

Comprehensive Annual Financial Report

For the Fiscal Year
Ended June 30, 2017

Larry Hogan, Governor
Boyd K. Rutherford, Lt. Governor
Pete K. Rahn, Secretary

*On the cover:

Maryland Department of Transportation headquarters in Hanover, Maryland.

The building now features a logo redesign which replaced the old logo that had been in use for over 40 years.

The rebranding is part of an effort to unify MDOT's Transportation Business Units to foster collaboration, to promote coordination, and to eliminate redundancies.

MARYLAND DEPARTMENT OF TRANSPORTATION

Mission

The Maryland Department of Transportation is a customer-driven leader that delivers safe, sustainable, intelligent and exceptional transportation solutions in order to connect our customers to life's opportunities.

Vision

The Maryland Department of Transportation strives to achieve our vision of a world class multimodal transportation system that supports a vibrant economy and an excellent quality of life for all Marylanders.

Goals

- Safety & Security-Enhance the safety of transportation system
- System Preservation-Preserve and maintain the State's existing transportation infrastructure and assets
- Quality of Service-Maintain and enhance the quality of the service experienced by users of Maryland's transportation system
- Environmental Stewardship-Ensure the delivery of the State's transportation infrastructure program conserves and enhances Maryland's natural, historical and cultural resources
- Community Vitality-Provide options for the movement of people and goods that support communities and quality of life
- Economic Prosperity-Support a healthy and competitive Maryland economy

December 1, 2017

Pete K. Rahn
Secretary
Maryland Department of Transportation
7201 Corporate Center Drive
Hanover, MD 21076

Dear Secretary Rahn:

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) of the Maryland Department of Transportation (Department) for the fiscal year ended June 30, 2017, which includes the financial statements of the Department. The data, as presented, is reported in a manner designed to present fairly the financial position and changes in financial position of the Department. All disclosures necessary to enable the reader to gain a maximum understanding of the Department's financial affairs have been included. This CAFR is a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the Department. Consequently, management assumes full responsibility for the completeness and reliability of all information presented within this report. To provide a reasonable basis for making these representations, the Department's management has established a comprehensive internal control framework designed to protect the Department's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Department's financial statements in conformity with GAAP. Since the cost of internal controls should not outweigh their benefits, the Department's comprehensive framework of internal controls have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert to the best of our knowledge and belief, that this financial report is complete and reliable in all material respects.

The Department, in conjunction with the State of Maryland (State), requires an audit of the Department's basic financial statements by a firm of licensed certified public accountants. The Department has complied with this requirement, and the independent audit report of SB & Company, LLC is presented as the first component of the financial section of this report. The goal of the independent audit was to provide reasonable assurance that the Department's financial statements for the fiscal year ended June 30, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; evaluating the key internal controls and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Department's basic financial statements as of and for the fiscal year ended June 30, 2016, are fairly presented in conformity with GAAP.

Toll Free Number 1-888-713-1414 TTY Users Call Via MD Relay
7201 Corporate Center Drive, Hanover, Maryland 21076**

The independent audit of the Department's basic financial statements is part of a broader, federally mandated "Single Audit" designed to meet the special needs of the federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the basic financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the State of Maryland's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Department's MD&A can be found immediately following the report of the independent public accountants.

Profile of the Government

The Department has the responsibility for most State-owned transportation facilities and programs. This responsibility includes the planning, financing, construction, operation and maintenance of various modes of transportation and effecting various related licensing and administrative functions. The statutorily created transportation agencies or modal administrations that are encompassed by the Department are the Maryland Aviation Administration, the Maryland Port Administration, the Maryland Transit Administration, the Motor Vehicle Administration, the State Highway Administration, and the Transportation Secretary's Office.

The Secretary of Transportation is empowered, on behalf of the Department, to exercise or perform any power or duty that any of these Administrations may exercise or perform. These powers and duties involve, among others, the operation of the Baltimore Washington International Thurgood Marshall (BWI Marshall) Airport, including the power to set landing fees and to rent space to airlines and concessionaires; the operation of the various State-owned buildings and marine terminals in the Port of Baltimore, including the power to set and collect rental and other fees for the use of these facilities; the construction and maintenance of the State Highway System; the operation of all mass transit facilities in the Baltimore Metropolitan Transit District, including the operation of the rail system in this District and the power to set and collect the fares for this system; the licensing and registration of all motor vehicles and motor vehicle operations in the State; and the power to acquire any property by purchase or condemnation that is necessary to exercise or perform these powers and duties. The Secretary of Transportation is also empowered to provide grants for transportation-related purposes, including annual grants in support of the Washington Metropolitan Area Transit Authority (WMATA) for construction and operation of its facilities.

Certain transportation facilities, which are not part of the Department's financial reporting entity, are operated as toll facilities by the Maryland Transportation Authority (Authority). These toll facilities, the Chesapeake Bay Bridges, the Fort McHenry Tunnel, the Baltimore Harbor Tunnel, the Francis Scott Key Bridge, the John F. Kennedy Memorial Highway and others are included in the Authority's separately audited financial statements. The Authority also developed a 262-acre containerized-cargo marine terminal, the Seagirt Marine Terminal and an intermodal container transfer rail yard. The Maryland Port Administration manages the intermodal container transfer yard and leases the management of Seagirt Marine Terminal to an outside private entity. The Authority consists of six members who are appointed by the Governor and the Secretary, who is ex officio and serves as the Chairman.

The Department's annual budget serves as the foundation for its financial planning and control. The Governor is required, by the Maryland Constitution, to submit annually to the General Assembly a balanced budget containing a complete plan of proposed expenditures and estimated revenues for the ensuing fiscal year, including a plan of proposed expenditures and estimated revenues for the Department. The General Assembly may not amend the Budget Bill to affect payment of State debt or otherwise to change its provisions, except to increase or decrease the appropriations relating to the General Assembly or the judiciary, or to strike out or reduce other appropriations submitted by the Governor. It must, however, enact a balanced budget. The General Assembly may authorize an appropriation apart from the Budget Bill, but it may only do so by a separate supplementary appropriation bill limited to a single object or purpose and providing for levying a specific tax or taxes in that bill sufficient to fund the appropriation.

The Department's expenditures are made in accordance with appropriations provided for in the annual budget, except that the Department may submit to the Governor a budget amendment and, if the Governor approves the amendment, the Department may make disbursements in accordance with the budget amendment. By budget amendment, the Department may increase or decrease the amount of the appropriation for any project or transfer funds from one project or administration to another. A budget amendment may not, however, increase the salary or salaries of any office or position, except in certain acute emergencies, or change any language or substantive provision in the budget. All amendments approved by the Governor are required to be reported to the next session of the General Assembly. By means of a constitutional amendment in 1978, the General Assembly is permitted to enact bills that may require the Governor to provide for specific program funding in the annual budget. A schedule showing budget and actual expenditures is presented as required supplementary information at the end of the financial section of this report.

