create and maintain permanent new jobs for one year before receiving the tax credit. The JGITC provides a state income tax credit equal to 50% of FICA paid by the business on the net job growth for each calendar year in the credit period. A business must undertake a job creation project for which the State of Colorado is competing with at least one other state for the project. The JGITC must be a major factor in the business decision to locate or retain the project in Colorado, and a business may not start or announce the proposed project (including

locating or expanding in the State, hiring employees related to the project, or making material expenditures for the project) until a final application has been submitted and approved by the EDC.

Businesses have to create at least 20 new jobs (full-time equivalents) in Colorado during the credit period with an average yearly wage of at least 100% of the county average wage based on where the business is located. A business located in an Enhanced Rural Enterprise Zone must create at least five net new jobs (full-time equivalents) in Colorado during the credit period with an average yearly wage of at least 100% of the county average wage based on where the business is located. The credit period is 96 consecutive months.

The provision for recapturing abated taxes would be an income tax return audit conducted by the Department of Revenue.

- The Regional Tourism Act (RTA) program was created under Sections 24-46-301 through 309 C.R.S., and provides Tax Increment Financing (TIF) to support construction of unique and extraordinary large scale tourism and entertainment facilities that will drive net new visitors and revenue to Colorado. A percentage of state sales tax within a geographic area in a given year that exceeds a base year amount is collected by the Department of Revenue and diverted to a project financing entity. The EDC shall not approve any project that would likely create an annual state sales tax revenue dedication of more than \$50 million to all regional tourism projects. A local government will need to submit a regional tourism project application to OEDIT within the application cycle deadline. OEDIT will review the application for general completeness and to make an initial determination regarding whether the application has met the general criteria for a regional tourism project. The EDC will review applications forwarded with OEDIT recommendations and may approve or reject the project based on a demonstration that the following criteria are materially met:
 - The project is of an extraordinary/unique nature and is reasonably anticipated to contribute significantly to economic development and tourism in the State and communities where the project is located.
 - The project is reasonably anticipated to result in a substantial increase in out-of-state tourism.
 - A significant portion of sales tax revenue generated by the project is reasonably anticipated to be attributable to transactions with nonresidents of the zone.
 - The local government has provided reliable economic data demonstrating that in the absence of state sales tax increment revenue, the project is not reasonably anticipated to be developed within the foreseeable future.

Recipients must follow the EDC resolution based on their application, and must build certain required elements and improvements and follow conditions established by the EDC. The provision for recapturing abated taxes is a formal decision by the EDC concluding the project has not commenced within five years.

Information relevant to disclosure of these tax abatement programs for the fiscal year ended June 30, 2022 is as follows:

Tax Abatement Program	Amount of Taxes Abated (in thousands)
Colorado Enterprise Zone Business Tax Credits	\$ 103,915.2
Colorado Enterprise Zone Contribution Tax Credits	16,297.6
Job Growth Incentive Tax Credits	49,299.4
Regional Tourism Act	15,802.4
Total	\$185,314.6

NOTE 21 – SUBSEQUENT EVENTS

A. DEBT ISSUANCES AND REFUNDINGS

On July 19, 2022, the State issued Education Loan Program Tax and Revenue Anticipation Notes (ETRAN), Series 2022A. The notes mature on June 29, 2023. The total due on that date includes \$350 million in principal and \$15,878,472 in interest. By statute, interest on the notes is payable from the General Fund. The ETRAN was issued with a premium of \$10,774,700, an average coupon rate of 4.80%, and a yield of 1.49%.

High Performance Transportation Enterprise

In February 2016, the Colorado Department of Transportation's High Performance Transportation Enterprise entered into a Loan Agreement with Bank of America, N.A. for \$23.6 million of which the proceeds were used to fund a portion of the capital construction cost for the I-25 North 120th to E-470 (Segment 3) Express Lanes project, fund three years of capitalized interest and pay cost of issuance expenses. The Segment 3 Express Lanes have been operational since June 2020. Given the availability of existing net toll revenue generated from I-25 North US 36 to 120th (Segment 2) and I-25 Segment 3, the HPTE Board of Directors approved Resolution #402 on November 16, 2022 authorizing a full payoff of the Bank of America, N.A. loan. The final payoff amount was completed on November 22, 2022.

Tolling commencement on the I-70 Mountain Express Lane (MEXL) Westbound occurred on July 7, 2022. The new lane will be open during peak travel times in both the summer and winter seasons to reduce congestion as well as improve travel times and safety on a twelve mile stretch of the I-70 mountain corridor from the Veterans Memorial Tunnel to Empire Junction.

University of Colorado

On September 29, 2022, the University funded a defeasance escrow with Zions Bank as Escrow Agent to defease \$50,995,000 of University System Enterprise Revenue Bonds with total scheduled principal and interest of \$56,200,000. The escrow deposit and costs of the defeasance provided from University resources totaled \$48,900,000. The bonds being defeased were for four projects on the Boulder Campus and are associated with building construction fees originally approved by the Regents and Boulder students in 2004. Defeasance of these bonds and repeal of the associated fees are part of President Saliman's effort to support campus strategic initiatives. The bonds being retired from the defeasance escrow had annual debt service obligation of \$9,200,000 in Fiscal Year 2023 to Fiscal Year 2026, \$4,300,000 in Fiscal Year 2027 and Fiscal Year 2028 and \$1,700,000 in Fiscal Year 2029 to Fiscal Year 2034.

Colorado State University System

On October 7, 2022, the Board of Governors of the Colorado State University System approved the Twenty Third Supplemental Resolution authorizing the System to issue System Enterprise Revenue Refunding Bonds Series 2022 A (Refunding Bonds), in an amount not to exceed \$85.0 million, to be used to refund all or a portion of a previously issued bond series and pay certain costs relating to the issuance of the Refunding Bonds. The Twenty Third Supplemental Resolution also amends the definition of Gross Revenues, increasing the amount of Tuition Revenues pledged under the Master Resolution from 10 percent to 100 percent.

Colorado Mesa University

On October 7, 2022, the Board of Trustees for Colorado Mesa University approved a supplemental resolution regarding the issuance of Enterprise Revenue Bonds Series 2022D for amounts not to exceed \$19.0 million to construct additional student housing referred to as Wingate Apartments. Pending negotiation of design, construction and financing, and final State approval, the project is anticipated to be completed at the beginning of Fall Semester 2023.

Colorado School of Mines

In Fiscal Year 2020 the University issued Institutional Enterprise Revenue Refunding bonds of \$15,675,000. The purchaser of the debt released \$11,645,000 at closing on December 2020, and created a line of credit for the remaining \$4,030,000. Mines intends to draw this amount in December 2022. The University intends to issue institutional enterprise revenue bonds to fund portions of certain capital projects including the Beck Venture Center, the Labriola Innovation Complex, the Early Childhood Education Center, a new parking garage and classroom building. The total debt is anticipated to be approximately \$90,000,000 and issued before the end of the calendar year. The Board of

Trustees approved the increase of tuition revenue pledge from 10 percent to 100 percent of total tuition revenue by amending the Master Enterprise Bond Resolution through the approval of the 19th Supplemental Resolution. The University will apply 100 percent of total tuition revenue to the pledge revenue calculations in Fiscal Year 2023.

B. OTHER

College Assist

College Assist renewed agreements with three outside collection agencies effective November 1, 2022, to collect on defaulted student loans for a one-year term. The agreements may be renewed annually for a one-year term if both parties agree. Collection agencies have been working with borrowers making voluntary payments and providing customer service. Approximately \$176.8 million of student loans will be mandatorily assigned to the U.S. Department of Education starting in Fiscal Year 2023 to comply with a Dear Colleague Letter (DCL). As part of the DCL, College Assist received funding from the U.S. Department of Education in the amount of \$4.8 million in September 2022. In August 2022, President Joe Biden announced a student loan forgiveness initiative that would forgive \$10,000 or \$20,000 per a borrower for non-Pell grant recipients and Pell grant recipients, respectively. The initiative will include Federal Family Education Loans held by guarantee agencies. College Assist is awaiting additional guidance from the U.S. Department of Education.

State Board of the Great Outdoors Colorado Trust Fund

On September 20, 2022, The Conservation Fund closed on the sale of the Sand Creek Massacre property to the National Park Service to be incorporated into the Sand Creek Massacre National Historic Site. Effective on September 22, 2022, the loan balance of \$2,850,000 was paid in full by The Conservation Fund.

NOTE 22 – DISCRETELY PRESENTED COMPONENT UNITS

As described in Note 1, the State’s discretely presented component units (DPCUs) are entities that are legally separate from the State, but included in the reporting entity due to their relationships with the State. This note discusses the significant balances reported in the financial statements for DPCUs and financial items directly related to the State’s financial accountability for the DPCUs.

Basis of Accounting

The financial statements for the Colorado Water Resources and Power Development Authority (the Authority), a major DPCU, as well as the nonmajor DPCUs, the Denver Metropolitan Baseball Stadium District (the District) and the Statewide Internet Portal Authority (SIPA), are prepared on the accrual basis of accounting using the economic resources measurement focus and follow GASB standards for governments. The financial information for the Authority and the District is presented for the fiscal year ended December 31, 2021 and the financial information for SIPA is presented for the fiscal year ended June 30, 2022.

The financial information for the University of Colorado Foundation (the Foundation), a major DPCU, is presented for the fiscal year ended June 30, 2022. The Foundation follows standards for not-for-profit accounting promulgated by the Financial Accounting Standards Board (FASB), which recommends preparing financial statements using the accrual basis of accounting.

Cash and Cash Equivalents

The Authority reported cash and cash equivalents with a fair market value of \$346.5 million. This amount comprises \$335.2 million held by COLOTRUST (Colorado Local Government Liquid Asset Trust), \$2.2 million held in the State Treasurer’s Investment Pool, \$8.8 million in a Federated Government Obligations Fund, and \$0.3 million in bank cash deposits. The COLOTRUST and Federated deposits had nationally recognized statistical rating organization (NRSRO) credit ratings of AAAm. The COLOTRUST deposits were measured at net asset value per share (NAV) and the Federated deposits were measured using quoted market prices. The fair market value disclosures for the Treasurer’s Investment Pool are disclosed in Note 4.

Investments

The Foundation holds resources for the benefit of the State and the amount of those resources, the vast majority of which are investments, are significant to the State.

Since the Foundation’s financial statements are prepared according to FASB not-for-profit standards, the investment risk disclosures typical of government financial statements are not disclosed. For its endowments, the Foundation has adopted an investment policy that seeks to provide a steady and increasing stream of funding while maintaining the purchasing power of the assets. The Foundation’s investments are reported, to the extent possible, at fair market value. The FASB fair market value reporting requirements provide for a valuation method hierarchy similar to GASB’s. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

Level 1 Investments – values are based on quoted prices (unadjusted) for identical assets (or liabilities) in active markets that a government can access at the measurement date.

Level 2 Investments – inputs other than quoted prices included within Level 1 – that are observable for an asset (or liability), either directly or indirectly.

Level 3 Investments – classified as Level 3 have unobservable inputs for an asset (or liability) and may require a degree of professional judgment.

The following table summarizes the Foundation’s investments by type within the fair value hierarchy as of June 30, 2022. In addition to the investments reported at fair value below, the Foundation reports investment assets at cost or present value of \$71.0 million.

University of Colorado Foundation					
Fair Value Measurements Using					
(Amounts In Thousands)					
Investment Type	Fair Value as of 6/30/2022	Quoted prices in active markets for identical assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Net Asset Value Per Share
Mutual Funds - Domestic Equities	\$ 51,848	\$ 51,848	\$ -	\$ -	\$ -

Total	\$ 2,621,319	\$ 389,344	\$ 165,370	\$ 63,772	\$ 2,002,833

Receivables

The Authority loans funds to finance local government water resources projects, wastewater treatment projects, and drinking water projects. The Authority reported loans receivable of \$960.9 million as of December 31, 2021. The scheduled maturities of the loans receivable are below.

Colorado Water Resources and Power Development Authority Loans Receivable (In Thousands)

Year	Principal	Interest	Total
2022	\$ 73,004	\$ 8,284	\$ 81,288
2023	70,682	7,406	78,088
2024	70,544	6,247	76,791
2025	69,738	5,406	75,144
2026	59,699	4,731	64,430
2027 to 2031	268,149	16,279	284,428
2032 to 2036	192,651	8,286	200,937
2037 to 2041	96,823	3,654	100,477
2042 to 2046	36,312	1,379	37,691
2047 to 2051	23,006	277	23,283
2052	281	2	283
Total	\$ 960,889	\$ 61,951	\$ 1,022,840

The Foundation reported contributions receivable of \$81.1 million. This amount is net of allowances for uncollectible contributions and net present value discount. Of this amount, \$17.3 million is due within one year, \$53.1 million is due within one to five years, and \$10.7 million is due in more than five years.

