

> Green Liberty Notes Announcement

Thank you again for your purchase of Green Liberty Notes and your investment in a cleaner future. Below is important information regarding the repayment of your Green Liberty Notes investment.

Investment period and repayment: For information about your investment period, please refer to the email from Raise Green that confirmed your investment. At the end of the term, investors will be sent the principal and interest of the Note investment or potentially reinvest (as outlined below).

Repayment options at the end of the investment period: At maturity, you will have two options:

- 1. Repayment by direct ACH payment to your bank account (faster than paper check).** Once you have set up your [bill.com](https://www.bill.com) account, we will automatically send the repayment to the bank listed there. Having up-to-date information is important so we can send your funds to the right place.
- 2. Repayment by check.** If you do not select a direct ACH payment, a check will be sent to the mailing address in your [bill.com](https://www.bill.com) account. If you do not create an account, a check will be sent to the mailing address supplied when you initially invested in Green Liberty Notes. Should you need to update your address, please log into your [bill.com](https://www.bill.com) account or email us at investorrelations@ctgreenbank.com.

Please note: if there is a Green Liberty Note offering available when your existing investment matures, you may receive notice of a way to reinvest your proceeds. If you choose to reinvest, you will receive instructions to explain the reinvestment process.

Please reach out to investorrelations@ctgreenbank.com with any questions.
