Office of Budget and Management

John R. Kasich
Governor

Timothy S. Keen
Director

December 22, 2015

To the Honorable John R. Kasich, Governor;
Members of the Ohio General Assembly; and
Citizens of Ohio:

It is my privilege to present the State of Ohio's Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2015, prepared in accordance with Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

The Office of Budget and Management (OBM) prepared this report pursuant to Section 126.21, Ohio Revised Code. The report includes the basic financial statements, which provide an overview of the State's financial position and the results of financial operations. Responsibility for the accuracy of the data presented, as well as the completeness and fairness of the presentation, including all disclosures, rests with OBM.

To the best of our knowledge and belief, the information presented is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the State of Ohio. All disclosures necessary for a reasonable understanding of the State's financial activities have been included.

This letter of transmittal is intended to complement management's discussion and analysis (MD&A) and should be read in conjunction with it. The MD&A provides an overview of the State's financial activities addressing both governmental and business-type activities reported in the government-wide financial statements.

The reporting format for our CAFR is significantly different from the way the State more typically presents its finances on a non-GAAP budgetary basis. The most obvious difference is that the "General Fund" in the CAFR includes more than just the State's General Revenue Fund (GRF). The General Fund also includes other funds such as the reimbursement-supported funds used for activities administered by state agencies and departments for which special revenue or proprietary fund classifications were considered to be inappropriate.

The State's management is responsible for establishing and maintaining internal control designed to ensure that the State's assets are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived, and 2) the valuation of costs and benefits requires estimates and judgments by management.

INDEPENDENT AUDIT RESULTS

In compliance with Ohio Revised Code, an annual financial audit has been performed by the Office of the Auditor of State. The audit was conducted in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards issued by the Comptroller General of the United States. The auditor's unmodified opinion is included in the Financial Section of this report. This opinion indicates there was no limitation on the scope of the auditors' examination and the financial statements were presented fairly, in all material respects, in accordance with GAAP.

Additionally, the State's Single Audit report is audited by the Office of the Auditor of State to meet the requirements of the federal Single Audit Act Amendments of 1996 and related Office of Management and Budget (OMB) Circular A-133. The Single Audit report will be issued separately from the State's CAFR.

PROFILE OF THE GOVERNMENT

History

Ohio's first constitution was adopted in 1802, and Ohio entered the union in 1803. Ohio's present constitution was modified by a state constitutional convention in 1851 and has since been amended on numerous occasions. The Constitution establishes a state governmental structure similar to the federal model, with three separate branches of government — executive, legislative, and judicial.

Governmental Structure

The executive branch consists of the Governor and Lieutenant Governor, who are jointly elected, and four additional statewide elected officials: the Attorney General, the Auditor of State, the Secretary of State, and the Treasurer of State. All of these officials are elected to four-year terms. The State Board of Education is also part of the executive branch.

Approximately 100 departments, agencies, boards, and commissions are part of the executive branch of government and receive appropriations from the legislature, along with several judicial and legislative agencies. An organizational chart of state government can be found on pages xiv and xv.

The state legislature in Ohio is referred to as the General Assembly and consists of two separate chambers, the Senate, a 33-member body, and the House of Representatives, a 99-member body. Each member of the General Assembly is elected to represent the residents of a geographical district for a specified term. Members of Ohio's General Assembly are subject to term-limits; senators are restricted to serving two four-year terms, and representatives are restricted to serving four two-year terms. Each chamber has a presiding officer to call the chamber to order and direct the calendar of events. The presiding officer in the Senate is the President of the Senate, and the presiding officer of the House of Representatives is the Speaker of the House. A new General Assembly is convened in January of each odd-numbered year.

Within the Judicial system, the Supreme Court is the court of last resort in Ohio. Most of its cases are appeals from the twelve district courts of appeal. The chief justice and six justices are elected to six-year terms on a nonpartisan ballot.

Reporting Entity and Its Services

For financial reporting purposes, the State's reporting entity consists of (1) the primary government, (2) component units for which the primary government is financially accountable, and (3) other component units for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria set forth in Governmental Accounting Standards Board's (GASB) Statement 14, the Financial Reporting Entity, Statement 39, Determining Whether Certain Organizations are Component Units, an amendment to GASB 14 and Statement 61, the Financial Reporting Entity: Omnibus, an amendment to GASB 14, are used to determine the organizations for which the State is financially accountable. NOTE 1A to the financial statements explains more fully which financial activities are included in the State's reporting entity.

The State provides a wide range of services and support to its citizenry that are accounted for in the following functions or programs: primary, secondary and other education, higher education support, public assistance and Medicaid, health and human services, justice and public protection, environmental protection and natural resources, transportation, general government, community and economic development, workers'

compensation, lottery, unemployment compensation, tuition credits, and other business-type activities.

Retirement Systems

Employees of the primary government or its component units may be eligible to participate in the Ohio Public Employees Retirement System, the State Teachers Retirement System of Ohio, the State Highway Patrol Retirement System, or the Alternative Retirement Plan. Further information on the State's participation in the different retirement systems can be found in NOTE 9 to the financial statements.

Risk Management

As discussed in NOTE 1Q to the financial statements, the State's primary government is self-insured for claims under its traditional healthcare plan as well as its vehicle liability plan. Employee and public official fidelity bonding is placed with a private insurer. Tort liability is self-funded; however, several state agencies have also acquired private insurance. State owned buildings are covered under a catastrophic property policy for both real and personal property losses. All other liability risk to State property is self-funded on a pay-as-you-go basis. The State's primary government and its component units participate in a public entity risk pool, which is accounted for in the Workers' Compensation Enterprise Fund, for the financing of their workers' compensation liability.

Budgetary Control and Accounting System

Ohio's Constitution requires the State to have a balanced budget. The State's biennium budget begins on July 1 of odd-numbered years and ends 24 months later on June 30. The State maintains budgetary controls to ensure compliance with legal provisions embodied in the appropriated budget approved by the General Assembly. Budgets are entered on the statewide accounting system once the appropriations bill becomes law. Controls are maintained first at the agency level, with additional control at the fund and appropriation level to ensure that expenditures do not exceed authorized limits.

The State's non-GAAP budgetary financial statements are prepared on a modified cash basis of accounting. This means that revenues are recognized when cash is received and expenditures are recognized when cash is paid. Encumbrances, reservations of appropriation authority as of June 30, the end of the State fiscal year, are reflected as expenditures on the budgetary basis of accounting.

Budget-to-actual comparisons can be found in this report for each governmental fund for which an appropriated annual budget has been adopted. For the General Fund and the Job, Family and Other Human Services Special Revenue Fund, these comparisons are presented as part of the basic financial statements. For other budgeted non-major

governmental funds with appropriated annual budgets, budget-to-actual comparisons are in the non-major governmental funds section of the CAFR.

Additional discussion of the budgetary and GAAP bases of accounting is provided in NOTE 1 to the financial statements.

The accounting system maintains all non-GAAP budgetary basis transactions and most GAAP basis adjustments. In addition to the information obtained from the accounting system for financial reporting, selected financial information provided by the State's agencies and departments is compiled to complete the GAAP basis financial statements.

Differences between the two bases of accounting (GAAP vs. non-GAAP budgetary) include: 1) entity differences — the GAAP reporting entity may include organizations such as financing authorities and other component units that are not included in the State's budget; 2) basis differences — the GAAP basis results in the reporting of accruals while the non-GAAP budgetary basis results in the reporting of cash transactions; and 3) timing differences — for example, GAAP recognizes expenditures for payables for goods and services received, whereas the non-GAAP budgetary basis considers unliquidated encumbrances as expenditures. Reconciliation between the GAAP basis and non-GAAP budgetary basis fund balances is presented in NOTE 3 to the financial statements.

ECONOMIC OVERVIEW AND OUTLOOK

The Economy in 2015

The U.S. economy expanded for the sixth consecutive calendar year in 2015, extending to six and one half years the expansion that began in mid-2009. At 78 months in length as of December, the current expansion is the fourth longest of the eleven expansions since the end of World War II. By a number of important measures, however, this expansion is the weakest of the four expansions that have lasted at least as long.

Real GDP increased at an annual rate of 2.2% during the twenty-five quarters ending in the third quarter of 2015, compared with an average growth rate of 4.6% during the first twenty-five quarters of the three other expansions that lasted as long. GDP growth across the last four expansions lasting at least 25 quarters has steadily declined: average growth was 5.6% in the 1960s expansion, 4.8% in the 1980s expansion, 3.5% in the 1990s expansion, and now 2.2% in the current expansion. Similarly, real final sales increased at a 1.9% annual rate during the current period, compared with the average of 4.3% during the three previous expansions. Nonfarm payroll employment has increased at an annual rate of 1.3% in the current expansion, less than one half of

the average of 2.8% for the prior three long expansions. Real disposable personal income has increased at an annual rate of only 1.8% in the current expansion, compared with an average of 4.2% in the prior three long expansions.

During 2015, real GDP has remained volatile, rising at an annual rate of 0.6% in the first quarter and then increasing 3.9% in the second quarter but slowing to 2.1% growth in the third quarter. Major monthly indicators point to continued growth in the fourth quarter, although manufacturing activity is slowing. Personal consumption expenditures contributed 1.9 percentage points of the growth in real GDP from the fourth quarter of 2014 through the third quarter of 2015. Gross private domestic investment contributed 0.7 percentage points, and government spending contributed 0.25 percentage points. In an indication of the effect of the strengthening in the dollar on trade, exports made no contribution and imports, which are included among the other categories and subtracted separately, subtracted 0.64 percentage points.

Growth in personal consumption expenditures was concentrated in services, with the largest increase in health care, but spending on both durable and nondurable goods also increased. Spending on motor vehicles and parts added only marginally to overall growth despite the historically high pace of new auto sales because the increase in the level has been modest. Increases in spending on nondurable goods were spread widely across individual categories.

Investment in business equipment and intellectual property were the primary drivers of investment during the first three quarters of 2015, accounting for more than one half of the contribution of gross private domestic investment to real GDP. Investment in nonresidential structures subtracted slightly from real GDP growth. In the government sector, almost all of the contribution to growth was state and local gross investment. Federal government spending made almost no contribution to growth.

Real personal consumption expenditures, which increased at an annual rate of 1.9% during the first three quarters of 2015, were financed by a 3.5% rate of increase in real disposable personal income. Real wage and salary disbursements, which account for more than one half of disposable personal income, also increased at an annual rate of 4.1%. Approximately one-half of the increase in compensation reflected an increase in employment and hours worked. The saving rate increased from 4.7% of disposable personal income in the fourth quarter of 2014 to 5.2% in the third quarter of 2015 because spending increased by less than income.

Inflation remained tame in 2015. The Consumer price index increased at an annual rate of 0.5% from the fourth quarter of 2014 to the third quarter of 2015. As expected at the

beginning of 2015, the large decrease in the price of oil has temporarily but significantly suppressed broad measures of inflation. The underlying rate of inflation is higher, as indicated by the 2.0% annualized increase in the CPI excluding food and energy and the 2.4% annualized rate of increase in the Median CPI from the Federal Reserve Bank of Cleveland.

Monetary policy remained extraordinarily accommodative throughout 2015. The Federal Reserve continued to peg the federal funds rate near zero, but has set the stage for beginning to raise the rate at its December meeting. In light of recent improvements in labor markets, policy makers no longer view the extremely low rate target as necessary. Employment growth slowed somewhat but remained solid during the first ten months of 2015, and the unemployment rate fell from 5.6% at the end of 2014 to 5.1% in October 2015. Broader measures of labor market conditions indicate ongoing improvement but at a slower pace.

Fiscal policy continued to add directly to aggregate demand in Fiscal Year 2014, as federal outlays amounted to an estimated 20.6 percent of GDP, compared with receipts amounting to an estimated 18.2 percent of GDP. The budget deficit as a percent of GDP declined for the sixth straight year, reaching an estimated 2.5 percent of GDP, but remained large by historical standards during economic expansions.

In line with trends across the country, labor markets across Ohio strengthened further in 2015. Nonfarm payroll employment in Ohio increased by 58,400 jobs, or 1.3% annualized, from December 2014 to October 2015. In addition, the annual benchmark revisions to historical data released by the U.S. Bureau of Labor Statistics in early 2015 revealed stronger growth in employment during both 2013 and 2014 than had been previously reported. The December-to-December growth was revised up from 51,000 jobs to 76,700 jobs in 2013 and from 61,500 jobs to 72,000 jobs in 2014.

Most major sectors of the economy contributed to Ohio job growth year-to-date through October 2015. Growth was concentrated in educational and health services (+17,800), trade, transportations, and utilities (+17,500), manufacturing (+13,500), financial activities (+8,200), and leisure and hospitality (+5,400). Employment declined through October in construction (-2,400), professional and business services (-2,300), mining and natural resources (-1,600), and government (-1,400). Private sector Ohio employment increased by 59,800 jobs.

The Ohio unemployment rate decreased 0.7 percentage points from 5.1% in December 2014 to 4.4% in October 2015. The decrease during 2015 reflected an increase of 19,596, or 0.4%, in total employment, a decrease of 43,733, or 15.0%, in unemployed

people, and a decrease of 24,137, or 0.4%, in the labor force. As is the case across the country, at least a portion of the decrease in the labor force is attributable to demographic changes that affect decisions to retire or pursue higher education.

In response to the ongoing growth in labor markets, Ohio personal income increased at an annual rate of 2.6% in the first half of 2015. Personal income increased at an annual rate of 3.0% across the country. Wage and salary disbursements increased at an annual rate of 2.3%, compared with 5.0% across the country.

The six and a half year long economic expansion has produced rising state tax revenue in Ohio. General fund tax revenues exceeded the estimate for the fifth year in a row in FY 2015, coming in \$390 million over the estimate (1.9%). Sales tax revenue was over the estimate by \$51.2 million (0.5%), but the real strength was in the personal income tax, which exceeded the estimate by \$279 million (3.4%). Through the first five months of FY 2016, overall tax revenues are on target with the estimate, with an overage in the sales tax and a shortfall in the income tax approximately canceling each other out.

The Economic Outlook

The economy is likely to continue expanding in 2016, despite the recent weakening in the manufacturing and export sectors. Past expansions have been cut short by unexpected events that have often included some mix of rising inflation, tightening monetary policy, and an upward spike in energy costs – none of which has recently occurred or appears likely in the near-term. Leading economic indicators that in the past have provided some warning of oncoming recessions are instead almost uniformly signaling growth at least at a moderate pace.

The pace of overall economic growth is projected to remain about the same in 2016. Real GDP will expand by a projected 2.4% in 2015 and 2016, according to the November 2015 forecast by IHS Global Insight. The Ohio economy is also expected to grow in 2016, according to the November 2015 IHS Global Insight forecast. Employment is projected to grow 0.9% in 2016 after a projected 1.2% increase in 2015 on an average annual basis. Personal income growth is projected to accelerate from 2.9% in 2015 to 4.0% in 2016. Nominal Gross State Product is projected to stay steady at 3.9%.

As always, unexpected events will shape future economic performance. In the near-term, U.S. economic growth could be stronger than previously anticipated for a time before ultimately giving way to more moderate growth longer-term. The economy could benefit more than anticipated in the near-term from the following:

- Extraordinarily accommodative monetary policy, even though the Fed appears poised to soon begin slowly raising short-term interest rates;
- The high level of corporate profits and strong corporate balance sheets;
- Further improvements in consumer confidence and household balance sheets; and
- The substantial decrease in the price of oil, which on balance will enhance productivity and boost spending on non-energy goods and services.

However, risks to the economic outlook include:

- A more rapid than anticipated rise in interest rates by the Federal Reserve;
- Additional increases in the foreign exchange value of the dollar and an intensification of the economic slowdown overseas; and
- An inability of federal lawmakers to implement fiscal and regulatory policies that foster long-term economic growth, coupled with large direct and indirect costs and economic distortions related to recent and pending health care, environmental, and financial services regulations.

MAJOR INITIATIVES AND PROJECTS

Transforming Ohio For Growth: Stronger. Together.

Consistent with state law, the Governor's biennial Executive Budget for fiscal years 2016 and 2017 was released in February of 2015 and introduced in the General Assembly as H.B. 64. After extended hearings and review, the 2016-17 biennial appropriations budget was passed by the General Assembly and signed (with selective vetoes) by Governor John Kasich on June 30, 2015.

Among the major policy initiatives undertaken by the Kasich Administration in conjunction with the biennial operating budget for fiscal years 2016 and 2017:

A Balanced Budget: In 2015, Ohio passed a balanced budget that was built with continued focus on conservative economic forecasts, conservative revenue estimates and the full allocation of funds necessary to cover our expected program costs and obligations.

The Governor's guiding principle was the maintenance and protection of the strong financial position our state presently enjoys. Ohio's enacted budget is balanced, but also structurally balanced, ensuring that ongoing revenues are sufficient to cover ongoing expenses.

Our strong finances and fiscal discipline have allowed us to reform our tax system, reduce the personal income rates and small business taxes in order to improve Ohio's jobs climate and economic competitiveness.

Reducing Taxes on Small Businesses: The budget continues the exemption of 75% of the first \$250,000 in business income for "flow-through" businesses and then increases the exemption to 100% for tax year 2016 (FY 2017). For "flow-through" business income in excess of \$250,000, a flat tax of 3% now applies, rather than the higher marginal tax rates under prior law. These provisions are beneficial to many small businesses that receive flow through income that is taxed under personal income tax.

Lower Income Taxes, Again: Personal income tax rates will be cut for all Ohio taxpayers by 6.3 percent. This means Ohio's top marginal income tax rate will have been cut from 5.925 percent when Gov. Kasich came into office in 2011 to 4.997 percent in 2016. With the \$1.9 billion in net tax cuts in this budget, Ohio will have reduced taxes by approximately \$5 billion during the past five years. The personal income tax rates are at the lowest level since 1982.

Continued Strong Support for K-12 Education: For the second straight budget, Ohio will significantly increase funding to K-12 education — providing record funding for K-12 education. Additionally, by building on a practice Kasich first proposed two years ago and giving greater consideration to the income of local residents, Ohio will more effectively drive state support to school districts with a series of carefully targeted aid categories.

Making College More Affordable: The budget will freeze tuition at two- and four-year state-supported schools, assuring that Ohio remains a leader in holding down the growth of tuition and general fees. A new nine-member Task Force on Affordability and Efficiency is working to help public colleges and universities examine ways to reduce costs. Following the work of the Task Force, Ohio's public colleges and universities will conduct an efficiency review to improve efficiencies and reduce costs.

Better Support for Ohioans with Disabilities: The budget makes historic new investments to ensure that every Ohioan with a developmental disability who wants to live and work in the community can do so. This budget invests \$286 million over two years to increase home- and community-based services, support community work opportunities and create new options for individuals who want to leave institutions.

Combating Infant Mortality: It is not acceptable that each year more than 1,000 Ohio babies die before their first birthday. Ohio has one of the worst infant mortality rates in

the country. The budget provides enhanced maternal services through Medicaid health plans for every woman living in neighborhoods most at risk for poor infant health outcomes. Working to engage local community leaders, health plans will connect women in high-risk neighborhoods to health care services.

Transforming Welfare: The budget creates a person-centered case management system where services are wrapped around an individual's needs in order to better support them as they move toward self-sufficiency. New initiatives will initially focus on those ages 16-24 in order to have the greatest impact and prevent the poverty cycle at an early age. To help in the effort, the budget also works to soften the benefit "cliffs" by allowing families to keep subsidized child care on a gradually reducing scale up to 300 percent of the federal poverty level.

Reducing Recidivism and Treating Addiction in Ohio's Prisons: Approximately 80 percent of Ohio's prison inmates have past histories of drug and alcohol addiction and those who don't overcome their addiction have a higher likelihood of re-entering prison after their release. By leveraging the clinical expertise of the Department of Mental Health and Addiction Services, Ohio can get inmates the help they need to overcome their addiction while they are serving their sentences and provide a seamless transition of services and supports to ensure sustained recovery after their release. In addition, the state will begin transferring low-level, non-violent inmates with addictions to serve their short-term sentence in a community treatment facility

Raining Day Fund Grows: At the end of FY15, the Budget Stabilization Fund (BSF) balance was increased to just over \$2 billion or approximately 6.4% of FY15 GRF revenues. A provision in the operating budget bill raised the statutory BSF ceiling from 5% of the prior year's GRF revenues to 8.5% of revenues.

The BSF is Ohio's rainy day savings account, a reserve balance set aside in good economic times to protect the State's budget from cyclical changes in revenues and expenditures should the economy become weakened unexpectedly.

Mid-Biennium Review: During Fiscal Year 2016, the Office of Budget and Management is leading state agencies through a Mid-Biennium Review (MBR) process, a thorough analysis of state agency budgets, operations and programs. The Kasich Administration initiated the first MBR process in 2012, and the two previous MBRs produced hundreds of recommendations for efficiencies and reforms to reduce the cost of government and revitalize Ohio's ability to keep and attract jobs.

Capital Budget: Early in 2016, the Governor is expected to introduce his capital budget proposal for the 2017 and 2018 fiscal biennium, identifying spending priorities to maintain and improve the state's educational and public service infrastructure in ways that help keep Ohio a leader in the competitive world economy.

AWARDS AND ACKNOWLEDGEMENTS

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Ohio for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2014.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

In conclusion, I wish to express my appreciation to the Financial Reporting staff of OBM's State Accounting Section and staffs of the various state agencies whose time and dedicated efforts made this report possible. I encourage you to access Ohio's Comprehensive Annual Financial Report at <http://www.obm.ohio.gov>.

Respectfully submitted,

Timothy S. Keen

INDEPENDENT AUDITOR'S REPORT

The Honorable John Kasich, Governor
 State of Ohio
 Columbus, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Ohio (the State), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of the following organizations which reflect the percentages of total assets and expenditures/expenses/deductions indicated for the related opinion units:

Opinion Unit	Organization	Percent of Opinion Unit's Total	
		Assets	Expenditures /Expenses /Deductions
Governmental Activities	Treasurer of State Lease Rental Special Obligations	0%	1%
Business-Type Activities (BTA)	Ohio Bureau of Workers' Compensation and Tuition Trust Authority	94%	40%
BTA / Workers' Compensation	Ohio Bureau of Workers' Compensation	100%	100%
Aggregate Discretely Presented Component Units	Bowling Green State University; Central State University; Cleveland State University; Columbus State Community College; JobsOhio; Kent State University; Miami University; Ohio State University; Ohio University; Shawnee State University; University of Akron; University of Cincinnati; University of Toledo; Wright State University; and Youngstown State University.	88%	91%
Aggregate Remaining Fund Information	Police and Fire Pension Fund, Public Employees Retirement System, School Employees Retirement, State Highway Patrol Retirement System, State Teachers Retirement System, State Treasury Asset Reserve of Ohio, Treasurer of State Lease Rental Special Obligations, Tuition Trust Authority, and Variable College Savings Plan.	97%	83%

Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amount included for these independently audited organizations, is based solely on the report of other auditors. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement. The other auditors audited the financial statements of JobsOhio, which represents six percent of the total assets and seven percent of the total expenses of the aggregate discretely presented component units, in accordance with auditing standards generally accepted in the United States of America and not in accordance with *Government Auditing Standards*.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the State's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the State's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Ohio, as of June 30, 2015, and the respective changes in financial position and where applicable, cash flows thereof and the respective budgetary comparisons for the General and Job, Family and Other Human Services funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, during the year ended June 30, 2015, the State adopted Governmental Accounting Standards No. 67, *Financial Reporting for Pension Plans*, Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's Discussion and Analysis*, *Schedules for Infrastructure Assets Accounted for using the Modified Approach*, and *Schedules of Net Pension Liability and Employer Contributions* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we

obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the State of Ohio's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied to the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the State's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance.

Dave Yost
Auditor of State
Columbus, Ohio

State of Ohio

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2015

(Unaudited)

Introduction

This section of the State of Ohio's annual financial report presents management's discussion and analysis of the State's financial performance during the fiscal year ended June 30, 2015. The management's discussion and analysis section should be read in conjunction with the preceding transmittal letter and the State's financial statements, which follow.

Financial Highlights

Government-wide Financial Statements

During fiscal year 2015, net position of the State's primary government decreased by \$1.6 billion, and ended fiscal year 2015 with a balance of \$28.6 billion. Net position of the State's component units decreased by \$5.14 billion, and ended fiscal year 2015 with a balance of \$9.56 billion. See additional discussion beginning on page 8.

Fund Financial Statements

Governmental funds reported a combined ending fund balance of \$13.43 billion that was comprised of \$129.8 million in nonspendable, \$8.89 billion restricted for specific purposes, \$1.41 billion committed, \$2.57 billion in assigned, and \$410.9 million in unassigned. See additional discussion beginning on page 11.

As of June 30, 2015, the General Fund's fund balance was approximately \$5 billion, including \$49.7 million in nonspendable, \$1.15 billion in restricted, \$803.6 million in committed, \$2.59 billion in assigned, and \$411.2 million in unassigned. The General Fund's fund balance decreased by \$688.2 million (exclusive of a \$3.6 million decrease in inventories) or 12.1 percent during fiscal year 2015. See additional discussion beginning on page 12.

Proprietary funds reported net position of \$9.28 billion, as of June 30, 2015, an increase of \$337.6 million since June 30, 2014. This increase is largely due to the net increase of \$590.5 million in the Unemployment Compensation Fund. See additional discussion beginning on page 13.

Capital Assets

The carrying amount of capital assets for the State's primary government increased to \$26.73 billion at June 30, 2015. The majority of the \$754.4 million increase during fiscal year 2015 was from the acquisition of machinery and equipment and construction-in-progress projects. See additional discussion beginning on page 14.

Long-Term Debt — Bonds and Notes Payable and Certificates of Participation Obligations

Overall, the carrying amount of total long-term debt for the State's primary government decreased \$33.8 million or .2 percent during fiscal year 2015, for an ending balance of \$17.7 billion. During the year, the State issued, at par, \$1.37 billion of long-term debt of which \$316.9 million was refunding bonds. See additional discussion beginning on page 15.

Overview of the Financial Statements

This annual report consists of three required components: management's discussion and analysis, basic financial statements, including the accompanying notes to the financial statements, and required supplementary information. In addition, this report includes an optional section that contains combining statements and schedules for the nonmajor governmental funds, nonmajor proprietary funds, fiduciary funds, and nonmajor discretely presented component unit funds.

The basic financial statements are comprised of the government-wide financial statements and fund financial statements. The figure on the following page summarizes the major features of these statements.

Major Features of the State of Ohio's Government-wide and Fund Financial Statements				
	Government-wide Statements	Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire State government (except fiduciary funds) and the State's component units	The activities of the State that are not proprietary or fiduciary, such as general government, transportation, justice and public protection, etc.	Activities the State operates similar to private businesses, such as the workers' compensation insurance program, lottery, tuition credit program, etc.	Instances in which the State is the trustee or agent for someone else's resources
Required Financial Statements	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Activities 	<ul style="list-style-type: none"> • Balance Sheet • Statement of Revenues, Expenditures and Changes in Fund Balances 	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Revenues, Expenses and Changes in Fund Net Position • Statement of Cash Flows 	<ul style="list-style-type: none"> • Statement of Fiduciary Net Position • Statement of Changes in Fiduciary Net Position
Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both financial and capital, and short-term and long-term
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Government-wide Financial Statements – Reporting the State as a Whole

The two government-wide financial statements, prepared on a basis and focus similar to those used by private-sector companies, report the State's net position and how it has changed. Net position — the difference between the State's assets/deferred outflows of resources and liabilities/deferred inflows of resources — is one way to measure the State's financial health, or position. Over time, increases or decreases in the State's net position indicate whether its financial health has improved or deteriorated, respectively. However, a reader should consider additional nonfinancial factors, such as changes in the State's economic indicators and the condition of the State's highway system, when assessing the State's overall financial status.

These statements, found on pages 20 through 23 of this report, are divided into three categories as follows.

Governmental Activities — Most of the State's basic services are reported under this category, such as primary, secondary and other education, higher education support, public assistance and Medicaid, and transportation. Taxes, federal grants, and charges for services, fees, fines and forfeitures finance most of these activities.

Business-type Activities — The State charges fees to customers to help cover the costs of certain services it provides. The State reports the following programs and activities as business-type: workers' compensation insurance program, lottery operations, unemployment compensation program, guaranteed college tuition credit program, and the Auditor of State's governmental auditing and accounting services.

Component Units — The State presents the financial activities of the Ohio Facilities Construction Commission, Ohio State University, and other entities as discretely presented component units under a separate column in the government-wide financial statements. The Buckeye Tobacco Settlement Financing Authority is presented as a blended component unit with its activities blended and included under governmental activities. Although legally separate, the State is financially accountable for its component units. For further explanation and a complete list of component units, see NOTE 1A. to the financial statements.

Fund Financial Statements – Reporting more detail about the State’s most significant funds

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. State law and bond covenants mandate the use of some funds. The Ohio General Assembly establishes other funds to control and manage money for particular purposes or to show that the State is properly using certain taxes and grants. The State employs fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The basic fund financial statements can be found on pages 24 through 45 of this report while the combining fund statements and schedules can be found on pages 157 through 233. The State has the following three kinds of funds:

Governmental Funds — Most of the State’s basic services are included in governmental funds, which focus on how cash and other financial assets that can readily be converted to cash flow in and out (i.e., near-term inflows and outflows of spendable resources) and the balances remaining at year-end that are available for spending (i.e., balances of spendable resources). Consequently, the governmental fund financial statements provide a detailed short-term view that helps the financial statement reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the State’s programs. Because these statements do not encompass the long-term focus of the government-wide statements, a reconciliation schedule, which follows each of the governmental fund financial statements, explains the relationship (or differences) between them.

The State’s governmental funds include the General Fund, Job, Family and Other Human Services Special Revenue Fund, and the Buckeye Tobacco Settlement Financing Authority Revenue Bonds Debt Service Fund, all of which are considered major funds. Data from the other governmental funds, which are classified as nonmajor funds, are combined into an aggregated presentation under a single column on the basic governmental fund financial statements. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

For budgeted governmental funds, the State also presents budgetary comparison statements and schedules in the basic financial statements and combining statements, respectively, to demonstrate compliance with the appropriated budget. The State’s budgetary process is explained further in NOTE 1D. to the financial statements.

Proprietary Funds — Services for which the State charges customers a fee are generally reported in proprietary funds. Financial statements for the proprietary funds, which are classified as enterprise funds, provide both long- and short-term financial information.

Presented under separate columns on the three statements is information for the Workers’ Compensation, Lottery Commission, and Unemployment Compensation enterprise funds, all of which are considered to be major funds. Data from the other enterprise funds, which are classified as nonmajor funds, are combined into an aggregated presentation under a single column on the statements. Individual fund data for each of these nonmajor proprietary funds is provided in the form of combining statements elsewhere in this report.

The enterprise funds are the same as the State’s business-type activities reported in the government-wide financial statements, but the proprietary fund financial statements provide more detail and additional information, such as information on cash flows.

Fiduciary Funds — The State is the trustee, or fiduciary, for assets that — because of a trust arrangement — can only be used for the trust beneficiaries. The State is responsible for ensuring the assets reported in these funds are used for their intended purposes. The State Highway Patrol Retirement System Pension Trust Fund, Variable College Savings Plan Private-Purpose Trust Fund, STAR Ohio Investment Trust Fund, and the agency funds are presented on two statements. Fiduciary information is excluded from the government-wide financial statements because the State cannot use these assets to finance its operations.

Discretely Presented Component Unit Statements (Component Unit)

Following the fund financial statements, the State includes statements for its major discretely presented component units within the basic financial statements section. Nonmajor discretely presented component units are also presented in aggregation under a single column in the component unit financial statements and in combining statements elsewhere in this report.

Notes to the Financial Statements

The basic financial statements section includes notes that more fully explain the information in the government-wide and fund financial statements; the notes provide more detailed data that are essential to a full understanding of the data presented in the financial statements. The notes can be found on pages 50 through 139 of this report.