Transportation Trust Fund

The Transportation Trust Fund (TTF) was established in 1971 by Chapter 526 of the Laws of Maryland for 1970. The TTF is credited with revenues collected from motor vehicle titling and fuel taxes, a portion of the State's corporate income tax, a portion of the State's sales tax on rental vehicles, various fees, charges for services, bond proceeds, federal grants for transportation purposes and other receipts of the Department. All expenditures of the Department are made from the TTF. The Department may use the funds in the TTF for any lawful purpose related to the exercise of its powers, duties and obligations, after meeting its debt service requirements. Unexpended funds remaining in the TTF at the close of each fiscal year do not revert to the State's General Fund Account but remain in the TTF.

Accounting records for the Transportation Trust Fund (TTF) are maintained by the Comptroller of Maryland, and all cash and investments of the TTF are held by the State Treasurer, except for revolving cash accounts. Accounting records for the TTF, for operational and management purposes are maintained by the Department's Office of Finance. Although the accounts maintained by the Department on a budgetary basis generally conform to GAAP, there are certain departures from these principles that are dictated by statutory requirements and historical practices. The principal departures are the exclusion of non-budgeted activities and classification of fund-type.

Factors Affecting Financial Condition

The information presented in the Department's financial statements is best understood when it is considered from a broader perspective of the specific environment within which the Department operates. All of the Department's activities are supported by the TTF. The flexible structure of the TTF provides the Department with the ability to expand and maintain the modal administrations' operating, capital construction and maintenance programs. The condition of the State's economy influences its revenue sources. Tracking the factors that affect Maryland's economy helps in monitoring the financial health of the TTF.

Local Economy

Maryland's economy continued its recovery this year with most of Maryland's economic indicators showing positive growth. Employment growth accelerated and was broad-based with even federal funded jobs showing strength. The unemployment rate has been under 4.5% all year and is forecasted to come in at 4.0% for 2017.

Maryland trailed the national recovery primarily because of federal cutbacks. This fiscal drag eased as federal policymakers started to address their budget issues. Maryland's outlook assumes it will track with the U.S. economy with slow and steady improvement in employment, housing, and income growth throughout the coming year.

The Department's transportation system provides important economic benefits to the citizens and businesses throughout Maryland. The port, airports, highways, and transit systems each play a vital role in moving goods and people around and through the State. Maintaining and improving the Department's transportation network is essential for growth in Maryland's economy. Investment in the Department's transportation system results in direct economic benefits such as construction jobs and indirect benefits such as businesses choosing to relocate in Maryland, in part due to the Department's efficient and effective transportation system.

Long-term Planning

Each year the Department uses the Maryland Transportation Plan, last adopted in January 2014, as a guide to develop the draft Consolidated Transportation Program (CTP), a specific list of projects to be funded over a six-year period. The Department publishes the draft CTP in September of each year and the final CTP in January of the next calendar year. The CTP lists the capital projects that preserve and enhance our transportation system to accommodate intrastate and interstate travel, international travel, and to facilitate commerce. These projects are Maryland's investment in our highway, transit, port, and aviation facilities that ensure a safe and efficient transportation system.

Projects included in the Department's 2018 draft CTP for fiscal years 2018-2023 require about \$14.7 billion in funding over the next six years. Of that amount, \$8.2 billion is allocated for State Highway Administration projects, while \$3.4 billion is allocated for Maryland Transit Administration projects. The remaining amount includes Maryland Port Administration projects of \$784 million, Maryland Aviation Administration projects of \$384 million, Motor Vehicle Administration projects of \$118 million, and projects in the Transportation Secretary's Office of \$218 million. Maryland also contributes \$1.6 billion, of which \$600 million is federal funds, to the Washington Metropolitan Area Transit Authority for the fiscal years 2018-2023. Overall, the Department's capital program continues to emphasize preservation of Maryland's existing transportation infrastructure and ensures the competitiveness of the Port of Baltimore and BWI Marshall Airport.

Pension Benefits

The Department contributes to the State Retirement and Pension System of Maryland (System), established by the State of Maryland to provide pension benefits for State employees (other than employees covered by the Maryland Transit Administration Pension Plan described below) and employees of the various participating political subdivisions or other entities within the State. While the System is an agent multiple-employer public employee retirement system, the Department accounts for the plan as a cost sharing multiple-employer public employee retirement system since a separate valuation is not performed for the Department and the Department's only obligation to the plan is its annual contributions.

The Department sponsors a single-employer noncontributory benefit pension plan for all Maryland Transit Administration employees that are covered by a collective bargaining agreement and all those management employees who were employed by the Baltimore Transit Company. In addition, employees who enter the management group as a result of a transfer from a position covered by a collective bargaining agreement maintain their participation. Each year, an independent actuary engaged by the pension plan calculates the amount of the annual contribution the Department must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Maryland Department of Transportation for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2016. This year was the seventeenth consecutive year the Department has received this prestigious award. In order to be awarded a Certificate of Achievement, the Department must publish an easily readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this CAFR would not have been possible without the efficient and dedicated services of the entire staff in the Office of Finance and assistance from various other agencies within the Department. I would like to express my appreciation to all members of the Department who assisted and contributed to the preparation of this CAFR.

Sincerely,

David L. Fleming

Organizational Chart**

Maryland Department of Transportation-Transportation Business Units Maryland Aviation Administration (MAA)

The Maryland Department of Transportation Maryland Aviation Administration (MDOT MAA) owns and operates Baltimore/Washington International Thurgood Marshall Airport (BWI Marshall) and Martin State Airport, and supports public-use airports across the State of Maryland. At the MDOT MAA, the core mission is the operation and support of airports in Maryland to provide residents, businesses and travelers with the highest levels of service, safety and economic benefit. BWI Marshall is the twenty-second busiest airport in the United States and the busiest in the Washington-Baltimore region, serving more than 25 million passengers per year. Air service includes an average of more than 650 daily commercial flights and nonstop service to nearly 90 domestic and international destinations. BWI Marshall is a major transportation resource and economic development engine for the State of Maryland and the region, creating and supporting almost 98,000 regional jobs and more than \$7 billion in business revenue.

Maryland Port Administration (MPA)

MPA (cont.)

Recently named as the most efficient U.S. container port for the third consecutive time, the Port of Baltimore is well positioned for continued success. With a 50-foot deep channel and berth and supersized cranes, the Port of Baltimore is one of only four U.S. East Coast ports with the infrastructure to handle some of the largest container ships in the world. Out of 190 major U.S. ports, the Port of Baltimore ranks number one for handling autos and light trucks, farm and construction machinery, and imported sugar. Overall the Port of Baltimore is ranked ninth for the total dollar value of international cargo and 14th for international cargo tonnage. Baltimore is also one of the busiest cruise ports on the East Coast and is home to both Royal Caribbean and Carnival cruise lines. Business at the Port of Baltimore generates about 13,600 direct jobs, while about 127,000 jobs in Maryland are linked to port activities. The Port is responsible for \$3 billion in personal wages and salary and more than \$300 million in state and local taxes.