Debt Service Requirements

The Authority has issued several bonds to finance local government water projects, which do not constitute debt of the State. During 2021, the Authority issued 2021 Series A (SRF) Clean Water Refunding Revenue Bonds for \$29.1 million and 2021 Series A (SRF) Drinking Water Revolving Fund Refunding Revenue Bonds for \$4.7 million. The Authority fully retired five series of Clean Water Revenue Bonds in 2021: 2001 Series A, 2008 Series A, 2010 Series A, 2010 Series B, and 2011 Series A. Additionally, the Authority retired 2005 Series A2 of its Wastewater Revolving Fund Refunding Revenue Bonds and 2011 Series A of its Drinking Water Revenue Bonds.

The schedule below summarizes the remaining debt service payments for all bond issuances for the Authority.

Colorado Water Resources and Power Development Authority Debt Service Requirements (In Thousands)

Year	Principal	Interest	Total
2022	\$ 30,005	\$ 10,149	\$ 40,154
2023	28,620	8,781	37,401
2024	28,500	7,580	36,080

2026	17,270	5,593	22,863
2027 to 2031	69,685	18,110	87,795
2032 to 2036	39,035	7,231	46,266
2037 to 2041	16,020	2,568	18,588
2042 to 2046	5,405	796	6,201
2047 to 2050	2,230	123	2,353
Total	\$ 261,990	\$ 67,462	\$ 329,452

Capital Assets

The District owns and operates a major league baseball stadium and other related capital assets. The District depreciates land improvements, buildings, and other property and equipment using the straight-line method over estimated useful lives that range from three to 50 years. Changes in capital assets for the District for 2021 are below.

Denver Metropolitan Major League Baseball Stadium District Changes in Capital Assets (In Thousands)

	Beginning Balance, 1/1/2021	Additions	Transfers	Retirements	Ending Balance, 12/31/2021
Historical Costs					
Land	\$ 20,664	\$ -	\$ -	\$ -	\$ 20,664

Other Property and Equipment	(26,239)	(1,211)	-	-	(27,450)
Total Accumulated Depreciation	(115,355)	(7,377)	-	-	(122,732)
Net Capital Assets	\$ 172,501	\$ (5,550)	\$ -	\$ (81)	\$ 166,870

Transactions with the Primary Government

Pursuant to statutes, with the written consent of the Department of Public Health and Environment, the Authority is authorized, on behalf of the State, to execute operating agreements with the United States Environmental Protection Agency. The Authority entered into a memorandum of agreement with the Department of Public Health and Environment and the Department of Local Affairs, under which each has agreed to assume specified responsibilities. The Authority incurred expenses for the two state agencies totaling \$10.8 million in the fiscal year ending December 31, 2021.

The Foundation reported custodial funds of \$570.3 million, held for investment for the University of Colorado. In Fiscal Year 2022, the Foundation assessed 1.5 percent on the University's custodial endowments and 1.0 percent on the University's treasury funds, totaling \$6.3 million, to support advancement operations. \$199.7 million of distributions were transferred to the University and \$34.5 million of advancement support was paid to the University.

Pension Information

The Authority participates in the PERA defined benefit pension plan disclosed in Note 6. Disclosures in Note 6 for the PERA State Division Trust Fund (SDTF) regarding general information about the plan, contributions, and actuarial assumptions are also applicable to the Authority. The pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions specific to the Authority are provided below.

At December 31, 2021, the Authority reported a liability of \$3,325,030 for its proportionate share of the collective net pension liability.

The Authority recognized reduction of pension expense of \$935,826 and revenue of \$0 for support from the State as a nonemployer contributing entity for the fiscal year ended December 31, 2021. At December 31, 2021, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 82,171	\$ -
Changes of assumptions or other inputs	225,775	-
Net difference between projected and actual earnings on pension plan investments	-	680,545
Changes in proportion	3,302	5,379
Contributions subsequent to the measurement date	243,460	-
Total	<u>\$ 554,708</u>	<u>\$ 685,924</u>

At December 31, 2021, the Authority reported \$243,460 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2022	\$ (26,729)
2023	(9,917)
2024	(231,377)
2025	(106,653)
	<u>\$ (374,676)</u>

Other Post-Employment Benefits (OPEB)

The Authority participates in the PERA defined benefit OPEB plan disclosed in Note 7. Disclosures in Note 7 for the PERA Health Care Trust Fund (HCTF) OPEB regarding general information about the plan, contributions, and actuarial assumptions are also applicable to the Authority. The OPEB liabilities, OPEB expense, and deferred outflows of resources and deferred inflows of resources related to OPEB specific to the Authority are provided below.

At December 31, 2021, the Authority reported a liability of \$118,217 for its proportionate share of the collective net OPEB liability.

The Authority recognized OPEB expense of \$1,108 for the fiscal year ended December 31, 2021. At December 31, 2021, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 314	\$ 25,990
Changes of assumptions or other inputs	883	7,249
Net difference between projected and actual earnings on OPEB plan investments	-	4,830
Changes in proportion	422	19,868
Contributions subsequent to the measurement date	12,436	-
Total	<u>\$ 14,055</u>	<u>\$ 57,937</u>

At December 31, 2021, the Authority reported \$12,436 as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2022	\$ (12,535)
2023	(11,859)
2024	(12,930)
2025	(12,283)
2026	(6,294)
Thereafter	(417)
	<u>\$ (56,318)</u>

Subsequent Event

The Authority issued its State Revolving Fund Revenue Bonds 2022 Series A that closed on May 5, 2022. The \$37.2 million proceeds from the issuance will be used to fund loans to governmental municipal borrowers to finance or refinance certain costs of improvements to wastewater treatment facilities, to fund deposit to a debt service reserve account, and to pay costs of issuance. The Bonds have maturity dates starting in 2022 and ending in 2042 with an interest rate of 5.0%.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

NOTE RSI-1 – BUDGETARY INFORMATION

A. BUDGETARY BASIS

Budget schedules are presented as appropriated and nonappropriated for each category. The appropriated schedules are part of the Required Supplementary Information (RSI) section while the nonappropriated schedules are part of the Supplementary Information (SI) section.

The three budget-to-actual schedules in the RSI show revenues and expenditures that are legislatively appropriated, excluding informational only appropriations that do not require action of the legislature but are included in the appropriations bills for informational purposes only. These schedules are presented in the budgetary fund structure discussed below.

Budgetary fund types differ from fund types proscribed by generally accepted accounting principles. The budgetary fund types are general, cash, and federal funds. For budgetary purposes, cash funds include financial resources designated to support specific expenditures. Federal funds primarily include revenues received from the federal government. All other financial resources received are general-purpose revenues, and are not designated for specific expenditures until appropriated.

Eliminations of transfers and intrafund transactions are not made in the budgetary funds if those transactions are under budgetary control. Thus, revenues and expenditures in these funds are shown at their gross amounts. This results in significant duplicate recording of revenues and expenditures. An expenditure of one budgetary fund may be shown as a transfer-in or revenue in another budgetary fund and then be shown again as an expenditure in the second fund.

For budget purposes, depending on the accounting fund type involved, expenditures/expenses are determined using the modified accrual or accrual basis of accounting with the following exceptions:

- Payments to employees paid on a monthly basis for time worked in June of each fiscal year are made on the first working day of the following month; for general-funded appropriations those payments are reported as expenditures in the following fiscal year.
- Certain payments by state agencies to the Office of Information Technology for information technology services purchased in June using general-funded appropriations are reported as expenditures in the following fiscal year.
- Medicaid services claims are reported as expenditures only when the Department of Health Care Policy and Financing requests payment by the State Controller for medical services premiums under the Colorado Medical Services Act or for medical service provided by the Department of Human Services under the Colorado Medical Services Act. Similar treatment is afforded to non-administrative expenditures that qualify for federal participation under Title XIX of the federal Social Security Act except for medically indigent program expenditures. In most years, this results in the Department of Health Care Policy and Financing excluding expenditures accrued for services provided but not yet billed.
- Expenditures of the fiscal year in the following three categories that have not been paid at June 30 are reported in the following year: Old Age Pension Health and Medical Care program costs; state contributions required by the Medicare Prescription Drug, Improvement, and Modernization Act of 2003; and financial administration costs of any non-administrative expenditure under the Children's Basic Health Plan.
- Unrealized gains and losses on investments are not recognized as changes in revenue on the budgetary basis.
- Pension expense related to unfunded pension liabilities are not recognized on a budgetary basis.

B. BUDGETARY PROCESS

The financial operations of the legislative, judicial, and executive branches of the State government, with the exception of custodial funds and federal moneys not requiring matching state funds, are controlled by annual appropriations made by the General Assembly. The Department of Transportation's portion of the Highway Fund is appropriated to the State Transportation Commission. Within the legislative appropriation, the Commission may appropriate the specific projects and other operations of the department. In addition, the Commission may appropriate available fund balance from its portion of the Highway Fund.

The total legislative appropriation is constitutionally limited to the unrestricted funds held at the beginning of the year plus revenues estimated to be received during the year as determined by the budgetary basis of accounting. The original appropriation by the General Assembly in the Long Appropriations Act segregates the budget of the State into its operating and capital components. The majority of the capital budgets are accounted for in the Capital Projects Fund, with the primary exception being budgeted capital funds used for infrastructure and institution of higher education capital projects.

The Governor has line item veto authority over the Long Appropriations Act, but the General Assembly may override each individual line item veto by a two-thirds majority vote in each house.

Most general and cash funded appropriations, with the exception of capital projects, lapse at year-end unless specifically required by the General Assembly or executive action is taken to rollforward all or part of the remaining unspent budget authority. Appropriations that meet the strict criteria for rollforward are reported in Note 19. Since capital projects appropriations are generally available for three years after appropriation, significant amounts of the capital budgets remain unexpended at fiscal year-end. Cash funded highway construction, maintenance and operations in the Department of Transportation are appropriated as operating budgets, but remain available in future years through action of the Transportation Commission.

The appropriation controls the combined expenditures and encumbrances of the State, in the majority of the cases, to the level of line item within the State agency. Line items are individual lines in the official budget document and vary from specific payments for specific programs to single appropriations at the agency level. Statutes allow the Judicial and Executive Branches, at year-end, to transfer legislative appropriations within departments for expenditures. The appropriation may be retroactively adjusted in the following session of the General Assembly by a supplemental appropriation.

On the three budget-to-actual schedules, the column titled Original Appropriation consists of the Long Appropriations Act and special bills, excluding informational only appropriations. The column titled Final Spending Authority includes the original appropriation and supplemental appropriations of the Legislature.

Spending occurs outside of the legislative appropriations process primarily for custodial purposes, federally-funded activity for which there is no general-purpose revenue matching requirement, statutory transfers, and other miscellaneous budgetary items. Additional budget-to-actual schedules related to nonappropriated activity are included in the Supplementary Section of the Annual Comprehensive Financial Report.

C. OVEREXPENDITURES

Depending on the accounting fund type involved, expenditures/expenses are determined using the modified accrual or accrual basis of accounting even if the accrual will result in an overexpenditure. The modified and full accrual basis of accounting is converted to the budgetary basis of accounting as noted above. In the General Purpose Revenue Fund and Capital Projects Fund, if earned cash revenues plus available fund balance and earned federal revenues are less than cash and federal expenditures, then those excess expenditures are considered general-funded expenditures. If general-funded expenditures exceed the general-funded appropriation then an overexpenditure occurs even if the expenditures did not exceed the total legislative line item appropriation. Individual overexpenditures are listed in Note 2. Some transactions considered revenues for budgetary

purposes, such as intrafund sales, are not considered GAAP revenues. Some events, such as the recognition of unrealized gains/losses on investments, affect revenues on a GAAP basis but not on the budgetary basis. Federal Medicaid revenues related to deferred Medicaid expenditures result in revenues on the GAAP statements but not on the budgetary schedules. These events and transactions are shown in the reconciliation as “Unrealized Gains/Losses” and/or “GAAP Revenue Adjustments.”

D. BUDGET TO GAAP RECONCILIATION

The *Reconciling Schedule – All Budget Fund Types to All GAAP Fund Types* shows how revenues, expenditures/expenses, and transfers under the budgetary basis in the budgetary fund structure and how nonappropriated revenues, expenditures/expenses, and transfers under the budgetary basis in the budgetary fund structure relate to the change in fund balances/net position for the funds presented in the fund-level financial statements.

Certain expenditures on a generally accepted accounting principle (GAAP) basis, such as bad debt expense related to loan activity and depreciation, are not budgeted by the General Assembly. In addition, certain General Purpose Revenue Fund payroll disbursements for employee time worked in June by employees paid on a monthly basis, June general-funded purchases of service from the Office of Information Technology, and Medicaid and certain other assistance program payments (see Section A above) accrued but not paid by June 30 are excluded from the expenditures are not shown on the budget-to-actual schedules but are included in the budget-to-actual reconciliation schedule as “GAAP Expenditures Not Budgeted.” Additionally, this line item includes some transactions considered expenditures for budgetary purposes, such as loan disbursements and capital purchases in proprietary fund types, are not expenditures on a GAAP basis.