Required Supplementary Information

Following the notes is a section of required supplementary information that discusses the assessed condition and estimated and actual maintenance and preservation costs of the state’s highway and bridge infrastructure assets

that are reported using the modified approach. Limited in application to a government's infrastructure assets, the modified approach provides an alternative to the traditional recognition of depreciation expense. Also displayed in the required supplementary information are various schedules disclosing the State's share of pension obligation, employer contributions required as compared to employer contributions actually paid, and covered payroll, for the various retirement systems in which the State participates. Required supplementary information can be found on pages 142 through 153 of this report.

FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

Net Position. During fiscal year 2015, as shown in the table below, the combined net position of the State's primary government decreased by \$1.6 billion or 5.3 percent. Net position reported for governmental activities decreased approximately \$1.94 billion or 9.1 percent, compared to the net position on July 1, 2014, and business-type activities increased \$337.6 million, or 3.8 percent. Condensed financial information derived from the Statement of Net Position for the primary government is presented in the following table.

	Net Position					
	As of June 30, 2015 and 2014					
	<i>(dollars in thousands)</i>					
	As of June 30, 2015			As of June 30, 2014

Total Net Position.....	\$ 19,317,816	\$ 9,278,365	\$ 28,596,181	\$ 21,254,955	\$ 8,940,722	\$ 30,195,677

As of June 30, 2015, the primary government's net investment in capital assets (e.g., land, buildings, infrastructure, and construction-in-progress) was \$23.56 billion. Restricted net position was approximately \$14.38 billion, resulting in a \$9.34 billion deficit. Net position is restricted when constraints placed on their use are either 1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or 2) legally imposed through constitutional or enabling legislation. Unrestricted net position consists of net position that does not meet the definition of "restricted" or "net investment in capital assets". The State's Budget Stabilization Fund balance of \$1.48 billion at June 30, 2015, is included within unrestricted net position.

The government-wide Statement of Net Position reflects a \$9.18 billion deficit for unrestricted governmental activities, which is primarily attributable to the following two reasons:

(1) The State of Ohio, like many other state governments, issues general and special obligation debt, the proceeds of which benefit local governments and component units. The proceeds are used to build facilities for public-assisted colleges and universities and local school districts and finance infrastructure improvements for local governments. The policy of selling general obligation and special obligation bonds for these purposes has been the practice for many years. Of the \$11.06 billion of outstanding general obligation and special obligation debt at June 30, 2015, \$8.1 billion is attributable to debt issued for state assistance to component units (Ohio Facilities Construction Commission and the colleges and universities) and local governments. The balance sheets of component unit and local government recipients reflect ownership of the related constructed capital assets without the burden of recording the debt. Unspent proceeds related to these bond issuances are included on the Statement of Net Position as restricted net position. By issuing such debt, the State is left to reflect significant liabilities without the benefit of recording the capital assets constructed with the proceeds from the debt issuances.

(2) During fiscal year 2015, the State implemented the provisions of GASB Statement No. 67, *Financial Reporting for Pension Plans*, GASB Statement No. 68, *Accounting and Financial Reporting for Pension*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date (an amendment of GASB Statement No. 68)*, related to the measurement and reporting of the annual costs and long-term obligations associated with the pension benefits provided to State employees. These new standards require the State to record a proportionate share of the net pension liability of the associated pension plans. As a result of implementing these standards, the State is reporting a net pension asset, net pension liability, deferred outflows of resources, and deferred inflows of resources related to pension on the accrual basis of accounting. This implemen-

tation also had the effect of restating net position at June 30, 2014 (See NOTES 2, 9, 14, 15, and 18 for more information).

Condensed financial information derived from the Statement of Activities, which reports how the net position of the State's primary government changed during fiscal years 2015 and 2014, follows.

**Changes in Net Position
For the Fiscal Years Ended June 30, 2015 and 2014**

(dollars in thousands)

	Fiscal Year 2015			Fiscal Year 2014		
	Governmental Activities	Business-Type Activities	Total Primary Government	Governmental Activities	Business-Type Activities	Total Primary Government
Program Revenue:

Governmental Activities

Expenses exceeded revenues during fiscal year 2015 for governmental activities. Revenues of \$55.48 billion for fiscal year 2015 were \$3.81 billion higher than those reported for fiscal year 2014. General taxes (including taxes restricted for transportation purposes) comprised 45.7 percent of fiscal year 2015 total revenues and increased by 6 percent compared to fiscal year 2014. Operating grants, contributions and restricted investment income, making up 43.2 percent of total revenues, increased by 11.7 percent compared to fiscal year 2014. Expenses for fiscal year 2015 increased \$3.55 billion or 6.7 percent from fiscal year 2014, as a result of an overall increase in the Medicaid caseload and programmatic costs during fiscal year 2015. Fiscal year 2015 net transfers of \$1.08 billion reflect an increase of 13.2 percent over fiscal year 2014.

The following chart illustrates revenues by source of governmental activities as percentages of total reported for the fiscal year ended June 30, 2015.

**Governmental Activities — Sources of Revenue
Fiscal Year 2015**

Total FY 15 Revenue for Governmental Activities = \$55.48 Billion

The following table presents the total expenses and net cost of each of the State's governmental programs for the fiscal year ended June 30, 2015, with comparative numbers from June 30, 2014. The net cost (total program expenses less revenues generated by the program) represents the financial burden that was placed on the State's taxpayers by each of these programs. This cost is essentially funded with the State's general revenues from taxes, tobacco settlement, and escheat property.

Business-Type Activities

The State’s enterprise funds reported net position of \$9.28 billion, as of June 30, 2015, as compared to \$8.94 billion in net position, as of June 30, 2014, an increase of \$337.6 million, or 3.8 percent. The Unemployment Compensation Fund reported a \$590.5 million increase in net position during fiscal year 2015 as a result of a decline in the unemployment rate in Ohio and consequently a decline in benefit expense.

The chart below compares program expenses and program revenues for business-type activities. Additional analysis of the Business-Type Activities’ revenues, expenses, and other changes in net position is included with the discussion of the Proprietary Funds beginning on page 13.

**Business-Type Activities — Expenses and Program Revenues
Fiscal Year 2015**

FINANCIAL ANALYSIS OF THE STATE’S FUNDS

The State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

Governmental funds reported the following results, as of and for the fiscal years ended June 30, 2015 and June 30, 2014 (dollars in thousands).

	As of and for the Fiscal Year Ended June 30, 2015

General Fund

The main operating fund of the State is the General Fund. During fiscal year 2015, General Fund revenue increased by \$1.88 billion and expenditures increased by \$2.97 billion. Increases of \$785.6 million in sales tax revenue, primarily from a rate increase and strong growth in revenues from the tax on managed care premiums for Medicaid Health Insuring Corporations, \$629.3 million in federal government revenue, related to Medicaid spending, and \$496.4 million in personal income tax revenue all contributed to the rise in revenue. The increase in expenditures is primarily due to increases in program spending for Primary, Secondary and Other Education and Public Assistance and Medicaid of \$452 million and \$2.33 billion, respectively. Increase in Medicaid spending constituted the largest portion of the increase in the Public Assistance and Medicaid category. Other sources and uses showed a decrease of \$268 million primarily from a decrease in bond issuance proceeds. Total fund balance at June 30, 2015 decreased by \$688.2 million (exclusive of a \$3.6 million decrease in inventories) or 12.1 percent. The State's Budget Stabilization Fund balance of \$1.48 billion is included within unassigned fund balance.

General Fund Budgetary Highlights

The State ended the second year of its 2014-15 biennial budget on June 30, 2015, with a General Fund budgetary fund balance (i.e., cash less encumbrances) of \$4.99 billion. Total budgetary sources for the General Fund (including \$1.59 billion in transfers from other funds) in the amount of \$37.71 billion were above final estimates by \$488.1 million or 1.3 percent during fiscal year 2015. Total tax receipts were above final estimates by \$390.2 million or 1.6 percent primarily as a result of the positive performance of the personal income tax quarterly estimated payments.

Total budgetary uses for the General Fund (including \$2.05 billion in transfers to other funds) in the amount of \$38.48 billion were below final estimates by \$1.79 billion or 4.5 percent for fiscal year 2015. The majority of lower than appropriated spending came from Medicaid, economic development, revitalization, and public works programs. There was no budget stabilization designation at June 30, 2014, for use in balancing the final fiscal year 2015 budget.

The main appropriations act (Act) for the 2014-15 biennium for the General Revenue Fund (GRF), the largest, non-GAAP, budgetary-basis operating fund included in the State's General Fund, was passed by the General Assembly and signed (with selective vetoes) by the Governor on June 30, 2013. Reflecting a stated focus on job creation and continued spending restraint, and based on a conservative economic forecast, the Act provides for GRF appropriations of approximately \$31.7 billion in fiscal year 2015, a 4.7 percent increase from fiscal year 2014 appropriations.

GRF appropriations for major program categories in fiscal year 2015 reflect the following increases relative to 2014 appropriations:

- 6.2 percent for Medicaid;
- 5.8 percent for primary and secondary education;
- 2.1 percent for higher education;
- .3 percent for mental health and addiction services and developmental disabilities; and
- .2 percent for corrections and youth services.

The Act reflects tax reductions and related adjustments of major State taxes, primarily in personal income and sales and use taxes. These reductions and adjustments were projected to reduce GRF revenues by approximately \$771 million in fiscal year 2015. The Act also implements a new school funding formula and allocates a portion of State public higher education funding to institutions based on their graduation rates.

Subsequent to the passage of the Act, the State Controlling Board approved an increase to federal Medicaid appropriations by approximately \$2 billion during fiscal year 2015. These additional federal appropriations were authorized to support the federally-authorized expansion of the Medicaid program to cover those with incomes up to 138 percent of the federal poverty level using 100 percent federal funds in fiscal year 2015.

On March 12, 2014, the Governor announced a series of initiatives resulting from a "mid-biennium review" (MBR) of the 2014 and 2015 biennium with the stated purpose of keeping Ohio moving forward. The proposals were introduced in the General Assembly in March 2014 as fourteen separate pieces of legislation. Seven of the fourteen bills were enacted by the General Assembly in May and June 2014 and addressed subjects of elementary and secondary education, higher education, personal income tax reductions and adjustments, workforce, and human services. The MBR also authorized a transfer from the GRF to a Medicaid reserve fund. Please see the Letter of Transmittal within the Introductory Section for additional information regarding the MBR.

The Ohio Constitution prohibits the State from borrowing money to fund operating expenditures in the GRF. Therefore, by law, the GRF's budget must be balanced so that appropriations do not exceed available cash receipts and cash balances for the current fiscal year.

The State ended fiscal year 2015 with a GRF cash balance of \$1.71 billion and a GRF budgetary fund balance of \$1.29 billion. In addition to meeting the State's statutory target to maintain an ending fund balance reflecting one-half of one percent of fiscal year 2015 GRF revenues, the State transferred \$425.5 million into the Budget Stabilization Fund (BSF) in early fiscal year 2016. The Medicaid Reserve Fund also transferred \$101.1 million to the BSF, bringing the BSF's cash balance to \$2.01 billion by the end of July 2015.

Other Major Governmental Funds

The Job, Family and Other Human Services Fund had a fund balance of \$304.3 million at June 30, 2015, a decrease of \$36.1 million, or 10.6 percent, compared to fiscal year 2014. Federal Government revenue increased by \$1.26 billion, largely attributable to an overall increase in the Medicaid caseload and programmatic costs. Partially offsetting this increase is a decrease of \$87.7 million in revenue collected from license, permits and fees.

The increase in Public Assistance and Medicaid expenditures of \$980.4 million is primarily attributable to an overall increase in the Medicaid expansion population through the federal Affordable Care Act. A \$27.6 million decrease in net Other Financing Sources over the prior fiscal year is largely attributable to a reduction in bonds and notes issued in fiscal year 2015 over fiscal year 2014 also contributed to the decline in the fund balance.

The fund balance for the *Buckeye Tobacco Settlement Financing Authority Revenue Bonds Fund*, as of June 30, 2015, totaled approximately \$4.86 billion dollars, a decrease of \$107.7 million or 2.2 percent since June 30, 2014. Debt Service expenditures increased by \$1.4 million during fiscal year 2015 as a result of scheduled principal and interest payments on outstanding bonds. Additionally, Tobacco Settlement Receipts decreased by \$6.7 million from June 30, 2014, which resulted in the decreased fund balance at June 30, 2015.

Proprietary Funds

Major Proprietary Funds

The State's proprietary fund financial statements report the same type of information found in the business-type activities portion of the government-wide financial statements, but in a slightly different format.

The *Workers' Compensation Fund's* net position decreased \$191.9 million to \$9.27 billion at June 30, 2015. During the fiscal year, investment income decreased \$2.5 billion, largely due to an approximately 11.2 percent decrease in the net return on its investment portfolio. The healthy net position brought over from the prior year was enough to mostly offset the decreased income thus resulting in only a two percent decrease in net position.

For fiscal year 2015, the *Lottery Commission Fund* reported \$1.07 billion in net income before transfers of approximately \$1.09 billion. The \$40.6 million decrease in the fund's net position to approximately \$261.4 million, as of June 30, 2015, was largely attributable to a \$223 million increase in video lottery terminal commission expenses from the opening of two new racinos and a \$177.3 million increase in prizes expense connected with increased ticket sales. In addition, the Commission transferred a record high amount to the Lottery Profits Education Fund. Partly offsetting these expense and transfer increases was a \$489.3 million increase in charges for sales and services revenue that was primarily due to increased video lottery terminal revenue at of the two new racinos.

The \$590.5 million increase in net position in the *Unemployment Compensation Fund* is primarily due to a continued decline in the unemployment rate. The unemployment rate in Ohio dropped from an average of 6.6 percent in fiscal year 2014 to an average of 5.3 percent in fiscal year 2015. The decrease in the unemployment rate caused the State's benefits and claims expense to decrease by \$419.9 million or 29.1 percent from the previous fiscal year. While the benefits and claims expense decreased, the State also received less money from the federal government. During fiscal year 2015, the State received \$17.5 million of federal funding compared to \$293.9 million in fiscal year 2014 resulting in a 94 percent decrease. Contributing to the overall increase in net position is a \$402.6 million gain on extinguishment of debt (for the Federal Unemployment Tax Act credit, see NOTE 2).

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2015, and June 30, 2014, the State had invested \$26.73 billion and \$25.98 billion, respectively, net of accumulated depreciation of \$3.83 billion and \$3.63 billion, respectively, in a broad range of capital assets, as detailed in the table on the following page.

The total increase in the State's capital assets, net of accumulated depreciation, for the current fiscal year was 2.9 percent (a 2.8 percent increase for governmental activities and an 18.9 percent increase for business-type activities). Depreciation expense increased 10.9 percent for governmental activities.

The State completed construction on a variety of projects at various state facilities during fiscal year 2015 totaling approximately \$216 million, as compared with \$481.9 million in the previous fiscal year. As is further detailed in NOTE 20D of the notes to the financial statements, the State had \$239.5 million in major construction commitments (unrelated to infrastructure), as of June 30, 2015, as compared with \$172.3 million for 2014.

Modified Approach

For reporting its highway and bridge infrastructure assets, the State has adopted the use of the modified approach. To use this approach, a government must maintain an asset management system and demonstrate that the infrastructure is being preserved approximately at or above an established condition level. Under this approach, infrastructure is not depreciated, and maintenance and preservation costs are expensed. Infrastructure assets accounted for using the modified approach include approximately 43,198 lane miles of highway and approximately 106.2 million square feet of deck area that comprises 14,229 bridges for which the State has the responsibility for ongoing maintenance.

Ohio accounts for its pavement network in two subsystems: Priority and General. It is the State's goal to allow no more than 25 percent of the total lane-miles reported for each of the priority and general subsystems to be classified with a "poor" condition rating. The most recent condition assessment, completed by the Ohio Department of Transportation (ODOT) for fiscal year 2015, indicates that only 1.2 percent and .6 percent of the priority and general subsystems, respectively, were assigned a "poor" condition rating. For fiscal year 2014, only 1.1 percent and .8 percent of the priority and general subsystems, respectively, were assigned a "poor" condition rating.

For the bridge network, it is the State's intention to allow no more than 15 percent of the total number of square feet of deck area to be in "fair" or "poor" condition. The most recent condition assessment, completed by ODOT for fiscal year 2015, indicates that only 2.4 percent of the number of square feet of bridge deck area was considered to be in "fair" and "poor" conditions. For fiscal year 2014, 3.4 percent of the number of square feet of bridge deck area was considered to be in "fair" and "poor" conditions.

For fiscal year 2015, total actual maintenance and preservation costs for the pavement network were \$887.8 million, compared to estimated costs of \$769.7 million, while total actual maintenance and preservation costs for the bridge network was \$571.7 million, \$37.1 million above estimate. For the previous fiscal year, total actual maintenance and preservation costs for the pavement network were \$826.9 million, compared to estimated costs of \$771.7 million, while total actual maintenance and preservation costs for the bridge network was \$528 million, \$22.6 million below estimate. Overall, the State's costs for actual maintenance and preservation for highway infrastructure assets have exceeded estimates over the past two years due to steadily increasing underlying costs for the materials and labor associated with infrastructure projects.

More detailed information on the State's capital assets can be found in NOTE 8 to the financial statements and in the Required Supplementary Information section of this report.

Debt — Bonds and Notes Payable and Certificates of Participation Obligations

The State's general obligation bonds are backed by its full faith and credit. Revenue bonds and notes are secured with revenues pledged for the retirement of debt principal and the payment of interest. Special obligation bonds are supported with lease payments from tenants of facilities constructed with the proceeds from the bonds. Under certificate of participation (COPs) financing arrangements, the State is required to make rental payments (subject to appropriations) that approximate interest and principal payments made by trustees to certificate holders.

During fiscal year 2015, the State issued, at par, \$754.3 million in general obligation bonds, \$218.1 million in revenue bonds, \$316.6 million in special obligation bonds, and \$76.2 million in certificates of participation. Of the general obligation bonds, revenue bonds, and special obligation bonds issued, at par, \$212.3 million, \$62.3 million, and \$42.3 million, respectively, were refunding bonds. The total decrease in the State's debt obligations for the current fiscal year, as based on carrying amount, was .2 percent, all in governmental activities.

As of June 30, 2015, and June 30, 2014, the State had total debt of approximately \$17.7 billion and \$17.73 billion, respectively, as shown in the table below.

Bonds and Notes Payable and Certificates of Participation			
As of June 30, 2015 and 2014

Credit Ratings

Both the State's general and special obligation bonds carry a "stable" credit outlook from all three crediting rating agencies. A credit outlook is an indication of the pressure on the rating over the near-to-intermediate term and should not be viewed as a precursor to a rating change.

The ratings and rating outlooks in effect from time to time reflect only the views of the particular rating organization. An explanation of its view of the meaning and significance of its rating or outlook may be obtained from the respective rating agency. Generally, the rating agencies base their rating on submitted information and on their own investigations, studies, and assumptions. There can be no assurance that the ratings or outlooks assigned will continue for any given time. Rating agencies may lower or withdraw a rating at any time, if in its judgment circumstances so warrant.

The State's bonds and notes are rated as follows:

Limitations on Debt

Section 17 of Article VIII of the Ohio Constitution, approved by Ohio voters in November 1999, establishes an annual debt service "cap" applicable to future issuances of direct obligations payable from the GRF or net state lottery proceeds. Generally, new obligations may not be issued if debt service for any future fiscal year on those new and the then outstanding bonds of those categories would exceed five percent of the total of estimated GRF revenues plus net state lottery proceeds for the fiscal year of issuance.

Those direct obligations of the State include general obligation and special obligation bonds that are paid from the State's GRF, but exclude general obligation debt for Third Frontier Research and Development, development of sites and facilities, and veterans compensation, and general obligation bonds payable from non-GRF funds (such as highway bonds that are paid from highway user receipts). Pursuant to the implementing legislation, the Governor has designated the Director of the Ohio Office of Budget and Management as the State official responsible for making the five percent determinations and certifications. Application of the five percent cap may be waived in a particular instance by a three-fifths vote of each house of the Ohio General Assembly and may be changed by future constitutional amendments.

The State met the requirements of Section 17 of Article VIII of the Ohio Constitution and more detailed information on the State's long-term debt, including changes during the year, can be found in NOTES 10 through 13 and NOTE 15 to the financial statements.

Conditions Expected to Affect Future Operations

Economic Factors

Through October 2015, leading economic indicators continue to point toward modest, uninterrupted economic expansion across the country and in Ohio. The Ohio unemployment rate in October 2015 was 4.4 percent, .6 percentage points below the national unemployment rate. From October 2014 to October 2015, Ohio's nonfarm payroll employment increased by 77 thousand jobs.

Nationally, real gross domestic product (GDP) slowed to 1.5 percent in the third quarter of calendar year 2015, down from 3.9 percent in the second quarter, but still up from .6 percent in the first quarter. Year-over-year growth was a subdued 2 percent.

The national labor market outlook strengthened further in October 2015, as the level of nonfarm payroll employment increased by 271 thousand jobs. The U.S. unemployment rate for October 2015 was five percent, down from 5.1 percent in September, and down from 5.7 percent in October 2014.

The 2016-17 Biennial Budget

The main appropriations act (Act) for the 2016-17 biennium for the General Revenue Fund (GRF), the largest, non-GAAP, budgetary-basis operating fund included in the State's General Fund, was passed by the General Assembly and signed (with selective vetoes) by the Governor on June 30, 2015. Reflecting a stated continuing focus on job creation, and based on a conservative economic forecast, that Act provides for GRF appropriations of approximately \$34.9 billion in fiscal year 2016, a 13.1 percent increase over fiscal year 2015 actual spending, and \$36.3 billion in fiscal year 2017, a 4.2 percent increase over fiscal year 2016 appropriations.

GRF appropriations for major program categories in fiscal years 2016 and 2017 reflect the following increases: for Medicaid, 21.8 percent in fiscal year 2016 (driven in large part by the shift in funding to the GRF from non-GRF sources beginning in fiscal year 2016 for the Medicaid expansion population), and 5.1 percent for fiscal year 2017; for elementary and secondary education, five percent for fiscal year 2016, and 4.2 percent for fiscal year 2017; for higher education, 4.5 percent for fiscal year 2016, and 3.3 percent for fiscal year 2017; for mental health and developmental disabilities, 9.1 percent for fiscal year 2016, and 7.3 percent for fiscal year 2017; for corrections and youth services, 4.8 percent for fiscal year 2016 appropriations, and 3.0 percent for fiscal year 2017. The Act also modifies the school funding formula to distribute new resources to districts with less capacity to raise revenues locally and freezes tuition and fees for two- and four year higher education institutions.

The Act reflects tax reductions and related adjustments of major State taxes, primarily in personal income taxes. These reductions and adjustments are projected to reduce GRF revenues by approximately \$869 million in fiscal year 2016 and by approximately \$952 million in fiscal year 2017.

General Revenue Fund

For fiscal year 2016, total fiscal year-to-date GRF receipts collected through October 2015 are \$35.7 million above estimates and \$1.38 billion higher than collections through October of the prior fiscal year. Total fiscal year-to-date GRF disbursements through October 2015 are \$390.3 million below estimates for the first four months of fiscal year 2016 and \$712.9 million above expenditures for the first four months of the prior fiscal year. As of October 2015, receipts were .3 percent above budget estimates and disbursements were three percent below budget estimates for fiscal year 2016. Fiscal year 2016 receipts are 13.5 percent ahead of receipts for the first four months of fiscal year 2015. Disbursements for fiscal year 2016 are six percent above disbursements for the same time period of fiscal year 2015.

Budget Stabilization Fund

The Budget Stabilization Fund (BSF) is Ohio's rainy day savings account, a reserve balance set aside in good economic times to protect the State's budget from cyclical changes in revenues and expenditures should the economy become weakened unexpectedly. By law, the maximum balance for the BSF had for many years been set at five percent of the prior fiscal year's GRF revenues. In June 2015, Governor Kasich signed a provision that increased the authorized maximum BSF balance to 8.5 percent of GRF revenues. After depositing \$526.6 million into the BSF in July 2015, the BSF has reached a record-high balance in excess of \$2 billion, the strongest reserves in State history.

Workers' Compensation Fund

The Bureau of Workers' Compensation (BWC) is in the process of transitioning its premium collection model to a prospective payment system that will provide more flexibility for employers while reducing overall systems costs. The change will align BWC with standard industry practice and will enable BWC to collect premiums before extending coverage. Private employers transitioned to prospective billing on July 1, 2015, while public employer taxing districts will transition on January 1, 2016. The prospective billing system resulted in an overall base rate reduction of two percent for private employers and four percent for public employers and provides for increased ability to detect employer non-compliance and fraud. Transitional one-time premium credits are planned to eliminate any double payment by employers.

House Bill 52, signed by the Governor in June 2015, allows BWC to transfer investment income from the State Insurance Fund (SIF) to cover the cost of the Disabled Workers' Relief Fund (One) benefits for private and public taxing district employers rather than levying assessments against these employers. BWC management will recommend that the Board of Directors approve the use of the SIF investment earnings and will then record a \$582 million liability in the SIF that will result in \$582 million decrease to the net position of BWC during fiscal year 2016.

Unemployment Compensation Fund

During fiscal years 2009 and 2010, the State sought federal assistance in meeting its unemployment benefit costs and received repayable advances in the Unemployment Trust Fund of \$2.31 billion from the Federal Unemployment Account to cover the insufficient State funds for benefit claims during those fiscal years. The State continues to make principal and interest payments on these advances. During fiscal year 2015, Federal Unemployment Tax Act (FUTA) credits of \$402.6 million also offset the outstanding repayable advances. As of June 30, 2015, the outstanding repayable advances balance is \$978.5 million. More information relating to the FUTA credits and remaining advances can be found in NOTE 2D and NOTE 14, respectively.

STATE OF OHIO

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2015 (dollars in thousands)

Total Fund Balances for Governmental Funds..... **\$ 13,428,655**

Total net position reported for governmental activities in the Statement of Net Position is different because:

Net Pension Assets Reported for Governmental Activities are not Financing Resources and therefore are not Reported in the Funds 7,337

Capital assets used in governmental activities are not financial resources, and therefore, are not reported in the funds. Those assets consist of:

Land.....	2,323,700
Buildings and Improvements, net of \$2,172,453 accumulated depreciation.....	1,556,212
Land Improvements, net of \$310,085 accumulated depreciation.....	161,190
Machinery and Equipment, net of \$773,871 accumulated depreciation.....	649,737
Vehicles, net of \$228,112 accumulated depreciation.....	158,518
Infrastructure, net of \$31,622 accumulated depreciation.....	19,993,138
Construction-in-Progress.....	1,714,845
	<u>26,557,340</u>

The following Deferred Outflows of Resources are not related to the current period and therefore, are not reported in the funds.

Hedging Derivatives.....	34,675
Loss on Debt Refundings.....	163,743
Net Pension Asset/Liability.....	343,323
Total Deferred Outflows of Resources.....	<u>541,741</u>

The following liabilities are not due and payable in the current period, and therefore, are not reported in the funds.

Accrued Liabilities:	
Interest Payable.....	(166,452)
Bonds and Notes Payable:	
General Obligation Bonds.....	(9,149,056)
Revenue Bonds and Notes.....	(6,409,774)
Special Obligation Bonds.....	(1,906,844)
Certificates of Participation.....	(231,837)
Other Noncurrent Liabilities:	
Compensated Absences.....	(421,817)
Net Pension Liability.....	(2,703,806)
Net OPEB Obligation.....	(149,131)
Capital Leases Payable.....	(2,072)
Derivatives.....	(45,873)
Estimated Claims Payable.....	(2,186)
Pollution Remediation.....	(1,568)
	<u>(21,190,416)</u>

The following Deferred Inflows of Resources are not related to the current period and therefore, are not reported in the funds.

Resources from the Sale of Future Revenues.....	(1,287,933)
Net Pension Asset/Liability.....	(61,056)
Less Unavailable Resources Reported in the Funds:.....	
Taxes Receivable.....	82,616
Intergovernmental Receivable.....	789,059
Other Receivables.....	450,473
	<u>1,322,148</u>
Total Deferred Inflows of Resources.....	<u>(26,841)</u>

Total Net Position of Governmental Activities..... **\$ 19,317,816**

STATE OF OHIO

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
(dollars in thousands)

Net Change in Fund Balances -- Total Governmental Funds	(900,642)
Change in Inventories.....	<u>924</u>
	(899,718)

The change in net position reported for governmental activities in the Statement of Activities is different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital Outlay Expenditures.....	1,026,371	
Depreciation Expense.....	<u>(299,323)</u>	
Excess of Capital Outlay Over Depreciation Expense.....		<u>727,048</u>

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. In the current period, proceeds were received from:

General Obligation Bonds.....	(542,000)	
Revenue Bonds and Notes.....	(155,875)	
Special Obligation Bonds.....	(274,300)	
Refunding Bonds, including Bond Premium/Discount, Net.....	(384,955)	
Certificates of Participation.....	(76,150)	
Premiums and Discounts, Net:		
General Obligation Bonds.....	(74,697)	
Revenue Bonds and Notes.....	(23,397)	
Special Obligation Bonds.....	(41,877)	
Certificates of Participation.....	(11,926)	
Total Debt Proceeds.....		<u>(1,585,177)</u>

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. In the current year, these amounts consist of:

<i>Debt Principal Retirement and Defeasements:</i>		
General Obligation Bonds.....	997,569	
Revenue Bonds and Notes.....	227,441	
Special Obligation Bonds.....	270,448	
Certificates of Participation.....	26,330	
Capital Lease Payments.....	<u>983</u>	
Total Long-Term Debt Repayment.....		<u>1,522,771</u>

The notes to the financial statements are an integral part of this statement.

Some revenues and expenses reported in the Statement of Activities are not reported as revenue and expenditures in the governmental funds. Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses, liabilities, and deferred resources are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. This adjustment combines the changes in the following balances:

<i>Increase in Other Assets</i>	5,336	
<i>Increase in Accrued Interest and Other Accrued Liabilities</i>	(3,508)	
<i>Amortization of Bond Premiums/Accretion of Bond Discount, Net</i>	97,187	
<i>Decrease in Refunding Loss Included in Deferred Outflows of Resources</i>	(9,101)	
<i>Increase in Pension Related Balances Included in Deferred Outflows of Resources</i>	124,580	
<i>Decrease in Compensated Absences</i>	4,878	
<i>Decrease in Derivative Liabilities (Excluding Hedging Derivatives)</i>	655	
<i>Decrease in Estimated Claims Payable</i>	9,545	
<i>Increase in Pollution Remediation</i>	(18)	
<i>Decrease in Net Pension Obligation</i>	28,183	
<i>Increase in Net Pension Liability</i>	(51,387)	
<i>Increase in Liability for OPEB Obligation</i>	(21,030)	
<i>Increase in Other Noncurrent Liabilities</i>	(193)	
<i>Decrease in Deferred Inflow of Resources</i>	544,292	
<i>Total additional revenues and expenditures</i>		<u>729,419</u>
<i>Change in Net Position of Governmental Activities</i>		<u>\$ 494,343</u>

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the State of Ohio, as of June 30, 2015, and for the year then ended, conform with generally accepted accounting principles (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are included in the GASB's *Codification of Governmental Accounting and Financial Reporting Standards*. The State's significant accounting policies are as follows.

A. Financial Reporting Entity

The State of Ohio's primary government includes all funds, elected officials, departments and agencies, bureaus, boards, commissions, and authorities that make up the State's legal entity. Component units, legally separate organizations for which the State's elected officials are financially accountable, also comprise, in part, the State's reporting entity. Additionally, other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete should be included in a government's financial reporting entity.