Maryland Transit Administration (MTA)

The Maryland Department of Transportation Maryland Transit Administration (MDOT MTA) is one of the largest multi-modal transit systems in the United States with a goal to provide safe, efficient and reliable transit across Maryland with world-class customer service. MDOT MTA operates LocalLink and commuter buses, Light RailLink, Metro SubwayLink, Maryland Area Regional Commuter (MARC) Train service, and a comprehensive Paratransit (MobilityLink) system. MDOT MTA also manages the Taxi Access system, and directs funding and statewide assistance to Locally Operated Transit Systems (LOTS) in each of Maryland's 23 counties, Annapolis, Baltimore City and Ocean City. In June 2017, MDOT MTA completed BaltimoreLink – Governor Larry Hogan's transformative transit network – adding 12 new high-frequency, color-coded bus routes that improve connections to jobs and other transit modes throughout the Baltimore region. In August 2017, the governor – with U.S. DOT Secretary Elaine Chao – celebrated the signing of the \$900 million Full Funding Grant Agreement and broke ground on the Purple Line light rail system in the Washington metropolitan area. Construction is now underway along the entire 16-mile, east-west corridor, which will run from Bethesda to New Carrollton with 21 stations connecting to Metrorail, MARC Train and Amtrak. For more information, visit purplelinemd.com. To learn more about BaltimoreLink, visit mta.maryland.gov and baltimorelink.com, check us out on Facebook at facebook.com/mtamaryland and follow us on Twitter [@mtamaryland](https://twitter.com/mtamaryland).

Motor Vehicle Administration (MVA)

The Maryland Department of Transportation’s Motor Vehicle Administration (MDOT MVA) provides exceptional driver and vehicle-related customer service at 24 offices and 27 vehicle emissions inspection (VEIP) stations conveniently located throughout the state. Last year, the MVA processed 11 million transactions and served 3.8 million walk-in customers while safeguarding the personal information of 5 million Maryland driver’s license and identification (ID) card holders. MDOT MVA is committed to delivering premier customer service daily by offering more online service options, increasing customer convenience, and decreasing customer wait times. This year, MDOT MVA began using electronic tablets to greet customers and verify their information, extended Customer Call Center hours, and added access to TSA Pre-Check, Transportation Worker Identification Credential (TWIC) cards and Department of Natural Resources (DNR) services at several MDOT MVA branch offices. Boat registration and EZ-Pass transactions also began to be offered through the convenience of MDOT MVA’s website. MDOT MVA is truly becoming a “one stop shop” for government services. Home to the Maryland Highway Safety Office, MDOT MVA also remains committed to decreasing traffic fatalities statewide through the implementation of a comprehensive Strategic Highway Safety Plan.

State Highway Administration (SHA)

SHA (cont.)

The Maryland Department of Transportation State Highway Administration (MDOT SHA) operates, maintains and rebuilds the major highways (numbered, non-toll routes) in Maryland's 23 counties – more than 17,000 lane-miles and 2,572 bridges. MDOT's Coordinated Highways Action Response Team (CHART) monitors traffic 24/7 and through emergency patrols assists more than 42,000 stranded motorists and clears an average 30,000 crashes and incidents per year, collectively saving commuters 44 million hours of delay and enhancing safety. SHA roads carry 67 percent of the state's 60 billion miles of annual travel, and 85 percent of its truck freight, providing economic opportunity, mobility and access for people, businesses, goods and service throughout Maryland. MDOT SHA has a record amount of projects underway with approximately \$4 billion in active work that is competitively awarded to private entities, sustaining thousands of jobs in the highway industry for contractors, suppliers, engineering firms and small and minority businesses. The State highway system supports Marylanders' quality of life by connecting communities, schools, recreation, worship and local and world travel through BWI Marshall Airport and the Port of Baltimore.

The Secretary's Office (TSO)

The Maryland Department of Transportation The Secretary's Office (MDOT TSO) is comprised of The Secretary's Office and five business units: the Maryland Aviation Administration, the Maryland Port Administration, the Maryland Transit Administration, Maryland Motor Vehicle Administration, and the State Highway Administration. The Secretary's Office (MDOT TSO) delivers overall policy direction, guidance and support to the MDOT transportation business units in the areas of administrative policy, governmental relations, public affairs, finance, customer service, real estate and business development, procurement, human resources and capital planning. In addition, MDOT TSO's Office of Transportation Technology Services runs centralized computing resources and general information technology services throughout MDOT. MDOT TSO also awards operating and capital grants for transit services in the Washington, D.C., metropolitan area. MDOT TSO also provides grants to other governmental agencies, such as local transportation planning agencies, for transportation-related purposes. TSO is focused on promoting better communications, customer-friendly services and smart use of resources throughout MDOT.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

Mr. Pete K. Rahn, Secretary
Maryland Department of Transportation
Hanover, Maryland

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Maryland Department of Transportation (the Department, a special revenue fund of the State of Maryland), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Department's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

SB & COMPANY, LLC
EXPERIENCE • QUALITY • CLIENT SERVICE

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Department, as of June 30, 2017, and the respective changes in financial for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of funding progress and employer contributions of the Maryland Transit Administration Other Post-employment Benefit Plan, schedule of changes in the net position liability and related ratios and schedule of employer contributions for the Maryland Transit Administration Pension Plan, schedules of the Department's proportionate share of the net pension liability and Department contributions for the Maryland State Retirement and Pension System, and the special revenue funds schedules of revenue, expenditures and changes in fund balance – budget and actual, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Department's basic financial statements. The statement of changes in assets and liabilities – agency funds, introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

SB & COMPANY, LLC
EXPERIENCE • QUALITY • CLIENT SERVICE

The statement of changes in assets and liabilities – agency funds is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statements of changes in assets and liabilities – agency funds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

MARYLAND DEPARTMENT OF TRANSPORTATION

Management's Discussion and Analysis

As management of the Maryland Department of Transportation (Department), we offer the citizens of Maryland and others interested in the Department's financial statements this narrative overview and analysis of the financial activities of the Department for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on page 8 of this report.

Financial Highlights

- The assets of the Department exceeded its liabilities at the close of the most recent fiscal year by \$14,313,093,000 (net position). Of this amount, \$1,897,379,000 represents the unrestricted deficit primarily due to the reporting of net pension liability and OPEB liability.
- The Department's governmental funds reported a combined ending fund balance, as of the close of the current fiscal year, of \$208,571,000, an increase of \$85,097,000 in comparison with the prior fiscal year.
- The Department's Consolidated Transportation Bonds debt outstanding increased by \$432,300,000 (20.1%) during the current fiscal year. The key factors in this increase were bond issuances of \$650,000,000 while the Department continued to make its regularly scheduled debt service principal payments during the year which totaled \$207,185,000. In addition, the Department issued \$242,525,000 refunding bonds to defease \$253,040,000 in bonds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Department's basic financial statements. The Department's basic financial statements are comprised of three components: (1) *government-wide financial statements*, (2) *fund financial statements*, and (3) *notes to the financial statements*. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Department's finances, in a manner similar to a private-sector business. The Statement of Net Position presents information on all of the Department's assets and liabilities, with the difference between the two reported as net position. Over time, increases and decreases in net position may serve as one of several useful indicators of the Department's financial position. The Statement of Activities presents information showing how the Department's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Department that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions. The governmental activities of the Department include the Secretary's

Office, the State Highway Administration (SHA), the Maryland Port Administration (MPA), the Motor Vehicle Administration (MVA), the Maryland Transit Administration (MTA), the Maryland Aviation Administration (MAA), Washington Metropolitan Area Transit Authority Grants (WMATA), distributions to political subdivisions, distributions to other state agencies and debt service. The government-wide financial statements include only the Department (a special revenue fund of the State of Maryland), which has no component units and does not include the Maryland Transportation Authority, which is a separate enterprise fund of the State of Maryland. The government-wide financial statements can be found starting on page 36 of this report.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Department, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Department can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Department maintains two individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the special revenue fund and the debt service fund. The special revenue fund is considered to be a major fund. The basic governmental fund financial statements can be found starting on page 38 of this report.