Some transactions considered revenues for budgetary purposes, such as intrafund sales, are not considered GAAP revenues. Some events, such as the recognition of unrealized gains/losses on investments, affect revenues on a GAAP basis but not on the budgetary basis. Federal Medicaid revenues related to deferred Medicaid expenditures result in revenues on the GAAP statements but not on the budgetary schedules. These events and transactions are shown in the reconciliation as “Unrealized Gains/Losses” and/or “GAAP Revenue Adjustments.”

The inclusion of these revenues and expenditures and the change in nonbudgeted funds along with the balances from the budget-to-actual schedules is necessary to reconcile to the GAAP fund balance.

E. OUTSTANDING ENCUMBRANCES

The State uses encumbrance accounting as an extension of formal budget implementation in most funds except certain fiduciary funds, and certain Higher Education Institutions Funds. Under this procedure, purchase orders and contracts for expenditures of money are recorded to reserve an equivalent amount of the related appropriation. Encumbrances do not constitute expenditures or liabilities. They lapse at year-end unless specifically brought forward to the subsequent year.

NOTE RSI-2 – THE STATE’S DEFINED BENEFIT PENSION PLAN

A. PROPORTIONATE SHARE OF PENSION LIABILITY AND CONTRIBUTIONS

Proportionate Share – Public Employees Retirement Association (PERA) Trust Funds:

The State, Judicial, Denver Public Schools, and Schools Divisions Trust Funds – which are defined benefit cost-sharing multiple-employer pension plans – are administered by the Public Employees’ Retirement Association (PERA). The schedule below presents the State’s (primary government) proportionate share of the net pension liability for its retirement Trusts. The amounts presented for each Division were determined as of the measurement date, which is the calendar year-end that occurred within the State’s fiscal year. Information is not available prior to Calendar Year 2013 for the State and Judicial Divisions, and Calendar Year 2018 for the Denver Public Schools, Schools, and State and Judicial NCE Divisions.

		State Division								
(Amounts In Thousands)		CY 2021	CY 2020	CY 2019	CY 2018	CY 2017	CY 2016	CY 2015	CY 2014	CY 2013
State's proportion of the net pension liability		95.53%	95.60%	95.49%	95.40%	95.37%	95.49%	95.71%	95.85%	95.86%
State's proportionate share of Net Pension liability	\$	7,045,081	9,066,999	9,265,778	10,855,754	19,091,149	17,539,728	10,079,252	9,016,144	8,539,181

		Denver Public Schools Division			
(Amounts In Thousands)		CY 2021	CY 2020*	CY 2019	CY 2018
State's proportion of the net pension liability		22.70%	0.00%	30.71%	34.13%
State's proportionate share of Net Pension liability	\$	1,355	-	202,321	349,095
Plan fiduciary net position as a percentage of the total pension liability		99.87%	90.48%	84.73%	75.69%

		Schools Division			
(Amounts In Thousands)		CY 2021	CY 2020*	CY 2019	CY 2018
State's proportion of the net pension liability		10.28%	0.00%	11.26%	12.03%
State's proportionate share of Net Pension liability	\$	1,196,870	-	1,681,628	2,129,952
Plan fiduciary net position as a percentage of the total pension liability		74.86%	66.99%	64.52%	57.01%

		State Division as a Non-Employer Contributing Entity			
(Amounts In Thousands)		CY 2021	CY 2020*	CY 2019	CY 2018
State's proportion of the net pension liability		0.47%	0.00%	0.51%	0.55%
State's proportionate share of Net Pension liability	\$	34,307	-	49,203	62,292

		Judicial Division as a Non-Employer Contributing Entity			
(Amounts In Thousands)		CY 2021	CY 2020*	CY 2019	CY 2018
State's proportion of the net pension liability		0.88%	0.00%	0.64%	0.85%
State's proportionate share of Net Pension liability	\$	81	-	582	1,199

*The General Assembly passed House Bill 20-1379 which suspended contributions for Fiscal Year 2021 due to the COVID-19 pandemic; therefore, no liability was recognized. See Note 6 for additional information.

Contributions – Public Employees Retirement Association (PERA) Trust Funds:

The following schedule presents a ten-year history of the State’s (primary government’s) contribution to PERA for the State and Judicial Divisions for each fiscal year ending June 30. For the Fiscal Years 2022, 2020, and 2019 State and Judicial Trust Divisions, figures reported for the contributions as a percentage of covered payroll differs from the actual employer contribution rate specified in statute due to additional contractually required contributions directly distributed to PERA in accordance with Senate Bill 18-200. In addition, the State made statutorily required non-employer contributions for Fiscal Years 2022, 2020, and 2019 to the State and Judicial Trust Divisions not reflected in the table below (see Note 6 for additional information).

State Division

	FY 2022	FY 2021	FY 2020	FY 2019	FY 2018	FY 2017	FY 2016	FY 2015	FY 2014	FY 2013
Contractually required contributions	709,639	625,966	673,795	639,485	541,295	516,932	484,588	\$ 446,528	\$ 413,694	\$ 362,791
Contributions in relation to the contractually required contributions	(709,639)	(625,966)	(673,795)	(639,485)	(541,295)	(516,932)	(484,588)	(446,528)	(413,694)	(362,791)
Contribution deficiency(excess)	-	-	-	-	-	-	-	-	-	-
State's covered payroll	3,556,253	3,144,787	3,455,535	3,320,884	2,829,559	2,767,479	2,725,417	2,645,149	2,590,401	2,479,774
Contributions as a percentage of covered payroll	19.95%	19.90%	19.50%	19.26%	19.13%	18.68%	17.78%	16.88%	15.97%	14.63%

Judicial Division

	FY 2022	FY 2021	FY 2020	FY 2019	FY 2018	FY 2017	FY 2016	FY 2015	FY 2014	FY 2013
Contractually required contributions	\$ 10,312	\$ 8,488	\$ 11,601	\$ 10,031	\$ 7,754	\$ 7,546	\$ 7,571	\$ 6,878	\$ 6,218	\$ 5,677
Contributions in relation to the contractually required contributions	(10,312)	(8,488)	(11,601)	(10,031)	(7,754)	(7,546)	(7,571)	(6,878)	(6,218)	(5,677)
Contribution deficiency(excess)	-	-	-	-	-	-	-	-	-	-
State's covered payroll	60,170	51,796	57,548	56,296	47,454	46,181	46,332	42,088	38,057	41,019
Contributions as a percentage of covered payroll	17.14%	16.39%	20.16%	17.82%	16.34%	16.34%	16.34%	16.34%	16.34%	13.84%

The schedule on the following page presents a three-year history of the State’s (primary government’s) Senate Bill 18-200 contractually required contributions to PERA for the Denver Public Schools and Schools Divisions, and the State and Judicial Divisions for which the State is a non-employer contributing entity for each fiscal year ending June 30.

Denver Public Schools Division

	FY 2022	FY 2021*	FY 2020	FY 2019
Contractually required contributions	\$ 19,153	-	\$ 19,201	\$ 18,622
Contributions in relation to the contractually required contributions	(19,153)	-	(19,201)	(18,622)
Contribution deficiency(excess)	-	-	-	-

Schools Division

	FY 2022	FY 2021*	FY 2020	FY 2019
Contractually required contributions	127,781	-	\$ 127,367	\$ 126,505
Contributions in relation to the contractually required contributions	127,781	-	(127,367)	(126,505)
Contribution deficiency(excess)	-	-	-	-

State Division as a Non-Employer Contributing Entity

	FY 2022	FY 2021*	FY 2020	FY 2019
Contractually required contributions	\$ 3,432	-	\$ 3,480	\$ 3,607
Contributions in relation to the contractually required contributions	(3,432)	-	(3,480)	(3,607)
Contribution deficiency(excess)	-	-	-	-

Judicial Division as a Non-Employer Contributing Entity

	FY 2022	FY 2021*	FY 2020	FY 2019
Contractually required contributions	\$ 99	-	\$ 77	\$ 82
Contributions in relation to the contractually required contributions	(99)	-	(77)	(82)
Contribution deficiency(excess)	-	-	-	-

*The General Assembly passed House Bill 20-1379 which suspended contributions for Fiscal Year 2021 due to the COVID-19 pandemic; therefore, no liability was recognized. See Note 6 for additional information.

Changes in Total Pension Liability and Related Ratios – University of Colorado Alternate Medicare Payments Plan:

The following schedule presents a six-year history (data not available prior to Fiscal Year 2017) of the University of Colorado’s changes in total pension liability and related ratios for the Alternate Medicare Payments pension plan for each fiscal year ending June 30. No assets are held in trust to pay for plan benefits; therefore, the plan is not funded.

University of Colorado AMP Pension Plan (Amounts in Thousands)	Fiscal Year Ending June 30:					
	2022	2021	2020	2019	2018	2017
Service cost	\$ 7,048	4,854	4,360	3,985	4,262	3,194
Interest on total pension liability	2,771	3,295	3,339	2,751	2,231	2,391
Differences between expected and actual experience	(5,842)	(124)	(3,865)	(109)	(3,377)	(101)
Changes of assumptions	2,700	23,408	4,845	4,940	(3,180)	10,999
Benefit payments	(1,819)	(1,828)	(1,692)	(1,566)	(1,448)	(1,349)
Net change in total pension liability	4,858	29,605	6,987	10,001	(1,512)	15,134
Total pension liability (beginning)	119,804	90,199	83,212	73,211	74,723	59,589
Total pension liability (ending)	124,662	119,804	90,199	83,212	73,211	74,723
Covered-employee payroll	\$ 1,583,766	1,692,641	1,436,909	1,369,276	1,187,065	943,644
Total Pension liability as a % of payroll	7.87%	7.08%	6.28%	6.08%	6.17%	7.92%

B. SIGNIFICANT CHANGES IN ASSUMPTIONS OR OTHER INPUTS AFFECTING TRENDS IN ACTUARIAL INFORMATION

PERA State and Judicial Trust Funds

Changes in assumptions or other inputs affecting trends in actuarial information for the PERA State and Judicial Trust Funds are presented on a calendar year basis, which is based on the actuarial valuation measurement date of December 31.

2021 Changes in Assumptions or Other Inputs Since 2020

- The assumption used to value the automatic increase cap benefit provision was changed from 1.25 percent to 1.00 percent.

2020 Changes in Assumptions or Other Inputs Since 2019

- The price inflation assumption was lowered from 2.40 percent to 2.30 percent.
- The wage inflation assumption was lowered from 3.50 percent to 3.00 percent.
- The real rate of investment return assumption was increased to 4.95 percent per year, net of investment expenses from 4.85 percent per year, net of investment expenses.
- Salary scale assumptions were revised to align with the revised economic assumptions and to more closely reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The pre-retirement mortality assumption for the State Division (members other than State Troopers) was changed to the PubG-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for State Troopers was changes to the PubS-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for the Judicial Division was changed to the PubG-2010(A) Above Median Employee Table with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the State Division (Members other than State Troopers) was changed to the PubG-2010 Health Retiree Table, adjusted as follows:
 - Males: 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

- Females: 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for State Troopers was changed to the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the Judicial Division was changed to the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019. The post-retirement non-disability beneficiary mortality assumption for the Division Trust Funds was changed to the Pub-2010 Contingent Survivor Table, adjusted as follows:
 - Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
 - Females: 105 percent of the rates for all ages, with generational projection using scale MP-2019.
- The disabled mortality assumption for the Division Trust Funds (Members other than State Troopers) was changed to the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.
- The disability mortality assumption for State Troopers was changed to the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.
- The mortality tables described above are generational mortality tables on a benefit-weighted basis.

2019 Changes in Assumptions or Other Inputs Since 2018

- The assumption used to value the AI cap benefit provision was changed from 1.50 percent to 1.25 percent.

2018 Changes in Assumptions or Other Inputs Since 2017

- The single equivalent interest rate (SEIR) for the State Division was increased from 4.72 percent to 7.25 percent to reflect the changes to the projection's valuation basis which no longer resulted in a projected year of depletion of the fiduciary net position (FNP), thereby eliminating the need to apply the municipal bond index rate.
- The SEIR for the School Division was increased from 4.78 percent to 7.25 percent to reflect the changes to the projection's valuation basis which no longer resulted in a projected year of depletion of the FNP, thereby eliminating the need to apply the municipal bond index rate.
- The SEIR for the Judicial Division was increased from 5.41 percent to 7.25 percent to reflect the changes to the projection's valuation basis which no longer resulted in a projected year of depletion of the FNP, thereby eliminating the need to apply the municipal bond index rate.

2017 Changes in Assumptions or Other Inputs Since 2016

- The SEIR for the State Division was lowered from 5.26 percent to 4.72 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate.
- The SEIR for the Judicial Division was increased from 5.18 percent to 5.41 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate.
- The municipal bond index rate used in the determination of the SEIR for the State and Judicial Divisions changed from 3.86 percent on the prior measurement date to 3.43 percent on the measurement date.