GASB Statement No. 14 (GASB 14), *The Financial Reporting Entity*, as amended by GASB Statement No. 39 (GASB 39), *Determining Whether Certain Organizations are Component Units* and GASB Statement No. 61 (GASB 61), *The Financial Reporting Entity: Omnibus*, defines financial accountability. The criteria for determining financial accountability include the following circumstances:

- appointment of a voting majority of an organization's governing authority and the ability of the primary government to either impose its will on that organization or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, or
- an organization is fiscally dependent on the primary government and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

1. Blended Component Units

The Buckeye Tobacco Settlement Financing Authority (BTSFA) is a legally separate organization for which the State has financial accountability through voting majority and the State has the potential to receive a financial benefit. The BTSFA provides services entirely, or almost entirely, to the State or otherwise exclusively, or almost exclusively, for the benefit of the State. Therefore, the State reports this organization's balances and transactions as though they were part of the primary government using the blending method.

2. Fiduciary Component Units

The State Highway Patrol Retirement System is a legally separate organization that provides services entirely, or almost entirely, to the State or otherwise exclusively, or almost exclusively, for the benefit of the State. Therefore, the State reports this organization's balances and transactions separately in the fiduciary fund financial statements.

3. Discretely Presented Component Units

The component units' columns in the basic financial statements include the financial data of another 28 organizations. The separate discrete column labeled, "Component Units," emphasizes these organizations' separateness from the State's primary government. Officials of the primary government appoint a voting majority of each organization's governing board.

The primary government has the ability to impose its will on the following organizations by modifying or approving their respective budgets, through policy modification authority, or by modifying or approving rate or fee changes.

Ohio Facilities Construction Commission
Ohio Air Quality Development Authority
Ohio Capital Fund
JobsOhio

The Ohio Turnpike and Infrastructure Commission has the potential to provide a financial benefit to the primary government.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following organizations impose or potentially impose financial burdens on the primary government.

Ohio State University
University of Cincinnati
Ohio University
Miami University
University of Akron
Bowling Green State University
Kent State University
University of Toledo
Cleveland State University
Youngstown State University
Wright State University
Shawnee State University
Northeast Ohio Medical University
Central State University
Terra State Community College
Columbus State Community College
Clark State Community College
Edison State Community College
Southern State Community College
Washington State Community College
Cincinnati State Community College
Northwest State Community College
Owens State Community College

The Ohio Facilities Construction Commission, a governmental component unit, does not issue separately audited financial reports.

Information on how to obtain financial statements for the State's component units that do issue their own separately audited financial reports is available from the Ohio Office of Budget and Management.

4. Joint Ventures and Related Organizations

As discussed in more detail in NOTE 19, the State participates in several joint ventures and has related organizations. The State does not include the financial activities of these organizations in its financial statements, in conformity with GASB 14, as amended by GASB 39 and GASB 61.

B. Basis of Presentation

Government-wide Statements — The Statement of Net Position and the Statement of Activities display information about the primary government (the State) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities.

Fiduciary funds of the primary government and component units that are fiduciary in nature are reported only in the statements of fiduciary net position and changes in fiduciary net position.

For the government-wide financial statements, eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the State. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole, or in part, by fees charged to external parties for goods or services.

The Statement of Net Position reports all financial and capital resources using the economic resources measurement focus and the accrual basis of accounting. The State presents the statement in a format that displays *assets and deferred outflows of resources less liabilities and deferred inflows of resources equal net position*. The *net position* section is displayed in three components:

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- The *Net Investment in Capital Assets* component consists of 1) capital assets, net of accumulated depreciation, and deferred outflows of resources that are attributable to the acquisition, construction, or improvements of those assets or related debt less 2) outstanding balances of any bonds or other borrowings and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt. The portion of debt and deferred inflows of resources attributable to significant unspent related debt proceeds at year-end is not included in the calculation of this net position component.
- The *Restricted Net Position* component represents the net position with constraints placed on its use that are either 1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or 2) imposed by law through constitutional provisions or enabling legislation. For component units with permanent endowments, restricted net position is displayed in two additional components — nonexpendable and expendable. Nonexpendable net position is for those endowments that are required to be retained in perpetuity.
- The *Unrestricted Net Position* component consists of the net position that does not meet the definition of the preceding two components.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the State's governmental activities and for the different business-type activities of the State. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular program or function. Centralized expenses have been included in direct expenses. Indirect expenses have not been allocated to the programs or functions reported in the Statement of Activities.

Program revenues include licenses, permits and other fees, fines, forfeitures, charges paid by the recipients of goods or services offered by the programs, and grants, contributions, and investment earnings that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all tax, tobacco settlement, escheat property revenues, unrestricted investment income, and state assistance, are presented as general revenues.

Fund Financial Statements — The fund financial statements provide information about the State's funds, including the fiduciary funds and blended component units. Separate statements for each fund category — governmental, proprietary, and fiduciary — are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and proprietary funds are aggregated and reported as nonmajor funds.

Governmental fund types include the General, special revenue, debt service, and capital projects funds. The proprietary funds consist of enterprise funds. Fiduciary fund types include pension trust, private-purpose trust, investment trust, and agency funds.

Operating revenues for the State's proprietary funds mainly consist of charges for sales and services and premium and assessment income since these revenues result from exchange transactions associated with the principal activity of the respective enterprise fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Revenue from the federal government for the underfunded regular and extended unemployment benefits is also reported as operating revenues for the Unemployment Compensation Fund, since this source provides significant funding for the payment of unemployment benefits — the fund's principal activity. Investment income for the Tuition Trust Authority Fund is also reported as operating revenue, since this source provides significant funding for the payment of tuition benefits. Nonoperating revenues for the proprietary funds result from nonexchange transactions or ancillary activities; nonoperating revenues are primarily comprised of investment income and federal operating grants.

Proprietary fund operating expenses principally consist of expenses for the cost of sales and services, administration, bonuses and commissions, prizes, benefits and claims, and depreciation. Nonoperating expenses principally consist of interest expense on debt and the amortization of discount on lottery prize liabilities, which is reported under "Other" nonoperating expenses.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The State reports the following major governmental funds:

General — The General Fund, the State's primary operating fund, accounts for resources of the general government, except those required to be accounted for in another fund.

Job, Family and Other Human Services Special Revenue Fund — This fund accounts for public assistance programs primarily administered by the Ohio Department of Job and Family Services, which provides financial assistance, services, and job training to those individuals and families who do not have sufficient resources to meet their basic needs. The primary sources of revenue for this fund are licenses, permits and fees and the federal government.

Buckeye Tobacco Settlement Financing Authority Revenue Bonds Debt Service Fund — This fund accounts for the payment of principal and interest on the revenue bonds issued to fund long-lived capital projects at State-supported institutions of higher education and to pay the State's share of the cost of rebuilding elementary and secondary school facilities across the State.

The State reports the following major proprietary funds:

Workers' Compensation Enterprise Fund — This fund accounts for the operations of the Ohio Bureau of Workers' Compensation and the Industrial Commission of Ohio, which provide workers' compensation insurance services.

Lottery Commission Enterprise Fund — This fund accounts for the State's lottery operations.

Unemployment Compensation Enterprise Fund — This fund, which is administered by the Ohio Department of Job and Family Services, accounts for unemployment compensation benefit claims.

The State reports the following fiduciary fund types:

Pension Trust Fund — The State Highway Patrol Retirement System Pension Trust Fund accounts for resources that are required to be held in trust for members and beneficiaries of the defined benefit plan. The financial statements for the State Highway Patrol Retirement System Pension Trust Fund are presented for the fiscal year ended December 31, 2014.

Private-Purpose Trust Fund — The Private-Purpose Trust Fund accounts for trust arrangements under which principal and income benefit participants in the Variable College Savings Plan, which is administered by the Tuition Trust Authority.

Investment Trust Fund — The STAR Ohio Investment Trust Fund accounts for the state-sponsored external investment pool, which the Treasurer of State administers for local government participants.

Agency Funds — These funds account for the receipt, temporary investment, and remittance of fiduciary resources held on behalf of individuals, private organizations, and other governments.

The State reports the following major discretely presented component unit funds:

The *Ohio Facilities Construction Commission Fund* primarily accounts for grants that provide assistance to local entities for the construction of school buildings. The fund also provides construction services for arts and sports facilities.

The *Ohio State University Fund* is a business-type activity that uses proprietary fund reporting. It reports the university's operations, including the University's health system, supercomputer center, agricultural research and development center, and other legally separate entities subject to the control of the university's board.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting

Government-wide, Enterprise Fund, and Fiduciary Fund Financial Statements — The State reports the government-wide financial statements and the proprietary fund and fiduciary fund financial statements using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

The State recognizes revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions when the exchange takes place. When resources are received in advance of the exchange, the State reports the unearned revenue as a liability.

Nonexchange transactions, in which the State gives (or receives) value without directly receiving (or giving) equal value in exchange, include derived taxes, grants, and entitlements. The revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from nonexchange transactions are recognized in accordance with the requirements of GASB 33, *Accounting and Financial Reporting for Nonexchange Transactions* and GASB 65, *Items Previously Reported as Assets and Liabilities*.

Under the accrual basis, the State recognizes assets from derived tax revenues (e.g., personal income, sales, and motor vehicle fuel taxes) in the fiscal year when the exchange transaction on which the tax is imposed occurs or when the resources are received, whichever occurs first. The State recognizes derived tax revenues, net of estimated refunds and estimated uncollectible amounts, in the same period that the assets are recognized, provided that the underlying exchange transaction has occurred.

Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Resources transmitted in advance of the State meeting eligibility requirements are reported as unearned revenue.

Investment income includes the net increase (decrease) in the fair value of investments.

Governmental Fund Financial Statements — The State reports governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The State considers revenues reported in the governmental funds to be available when the revenues are collectible within 60 days after year-end or soon enough thereafter to be used to pay liabilities of the current period.

Significant revenue sources susceptible to accrual under the modified accrual basis of accounting include:

- Personal income taxes
- Sales and use taxes
- Motor vehicle fuel taxes
- Charges for goods and services
- Federal government grants
- Tobacco settlement
- Investment income

The State recognizes assets from derived tax revenues (e.g., personal income, sales, and motor vehicle fuel taxes) in the fiscal year when the exchange transaction on which the tax is imposed occurs or when the resources are received, whichever occurs first. The State recognizes derived tax revenues, net of estimated refunds and estimated uncollectible amounts, in the same period that the assets are recognized, provided that the underlying exchange transaction has occurred and the revenues are collected during the availability period.

For revenue arising from exchange transactions (e.g., charges for goods and services), the State recognizes deferred inflows of resources when resources earned from the exchange are not received during the availability period and reports unearned revenue when resources are received in advance of exchange.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The governmental funds recognize federal government revenue in the period when all applicable eligibility requirements have been met and resources are available. Resources transmitted in advance of the State meeting eligibility requirements are reported as unearned revenue. The State recognizes deferred inflows of resources for reimbursement-type grant programs if the reimbursement is not received during the availability period.

Licenses, permits, fees, and certain other miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. The "Other" revenue account is comprised of refunds, reimbursements, recoveries, and other miscellaneous income.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, capital lease obligations, compensated absences, and claims and judgments. The governmental funds recognize expenditures for these liabilities to the extent they have matured or will be liquidated with expendable, available financial resources.

Capital asset acquisitions are reported as expenditures in the governmental funds. Proceeds from long-term debt issuances, including refunding bond proceeds, premiums, and acquisitions under capital leases are reported as other financing sources while discounts and payments to refunded bond escrow agents are reported as other financing uses.

D. Budgetary Process

As the Ohio Revised Code requires, the Governor submits biennial operating and capital budgets to the General Assembly.

The General Assembly approves operating appropriations in annual amounts and capital appropriations in two-year amounts.

The General Assembly enacts the budget through passage of specific departmental line-item appropriations, the legal level of budgetary control. Line-item appropriations are established within funds by program or major object of expenditure. The Governor may veto any item in an appropriation bill. Such vetoes are subject to legislative override.

The State's Controlling Board can transfer or increase a line-item appropriation within the limitations set under Sections 127.14 and 131.35, Ohio Revised Code.

All governmental funds are budgeted except the following activities within the debt service and capital projects fund types:

- Improvements General Obligations
- Highway Improvements General Obligations
- Development General Obligations
- Highway General Obligations
- Public Improvements General Obligations
- Vietnam Conflict Compensation General Obligations
- Infrastructure Bank Revenue Bonds
- Buckeye Tobacco Settlement Financing Authority Revenue Bonds
- Lease Rental Special Obligations
- MARCS Certificates of Participation
- OAKS Certificates of Participation
- STARS Certificates of Participation
- TMS Certificates of Participation
- EDCS Certificates of Participation
- MARCS Project
- OAKS Project
- STARS Project
- TMS Project
- EDCS Project

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

For budgeted funds, the State's Ohio Administrative Knowledge System (OAKS) controls expenditures by appropriation line-item, so at no time can expenditures exceed appropriations and financial-related legal compliance is assured. The State uses the modified cash basis of accounting for budgetary purposes.

The *Detailed Appropriation Summary by Fund Report* is available for public inspection at the Ohio Office of Budget and Management and on its web site at www.obm.ohio.gov/StateAccounting/financialreporting. This Summary provides a more comprehensive accounting of activity on the budgetary basis at the legal level of budgetary control.

In the *Statement of Revenues, Expenditures and Changes in Fund Balances — Budget and Actual (Non-GAAP Budgetary Basis) — General Fund and Major Special Revenue Fund*, the State reports estimated revenues and other financing sources and uses for the General Fund only; the State does not estimate revenue and other financing sources and uses for the major special revenue fund or its budgeted nonmajor governmental funds.

Additionally, in the non-GAAP budgetary basis financial statement and schedules, "actual" budgetary expenditures include cash disbursements and outstanding encumbrances, as of June 30.

The State Highway Patrol Retirement System Pension Trust Fund, the Variable College Savings Plan Private-Purpose Trust Fund, and the STAR Ohio Investment Trust Fund are not legally required to adopt budgets. The State is not legally required to report budgetary data and comparisons for the budgeted proprietary funds. Also, the State does not present budgetary data for its discretely presented component units.

Because the State budgets on a modified cash basis of accounting, which differs from GAAP, NOTE 3 presents a reconciliation of the differences between the GAAP basis and non-GAAP budgetary basis of reporting.

E. Cash Equity with Treasurer and Cash and Cash Equivalents

Cash equity with Treasurer consists of pooled demand deposits and investments carried at fair value. The State's cash pool under the Treasurer of State's administration has the general characteristics of a demand deposit account whereby additional cash can be deposited at any time and can also be effectively withdrawn at any time, within certain budgetary limitations, without prior notice or penalty.

Cash and cash equivalents include amounts on deposit with financial institutions and cash on hand. The cash and cash equivalents account also includes investments with original maturities of three months or less from the date of acquisition for the Workers' Compensation Enterprise Fund.

Cash equity with Treasurer and cash and cash equivalents, including the portions reported under "Restricted Assets," are considered to be cash equivalents, as defined in GASB Statement No. 9, for purposes of the Statement of Cash Flows.

Additional disclosures on the State's deposits can be found in NOTE 4.

F. Investments

Investments include long-term investments that may be restricted by law or other legal instruments. With the exception of certain money market investments, which have remaining maturities at the time of purchase of one year or less and are carried at amortized cost, and holdings in the State Treasury Asset Reserve of Ohio (STAR Ohio) investment pool, the State reports investments at fair value based on quoted market prices. STAR Ohio operates in a manner consistent with Rule 2a7 of the Investment Company Act of 1940; investments in the 2a7-like pool are reported at amortized cost (which approximates fair value).

The colleges and universities report investments received as gifts at their fair value on the donation date.

The primary government does not manage or provide investment services for investments reported in the Agency Fund that are owned by other, legally separate entities that are not part of the State of Ohio's reporting entity.

Additional disclosures on the State's investments can be found in NOTE 4.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Taxes Receivable

Taxes receivable represent amounts due to the State at June 30, which will be collected sometime in the future. In the government-wide financial statements, revenue has been recognized for the receivable. In the fund financial statements only the portion of the receivable collected during the 60-day availability period has been recognized as revenue while the remainder is recorded as deferred inflows of resources. Additional disclosures on taxes receivable can be found in NOTE 5.

H. Intergovernmental Receivable

The intergovernmental receivable balance is primarily comprised of amounts due from the federal government for reimbursement-type grant programs. Advances of resources to recipient local governments before eligibility requirements have been met under government-mandated and voluntary nonexchange programs and amounts due for exchanges of State goods and services with other governments are also reported as intergovernmental receivables. Additional details on the intergovernmental receivable balance can be found in NOTE 5.

I. Inventories

Inventories are valued at cost. Principal inventory cost methods applied include first-in/first-out, average cost, moving-average, and retail.

In the governmental fund financial statements, the State recognizes the costs of material inventories as expenditures when purchased. Inventories do not reflect current appropriable resources in the governmental fund financial statements. Therefore, the State reports an equivalent portion of fund balance as nonspendable.

J. Restricted Assets

The primary government reports assets restricted for the payment of lottery prize awards payable, revenue bonds, and tuition benefits in the enterprise funds.

Generally, the component unit funds hold assets in trust under bond covenants or other financing arrangements that legally restrict the use of these assets.

K. Capital Assets

Primary Government

The State reports capital assets purchased with governmental fund resources in the government-wide financial statements at historical cost, or at estimated historical cost when no historical records exist. Donated capital assets are valued at their estimated fair value on the donation date. The State does not report capital assets purchased with governmental fund resources in the fund financial statements. Governmental capital assets are reported net of accumulated depreciation, except for land, construction-in-progress, transportation infrastructure assets, and individual works of art and historical treasures, including historical land improvements and buildings. Transportation infrastructure assets are reported using the "modified approach," as discussed below, and therefore are not depreciable. Individual works of art and historical treasures, including historical land improvements and buildings, are considered to be inexhaustible, and therefore, are not depreciable.

The State reports capital assets purchased with enterprise fund resources and fiduciary fund resources in the government-wide and the fund financial statements at historical cost, or at estimated historical cost when no historical records exist. Donated capital assets are valued at their estimated fair value on the donation date. Capital assets, except for land and construction-in-progress, are reported net of accumulated depreciation.

The State has elected to capitalize its transportation infrastructure assets, defined as bridges, general highways, and priority highways, using the modified approach. Under this approach, the infrastructure assets are not depreciated because the State has committed itself to maintaining the assets at a condition level that the Ohio Department of Transportation (ODOT) has determined to be adequate to meet the needs of the citizenry. Costs of maintaining the bridge and highway infrastructure are not capitalized. New construction that represents additional lane-miles of highway or additional square-footage of bridge deck area and improvements that add to the capacity or efficiency of an asset are capitalized.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ODOT maintains an inventory of its transportation infrastructure capital assets, and conducts annual condition assessments to establish that the condition level that the State has committed itself to maintaining is, in fact, being achieved. ODOT also estimates the amount that must be spent annually to maintain the assets at the desired condition level.

For its other types of capital assets, the State does not capitalize the costs of normal maintenance and repairs that do not add to an asset’s value or materially extend its useful life. Costs of major improvements are capitalized. Interest costs associated with the acquisition of capital assets purchased using governmental fund resources are not capitalized, while those associated with acquisitions purchased using enterprise and fiduciary fund resources are capitalized.

The State does not capitalize collections of works of art or historical treasures that can be found at the Governor’s residence, Malabar Farm (i.e., Louis Bromfield estate), which the Ohio Department of Natural Resources operates, the Ohio Arts Council, the State Library of Ohio, and the Capitol Square Review and Advisory Board for the following reasons:

- The collection is held for public exhibition, education, or research in furtherance of public service rather than for financial gain.
- The collection is protected, kept unencumbered, cared for, and preserved.
- The collection is subject to an organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections.

The State has established the following capitalization thresholds:

Buildings	\$15,000
Building Improvements	100,000
Land, including easements	All, regardless of cost
Land Improvements	15,000
Machinery and Equipment	15,000
Vehicles.....	15,000
Infrastructure:	
Highway Network.....	500,000
Bridge Network.....	500,000
Park and Natural Resources Network	All, regardless of cost

For depreciable assets, the State applies the straight-line method over the following estimated useful lives:

Buildings	20-45 Years
Land Improvements	10-30 Years
Machinery and Equipment	3-15 Years
Vehicles.....	7-15 Years
Park and Natural Resources Infrastructure Network	10-50 Years

NOTE 8 contains additional disclosures about the primary government’s capital assets.

Discretely Presented Component Unit Funds

The discretely presented component unit funds value all capital assets at cost and donated capital assets at estimated fair value on the donation date. They apply the straight-line method to depreciable capital assets. Additional disclosures about the discretely presented component unit funds’ capital assets can be found in NOTE 8.

L. Medicaid Claims Payable

The Medicaid claims liability, which has an average maturity of one year or less, includes an estimate for incurred, but not reported claims.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Noncurrent Liabilities

Government-wide Financial Statements — Liabilities whose average maturities are greater than one year are reported in two components — the amount due in one year and the amount due in more than one year. Additional disclosures as to the specific liabilities included in noncurrent liabilities can be found in NOTES 10 through 15.

Fund Financial Statements — Governmental funds recognize noncurrent liabilities to the extent they have matured or will be liquidated with expendable, available financial resources.

The proprietary funds and discretely presented component unit funds report noncurrent liabilities expected to be financed from their operations.

N. Compensated Absences

Employees of the State's primary government earn vacation leave, sick leave, and personal leave at various rates within limits specified under collective bargaining agreements or under law. Generally, employees accrue vacation leave at a rate of 3.1 hours every two weeks for the first four years of employment, up to a maximum rate of 9.2 hours every two weeks after 24 years of employment. Employees may accrue a maximum of three years vacation leave credit. At termination or retirement, the State pays employees, at their full rate, 100 percent of unused vacation leave, personal leave, and, in certain cases, compensatory time and 50 to 55 percent of unused sick leave.

Such leave is liquidated in cash, under certain restrictions, either annually in December, or at the time of termination from employment.

For the governmental funds, the State reports the matured compensated absences liability as a fund liability (included in the "Accrued Liabilities" account as a component of wages payable) to the extent it will be liquidated with expendable, available financial resources. For the primary government's proprietary funds and its discretely presented component unit funds, the State reports the compensated absences liability as a fund liability included in the "Refund and Other Liabilities" account.

The State's primary government accrues vacation, compensatory time, and personal leaves as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as at termination or retirement.

Sick leave time that has been earned, but is unavailable for use as paid time off or as some other form of compensation because an employee has not met a minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

The State's primary government accrues sick leave using the vesting method. Under this method, the liability is recorded on the basis of leave accumulated by employees who are eligible to receive termination payments, as of the balance sheet date, and on leave balances accumulated by other employees who are expected to become eligible in the future to receive such payments.

Included in the compensated absences liability is an amount accrued for salary-related payments directly and incrementally associated with the payment of compensated absences upon termination. Such payments include the primary government's share of Medicare taxes.

For the colleges and universities, vacation and sick leave policies vary by institution.

O. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Fund Balance Classification; Budget Stabilization Fund; Net Position/Fund Balance Spending Order

Fund balance reported in the governmental fund financial statements is classified as follows:

Nonspendable

The *nonspendable* fund balance classification includes amounts that cannot be spent because they are either 1) not in spendable form, such as prepaids and inventories or 2) legally or contractually required to be maintained intact, such as the corpus of a permanent fund.

Restricted

Fund balance amounts should be *restricted* when constraints placed on the use of resources are either 1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or 2) imposed by law through constitutional provisions or enabling legislation.

Unrestricted

Committed

Amounts constrained for specific purposes by formal action (i.e., legislation) of the government's highest level of decision-making authority (i.e., General Assembly) should be reported as *committed* fund balance. Committed amounts cannot be used for other purposes unless the General Assembly passes legislation to remove the constraints.

Assigned

Amounts that are constrained by the government's *intent* to be used for specific purposes, but are neither restricted nor committed, should be reported as *assigned* fund balance, except for stabilization arrangements. The intent should be conveyed by the governing body itself or through delegation to a body or official authorized on behalf of the government to assign amounts to be used for specific purposes. The Controlling Board, created under Chapter 127, Ohio Revised Code, is an example of a body delegated by the government to make assignments. The Director of the Office of Budget and Management is an example of an authorized official granted assignment authority through legislative language, including enacted budget bills. While both the committed and assigned fund balance classifications include amounts constrained for specific use by actions taken by the government itself, the authority for making an assignment is not required to be the government's highest level of decision-making authority. Amounts should not be reported as assigned if the assignment would result in a deficit in unassigned fund balance.

Unassigned

Unassigned fund balance is the residual classification for the General Fund. This classification represents spendable fund balance that has not been otherwise restricted, committed or assigned to specific purposes within the General Fund. In funds other than the General Fund, the unassigned classification should only be used to report a deficit balance due to overspending amounts that are restricted or committed.

Fund balance in the State's Budget Stabilization Fund, as discussed in Sections 131.43 and 131.44, Ohio Revised Code, does not meet the criteria to be classified as restricted or committed and is, therefore, reported as unassigned in the General Fund.

For reporting purposes, restricted amounts are generally considered to have been spent first, followed by unrestricted amounts. Within the unrestricted fund balance amounts, the spending order is generally committed, followed by assigned, and then unassigned when expenditures are incurred for purposes for which amounts in any unrestricted fund balance classification could be used.

Q. Risk Management

The State's primary government is self-insured for claims under its traditional healthcare plan and for vehicle liability while it has placed employee and public official fidelity bonding with a private insurer. The State self-funds tort liability although several agencies also choose to participate in private insurance programs. All State owned buildings are covered under a catastrophic property policy that covers both real and personal property losses. All other liability risk to State property is self-funded on a pay-as-you-go basis.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

While not the predominant participants, the State's primary government and its discretely presented component units participate in a public entity risk pool, which is accounted for in the Workers' Compensation Enterprise Fund, for the financing of their respective workers' compensation liabilities. These liabilities are reported in the governmental and proprietary funds under the "Interfund Payable" account. (See NOTE 7).

R. Interfund Balances and Activities

Interfund transactions and balances have been eliminated from the government-wide financial statements to the extent that they occur within either the governmental or business-type activities. Balances between governmental and business-type activities are presented as internal balances and are eliminated in the total column. Revenues and expenses associated with reciprocal transactions within governmental or within business-type activities have not been eliminated.

In the fund financial statements, interfund activity within and among the three fund categories (governmental, proprietary, and fiduciary) is classified and reported as follows:

Reciprocal interfund activity is the internal counterpart to exchange and exchange-like transactions. This activity includes:

Interfund Loans — Amounts provided with a requirement for repayment, which are reported as interfund receivables in lender funds and interfund payables in borrower funds. When interfund loan repayments are not expected within a reasonable time, the interfund balances are reduced and the amount that is not expected to be repaid is reported as a transfer from the fund that made the loan to the fund that received the loan.

Interfund Services Provided and Used — Sales and purchases of goods and services between funds for a price approximating their external exchange value. Interfund services provided and used are reported as revenues in seller funds and as expenditures or expenses in purchaser funds. Unpaid amounts are reported as interfund receivables and payables in the fund balance sheets or fund statements of net position.

Nonreciprocal interfund activity is the internal counterpart to nonexchange transactions. This activity includes:

Interfund Transfers – Flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

Interfund Reimbursements — Repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them. Reimbursements are not displayed in the financial statements.

Details on interfund balances and transfers are disclosed in NOTE 7.

S. Intra-Entity Balances and Activities

Balances due between the primary government and its discretely presented component units are reported as receivables from component units or primary government and payables to component units or primary government. For the discretely presented component units, the nature and amount of significant transactions with the primary government are disclosed in NOTE 7.

Resource flows between the primary government and its discretely presented component units are reported like external transactions (i.e., revenues and expenses).

T. Derivatives Instruments

The State's derivative instruments include investment derivatives and interest rate swaps. Interest rate swaps that are ineffective hedging derivatives are reported within the investment derivatives classification.

The State reports its derivative instruments at fair value in the Statement of Net Position. Changes in fair value for investment derivatives are recorded as investment income in the Statement of Activities. Changes in fair value for effective hedging derivatives are reported as deferred outflows/inflows of resources in the Statement of Net Position and disclosed in NOTE 18.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Additional disclosures on the State's investment derivatives and its hedging derivatives can be found in NOTE 4 and NOTE 10, respectively.

U. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

NOTE 2 RESTATEMENTS, CHANGES IN ACCOUNTING PRINCIPLES, EXTINGUISHMENTS OF DEBT AND SPECIAL ITEMS

A. Restatements

Restatements of net position, as of June 30, 2015, for the primary government and discretely presented component units are presented in the following table (dollars in thousands).

Government-Wide Financial Statements:

	Governmental Activities	Business-type Activities	Total Primary Government	Total Discretely Presented Component Units
Net Position, as of June 30, 2014, As Previously Reported	\$ 21,254,955	\$ 8,940,722	\$ 30,195,677	\$ 14,702,657
<i>Implementation of a New Accounting Standard:</i>				
GASB Statement No. 68 and 71.....	(2,431,482)	(178,301)	(2,609,783)	(5,912,889)
<i>Correction of an Error:</i>				
Youngstown State University Component Unit.....	-	-	-	(3,216)
Total Changes in Net Position.....	(2,431,482)	(178,301)	(2,609,783)	(5,916,105)
Net Position, July 1, 2014, As Restated	\$ 18,823,473	\$ 8,762,421	\$ 27,585,894	\$ 8,786,552

Governmental Fund and Fiduciary Fund Financial Statements:

	General Fund	Pension Trust Fund
Fund Balance/Net Position, as of June 30, 2014, As Previously Reported	\$ 5,928,956	\$ 813,952
<i>Implementation of a New Accounting Standard:</i>		
GASB Statement No. 67.....	-	22,771
<i>Correction of an Error:</i>		
Unclaimed Funds.....	(233,445)	-
Total Changes in Fund Balance/Net Position.....	(233,445)	22,771
Fund Balance/Net Position, July 1, 2014, As Restated	\$ 5,695,511	\$ 836,723

B. Implementation of Recently Issued Accounting Pronouncements

For the fiscal year ended June 30, 2015, the State implemented the provisions of

- Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans*.
- Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions (an amendment of GASB Statement No. 27)*.
- Governmental Accounting Standards Board (GASB) Statement No. 69, *Government Combinations and Disposals of Government Operations*.
- Governmental Accounting Standards Board (GASB) Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date (an amendment of GASB Statement No. 68)*.

**NOTE 2 RESTATEMENTS, CHANGES IN ACCOUNTING PRINCIPLES,
EXTINGUISHMENTS OF DEBT AND SPECIAL ITEMS (Continued)**

GASB Statement No. 67 amends GASB Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, by establishing financial reporting standards for state and local government defined benefit pension plans and defined contribution pension plans that are administered through trusts or equivalent arrangements. Additionally, for defined benefit pension plans, this Statement establishes standards of financial reporting for separately issued financial reports and specifies the required approach to measuring the pension liability of employers and nonemployer contributing entities for benefits provided through the pension plan. The State's implementation of GASB 67 is based on the year-end of the State Highway Patrol Retirement System. Please see NOTE 2A. for restatements resulting from the implementation of this standard and NOTE 9 for more information.

GASB Statement No. 68 amends GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, and establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project and discount benefit payments. Please see NOTE 2A. for restatements resulting from the implementation of this standard and NOTE 9 for more information.

GASB Statement No. 69 establishes accounting and financial reporting standards related to government combinations and disposals of government operations. As used in this Statement, the term *government combinations* includes a variety of transactions referred to as mergers, acquisitions, and transfers of operations. The implementation of this standard did not result in any change to the State's financial statements or note disclosures.

GASB Statement No. 71 eliminates the source of a potential significant understatement of restated beginning net position and expense in the accrual-basis financial statements of employer and nonemployer contributing entities in the first year of implementation of GASB 68. Please see NOTE 2A. for restatements resulting from the implementation of this standard and NOTE 9 for more information.