The Maryland General Assembly authorizes an annual appropriated budget for the Department's special revenue fund. A budgetary comparison schedule has been provided for the special revenue fund to demonstrate compliance with this budget. The budgetary comparison schedule can be found on page 76 of this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Department's own programs. The

accounting used for the fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on page 41 and 42 of this report.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found starting on page 43 of this report.

Changes in Governmental Accounting Standards

The Governmental Accounting Standard Board (GASB) has issued Statement No. 77, entitled Tax Abatement Disclosures. The Department implemented this statement during the year ended June 30, 2017 and it did not have a material effect on the Department's financial statements.

The GASB has also issued Statement No. 74, entitled Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. This statement was adopted by the Department but it did not have a material effect on the Department's financial statements, as the Department has not established a trust for its OPEB plan. GASB has also issued Statement No. 75 entitled, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement will be effective for fiscal year 2018 and is expected to have a material effect on the Department's financial statements. The effect of this statement on the financial statements has yet to be determined.

GASB issued Statement No. 84, Fiduciary Activities and GASB Statement No. 87, Leases. These statements may have a material effect on the Department's financial statements once implemented. The Department will be analyzing the effects of these pronouncements and plans to adopt, if applicable, by its effective date.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Department's progress in funding its obligation to provide pension benefits to its employees at the MTA, as well as the budget and actual comparison schedule. Required supplementary information can be found starting on page 71 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the Department, assets and deferred outflows exceeded liabilities and deferred inflows by \$14,313,093,000 at the close of the most recent fiscal year. By far the largest portion of the Department's net position reflects its investment in capital assets (e.g., land, buildings, equipment and infrastructure), less any still outstanding related debt used to acquire those assets. The Department uses those capital assets to provide services to the citizens of Maryland; consequently, these assets are not available for future spending. Although the Department's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The Department's net position increased by \$891,219,000 during the current fiscal year 2017, primarily due to an increase in federal revenues received from prior year receivables.

The following schedule reflects the Department's Net Position Summary.

Maryland Department of Transportation
Net Position

(amounts expressed in thousands)

Governmental Activities	2017	2016
Current and other assets	\$ 946,709	\$ 995,784

Financial Analysis of the Government's Funds

As noted earlier, the Department uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the Department's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Department's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Department's governmental funds reported combined ending fund balances of \$208,571,000, an increase of \$85,097,000 in comparison with the prior fiscal year. The Department's governmental funds increase is due primarily to increase in federal revenues. All of the special revenue fund balance is non-spendable, restricted, committed, and/or assigned fund balance and indicates that it is not available for new spending because it has already been committed and/or assigned for the following purposes: (1) to maintain a separate non-spendable account for inventory activity balances in the amount of \$103,510,000; (2) to maintain a separate committed account for contractual transportation obligations in the amount of \$15,402,000; (3) to maintain a separate assigned account for specific agency activity balances in the amount of \$83,890,000.

The special revenue fund is the chief operating fund for the Department. As a measure of the special revenue fund's liquidity, it may be useful to compare the total fund balance of \$202,802,000 to the total Department expenditures of \$4,835,664,000. The total fund balance represents 4.19% of the total fund expenditures.

Capital Asset and Debt Administration

Capital assets

The Department's investments in capital assets for its governmental activities as of June 30, 2017, amounts to \$19,706,734,000 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, infrastructure and construction in progress. In the current fiscal year, the Department's investments in capital assets increased by \$1,401,586,000.

Some of the major capital asset events during the current fiscal year included the following:

- Construction continued on the expansion and upgrading of the airport facilities at Baltimore Washington International Thurgood Marshall Airport (BWI Marshall); construction in progress at BWI Marshall at the close of the current fiscal year decreased to \$386,669,000 compared to \$417,177,000 in the prior fiscal year, while MAA buildings increased by \$162,274,000 and infrastructure increased by \$59,588,000 in the current fiscal year.
- A variety of widening and/or expansion of existing and new highways and bridges were completed in fiscal year 2017; infrastructure assets for SHA at the close of the current fiscal year reached \$20,825,425,000 compared to \$19,816,797,000 in the prior fiscal year, a 5.1% increase.

- Various transit, port and motor vehicle administration construction projects began in fiscal year 2017; construction in progress for these administrations at the close of the current fiscal year was \$3,336,651,000 compared to \$2,823,490,000 in the prior fiscal year.

The following schedule reflects the Department’s Capital Assets Summary.

Maryland Department of Transportation

Capital Assets

(net of depreciation)

(amounts expressed in thousands)

Governmental Activities	June 30, 2017	June 30, 2016
Land	\$ 2,754,169	\$ 2,663,948
Buildings and improvements	1,691,442	1,515,601
Machinery and equipment	664,969	585,197
Infrastructure	9,466,071	9,275,724
Seagirt Assets	48,681	49,813
Construction in progress	5,081,402	4,214,865
Total	\$ 19,706,734	\$ 18,305,148

Additional information on the Department’s capital assets can be found in note 8 on page 51 of this report.

Long-term debt

At the end of the current fiscal year the Department had total bonded debt outstanding of \$2,578,385,000, and represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

The following schedule reflects the Department’s Outstanding Debt Summary.

Maryland Department of Transportation

Outstanding Debt

(amounts expressed in thousands)

Governmental Activities	June 30, 2017	June 30, 2016
Consolidated transportation bonds	\$ 2,578,385	\$ 2,146,085

The Department’s consolidated transportation bonds outstanding debt increased by 20.1%. The issuance of \$650,000,000 in new debt in Series 2016 and Series 2017, and the issuance of \$242,525,000 in series 2016 Refunding Bonds combined with the continued scheduled debt service principal payments made during the year resulted in the increase in debt outstanding in fiscal year 2017. The Department maintains an “AAA” rating with Standard & Poor’s Corporation, an “AA+” rating with Fitch Ratings and an “Aa1” rating with Moody’s Investors Services, Inc., for its consolidated transportation bonds. As provided by law, the maximum outstanding aggregate amount of Consolidated Transportation Bonds that may be outstanding increased from \$2,600,000,000 to \$4,500,000,000 effective June 1, 2013 and thereafter. The increase is pursuant to legislation enacted by the 2013 General Assembly, which also increased transportation funding. The aggregate principal amount of those bonds that was allowed to be outstanding as of June 30, 2017 for the Department was \$2,773,900,000, which is higher than the

Department’s outstanding transportation-related debt. Additional information on the Department’s long-term debt can be found in note 10 on page 53 of this report.

Capital leases. At the end of the current fiscal year the Department had capital leases outstanding of \$569,659,000. The following schedule reflects the Department’s Capital Leases Summary.