2016 Changes in Assumptions or Other Inputs Since 2015

- The investment return assumption was lowered from 7.50 percent to 7.25 percent.
- The price inflation assumption was lowered from 2.80 percent to 2.40 percent.
- The wage inflation assumption was lowered from 3.90 percent to 3.50 percent.
- The post-retirement mortality assumption for healthy lives for the State Division was changed to the RP-2014 Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 73 percent factor applied to ages below 80 and a 108 percent factor applied to age 80 and above, projected to 2018, for males, and a 78 percent factor applied to ages below 80 and a 109 percent factor applied to age 80 and above, projected to 2020, for females.
- The post-retirement mortality assumption for healthy lives for the Judicial Division was changed to the RP-2014 White Collar Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 93 percent factor applied to ages below 80 and a 113 percent factor applied to age 80 and above, projected to 2018, for males, and a 68 percent factor applied to ages below 80 and a 106 percent factor applied to age 80 and above, projected to 2020, for females.
- For disabled retirees, the mortality assumption was changed to reflect 90 percent of RP-2014 Disabled Retiree Mortality Table.
- The mortality assumption for active members was changed to RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.
- The rates of retirement, withdrawal, and disability were revised to reflect more closely actual experience.
- The estimated administrative expense as a percentage of covered payroll was increased from 0.35 percent to 0.40 percent.
- The SEIR for the State Division was lowered from 7.50 percent to 5.26 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate of 3.86 percent on the measurement date.
- The SEIR for the Judicial Division was lowered from 5.73 percent to 5.18 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate from 3.57 percent on the prior measurement date to 3.86 percent on the measurement date.

2015 Changes in Assumptions or Other Inputs Since 2014

- The SEIR for the Judicial Division was lowered from 6.14 percent to 5.73 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate from 3.70 percent on the prior measurement date to 3.57 percent on the measurement date.
- The following programming changes were made:
 - Valuation of the full survivor benefit without any reduction for possible remarriage.
 - Reflection of the employer match on separation benefits for all eligible years.
 - Reflection of one year of service eligibility for survivor annuity benefit.
 - Refinement of the 18-month AI timing.
 - Refinements to directly value certain and life, modified cash refund and pop-up benefit forms.

- The following methodology changes were made:
 - Recognition of merit salary increases in the first projection year.
 - Elimination of the assumption that 35 percent of future disabled members elect to receive a refund.
 - Removal of the negative value adjustment for liabilities associated with refunds of future terminating members.
 - Adjustments to the timing of the normal cost and UAAL payment calculations to reflect contributions throughout the year.

2014 Changes in Assumptions or Other Inputs Since 2013

- The SEIR for the Judicial Division was lowered from 6.66 percent to 6.14 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the FNP, and the resulting application of the municipal bond index rate from 4.73 percent on the prior measurement date to 3.70 percent on the measurement date.

2013 Changes in Assumptions or Other Inputs Since 2012

- The investment return assumption was lowered from 8.00 percent to 7.50 percent.
- The price inflation assumption was lowered from 3.50 percent to 2.80 percent.
- The wage inflation assumption was lowered from 4.25 percent to 3.90 percent.

University of Colorado Alternate Medicare Payments Plan

Changes in assumptions or other inputs affecting trends in actuarial information for the University of Colorado Alternate Medicare Payments pension plan are presented on a fiscal year basis, which is based on the actuarial valuation measurement date of June 30.

2021 Changes in Assumptions or Other Inputs Since 2020

- Discount rate changed from 2.20 percent to 2.15 percent.
- Mortality table was updated from PUB-2010 "Teachers" table with generational projection using Scale PM-2020 to the PUB-2010 "Teachers" table with generational projection using Scale MP-2021.
- Termination rates and salary scale were updated from the December 31, 2015 Colorado PERA assumption study to the December 31, 2019 Colorado PERA assumption study.

2020 Changes in Assumptions or Other Inputs Since 2019

- Discount rate changed from 3.50 percent to 2.20 percent.
- Mortality table was updated from the PUB-2010 "Teachers" table with generational projection using Scale MP-2019 to the PUB-2010 "Teachers" table with generational projection using Scale MP-2020.

2019 Changes in Assumptions or Other Inputs Since 2018

- Discount rate changed from 3.85 percent to 3.50 percent.
- Mortality table was updated from the PUB-2010 "Teachers" table with generational projection using Scale MP-2018 to the PUB-2010 "Teachers" table with generational projection using Scale MP-2019.

2018 Changes in Assumptions or Other Inputs Since 2017

- Discount rate changed from 3.60 percent to 3.85 percent.
- Mortality table was updated to reflect the Public Retirement Plans Mortality Tables Report issued by the Society of Actuaries in January 2019. The specific assumption used the PUB- 2010 Teachers Classification Table with generational projection using Scale MP-2018. The impact of this change was an increase in Total Pension Liability of about 10 percent.

2017 Changes in Assumptions or Other Inputs Since 2016

- Discount rate changed from 2.85 percent to 3.60 percent.
- Spouse age differential changed from zero years for males and females to spouses two years younger for males and one year older for females.
- Spouse coverage assumption changed from 54 percent for males and 22 percent for females to 60 percent for males and 40 percent for females.
- The following assumptions were updated based on the December 31, 2015 Colorado PERA assumption study:
 - Mortality rates
 - Withdrawal rates

2016 Changes in Assumptions or Other Inputs

- A decrease in the discount rate from 3.85 percent to 2.85 percent.

NOTE RSI-3 – OTHER POSTEMPLOYMENT BENEFIT (OPEB) INFORMATION

A. PROPORTIONATE SHARE OF PERA HEALTH CARE TRUST FUNDS OPEB LIABILITY AND CONTRIBUTIONS

Proportionate Share:

The State’s Health Care Trust Fund (HFTC) – a defined benefit cost-sharing multiple-employer other post-employment benefit plan – is administered by the Public Employees’ Retirement Association (PERA). The schedule below presents the State’s (primary government’s) proportionate share of the net OPEB liability for its OPEB plan. The amounts presented were determined as of the measurement date, which is the calendar year-end that occurred within the State’s fiscal year. Information is not available prior to Calendar Year 2016.

(Amounts In Thousands)	CY 2021	CY 2020	CY 2019	CY 2018	CY 2017	CY 2016
State's proportion (percentage) of the collective net OPEB liability	32.11%	32.96%	32.75%	33.40%	33.71%	33.83%
State's proportionate share of the collective net OPEB liability	\$ 276,863	\$ 313,213	\$ 368,098	\$ 454,363	\$ 438,113	\$ 438,677
State's covered payroll	\$ 2,918,834	\$ 3,102,215	\$ 3,023,000	\$ 2,923,641	\$ 2,842,778	\$ 2,797,414
State's proportionate share of the collective net OPEB liability as a percentage of its covered payroll	9.49%	10.10%	12.18%	15.54%	15.41%	15.68%
Fiduciary net position as a percentage of the total OPEB liability	39.40%	32.78%	24.49%	17.03%	17.53%	16.72%

Contributions:

The following schedule presents a ten-year history of the State’s (primary government’s) contribution to PERA for the HCTF as of each fiscal year ending June 30:

(Amounts In Thousands)	FY 2022	FY 2021	FY 2020	FY 2019	FY 2018	FY 2017	FY 2016	FY 2015	FY 2014	FY 2013
Contractually required contributions	\$ 31,592	\$ 31,408	\$ 31,659	\$ 30,171	\$ 29,346	\$ 28,699	\$ 28,272	\$ 27,410	\$ 26,810	\$ 25,712
Contributions in relation to the contractually required contributions	(31,592)	(31,408)	(31,659)	(30,171)	(29,346)	(28,699)	(28,272)	(27,410)	(26,810)	(25,712)
Contribution deficiency(excess)	-	-	-	-	-	-	-	-	-	-
State's covered payroll	3,097,234	3,079,159	3,103,809	2,957,937	2,877,013	2,813,660	2,771,749	2,687,237	2,628,458	2,520,793
Contributions as a percentage of covered payroll	1.02%	1.02%	1.02%	1.02%	1.02%	1.02%	1.02%	1.02%	1.02%	1.02%

B. CHANGES IN THE TOTAL UNIVERSITY OPEB LIABILITIES AND RELATED RATIOS – UNIVERSITY OF COLORADO SYSTEM

The following schedule presents a five-year history (data not available prior to Fiscal Year 2018) of the University of Colorado’s changes in total OPEB liabilities and related ratios for each fiscal year ending June 30. No assets are held in trust to pay for plan benefits; therefore, the plan is not funded.

University OPEB Plan (Amounts in Thousands)	Fiscal Year Ending June 30:				
	2022	2021	2020	2019	2018
Service cost	\$ 68,640	49,138	53,400	49,754	53,099
Interest cost	22,068	26,392	34,254	28,404	24,648
Changes in benefit terms	-	-	-	-	-
Differences between expected and actual experience	201,889	287	(206,938)	(1,728)	(87,654)
Changes of assumptions	67,418	168,948	3,678	35,919	(46,406)
Benefit payments	(14,407)	(16,062)	(15,461)	(15,163)	(17,211)
Net change in total OPEB liability	345,608	228,703	(131,067)	97,186	(73,524)
Total OPEB liability (beginning)	941,595	712,892	843,959	746,773	820,297
Total OPEB liability (ending)	1,287,203	941,595	712,892	843,959	746,773
Covered-employee payroll	\$ 1,896,938	2,053,724	1,719,840	1,663,010	1,475,177
Total OPEB liability as a % of payroll	67.86%	45.85%	41.45%	50.75%	50.62%

C. SIGNIFICANT CHANGES IN ASSUMPTIONS OR OTHER INPUTS AFFECTING TRENDS IN ACTUARIAL INFORMATION

PERA Health Care Trust Fund

2021 Changes in Assumptions or Other Inputs Since 2020

- There were no changes made to the actuarial methods or assumptions.

2020 Changes in Assumptions or Other Inputs Since 2019

- The price inflation assumption was lowered from 2.40 percent to 2.30 percent.
- The wage inflation assumption was lowered from 3.50 percent to 3.00 percent.
- The real rate of investment return assumption was increased to 4.95 percent per year, net of investment expenses from 4.85 percent per year, net of investment expenses.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The pre-retirement mortality assumption for the State Division (members other than State Troopers) was changed to the PubG-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for State Troopers was changed to the PubS-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for the Judicial Division was changed to the PubG-2010(A) Above Median Employee Table with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the State Division (Members other than State Troopers) was changed to the PubG-2010 Health Retiree Table, adjusted as follows:
 - Males: 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
 - Females: 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for State Troopers was changed to the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the Judicial Division was changed to the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019. The post-retirement non-disability beneficiary mortality assumption for the Division Trust Funds was changed to the Pub-2010 Contingent Survivor Table, adjusted as follows:
 - Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
 - Females: 105 percent of the rates for all ages, with generational projection using scale MP-2019.
- The disabled mortality assumption for the Division Trust Funds (Members other than State Troopers) was changed to the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.
- The disability mortality assumption for State Troopers was changed to the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.

- The mortality tables described above are generational mortality tables on a benefit-weighted basis.

There were no significant changes in assumptions or other inputs effective for the December 31, 2019, December 31, 2018, or December 31, 2017 measurement periods for the PERA HCTF.

University of Colorado OPEB

2021 Changes in Assumptions or Other Inputs Since 2020

- Discount rate changed from 2.20 percent to 2.15 percent.
- Mortality table was updated from PUB-2010 “Teachers” table with generational projection using Scale PM-2020 to the PUB-2010 “Teachers” table with generational projection using Scale MP-2021.
- Retirement rates for PERA employees, termination rates, and salary scale were updated from the December 31, 2015 Colorado PERA assumption study to the December 31, 2019 Colorado PERA assumption study.
- Claims and trend rates were updated to better reflect expected future plan experience.

2020 Changes in Assumptions or Other Inputs Since 2019

- Discount rate changed from 3.50 percent to 2.20 percent.
- Mortality table was updated from the PUB-2010 “Teachers” table with generational projection using Scale MP-2019 to the PUB-2010 “Teachers” table with generational projection using Scale MP-2020.

2019 Changes in Assumptions or Other Inputs Since 2018

- Discount rate changed from 3.85 percent to 3.50 percent.
- Mortality table was updated from the PUB-2010 “Teachers” table with generational projection using Scale MP-2018 to the PUB-2010 “Teachers” table with generational projection using Scale MP-2019.
- Health care trend rates were updated.
- Health care claim costs and retiree contributions were updated based upon recent expenditures.

2018 Changes in Assumptions or Other Inputs Since 2017

- Discount rate changed from 3.60 percent to 3.85 percent.
- Mortality table was updated to reflect the Public Retirement Plans Mortality Tables Report issued by the Society of Actuaries in January 2019. The specific assumption used the PUB-2010 Teachers Classification Table with generational projection using Scale MP-2018. The impact of this change was an increase in Total OPEB Liability of about 8 percent.