C. Recently Issued GASB Pronouncements

In February 2015, the GASB issued Statement No. 72, *Fair Value Measurement and Application*. The provisions of GASB 72 are effective for financial statements for periods beginning after June 15, 2015. The requirements of this Statement enhance comparability by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This Statement also enhances fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurement on a government's financial position.

In June 2015, the GASB issued Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. The provisions of GASB 73 are effective for fiscal years beginning after June 15, 2015. The requirements of this Statement will improve financial reporting by establishing a single framework for the presentation of information about pensions, which will enhance the comparability of pension-related information reported by employers and nonemployer contributing entities.

In June 2015, the GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The provisions of GASB 74 are effective for financial statements for fiscal years beginning after June 15, 2016. The requirements of this Statement improve financial reporting primarily through enhanced note disclosures and schedules of required supplementary information that will be presented by OPEB plans that are administered through trusts that meet the specified criteria. The new information will enhance the decision-usefulness of the financial reports of those OPEB plans, their value for assessing accountability, and their transparency by providing information about measures of net OPEB liabilities and explanations of how and why those liabilities changed from year to year.

**NOTE 2 RESTATEMENTS, CHANGES IN ACCOUNTING PRINCIPLES,
EXTINGUISHMENTS OF DEBT AND SPECIAL ITEMS (Continued)**

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The provisions of GASB 75 are effective for fiscal years beginning after June 15, 2017. The requirements of this Statement will improve the decision-usefulness of information in employer and governmental nonemployer contributing entity financial reports and will enhance its value for assessing accountability and interperiod equity by requiring recognition of the entire OPEB liability and a more comprehensive measure of OPEB expense. Decision-usefulness and accountability also will be enhanced through new note disclosures and required supplementary information. The consistency, comparability, and transparency of the information reported by employers and governmental nonemployer contributing entities about OPEB transactions will also be improved by the requirements of this Statement.

In June 2015, the GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The provisions of GASB 76 are effective for financial statements for periods beginning after June 15, 2015, and should be applied retroactively. This Statement supersedes GASB 55. The requirements in this Statement improve financial reporting by 1) raising the category of GASB Implementation Guides in the GAAP hierarchy; 2) emphasizing the importance of analogies to authoritative literature when the accounting treatment for an event is not specified in authoritative GAAP; and 3) requiring the consideration of consistency with the GASB Concepts Statements when evaluating accounting treatments specified in nonauthoritative literature.

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. The provisions of GASB 77 are effective for financial statements for periods beginning after December 15, 2015. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Disclosure of information about the nature and magnitude of tax abatements will make these transactions more transparent to financial statement users. As a result, users will be better equipped to understand 1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations and 2) the impact those abatements have on a government's financial position and economic condition.

Management is assessing the impact that the new GASB pronouncements will have on the State's financial statements.

D. Extinguishments of Debt – Major Funds

Extinguishments of debt reflected in the State's basic financial statements, as of June 30, 2015 (dollars in thousands) are as follows:

Gain on Extinguishment of Debt

The \$402.6 million gain on extinguishment of debt reported in the business-type activities relates to Unemployment Compensation. To assist the State in the repayment of outstanding advances owed to the federal government, the federal government implemented a reduction to the Federal Unemployment Tax Act (FUTA) credit it gives to employers. The additional tax paid by the employers and collected directly by the federal government as a result of the FUTA credit reduction is offset against the State's outstanding advance balance.

NOTE 3 GAAP versus NON-GAAP BUDGETARY BASIS

In the accompanying *Statement of Revenues, Expenditures and Changes in Fund Balances — Budget and Actual (Non-GAAP Budgetary Basis) — General Fund and Major Special Revenue Funds*, actual revenues, transfers-in, expenditures, encumbrances, and transfers-out reported on the non-GAAP budgetary basis do not equal those reported on the GAAP basis in the *Statement of Revenues, Expenditures and Changes in Fund Balances — Major Governmental Funds*.

This inequality results primarily from basis differences in the recognition of accruals, deferred resources, interfund transactions, and loan transactions, and from timing differences in the budgetary basis of accounting for encumbrances. On the non-GAAP budgetary basis, the State recognizes encumbrances as expenditures in the year encumbered, while on the modified accrual basis, the State recognizes expenditures when goods or services are received regardless of the year encumbered.

Original budget amounts in the accompanying budgetary statements have been taken from the first complete appropriated budget for fiscal year 2015. An appropriated budget is the expenditure authority created by appropriation bills that are signed into law and related estimated revenues. The original budget also includes actual appropriation amounts automatically carried over from prior years by law, including the automatic rolling forward of appropriations to cover prior-year encumbrances.

Final Budget amounts represent original appropriations modified by authorized transfers, supplemental and amended appropriations, and other legally authorized legislative and executive changes applicable to fiscal year 2015, whenever signed into law or otherwise legally authorized.

For fiscal year 2015, no excess expenditures over appropriations were reported in individual funds.

A reconciliation of the fund balances reported under the GAAP basis and budgetary basis for the General Fund and the major special revenue fund is presented on the following page.

NOTE 3 GAAP versus NON-GAAP BUDGETARY BASIS (Continued)

NOTE 4 DEPOSITS AND INVESTMENTS

A. Legal Requirements

The deposit and investment policies of the Treasurer of State and the State Board of Deposit are governed by the Uniform Depository Act, Chapter 135, Ohio Revised Code, which requires state moneys to be maintained in one of the following three classifications:

Active Deposits – Moneys required to be kept in cash or near cash status to meet current demands. Such moneys must be maintained either as cash in the State’s treasury or in any of the following: a commercial account that is payable or about to be withdrawn, in whole or in part, on demand, a negotiable order of withdrawal account, a money market deposit account or a designated warrant clearance account.

Inactive Deposits – Those moneys not required for use within the current two year period of designation of depositories. Inactive moneys may be deposited or invested only in certificates of deposit maturing not later than the end of the current period of designation of depositories.

Interim Deposits – Those moneys not required for immediate use, but needed before the end of the current period of designation of depositories. Interim deposits may be deposited or invested in the following instruments:

- US Treasury bills, notes, bonds or other obligations or securities issued by or guaranteed as to principal and interest by the United States;
- Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality;
- Bonds and other direct obligations of the State of Ohio issued by the Treasurer of State and of the Ohio Public Facilities Commission, the Ohio Housing Finance Agency, the Ohio Water Development Authority, and the Ohio Turnpike Infrastructure Commission;
- Commercial paper issued by any corporation that is incorporated under the laws of the United States or a state;
- Written repurchase agreements with any eligible Ohio financial institution that is a member of the Federal Reserve System or Federal Home Loan Bank, or any recognized U.S. government securities dealer in the securities enumerated above;
- No-load money market mutual funds consisting exclusively of securities and repurchase agreements enumerated above;
- Securities lending agreements with any eligible financial institution that is a member of the Federal Reserve System or Federal Home Loan Bank, or any recognized U.S. government securities dealer;
- Bankers’ acceptances maturing in 270 days or less;
- Certificates of deposit in the eligible institutions applying for interim moneys, including linked deposits, as authorized under Sections 135.61 to 135.67, Ohio Revised Code, agricultural linked deposits, as authorized under Sections 135.71 to 135.76, Ohio Revised Code, and housing linked deposits, as authorized under Sections 135.81 to 135.87, Ohio Revised Code;
- The Treasurer of State’s investment pool, as authorized under section 135.45, Ohio Revised Code;
- The Treasurer of State’s STAR Plus program;
- Debt interest, other than commercial paper as enumerated above, of corporations incorporated under the laws of the United States or a state, or foreign nations diplomatically recognized by the United States, or any instrument based on, derived from, or related to such interests that are denominated and payable in U.S. funds;

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

- Bonds, notes, and other obligations of any state or political subdivision thereof;
- Obligations of a board of education, as authorized under Section 133.10, Ohio Revised Code; and
- Obligations of a political subdivision issued under Chapter 133, Ohio Revised Code.

The reporting entity's deposits must be held in insured depositories approved by the State Board of Deposit and must be fully collateralized. However, in the case of foundations and other component units of the colleges and universities, deposits of these entities are not subject to the legal requirements for deposits of governmental entities.

Deposit and investment policies of certain individual funds and component units are established by Ohio Revised Code provisions other than the Uniform Depository Act and by bond trust agreements. In accordance with applicable statutory authority, the State Highway Patrol Retirement System Pension Trust Fund, the Tuition Trust Authority Enterprise Fund, the Workers' Compensation Enterprise Fund, the Retirement Systems Agency fund, and the higher education institutions may also invest in common and preferred stocks, domestic and foreign corporate and government bonds and notes, mortgage loans, limited partnerships, venture capital, real estate and other investments.

B. State-Sponsored Investment Pool

The Treasurer of State is the investment advisor and administrator of the State Treasury Asset Reserve of Ohio (STAR Ohio), a statewide external investment pool authorized under Section 135.45, Ohio Revised Code. STAR Ohio issues a stand-alone financial report, copies of which may be obtained by making a written request to: Director of Investments, Treasurer of State, 30 East Broad Street, 9th Floor, Columbus, Ohio 43215, by calling 1-800-648-7827, or by accessing the Treasurer of State's website at www.tos.ohio.gov.

C. Deposit and Investment Risks

Although exposure to risks is minimized by complying with the legal requirements explained above and internal policies adopted by the Treasurer of State and the investment departments at the various state agencies, the State's deposits and investments are exposed to risks that may lead to losses of value.

The following risk disclosures report investments by type. The "U.S. Agency Obligations" category includes securities issued by federal government agencies and instrumentalities, including government sponsored enterprises.

1. Custodial Credit Risk

Custodial credit risk for deposits exists when a government is unable to recover deposits or recover collateral securities that are in the possession of an outside party in the event of a failure of a depository financial institution.

Deposits of the primary government and its component units are exposed to custodial credit risk if they are not covered by depository insurance, and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name.

In Ohio, legal requirements for depositor-governments are met when deposits are collateralized with securities held by the pledging financial institution, or by the pledging institution's trust department or agent but not in the government's name. The State's reporting entity has not established specific policies for managing custodial credit risk exposure for deposits.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The table below reports the carrying amount of deposits, as of June 30, 2015, held by the primary government, including fiduciary activities, and its major discretely presented component units and the extent of exposure to custodial credit risk.

Primary Government (including Fiduciary Activities) and Major Discretely Presented Component Units					
Deposits—Custodial Credit Risk

				Collateralized with Securities Held by the Pledging Institution's Trust Department or Agent but not in the Depositor- Government's Name	Collateralized with Securities Held by the Pledging Institution
<i>Primary Government</i>	\$ 1,286,302	\$ 1,107,365	\$ 22,923	\$ 69,199	\$ 21,242
<i>Major Discretely Presented Component Units:</i>					
Ohio State University.....	1,020,691	1,003,400	-	-	970,132

Custodial credit risk for investments exists when a government is unable to recover the value of investments or collateral securities that are in the possession of an outside party in the event of a failure of a counterparty to a transaction.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department but not in the government's name.

The State's reporting entity has not established specific policies for managing custodial credit risk exposure for investments.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The following table reports the fair value, as of June 30, 2015, of investments by type for the primary government, including fiduciary activities, and the extent of exposure to custodial credit risk (dollars in thousands).

Variable Rate Notes	15,682	15,682
Total Ohio State University.....		\$ 1,812,966

2. Credit Risk

The risk that an investment’s issuer or counterparty will not satisfy its obligation is called credit risk. The exposure to this risk has been minimized through the laws and policies adopted by the State.

For investments that are included in the treasury’s cash and investment pool and reported as “Cash Equity with Treasurer” and other investment securities managed by the Treasurer of State’s Office, Chapter 135, Ohio Revised Code, requires such investments to carry certain credit ratings at the time of purchase as follows:

- Commercial paper must carry ratings in the two highest categories by two nationally recognized rating agencies;
- Debt interests (other than commercial paper) must carry ratings in the three highest categories by two nationally recognized rating agencies. This requirement is met when either the debt interest or the issuer of the debt interest carries this rating; and
- For Registered Investment Companies (Mutual Funds), no-load money market mutual funds must carry a rating of the highest category by one rating agency.

Investment policies of the Treasurer of State’s Office further define required credit ratings as follows:

- Commercial paper must have a short term debt rating of at least “A1” or equivalent by all agencies that rate the issuer, with at least two agencies rating the issuer;
- Bonds and notes of any State or political subdivision thereof must be rated in the three highest categories by Standard & Poor’s;
- Banker acceptances must carry a minimum of “A+” for long-term debt (“AAA” for foreign issuers) by a majority of the agencies rating the issuer. For short-term debt, the rating must be at least “A1” or equivalent by at least two agencies rating the issuer;

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

- Foreign debt must be guaranteed as to principal and interest by the foreign nation, and be rated in one of the three highest categories by at least two rating agencies; and
- Repurchase agreements must, in the case when issued by a counterparty that is not either: an Ohio financial institution that is a member of the Federal Reserve System, or a Federal Home Loan Bank, or a recognized government securities dealer, then such counterparty must have a short-term debt rating of at least A-1 by Standard & Poor's, or, if the counterparty is not explicitly rated A-1 by Standard & Poor's, then the counterparty must possess a guarantee from a Standard & Poor's-rated parent company.

Investment policies regarding credit risk that are in addition to Ohio Revised Code requirements and are specific to the following significant entities reported in the State's reporting entity are as follows:

Workers' Compensation Enterprise Fund

The Fund requires investment-grade ratings by at least two nationally-recognized bond rating services for fixed income securities.

Variable College Savings Plan Private-Purpose Trust Fund

The fixed income portfolio should consist primarily of domestic investment grade bonds and may be partially invested in below investment grade bonds. Any portion of the portfolio in below-investment grade securities should be invested in "BB" and "B" rated securities.

STAR Ohio Investment Trust Fund

Investment policies governing the STAR Ohio external investment pool require that all securities must be rated the equivalent of "A-1" or higher. Mutual funds must be rated AAA or AAAM by Standard and Poor's.

Retirement Systems Agency Fund

For the Ohio Public Employees Retirement System, non-investment grade securities are limited to 35 percent of the total Public Fixed Income portfolio assets. Limitations on the holdings of non-investment grade securities are included in the portfolio's guidelines.

For the Ohio Police and Fire Pension Fund,

- Securities in the core fixed income portfolio shall be rated "BBB-" or better by two standard rating agencies at the time of the purchase;
- Securities in the high yield fixed income portfolio are high yield bonds issued by U.S. corporations with a minimum rating of "CCC" or equivalent;
- Investment managers may purchase securities that are "Not Rated" as long as they deem these securities to be at least equivalent to the minimum ratings; and
- Short-term investments must be rated within the two highest classifications established by two standard rating agencies.

The Ohio Facilities Construction Commission Component Unit Fund also participates in the State Treasurer's Cash and Investment Pool. Risks associated with the Ohio Facilities Construction Commission's share of the pool are included in the disclosures for the Primary Government.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

All investments, as categorized by credit ratings in the tables below and on the following page, meet the requirements of the State's laws and policies, when applicable.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

Descriptions of the investment credit ratings shown in the tables are as follows:

Rating	General Description of Credit Rating
AAA/Aaa	Extremely strong
AA/Aa	Very strong
A/A-1	Strong
BBB/Baa	Adequate
BB/Ba	Less vulnerable
B	More vulnerable
CCC/Caa	Currently vulnerable to nonpayment
CC/Ca	Currently highly vulnerable to nonpayment
C	Currently highly vulnerable to nonpayment due to certain conditions (e.g., filing of bankruptcy petition or similar action by issuer)
D	Currently highly vulnerable to nonpayment for failure to pay by due date

3. Concentration of Credit Risk

The potential for loss of value increases when investments are not diversified. The State has imposed limits on the types of authorized investments to prevent this type of loss.

For investments that are included in the treasury’s cash and investment pool, and reported as “Cash Equity with Treasurer” and other investment securities managed by the Treasurer of State’s Office, Chapter 135, Ohio Revised Code, requires the following:

- Investments in commercial paper may not exceed 40 percent of the State’s total average portfolio;
- Bankers acceptances cannot exceed ten percent of the State’s total average portfolio;
- Corporate notes cannot exceed 25 percent of the State’s total average portfolio;
- Corporate notes of a single issuer, when combined with other investments of that issuer, may not exceed five percent of the State’s total average portfolio;
- Debt interest (other than commercial paper) shall not exceed 25 percent of the State’s total average portfolio, and when combined with commercial paper, the amount of a single issuer may not exceed five percent of the total average portfolio; and
- Debt interests in foreign nations may not exceed one percent of the State’s total average portfolio.

Investment policies of the Treasurer of State further restrict concentrations of investments. Maximum concentrations are as follows:

Investment Type	Maximum % of Total Average Portfolio
U.S. Treasury	100
Federal Agency (fixed rate)	100
Federal Agency (callable)	55
Federal Agency (variable rate)	10
Repurchase Agreements	50
Bankers’ Acceptances	10
Commercial Paper	40
Corporate Notes	25
Foreign Notes	1
Certificates of Deposit	20
Municipal Obligations	20
STAR Ohio	25
Mutual Funds	100

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The investment policies of the Treasurer of State's Office also specify that commercial paper, when combined with investments in other corporate obligations, are further limited to no more than five percent of the total average portfolio. Bankers' Acceptances are limited to no more than five percent of the total average portfolio in any single issuer. Mutual funds are further limited in that the Treasurer's holdings in a single mutual fund cannot be more than ten percent of the total assets of that mutual fund, nor more than ten percent of the total average portfolio. Repurchase Agreements are further limited in that any one counterparty may not exceed ten percent of the total average portfolio. Municipal obligations are further limited to no more than 2.5 percent of the total average portfolio in any single issuer.

Investment policies regarding concentration of investments that are in addition to Ohio Revised Code requirements and are specific to the following significant entities reported in the State's reporting entity are as follows:

Lottery Commission Enterprise Fund

No more than two percent of the total average portfolio may be invested in the securities of any single issuer with the following exceptions: U.S. government obligations, 100 percent maximum; repurchase agreements, limited at the lesser of five percent or \$250 million; and mutual funds, ten percent maximum.

State Highway Patrol Retirement System Pension Trust Fund

Policy prohibits the investment of more than ten percent of its fixed income portfolio in securities of any one issuer with the exception of U.S. government securities, or the investment of more than five percent of the Fund's total investments in any one issuer with the exception of U.S. government securities.

STAR Ohio Investment Trust Fund

Investments in a single issuer are further limited to no more than five percent of the total average portfolio except as follows:

- U.S. Treasury obligations, limited at 100 percent;
- U.S. Agency obligations, limited to 100 percent with no single U.S. Agency exceeding 33 percent unless maturing in 30 days or less and rated AA- or higher;
- repurchase agreement counterparties, limited at a maximum of 25 percent for A-1 rated counterparties and at a maximum of 50 percent for A-1+ rated counterparties, with further limitations based on the maturity of the investment;
- mutual funds, limited at 100 percent; with no more than ten percent of the total average portfolio invested in any single mutual fund and limited to no more than ten percent of the total assets of any single mutual fund;
- corporate obligations, limited to 25 percent, with no more than five percent invested with any single issuer;
- municipal bonds, limited at ten percent and limited to no more than 2.5 percent with any single issuer;
- commercial paper, limited to 40 percent, with no more than five percent invested with any single issuer; and
- bankers' acceptances, limited at ten percent, with no more than five percent invested with any single issuer.

Retirement Systems Agency Fund

For the Ohio Police and Fire Pension Fund, no more than ten percent of the core Fixed Income Portfolio may be invested in the securities of any one issuer, and no more than five percent in any one issuer on a dollar duration basis, with the exception of U.S. government or agency securities. For its High Yield Portfolio, no more than ten percent of the portfolio may be invested in securities of a single issue or issuer, unless approved by the Board of Trustees.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

As of June 30, 2015, all investments meet the requirements of the State’s law and policies, when applicable. However, investments in certain issuers are at least five percent of investment balances, as follows (dollars in thousands):

Issuer	Amount	Percentage of Investment Balance
<i>Governmental and Business-Type Activities:</i>		
Federal Home Loan Bank	2,398,823	6%
<i>STAR Ohio Investment Trust Fund:</i>		
Federal Home Loan Bank	651,398	20%
<i>Ohio Facilities Construction Commission Component Unit Fund:</i>		
Federal National Mortgage Association	27,942	5%
Federal Home Loan Bank	102,351	19%
Federal Home Loan Mortgage Corporation	34,358	6%
Federal Farm Credit Bank.....	41,404	8%

4. Interest Rate Risk

Certain of the State’s investments are exposed to interest rate risk. This risk exists when changes to interest rates will negatively impact the fair value of an investment. The State has adopted policies to mitigate this risk.

Investment policies governing the treasury’s cash and investment pool, which is reported as “Cash Equity with Treasurer” and is managed by the Treasurer of State’s Office, limit maturities of short term investments to no more than 18 months with a weighted average maturity not to exceed 90 days. For long-term investments, maturities are limited to five years or less, except for those that are matched to a specific obligation or debt of the State. A duration target of three years or less has been established for long-term investments. Policy also limits maturities for specific investment types as follows: five years for corporate notes, 270 days for commercial paper, 90 days for repurchase agreements, 270 days for bankers’ acceptances, and five years for foreign debt.

Investment policies regarding investment maturities that are in addition to Ohio Revised Code requirements and are specific to the following significant entities reported in the State’s reporting entity are as follows:

Workers’ Compensation Enterprise Fund

Policy requires each fixed-income portfolio to be invested with duration characteristics that are within a range consistent with Barclay’s Capital Fixed Income Index ranges.

Lottery Commission Enterprise Fund

Investments are required to have maturities of 30 years or less. In no case may the maturity of an investment exceed the expected date of disbursement of those funds.

Variable College Savings Plan Private-Purpose Trust Fund

Policy requires each fixed-income portfolio to be invested with duration characteristics that are within a range consistent with Barclay’s Aggregate Index ranges.

STAR Ohio Investment Trust Fund

Investment policies limit maturities of investments to a final stated maturity of 397 days or less, with a 762 day limit for floating rate U.S. Treasury and U.S. Agency obligations. Repurchase agreements are limited to maturities of 30 days and both commercial paper and bankers’ acceptances are limited to maturities of 270 days.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

Retirement Systems Agency Fund

The Public Fixed Income Policy of the Ohio Public Employees Retirement System requires an average effective duration of all defined benefit and health care assets to be within 20 percent of the option-adjusted duration of the Public Fixed Income asset class, excluding Liquidity Funds. Liquidity Funds duration must be within a range of zero to 120 percent of the average option-adjusted duration.

As of June 30, 2015, investments reported as “Cash Equity with Treasurer” have terms that make their fair values highly sensitive to the interest rate changes. The U.S. agency obligations investment type includes \$2.26 billion of investments with call dates during fiscal years 2016 through 2020. All of these investments have maturities between fiscal years 2016 through 2021 and are reported in the table on the following page as maturing in one to six years.

In addition, several investments reported as “Investments” have terms that make their fair values highly sensitive to interest rate changes. U.S. agency obligations of \$187.9 million and corporate bonds of \$25.5 million have daily, monthly, and quarterly reset dates. Commercial paper of \$92.6 million has a 31-day put notice. U.S. Treasury Floating Rate Notes of \$15 million have quarterly reset dates. Certificates of deposit of \$10 million have daily reset rates. For “Collateral on Lent Securities,” variable rate notes of \$1.11 billion and \$110 million have quarterly and daily reset rates, respectively. Commercial paper of \$110 million has monthly reset dates. Repurchase agreements of \$329 million have daily reset rates.

The Lottery Commission Enterprise Fund has “Collateral on Lent Securities” with reset dates. Variable rate notes of \$42.5 million and \$3 million have quarterly and daily reset dates, respectively. Commercial paper of \$8 million has monthly reset dates. Repurchase agreements of \$16 million have daily reset dates.

Also during fiscal year 2015, the Treasurer of State acted as the custodian of the Retirement Systems Agency Fund’s investments. These investments contain terms that make their fair values highly sensitive to interest rate changes. Specific information on the nature of the investments and their terms can be found in each respective retirement system’s Comprehensive Annual Financial Report.

The tables on the following page list the investment maturities of the investments for the primary government, including fiduciary activities, and its major discretely presented component units. All investments at June 30, 2015, meet the requirements of the State’s laws and policies, when applicable. The Ohio Facilities Construction Commission Component Unit Fund also participates in the State Treasurer’s Cash and Investment Pool. Risks associated with the Ohio Facilities Construction Commission’s share of the pool are included in the disclosures for the Primary Government.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

5. Foreign Currency Risk

Investments in stocks and bonds denominated in foreign currencies are affected by foreign currency risk which arises from changes in currency exchange rates.

As of June, 30, 2015, investments denominated in the currency of foreign nations, as detailed in the following tables for the primary government, including fiduciary activities, and the Ohio State University major discretely presented component unit, meet the requirements of the State's laws and policies, when applicable.

Total Foreign Investments - Ohio State University			<u>\$ 447,493</u>

The State's laws and investment policies include provisions to limit the exposure to this type of risk. According to Chapter 135, Ohio Revised Code, investments managed by the Treasurer of State's Office, and reported as "Cash Equity with Treasurer", are limited to the debt of nations diplomatically recognized by the United States and that are backed by the full faith and credit of that foreign nation.

Investment policies of the Treasurer of State's Office further limit the types of authorized investments. These requirements include maturity limitations of five years at the date of purchase and denomination of principal and interest in U.S. dollars. Other limitations are noted in the previous sections of this note that discuss credit risk and concentration of credit risk.

Investment policies regarding foreign currency risk have also been adopted for the following significant entities reported in the primary government and are specific to those entities:

Retirement Systems Agency Fund

For the Ohio Public Employees Retirement System, non-U.S. dollar-based securities are limited to 25 percent of the total Fixed Income assets. Additionally, no more than 40 percent of the Fixed Income assets may be from non-U.S. issuers.

D. Securities Lending Transactions

The Treasurer of State participates in the securities lending programs for securities included in the "Cash Equity with Treasurer" and "Investments" accounts. Each lending program is administered by a custodial agent bank, whereby certain securities are transferred to an independent broker-dealer (borrower) in exchange for collateral.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

At the time of the loan, the Treasurer of State requires its custodial agents to ensure that the State's lent securities are collateralized at no less than 102 percent of fair value. At no point in time can the value of the collateral be less than 100 percent of the underlying securities.

Consequently, as of June 30, 2015, the State had no credit exposure since the amount the State owed to the borrowers at least equaled or exceeded the amount borrowers owed to the State.

The State invests cash collateral in short-term obligations, which have a weighted average maturity of 36 days or less while the weighted average maturity of securities loans is 12 days or less.

The State cannot sell securities received as collateral unless the borrower defaults. Consequently, these amounts are not reflected in the financial statements.

According to the lending contracts the Treasurer of State executes for the State's cash and investment pool and for the Ohio Lottery Commission Enterprise Fund, the securities lending agent is to indemnify the Treasurer of State for any losses resulting from either the default of a borrower or any violations of the security lending policy.

During fiscal year 2015, the State had not experienced any losses due to credit or market risk on securities lending activities.

In fiscal year 2015, the Treasurer of State lent U.S. government and agency obligations and corporate notes in exchange for cash collateral.

E. Investment Derivatives

As of June 30, 2015, the State reports the following investment derivatives in its financial statements (dollars in thousands):

Investment Derivatives					
As of June 30, 2015					
<i>(dollars in thousands)</i>					
	Notional	Fair Value at 6/30/2015		Increase (Decrease) in Fair Value	
		Amount	Reported as	Amount	Reported as
Governmental Activities:					
Investment Derivatives:					
Pay-fixed interest rate swaps	\$ 112,370	\$ (11,197)	Other Noncurrent Liability	\$ 655	Operating Restricted Investment Loss - Primary, Secondary and Other Education Function
Fiduciary Funds—Agency:					
Investment Derivatives:					
Credit default swaps	58,117	1,212	Investments	1,160	Investment Income
Credit linked notes	-	-	Investments	(2,899)	Investment Income
Equity swaps	1,206,948	(18,576)	Investments	(30,857)	Investment Income
Foreign exchange forward currency contracts	11,288,539	(23,838)	Investments	18,613	Investment Income
Futures contracts	(153,027)	(3,959)	Investments	(4,293)	Investment Income
Interest rate swap	7,047,139	(42)	Investments	1,372	Investment Income
Options	1,761,403	4,530	Investments	7,176	Investment Income
Total return swaps	1,361,893	9,625	Investments	(2,093)	Investment Income
Warrants	1,821	3,209	Investments	(5,770)	Investment Income

For governmental activities, the pay-fixed swaps included in the table above do not meet the criteria for hedging derivatives as of June 30, 2015, and are reported as investment derivatives. The increases in the fair values for fiscal year 2015 of \$655 thousand are reported as operating restricted investment gains for the primary, secondary and other education function in the Statement of Activities.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The credit quality ratings of JPMorgan Chase, the counterparty, are Aa3/A+/AA- as of June 30, 2015. The State was not exposed to credit risk because these swaps had negative fair values at June 30, 2015. However, should interest rates change and the fair values of the swaps become positive, the State would be exposed to credit risk in the amount of the derivative's positive fair value.

Each swap counterparty is required to post collateral to a third party when their respective credit rating, as determined by specified nationally recognized credit rating agencies, falls below the trigger level defined in the swap agreement and based on the fair value of the swap. This arrangement protects the State by mitigating the credit risk, and therefore termination risk, inherent in the swap. Collateral on all swaps must be in the form of cash or U.S. government securities held by a third-party custodian. Net payments are made on the same date, as specified in the agreements.

These swaps, maturing March 15, 2025, are associated with Common Schools Bonds, Series 2005A and Series 2005B. The underlying index is a variable rate based on 62 percent of the ten year LIBOR. The combination of the variable-rate bonds and a floating-to-fixed swap creates a low-cost, long-term synthetic fixed-rate debt that protects the State from rising interest rates.

The Ohio Public Employees Retirement System, Ohio Police and Fire Pension Fund, School Employees Retirement System of Ohio, and State Teachers Retirement System of Ohio have entered into the derivatives reported in the Agency Fund. All derivatives of these retirement systems are categorized as investment derivatives. The fair values and associated risks of the investment derivatives for the Agency Fund are included in the balances and risks disclosed in the previous sections of this note disclosure.

NOTE 5 RECEIVABLES

A. Taxes Receivable – Primary Government

Current taxes receivable are expected to be collected in the next fiscal year while noncurrent taxes receivable are not expected to be collected until more than one year from the balance sheet date. As of June 30, 2015, approximately \$82.6 million of the net taxes receivable balance is also reported as deferred inflows of resources on the governmental funds' balance sheet, all of which is reported in the General Fund.

Refund liabilities for income taxes, totaling approximately \$763.4 million are reported as "Refund and Other Liabilities" for governmental activities on the Statement of Net Position and in the General Fund on the governmental funds' Balance Sheet.

The following table summarizes taxes receivable for the primary government (dollars in thousands):

	Governmental Activities		
	General	Nonmajor Governmental Funds	Total Primary Government
Current-Due Within One Year:			
Income Taxes	\$ 394,727	\$ -	\$ 394,727
Sales Taxes	519,964	-	519,964

As of June 30, 2015, the Ohio Facilities Construction Commission, a major discretely presented component unit fund, reported an intergovernmental payable balance totaling approximately \$545.8 million for long-term funding contracts the Commission has with local school districts. In the government-wide Statement of Net Position, the intergovernmental payable balance for the Commission is included with "Other Noncurrent Liabilities." The contracts commit the State to cover the costs of construction of facilities of the school districts once the districts have met certain eligibility requirements.

In the major discretely presented component units, the "Refunds and Other Liabilities" balance reported, as of June 30, 2015, is comprised largely of payables similar to the primary government, such as refund and security deposits, compensated absences, capital leases, and other miscellaneous payables.