Maryland Department of Transportation		
Capital Leases		
<i>(amounts expressed in thousands)</i>		
Governmental Activities	June 30, 2017	June 30, 2016
Capital leases	\$ 569,659	\$ 621,732

The Department’s capital lease obligations have decreased by \$52,073,000, during the current fiscal year. This decrease is attributable to ongoing construction costs related to airport projects and continued scheduled capital lease payments at airport and the various Department’s port facilities, and transit facilities. The Department maintains an “AA+” rating with Standard & Poor’s Corporation, an “Aa2” rating with Moody’s Investors Services, Inc. and an “AA” with Fitch Ratings for Certificates of Participation which are included in capital lease obligations. Additional information on the Department’s capital lease obligations can be found in note 12 on page 55 of this report.

Special Revenue Fund Budgetary Highlights

The Department’s appropriations, between the original and final amended budget increased by \$121,510,000 for special funds and increased by \$20,384,000 for Federal funds during the current fiscal year. The increase in special and federal fund appropriations was due to a mid-year budget evaluation analysis throughout the Department. The Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual can be found on page 74 of this report.

Economic Factors and Next Year’s Budgets and Rates

Maryland’s economic indices showed positive direction for the State this past fiscal year. Employment growth for the State of Maryland was 1.9% for the first three quarters of this year compared to 1.4% growth in 2016. The State’s personal income is continuing to rise with a growth of 3.2% through the second quarter of 2017. Nationally, personal income grew by 3.0% for the same period.

Although growth has been uncharacteristically slow for a period of economic recovery, Maryland’s economy continues to grow at a slow but steady pace, and steady growth is forecasted for the next several years. The unemployment rate, which peaked at 7.6% in 2010, is estimated to be 4.0% for 2017. Job growth continues to be in professional and business services, as well as, the healthcare and leisure/hospitality sectors.

Maryland’s economic health is heavily reliant on federal spending. The federal government sector, typically a positive driver to Maryland’s economy, has in the recent past caused a level of uncertainty. The federal fiscal concerns eased with the passage of the omnibus spending package, however, the president’s proposed budget includes cuts to nearly all non-defense departments. This potential hit to civilian employment could impact discretionary spending and be a drag on growth in Maryland.

During the 2013 Session of the General Assembly, the Transportation Infrastructure Investment Act of 2013 was enacted to significantly increase transportation infrastructure funding. Maryland's capital spending will continue to be robust for the next couple of years as the capital projects started with this funding will be in their main construction phase.

During the current fiscal year, assigned fund balance increased to \$83,890,000, from \$0 in the prior year primarily due to increased Federal revenue and an across the board 2% appropriation reduction.

Requests for Information

This Comprehensive Annual Financial Report is designed to provide a general overview of the Department's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Mr. David L. Fleming, Chief Financial Officer, Office of Finance, MDOT - Secretary's Office, 7201 Corporate Center Drive, Hanover, MD, 21076.

Total other financing sources and uses	438,056	298,965	737,021
Net change in fund balances	91,707	(6,610)	85,097
Fund balances, July 1, 2016	111,095	12,379	123,474
Fund balances, June 30, 2017	\$ 202,802	\$ 5,769	\$ 208,571

The notes to the financial statements are an integral part of this statement.

MARYLAND DEPARTMENT OF TRANSPORTATION
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of
Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2017
(amounts expressed in thousands)

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds (page 39)	\$	85,097
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.</p>		
Capital outlays	\$ 2,487,336	
Loss on disposal of assets	(4,274)	
Depreciation expense	<u>(1,081,475)</u>	
		1,401,587
<p>The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins) Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>		
Unavailable revenue	\$ (37,213)	
Amortization of advance rental payments	<u>2,227</u>	
		(34,986)
<p>The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to government funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>		
Net premium on bonds	\$ (69,076)	
Principal repayment of bonds	460,225	
Debt Issued, transportation bonds	(892,525)	
Capital lease liability	<u>52,073</u>	
		(449,303)
<p>Some expenses reported in the statement of activities do not require the use of current financial resources, and therefore, are not reported as expenditures in the governmental funds.</p>		
Accrued interest	\$ (1,040)	
Compensated absences	486	
Energy savings liability	4,038	
Workers compensation	(3,284)	
State Net pension liability	9,670	
MTA Net pension liability	145,552	
MTA OPEB obligation	<u>(64,956)</u>	
		89,243
<p>Deferred financing inflows (outflows)</p>		
Pension expense	\$ (205,987)	
Refunding bonds	4,436	
Amortization of assets	<u>1,132</u>	
		(200,419)
Change in net position of governmental activities (page 36)	\$	891,219

MARYLAND DEPARTMENT OF TRANSPORTATION
Notes to the Financial Statements
For the Year Ended June 30, 2017

1. Summary of Significant Accounting Policies:

A. Reporting Entity:

The Maryland Department of Transportation (Department), a department of the State of Maryland, was established by statute in 1971. The Department is responsible for carrying out the Governor's policies in the area of transportation under statutory mandates, guidelines and constraints established by the State's General Assembly. The Department has the responsibility for most state-owned transportation facilities and programs, including planning, financing, construction, operation and maintenance of various modes of transportation and carrying out related licensing and administrative functions. The statutorily created transportation agencies included in the Department are the Maryland Aviation Administration (MAA), Maryland Port Administration (MPA), Motor Vehicle Administration (MVA), Maryland Transit Administration (MTA), State Highway Administration (SHA) and the Secretary's Office (TSO).

The accompanying financial statements include the Department, which has no component units. The Maryland Transportation Authority (Authority) is a separate entity with separate fiscal operations and management, and accordingly, is excluded from *The Financial Reporting Entity* of the Department, because it is not financially accountable to the Department, as required by accounting principles generally accepted in the United States of America to require inclusion in the reporting entity.

B. Government-Wide and Fund Financial Statements:

The Department's government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the government. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. The Department's governmental activities are supported primarily by taxes, intergovernmental revenues and charges for services. Fiduciary funds are excluded from the Department's government-wide and fund financial statements, as fiduciary assets are not available for the Department's use.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the fiduciary fund (MTA Pension Plan Trust Fund).

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation:

The government-wide financial statements and the fiduciary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of

accounting revenues are recognized in the financial statements as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Department considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability or obligation is incurred as a result of goods or services rendered, as under accrual accounting. However, under the modified accrual basis, debt service expenditures are recorded only when payment is due. Compensated absences, retirement and workers' compensation costs and claims, judgments and other liabilities not expected to be paid with current available resources are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Motor vehicle taxes, motor vehicle fuel taxes, charges for services, Federal reimbursements and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Department.

The Department collects and receives various types of motor vehicle taxes and fees. These taxes and fees consist primarily of a portion of the motor vehicle fuel taxes, motor vehicle titling taxes and motor vehicle registration fees. The Department accrues the June motor vehicle fuel taxes and titling taxes that are unremitted as of year-end as a receivable. These taxes are considered measurable and available since they represent June collections that are remitted to the Department in July and thereafter by merchants who collect these taxes. Expenditure-driven Federal grants are recognized as revenue when the qualifying expenditures have been incurred, all other grant requirements have been met and the reimbursement funding is available from the Federal government.