2017 Changes in Assumptions or Other Inputs Since 2016

- Discount rate changed from 2.85 percent to 3.60 percent.
- Health care trend rates were updated.
- Spouse age differential changed from zero years for males and females to spouses two years younger for males and one year older for females.

- Spouse coverage assumption changed from 54 percent for males and 22 percent for females to 60 percent for males and 40 percent for females for PERA participants.
- The following assumptions were updated based on the December 31, 2015 Colorado PERA assumption study:
 - Mortality Rates
 - Withdrawal Rates
 - Retirement rates (apply to PERA participants only)

NOTE RSI-4

BUDGETARY COMPARISON SCHEDULE GENERAL FUND – GENERAL PURPOSE REVENUE COMPONENT

The State of Colorado reports components of the General Fund segregated by revenues being either general purpose or special purpose. Special purpose revenues are fund component revenues which are not of a sufficient original source to qualify for reporting as a special revenue fund. The special purpose components of the General Fund are: State Public Schools, Risk Management, and Other Special Purpose. General purpose revenues are not designated for a specific purpose and are reported in the General Purpose Revenue component of the General Fund. The General Purpose Revenue component of the General Fund is the primary operating fund of the state and is used to account for all financial resources and activity not required to be accounted for in another fund. Refer to the Supplementary Information section for additional information on the General Fund components and combining statements for the General Fund.

This schedule is presented primarily to report the change in budgetary fund balance from the prior fiscal year. The change in budgetary fund balance, as reconciled to the state's financial statements, supports the state's budgetary process. Ending budgetary fund balance on this schedule combined with relevant revenue forecasts are used to determine the total amount to be appropriated for the following fiscal year.

Beginning budgetary fund balances, resources (inflows), and amounts available for appropriation for the original budget and final budget are based on quarterly economic forecasts prepared by the Governor's Office of State Planning and Budgeting. Beginning budgetary fund balance and resources (inflows) in the actual amounts column reconcile to the state's accounting system. The March 2021 forecast is used for the original budget and the December 2021 forecast is used for the final budget. Charges to appropriations (outflows) for original and final budget are derived from budgeted expenditures recorded in the state's accounting system and agree to appropriations made by the General Assembly.

The original and final budget does not include budgeted amounts for federal grants and contracts, fees and other funding sources/uses, and revenues/expenditures not budgeted because they are currently not forecasted by the Office of State Planning and Budget. Amounts are included in the actual column because the activity is accounted for in this component of the General Fund.

Certain state laws result in budget-to-GAAP differences. Section 24-75-201(2)(a)(II), C.R.S. excludes Medicaid revenues from inflows of budgetary resources but they are revenues for financial reporting. Section 24-75-201(2)(a)(III), C.R.S. excludes Medicaid expenditures from outflows of budgetary resources but they are expenditures for financial reporting. Section 24-75-201(2)(a)(IV), C.R.S. excludes some payroll-related expenditures from outflows of budgetary resources but they are expenditures for financial reporting. Section 24-75-201(2)(a)(IV), C.R.S. excludes specific information technology expenditures from outflows of budgetary resources but they are expenditures for financial reporting purposes. Refer to the Budget-to-GAAP Reconciliation for amounts related to these statutorily-based budget-to-GAAP differences as well as for information on other budget-to-GAAP differences.

State law (Section 24-75-201.1, C.R.S.) restricts state appropriations from this component of the General Fund so that budgetary resources will be available for use in a state fiscal emergency. A state fiscal emergency may be declared by the passage of a joint resolution which is approved by a two-thirds majority vote of the members of both houses of the General Assembly and approved by the Governor. The statutory reserve for the fiscal year ended June 30, 2022 is \$1.6 billion and is the Committed portion of fund balance for the General Purpose Revenue component of the General Fund. The reserve is included in this schedule and therefore beginning and ending budgetary fund balance are net of the required reserve. A positive ending budgetary fund balance in the actual column indicates a reserve maintained in compliance with state law.

BUDGETARY COMPARISON SCHEDULE
GENERAL FUND - GENERAL PURPOSE REVENUE COMPONENT
FOR THE YEAR ENDED JUNE 30, 2022
(DOLLARS IN THOUSANDS)

	Forecasted / Budgeted Amounts		Actual Amounts	Variance
	Original	Final	Budgetary Basis

Budgetary Comparison Schedule
General Fund- General Purpose Revenue Component
Budget-to-GAAP Reconciliation
For the Year Ended June 30, 2022
(Dollars in Thousands)

Explanation of differences between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures

Sources/inflows of resources:

Actual amounts (budgetary basis) “available for appropriation” from the budgetary comparison schedule.	\$ 16,742,532
Differences - budget to GAAP:	
The fund balance at the beginning of the year is a budgetary resource but is not a current-year	(2,867,536)
Federal revenues not forecasted	11,508,674
Fee revenues and other funding sources not forecasted	812,334
Other revenues not forecasted	310,772
Deferred Medicaid revenues are excluded from inflows of budgetary resources but are revenues for financial reporting purposes - C.R.S. 24-75-201 (2) (a) (II).	(10,500)
Fair value of investments in excess of cost is excluded from inflows of budgetary resources but is revenue for financial reporting purposes.	(470,499)
Eliminations of transfers and intrafund transactions are not made in the budgetary funds if those transactions are under budgetary control	(1,154,249)
Transfers are inflows of budgetary resources but are other financing sources for financial reporting purposes.	(227,544)
Capital asset related proceeds are inflows of budgetary resources but are not revenues for financial reporting purposes.	(244,280)
Total revenues as reported on the combining statement of revenues, expenditures, and changes in fund balances - general fund components	<u>\$ 24,399,704</u>

Uses/outflows of resources and reserves:

Actual amounts (budgetary basis) “total charges to appropriations” from the budgetary comparison schedule.	13,908,484
Differences - budget to GAAP:	
Expenditures of federal grants and contracts not budgeted	11,562,686
Fee revenue and other funding uses not budgeted	789,878
Other expenditures not budgeted	265,116
Transfers to other funds are outflows of budgetary resources but are other financing uses for financial reporting purposes.	(6,272,874)
Deferred Medicaid expenditures are excluded from outflows of budgetary resources but are expenditures for financial reporting purposes - C.R.S. 24-75-201 (2) (a) (II).	(27,884)
Deferred payroll expenditures are excluded from outflows of budgetary resources but are expenditures for financial reporting purposes - C.R.S. 24-75-201 (2) (a) (III).	(2,292)
Deferred information technology expenditures are excluded from outflows of budgetary resources but are expenditures for financial reporting purposes - C.R.S. 24-75-201 (2) (a) (IV).	(440)
Eliminations of transfers and intrafund transactions are not made in the budgetary funds if those transactions are under budgetary control.	(1,154,249)
Total expenditures as reported on the combining statement of revenues, expenditures, and changes in fund balances - general fund components	<u>\$ 19,068,426</u>

SUPPLEMENTARY INFORMATION

GENERAL FUND COMPONENTS

GENERAL PURPOSE REVENUE

This fund is the general operating fund for state operations and is used unless another fund has been established for a particular activity. The fund consists of general purpose revenues from various tax collections the largest being income and sales taxes.

SPECIAL PURPOSE FUNDS

The State Public School fund is a statutory fund that distributes substantially all of its resources to school districts each year; most of the resources of the fund are transfers from the General Purpose Revenue component of the General Fund.

The Risk Management fund accounts for the State's liability, property, and worker's compensation insurance activities; its revenues are primarily from charges to State agencies.

The Other Special Purpose Fund comprises all other funds without sufficient original source revenues to qualify as Special Revenue Funds. Included in this category is the Building Excellent Schools Tomorrow (BEST) program that provides grants and funds for public school construction, Lottery proceeds held by the Division of Parks and Wildlife for parks and outdoor recreation projects, the Charter School Institute, as well as over thirty smaller funds.

EMERGENCY RESERVE

The Emergency Reserve is part of the State's budgetary stabilization arrangements. The Emergency Reserve shall not be expended or appropriated for any purpose other than for an emergency declared by the Governor pursuant to Section 24-33.5-704(4). Refer to the Stabilization Arrangements section in Note 15 for additional information.

OTHER GOVERNMENTAL FUNDS

The following statements present the combining balance sheet for Other Governmental Funds comprising Special Revenue, Debt Service, Capital Projects and Permanent funds.

Special Revenue Funds - These funds are used to account for the proceeds of specific revenue sources that are intended for specific purposes other than special assessments or major capital projects.

Debt Service Funds - This fund accounts for the accumulation of resources, primarily transfers from other funds, for the payment of long-term debt principal and interest. It also accounts for the issuance of debt solely to refund debt of other funds. The primary debt serviced by this fund consists of Certificates of Participation issued by various departments and Transportation Revenue Anticipation Notes issued by the Department of Transportation to fund infrastructure.

Capital Project Funds - These funds are used to account for acquisition, construction, or improvement of State-owned facilities and certain equipment.

Permanent Funds - These funds report resources that are legally restricted to the extent that only earnings, and not principal, may be used to support State programs.

CAPITAL PROJECTS FUND COMPONENTS

Transactions related to resources obtained and used for acquisition, construction, or improvement of State owned facilities and certain equipment are accounted for in the Capital Projects Fund, unless the activity occurs in a proprietary fund or in certain instances when the activity is incidental to a cash fund. For legal compliance purposes, the Capital Projects Fund is segregated into the following components:

REGULAR CAPITAL PROJECTS

This fund accounts for projects that are either fully or partially funded with general-purpose revenue that is transferred from the General Purpose Revenue Fund. It also includes cash-funded or mixed funded projects.

SPECIAL CAPITAL PROJECTS

This fund accounts for certain projects that are not funded with any general-purpose revenue. This includes projects funded with the proceeds of certificates of participation such as the Colorado History Center and the Ralph L. Carr Justice Center, federal projects in the Department of Military Affairs, Lottery-funded projects in the Department of Natural Resources, and several smaller projects.

SPECIAL REVENUE FUNDS

LABOR	This fund accounts for injured workers' medical benefits provided by statutes when the injury is not covered by workers' compensation benefits.
RESOURCE EXTRACTION	This fund accounts for receipts from severance taxes, mineral leasing, and fees associated with the regulation of mining activities. Expenditures include distributions to local governments, regulatory costs, and loans to special districts and local governments for water projects.
STATE EDUCATION	The State Education Fund was created in the State Constitution by a vote of the people in November 2000. The fund's primary revenue source is a tax of one third of one percent on federal taxable income. The revenues are restricted for the purpose of improving Colorado students' primary education by funding specific programs and by guaranteeing appropriation growth of at least one percent greater than annual inflation through Fiscal Year 2010-11, and by inflation thereafter.
GAMING	This fund accounts for operations of the Colorado Gaming Commission and its oversight of gaming operations in the State. It also accounts for the preservation activities of the Colorado Historical Society related to the revenues it receives from gaming.
TOBACCO IMPACT MITIGATION	This fund accounts for receipts directly from the tobacco litigation settlement, earnings on those funds, and the expenditures of programs funded by the tobacco master settlement agreement. In addition, it accounts for tax revenues received from an additional State tax on cigarettes and tobacco products approved by State voters in the 2004 general election and the expenditure of those tax revenues.

RESOURCE MANAGEMENT

This fund accounts for receipts from licenses, rents, and fees related to managing the water, oil and gas resources of the State. Most of the related programs are managed by the Colorado Department of Natural Resources.

ENVIRONMENT AND
HEALTH PROTECTION

This fund accounts for a large number of individual programs managed primarily by the Department of Public Health and Environment. The programs are primarily designed to regulate air, water, and other forms of pollution, control the spread of diseases, and regulate activities that impact the health of the citizens of Colorado.

UNCLAIMED PROPERTY

This fund reports the escheats funds managed by the State Treasurer that are not held in trust for claimants. The receipts of the fund are from bank accounts, investment accounts, and insurance proceeds that are placed with the State when the owners of the assets cannot be located. Per statute, the owner's legal rights to the asset are protected in perpetuity; however, historically not all of the assets are claimed. The assets ultimately expected to be claimed and paid are reported as Net Position Held In Trust in the Unclaimed Property Trust Fund, a nonmajor Fiduciary Fund.

OTHER SPECIAL REVENUE

This fund category represents a collection of active funds created in statute that have a wide variety of purposes. Funds in this category also have a broad diversity of revenue types.

PERMANENT FUNDS

STATE LANDS

This fund consists of the assets, liabilities, and operations related to lands granted to the State by the federal government for educational purposes. This fund also includes unclaimed assets from estates or trusts with unknown beneficiaries. Per statute, these assets become property of the State after 21 years.

OTHER PERMANENT TRUST

This fund category represents several minor permanent funds including Wildlife for Future Generations Fund and the Veterans Monument Preservation Fund.