NOTE 7 INTERFUND BALANCES AND TRANSFERS AND SIGNIFICANT TRANSACTIONS WITH COMPONENT UNITS

A. Interfund Balances

Interfund balances, as of June 30, 2015, consist of the following (in thousands):

Due from	Business-Type Activities					Total	Total Primary Government
	Major Proprietary Funds			Nonmajor Proprietary Funds			
	Workers' Compensation	Lottery Commission	Unemployment Compensation				
Due from							
Nonmajor Governmental Funds						\$ 1,297	
Total Primary Government						\$ 1,297	
Business-Type Activities							
Major Governmental Funds:							
General	\$ 469,875	\$ -	\$ -	\$ 8,715	\$ 478,590	\$ 478,590	\$ 478,590
Job, Family and Other Human Services	13,963	-	-	-	13,963	13,963	13,963
Nonmajor Governmental Funds	158,705	1,518	1,643	-	161,866	163,163	163,163
Total Governmental Activities	642,543	1,518	1,643	8,715	654,419	655,716	655,716
Business-Type Activities:							
Major Proprietary Funds:							
Lottery Commission	1,485	-	-	-	1,485	1,485	1,485
Nonmajor Proprietary Funds	7,616	-	-	-	7,616	7,616	7,616
Total Business-Type Activities	9,101	-	-	-	9,101	9,101	9,101
Total Primary Government	\$ 651,644	\$ 1,518	\$ 1,643	\$ 8,715	\$ 663,520	\$ 664,817	\$ 664,817

Interfund balances result from the time lag between dates that 1) interfund goods and services are provided or reimbursable expenditures/expenses occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made.

The State's primary government is permitted to pay its workers' compensation liability on a terminal-funding (pay-as-you-go) basis. As a result, the Workers' Compensation Enterprise Fund recognized \$651.6 million as an interfund receivable for the unbilled premium due for the primary government's share of the Bureau's actuarially determined liability for compensation. In the Statement of Net Position, the State includes the liability in the internal balance reported for governmental activities.

NOTE 7 INTERFUND BALANCES AND TRANSFERS AND SIGNIFICANT TRANSACTIONS WITH COMPONENT UNITS (Continued)

B. Interfund Transfers

Interfund transfers, for the fiscal year ended of June 30, 2015, consist of the following (dollars in thousands):

Transferred from	Transferred to

Unemployment Compensation	-	7,039
Total Business-Type Activities	-	1,110,323
Total Primary Government	\$ 28,262	\$ 3,701,478

Transfers are used to 1) move revenues from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to expend them, 2) move receipts restricted to debt service from the funds collecting the receipts, to the debt service fund as the debt service payments become due, and 3) utilize unrestricted revenues collected in one fund to finance various programs accounted for in other funds in accordance with budget authorizations.

NOTE 7 INTERFUND BALANCES AND TRANSFERS AND SIGNIFICANT TRANSACTIONS WITH COMPONENT UNITS (Continued)

C. Discretely Presented Component Units

For fiscal year 2015, the discretely presented component units reported \$2.43 billion in state assistance revenue from the primary government in the Statement of Activities.

Included in "Primary, Secondary, and Other Education" expenses reported for the governmental activities, is the funding that the primary government provided to the Ohio Facilities Construction Commission for capital construction at local school districts. The primary government also transferred bond proceeds to the Ohio Facilities Construction Commission to pay the State's share of the cost of rebuilding elementary and secondary school facilities across the State.

Additionally, the primary government provided financial support to the colleges and universities in the form of state appropriations for instructional and non-instructional purposes and capital appropriations for construction. This assistance is included in "Higher Education Support" expenses reported for governmental activities.

Details of balances and activity reported in the government-wide financial statements between the primary government and its discretely presented component units are summarized below.

Primary Government <i>(dollars in thousands)</i>

For fiscal year 2015, Ohio State University reported approximately \$342.2 million in depreciation expense.

NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS

All part-time and full-time employees and elected officials of the State, including its component units (unless otherwise excluded in Ohio Revised Code), are eligible to be covered by one of the following retirement plans:

- Ohio Public Employees Retirement System
- State Teachers Retirement System of Ohio
- State Highway Patrol Retirement System
- Alternative Retirement Plan

A. Ohio Public Employees Retirement System (OPERS)

Pension Benefits

OPERS is a cost-sharing, multiple-employer public employee retirement system that administers three separate pension plans – a defined benefit plan, a defined contribution plan, and a combined plan with features of both the defined benefit plan and the defined contribution plan.

OPERS issues a stand-alone financial report, copies of which may be obtained by visiting <https://www.opers.org/investments/cafr.shtml>, making a written request to Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or calling (800) 222-7377 or (614) 222-5601.

As established under Chapter 145, Ohio Revised Code, OPERS provides retirement and disability benefits, annual cost-of-living adjustments, and survivor and death benefits to plan members and beneficiaries enrolled in the defined benefit and combined plans.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

Most employees who are members of OPERS and who have fewer than five total years of service credit as of December 31, 2002, and new employees hired on or after January 1, 2003, are eligible to select one of the OPERS retirement plans, as listed above, in which they wish to participate. Members not eligible to select a plan include law enforcement officers, (who must participate in the defined benefit plan), college and university employees who choose to participate in one of the university's alternative retirement plans (see NOTE 9D), and re-employed OPERS retirees. Participants may change their selection once prior to attaining five years of service credit, once after attaining five years of service credit but prior to attaining ten years of service credit, and once after attaining ten years of service credit.

Senate Bill 343 was enacted into law with an effective date of January 7, 2013. The pension changes included in the bill modify the retirement eligibility criteria and benefits to provide for longer life expectancies of members. The pension plan design changes also include updated benefits to the disability program, which addresses eligibility for members to return to work. Other changes include updated provisions such as the cost of purchasing service credit and the impact of retiring early with a reduced retirement benefit.

In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. Members eligible to retire under the law in effect prior to Senate Bill 343 or who will be eligible to retire no later than five years after January 7, 2013, comprise Transition Group A. Members with 20 years of service credit prior to January 7, 2013, or who will be eligible to retire no later than 10 years after January 7, 2013, are included in Transition Group B. Those members who are not in either Group A or B or were hired after January 7, 2013, are in Transition Group C.

Members in Transition Groups A and B are eligible to retire at age 55 with 25 years of credited service, or at or after age 60 with 60 contributing months of credited service. Members in Transition Group C are eligible to retire at age 57 with 25 years of service credit or at age 62 with 5 years of service credit. Regular employees retiring before meeting age and service credit eligibility requirements receive a percentage reduction in benefit amounts. Law enforcement employees may retire at age 52 with 15 or more years of credited service.

The retirement allowance for the defined benefit plan is calculated on the basis of age, years of credited service, and the final average salary. The annual allowance for regular employees is determined by multiplying the final average salary by 2.2 percent for each year of Ohio contributing service up to 30 years and by 2.5 percent for all other years in excess of 30 years of credited service. The annual allowance for law enforcement employees is determined by multiplying the final average salary by 2.5 percent for the first 25 years of Ohio contributing service, and by 2.1 percent for each year of service over 25 years. Retirement benefits increase three percent annually of the original base amount regardless of changes in the Consumer Price Index.

The retirement allowance for the defined benefit portion of the combined plan is calculated on the basis of age, years of credited service, and the final average salary. The annual allowance for regular employees is determined by multiplying the final average salary by one percent for each year of Ohio contributing service up to 30 years and by 1.25 percent for all other years in excess of 30 years of credited service. Retirement benefits for the defined benefit portion of the plan increase three percent annually of the original base amount regardless of changes in the Consumer Price Index. Additionally, retirees receive the proceeds of their individual retirement plans in a manner similar to retirees in the defined contribution plan, as discussed below.

Regular employees who participate in the defined contribution plan may retire after they reach the age of 55. The retirement allowance for the defined contribution plan is based entirely on the total member and vested employer contributions to the plan, plus or minus any investment gains or losses. Employer contributions vest at a rate of 20 percent per year over a five-year vesting period. Retirees may choose from various payment options including monthly annuities, partial lump-sum payments, payments for a guaranteed period, payments for a specific monthly amount, or various combinations of these options. Participants direct the investment of their accounts by selecting from professionally managed OPERS investment options.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

Retirees covered under any one of the three OPERS plan options may also choose to take part of their retirement benefit in a Partial Lump-Sum Option Plan (PLOP). Under this option, the amount of the monthly pension benefit paid to the retiree is actuarially reduced to offset the amount received initially under the PLOP. The amount payable under the PLOP cannot be less than six times or more than 36 times the monthly amount that would be payable to the member under the plan of payment selected, and cannot result in a monthly allowance that is less than 50 percent of that monthly amount.

Employer and employee required contributions to OPERS are established by the Retirement Board and are within the limits authorized by the Ohio Revised Code. The contribution rates are based on percentages of covered employees' gross salaries, which are calculated annually by the retirement system's actuaries. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14 percent of covered payroll for regular employees and 18.1 percent of covered payroll for law enforcement employees.

Contribution rates for fiscal year 2015, which are the same for the defined benefit, defined contribution, and combined plans, were as follows:

	Contribution Rates	
	Employee Share	Employer Share
<u>Regular Employees:</u>		
July 1, 2014 through June 30, 2015.....	10.00%	14.00%
<u>Law Enforcement Employees:</u>		
July 1, 2014 through June 30, 2015.....	13.00%	18.10%

In the combined plan, the employer's share finances the defined benefit portion of the plan, while the employee's share finances the defined contribution portion of the plan. In the defined contribution plan, both the employee and employer share of the costs are used to finance the plan.

At June 30, 2015, the State reports a liability of \$2.5 billion for its proportionate share of the net pension liability for the Traditional Plan and an asset for its proportionate share of the net pension asset of \$7.6 million for the Combined Plan. Ohio Facilities Construction Commission and Ohio State University Discretely Presented Component Units reports liabilities of \$5.1 million and \$1.05 billion, for their proportionate shares of the net pension liability for the Traditional Plan. Ohio Facilities Construction Commission Discretely Presented Component Unit also reports an asset of \$25 thousand for its proportionate share of the net pension asset for the Combined Plan. The net pension asset/liability was measured as of December 31, 2014. The total pension asset/liability used to calculate the net pension asset/liability was determined by an actuarial valuation as of December 31, 2014. The State's proportion of the net pension asset/liability is determined by a measure of the State's proportionate relationship of employer contributions made to OPERS to the total contributions made to OPERS by all employers and non-employer contributing entities to the plan. The State's proportion of the net asset/liability is based on the State's long-term share of contributions to the plan as compared to the total projected long-term contributions of employers and all non-employer contributing entities. At December 31, 2014, the State's proportion was 20.73 percent for the Traditional Plan and 20.23 percent for the Combined Plan. The proportions for the Traditional Plan and Combined Plan for Ohio Facilities Construction Commission Discretely Presented Component Unit were .04 percent and .06 percent, respectively. The proportion for the Traditional Plan for Ohio State University Discretely Presented Component Unit was 8.8 percent.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

For the year ended June 30, 2015, the State recognized pension expense of \$279.6 million, Ohio Facilities Construction Commission recognized \$569 thousand, and Ohio State University Discretely Presented Component Unit recognized \$151.8 million. At June 30, 2015, the State reports deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government	Ohio Facilities Construction Commission	Ohio State University
Deferred Outflow of Resources:			
Net Difference between Projected and Actual Earnings on Pension Plan investments.....	\$ 133,001	\$ 271	\$ 57,206
Contributions subsequent to the measurement date.....	203,601	415	84,922
Total.....	<u>\$ 336,602</u>	<u>\$ 686</u>	<u>\$ 142,128</u>
Deferred Inflow of Resources:			
Changes in Proportion and Differences Between State Contributions and Proportionate Share of Contributions.....	\$ (97)	\$ -	\$ -
Differences between expected and actual experience.....	(46,843)	(96)	(20,512)
Total.....	<u>\$ (46,940)</u>	<u>\$ (96)</u>	<u>\$ (20,512)</u>

Deferred Outflows of Resources of \$203.6 million related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Ohio Facilities Construction Commission and Ohio State University Discretely Presented Component Units will recognize \$415 thousand and \$84.9 million, respectively, as reduction of their net pension liabilities. Other amounts reported as Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions will be recognized in pension expense as follows:

	Primary Government	Ohio Facilities Construction Commission	Ohio State University
YEAR ENDED JUNE 30:			
2016.....	\$ 12,710	\$ 26	\$ 5,453
2017.....	12,583	26	5,452
2018.....	29,281	60	12,643
2019.....	32,699	67	14,088
2020.....	(275)	(1)	(214)
Thereafter.....	(937)	(3)	(728)

Actuarial Assumptions:

The Total Pension Liability in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Traditional Plan	Combined Plan
Inflation.....	3.75	3.75 Percent
Salary Increases.....	4.25-10.05	4.25-8.05 Percent
Investment Rate of Return.....	8.00	8.00 Percent
COLA.....	3.00	3.00 Percent
Actuarial Cost Method.....	Individual Entry Age	

Mortality rates were based on the RP-2000 Combined Mortality Table for males or females, as appropriate, with adjustments for mortality improvements based on Projection Scale AA.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

The actuarial assumptions used in the December 31, 2014 valuation were based on the results of an actuarial experience study dated December 31, 2010.

An estimate range for investment return assumption is developed and based on the target allocation adopted by the OPERS Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Fixed Income.....	23.00%	2.31%
Domestic Equity.....	19.90%	5.84%
Real Estate.....	10.00%	4.25%
Private Equity.....	10.00%	9.25%
International Equities.....	19.10%	7.40%
Other Investments.....	18.00%	4.59%
Total Fund.....	100.00%	5.28%

*10-year annualized geometric nominal returns, which include the real rate of return and inflation and does not include investment expenses.

Discount Rate - The discount rate used to measure the total pension liability was 8%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at statutory contribution rates. In each period of the projection, employer contributions were assumed to be applied first to the service cost of all members, with any remaining amount included in projected employer contributions for current members. Therefore, the long-term expected rate of return of 8% was applied to all periods of projected benefit payments to determine the total pension liability as of December 31, 2014.

Sensitivity of the State's proportionate share of the Net Pension Liability to changes in the Discount Rate – The following table represents the net pension liability as of December 31, 2014, calculated using the current period discount rate assumption of 8%. Also shown is what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7%) or one percentage point higher (9%) than the current assumption:

	1% Decrease (7%)	Current Discount Rate (8%)	1% Increase (9%)
Net Pension Liability:			
Primary Government.....	\$ 4,592,661	\$ 2,496,359	\$ 730,833
Ohio Facilities Construction Commission.....	\$ 9,306	\$ 5,058	\$ 1,481
Ohio State University.....	\$ 1,955,831	\$ 1,059,519	\$ 304,734

Additional information regarding the pension plan fiduciary net position is available in the separately issued OPERS financial report by visiting the OPERS Web site at <https://www.opers.org/investments/cafr.shtml> .

Other Postemployment Benefits (OPEB)

OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the defined benefit and combined plans. Members of the defined contribution plan do not qualify for ancillary benefits, including post-employment healthcare coverage.

In order to qualify for post-employment healthcare coverage, age-and-service retirees under the defined benefit and combined plans must have ten or more years of qualifying Ohio service credit. Healthcare coverage for disability benefit recipients and qualified survivor benefit recipients is available. The healthcare coverage provided by OPERS meets the definition of an OPEB as described in GASB Statement 45.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible recipients. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

The Ohio Revised Code provides the statutory authority requiring public employers to fund postretirement healthcare through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of postretirement healthcare benefits.

Employer contribution rates are expressed as a percentage of covered payroll of active members. For fiscal year 2015, state employers contributed at a rate of 14 percent of covered payroll and law enforcement employers contributed at 18.1 percent. These are the maximum contribution rates permitted by the Ohio Revised Code. Active members do not make contributions to the OPEB plan.

OPERS' Post Employment Health Care plan was established under, and is administrated in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside for funding of postemployment healthcare benefits. The contribution rates for regular and law enforcement employees were as follows:

	Employer Share	
	Defined Benefit Plan	Combined Plan
July 1, 2014 through June 30, 2015.....	2.00%	2.00%

The OPERS Board of Trustees is also authorized to establish rules for the payment of a portion of the healthcare benefits provided by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under Senate Bill 343 and the approved healthcare changes, OPERS expects to be able to consistently allocate four percent of the employer contributions toward the healthcare fund after the end of the transition period.

Employer contributions required and made for the last three fiscal years for the defined benefit plan and the defined benefit portion of the combined plan were as follows (dollars in thousands):

	2015	2014	2013
<i>Primary Government:</i>			
Regular Employees	\$ 51,394	\$ 38,693	\$ 69,437
Law Enforcement Employees.....	608	447	757
Total	<u>\$ 52,002</u>	<u>\$ 39,140</u>	<u>\$ 70,194</u>

Major Discretely Presented Component Units:

Ohio Facilities Construction Commission	\$ 107	\$ 81	\$ 136
Ohio State University.....	23,400	17,016	27,816

Members of the defined contribution plan may access a Retiree Medical Account upon retirement. During fiscal year 2015, employers paid 4.5 percent of their share into members' accounts. Currently, an employee's interest in the medical account for qualifying healthcare expenses vests on the basis of length of service, with 100 percent vesting attained after five years of credited service for employees hired prior to July 1, 2015. Members who elect the member-directed plan after July 1, 2015, will vest at 15 years of service at a rate of 10 percent each year starting with the sixth year of participation. Employers make no further contributions to a member's medical

NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)

account after retirement, nor do employers have any further obligation to provide postemployment healthcare benefits.

Employer contributions required and made for the last three fiscal years for the defined contribution plan were as follows (dollars in thousands):

	2015	2014	2013
Primary Government.....	\$ 1,684	\$ 1,208	\$ 2,011

Major Discretely Presented Component Units:

Ohio State University.....	\$ 1,026	\$ 736	\$ 1,075
----------------------------	----------	--------	----------

The number of active contributing participants for the primary government was 65,398 as of June 30, 2015.

Early Retirement Incentives (ERI)

State agencies, or departments within agencies, may offer voluntary ERI under Section 145.297, Ohio Revised Code. Through the ERI Program, the State can offer to purchase up to a maximum of five years worth of service credit from OPERS on behalf of employees who would then meet the age and service requirements to qualify for retirement. The ERI plan must remain in effect for at least one year and the employees must be given at least thirty days' notice before terminating the plan.

State agencies are also required under Section 145.298, Ohio Revised Code, to offer a generally similar ERI when terminating a number of employees that equals or exceeds the lesser of 350 employees or 40 percent of the agency's workforce, as a result of a closure of the agency or a lay-off within a six-month period. Under these circumstances, qualifying employees must decide whether to accept the offer in the time between the announcement of the layoffs and the effective date. The amount of service credit offered cannot exceed five years.

The ERI agreements establish an obligation to pay specific amounts on fixed dates. State agencies that implement an ERI must pay their obligation to OPERS within a maximum of two years after the agreement is finalized, so the State does not discount the amount of the liability incurred under the agreement.

As of June 30, 2015, the State had no significant liability balances relative to existing ERI agreements with state employees covered by OPERS. During fiscal year 2015, the State did not incur any significant expenditures/expenses related to ERI agreements.

B. State Teachers Retirement System of Ohio (STRS)

Pension Benefits

STRS is a cost-sharing, multiple-employer public employee retirement system that administers three separate pension plans – a defined benefit plan, a defined contribution plan, and a combined plan with features of both the defined benefit plan and the defined contribution plan. STRS benefits are established under Chapter 3307, Ohio Revised Code.

STRS also provides death, survivors', disability, healthcare, and supplemental benefits to members in the defined benefit and combined plans.

STRS issues a stand-alone financial report, copies of which may be obtained by making a written request to State Teachers Retirement System of Ohio, Attention: Chief Financial Officer, 275 East Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org/publications/annualreports/cafrs.html.

The Ohio Legislature passed Substitute Senate Bill 342 in September 2012. The pension reform bill went into effect January 2013 with most plan changes starting July 1, 2013 or later. Changes to the pension plan include

NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)

increasing the age and service requirements for retirement, increasing the period for determining final average salary, changing to a lower fixed benefit formula, increasing the member contributions to the system, and reducing the cost-of-living adjustment.

Participants in the defined benefit plan may retire after 30 years of credited service regardless of age, or at or after age 55 with 25 years of credited service, or at or after age 60 with five years of credited service. Members retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit amounts. Retirees are entitled to a maximum annual retirement benefit, payable in monthly installments for life, equal to the greater of the "formula benefit" calculation or the "money-purchase benefit" calculation. Beginning August 1, 2015, eligibility requirements for an unreduced benefit will change.

Under the "formula benefit" calculation, the retirement allowance is based on years of credited service and the final average salary, which is the average of the member's three highest salary years. The annual allowance is determined by multiplying the final average salary by 2.2 percent for the first 30 years of credited service. Each year over 30 years is incrementally increased by .1 percent, starting at 2.5 percent for the 31st year of contributing service up to a maximum allowance of 100 percent of final average salary. Upon reaching 35 years of Ohio service, the first 31 years of Ohio contributing service are multiplied by 2.5 percent, and each year over 31 years is incrementally increased by .1 percent starting at 2.6 percent for the 32nd year.

Under the "money-purchase benefit" calculation, a member's lifetime contributions, plus interest at specified rates, are matched by an equal amount from contributed employer funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance. Benefits are increased annually by three percent of the original base amount. Effective August 1, 2013, the money purchase benefit was eliminated.

Retirees can also choose a "partial lump-sum" option plan. Under this option, retirees may take a lump-sum payment that equals from six to 36 times their monthly service retirement benefit. Subsequent monthly benefits are reduced proportionally.

Employees hired after July 1, 2001, and those with less than five years of service credit at that date, may choose to participate in the combined plan or the defined contribution plan, in lieu of participation in the defined benefit plan.

Participants in the defined contribution plan are eligible to retire at age 50. Employee and employer contributions are placed into individual member accounts, and members direct the investment of their accounts by selecting from various professionally managed investment options. Retirees may choose to receive either a lump-sum distribution or a monthly annuity for life. Employer contributions become vested after one year of service, while employee contributions vest immediately.

Participants in the combined plan may start to collect the defined benefit portion of the plan at age 60 with five years of service. The annual allowance is determined by multiplying the final average salary by one percent for each year of Ohio contributing service credit. Participants in the combined plan may also participate in the partial lump-sum option plan, as described previously, for the portion of their retirement benefit that is provided through the defined benefit portion of the plan. The defined contribution portion of the plan may be taken as a lump sum or as a lifetime monthly annuity.

A retiree of STRS or any other Ohio public retirement system is eligible for re-employment as a teacher after two months from the date of retirement. Members and the employer make contributions during the period of re-employment. Upon termination or the retiree reaches the age of 65, whichever comes later, the retiree is eligible for an annuity benefit or a lump-sum payment in addition to the original retirement allowance. Alternatively, the retiree may receive a refund of member contributions with interest before age 65, once employment is terminated.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

Employer and employee required contributions to STRS are established by the Board and limited under the Ohio Revised Code to employer and employee rates of 14 percent and are based on percentages of covered employees' gross salaries, which are calculated annually by the retirement system's actuary.

Contribution rates for fiscal year 2015 were 14 percent for employers and 12 percent for employees for the defined benefit, defined contribution, and combined plans. For the defined benefit and combined plans, all employer contributions are used to fund pension obligations. For the defined contribution plan, 9.5 percent of the employer's share is deposited into individual employee accounts, while 4.5 percent is paid to the defined benefit plan.

At June 30, 2015, the State reports a liability of \$99.4 million for its proportionate share of the net pension liability. Ohio State University Discretely Presented Component Unit reports a liability of \$1.1 billion for its proportionate share. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The State's proportion of the net pension liability is determined by a measure of the State's proportionate relationship of employer contributions made to STRS to the total contributions made to STRS by all employers and non-employer contributing entities to the plan. The State's proportion of the net liability is based on the State's long-term share of contributions to the plan as compared to the total projected long-term contributions of employers and all non-employer contributing entities. At June 30, 2014, the State's proportion was 0.409 percent and Ohio State University Discretely Presented Component Unit's proportion was 4.4 percent.

For the year ended June 30, 2015, the State recognized pension expense of \$4.6 million and Ohio State University Discretely Presented Component Unit recognized \$50.5 million. At June 30, 2015, the State and Ohio State University Discretely Presented Component Unit report deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (dollars in thousands):

	Primary Government	Ohio State University
Deferred Outflows of Resources		
Differences Between Expected and Actual Experience.....	\$ 957	\$ 10,310
Contributions subsequent to measurement date.....	5,710	66,547
Total.....	<u>\$ 6,667</u>	<u>\$ 76,857</u>

Deferred Inflows of Resources

Net Difference between Projected and Actual Earnings		
on Pension Plan investments.....	\$ (18,395)	\$ (198,123)
Total.....	<u>\$ (18,395)</u>	<u>\$ (198,123)</u>

Deferred Outflows of Resources of \$5.7 million related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Ohio State University Discretely Presented Component Unit will recognize \$66.6 million as reduction of its net pension liability. Other amounts reported as Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions will be recognized in pension expense as follows:

	Primary Government	Ohio State University
YEAR ENDED JUNE 30:		
2016.....	\$ (4,359)	\$ (46,953)
2017.....	(4,359)	(46,953)
2018.....	(4,359)	(46,953)
2019.....	(4,359)	(46,953)

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

Actuarial Assumptions:

The Total Pension Liability in the July 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Salary Increases	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.75 percent, net of pension plan investment expense, including inflation
COLA or Ad Hoc COLA	N/A
Actuarial Cost Method	Entry Age

Mortality rates were based on the RP-2000 Combined Mortality Table for males or females, as appropriate, with adjustments for mortality improvements based on Projection 2022-Scale AA.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study dated July 1, 2012.

An estimate range for investment return assumption is developed and based on the target allocation adopted by the STRS Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Equity.....	31%	8.00%
International Equity.....	26%	7.85%
Alternatives.....	14%	8.00%
Fixed Income.....	18%	3.75%
Real Estate.....	10%	6.75%
Liquidity Reserves.....	1%	3.00%
Total Fund.....	100%	7.61%

*10-year annualized geometric nominal returns, which include the real rate of return and inflation and does not include investment expenses.

Discount Rate - The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at statutory contribution rates. In each period of the projection, employer contributions are assumed to be applied first to the service cost of all members, with any remaining amount included in projected employer contributions for current members. Therefore, the long-term expected rate of return of 7.75% was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2014.

Sensitivity of the State's proportionate share of the Net Pension Liability to changes in the Discount Rate – The following table represents the net pension liability as of June 30, 2015, calculated using the current period discount rate assumption of 7.75%. Also shown is what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75%) or one percentage point higher (8.75%) than the current assumption:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
Primary Government.....	\$ 142,346	\$ 99,431	\$ 63,139
Ohio State University Discretely Presented Component Unit.....	\$ 1,533,130	\$ 1,070,914	\$ 680,034

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

Additional information regarding the pension plan fiduciary net position is available in the separately issued STRS financial report by visiting the STRS Web site at www.strsoh.org/publications/annualreports/cafrs.html.

Other Postemployment Benefits (OPEB)

Ohio law authorizes STRS to offer a cost-sharing, multiple-employer healthcare plan. STRS provides access to healthcare to eligible retirees who participate in the defined benefit plan or combined plan. Benefits include hospitalization, physician’s fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. Retirees enrolled in the defined contribution plan receive no post-employment healthcare benefits.

Chapter 3307, Ohio Revised Code, gives the STRS board discretionary authority over how much, if any, of associated healthcare costs are absorbed by the healthcare plan. All benefit recipients, for the most recent year, pay a portion of the healthcare costs in the form of a monthly premium.

Under Ohio law, funding for the post-employment healthcare may be deducted from employer contributions. Of the 14 percent employer contribution rate, one percent of the covered payroll was allocated to post-employment healthcare for the fiscal years ending June 30, 2013 and 2014. Effective July 1, 2014, zero percent of covered payroll is allocable to postemployment healthcare. The 14 percent employer contribution rate is the maximum rate established under Ohio law.

The employer contribution is financed on a pay-as-you-go basis. As of June 30, 2014 (the most recent information available), net position available for future healthcare benefits were \$3.58 billion. Employer contributions required and made for the last three fiscal years for the defined benefit and the defined benefit portion of the combined plans were as follows (dollars in thousands):

	2015	2014	2013
Primary Government.....	\$ -	\$ 414	\$ 432
<i>Major Discretely Presented Component Units:</i>			
Ohio State University.....	\$ -	\$ 3,387	\$ 3,446

The number of eligible benefit recipients for STRS as a whole was 169,244 as of June 30, 2014 (the most recent information available); a breakout of the number of eligible recipients for the primary government and its component units, as of June 30, 2015, is unavailable.

**C. State Highway Patrol Retirement System (SHPRS)
Pension Benefits**

SHPRS, a component unit of the State, was established in 1941 by the General Assembly as a single-employer, defined benefit pension plan and is administered by the State. The plan covers all employees of the State Highway Patrol.

The plan issues a stand-alone financial report that includes financial statements and required supplementary information, and the State reports the plan as a pension trust fund. Copies of the financial report may be obtained by writing to the Ohio State Highway Patrol Retirement System, 1900 Polaris Parkway, Suite 201, Columbus, Ohio 43240-4037, or by calling (614) 431-0781.

SHPRS is authorized under Chapter 5505, Ohio Revised Code, to provide retirement and disability benefits to retired members and survivor benefits to qualified dependents of deceased members of the Ohio State Highway Patrol. In addition to providing pension benefits, SHPRS is authorized by Chapter 5505, Ohio Revised Code, to provide a post-employment healthcare plan, which is considered to be an other post-employment benefit.

Chapter 5505, Ohio Revised Code, requires contributions by active members and the Ohio State Highway Patrol. The employer and employee contribution rates are established by the General Assembly, and any change in the rates requires legislative action. By law, the employer rate may not exceed three times the employee contribution rate, nor be less than nine percent of the total salaries of contributing members.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

Substitute Senate Bill 345 was signed into law in September 2012. The main components of the bill grant the SHPRS Board authority to set employee contribution rates and cost-of-living adjustment rates. Employee contribution rates will range between ten and 14 percent and cost-of-living adjustments will range between zero and three percent. The bill also increases the final average salary period from three years to five years for members retiring after 2014. The cost-of-living adjustment eligibility age increases from 53 years to 60 years of age. The cost-of-living adjustment for 2014 was set at one and one-half percent, while the cost-of-living adjustment for 2015 is set at one and one-quarter percent.

SHPRS' financial statements are prepared using the accrual basis of accounting, under which expenses are recorded when the liability is incurred and revenues are recorded when they are earned and become measureable.

All investments are reported at fair value. Fair value is "the amount that the plan can reasonably expect to receive for an investment in a current sale, between a willing buyer and a willing seller – that is, other than in a forced or liquidation sale."

Securities traded on a national exchange are valued at the last reported sales price at the current exchange rate. The fair value of real estate and private equity investments are based on information provided by the Fund's managers or by independent appraisals. For actuarial purposes, assets are valued with a method that amortizes the difference between actual and assumed return over a closed, four-year period.

Employees are eligible for pension and healthcare benefits upon reaching both an age and service requirement. Employees with at least 15 years of service credit, but less than 20 years of service credit, may retire at age 55. Employees with at least 20 years of service credit, but less than 25 years of service credit may retire at age 52 or age 48 with reduced benefits. Employees with more than 25 years of service may retire at age 48. Membership data for SHPRS is presented in the table below:

Membership Data as of December 31, 2014

Active Members.....	1,622
Retirees receiving benefits.....	1,557
Retirees not receiving benefits.....	<u>10</u>
	<u>3,189</u>

The pension benefit is a percentage of the member's final average salary, which is the average of the member's three highest salary years. For members with at least 15 years of service credit, but less than 20 years of service credit, the percentage is determined by multiplying 1.5 percent times the number of years of service credit. For members with 20 or more years of service credit, the percentage is determined by multiplying 2.5 percent for the first 20 years of service, plus 2.25 percent for the next five years of service, plus two percent for each year in excess of 25 years of service. A member's pension may not exceed 79.25 percent of the final average salary.