The Department reports the following major governmental fund:

Special Revenue Fund:

Transactions related to resources obtained, the uses of which are restricted for specific purposes, are accounted for in the special revenue fund. The special revenue fund accounts for resources used for operations (other than debt service and pension activities) of the Department, including construction and improvement of transportation facilities and mass transit operations. Fiscal resources dedicated to transportation operations include the excise taxes on motor vehicle fuel and motor vehicle titles, a portion of the State's corporation income tax and the State's sales tax, wharfage and landing fees, fare box revenues, bond proceeds, Federal grants for transportation purposes and other receipts of the Department's agencies. The Department's unexpended balances as of year-end do not revert to the State's general fund. In addition, the various categories of transportation bonds are serviced from the resources of the Department. The particular taxes and other designated revenues are dedicated to the payment of transportation bonds and constitute the sole sources to which holders of transportation bonds may legally look for repayment.

The Department reports the following non-major governmental fund:

Debt Service Fund:

Transactions related to the resources accumulated and payments made for principal and interest on long-term transportation debt of governmental funds are accounted for in the debt service fund.

Additionally, the Department reports the following fund types:

Pension Trust Fund:

The pension trust fund accounts for the activities of the MTA Pension Plan (the MTA Plan), which accumulates resources for pension benefit payments to qualified Maryland Transit Administration

employees. The pension trust fund accounts for plan assets at their fair value. Additional information regarding the MTA Pension Plan is included in Note 15. The accounts of the pension trust fund are maintained and reported using the accrual basis of accounting. Under this method, revenues are recorded in the fiduciary fund financial statements when earned, and administrative expenses are recorded at the time the liabilities are incurred and pension benefits are recorded when paid.

Agency Fund:

The agency fund is custodial in nature and does not present the results of operations or have a measurement focus. The Department uses an agency fund to account for the receipt and disbursement of Federal grant proceeds collected by the Department for distribution to political subdivisions and the accumulation of and payment of funds for debt service issued under the alternative county transportation bond program. When both restricted and unrestricted resources are available for use, the Department's policy is to use unrestricted resources first and then restricted resources as they are needed.

D. New Pronouncements:

The Governmental Accounting Standard Board (GASB) has issued Statement No. 77, entitled Tax Abatement Disclosures. The Department implemented this statement during the year ended June 30, 2017 and it did not have a material effect on the Department's financial statements.

The GASB has also issued Statement No. 74, entitled Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. This statement was adopted by the Department but it did not have a material effect on the Department's financial statements, as the Department has not established a trust for its OPEB plan. GASB has also issued Statement No. 75 entitled, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement will be effective for fiscal year 2018 and is expected to have a material effect on the Department's financial statements. The effect of this statement on the financial statements has yet to be determined.

GASB issued Statement No. 84, Fiduciary Activities and GASB Statement No. 87, Leases. These statements may have a material effect on the Department's financial statements once implemented. The Department will be analyzing the effects of these pronouncements and plans to adopt, if applicable, by its effective date.

2. Summary of significant Accounting Policies-Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity

A. All Funds:

1. Deposits and investments:

The Department's cash on hand, demand deposits and short-term investments maturing within 90 days from the date purchased are considered as cash and cash equivalents. The Department's investments are recorded at fair value and changes in fair value are recognized as revenue. The cash and cash equivalents and investments of the Pension Trust Fund are maintained by the State Retirement and Pension System of Maryland (System) on a pooled basis. The System, in accordance with Article 73B, Section 160 of the Annotated Code of Maryland, is permitted to make investments subject to the terms, conditions, limitations and restrictions imposed by the Board of Trustees of the System. The law further provides that not more than 15% of the assets that are invested in common stocks may be invested in non-dividend paying common stock. The System's investments are commingled in three combined investment funds. Two investment funds consist principally of bonds and other fixed income investments, while the other investment fund consists principally of common stocks.

2. Receivables and payables:

Amounts due to the Department from various tax revenue sharing programs are recorded as taxes receivable, while amounts due to the Department from the Federal government are reported as intergovernmental receivables. Amounts representing balances due from the Authority and the State's General Fund are reported as due from other state agencies. Amounts representing balances due to the Authority and the State's General Fund are reported as due to other state agencies. Amounts representing balances due to political subdivisions are reported as accounts payable to political subdivisions.

3. Inventories and prepaid items:

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. In governmental fund type accounts, prepaid expenses are generally accounted for using the purchases method. Under the purchases method, prepaid expenses are treated as expenditures when purchased rather than accounted for as an asset.

4. Grants:

Revenues from Federal reimbursement type grants are recognized when the related expenditures are incurred and the revenues are both measurable and available. The government considers all grant revenues to be available if they are collected within 60 days of the current fiscal period.

5. Capital assets:

Capital assets, which include land, buildings and improvements, machinery and equipment, construction in progress and infrastructure assets (e.g., roads, bridges, sidewalks and similar items) are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the Department as assets with an initial, individual cost of more than \$50,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Cost on constructed assets includes materials, labor, design and any other costs directly related to putting the asset in use. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>Capital Assets</u>	<u>Years</u>
Buildings and improvements	5-50
Transit vehicles and equipment	10-25
Other vehicles	3-10
Office equipment	3-10
Computer equipment	3-10
Computer software	5-10
Infrastructure	10-50

6. Deferred outflows/inflows of resources:

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Department only has two items

reported in this category. It is the deferred charge on refunding resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or defeased debt. The second is the pension expense that include the components for change in assumption, change in experience, change in proportionate share of net pension, contributions after measurement date, and the difference between projected and actual earnings on pension plan investments.

7. Compensated absences:

It is the State's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the State does not have a policy to pay any amounts when employees separate from service with the State. All vacation pay is accrued when earned in the government-wide and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee resignations and/or retirements. Principally all full-time State employees accrue annual leave based on the number of years employed up to a maximum of 25 days per calendar year. Earned annual leave may be accumulated up to a maximum of 75 days as of the end of each calendar year. Accumulated earned, but unused annual leave for the Department's employees is accounted for in the government-wide financial statements.

8. Long-term obligations:

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts adjust the carrying value of the bonds and are amortized over the life of the bonds. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the period the debt is issued. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

9. Fund balance:

The Department's Balance Sheet for the reservation of fund balance includes the following categories: (1). Nonspendable fund balance (which includes inventory of supplies), (2). Restricted fund balance (for debt service items), (3). Committed fund balance (contractual obligations), and (4). Assigned fund balance (for loans receivable, agency activities and other function related activities) for Special Revenue funds within the Department.

When both restricted and unrestricted resources are available for use, it is the Department's policy to use restricted resources first, then unrestricted resources (committed, assigned and unassigned) as they are needed. When unrestricted resources (committed, assigned and unassigned) are available for use it is the Department's policy to use committed resources first, then assigned, and then unassigned as they are needed.

The Department utilizes encumbrance accounting. Encumbrances, based on purchase orders or other contracts, have been classified based on the existing resources that will be used to liquidate them. Encumbrances not included in the restricted fund balance are included in the committed fund balance since these amounts do not lapse at year-end but are payable from remaining appropriations from the prior year. These amounts can only be used for specific purposes pursuant to constraints imposed by

formal actions of the government's highest level of decision making authority through the budget process.