OTHER ENTERPRISE FUNDS

These funds account for operations of State agencies that provide a majority of their services to the public on a user charge basis; most of them have been designated by statute as enterprises. The major activities in these funds are:

PARKS AND WILDLIFE	Expenses of this fund are to preserve the State's parks, wildlife and promote outdoor recreational activities, while revenues are from hunting and fishing license fees as well as various fines.
COLLEGE ASSIST	This fund records the activities of College Assist, which guarantees Colorado and certain nationwide loans made by private lending institutions in compliance with operating agreements with the U.S. Department of Education to students attending postsecondary schools. It also includes loan programs for Colorado residents that are not reinsured by the federal government.
LOTTERY	The State Lottery encompasses the various lottery and lotto games run under Colorado Revised Statutes. The primary revenue source is lottery ticket sales, and the net proceeds are primarily distributed to the Great Outdoors Colorado Program (a related organization), the Conservation Trust Fund, and when receipts are adequate, the General Purpose Revenue Fund. The funds are used primarily for open space purchases and recreational facilities throughout the State.
STATE FAIR AUTHORITY	The State Fair Authority operates the Colorado State Fair, and other events, at the State fairgrounds in Pueblo.
CORRECTIONAL INDUSTRIES	This activity reports the production and sale of manufactured goods and farm products that are produced by convicted criminals who are incarcerated in the State prison system.
STATE NURSING HOMES	This activity is for nursing home and retirement care provided to the elderly at the State facilities at Fitzsimons, Homelake, Walsenburg, Florence, and Rifle.
PRISON CANTEENS	This activity accounts for the various canteen operations in the State's prison system.
PETROLEUM STORAGE TANK	This activity accounts for grants, registration fees, environmental response surcharges, and penalties associated with the regulation and abatement of fire and safety issues related to above and underground petroleum storage tanks.

OTHER ENTERPRISE ACTIVITIES

The other enterprise activities includes the State and CollegeInvest. The State includes the Business Enterprise Program, which is staffed by the visually impaired and manages food vending operations in State buildings; the Enterprise Services Fund of the Colorado Historical Society, which sells goods at State museums; and various smaller enterprise operations.

INTERNAL SERVICE FUNDS

These funds account for operations of State agencies that provide a majority of their services to other State agencies on a user charge basis. The major activities in these funds are:

CENTRAL SERVICES

This fund accounts for the sales of goods and services to other State agencies. The sales items include mail services, printing, quick copy, graphic design, microfilming, fleet, and motor pool.

STATEWIDE FINANCIAL INFORMATION TECHNOLOGY SYSTEMS CASH FUND

This fund accounts for information technology maintenance and upgrades as well as direct and indirect costs of the department in connection with Statewide financial and human resources information technology systems.

INFORMATION TECHNOLOGY

This fund accounts for computer and telecommunications services sold to other State agencies.

CAPITOL COMPLEX

This fund accounts for the cost and income related to maintaining State office space in the complex surrounding the State Capitol. Only certain capitol complex capital assets are reported in this fund, and other capitol complex capital assets are reported on the government-wide financial statements.

HIGHWAYS

This fund is used to account for the operations of the Department of Transportation print shop.

PUBLIC SAFETY

This fund accounts for aircraft rental to State agencies by the Department of Public Safety.

OFFICE OF ADMINISTRATIVE COURTS

This fund accounts for the operations of the Office of Administrative Courts in the Department of Personnel & Administration.

LEGAL SERVICES

This fund accounts for the Attorney General's services to State agencies in the Department of Law.

OTHER INTERNAL SERVICE ACTIVITIES

This fund primarily accounts for the activities of the Central Collections Unit within the Department of Personnel & Administration. The unit collects receivables due to State agencies on a straight commission basis.

FIDUCIARY FUNDS

Fiduciary Funds are used to account for assets held by the State in its governmental capacity on behalf of local governments, citizens, and other external parties. Pension and Other Employee Benefits Trust Funds and Private Purpose Trust Funds are included in this category. The major components of the fiduciary funds are:

PENSION AND OTHER EMPLOYEE BENEFIT TRUST FUNDS

STATE EMPLOYEE BENEFIT PLANS	This fund was established for the purpose of risk financing employee and state-official medical claims. The fund includes several medical plan options ranging from provider of choice to managed care and wellness activity. The State uses a self-funded approach for certain employee and state-official medical claims.
COLORADO STATE UNIVERSITY OTHER POST-EMPLOYMENT BENEFITS TRUST	Colorado State University administers four employee defined benefit healthcare plans as part of a single qualifying trust. The plans provide post-employment subsidies for medical premiums, supplemental subscription benefits and income replacement benefits for long-term disability. The University's Board of Governors has the authority to establish and amend benefits provisions for all plans.

PRIVATE PURPOSE TRUST FUNDS

TREASURER'S	This fund comprises a portion of the escheats funds managed by the State Treasurer. The receipts of the fund are from bank accounts, investment accounts, and insurance proceeds that are placed with the State when the owners of the assets cannot be located. The owner's legal rights to the asset are protected in perpetuity. The fund reports Net Position Held in Trust for the amount ultimately expected to be claimed and paid based on analysis of the history of claims paid versus collections.
COLLEGE SAVINGS PLAN	The College Savings Plan (commonly referred to as the Scholars Choice Fund) authorized in statute is used to record the deposits, withdrawals, and investment returns of participants in the college savings program. The moneys in the fund are neither insured nor guaranteed by the State.
OTHER	This fund primarily accounts for receipts collected from racetracks and simulcast facilities for distribution to horse breeders and associations who participate in state-regulated parimutuel horse racing.

CUSTODIAL FUNDS

These funds are held in custody for others. Major items include sales taxes collected for cities and counties; litigation settlement escrow accounts; contractor's performance escrow accounts; deposits held to ensure land restoration by mining and oil exploration companies; amounts held for the trustee related to Certificates of Participation or revenue Bonds for Higher Education Institutions, Building Excellent Schools Today (BEST), the Bridge Enterprise program; and assets invested for the Colorado Water Resources and Power Development Authority (a discretely presented component unit).

NON-APPROPRIATED BUDGET SCHEDULES

The schedules on the following pages provide, by department, nonappropriated budget-to-actual activity. The budgets are based on a variety of sources that are not subject to appropriation by the General Assembly that generally include most federal awards, custodial agreements, and Colorado statutes. In Higher Education Institutions informational only appropriations for tuition and certain fees contained in the State's legislative appropriations act are not controlling. Therefore, expenditures may exceed recorded budgets in these appropriations.

**SCHEDULE OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES - BUDGETARY BASIS
BUDGET AND ACTUAL - NON-APPROPRIATED GENERAL FUNDED

NOTES TO THE TABOR SCHEDULE OF REQUIRED COMPUTATIONS

NOTE 1. PURPOSE OF THE SCHEDULE OF REQUIRED COMPUTATIONS

The purpose of the Schedule of Required Computations is to determine and document compliance with Title 24 Article 77 of the Colorado Revised Statutes, which is the implementing statute for Article X Section 20 of the State Constitution (TABOR). The report is required to include at a minimum State fiscal year spending, reserves, revenues, and debt. The schedule also includes a calculation of the limit on fiscal year spending, a calculation of the Excess State Revenues Cap under Referendum C (see Note 9), and the amount required to be refunded or the amount of excess revenue retained by law, as well as all related adjustments.

TABOR has many provisions including a requirement for a vote of the people for new taxes or tax rate increases and a limit on the amount of fiscal year spending. Fiscal year spending is defined as District expenditures and reserve increases except those expended from exempt sources, such as gifts, federal funds, damage awards, property sales, reserves, and other items. This definition, while focused on spending is essentially a limitation on revenue retention because reserve increases are unspent revenues. Therefore, the terms fiscal year spending and nonexempt revenue are used interchangeably throughout these notes.

The limit on revenue retention is based on an allowable growth percentage (see Note 12) applied to the lesser of the prior year's revenues or the prior year's limit. Revenues in excess of the limit are required to be refunded to taxpayers unless voters approve retention of the excess. In the 2005 general election, voters approved Referendum C, which allowed the State to retain revenues in excess of the limit for a five-year period. Beginning in Fiscal Year 2011, under Referendum C provisions, revenues are refunded only when they exceed the Excess State Revenues Cap (see Note 9).

NOTE 2. BASIS OF ACCOUNTING

Pursuant to Article 77 of Title 24, Colorado Revised Statutes, this report is prepared in accordance with generally accepted accounting principles (GAAP) for governmental entities except where an irreconcilable difference exists between GAAP, and State statute or the provisions of Article X Section 20 of the State Constitution (TABOR). The accounting principles used by the State are more fully described in Note 1 to the Financial Statements.

NOTE 3. DEFINITION OF THE DISTRICT

TABOR defines the District as "the State or any local government, excluding enterprises." It further defines an enterprise as "a government-owned business authorized to issue its own revenue bonds and receiving under 10 percent of annual revenue in grants from all Colorado State and local governments combined."

The General Assembly, for the purpose of implementing TABOR, stated in Section 24-77-102(16) C.R.S.:

(a) that "State" means the central civil government of the State of Colorado, which consists of the following:

- (I) the legislative, executive, and judicial branches of government established by Article III of the State Constitution;
- (II) all organs of the branches of government specified in subparagraph (I) of paragraph (a) of this subsection (16), including the departments of the executive branch; the legislative houses and agencies; and the appellate and trial courts and court personnel; and
- (III) State institutions of higher education.

(b) "State" does not include:

- (I) any enterprise [including an institution or group of institutions of higher education that has been designated as an enterprise];
- (II) any special purpose authority;
- (III) any organization declared to be a joint governmental entity.

The General Assembly has designated the following as enterprises excluded from the District:

- State Lottery,
- College Assist,
- CollegeInvest,
- Division of Parks and Wildlife,
- State Nursing Homes,
- Division of Correctional Industries,
- Petroleum Storage Tank Fund,
- State Fair Authority,
- Division of Brand Inspection,
- Clean Screen Authority,
- Capitol Parking Authority,
- Statewide Transportation Enterprise,
- Statewide Bridge Enterprise,
- Unemployment Insurance Enterprise,
- Electronic Recording Technology Fund,
- Colorado Healthcare Affordability and Sustainability Enterprise,
- Front Range Waste Diversion Enterprise,
- Health Insurance Affordability Enterprise,

- Clean Motor Vehicle Fleet Enterprise,
- Clean Transit Enterprise,
- Air Pollution Mitigation Enterprise,
- Air Quality Enterprise,
- Community Access Enterprise,
- Natural Disaster Mitigation Enterprise,
- 988 Crisis Hotline Enterprise,
- Orphaned Wells Mitigation Enterprise.

It further established a statutory mechanism that allows the governing boards of institutions of higher education to designate certain auxiliary operations as enterprises, which are also exempt from TABOR. Senate Bill 04-189 expanded the authority for each governing board of State institutions of higher education to designate the entire institution as a TABOR exempt enterprise. The Board of Regents of the University of Colorado designated the entire University of Colorado as an enterprise during Fiscal Year 2005, and the remaining boards designated their institutions as enterprises in Fiscal Year 2006. The Auraria Higher Education Center Board of Directors did not designate all of its activities as a TABOR enterprise, but it continues to have selected activities designated as a TABOR enterprise.

Although the General Assembly and governing boards have designated certain enterprises as exempt from TABOR, those enterprises must continue to meet the criteria of a government-owned business authorized to issue its own revenue bonds and to receive less than 10 percent of its revenue in grants from all Colorado State and local governments combined. The State Fair Authority remained disqualified as an enterprise for Fiscal Year 2022.

NOTE 4. DEBT

Certificates of Participation, which are used by the State for long-term lease purchases, are not considered debt of the State for purposes of this report as provided by Section 24-30-202(5.5) C.R.S.

In interrogatories submitted by the General Assembly regarding House Bill 99-1325, the Colorado Supreme Court ruled that Transportation Revenue Anticipation Notes (TRANS) issued by the Colorado Department of Transportation do not constitute debt of the State as defined in Article XI Section 3 of the State Constitution. However, the Supreme Court ruled that the TRANS are a multiple-fiscal year obligation as defined by Article X Section 20 of the State Constitution, thus requiring an approving election before issuance.

NOTE 5. EMERGENCY RESERVES

TABOR requires the reservation, for declared emergencies, of three percent or more of fiscal year spending, excluding bonded debt service payments. This requirement for Fiscal Year 2022 totals \$592.2 million.

At June 30, 2022, the net assets of the following funds were designated as the reserve, up to the limits set in Senate Bill 21-227:

- Major Medical Insurance Fund - \$59.0 million.
- State Emergency Reserve Cash Fund - \$201.0 million.
- Colorado Water Conservation Board Construction Fund - \$33.0 million.
- Disaster Emergency Fund - \$48.0 million
- Unclaimed Property Tourism Promotion Trust Fund - \$5.0 million.
- Marijuana Tax Cash Fund - \$100.0 million.