The employer and employee contribution rates, as of December 31, 2014, were 26.5 percent and 11.5 percent, respectively.

During calendar year 2014, all of the employees' contributions funded pension benefits while 22.2 percent of the employer's contributions funded pension benefits. The difference in the total employer rates charged and the employer rates applicable to the funding of pension benefits is applied to the funding of postemployment healthcare benefits.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

The State's net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2013. The total pension liability at December 31, 2014 determined using the following actuarial assumptions, applied to all periods included in the measurement: an investment rate of return of eight percent compounded annually, projected salary increase of four percent attributable to inflation and additional projected salary increases ranging from 0.3 percent to ten percent attributable to seniority and merit, and price inflation of three percent annually. Mortality rates were based on the RP-2000 Combined Healthy Male and Female Tables, projected to 2020 using Projection Scale AA.

The discount rate used to measure the total pension liability was eight percent. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at statutory contribution rates. In each period of the projection, employer contributions were assumed to be applied first to the service cost of all members, with any remaining amount included in projected employer contributions for current members. Therefore, the long-term expected rate of return of eight percent was applied to all periods of projected benefit payments to determine the total pension liability as of December 31, 2014.

An estimate range for investment return assumptions is developed and based on the target allocation adopted by the SHPRS' Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Cash.....	0.0%	-0.1%
Domestic Equity - Large Cap.....	25.0%	5.7%
Domestic Equity - Small Cap.....	10.0%	6.5%
International Equity.....	15.0%	6.5%
Emerging Markets.....	5.0%	8.7%
Domestic Corporate Fixed Income.....	7.8%	1.5%
Domestic Government Fixed Income.....	7.8%	0.9%
Treasury Inflation Protected Securities.....	0.0%	1.0%
High Yield Bonds.....	3.5%	2.8%
Real Estate.....	5.0%	4.5%
Private Equity.....	10.0%	8.8%
Hedge Funds.....	8.0%	3.8%
Other Alternatives.....	3.0%	4.1%
Total Fund.....	100.0%	

*10-year annualized geometric nominal returns, which include the real rate of return and inflation and does not include investment

Regarding sensitivity of the State's proportionate share of the Net Pension Liability to changes in the Discount Rate, the following table (dollars in thousands) represents the net pension liability as of December 31, 2014, calculated using the current period discount rate assumption of eight percent. Also shown is what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current assumption.

State's Proportionate Share of the Net Pension Liability

1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
\$ 414,090	\$ 303,684	\$ 211,233

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

Detailed information about SHPRS' pension plan fiduciary net position is available in the separately issued SHPRS financial report. The pension plan's fiduciary net position has been determined on the same basis used by the pension plan. SHPRS uses the accrual basis of accounting, under which expenses are recorded when incurred and revenues are recorded when earned and measurable. Member and employer contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investment purchases and sales are recorded at the trade date.

The Schedule of Changes in Net Pension Liability is presented below (dollars in thousands).

<u>Fiscal year ending December 31, 2014</u>	
Total Pension Liability	
Service Cost.....	\$ 17,657
Interest on the Total Pension Liability.....	79,175
Benefit Payments.....	(64,526)
Refunds.....	(2,177)
Net Change in Total Pension Liability.....	30,129
Total Pension Liability - Beginning.....	1,014,217
Total Pension Liability - Ending (a).....	<u>\$ 1,044,346</u>
Plan Fiduciary Net Position	
Employer Contributions.....	\$ 22,325
Employee Contributions.....	11,577
Pension Plan Net Investment Income.....	45,105
Benefit Payments.....	(64,526)
Refunds.....	(2,177)
Pension Plan Administrative Expense.....	(1,031)
Other.....	421
Net Change in Plan Fiduciary Net Position.....	11,694
Plan Fiduciary Net Position - Beginning.....	728,968
Plan Fiduciary Net Position - Ending (b).....	<u>\$ 740,662</u>
Net Pension Liability - Ending (a) - (b).....	\$ 303,684
Plan Fiduciary Net Position as a Percentage	
of Total Pension Liability.....	70.9%
Covered Employee Payroll*.....	89,878
Net Pension Liability as a Percentage	
of Covered Employee Payroll.....	337.9%
Notes to Schedule:.....	N/A

*Reported 2014 payroll. Does not include members of the DROP.

For the year ended June 30, 2015, the State recognized pension expense of \$31.7 million. At June 30, 2015, the State reports deferred outflows of resources related to pensions from the following sources:

Deferred Outflows of Resources

Net Difference between Projected and Actual Earnings	
on Pension Plan investments.....	\$ 9,501
Contributions subsequent to the measurement date.....	13,360
Total.....	<u>\$ 22,861</u>

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

Deferred Outflows of Resources of \$13.4 million related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions will be recognized in pension expense as follows:

YEAR ENDED JUNE 30:

2016.....	\$	2,375
2017.....		2,375
2018.....		2,375
2019.....		2,376

Other Postemployment Benefits (OPEB)

The healthcare coverage provided by SHPRS is considered to be an OPEB as described in GASB Statement 45. Healthcare benefits are not guaranteed and are subject to change at any time. The OPEB valuation is based on the substantive plan as it is currently presented to plan members, including a historical pattern of cost-sharing between the plan and benefit recipients.

During calendar year 2014, 4.3 percent of the employer’s contributions funded healthcare benefits. Active members do not make contributions to the OPEB plan. The cost of retiree healthcare benefits is recognized as claims are incurred and premiums are paid. The number of active contributing plan participants, as of December 31, 2014, was 1,622.

The State’s annual OPEB cost is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities or funding excess over a period not to exceed thirty years. The components of the State’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the State’s net OPEB obligation to SHPRS were as follows (dollars in thousands):

Annual Required Contribution (ARC).....	\$	24,533
Interest on Net OPEB Obligation.....		6,405
Adjustment to ARC.....		(4,936)
Annual OPEB Cost.....		26,002
Contributions Made.....		(4,973)
Increase (Decrease) in Net OPEB Obligation.....		21,029
Net OPEB Obligation, Beginning of Year.....		128,101
Net OPEB Obligation, End of Year.....	\$	149,130

The State’s annual OPEB cost, percentage of annual OPEB cost contributed, and net OPEB obligation for the last three calendar years, were as follows (dollars in thousands):

For the Year Ended December 31,	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2014.....	\$ 26,002	19.1%	\$ 149,131
2013.....	25,520	16.1%	128,101
2012.....	24,955	8.7%	106,686

As of December 31, 2014, the most recent actuarial valuation, the plan was 27.6 percent funded. The actuarial accrued liability was \$376.7 million, and the actuarial value of assets was \$103.8 million, resulting in an unfunded actuarial liability (UAAL) of \$272.9 million. The covered payroll (annual payroll of active employees covered by the plan) was \$99.2 million, and the ratio of the UAAL to the covered payroll was 275 percent.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

The Schedule of Funding Progress for OPEB, displayed in the following table, presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time, relative to the actuarial accrued liabilities for benefits.

SHPRS Schedule of Funding Progress Last Three Calendar Years – OPEB <i>(dollars in thousands)</i>						
(A)	(B)	(C)	(D)	(E)	(F)	(G)
Valuation Year	Actuarial Accrued Liability (AAL)	Valuation Assets	Unfunded Actuarial Accrued Liability (UAAL) (B)-(C)	Ratio of Assets to AAL (C)/(B)	Active Member Payroll	UAAL as Percentage of Active Member Payroll (D)/(F)
2014	\$ 376,683	\$ 103,813	\$ 272,870	27.6%	\$ 99,212	275.0%
2013	438,562	102,084	336,478	23.3%	98,520	341.5%
2012	411,468	99,818	311,650	24.3%	98,117	317.6%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions do not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing in the future. Actuarial calculations reflect a long-term perspective. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Healthcare benefits are advance funded by the employer using the entry-age, normal actuarial cost method for the Schedule of Funding Progress for the actuarial valuation, dated December 31, 2014, for OPEB. Assumptions used in preparing the Schedule of Funding Progress and in determining the annual required contribution include: a five percent rate of return on investments; projected salary increase of four percent attributable to inflation and additional projected salary increases ranging from .3 percent to ten percent a year attributable to seniority and merit; and an annual healthcare cost increase of nine percent annually, reduced by declining percentages ranging from 8.25 percent to four percent through 2029. There are no cost-of-living adjustments for OPEB benefits. Maximum contribution rates were not considered in the projection of actuarially accrued liabilities for OPEB benefits.

The unfunded actuarial accrued liability is being amortized using the level-percentage of projected payroll method over an open period of 30 years.

**D. Alternative Retirement Plan (ARP)
Pension Benefits**

The ARP is a defined contribution retirement plan that is authorized under Section 3305.02, Ohio Revised Code. The ARP provides at least three or more alternative retirement plans for academic and administrative employees of Ohio’s institutions of higher education, who otherwise would be covered by OPERS or STRS. Unclassified civil service employees hired on or after August 1, 2005, are also eligible to participate in the ARP.

The Board of Trustees of each public institution of higher education enters into contracts with each approved retirement plan provider. Once established, full-time faculty and unclassified employees who are hired subsequent to the establishment of the ARP, or who had less than five years of service credit under the existing retirement plans, may choose to enroll in the ARP. The choice is irrevocable for as long as the employee remains continuously employed in a position for which the ARP is available. For those employees that choose to join the ARP, any prior employee contributions that had been made to OPERS or STRS would be transferred to the ARP.

**NOTE 9 PENSION AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS
(Continued)**

The Ohio Board of Regents has designated the companies that are eligible to serve as plan providers for the ARP.

Ohio law requires that employee contributions be made to the ARP in an amount equal to those that would otherwise have been required by the retirement system that applies to the employee’s position. For the fiscal year ended June 30, 2015, these contribution rates are ten percent for OPERS and 12 percent for STRS. Employees may also voluntarily make additional contributions to the ARP.

For the year ended June 30, 2015, each public institution of higher education was required to contribute .77 percent of a participating employee’s salary to OPERS in cases when the employee would have otherwise been enrolled in OPERS.

Ohio law also requires each public institution of higher education to contribute 4.5 percent of a participating employee’s gross salary, for the year ended June 30, 2015, to STRS in cases when the employee would have otherwise been enrolled in STRS.

The employer contribution amount is subject to actuarial review every third year to determine if the rate needs to be adjusted to mitigate any negative financial impact that the loss of contributions may have on OPERS and STRS. The Board of Trustees of each public institution of higher education may also make additional payments to the ARP based on the gross salaries of employees multiplied by a percentage the respective Board of Trustees approves.

The ARP vesting of all contributions made on behalf of participants is based on the employer’s vesting requirements. The contributions are directed to one of the investment management companies as chosen by the participants. The ARP does not provide disability benefits, annual cost-of-living adjustments, postretirement healthcare benefits, or death benefits. Benefits are entirely dependent on the sum of the contributions and related investment income generated by each participant’s choice of investment options.

For the State’s major discretely presented component units, employer and employee contributions required and made for the year ended June 30, 2015, for the ARP follow (dollars in thousands):

<u>Major Component Units:</u>	<u>OPERS</u>	<u>STRS</u>
Ohio State University:		
Employer Contributions	\$ 26,586	\$ 30,331
Employee Contributions	20,095	24,012

NOTE 10 GENERAL OBLIGATION BONDS

At various times since 1921, Ohio voters, by 20 constitutional amendments (the last adopted May 2014 for a ten-year extension of the local government infrastructure program adopted in 2005), have authorized the incurrence of general obligation debt for the construction and improvement of common school and higher education facilities, highways, local infrastructure improvements, research and development of coal technology, natural resources, research and development support for high-tech business, business site development, and veterans compensation. Issuances for highway capital improvements, natural resources, and conservation are, in part, used for acquisition, construction or improvement of capital assets. In practice, general obligation bonds are retired over periods of 10 to 25 years.

A 1999 constitutional amendment provided for the issuance of Common School Capital Facilities Bonds and Higher Education Capital Facilities Bonds. As of June 30, 2015, the General Assembly had authorized the issuance of \$4.77 billion in Common Schools Capital Facilities Bonds, of which \$4.47 billion has been issued. As of June 30, 2015, the General Assembly had also authorized the issuance of \$3.54 billion in Higher Education Capital Facilities Bonds, of which \$2.92 billion has been issued.

NOTE 10 GENERAL OBLIGATION BONDS (Continued)

Through the approval of the November 1995 amendment, voters authorized the issuance of Highway Capital Improvements Bonds in amounts up to \$220 million in any fiscal year (plus any prior fiscal years' principal amounts not issued under the new authorization), with no more than \$1.2 billion outstanding at any time. As of June 30, 2015, the General Assembly has authorized the issuance of approximately \$3.43 billion in Highway Capital Improvements Bonds, of which \$2.69 billion has been issued.

Constitutional amendments in 1995 and 2005 allowed for the issuance of \$3.75 billion of general obligation bonds for infrastructure improvements (Infrastructure Bonds). Issuances are limited to \$150 million in any fiscal year (plus any obligations unissued from previous fiscal years). As of June 30, 2015, the General Assembly had authorized \$3.75 billion of these bonds to be sold (excluding any amounts for unaccreted discount on capital appreciation bonds at issuance), of which \$3.45 billion had been issued (net of \$214 million in unaccreted discounts at issuance). Voters in May 2014 approved a constitutional amendment for an additional \$1.88 billion of debt as a ten-year extension of the program authorized in 2005. The annual issuance amount increased to \$175 million in the first five fiscal years and \$200 million in each following year.

Coal Research and Development Bonds and Parks, Recreation, and Natural Resources Bonds may be issued as long as the outstanding principal amounts do not exceed \$100 and \$200 million, respectively. As of June 30, 2015, the General Assembly had authorized the issuance of \$251 million in Coal Research and Development Bonds, of which \$222 million had been issued. Legislative authorizations for the issuance of Natural Resources Capital Facilities Bonds totaled \$443 million, as of June 30, 2015, of which \$418 million had been issued.

Constitutional amendments in 2000 and 2008 allowed for outstanding Conservation Projects Bonds of up to \$400 million. No more than \$50 million may be issued during a fiscal year. As of June 30, 2015, the General Assembly had authorized the issuance of approximately \$500 million in Conservation Projects Bonds of which \$350 million had been issued.

Through approval of the May 2010 and November 2005 amendments, voters authorized the issuance of \$1.2 billion of Third Frontier Research and Development Bonds. Obligations that may be issued are limited to \$175 million in any fiscal year (plus any obligations unissued from previous fiscal years). As of June 30, 2015, the General Assembly had authorized the issuance of \$1.2 billion in Third Frontier Research and Development Bonds, of which \$661 million had been issued.

The issuance of \$150 million of Site Development Bonds was also authorized through the approval of the November 2005 amendment. Not more than \$30 million may be issued in each of the first three years, beginning with fiscal year 2006, and not more than \$15 million may be issued in any of the subsequent fiscal years. The General Assembly had authorized the issuance of \$150 million in Site Development Bonds as of June 30, 2015, of which all \$150 million had been issued.

A 2009 constitutional amendment provides for the issuance of up to \$200 million in Veterans Compensation Bonds. No obligations may be issued after December 31, 2013. As of June 30, 2015, the General Assembly had authorized all \$200 million in Veterans' Compensation Bonds, of which \$83.9 million had been issued.

General obligation bonds outstanding and future general obligation debt service requirements, as of June 30, 2015, are presented in the table on the following page. For the variable-rate bonds, using the assumption that current interest rates remain the same over their term, the interest and net swap payment amounts are based on rates as of June 30, 2015. As rates vary, variable-rate bond interest payments and net swap payments vary.

NOTE 10 GENERAL OBLIGATION BONDS (Continued)

For the year ended June 30, 2015, NOTE 15 summarizes changes in general obligation bonds.

NOTE 10 GENERAL OBLIGATION BONDS (Continued)

Hedging Derivatives

As of June 30, 2015, approximately \$302.3 million of Infrastructure Improvement Bonds and Common Schools Bonds have associated cash flow hedges with a fair value of (\$34.7) million. The value of these bonds is reported as part of the Bonds and Notes Payable section and the negative fair value of the cash flow hedges is reported in the Other Noncurrent Liabilities section on the Statement of Net Position. The fair value increased \$3.4 million during fiscal year 2015. This increase is reported on the Statement of Net Position as part of Deferred Outflows of Resources. Fair value of the cash flow hedges is determined using the zero-coupon method. For information on the State's deferred outflows of resources and deferred inflows of resources, see NOTE 18.

Terms and objectives of the State's hedging derivatives are provided in the following table.

Hedging Derivatives							
As of June 30, 2015							
<i>(dollars in thousands)</i>							
Issue	Type of Cash Flow Hedge	Notional Amount	Underlying Index	Counterparty's Swap Rate at 06/30/2015	State's Swap Rate at 06/30/2015	Effective Date	Termination (Maturity) Date
Infrastructure Improvements, Series 2001B	Pay-fixed interest rate swap	\$57,100	SIFMA Index	0.07%	4.63%	11/29/2001	8/1/2021
Objective: Convert Series 2001B variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Embedded Option: JPMorgan Chase may elect to terminate its portion of the swap if the SIFMA index averages 7 percent or higher over a 180-day period.							
Credit Quality Ratings of Counterparty:		50% Aa3/A+/AA- JPMorgan Chase; 50% Aa2/AA-/AA Wells Fargo					
Infrastructure Improvements, Refunding Series 2004A	Pay-fixed interest rate swap	\$53,760	LIBOR (See terms below)	0.37%	3.51%	3/3/2004	2/1/2023
Objective: Convert Series 2004A variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Credit Quality Ratings of Counterparty:		Aa2/AA-/AA Wells Fargo					
Terms: 63% of 1-month LIBOR + 25 basis points							
Common Schools, Series 2003D	Pay-fixed interest rate swap	\$67,000	LIBOR (see terms below)	0.37%	3.41%	9/14/2007	3/15/2024
Objective: Convert Series 2003D variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Credit Quality Ratings of Counterparty:		50% Aa3/A+/AA- JPMorgan Chase; 50% Aa2/AA-/AA Wells Fargo					
Terms: 65% of 1-month LIBOR + 25 basis points							
Common Schools, Series 2006B	Pay-fixed interest rate swap	\$62,205	LIBOR (see terms below)	0.37%	3.20%	11/21/2014	6/15/2026
Objective: Convert Series 2006B variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Credit Quality Ratings of Counterparty:		A1/AA-/AA- US Bank National Association					
Terms: 65% of 1-month LIBOR + 25 basis points							
Common Schools, Series 2006C	Pay-fixed interest rate swap	\$62,205	LIBOR (see terms below)	0.37%	3.20%	6/15/2006	6/15/2026
Objective: Convert Series 2006C variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Credit Quality Ratings of Counterparty:		Aa3/AA-/AA Royal Bank of Canada					
Terms: 65% of 1-month LIBOR + 25 basis points							

The State was not exposed to credit risk because these swaps had negative fair values at June 30, 2015. However, should interest rates change and the fair values of the swaps become positive, the State would be exposed to credit risk in the amount of the derivative's positive fair value.

NOTE 10 GENERAL OBLIGATION BONDS (Continued)

Each swap counterparty is required to post collateral to a third party when their respective credit rating, as determined by specified nationally recognized credit rating agencies, falls below the trigger level defined in the swap agreement. This arrangement protects the State by mitigating credit risk, and therefore termination risk, inherent in the swap. Collateral on all swaps must be in the form of cash or U.S. government securities and held by a third-party custodian. Net payments are made on the same date, as specified in the agreements.

The combination of the variable-rate bonds and a floating-to-fixed swap creates a low-cost, long-term synthetic fixed-rate debt that protects the State from rising interest rates.

These swaps expose the State to basis risk or a mismatch between the floating rate received on the swap and the variable rate paid on the underlying variable-rate bonds. A mismatch would increase or decrease the interest cost paid by the State.

For Infrastructure Improvements, Series 2001B, the SIFMA municipal swap index has proven to be an effective proxy for the State's variable-rate debt and substantially mitigates basis risk.

For Infrastructure Improvements, Series 2004A and for Common Schools, Series 2003D, 2006B, and 2006C, the State assumes the risk of reductions in marginal federal tax rates or elimination of the tax preference for municipal securities, given that the variable swap receipt is based on a taxable index (LIBOR). Those changes would increase the interest rates on the underlying variable-rate debt but would not impact the variable-rate swap receipt based on the LIBOR index.

The State retains the right to terminate any swap agreement at the market value prior to maturity. The State has termination risk under the contracts, particularly upon the occurrence of an additional termination event (ATE), as defined in the swap agreements. An ATE occurs if either the credit rating of the bonds associated with a specific swap or the credit rating of the swap counterparty falls below a threshold defined in each swap agreement. If the swap was terminated, the variable-rate bonds would no longer carry a synthetic interest rate. Also, if at the time of the termination the swap has a negative fair value, the State may be liable to the counterparty for a payment. Other termination events include failure to pay, bankruptcy, merger without assumption, and illegality. No termination events have occurred.

Advance Refundings

During fiscal year 2015, there were four advance refundings of general obligations bonds. Details on the advanced refundings are presented in the table on the following page.

Proceeds of the refunding (new) bonds are placed in irrevocable trusts to provide for all future debt service payments of the refunded (old) bonds. These refunded amounts are considered defeased and no longer outstanding. The various trust accounts' assets and liabilities for the defeased bonds are not included in the State's financial statements.

In prior years, the State defeased certain bond issues by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the various trust accounts' assets and liabilities for the defeased bonds are not included in the State's financial statements. For these prior year defeasances, Common School Bonds of \$215.4 million, Higher Education Bonds of \$300.3 million, and Infrastructure Improvement Bonds of \$149.4 million are considered defeased and no longer outstanding as of June 30, 2015.

NOTE 11 REVENUE BONDS AND NOTES

The State Constitution permits state agencies and authorities to issue bonds and notes that are not supported by the full faith and credit of the State. These bonds and notes pledge income derived from user fees and rentals on the acquired or constructed assets to pay the debt service.

The Treasurer of State and the Buckeye Tobacco Settlement Financing Authority (BTSFA) issue revenue bonds and notes for the primary government. The Treasurer of State issues bonds and notes on behalf of the Ohio Department of Transportation. The Ohio State University issues revenue bonds and notes as a major discretely presented component unit.

A. Primary Government

The Treasurer of State, since fiscal year 1998, has issued a total of \$2.15 billion in State Infrastructure Bank Bonds for various transportation construction projects financed by the Department of Transportation. The State has pledged federal highway receipts and loan repayments received under the State Infrastructure Bank Loan Program as the primary source of moneys for meeting the principal and interest requirements on the bonds.

Issuances for the State Infrastructure Bank are, in part, used for the acquisition, construction, or improvement of capital assets. Total pledged federal highway receipts and loan repayments through the maturity of the bonds in 2025 are estimated at approximately \$933.1 million. For fiscal year 2015, principal and interest payments on the revenue bonds was \$239.5 million and pledged receipts was \$170.4 million.

BTSFA is authorized by the Ohio General Assembly to issue and to sell obligations, the aggregate principle amount of which shall not exceed \$6 billion, exclusive of obligations issued to refund, renew, or advance refund other obligations issued or incurred. On October 29, 2007, BTSFA successfully securitized 100 percent of the projected tobacco settlement receipts for the next 45 years through the issuance of five series of asset-backed revenue bonds, aggregating in the amount of \$5.53 billion. The future tobacco settlement receipts, including related investment earnings and net of specified operating and enforcement expenses, have been pledged to repay the bonds, which are payable through 2052. Annual principal and interest payments on the bonds will require 100 percent of the net tobacco settlement receipts. As of June 30, 2015, the total principal and interest payments remaining to be paid on the bonds were \$17.55 billion. Principal and interest paid and total net tobacco settlement receipts for fiscal year 2015 were \$322.3 million and \$286.7 million, respectively. In the event that the assets of BTSFA have been exhausted, no amounts will thereafter be paid on the bonds. After the bonds and any related operating expenses have been fully paid, any remaining tobacco settlement receipts will become payable to the State. The bonds include fixed rate serial bonds, fixed rate current interest turbo term bonds, and capital appreciation turbo term bonds which will convert to fixed rate current interest turbo term bonds. They were

NOTE 11 REVENUE BONDS AND NOTES (Continued)

issued to fund long-lived capital projects at state-supported institutions of higher education and to pay the State's share of the cost of rebuilding elementary and secondary school facilities across the State. Additional information on these bonds can be found in BTSFA's stand-alone financial report.

Revenue bonds and notes outstanding and future bond service requirements for the primary government, as of June 30, 2015, are presented in the following tables.

The bonds and notes of the state universities and state community colleges are payable from the institutions' available receipts, including student fees, rental income, and gifts and donations, as may be provided for in the respective bond and note agreements. The proceeds of the bonds and notes are used for the construction of educational and student resident facilities and auxiliary facilities such as dining halls, hospitals, parking facilities, bookstores and athletic facilities. The State is not obligated for the debt of its discretely presented component units.

NOTE 12 SPECIAL OBLIGATION BONDS

Under the authority of Chapter 154, Ohio Revised Code, the Treasurer of State is the issuer of special obligation bonds that finance the cost of capital facilities for state-supported institutions of higher education, mental health and developmental disabilities institutions, parks and recreation, cultural and sports facilities, correctional facilities, office buildings for state departments and agencies, and, in some cases, related facilities for local governments. These issuances are, in part, used for acquisition, construction, or improvement of capital assets.

NOTE 12 SPECIAL OBLIGATION BONDS (Continued)

Pledges of lease rental payments from appropriations made to the General Fund and the Highway Safety and Highway Operating special revenue funds, moneys held by trustees pursuant to related trust agreements, and other receipts, as required by the respective bond documents, secure the special obligation bonds. The lease rental payments are reported in the fund financial statements as interfund transfers.

Special obligation bonds outstanding, bonds authorized but unissued, and future debt service requirements, as of June 30, 2015, are presented in the following tables.

Primary Government-Governmental Activities

Total		<u>\$ 42,315</u>		<u>\$ 40,175</u>	<u>\$ 44,521</u>		<u>\$ 2,702</u>

These refunded amounts are considered defeased and no longer outstanding. The various trust accounts' assets and liabilities for the defeased bonds are not included in the State's financial statements.

NOTE 12 SPECIAL OBLIGATION BONDS (Continued)

In prior years, the Treasurer of State defeased certain bond issues by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the various trust accounts' assets and liabilities for the defeased bonds are not included in the State's financial statements. For these prior year defeasances, \$40.2 million of lease rental special obligations bonds are considered defeased and no longer outstanding as of June 30, 2015.

NOTE 13 CERTIFICATES OF PARTICIPATION

As of June 30, 2015, approximately \$231.8 million in certificate of participation (COP) obligations were reported in governmental activities.

In fiscal year 2015, the Ohio department of Administrative Services participated in the issuance of \$33.6 million of COP obligations to finance the cost of acquisition of the Enterprise Data Center Solutions (EDCS).

Beginning in fiscal year 2013, the Ohio Department of Administrative Services participated in the issuance of \$72 million of COP obligations to finance the upgrade of the Ohio Multi-Agency Radio Communications System (MARCS).

Beginning in fiscal year 2005, the Ohio Department of Administrative Services participated in the issuance of \$185.2 million of COP obligations to finance the acquisition of the Ohio Administrative Knowledge System (OAKS), a statewide Enterprise Resource Planning (ERP) system. These issuances are, in part, used for the acquisition, construction, or improvement of capital assets.

Beginning in fiscal year 2008, the Ohio Department of Administrative Services participated in the issuance of \$58.1 million of COP obligations to finance the cost of acquisition of the State Taxation Accounting and Revenue System (STARS).

In fiscal year 2015, the Ohio Treasurer of State's Office participated in the issuance of \$8.8 million of COP obligations to finance the cost of acquisition of the Treasury Management System (TMS).

Under the COP financing arrangements, the State is required to make rental payments from the General Fund (subject to biennial appropriations) that approximate the interest and principal payments made by trustees to certificate holders.

Obligations outstanding and future commitments for the primary government under COP financing arrangements, as of June 30, 2015, are presented in the following tables.

Net Pension Liability.....	2,703,806
Net OPEB Obligation.....	149,131
Capital Leases Payable	2,072
Derivatives.....	45,873
Pollution Remediation Liabilities.....	1,568
Estimated Claims Payable	2,186
Liability for Escheat Property	236,773
Total Governmental Activities	<u>3,563,226</u>
Business-Type Activities:	
Compensated Absences	37,338
Net Pension Liability.....	195,669
Capital Leases Payable	13,094
Workers' Compensation:	
Benefits Payable	16,389,400
Other	2,311,425
Unemployment Compensation:	
Intergovernmental Payable	978,459
Prize Awards Payable	518,232
Tuition Benefits Payable	342,800
Total Business-Type Activities	<u>20,786,417</u>
Total Primary Government	<u>\$ 24,349,643</u>

For the year ended June 30, 2015, NOTE 15 summarizes the changes in other noncurrent liabilities. Explanations of certain significant noncurrent liability balances reported in the financial statements follow:

NOTE 14 OTHER NONCURRENT LIABILITIES (Continued)

A. Compensated Absences

For the primary government, the compensated absences liability, as of June 30, 2015, was \$459.2 million, of which \$421.8 million is allocable to governmental activities and \$37.3 million is allocable to business-type activities.

As of June 30, 2015, major discretely presented component units reported a total of \$167.2 million in compensated absences liabilities, as detailed by major discretely presented component unit in NOTE 15.

B. Net Pension Liability and Net OPEB Obligation

The State recognizes a net pension liability in the amount of \$2.9 billion, as of June 30, 2015, for the primary government of which \$2.7 billion is allocable to governmental activities and \$195.7 million is allocable to business-type activities. The net pension liability represents the State's proportionate share of the difference between the total pension liability and the fiduciary net position for OPERS, STRS, and SHPRS.

For the primary government, the State recognizes a net OPEB obligation in the amount of \$149.1 million as of June 2015. The net OPEB obligation represents the cumulative difference between the annual OPEB cost and the employer's contributions to the SHPRS. The SHPRS is a blended component unit reported as a fiduciary pension trust fund. See NOTE 9 for further details.

C. Lease Agreements

The State's primary government leases office buildings and computer and office equipment. Although the lease terms vary, most leases are renewable subject to biennial appropriations by the General Assembly. If the likelihood of the exercise of a fiscal funding clause in the lease agreement is, in the management's judgment, remote, then the lease is considered noncancelable for financial reporting purposes and is reported as a fund expenditure/expense for operating leases or as a liability for capital leases.

Operating leases (leases on assets not recorded in the Statement of Net Position) contain various renewable options as well as some purchase options. Any escalation clauses, sublease rentals, and contingent rents are considered immaterial to the future minimum lease payments and current rental expenditures. Operating lease payments are recorded as expenditures or expenses of the related funds when paid or incurred. The primary government's total operating lease expenditures/expenses for fiscal year 2015 were approximately \$77.7 million. Fiscal year 2016 future minimum lease commitments for operating leases judged to be noncancelable, as of June 30, 2015, were \$4 million.