3. Reconciliation of Government-wide and Fund Financial Statements:

A. Explanation of the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund Balance Sheet includes reconciliation between fund balance – total governmental funds and total net position – total governmental activities as reported in the government-wide Statement of Net Position. The governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances includes reconciliation between the net change in fund balance – total governmental funds and the change in net position of governmental activities as reported in the government-wide Statement of Activities. The statement of net position should report all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. The statement of net position presents formats that displays assets, plus deferred outflows of resources, less liabilities, less deferred inflows of resources, equals net position, although a balance sheet format (assets plus deferred outflows of resources equals liabilities plus deferred inflows of resources, plus net position) may be used. Regardless of the format used, the statement of net position should report the residual amount as net position, rather than net assets, proprietary or fiduciary fund balance, or equity. Net position represents the difference between all other elements in a statement of net position and should be displayed in three components—net investment in capital assets; restricted (distinguishing between major categories of restrictions); and unrestricted.

4. Deposits and Investments:

Investments at Fair Value

Government Accounting Standards Board Statement Number 72 (GASB 72), Fair Value Measurements and Application, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosures about the use of fair value measurements. GASB 72 established a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1 – observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 – that are observable for the asset or liability, either directly or indirectly (For example, quoted prices for similar assets or liabilities in active markets).

Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Department categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The plan has the following recurring fair value measurements as of June 30, 2017:

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a combination of prevailing market prices and interest payments that are discounted at prevailing interest rates for similar instruments. Commercial and residential mortgage-backed securities

classified in Level 3 are valued using discounted cash flow techniques. Collateralized debt obligations classified in Level 3 are valued using consensus pricing.

Derivative instruments classified in Level 2 of the fair value hierarchy are valued using a market approach that considers benchmark interest rates and foreign exchange rates.

	<i>(amounts expressed in thousands)</i>			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Opportunistic	1,647		Annual	90 days
Total	<u>\$ 102,617</u>	<u>\$ 40,157</u>		

Interest rate risk:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Department's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the Maryland State Treasurer (Treasurer) policy on all of the Department's investments. The Treasurer's investment policy states that to the extent possible, it will attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the Treasurer will not directly invest in securities maturing more than five years from the date of purchase. The Department followed this policy for all of its investments.

Credit risk:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Department's policy for reducing its exposure to credit risk is to comply with the Treasurer's policy, which requires that the Treasurer's investments in repurchase agreements be collateralized by U.S. Treasury and agency obligations. In addition, investments may be made directly in U.S. agency obligations. These agency obligations are rated Aa1 by Moody's and AAA by Standard and Poor's. State law also requires that money market mutual funds contain only U.S. Treasuries or agencies or repurchase agreements secured by U.S. Treasuries or agencies. The money market mutual funds are rated Aaa/AAA.

Concentration of credit risk:

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Department's policy for reducing this risk of loss is to comply with the Treasurer's policy, which states the investment policy limits the amount of repurchase agreements to be invested with a particular institution to 30% of the portfolio. Other than that, there is no limit on the amount that may be invested in any one issuer.

Custodial credit risk - deposits and investments:

Custodial credit risk is the risk that, in the event of a bank failure, the Department's deposits may not be returned to it. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are (a) uncollateralized, (b) collateralized with securities held by the pledging financial institution, or (c) collateralized with securities held by the pledging financial institution's trust department or agent but not in the Department's name. The Department does not have a formal deposit policy for custodial credit risk, but follows the Treasurer's policy that states the Treasurer may deposit in a financial institution in the State any unexpended or surplus money in which the Treasurer has custody. As of June 30, 2017, none of the Department's bank balance was uninsured or uncollateralized; none was uninsured or collateralized with securities held by the pledging financial institution; and none were uninsured or collateralized with securities held by the pledging financial institution's trust department or fiscal agent, but not in the Department's name. The Treasurer (i.e., law, regulation or formal policy) defines the types of securities authorized as appropriate investments for the Department and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities.

As of June 30, 2017, the Department reported a total of \$14,275,000 in *Cash and cash equivalents – restricted* on the Department's balance sheet. This amount consists primarily of restricted cash for the construction retainages related to the SHA road projects.

The Treasurer authorizes the Department to invest in obligations of the U.S. Treasury including bills, notes, and bonds; obligations of U.S. agencies and instrumentalities; repurchase agreements secured by an U.S. Treasury agency; instrumentality obligations or bankers' acceptances guaranteed by a financial institution with the highest short-term debt rating by at least one nationally recognized statistical rating organization (NRSRO); commercial paper with the highest rating by at least one NRSRO; shares or certificates in a money market mutual fund as defined by the Treasurer; and Maryland local government pooled with short-term investments.

5. Receivables and Unearned Revenue:

The Department's receivables as of June 30, 2017 for the individual funds were as follows:

(amounts expressed in thousands)

Receivables	Special Revenue
Taxes receivable	\$ 133,862
Intergovernmental receivable	415,227
Other accounts receivable	86,472
Due from other state agencies, net	123,277
Net total receivables	\$ 758,838

The Department's Taxes receivable consist of receivables recorded at year-end for the Motor Vehicle Fuel Tax Division in the amount of \$94,573,000 and the MVA's titling tax in the amount of \$39,289,000. The Department's Intergovernmental receivables consist of receivables from the Federal government in the amount of \$406,835,000 and from the local subdivisions in the amount of \$8,392,000. The Department's other accounts receivable of \$86,472,000 consist of miscellaneous receivables recorded at fiscal year-end across the Department.

A balance of \$35,998,000 is reported as Due from other state agencies in the Special Revenue Fund for the amount due from the State Comptroller’s Revenue Administration Division for cash transfers not transferred to the Department as of June 30, 2017. Also included in Due from other state agencies is the amount \$54,904,000, for the amount due from the Authority for Passenger Facility Charge (PFC), Customer Facility Charge (CFC) and special parking revenue collections; \$89,000 is reported as Due from other state agencies in the Special Revenue Fund for the amount due from the Authority for the ICC project; \$32,286,000 is reported as Due from other state agencies, which is due from the Maryland Department of Budget and Management (DBM) for the health benefits refund. Also included in Due from other state agencies on the Statement of Net Position is the amount for the Department’s Energy Performance Contract (EPC) as of June 30, 2017, in the amount of \$1,942,000.

The Department’s unearned revenue in connection with resources that have been received, but not yet earned was \$119,595,000 as of June 30, 2017. The Department reported unearned revenue for customer prepayments of future airport services to be provided by the MAA in the amount of \$2,647,000, \$21,189,000 for revenues collected by the SHA for advanced contract payments, and \$95,759,000 for advanced rental payments related to MPA’s service concession agreement.

As of June 30, 2017, the Department also reported unearned revenue in the governmental funds in the amount of \$23,836,000 for unearned customer prepayments. Unavailable revenue was comprised of \$54,904,000 for the balance in the MAA PFC’s and CFC Improvement Funds and \$266,720,000 related to federal receivables that were not collectable within the period available.

6. Interfund Transfers:

The interfund transfers for the Department for the year ended June 30, 2017, were as follows:

(amounts expressed in thousands)

Transfers In	Transfers Out	Amount
Debt service fund	Special revenue fund	\$ 287,892

The purpose of this interfund transfer is to record the amount of revenue transferred from the special revenue fund to the debt service fund for debt service principal and interest payments. This transfer is reported on the Statement of Revenues, Expenditures and Changes in Fund Balances for the year ended June 30, 2017 as a Debt service transfer under Other Financing Sources (Uses).