Senate Bill 21-227 also designated the Capitol Annex building, with a value exceeding \$29.0 million, as the remainder of the emergency reserve.

Based on actual fiscal year nonexempt revenues in Fiscal Year 2022, the required reserve was \$592.2 million. Because the actual reserve requirement was more than the amount set in SB 21-227, the total amount restricted for the reserve was \$91.0 million less than the combined maximums allowable in the designated funds detailed above. There is no process by which the General Assembly can adjust the designated reserve after the end of the legislative session when the total TABOR revenues are finally known.

During Fiscal Year 2022, eleven executive orders called for a net amount of \$125.0 million to be spent from, or encumbered in the Disaster Emergency Fund. The amounts spent or encumbered were for fire suppression efforts (\$34.1 million), COVID-19 (\$84.7 million), other health emergencies (\$1.2 million) and other natural disaster emergencies (\$5.0 million).

NOTE 6. STATUS OF REFUNDING

In Fiscal Year 2022 there were four TABOR refund mechanisms in State law – the property tax exemption reimbursement, the temporary income tax rate reduction, the six-tiered sales tax refund, and a temporary refund that was equally distributed to qualified individuals filing single and joint income tax returns. A summary of each is noted below:

1. Property tax exemption reimbursement – with the enactment of Senate Bill 17-267, excess revenue is first refunded via reimbursements to local governments equal to the amount of property tax revenue they lose as a result of the property tax exemptions for seniors and disabled veterans. The amount refunded via this mechanism is the lesser of actual reimbursements or the total refund obligation in accordance with Section 39-3-209(2) C.R.S. If the amount of excess revenue is less than the amount required to reimburse local governments for property tax exemptions for seniors and disabled veterans, then only the portion of the reimbursement equal to the refund obligation is accounted as a TABOR refund. This portion is paid from General Fund revenue set aside in the year when the TABOR surplus was collected. This is considered an under-distribution and is carried forward until the reimbursement is paid. The remaining portion of the reimbursement is financed from revenue collected in the fiscal year when the reimbursement is paid.

2. Temporary income tax rate reduction – under Section 39-22-627 C.R.S., the temporary income tax rate reduction refunds revenue via a temporary reduction in the State income tax rate from 4.63 percent to 4.50 percent for individual and corporate income taxpayers. The income tax rate reduction is triggered if and only if the refund obligation exceeds the amount of the property tax reimbursement mechanism by at least the amount of the reduction in revenue expected to result from the reduction in the income tax rate. When triggered, the income tax rate is reduced in the tax year following the fiscal year in which excess revenue is collected. If the refund obligation is less than the reduction in revenue expected to result from the reduction in the income tax rate, then the refund in excess of the property tax reimbursement mechanism is refunded via the third mechanism.
3. Six-tier sales tax refund mechanism – under Section 39-22-2001 through 2003 C.R.S., the six-tier sales tax refund refunds any excess amount outstanding after the payment of refunds via the property tax reimbursement mechanism and, if triggered, the temporary income tax rate reduction. Despite being called a sales tax refund, the refund appears on income tax forms as a means of returning sale tax revenue paid by individuals. The mechanism grants taxpayers a refund according to where their adjusted gross income falls among six adjusted gross income tiers. When the amount to be refunded via this mechanism is large enough to support at least \$15 per taxpayer, the Department of Revenue is required to distribute the amount among the tiers as it was distributed for the sales tax refund in the tax year 1999. If the amount to be refunded is less than \$15 per taxpayer, an equal refund is provided to each taxpayer regardless of income. Because the number of qualifying taxpayers and their adjusted gross incomes are estimates, the use of the second and third refund mechanisms can result in over or under distribution of the required refund throughout the four-year period allowed for amended tax returns.
4. Temporary refund of excess State revenues – under Section 39-22-2004 C.R.S., the State defines additional excess State revenues as the amount of revenue over the spending limit that exceeded projected refunds required by Sections 39-3-209 and 39-22-627 C.R.S. According to the statute, additional excess State revenues are to be refunded for Fiscal Year 2022 to qualified individuals – being those who were at least eighteen years old as of December 31, 2021, who were residents of the State for the entire income tax year (2021), and who filed single or joint income tax returns. In Fiscal Year 2022, the State had additional excess revenue to refund \$750 to single filers and \$1,500 to joint filers.

Regardless of the refund mechanism, Section 24-77-103.8 C.R.S. requires that under-distributions of refunds be carried forward to subsequent years and added to the required refund in a future year when revenue is over the spending limit. Over-distributions of refunds, pursuant to Section 24-77-103.7 C.R.S., are also carried forward to subsequent years and are used to offset any future refund liability. The amount of the over/under carry forward is to be applied in the year following the year in which the refund is required to be made, which results in a two-year lag between the recording of the excess revenue and the adjustment for over or under refunds of those excess revenues.

At the beginning of Fiscal Year 2022, the State had an outstanding TABOR refund liability of \$547.9 million. During the year the following amounts were refunded: \$15.4 thousand from the Fiscal Year 2015 liability, (\$7.6) million from the Fiscal Year 2019 liability (through the income tax rate reduction mechanism), and \$413.4 million from the Fiscal Year 2021 liability, through the first three reimbursement mechanisms detailed in Note 6 (property tax exemption reimbursement, temporary income tax rate reduction, and the sales tax refund mechanism). Refund liabilities for Fiscal Years 2018, 2019 and 2021 were each decreased in total by \$22.4 million to adjust for prior-year revenue recording errors, including \$14.5 of retail marijuana fee revenue which has been determined to be exempt from spending limits. Excess revenue over the ESRC in Fiscal Year 2022 added \$3.7 billion to the total liability. At June 30, 2022, the amount of refunds payable is \$3.8 billion (See Note 15 for more detail).

NOTE 7. OTHER SOURCES AND ADDITIONS

The \$2,024.3 million reported in this line item primarily comprises: \$492.1 million of pension and other employee benefit trust fund investment earnings and additions by the State and participants; \$286.0 million related to future leases; \$805.4 million of proceeds from the issuance of certificates of participation; \$196.4 million of revenue to permanent funds and trusts; \$57.0 million of local government expenditures recorded by the State as revenues and expenditures to meet grant matching-funds requirements; and \$175.0 million of other miscellaneous revenue.

NOTE 8. VOTER APPROVED REVENUE CHANGES

When State voters approve a revenue change, the resulting revenues are exempt from the TABOR limit on fiscal year spending. The following revenue changes were approved by voters:

- In the 1998 general election, voters approved a citizen-initiated law, Section 25-8-501.1 C.R.S. – Regulation of Commercial Hog Facilities – which instituted a permit fee. The State collected \$103,700 and \$56,439 from this exempt source in Fiscal Year 2022 and Fiscal Year 2021, respectively.
- In the 2000 general election, voters approved a citizen-initiated amendment that added Section 14 to Article XVIII of the State Constitution. This amendment allowed the use of marijuana for medical purposes and authorized the Department of Public Health and Environment to charge a fee for the issuance of a permit for such purpose. The State recorded \$2.1 million and \$2.3 million including interest and unrealized gains/losses from this revenue source in Fiscal Year 2022 and Fiscal Year 2021, respectively.
- In the 2000 general election, voters approved a citizen-initiated amendment that added Section 17 to Article IX of the State Constitution. This amendment created the State Education Fund and diverted the revenues from a tax of one-third of one percent on taxable income of individuals, corporations, estates, and trusts from the General Fund to the State Education Fund. It also exempted the revenue from TABOR. The amendment was effective January 1, 2001, and resulted

in \$1,224.6 million and \$1,037.3 million of tax revenues, interest, operating transfers and unrealized gains/losses, as exclusions from fiscal year spending in Fiscal Year 2022 and Fiscal Year 2021, respectively.

- In the 2004 general election, voters approved a citizen-initiated amendment that added Section 21 to Article X of the State Constitution. The amendment authorized additional cigarette and tobacco taxes (3.2 cents per cigarette and 20 percent of manufacturer's list price for other tobacco products) effective January 1, 2005. The amendment specified the use of the tax revenue generated for specific health related programs, and it exempted the revenue from the TABOR limitations. The State recorded \$126.7 million and \$137.9 million of tax revenues, interest, transfers, and unrealized gains/losses from this exempt source in Fiscal Year 2022 and Fiscal Year 2021, respectively.
- In the 2005 general election, Colorado voters approved Referendum C – a measure referred to the voters by the Legislature. The referendum allowed the State to retain revenues in excess of the TABOR limit for a period of five years, and it stated that the excess revenue retained qualified as a voter approved revenue change. However, in order to determine the amount retained, the Schedule of Required Computations includes the retained amount as nonexempt revenue. Therefore, the retained amount is not reported in this note as a voter approved revenue change (see Note 9).
- In the 2008 general election, voters approved an amendment required to implement locally approved changes to the parameters for Limited Gaming under Section 9(7) of Article XVIII of the Colorado Constitution. This amendment allowed the residents of Central City, Black Hawk, and Cripple Creek to vote to extend casino hours, approve additional games and increase the maximum single bet limit. It required distribution of most of the gaming tax revenue that resulted from the new gaming limits to Colorado community colleges and to gaming cities and counties, and it exempted the new revenue from State and local revenue and spending limits. The State collected \$48.0 million and \$19.8 million of extended limited gaming revenue in Fiscal Year 2022 and Fiscal Year 2021, respectively.
- In the 2013 general election, Colorado voters approved Proposition AA, a measure referred to the voters by the Legislature. The proposition authorized a 15 percent State excise tax on the average wholesale price of retail marijuana, and, in addition to the existing 2.9 percent State sales tax, an additional 10 percent State sales tax on retail marijuana and retail marijuana products, effective January 1, 2014. The amendment specified the use of the excise tax revenue generated for public school construction (for the first \$40.0 million collected) with any additional excise revenue generated to be used for marijuana regulation.

With the enactment of Senate Bill 267 in the 2017 legislative session, the retail marijuana sales tax rate increased from 10 percent to 15 percent and exempted the 2.9 percent sales tax. The State's share of the retail tax increased from 85 percent to 90 percent. These changes took effect on July 1, 2017. The 15 percent excise tax on the wholesale price of retail marijuana still applies.

The State recorded \$99.4 million of State excise tax and \$258.7 million of retail marijuana State sales tax revenues from these exempt sources in Fiscal Year 2022. In the prior fiscal year, the State recorded \$120.8 million and \$288.2 million respectively, from these two sources.

- In Fiscal Year 2022, it was determined that retail marijuana fees are exempt from the provisions of Article X, Section 20 of the Colorado Constitution, as a voter approved revenue under Amendment 64, which passed in 2012. The State recorded \$5.8 million of retail marijuana fees in Fiscal Year 2022.
- In the 2019 Statewide election, Colorado voters approved Proposition DD – a measure referred to voters by the Legislature in HB 19-1327. The proposition allowed the State to tax the proceeds of sports betting activity and to use the revenue for implementing the State water plan and for other purposes. The State recorded \$12.4 million and \$8.1 million from this revenue source in Fiscal Year 2021 and Fiscal Year 2020, respectively.
- In the 2020 Statewide election, voters approved Proposition EE – a measure referred to voters by the Legislature in HB 20-1427. The “yes” vote on the proposition allowed the State to impose a tax on nicotine liquids and other vaping products, and to increase existing cigarette and tobacco taxes. The revenue is to provide funding for schools, housing development and rental assistance, health care programs, tobacco education programs and other State and local general spending. The State recorded \$222.2 million and \$68.0 million from this revenue source in Fiscal Year 2022 and Fiscal Year 2021, respectively.

NOTE 9. REFERENDUM C

Referendum C was placed on the ballot by the General Assembly and was approved by voters in the November 2005 election. It contained the following provisions:

- The State was authorized to retain and spend all revenues in excess of the limit on fiscal year spending after July 1, 2005, and before July 1, 2010 (five fiscal years). The authorization constituted a voter approved revenue change.
- After July 1, 2010, the State is allowed to retain revenues in excess of the limit on fiscal year spending up to a newly defined Excess State Revenues Cap (ESRC). The ESRC is the highest population and inflation-adjusted nonexempt revenue amount in the period from July 1, 2005, to June 30, 2010, also adjusted for qualification and disqualification of enterprises. This provision effectively disabled the ratchet down provision of TABOR during the five-year period. (The term “ratchet down” is used to describe the TABOR provision that requires each year’s base for calculating the limit to be the lesser of the prior year’s revenues or the prior year’s limit.)
- In the 2017 legislative session, enactment of Senate Bill 17-267 lowered the ESRC base by \$200.0 million. This one-time change took effect in Fiscal Year 2018 and permanently modified future year calculations of the amount over or under the ESRC. The revised ESRC in Fiscal Year 2018

set a new base, which will continue to increase (or decrease) in future years by the combined percentage change in population and inflation.