Assets acquired through capital leasing are valued at the lower of fair value or the present value of the future minimum lease payments at the lease's inception. Capital leases are used for the acquisition of capital assets. Future minimum lease commitments for capital leases judged to be noncancelable, as of June 30, 2015, are below (dollars in thousands):

Year Ending June 30,	Capital Leases		
	Governmental Activities	Business- Type Activities	Total
2016.....	\$ 727	\$ 5,594	\$ 6,321
2017.....	541	-	541
2018.....	409	-	409
2019.....	335	7,500	7,835
2020.....	186	-	186
Total Minimum Lease Payments.....	2,198	13,094	15,292
Amount for Interest.....	(126)	-	(126)
Present Value of Net Minimum Lease Payments.....	\$ 2,072	\$ 13,094	\$ 15,166

NOTE 14 OTHER NONCURRENT LIABILITIES (Continued)

As of June 30, 2015, the primary government had the following capital assets under capital leases (dollars in thousands):

	Capital Assets		
	Governmental Activities	Business- Type Activities	Total
Equipment	\$ 9,985	\$ 110,771	\$ 120,756
Vehicles	4,416	-	4,416
Total	<u>\$ 14,401</u>	<u>\$ 110,771</u>	<u>\$ 125,172</u>

Amortization expense for the proprietary funds within the Statement of Activities is included with depreciation expense. Capital leases are reported under the "Refund and Other Liabilities" account in the proprietary and discretely presented component unit funds.

Future minimum lease commitments for capital leases judged to be noncancelable and capital assets under capital leases for the major discretely presented component unit funds, as of June 30, 2015, are presented in the table below (dollars in thousands):

Capital Leases	
Major Discretely Presented Component Units	
Year Ending June 30,	Ohio State University
2016.....	\$ 1,957
2017.....	1,789
2018.....	690
2019.....	625
2020.....	560
2021-2025.....	1,121
Total Minimum Lease Payments.....	6,742
Amount for Interest.....	(348)
Present Value of Net Minimum Lease Payments.....	<u>\$ 6,394</u>
Equipment & Vehicles.....	\$ 15,203
Total	<u>\$ 15,203</u>

D. Derivatives

For governmental activities, the State has reported \$(45.9) million of investment and hedging derivatives as of June 30, 2015. Additional information regarding the State's derivatives is included in NOTE 4, NOTE 10, and NOTE 18.

E. Litigation Liabilities

In instances when the unfavorable outcome of a pending litigation has been assessed to be probable, liabilities are recorded in the financial statements. As of June 30, 2015, no noncurrent liabilities ultimately payable from various governmental funds have been recorded for this purpose. For information on the State's loss contingencies arising from pending litigation, see NOTE 20.

F. Pollution Remediation Liabilities

The State recognizes a liability for pollution remediation in the amount \$1.6 million, as of June 30, 2015. This represents the cost to the State to the extent that is probable for future clean up and reclamation of polluted sites within the State. See NOTE 20 for further detail.

NOTE 14 OTHER NONCURRENT LIABILITIES (Continued)

G. Estimated Claims Payable

The State reported \$2.2 million in estimated claims for defaulted loans under the Ohio Enterprise Bond Programs at the Development Services Agency, Office of Loan Administration, as of June 30, 2015. The program is included in governmental activities and is accounted for in the nonmajor governmental funds. See NOTE 16 for additional information.

The following table reflects the Ohio Enterprise Bond Fund future debt service obligations as of June 30, 2015 (dollars in thousands):

Year Ending June 30,	Principal Due
2016.....	\$ 486
2017.....	500
2018.....	522
2019.....	541
2020.....	137
Total	<u>\$ 2,186</u>

H. Liability for Escheat Property

The State records a liability for escheat property to the extent that it is probable that the escheat property will be reclaimed and paid to claimants. As of June 30, 2015, the liability totaled approximately \$236.8 million.

I. Worker’s Compensation

Benefits Payable

As discussed in NOTE 21, the Worker’s Compensation Enterprise Fund provides benefits to employees for losses sustained from job-related injury, disease, or death. The Bureau has computed a reserve for compensation, as of June 30, 2015, in the amount of approximately \$16.39 billion. The reserve, which includes estimates for reported claims and claims incurred but not reported, is included in the “Benefits Payable” balance reported for the enterprise fund.

J. Unemployment Compensation

As of June 30, 2015, the State’s Unemployment Compensation Fund is recognizing an intergovernmental payable liability for repayable advances from the Federal government of \$978.5 million. These advances were used for the payment of compensation benefits.

K. Prize Awards Payable

Future installment payments for the prize awards payable are reported at present value based upon interest rates that the Treasurer of State provides to the Lottery Commission Enterprise Fund. The interest rates, ranging from 2 to 9 percent, represent the expected long-term rate of return on the assets restricted for the payment of prize awards. Once established for a particular prize award, the interest rate does not fluctuate with changes in the expected long-term rate of return. The difference between the present value and gross amount of the obligations is amortized into income over the terms of the obligations using the interest method. The State reduces prize liabilities by an estimate of the amount of the prize that will ultimately be unclaimed. As of June 30, 2015, this payable totals \$518.2 million.

NOTE 14 OTHER NONCURRENT LIABILITIES (Continued)

Future payments of prize awards, stated at present value, as of June 30, 2015, follow (dollars in thousands):

Year Ending June 30,	
2016.....	\$ 82,911
2017.....	73,562
2018.....	66,997
2019.....	60,377
2020.....	51,791
2021-2025.....	178,194
2026-2030.....	93,342
2031-2035.....	45,807
2036-2040.....	4,734
2041-2045.....	200
	657,915
Unamortized Discount	(139,683)
Net Prize Liability	\$ 518,232

L. Tuition Benefits Payable

The actuarial present value of future tuition benefits payable from the Tuition Trust Authority Enterprise Fund was approximately \$342.8 million, as of June 30, 2015. The valuation method reflects the present value of estimated tuition benefits that will be paid in future years and is adjusted for the effects of projected tuition increases in state universities and state community colleges and termination of participant contracts under the plan.

The following assumptions were used in the actuarial determination of tuition benefits payable: 4.5 percent rate of return, compounded annually, on the investment of current and future assets, a tuition inflation assumption equal to the maximum amount of tuition and mandatory fee increases permitted by the State of Ohio biennial budget of 5.5 percent, as well as a 2.5 percent Consumer Price Index inflation rate.

As of June 30, 2015, the market value of actuarial net position available for the payment of the tuition benefits payable was \$399.9 million.

M. Other Liabilities

The Workers' Compensation Enterprise Fund reports approximately \$2.31 billion in other noncurrent liabilities, as of June 30, 2015, of which 1) \$1.81 billion is comprised of the compensation adjustment expenses liability for estimated future expenses to be incurred in the settlement of claims, as discussed further in NOTE 21, 2) \$397.9 million relates to transition credit liabilities, 3) \$2.4 million is contingent liabilities, 4) \$86.1 million represents premium payment security deposits collected in advance from private employers to reduce credit risk for premiums collected in subsequent periods, and 5) \$19.5 million consists of other miscellaneous liabilities.

NOTE 15 CHANGES IN NONCURRENT LIABILITIES

A. Primary Government

Changes in noncurrent liabilities, for the year ended June 30, 2015, are presented for the primary government in the following table.

**Primary Government
Changes in Noncurrent Liabilities
For the Fiscal Year Ended June 30, 2015
(dollars in thousands)**

Governmental Activities:	Balance June 30, 2014 (as restated)	Additions	Reductions	Balance June 30, 2015	Amount Due Within One Year

Total Noncurrent Liabilities	<u>\$ 23,065,880</u>	<u>\$ 1,558,943</u>	<u>\$ 3,838,406</u>	<u>\$ 20,786,417</u>	<u>\$ 3,339,747</u>

The State makes payments on bonds and notes payable and certificate of participation obligations that pertain to its governmental activities from the debt service funds. The General Fund and the nonmajor governmental funds will primarily liquidate the other noncurrent liabilities balance attributable to governmental activities.

NOTE 15 CHANGES IN NONCURRENT LIABILITIES (Continued)

For fiscal year 2015, the State's primary government included interest expense on its debt issues in the following governmental functions rather than reporting it separately as interest expense. The related borrowings are essential to the creation or continuing existence of the programs they finance and accordingly, such expense is not reported separately on the Statement of Activities under the expense category for interest on long-term debt. The various state subsidy programs supported by the borrowings provide direct state assistance to local governments for their respective capital and construction or research projects.

	<i>(in 000s)</i>
Governmental Activities:	
Primary, Secondary and Other Education	\$ 368,477
Higher Education Support	149,569

*Liability is reported under the "Refund and Other Liabilities" account.

NOTE 16 CONDUIT DEBT

The State of Ohio, by action of the General Assembly, created various financing authorities for the expressed purpose of making available to non-profit and, in some cases, for profit private entities, lower cost sources of capital financing for facilities and projects found to be for a public purpose. Fees are assessed to recover related processing and application costs incurred. The authorities' debt instruments represent a limited obligation payable solely from payments made by the borrowing entities. Most of the bonds are secured by the property financed. Upon repayment of the bonds, ownership of acquired property transfers to the entity served by the bond issuance. This debt is not deemed to constitute debt of the State or a pledge of the faith and credit of the State. Accordingly, these bonds are not reflected in the accompanying financial statements.

NOTE 16 CONDUIT DEBT (Continued)

Ohio Enterprise Bond Fund bonds are issued through the Treasurer of State for the purpose of financing eligible projects of private industry organizations. The actual bonds are sold through private placement. These bonds are not general obligations of the State of Ohio or of any political subdivision and are not payable from any tax source; therefore, the rights of the holders of the bonds for payments of amounts due are limited solely to the pledged receipts deposited into the Ohio Enterprise Bond Fund Accounts. The bonds represent conduit debt and are not reflected in the accompanying financial statements. The scheduled payment of the bonds currently outstanding is, however, guaranteed through the Development Services Agency, Office of Loan Administration, under Chapter 166, Ohio Revised Code. As of June 30, 2015, a liability of \$2.2 million has been recorded in the accompanying financial statements for guarantees extended to defaulted organizations. See NOTE 14G. for additional information. The cumulative guarantee payments made for defaulted organizations with bonds currently outstanding is \$3.1 million. Recoveries for guarantee payments are submitted to the Attorney General's Office for collection; however, no amounts are expected to be recovered from guarantee payments made through June 30, 2015.

The Development Services Agency also participates in the issuance of Hospital Facilities Bonds, as authorized under Chapter 140, Ohio Revised Code. These revenue bonds are payable solely from payments made by the borrowing entities and are secured by the property financed. This debt is not deemed to constitute debt of the State or a pledge of the faith and credit of the State. Accordingly, these bonds are not reflected in the accompanying financial statements.

Under Chapter 5531, Ohio Revised Code, the Ohio Department of Transportation is authorized to issue State Infrastructure Bond Program debt issuances through the Treasurer of State for highway and transit capital projects of eligible Ohio political subdivisions. These bonds are not general obligations of the State of Ohio or of any political subdivision and are not payable from any tax source; therefore, the rights of the holders of the bonds for payments of amounts due are limited to the pledged receipts and those special funds pledged by each debt issuance. The bonds represent conduit debt and are not reflected in the accompanying financial statements. The scheduled payment of the bonds currently outstanding is, however, guaranteed through the State Infrastructure Bank program of the Ohio Department of Transportation. In the event of a borrower's default, amounts recovered from the secured capital project would be used to replenish any reserve funds and any remaining amounts would be transferred to the State Infrastructure Bank accounts. Any amounts provided to repay bonds using appropriations of the Ohio Department of Transportation would be submitted to the Attorney General's Office for collection. Currently, guarantees are outstanding through fiscal year 2039, when the bonds mature, and no circumstances presently exist that indicate that the State will be required to make any payments as a result of these guarantees.

As of June 30, 2015, revenue bonds and notes outstanding that represent conduit debt for the State were as follows (dollars in thousands):

	<u>Outstanding Amount</u>
Primary Government:	
Development Services Agency:	
Ohio Enterprise Bond Program	\$ 195,940
Hospital Facilities Bonds	4,885
Ohio Department of Transportation:	
State Transportation Infrastructure Bond Fund Program.....	<u>34,785</u>
Total Primary Government	<u>\$ 235,610</u>

NOTE 17 FUND DEFICITS AND FUND BALANCE REPORTING (Continued)

As of June 30, 2015, the Budget Stabilization Fund had a fund balance of \$1.48 billion which was included as a part of the unassigned fund balance in the General Fund.

B. Fund Deficits

The following individual funds reported deficits that are reflected in the State's basic financial statements, as of June 30, 2015 (dollars in thousands):

Primary Government:

Major Proprietary Funds:

Unemployment Compensation..... \$ (335,816)

Nonmajor Proprietary Funds:

Office of Auditor of State..... (5,505)

Total Primary Government..... \$ (341,321)

Discretely Presented Component Units:

Major Component Units:

Ohio Facilities Construction Commission \$ (3,672,306)

Nonmajor Component Units:

Ohio Capital Fund..... (55,823)

Cincinnati State Community College..... (26,953)

Owens State Community College..... (14,813)

Total Component Units..... \$ (3,769,895)

The Unemployment Compensation Fund deficit disclosed above is due to outstanding federal loans previously required to maintain benefit levels.

Deficits for the other funds are due to the timing of revenue recognition and the accrual of expenses not recorded under the cash basis of accounting.

NOTE 18 DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

A. Deferred Outflows of Resources

Details on deferred outflows of resources for the primary government, as of June 30, 2015, follow (dollars in thousands):

Primary Government - Deferred Outflows of Resources					
	Net Pension Asset/Liability	Hedging Derivatives	Loss on Debt Refundings	Resources of a Future Period	Total
Governmental Activities:					
Major Governmental Funds:					
Buckeye Tobacco Settlement Financing					
Authority Revenue Bonds.....	\$ -	\$ -	\$ -	\$ 4,406,567	\$ 4,406,567
Total Governmental Activities	-	-	-	4,406,567	4,406,567
Reconciliation of fund level statements to government-wide statements due to basis differences.....					
	343,323	34,675	163,743	-	541,741
Total Governmental Activities	<u>\$ 343,323</u>	<u>\$ 34,675</u>	<u>\$ 163,743</u>	<u>\$ 4,406,567</u>	<u>\$ 4,948,308</u>
Business-Type Activities:

Workers' Compensation.....	\$ 16,679	\$ -	\$ -	\$ -	\$ 16,679
Lottery Commission.....	1,770	-	-	-	1,770
Nonmajor Proprietary Funds	4,450	-	-	-	4,450
Total Business-Type Activities	<u>\$ 22,899</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 22,899</u>
Total Primary Government.....					<u>\$ 4,971,207</u>

NOTE 18 DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES (Continued)

As of June 30, 2015, the Ohio Facilities Construction Commission, a major discretely presented component unit fund, reported deferred outflows of resources totaling approximately \$687 thousand related to net pension asset/liability. In addition, the Ohio State University, another major discretely presented component unit fund, reported deferred outflows of resources totaling approximately \$219 million for net pension asset/liability and \$8.1 million for losses on debt-related transactions.

B. Deferred Inflows of Resources

The deferred inflows of resources for the primary government, as of June 30, 2015, are comprised of the following (dollars in thousands).

Primary Government - Deferred Inflows of Resources				
	Net Pension Asset/Liability	Resources from the Sale of Future Revenues	Unavailable Resources	Total
Governmental Activities:				
Major Governmental Funds:				
General	\$ -	\$ 818,300	\$ 823,219	\$ 1,641,519
Job, Family and Other Human Services	-	-	62,087	62,087
Buckeye Tobacco Settlement Financing				
Authority Revenue Bonds.....	-	-	431,099	431,099
Nonmajor Governmental Funds	-	34,100	5,743	39,843
Total Governmental Activities	-	852,400	1,322,148	2,174,548
Reconciliation of fund level statements to government-wide statements due to basis differences.....	61,056	1,287,933	(1,322,148)	26,841
Total Governmental Activities	<u>\$ 61,056</u>	<u>\$ 2,140,333</u>	<u>\$ -</u>	<u>\$ 2,201,389</u>
Business-Type Activities:				
Major Proprietary Funds:				
Workers' Compensation.....	\$ 2,431	\$ -	\$ -	\$ 2,431
Lottery Compensation.....	906	-	-	906
Nonmajor Proprietary Funds	749	-	-	749
Total Business-Type Activities	<u>\$ 4,086</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,086</u>
Total Primary Government.....				<u>\$ 2,205,475</u>

As of June 30, 2015, the Ohio Facilities Construction Commission, a major discretely presented component unit fund, reported deferred inflows of resources totaling approximately \$96 thousand related to net pension asset/liability and \$3.59 billion pertaining to resources from the sale of future revenues. In addition, the Ohio State University, another major discretely presented component unit fund, reported deferred inflows of resources of \$218.6 million for net pension asset/liability, \$20 million for gains on debt-related transactions, and approximately \$455.1 million related to service concession arrangements.

NOTE 19 JOINT VENTURES AND RELATED ORGANIZATIONS

A. Joint Ventures

Great Lakes Protection Fund (GLPF)

The Great Lakes Protection Fund is an Illinois non-profit organization that was formed to further federal and state commitments to the restoration and maintenance of the Great Lakes Basin's ecosystem. The governors of seven of the eight states that border on the Great Lakes comprise the GLPF's membership. Under the GLPF's articles of

NOTE 19 JOINT VENTURES AND RELATED ORGANIZATIONS (Continued)

incorporation, each state is required to make a financial contribution. Income earned on the contributions provides grants to projects that advance the goals of the Great Lakes Toxic Substances Control Agreement and the binational Great Lakes Water Quality Agreement.

Each governor nominates two individuals to the GLPF's board of directors who serve staggered two-year terms. All budgetary and financial decisions rest with the board, except when they are restricted by the GLPF's articles of incorporation.

Annually, one-third of the GLPF's net earnings is allocated and paid to the member states in proportion to their respective cash contributions to the GLPF. The allocation is based on the amount and period of time the state's contributions were invested. GLPF earnings distributions are to be used by the states to finance projects that are compatible with the GLPF's objectives. Ohio applies its distribution (approximately \$304 thousand) to operations of its own protection program, known as the Lake Erie Protection Program, which is modeled after the GLPF.

Required contributions and contributions received from the states, which border the Great Lakes, as of December 31, 2014 (the GLPF's year-end), are presented below (dollars in thousands):

	Contribution Required	Contribution Received	Contribution Percentage
Michigan	\$ 25,000	\$ 25,000	30.9%
Indiana*	16,000	-	-
Illinois	15,000	15,000	18.4%
Ohio	14,000	14,000	17.3%
New York	12,000	12,000	14.8%
Wisconsin	12,000	12,000	14.8%
Minnesota	1,500	1,500	1.9%
Pennsylvania	1,500	1,500	1.9%
Total	<u>\$ 97,000</u>	<u>\$ 81,000</u>	<u>100.00%</u>

*The State of Indiana has not yet elected to join the Great Lakes Protection Fund.

Summary Financial information for the GLPF, for the fiscal year ended December 31, 2014, was as follows (dollars in thousands):

Cash and Investments	\$ 130,329
Other Assets	116
Total Assets	<u>\$ 130,445</u>
Total Liabilities	\$ 1,996
Total Net Position	128,449
Total Liabilities and Net Position	<u>\$ 130,445</u>
Total Revenues and Other Additions.....	\$ 7,213
Total Expenditures and Other Deductions.....	(8,181)
Change in Net Position	<u>\$ (968)</u>

In the event of the Fund's dissolution, the State of Ohio would receive a residual portion of the Fund's assets equal to the lesser of the amount of such assets multiplied by the ratio of its required contribution to the required contributions of all member states, or the amount of its required contribution.

Local Community and Technical Colleges

The State's primary government has an ongoing financial responsibility for the funding of six local community colleges and eight technical colleges. With respect to the local community colleges, State of Ohio officials appoint three members of each college's respective nine-member board of trustees; county officials appoint the remaining six members.

NOTE 19 JOINT VENTURES AND RELATED ORGANIZATIONS (Continued)

The governing boards of the technical colleges consist of either seven or nine trustees, of which State officials appoint two or three members, respectively; the remaining members are appointed by the local school boards located in the respective technical college district.

The Ohio General Assembly appropriates moneys to these institutions from the General Fund to subsidize operations so that higher education can become more financially accessible to Ohio residents. The primary government also provides financing for the construction of these institutions' capital facilities by meeting the debt service requirements for the Tobacco Settlement revenue bonds issued by the Buckeye Tobacco Settlement Financing Authority, the Higher Education Capital Facilities general obligation bonds issued by the Ohio Public Facilities Commission (OPFC), and the Higher Education Facilities special obligation bonds, previously issued by the OPFC, for these purposes. The bonds provide funding for capital appropriations, which are available to the local community and technical colleges for spending on capital construction.

Fiscal year 2015 expenses that were included in the "Higher Education Support" function under governmental activities in the Statement of Activities for state assistance to the local community and technical colleges are presented below (dollars in thousands).

	Operating Subsidies	Capital Subsidies	Total
Local Community Colleges:			
Cuyahoga	\$ 63,829	\$ 7,988	\$ 71,817
Eastern Gateway.....	5,955	135	6,090
Lakeland	18,617	841	19,458
Lorain County	24,881	3,468	28,349
Rio Grande	5,535	1,042	6,577
Sinclair	46,349	461	46,810
Total Local Community Colleges.....	<u>165,166</u>	<u>13,935</u>	<u>179,101</u>
Technical Colleges:			
Belmont	5,452	5,007	10,459
Central Ohio	11,575	119	11,694
Hocking	13,516	386	13,902
James A. Rhodes	10,292	1,120	11,412
Marion	6,922	-	6,922
Zane	8,319	542	8,861
North Central	7,510	2,815	10,325
Stark	27,682	4,990	32,672
Total Technical Colleges	<u>91,268</u>	<u>14,979</u>	<u>106,247</u>
Total	<u>\$ 256,434</u>	<u>\$ 28,914</u>	<u>\$ 285,348</u>

Information for obtaining complete financial statements for each of the primary government's joint ventures is available from the Ohio Office of Budget and Management.

B. Related Organizations

Officials of the State's primary government appoint a voting majority of the governing boards of the Ohio Housing Finance Agency, the Ohio Water Development Authority, the Petroleum Underground Storage Tank Release Compensation Board, the Higher Education Facility Commission, and the Ohio Legal Assistance Foundation. However, the primary government's accountability for these organizations does not extend beyond making the appointments.

NOTE 19 JOINT VENTURES AND RELATED ORGANIZATIONS (Continued)

During fiscal year 2015, the State had the following related-party transactions with its related organizations:

- The General Fund reports a \$161.8 million loans receivable balance due from the Ohio Housing Finance Agency. The State made the loans to finance and support the agency's housing programs.
- Separate funds, established for the Ohio Housing Finance Agency, the Petroleum Underground Storage Tank Release Compensation Board, and the Higher Education Facility Commission, were accounted for on the primary government's Ohio Administrative Knowledge System. The primary purpose of the funds is to streamline payroll and other administrative disbursement processing for these organizations. The financial activities of the funds, which do not receive any funding support from the primary government, have been included in the agency funds.
- From the Job, Family and Other Human Services Fund, the Public Defender's Office paid the Ohio Legal Assistance Foundation approximately \$3 million for administrative services performed under contract for the distribution of state funding to nonprofit legal aid societies.

NOTE 20 CONTINGENCIES AND COMMITMENTS

A. Litigation

The State, its units, and employees are parties to numerous legal proceedings, which normally occur in governmental operations. Pending litigation affecting the Department of Natural Resources and the Bureau of Workers' Compensation/Industrial Commission is discussed below. All other legal proceedings are not, in the opinion of management after consultation with the Attorney General, likely to have a material adverse effect on the State's financial position.

Department of Natural Resources (DNR)

In *State ex rel. Merrill v. Ohio Dept. of Natural Resources*, a class action case brought by owners of property bordering Lake Erie, the plaintiffs sought declaratory relief as to title for shoreline land consistent with their deeds (that the phrase "natural shoreline" is not synonymous with "ordinary high-water mark" and therefore the legal boundary of their properties extends beyond the point claimed by DNR). Plaintiffs also sought a writ of mandamus to compel appropriations from the State and DNR for taking of this land. On December 11, 2007, the Lake County Common Pleas Court granted plaintiffs' Motion for Summary Judgment as to the plaintiff's declaratory judgment count. The count seeking a writ of mandamus was stayed pending resolution of the declaratory judgment action. On appeal, the Eleventh District issued its opinion substantially affirming the trial court's granting of Summary Judgment to Plaintiffs-Appellees. The State and other defendants subsequently sought review and on September 14, 2011, the Ohio Supreme Court reversed the lower court holdings that the phrase "natural shoreline" means "a moveable boundary consisting of the water's edge." Instead, the Court held the phrase to mean the "line at which water usually stands when free from disturbing causes." While the Court did not provide as to how to apply this definition, it did reject the various definitions litigated in the lower courts. Specifically, the Supreme Court rejected the various contentions that "natural shoreline" meant "ordinary high water mark," "ordinary low water mark" or "a moveable boundary consisting of the water's edge".

Upon remand, the Lake County Common Pleas Court issued an order that, among other things: 1) established the "natural shoreline" as a factual matter; 2) voided and invalidated all leases between DNR and the plaintiff landowners consistent with the Court's ruling as to the "natural shoreline;" 3) required DNR to return all submerged land lease fees collected since 1998 that were predicated on the voided leases; and 4) certified a class with regard to the previously stayed mandamus action. The State appealed the trial court's order to the Eleventh District. The Eleventh District affirmed the trial court's ruling, and on May 15, 2014, the State appealed to the Ohio Supreme Court. The Ohio Supreme Court refused to accept the State's appeal. The case was returned to the trial court where the trial court agreed to 1) reconsider class certification, and 2) determine whether the State's prior error in claiming public trust ownership to the ordinary high water mark determination constituted a "taking" of property that must be compensated. Briefing is expected to conclude in the first quarter of calendar year 2016. The ultimate outcome of this litigation cannot be presently determined. Accordingly, no provision for any liability resulting from this case has been reported in the financial statements

NOTE 20 CONTINGENCIES AND COMMITMENTS (Continued)

Bureau of Workers' Compensation/Industrial Commission (BWC/IC)

In the San Allen, Inc. dba Corky and Lenny's v. BWC class action case, plaintiffs alleged that non-group-rated employers subsidize group-rated employers, and that this bias in premiums violated various provisions of the Ohio Constitution. Plaintiffs asked the court to declare the group rating plan unconstitutional and require BWC to repay to the class members all excessive premiums collected by BWC, with interest and attorney fees. The parties agreed to settle this global class-action on July 23, 2014, with payment from BWC in the amount of \$420 million. The class action settlement was paid in fiscal year 2015.

B. Federal Awards

The State of Ohio receives significant awards from the Federal Government in the form of grants and entitlements, including certain non-cash programs. Receipt of grants is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations, including the spending of resources for eligible purposes. Substantially all grants are subject to either the Federal Single Audit or to financial compliance audits by the grantor agencies of the federal government or their designees. Disallowances and sanctions as a result of these audits may become liabilities to the State.

Federal Single Audit

As a result of the fiscal year 2014 State of Ohio Single Audit (issued in February 2015), \$36 thousand of federal expenditures were in question as not being appropriate under the terms of the respective grants. No provision for any liability or adjustments has been recognized for these questioned costs in the state's financial statements for the fiscal year ended June 30, 2015.

Department of Job and Family Services (JFS)

The Hamilton County Department of Job and Family Services' (HCDJFS) receives federal funding from JFS. JFS conducted an audit of HCDJFS records for the July 1, 2001 — June 30, 2004 period and issued findings on May 1, 2008. Thereafter, the HHS-OIG conducted an audit of HCDJFS on behalf of Administration for Children and Families (ACF), a division of the U.S. Dept. of Health and Human Services (HHS), and issued disallowances. JFS appealed the majority of the findings to the HHS Departmental Appeals Board (DAB). By Decision No. 2643 dated June 17, 2015, the DAB upheld the disallowances finding improper use of cost pools, lack of source documentation, and an unreliable financial management system caused the disallowances to be upheld. Total disallowances include a Title XX, Social Services Block Grant held in abeyance. In fiscal year 2015, an intergovernmental liability has been recorded for the amount estimated to be repaid to HHS (see NOTE 6) and an intergovernmental receivable has been recorded for the amount estimated to be recovered from HCDJFS (see NOTE 5.)

C. Tobacco Settlement

In November 1998, the Attorneys General of 46 states, five U.S. territories, and the District of Columbia signed the Master Settlement Agreement (MSA) with the nation's largest tobacco manufacturers. This signaled the end of litigation brought by the Attorneys General against the manufacturers in 1996 for state healthcare expenses attributed to smoking-related claims. The remaining four states (Florida, Minnesota, Mississippi, and Texas) settled separately.

According to the MSA, participating tobacco manufacturers are required to adhere to a variety of new marketing and lobbying restrictions and provide payments to the states in perpetuity.

As of October 23, 2007, the State transferred future rights to the Master Settlement Agreement revenue to the Buckeye Tobacco Settlement Financing Authority (BTSFA).

While BTSFA's share of the total base payments to the states through 2052 will not change over time, estimating the amount of annual payments that actually will be received in any given year can be complex, since under the terms of the MSA, payments are subject to a number of adjustment factors, including an inflation adjustment, a volume adjustment, and a potential adjustment for market share losses of participating manufacturers. Some of these adjustments, such as the inflation adjustment, result in BTSFA receiving higher payments. Other factors, such as the volume adjustment and the market share adjustment can work to reduce the amount of the State's annual payments.

NOTE 20 CONTINGENCIES AND COMMITMENTS (Continued)

In addition to the base payments, BTSFA will receive payments from the Strategic Contribution Fund. The Strategic Contribution Fund was established to reward states that played leadership roles in the tobacco litigation and settlement negotiations. Allocations from the fund are based on a state’s contribution to the litigation and settlement with the tobacco companies. These payments are also subject to the adjustment factors outlined in the MSA.

During fiscal year 2015, Ohio received \$285.8 million, which is approximately \$110.4 million or 27.9 percent less than the pre-adjusted base payment for the year.

As of June 30, 2015, the estimated tobacco settlement receivable in the amount of \$465.2 million is included in “Other Receivables” reported for the governmental funds. The receivable includes \$259.8 million for payments withheld from BTSFA beginning fiscal year 2008 and \$34.1 million for payments withheld from the State for fiscal years 2006 and 2007. These amounts were withheld by the cigarette manufacturers when they exercised the market share loss provisions of the MSA. The moneys are on deposit in an escrow account until pending litigation between the States and the manufacturers is resolved. Both the Authority and the State contend that they have met their obligations under the MSA and are due the payments withheld.

The Tobacco Settlement receipts provide funding for the construction of primary and secondary school capital facilities, education technology for primary and secondary education and for higher education, programs for smoking cessation and other health-related purposes, biomedical research and technology, and assistance to tobacco-growing areas in Ohio.

The BTSFA revenue bonds are secured by and payable solely from the tobacco settlement receipts and other collateral pledged under an indenture between BTSFA and U.S. Bank National Association, as trustee. In the event that the assets of BTSFA have been exhausted, no amounts will thereafter be paid on the bonds.

The enforcement of the terms of the MSA has been challenged by lawsuits and may continue to be challenged in the future. In the event of an adverse court ruling, BTFSA may not have adequate financial resources to make payment on the bonds.

A schedule of pre-adjusted base payments and payments from the Strategic Contribution Fund for the State of Ohio in future years follows (dollars in thousands):

Year Ending June 30,	Pre-adjusted MSA Base Payments	Pre-Adjusted Payments from the Strategic Contribution Fund	Total
2016.....	\$ 376,307	\$ 24,791	\$ 401,098
2017.....	380,940	25,096	406,036
2018.....	431,325	—	431,325
2019.....	436,331	—	436,331
2020.....	441,189	—	441,189
2021-2025.....	2,287,980	—	2,287,980
2026-2030.....	2,440,318	—	2,440,318
2031-2035.....	2,607,356	—	2,607,356
2036-2040.....	2,777,330	—	2,777,330
2041-2045.....	2,956,978	—	2,956,978
2046-2050.....	3,146,926	—	3,146,926
2051-2052.....	1,316,176	—	1,316,176
Total	<u>\$ 19,599,156</u>	<u>\$ 49,887</u>	<u>\$ 19,649,043</u>

NOTE 20 CONTINGENCIES AND COMMITMENTS (Continued)

D. Construction Commitments

As of June 30, 2015, the Ohio Department of Transportation had total contractual commitments of approximately \$3.18 billion for highway construction projects. Funding for future projects is expected to be provided from federal, primary government, general obligation and revenue bonds, and local government sources in amounts of \$1.47 billion, \$1.17 billion, \$443.5 million, and \$101.2 million, respectively.

