

Rating_Action: Moody's assigns Aa2 to Ohio's Capital Facilities Lease-Appropriation Bonds, Series 2023A (Transportation Building Fund Projects); outlook positive

26Jan2023

New York, January 26, 2023 – Moody's Investors Service has assigned a Aa2 rating to Ohio's \$55 million Capital Facilities Lease-Appropriation Bonds, Series 2023A (Transportation Building Fund Projects). The bonds are expected to sell the week of February 13. The outlook is positive.

RATINGS RATIONALE

The Aa2 rating is one notch below the state's Aa1 issuer rating, reflecting a moderate legal structure that includes the need for biennial legislative appropriation of lease payments and the more essential nature of the various projects financed. There are no bondholder remedies in the event of non-appropriation, however the state has very strong incentive to appropriate, given the importance of maintaining continued market access for subject-to-appropriation lease debt.

The Aa1 issuer rating incorporates the state's sound budgetary and financial management, strong reserves and liquidity, and affordable fixed costs associated with below-average long-term debt, pension and retiree healthcare (OPEB) liabilities. Together, these provide strong flexibility to weather moderate economic uncertainty and inflationary pressures. With recent revenue surpluses, the state has set aside reserves to smooth the ramp down of Federal Medicaid support and to fund capital projects and economic development. These investments support budget flexibility, reduce the state's planned borrowing needs, and promote long-term economic growth. However, the state's strengths are partially offset by a history of below-average economic growth, compounded by weak demographic trends as well as school districts that are pressured by large pension liabilities.

RATING OUTLOOK

The outlook on the lease appropriation bonds reflects the outlook of the state. The positive outlook is based on growing evidence of new economic development that could diversify the state's economy, improve growth and strengthen demographic trends over the medium term. The outlook also reflects the recent improvement in the state's financial position and economic prospects, and our expectation that strong reserves, proactive financial management, and low fixed costs will support budget flexibility during potential economic uncertainty in the next 18-24 months.

FACTORS THAT COULD LEAD TO AN UPGRADE OF THE RATING

An upgrade of the state's issuer rating, which could come from:

- Continued improvement in demographic trends, particularly in working age population growth, net migration and age distribution, that contribute to stronger economic growth relative to peers

- Maintenance of a budget in structural surplus, and/or quick response and recovery from an economically driven budget shock
- Evidence that economic development is diversifying the state economy and improving growth and demographic trends

FACTORS THAT COULD LEAD TO A DOWNGRADE OF THE RATING

A downgrade of the state's issuer rating, which could come from:

- Lack of improvement in employment, personal income or demographic trends relative to the US average
- Financial deterioration, including a return to budgetary structural imbalance and/or protracted response and recovery to budget gaps
- Reduced liquidity and materially lower reserve levels, other than for strategic one-time purposes
- Unanticipated rise in long-term liabilities and an increase in fixed costs

LEGAL SECURITY

The capital facilities lease appropriation bonds are secured by a lease-purchase agreement between the Ohio Department of Transportation (DOT) as lessee, and the Ohio Public Facilities Commission, as lessor. Debt service is payable from base rental payments. DOT's base rent is typically funded with motor fuel taxes from the Highway Operating Fund, but appropriations can also be made from any lawfully available revenues, including General Revenue Fund sources.

The leases stipulate that the obligation to make lease payments is absolute and unconditional, contingent only upon the appropriation of funds by the legislature, and not on whether the financed projects are in use. Debt service payment dates (October 1 and April 1) rely on appropriations enacted every other year and are far enough removed from the July 1 start of the state's fiscal biennium to limit risk of non-appropriation due to late budget adoption.

Pursuant to the lease, the DOT is required to include the lease payments in biennial budget request to the Office of Budget and Management. There are no debt service reserve funds associated with these bonds, and there are no bondholder remedies in case of default due to non-appropriation. In the event of non-appropriation, the leases would terminate. The importance of maintaining continued market access for subject-to-appropriation lease debt, in general, provides a strong incentive to continue making timely appropriations.

USE OF PROCEEDS

Bond proceeds will finance construction of various transportation capital facilities that will be leased to the state DOT.

PROFILE

Ohio is the seventh-largest US state by population (11.7 million). Its gross domestic product also ranks seventh among the states; 2021 nominal GDP of \$736 billion.