- In the 2021 legislative session, enactment of Senate Bill 21-260 restored the ESRC base that had been lowered three years earlier by Senate Bill 17-267. The increase to the base was \$225.0 million, which includes adjustments for population growth and inflation. The revised base will continue to increase (or decrease) in future years by the combined percentage change in population and inflation.
- A General Fund Exempt Account was created within the General Fund to consist of the retained revenues for each fiscal year of the retention period. The Legislature appropriates money in the account for health care, education (including related capital projects), firefighter and police pension funding (for local governments), and strategic transportation projects.
- The Director of Research of the Legislative Council is required to report the amount of revenues retained with a description of how the retained revenues were expended.
- The State Controller's annual report demonstrating compliance with the statutes implementing TABOR is required to include the amount of revenues that the State is authorized to retain and expend.

With the end of the Referendum C five-year excess revenue retention period, the State was subject to an ESRC starting in Fiscal Year 2011. Calculation of the original TABOR limit continues to apply, but the ESRC replaces the previous TABOR limit for triggering taxpayer refunds.

Since the inception of Referendum C in Fiscal Year 2006, the State has retained \$30,539.7 million - \$3.6 million during the initial five-year revenue retention period, and an additional \$26,946.1 million due to the ESRC exceeding the Fiscal Year Spending Limit (FYSL) in Fiscal Year 2011 through Fiscal Year 2022.

NOTE 10. DISTRICT RESERVES

District reserves are the cumulative fund balances of the State reported in the State's Annual Comprehensive Financial Report at the fund level rather than the government-wide level. District reserves therefore exclude capital assets, liabilities that are not recorded in governmental funds at the fund level (primarily long-term liabilities), as well as net assets of the TABOR enterprises. The majority of these funds include balances not available for general appropriation due to legal and contractual restrictions.

NOTE 11. PRIOR PERIOD DISTRICT FUND BALANCE ADJUSTMENTS AND ACCOUNTING CHANGES

In Fiscal Year 2022, the State increased the District's fund balance by \$9.0 million to adjust certain COVID-19 related expenditures from the prior year in the Department of Public Health and Environment.

In Fiscal Year 2021, GASB Statement No. 84 required certain funds having a fiduciary purpose, to recognize the receipt of funds held for other entities and parties, as revenue to the State. Before Fiscal Year 2021, these receipts were recorded as liabilities to be settled when the funds were used for their intended purposes. Implementation of GASB 84 was structured to create a permanent classification of exempt revenue called Amounts Held for Others, which has no effect on TABOR. For Fiscal Year 2021 only, the implementation created a \$78.7 million prior period adjustment to the District's fund balance.

NOTE 12. SOURCES OF TABOR GROWTH LIMIT

The allowable percentage increase in State fiscal year spending equals the sum of inflation and the percentage change in State population in the calendar year ending six months prior to the start of the fiscal year. Inflation is defined in Section C.R.S. 24-77-102(8) C.R.S. as "the percentage change in the consumer price index for the Denver-Boulder Consolidated Metropolitan Statistical Area For All Urban Consumers, All Goods, as published by the U.S. Department of Labor, Bureau of Labor Statistics, or its successor index." The Bureau of Labor Statistics' successor index beginning with the Fiscal Year 2018 Schedule of Computations is the index for the Denver-Aurora-Lakewood area.

The 2.2 percent allowable growth rate comprises a 0.3 percent increase for population growth (census population for 2020 compared to 2019) and a 1.9 percent increase for inflation.

NOTE 13. SPENDING LIMIT ADJUSTMENTS FOR PRIOR YEAR ERRORS

With the addition of the ESRC, spending limit adjustments only impact the calculation of the Fiscal Year Spending Limit (FYSL). In Fiscal Year 2022 there were no prior year revenue recognition errors that were large enough to impact the prior year base, therefore there were no adjustments to the Fiscal Year 2022 FYSL.

NOTE 14. ENTERPRISE QUALIFICATION AND DISQUALIFICATION

The TABOR amendment to the State Constitution specifies that qualification and disqualification of enterprises shall change the District base. In order to ensure comparability between the base and current year nonexempt revenue, when an activity qualifies as an enterprise the base is reduced by the activity's prior year nonexempt revenue offset by revenue that would have been counted as nonexempt due to the activity's interaction with other State agencies. When a TABOR enterprise becomes disqualified, its current year nonexempt revenue is added to the base after application of the population and inflation growth adjustment and its prior year payments to other State agencies are removed from the base (before application of the allowable growth rate).

In Fiscal Year 2022, the Auraria Higher Education Center's (AHEC) parking operation regained its TABOR enterprise status resulting in a \$2.8 million reduction to the ESRC and the FYSL, before application of the 2.2 percent allowable growth rate. The requalification also reduced the District's fund balance by \$2.7 million.

The Tivoli Center enterprise, also a part of AHEC, lost its enterprise status because it received an appropriation from the State that was more than ten percent of its total revenue. This increased the ESRC and FYSL by \$0.5 million, after application of the 2.2 percent allowable growth rate, and decreased the District's fund balance by \$4.2 million (since its fund balance was negative).

In Fiscal Year 2022, Adams State University also lost its TABOR enterprise status since it received more than 10 percent of its total revenue from State support. The loss of enterprise status resulted in a \$27.0 million addition to the ESRC and FYSL, after application of the 2.2 percent allowable growth rate; and a \$274 thousand reduction to both bases due to the university's financial interactions with other State entities. The \$274 thousand adjustment was made to both bases before application of the 2.2 percent allowable growth rate. The loss of the university's enterprise status also increased the District's fund balance by \$33.6 million.

NOTE 15. TREATMENT OF AMOUNTS HELD FOR FUTURE REFUND

Section 24-77-103.5 C.R.S. requires that errors in the amount to be refunded be corrected in the year they are discovered.

During Fiscal Year 2022, various departments in the State discovered \$2.3 million of net revenue from the prior year that had been incorrectly recognized as revenue subject to the provisions of TABOR. In addition, the State determined that retail marijuana fees are not subject to limits on fiscal year spending. In Fiscal Year 2022 the State determined that the yes-vote on Amendment 64 in 2012 approved retail marijuana fees as an exempt revenue source in addition to retail marijuana taxes. In the prior fiscal year, the State recorded \$4.9 million of retail marijuana fees. The total adjustment for prior year errors and the recognition of Fiscal Year 2021 retail marijuana fees as exempt, was a \$7.2 million decrease in revenue.

NOTE 16. FUTURE REFUNDS

In addition to the \$7.2 million decrease to revenue from the prior fiscal year, TABOR refunds payable in future years were reduced by \$9.6 million for retail marijuana fees between Fiscal Years 2018-2019, and another \$5.6 million for other errors during the same time period. Total adjustments for the prior four years were \$22.4 million.

During the fiscal year, \$405.8 million was refunded to tax payers from excess revenue in all prior years through the income tax rate reduction, sales tax refund and property tax exemption mechanisms.

Since Fiscal Year 2022 nonexempt District revenues were above the ESRC by \$3,728.4 million, this amount is added to the total refund liability making the balance at June 30, 2022 equal to \$3,848.1 million. Through the end of October 2022, the State has refunded \$2,749.9 million of excess revenue from Fiscal Year 2022 in accordance with Senate Bill 22-233. (See Note 6.)

Statistical Section

Annual Comprehensive Financial Report

For the Fiscal Year Ended June 30, 2022

COLORADO
Office of the State Controller
Department of Personnel & Administration

STATISTICAL SECTION

This section of the State of Colorado's Comprehensive Annual Financial Report presents detailed current and historical information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

FINANCIAL TRENDS

These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time at both the entity wide and fund-level perspectives.

REVENUE CAPACITY

These schedules contain information to help the reader assess the factors affecting the State's ability to generate and retain major revenue streams including income and sales taxes.

DEBT CAPACITY

These schedules present information to help the reader assess the sustainability of the State's current levels of outstanding debt and the State's ability to issue additional debt in the future.

DEMOGRAPHIC AND ECONOMIC INFORMATION

These schedules offer demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

OPERATING INFORMATION

These schedules contain information about the State's operations and resources to help the reader understand how the information in the State's financial report relates to the services the State provides and the activities it performs.

¹ Expenditures in this schedule are reported on the modified accrual basis (GAAP basis) rather than the budgetary basis, which defers certain payroll, Medicaid costs and related revenues, and other statutorily defined expenditures to the following fiscal year. Certain expenditures are shown in the department that makes the external payment rather than being shown in the department that receives the original general-funded appropriation.

¹ - Large adjustments to the prior year limit are primarily related to activities qualifying as TABOR enterprises, after which the activity's revenues and expenditures are no longer shown in the district amounts.

² - Beginning in Fiscal Year 2011, with the expiration of the Referendum C retention period, Fiscal Year Refunds are based on the Excess State Revenue Cap rather than the Fiscal Year Spending Limit.

¹ - General Obligation Debt is prohibited by the State Constitution except to fund buildings for state use, to defend the state or the U.S. (in time of war), or to provide for unforeseen revenue deficiencies.

² - Colorado State Constitution requires multi-years obligations to be approved by voters therefore there is no specific legal debt limitation.

³ - Beginning in Fiscal Year 2014 debt liabilities are not offset by unamortized refunding gains or losses. With GASB Statement No. 65, these balances became deferred inflows and/or outflows.

- Classified employees are those holding positions within the State Personnel System. Non-classified employees are excluded from the State Personnel System and are not subject to the rule-making authority of the State Personnel Director. Non-classified positions are found primarily in the Judicial Branch, the Legislative Branch, the Governor's cabinet and office staff, the Department of Law, the Department of Education, and as administrators and faculty in the Department of Higher Education.

- For each State agency, the average salary for full-time employees was divided into the part-time employee payroll amount to determine the average employee count. Average salary was computed as total classified or nonclassified salary divided by related average employee count.

¹Centerline miles measure roadway miles without accounting for the number of lanes.

²Lane miles measure the total distance of all roadway lanes, and are therefore a better indicator of actual maintenance requirements.

³In 2013 CDOT changed the overall metric by which pavement condition is measured. The new measure is based on Driveability Life, which identifies how long a pavement will last until the user experience becomes unacceptable.

OTHER COLORADO FACTS

Important Dates

- 1803 The United States purchases land, including what is now most of eastern Colorado, from France in the Louisiana Purchase.
- 1806 Lt. Zebulon M. Pike and a small party of U.S. soldiers sent to explore the southwestern boundary of the Louisiana Purchase discover the peak that bears his name but fail in their effort to climb it. However, they do reach the headwaters of the Arkansas River near Leadville.
- 1848 By the Treaty of Guadalupe Hidalgo, Mexico cedes to the United States most of that part of Colorado not acquired by the Louisiana Purchase.
- 1858 Gold is discovered along Cherry Creek near present day Denver.
- 1861 Congress establishes the Colorado Territory with the boundaries of the present State and chooses its name from the Spanish word for “colored red.” President Lincoln appoints William Gilpin as the first territorial governor. The State Supreme Court is organized. The first assembly meets and creates 17 counties, authorizes the University of Colorado, and selects Colorado City as the territorial capital.
- 1867 Denver is established as the permanent seat of the territorial government by the legislature meeting in Golden.
- 1870 The Denver Pacific Railroad is completed to Denver.
- 1876 Colorado is admitted to the Union as the 38th state. John L. Routt is elected the first governor.
- 1877 The University of Colorado opens classes at Boulder with two teachers and forty-four students.
- 1894 The State Capitol Building, designed by Elijah E. Meyers, is completed at a cost of \$2.5 million. Colorado becomes the second state, after Wyoming, to extend suffrage to women.
- 1906 The U.S. Mint at Denver issues its first coins.
- 1958 The U.S. Air Force Academy’s permanent campus opens near Colorado Springs.
- 1992 TABOR amendment is added to the State Constitution.

Geography

Area: 103,718 square miles.

Highest Elevation: Mt Elbert – 14,433 feet above sea level.

Lowest Elevation: Along the Arikaree River in Yuma County – 3,315 feet above sea level.

Colorado has the highest average elevation of all fifty states – 6,800 feet above sea level.

State Symbols and Emblems

State Motto – Nil Sine Numine –
Nothing Without the Deity

State Songs – “Where the Columbines Grow” and
“Rocky Mountain High”

State Nickname – Centennial State

State Gemstone – Aquamarine

State Animal – Rocky Mountain Bighorn Sheep

State Grass – Blue Grama Grass

State Bird – Lark Bunting

State Insect – Colorado Hairstreak Butterfly

State Fish – Greenback Cutthroat Trout

State Mineral – Rhodochrosite

State Flower – White and Lavender Columbine

State Reptile – Western Painted Turtle

State Folk Dance – Square Dance

State Amphibian – Western Tiger Salamander

State Fossil – Stegosaurus

State Rock – Yule Marble

State Pet – Shelter and Rescue Dog and Cat

State Tree – Colorado Blue Spruce

State Cactus – Claret Cup