As of June 30, 2015, other major non-highway construction commitments for the primary government’s budgeted capital projects funds and major discretely presented component unit funds were as follows (dollars in thousands):

Primary Government	
Mental Health/Developmental Disabilities Facilities Improvements	\$ 49,689
Parks and Recreation Improvements	33,264
Administrative Services Building Improvements	41,931
Youth Services Building Improvements	5,747
Adult Correctional Building Improvements	50,823
Highway Safety Building Improvements	83
Ohio Parks and Natural Resources	30,242
Transportation Building Improvements.....	27,736
Total	<u>\$ 239,515</u>
Major Discretely Presented Component Units	
Ohio State University	\$ 320,201

E. Pollution Remediation Activities

During fiscal year 2015, the State was involved in remediation activities for pollution as described in the following paragraph. These activities include site investigation, cleanup, and monitoring. The associated estimated cost of remediation activities is shown below (in general, projects with a liability of less than \$1 million at June 30 are not listed).

The Ohio Department of Transportation has been named as a responsible party to remediate pollution resulting from contaminated soil on the agency-owned property and contaminated groundwater on the surrounding properties. The June 30 liability to eliminate the pollution and continue monitoring activities is estimated to be \$1.6 million. Cost was estimated by the onsite coordinators using actual invoices to date.

The liability described above is reported as “Other Noncurrent Liabilities-Due in One Year” and “Other Noncurrent Liabilities-Due in More Than One Year” for governmental activities in the government-wide Statement of Net Position. The reported liability for these activities is an estimate and is subject to change over time. Variances in the final costs may result from changes in technology, changes in responsible parties, results of environmental studies, and changes in laws and regulations. Future recoveries from other responsible parties may also reduce the final cost paid by the State.

Capital assets may be created during the pollution remediation process. These capital assets will be reported in accordance with the State’s capital assets policy. As of June 30, 2015, no capital assets were created nor reported as a result of any pollution remediation process.

F. Encumbrances

At June 30, 2015, the State has significant encumbrances of \$511.5 million in the General Fund, \$985.8 million in the Job, Family and Other Human Services Special Revenue Fund, and \$4.23 billion in the nonmajor governmental funds.

NOTE 21 RISK FINANCING

A. Workers' Compensation Benefits

The Ohio Workers' Compensation System, which the Ohio Bureau of Workers' Compensation and the Industrial Commission of Ohio administer, is the exclusive provider of workers' compensation insurance to private and public employers in Ohio who are not self-insured. The Workers' Compensation Enterprise Fund (Fund) provides benefits to employees for losses sustained from job-related injury, disease, or death.

"Benefits Payable" of \$16.39 billion is reported in the Fund as of June 30, 2015. This amount represents reserves for indemnity and medical claims resulting from work-related injuries or illnesses, including actuarial estimates for both reported claims and claims incurred but not reported. The liability is based on the estimated ultimate cost of settling claims, including the effects of inflation and other societal and economic factors and projections as to future events, including claims frequency, severity, persistency, and inflationary trends for medical claims reserves. The compensation adjustment expenses liability, which is included in "Other Liabilities" in the amount of approximately \$1.81 billion, is an estimate of future expenses to be incurred in the settlement of claims. The estimate for this liability is based on projected claim-related expenses, estimated costs of the managed care Health Partnership Program, nonincremental adjustment expense, and the reserve for compensation.

Management of the Bureau of Workers' Compensation and the Industrial Commission believes that the recorded reserves for compensation and compensation adjustment expenses make for a reasonable and appropriate provision for expected future losses. While management uses available information to estimate the reserves for compensation and compensation adjustment expenses, future changes to the reserves for compensation and compensation adjustment expenses may be necessary based on claims experience and changing claims frequency and severity conditions. The methods of making such estimates and for establishing the resulting liabilities are reviewed quarterly and updated based on current circumstances. Any adjustments resulting from changes in estimates are recognized in the current period.

Benefits payable and the compensation adjustment expenses liability have been discounted at four percent to reflect the present value of future benefit payments. The selected discount rate approximates an average yield on United States government securities with durations similar to the expected claims underlying the Fund's reserves. The undiscounted reserves for the benefits and compensation adjustment expenses totaled \$30.7 billion, as of June 30, 2015, and \$31.7 billion, as of June 30, 2014. For additional information, refer to the Fund's separate audited financial report, for the fiscal year ended June 30, 2015.

Changes in the balance of benefits payable and the compensation adjustment expenses liability for the Workers' Compensation Program during the past two fiscal years are presented in the table below.

Primary Government
Changes in Workers' Compensation Benefits Payable
and Compensation Adjustment Expenses Liability
Last Two Fiscal Years
(dollars in millions)

	Fiscal Year 2015	Fiscal Year 2014
Benefits Payable and Compensation		
Adjustment Expenses Liability, as of July 1	\$ 18,722	\$ 19,190
Incurred Compensation		
and Compensation Adjustment Benefits.....	1,395	1,516
Incurred Compensation		
and Compensation Adjustment Benefit Payments		
and Other Adjustments	<u>(1,922)</u>	<u>(1,984)</u>
Benefits Payable and Compensation		
Adjustment Expenses Liability, as of June 30	<u>\$ 18,195</u>	<u>\$ 18,722</u>

NOTE 21 RISK FINANCING (Continued)

B. State Employee Healthcare Plan

Employees of the State’s primary government have the option of participating in the Ohio Med PPO Plan (Plan). The Plan is managed by two third party administrators (TPAs), Medical Mutual of Ohio (MMO) and United Healthcare (UHC). The two TPAs are responsible for processing claims for separate regions throughout the State.

When it is probable that a loss has occurred and the amount of the loss can be reasonably estimated, liabilities are reported in the governmental and proprietary funds for claims that have been incurred but not reported. The Plan’s actuaries calculate estimated claims liabilities based on prior claims data, employee enrollment figures, medical trends, and experience.

Governmental and proprietary funds pay a share of the costs for claims settlement based on the number of employees opting for plan participation and the type of coverage selected by participants. The payments are reported in the Payroll Withholding and Fringe Benefits Agency Fund (Agency Fund) until such time that the accumulated resources are distributed to MMO or UHC for claims settlement.

For governmental funds, claims are recognized as expenditures to the extent that the amounts are payable with expendable available financial resources. For governmental and business-type activities, claims are recognized in the Statement of Activities as expenses when incurred.

As of June 30, 2015, approximately \$139 million in total assets was available in the Agency Fund to cover healthcare claims. Changes in the balance of claims liabilities for the Plan during the past two fiscal years were as follows (dollars in thousands):

Ohio Med PPO		
	Fiscal Year 2015	Fiscal Year 2014
Claims Liabilities, as of July 1	\$ 48,216	\$ 45,843
Incurred Claims	467,729	455,827
Claims Payments	(467,731)	(453,454)
Claims Liabilities, as of June 30	<u>\$ 48,214</u>	<u>\$ 48,216</u>

As of June 30, 2015, the resources on deposit in the Agency Fund exceeded the estimated claims liability by approximately \$90.8 million, thereby resulting in a funding surplus. Eighty-five percent or \$77.2 million of the surplus, representing the employer share, was reallocated back to the governmental and proprietary funds, with a resulting reduction in expenditures/expenses.

C. Other Risk Financing Programs

The primary government has established programs to advance fund potential losses for vehicular liability and theft in office. The potential amount of loss arising from these risks, however, is not considered material in relation to the State’s financial position.

NOTE 22 SUBSEQUENT EVENTS

Bond Issuances

Subsequent to June 30, 2015, the State issued major debt as detailed in the table below:

Debt Issuances			
Subsequent to June 30, 2015			
<i>(dollars in thousands)</i>			
	<u>Date Issued</u>	<u>Net Interest Rate or True Interest Cost</u>	<u>Amount</u>
Primary Government:			
Infrastructure Improvements, Series 2015B.....	09/15/15	3.32%	\$ 150,000
Conservation Projects, Series 2015B.....	09/15/15	2.88%	50,000
Infrastructure Improvements, Refunding Series 2015C.....	09/15/15	2.18%	50,390

Required Supplementary Information

Ohio World War Memorial

- West side of the Ohio Statehouse
- Erected in 1930
- Marks Ohio's participation in the First World War

Infrastructure Assets Accounted for Using the Modified Approach

Pavement Network

The Ohio Department of Transportation conducts annual condition assessments of its Pavement Network. The State manages its pavement system by means of annual, visual inspections by trained pavement technicians. Technicians rate the pavement using a scale of 1 (minimum) to 100 (maximum) based on a Pavement Condition Rating (PCR). This rating examines items such as cracking, potholes, deterioration of the pavement, and other factors. It does not include a detailed analysis of the pavement's subsurface conditions.

Ohio accounts for its pavement network in two subsystems: *Priority*, which comprises interstate highways, freeways, and multi-lane portions of the National Highway System, and *General*, which comprises two-lane routes outside of cities.

For the Priority Subsystem, it is the State's intention to maintain at least 75 percent of the pavement at a PCR level of at least 65, and to allow no more than 25 percent of the pavement to fall below a 65 PCR level. For the General Subsystem, it is the State's intention to maintain at least 75 percent of the pavement at a PCR level of at least 55, and to allow no more than 25 percent of the pavement to fall below a 55 PCR level.

Bridge Network

The Ohio Department of Transportation conducts annual inspections of all bridges in the State's Bridge Network. The inspections cover major structural items such as piers and abutments, and assign a General Appraisal Condition Rating (GACR) from 0 (minimum) to nine (maximum) based on a composite measure of these major structural items.

It is the State's intention to maintain at least 85 percent of the square feet of deck area at a general appraisal condition rating level of at least five, and to allow no more than 15 percent of the number of square feet of deck area to fall below a general appraisal condition rating level of five.

NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue Funds account for specific revenues that are legally restricted to expenditure for particular purposes.

Education Fund

The Education Fund accounts for programs administered by the Department of Education, the Ohio Board of Regents, and other various state agencies, which prescribe the State's minimum educational requirements and which provide funding and assistance to local school districts for basic instruction and vocation and technical job training, and to the State's colleges and universities for post-secondary education.

Highway Operating Fund

The Highway Operating Fund accounts for programs administered by the Department of Transportation, which is responsible for the planning and design, construction, and maintenance of Ohio's highways, roads, and bridges and for Ohio's public transportation programs.

Community and Economic Development Fund

The Community and Economic Development Fund accounts for programs administered by the Department of Development and other various state agencies, which were created to assure the efficient use of resources for the State's community and economic growth and development.

Health Fund

The Health Fund accounts for public health programs primarily administered by the Department of Health, which promotes the prevention and treatment of diseases and illnesses through technical assistance, health education, and research.

Mental Health and Developmental Disabilities Fund

The Mental Health and Developmental Disabilities Fund accounts for mental health care and developmental disabilities programs primarily administered by the Department of Mental Health and the Department of Developmental Disabilities, which provide assistance, services, and medical care to those individuals with mental health and developmental disability problems.

Highway Safety Fund

The Highway Safety Fund accounts for public safety programs primarily administered by the Department of Public Safety, which enforces traffic-related laws for the purpose of reducing accidents, deaths, injuries, and property damages on Ohio's highways.

Natural Resources Fund

The Natural Resources Fund accounts for environmental programs administered by the Department of Natural Resources, the Environmental Protection Agency, and other various state agencies, which promote, protect, and manage the State's natural resources and environment.

Wildlife and Waterways Safety Fund

The Wildlife and Waterways Safety Fund accounts for programs administered by the Department of Natural Resources' Divisions of Wildlife and Watercraft, which promote, protect, and manage the State's wildlife and waterways and which provide technical assistance and education to the public.

Tobacco Settlement Fund

The Tobacco Settlement Fund accounts for various health, education, economic, and law enforcement-related programs funded with moneys received under the Master Settlement Agreement with the nation's largest tobacco companies.

NONMAJOR DEBT SERVICE FUNDS

Debt Service Funds account for the resources accumulated and payments made for principal and interest on long-term debt of the governmental funds.

Coal Research/Development General Obligations Fund

The Coal Research/Development General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 15 of Article VIII, Ohio Constitution, to finance coal research and development projects.

Improvements General Obligations Fund

The Improvements General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2f of Article VIII, Ohio Constitution, to finance the improvement of higher education facilities, public schools, and natural resources.

Highway Improvements General Obligations Fund

The Highway Improvements General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2g of Article VIII, Ohio Constitution, to finance the acquisition of rights-of-way and the construction and reconstruction of the State's highways and urban extensions.

Development General Obligations Fund

The Development General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2h of Article VIII, Ohio Constitution, to finance the construction, improvement, and development of higher education facilities, public schools, and natural resources.

Highway General Obligations Fund

The Highway General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2i of Article VIII, Ohio Constitution, to finance the construction of the State's highways.

Public Improvements General Obligations Fund

The Public Improvements General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2i of Article VIII, Ohio Constitution, to finance water pollution controls and improvements at higher education facilities, parks, and natural resources.

Vietnam Conflict Compensation General Obligations Fund

The Vietnam Conflict Compensation General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2j of Article VIII, Ohio Constitution, to provide funding for the compensation to Ohioans that served in the military during the Vietnam Conflict.

Local Infrastructure Improvements General Obligations Fund

The Local Infrastructure Improvements General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2k of Article VIII, Ohio Constitution, to finance the cost of local government's public infrastructure improvement projects.

State Projects General Obligations Fund

The State Projects General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2l of Article VIII, Ohio Constitution, to finance capital improvements at state and local parks and other natural resources-related projects.

Highway Capital Improvements General Obligations Fund

The Highway Capital Improvements General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2m of Article VIII, Ohio Constitution, to finance capital improvements to the state highway system.

Higher Education Capital Facilities General Obligations Fund

The Higher Education Capital Facilities General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2n of Article VIII, Ohio Constitution, to finance the costs of capital facilities for state-supported and state-assisted institutions of higher education, including those for technical education.

Common Schools Capital Facilities General Obligations Fund

The Common Schools Capital Facilities General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2n of Article VIII, Ohio Constitution, to finance the costs of facilities for a system of common schools throughout Ohio.

Conservation Projects General Obligations Fund

The Conservation Projects General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2o of Article VIII, Ohio Constitution, to finance the purchase of additional “greenspace” land or interest in land devoted to natural areas, open spaces, and agriculture.

Third Frontier Research/Development General Obligations Fund

The Third Frontier Research/Development General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2p of Article VIII, Ohio Constitution, to finance research and development in support of Ohio industry, commerce, and business.

Job Ready Site Development General Obligations Fund

The Job Ready Site Development General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2p of Article VIII, Ohio Constitution, to finance the development of sites for industry, distribution, commerce, and research and development.

Persian Gulf Conflict Compensation General Obligations Fund

The Persian Gulf Conflict Compensation General Obligations Fund accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2r of Article VIII, Ohio Constitution, to pay compensation to veterans of the Persian Gulf, Afghanistan, and Iraq Conflicts.

Infrastructure Bank Revenue Bonds Fund

The Infrastructure Bank Revenue Bonds Fund accounts for the payment of principal and interest on revenue bonds issued to finance various highway construction projects sponsored by the Department of Transportation.

Lease Rental Special Obligations Fund

The Lease Rental Special Obligations Fund accounts for the payment of principal and interest on special obligation bonds issued to finance the construction of higher education facilities, mental health facilities, parks and recreation projects and facilities, and Ohio Facilities Construction Commission projects.

MARCS Certificates of Participation Fund

The MARCS Certificates of Participation Fund accounts for the payment of certificate of participation-related obligations that finance the State's statewide public service wireless communication system, known as the Multi Agency Radio Communications (MARCS).

OAKS Certificates of Participation Fund

The OAKS Certificates of Participation Fund accounts for the payment of certificate of participation-related obligations that finance the State's enterprise resource planning system project, known as the Ohio Administrative Knowledge System (OAKS).

STARS Certificates of Participation Fund

The STARS Certificates of Participation Fund accounts for the payment of certificates of participation related obligations that finance the State's Taxation Accounting and Revenue System, known as STARS.

TMS Certificates of Participation Fund

The TMS Certificates of Participation Fund accounts for the payment of certificates of participation related obligations that finance the State's Treasury Management System, known as TMS.

EDCS Certificates of Participation Fund

The EDCS Certificates of Participation Fund accounts for the payment of certificates of participation related obligations that finance the Enterprise Data Center Solutions, known as EDCS.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital Projects Funds account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Infrastructure Bank Obligations Fund

The Infrastructure Bank Obligations Fund accounts for revenue bond proceeds that finance various highway construction projects sponsored by the Department of Transportation.

Mental Health/Developmental Disabilities Facilities Improvements Fund

The Mental Health/Developmental Disabilities Facilities Improvements Fund accounts for special obligation bond proceeds that finance the construction of mental health and developmental disabilities facilities.

Parks and Recreation Improvements Fund

The Parks and Recreation Improvements Fund accounts for special obligation bond proceeds that finance the capital improvement of parks and recreation facilities.

Administrative Services Building Improvements Fund

The Administrative Services Building Improvements Fund accounts for special obligation bond proceeds that finance capital improvements for the Department of Administrative Services.

Youth Services Building Improvements Fund

The Youth Services Building Improvements Fund accounts for special obligation bond proceeds that finance capital improvements for the Department of Youth Services.

Adult Correctional Building Improvements Fund

The Adult Correctional Building Improvements Fund accounts for special obligation bond proceeds that finance capital improvements for the Department of Rehabilitation and Correction.

Highway Safety Building Improvements Fund

The Highway Safety Building Improvements Fund accounts for special obligation bond proceeds that finance capital improvements for the Department of Public Safety.

Ohio Parks and Natural Resources Fund

The Ohio Parks and Natural Resources Fund accounts for general obligation bond proceeds that finance capital improvements for state and local parks and other natural resources-related projects.

Highway Capital Improvement Fund

The Highway Capital Improvement Fund accounts for general obligation bond proceeds that finance capital improvements to the state highway system.

Transportation Building Improvements Fund

The Transportation Building Improvements Fund accounts for special obligation bond proceeds that finance capital improvements for the Department of Transportation.

MARCS Project Fund

The MARCS Project Fund accounts for certificates of participation proceeds that finance the costs of the Multi Agency Radio Communications (MARCS) project for the statewide, secure, reliable public service wireless communication for public safety and first responders.

STARS Project Fund

The STARS Project Fund accounts for certificate of participation proceeds that finance the costs of the State's Taxation Accounting and Revenue System (STARS) technology project.

TMS Project Fund

The TMS Project Fund accounts for certificate of participation proceeds that finance the costs of the State's Treasury Management System (TMS) technology project.

EDCS Project Fund

The EDCS Project Fund accounts for certificate of participation proceeds that finance the costs of the State's Enterprise Data Center Solutions (EDCS) technology project.

AGENCY FUNDS

Agency Funds account for resources the State holds in a purely custodial capacity (assets equal liabilities) for individuals, private organizations, or other governments.

Holding and Distribution Fund

The Holding and Distribution Fund accounts for assets held until such time that a determination has been made to refund amounts to the individuals, private organizations, or other governments.

Centralized Child Support Collections Fund

The Centralized Child Support Collections Fund accounts for assets temporarily held for custodial parents.

Retirement Systems Fund

The Retirement Systems Fund accounts for assets held in the custody of the Treasurer of State for the Ohio Public Employees Retirement System, Ohio Police and Fire Pension Fund, School Employees Retirement System of Ohio, and State Teachers Retirement System of Ohio. While legal custodian, the Treasurer of State does not manage or provide investment services to the foregoing retirement systems.

Payroll Withholding and Fringe Benefits Fund

The Payroll Withholding and Fringe Benefits Fund primarily accounts for assets held to liquidate the State's payroll withholding obligations.

Other Fund

The Other Fund accounts for assets held for others, which are not accounted for in another agency fund.

NONMAJOR DISCRETELY PRESENTED COMPONENT UNIT FUNDS

Nonmajor Discretely Presented Component Unit Funds account for the financial activities of the State of Ohio's component units, organizations that are legally separate from the State's primary government and for which the primary government is financially accountable.

Ohio Turnpike and Infrastructure Commission Fund

The Ohio Turnpike and Infrastructure Commission Fund accounts for the operations of the Ohio Turnpike and Infrastructure Commission, including its projects to construct, maintain and operate public roadways, express or limited access highways, superhighways, or motorways necessary for safe movement of traffic including bridges, tunnels, overpasses, underpasses, interchanges, entrance plazas, approaches, and toll booths. The Commission's Financial Statements are presented for the fiscal year end December 31, 2014. The Commission is located in Berea, Ohio.

Ohio Air Quality Development Authority Fund

The Ohio Air Quality Development Authority Fund accounts for the Ohio Air Quality Development Authority's operations, including programs that assist Ohio's businesses, government agencies, and not-for-profit organizations with financing projects that increase energy efficiency and reduce air pollution. The Authority's financial statements are presented for the fiscal year ended December 31, 2014

Ohio Capital Fund

The Ohio Capital Fund accounts for the operations of the State's venture capital program.

JobsOhio Fund

The JobsOhio Fund accounts for the operations of the nonprofit corporation, JobsOhio, including promoting economic development, job creation, job retention, job training, and the recruitment of business to the State of Ohio.

University of Cincinnati Fund

The University of Cincinnati Fund accounts for the operations of University of Cincinnati and The University of Cincinnati Foundation. The university is located in Cincinnati, Ohio.

Ohio University Fund

The Ohio University Fund accounts for the operations of Ohio University and the Ohio University Foundation. The university is located in Athens, Ohio.

Miami University Fund

The Miami University Fund accounts for the operations of Miami University and the Miami University Foundation. The university is located in Oxford, Ohio.

University of Akron Fund

The University of Akron Fund accounts for the operations of the University of Akron, the University of Akron Foundation, and the University of Akron Research Foundation.

Bowling Green State University Fund

The Bowling Green State University Fund accounts for the operations of Bowling Green State University and the Bowling Green State University Foundation.

Kent State University Fund

The Kent State University Fund accounts for the operations of Kent State University and the Kent State University Foundation.

University of Toledo Fund

The University of Toledo Fund accounts for the operations of the University of Toledo, the University of Toledo Foundation, and the University of Toledo Physicians, Clinical Faculty, Inc.

Cleveland State University Fund

The Cleveland State University Fund accounts for the operations of Cleveland State University, the Cleveland State University Foundation, and the Euclid Avenue Housing Corporation.

Youngstown State University Fund

The Youngstown State University Fund accounts for the operations of Youngstown State University and the Youngstown State University Foundation.

Wright State University Fund

The Wright State University Fund accounts for the operations of Wright State University and the Wright State University Foundation. The university is located in Dayton, Ohio.

Shawnee State University Fund

The Shawnee State University Fund accounts for the operations of Shawnee State University and the Shawnee State University Development Foundation. The university is located in Portsmouth, Ohio.

Northeast Ohio Medical University Fund

The Northeast Ohio Medical University Fund accounts for the operations of Northeast Ohio Medical University and NEOMED Foundation. The college is located in Rootstown, Ohio.

Central State University Fund

The Central State University Fund accounts for the operations of Central State University and the Central State University Foundation. The university is located in Wilberforce, Ohio with a branch campus in Dayton, Ohio.

Terra State Community College Fund

The Terra State Community College Fund accounts for the operations of Terra State Community College and Terra College Foundation. The college is located in Fremont, Ohio.

Columbus State Community College Fund

The Columbus State Community College Fund accounts for the operations of Columbus State Community College and the Columbus State Community College Development Foundation, Inc.

Clark State Community College Fund

The Clark State Community College Fund accounts for the operations of Clark State Community College and the Clark State Community College Foundation. The college is located in Springfield, Ohio.

Edison State Community College Fund

The Edison State Community College Fund accounts for the operations of Edison State Community College and the Edison Foundation, Inc. The college is located in Piqua, Ohio.

Southern State Community College Fund

The Southern State Community College Fund accounts for the operations of Southern State Community College and the Southern State Community College Foundation. The college is located in Hillsboro, Ohio.

Washington State Community College Fund

The Washington State Community College Fund accounts for the operations of Washington State Community College and the Washington State Foundation. The college is located in Marietta, Ohio.

Cincinnati State Community College Fund

The Cincinnati State Community College Fund accounts for the operations of Cincinnati State Technical and Community College.

Northwest State Community College Fund

The Northwest State Community College Fund accounts for the operations of Northwest State Community College and the Northwest State Community College Foundation. The college is located in Archbold, Ohio.

Owens State Community College Fund

The Owens State Community College Fund accounts for the operations of Owens State Community College and the Owens State Community College Foundation. The college is located in Toledo, Ohio with a branch campus in Findlay, Ohio.

 COMMISSION**

Net Change in Fund Balances..... **\$ 211,162**

The change in net position reported for governmental activities in the Statement of Activities is different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays were in excess/deficient over depreciation in the current period.

<i>Capital Outlay Expenditures</i>	(41,408)
<i>Depreciation Expense</i>	(1,390)
<i>Excess / (Deficiency) of Capital Outlay Over Depreciation Expense</i>	(42,798)

Expenses for compensated absences reported in the Statement of Activities are not reported as expenditures in the governmental funds. (10)

Some revenues and expenses reported in the Statement of Activities are not reported as revenue and expenditures in the governmental funds. Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses, liabilities, and deferred resources are reported regardless of when financial resources are available. This adjustment combines the changes in the following balances:

<i>Decrease in Net Pension Asset / (Liability)</i>	80
--	----

Change in Net Position..... **\$ 168,434**

The Ohio Holocaust and Liberators Memorial

- South side of the Ohio Statehouse
- Unveiled by Governor John Kasich and architect Daniel Libeskind in June 2014.
- The memorial honors those who lost their lives and thanks the brave men and women of Ohio who fought during the Second World War.

STATISTICAL SECTION

This section of the State of Ohio's Comprehensive Annual Financial Report presents detailed information as a context for understanding the information in the financial statements, note disclosures, and required supplementary information.

	<u>Pages</u>
Financial Trends	256-269
<p>These schedules contain trend information to assist the reader in understanding how the State's financial performance and condition have changed over time.</p>	
Revenue Capacity	270-283
<p>These schedules contain information to assist the reader in assessing the State's two most significant own-source revenues: income taxes and sales taxes.</p>	
Debt Capacity	284-293
<p>These schedules present information to assist the reader in assessing the affordability of the State's current levels of outstanding debt and its ability to issue additional debt in the future.</p>	
Economic and Demographic Information	294-297
<p>These schedules offer economic and demographic indicators to assist the reader in understanding the environment within which the State's financial activities take place.</p>	
Operating Information	298-305
<p>These schedules contain service and infrastructure data to assist the reader in understanding how the information in the State's financial report relates to the services the State provides and to the activities it performs.</p>	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Ohio Office of Budget and Management

Notes:

Beginning in fiscal year 2011, restricted net position categories have been revised to correspond with the categories presented for restricted fund balance.

Ohio Building Authority ceased operations December 31, 2011.

When practical, net position reported on the above table has been restated for prior period adjustments, corrections, and reclassifications. However, restatements do not include changes in reporting entity. For comparative purposes, however, the effects of such adjustments and corrections on the revenue and expense activity reported for the applicable fiscal years on the "Changes in Net Position" table may not have been determined for presentation on that table.

Ohio Office of Budget and Management

Notes:

During fiscal year 2014, Ohio House Bill 59 line item restructuring resulted in increases to Public Assistance and Medicaid expenses and decreases to Health and Human Services expenses.

Ohio Building Authority ceased operations December 31, 2011.

On February 1, 2013, the State granted a 25-year franchise on its spirituous liquor system.

Activity of the Liquor Control Enterprise Fund ceased as of January 31, 2013.

Balances have been restated for prior period adjustments, corrections, and reclassifications, when practical.

Ohio Office of Budget and Management

Notes:

As a result of implementing GASB Statement 54: *Fund Balance Reporting and Governmental Fund Type Definitions*, fund balances have been classified in new categories beginning in fiscal year 2011.

When practical, fund balances reported on the above table have been restated for prior period adjustments, corrections, and reclassifications; however, restatements do not include changes in reporting entity. For comparative purposes, however, the effects of such adjustments and corrections on the revenue and expenditure activity reported for the applicable fiscal years on the "Changes in Fund Balances for Governmental Funds" table and the "Condensed Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund" table may not have been determined for presentation on each of the two respective tables.

Notes:

As a result of implementing GASB Statement 54: *Fund Balance Reporting and Governmental Fund Type Definitions*, the General Fund is reporting balances and activities previously reported within special revenue funds beginning in fiscal year 2011.

The July 1 fund balances, revenues, and expenditures have been restated for prior period adjustments, corrections, and reclassifications, when practical.

Limitations on Debt

A 1999 amendment to the Ohio Constitution provides an annual debt service "cap" on general obligation bonds and other direct obligations payable from the General Revenue Fund (GRF) or net state lottery proceeds. Generally, such bonds may not be issued if the future fiscal year debt service on the new bonds and previously issued bonds exceeds five percent of total estimated GRF revenues plus net state lottery proceeds during the fiscal year of issuance. Application of the cap may be waived in a particular instance by a three-fifths vote of each house of the General Assembly and may be changed by future constitutional amendments. Direct obligations of the State include, for example, special obligation bonds issued by the Ohio Building Authority and the Treasurer of State that are paid from GRF appropriations, but exclude bonds such as highway bonds that are paid from highway user receipts.

Source:

Ohio Office of Budget and Management

Note:

(A) Debt Service Expenditures reflect the restructuring of net debt service payments into later fiscal years.

(continued)

Notes:

- (A) The Buckeye Tobacco Settlement Financing Authority revenue bonds were first issued in fiscal year 2008. Gross revenues consist of tobacco settlement receipts (TSRs) and investment income.
- (B) The gross revenue for Infrastructure Bank Revenue Bonds includes GARVEE receipts, which stands for Grant Anticipation Revenue Vehicles, and other revenue. GARVEE receipts are capital market borrowings repaid by federal transportation funds deposited in the State's Highway Operating Fund.

(continued)

Notes (continued):

- (C) On February 1, 2013, the State granted a 25-year franchise on its spirituous liquor system. Activity of the Liquor Control Enterprise Fund ceased as of January 31, 2013. The final debt service payments on the Economic Development and Revitalization Project Revenue Bonds and Notes were made during fiscal year 2013.
- (D) Fiscal year 2012 debt service requirements includes payments for Bond Anticipation Notes (BANS), the term of which is no longer than one year.
- (E) Gross revenues consist of operating revenues and investment income.
- (F) The final debt service payments on the Ohio Building Authority Revenue Bonds were made during fiscal year 2008.

Notes (continued):

- (E) Gross revenues consist of operating revenues and investment income.
- (G) The final debt service payments on the Bureau of Workers' Compensation Revenue Bonds were made during fiscal year 2014.
- (H) During fiscal year 2013, the Bureau of Workers' Compensation (BWC) adjusted its premium rates and recorded a premium rebate.
- (I) Investment income for fiscal year 2010 increased by approximately \$2 billion as a result of the implementation of a strategy to diversify fixed and equity investments, a comprehensive update to BWC's investment policy, and the selection of investment managers to execute its passive investment strategy.
- (J) In June 2007, House Bill 100 passed granting BWC the authority to assess employers in future periods for amounts needed to fund the Disabled Worker's Relief Fund. The net impact of this change was a \$1.9 billion increase in operating revenues during fiscal year 2007.

Ohio's Office of Budget and Management
State Accounting and Reporting

Ohio Veterans Plaza

- East side of the Ohio Statehouse
- Two Vietnam veterans erected a plywood tribute on the Statehouse lawn in 1981, shortly thereafter, the Ohio Legislature passed a bill to install a permanent veteran's monument.