7. Due to Other State Agencies:

As of June 30, 2017, there were no monies due to the State General fund.

8. Capital Assets:

The Department’s Capital assets activity by asset classification, including accumulated depreciation, for the year ended June 30, 2017, was as follows:

(amounts expressed in thousands)

Capital Assets - Governmental activities	Balance			Transfers	Balance
	July 1, 2017	Increases	Decreases	In (Out)	June 30, 2017
<i>Capital Assets not depreciated:</i>					
Land	\$ 2,663,948	\$ 44,423	\$ -	\$ 45,798	\$ 2,754,169
Construction in progress	4,214,865	1,326,395	-	(459,858)	5,081,402
Total capital assets not depreciated	6,878,813	1,370,818	-	(414,060)	7,835,571
<i>Capital assets depreciated:</i>					
Building & improvements	2,929,214	151,933	(3,229)	108,986	3,186,904
Machinery & equipment	2,194,157	69,089	(42,435)	118,008	2,338,819
Infrastructure	23,079,154	895,496	-	187,066	24,161,716
Seagirt Assets	54,341	-	-	-	54,341
Total capital assets depreciated	28,256,866	1,116,518	(45,664)	414,060	29,741,780
<i>Accumulated depreciation for:</i>					
Building & improvements	(1,413,613)	(82,441)	592	-	(1,495,462)
Machinery & equipment	(1,608,960)	(105,688)	40,798	-	(1,673,850)
Infrastructure	(13,803,430)	(892,215)	-	-	(14,695,645)
Seagirt Assets	(4,528)	(1,132)	-	-	(5,660)
Total accumulated depreciation	(16,830,531)	(1,081,476)	41,390	-	(17,870,617)
Net capital assets after depreciation	11,426,335	35,042	(4,274)	414,060	11,871,163
Net total capital assets – governmental activities	\$18,305,148	\$1,405,860	\$ (4,274)	\$ -	\$ 19,706,734

Depreciation expense for the current year on capital assets charged to the Department's modal administration/functions in the Statement of Activities for the year ended June 30, 2017, was as follows:

(amounts expressed in thousands)

Depreciation Expense - Governmental Activities	
Secretary's Office	\$ 5,171
State Highway Administration	856,985
Port Administration	14,218
Motor Vehicle Administration	12,582
Transit Administration	111,973
Aviation Administration	80,546
Total depreciation expense - governmental activities	\$ 1,081,475

9. Service Concession Arrangement:

The Department implemented GASB Statement No. 60 'Accounting and Financial Reporting for Service Concession Arrangements' as of July 1, 2012. The Department has entered into a long-term lease with Ports America Corporation (PAC) to manage, operate and maintain the Dundalk Marine terminal. These agreements satisfy the criteria established to be considered service concession arrangements (SCAs). Under the terms of the ground lease, the Department transfers rights to PAC for a term of 50 years. After 50 years the Department has the option to buy PAC's equipment. PAC charges and collects fees from the user for container lifts, short tons of roll on-roll off, break-bulk and bulk cargo and pays the operating costs, management fee and debt service associated with the project. The Department has the ability to approve what services the operator is required to provide. As of June 30, 2017, the Capital

assets, net accumulated depreciation and deferred service concession arrangement receipts were \$48,681,000.

10. Long-term Liabilities:

Changes in long-term liabilities:

The Department’s long-term liability activity for the year ended June 30, 2017, was as follows:

(amounts expressed in thousands)

	Beginning Balance			Ending Balance	
Governmental activities:	July 1, 2016	Additions	Reductions	June 30, 2017	Due Within One Year
Transportation bonds*	\$2,146,085	\$ 892,525	\$(460,225)	\$ 2,578,385	\$ 221,710
Capital leases*	621,732	15,040	(67,113)	569,659	40,510
Pollution obligations	156,161	-	-	156,161	-
MTA OPEB obligations	358,244	64,956	-	423,200	-
State Employees' Plan Net pension liability	748,345	-	(9,670)	738,675	-
MTA Net pension liability	1,114,585	-	(145,552)	969,033	-
Premium on bonds*	213,367	122,163	(53,087)	282,443	38,735
Workers' compensation costs	64,799	19,512	(16,228)	68,083	10,213
EPC obligations*	46,073	1,955	(5,993)	42,035	4,395
Compensated absences	50,701	34,011	(34,497)	50,215	8,513
Total long-term liabilities – governmental activities	\$5,520,092	\$1,150,162	\$(792,365)	\$ 5,877,889	\$ 324,076

Note: * These items are combined for the net related debt calculation on the Statement of Net Position section entitled Net Position – Net investment in capital assets.

The Treasurer’s Office is financing the EPC obligations in the amount of \$42,252,000; certain agencies have a Maryland Energy Administration (MEA) State Agency Loan Program (SALP) loan totaling \$3,821,000. The current portion that is due within one year is the principal due to the Treasurer’s Office in the amount of \$3,832,000 and the agencies SALP portion in the amount of \$563,000; see note 17 for additional program details.

The Department’s long-term liabilities, other than consolidated transportation bonds, are generally liquidated through the special revenue fund. The Department estimates there are no material liabilities for arbitrage rebates as of June 30, 2017.

11. Transportation bonds:

The Department issues Consolidated Transportation Bonds to provide funds for the acquisition and construction of major capital facilities. Consolidated Transportation Bonds are limited obligations issued by the Department for highway, port, airport, rail or mass transit facilities or any combination of such facilities. The principal must be paid within 15 years from the date of issue. As provided by law, the General Assembly shall establish in the budget for any fiscal year a maximum outstanding aggregate amount of these Consolidated Transportation Bonds as of June 30 of the respective fiscal year that does not exceed \$4,500,000,000. The aggregate principal amount of those bonds that were allowed to be outstanding as of June 30, 2017, was \$2,773,900,000. The aggregate principal amount of Consolidated Transportation Bonds outstanding as of June 30, 2017, was \$2,578,385,000. Consolidated Transportation Bonds are paid from the Debt Service Fund.

The Department's Transportation Bonds outstanding as of June 30, 2017, were as follows:

(amounts expressed in thousands)

	Interest Rates	Amount
Consolidated Transportation Bonds - due serially through 2032 – for state transportation activity	2.0-5.5%	\$2,014,365
Consolidated Transportation Bonds, refunding – due serially through 2027 – for state transportation activity	4.0-5.0%	564,020
Total consolidated transportation bonds		\$2,578,385

Principal and interest on Consolidated Transportation Bonds are payable from the proceeds of certain excise taxes levied by statute, a portion of the corporate income tax and a portion of the State sales tax credited to the Department. These amounts are applicable to the extent necessary for that exclusive purpose before being available for other uses by the Department. If those tax proceeds become insufficient to meet debt service requirements, other receipts of the Department are available for that purpose. The holders of such bonds are not entitled to look to other State resources for payment. Under the terms of authorizing bond resolutions, additional Consolidated Transportation Bonds may be issued provided, among other conditions, that (i) total receipts (excluding Federal funds for capital projects, bond and note proceeds and other receipts not available for debt service), less administration, operation and maintenance expenses for the preceding fiscal year, equal at least two times the maximum annual debt service on all Consolidated Transportation Bonds outstanding and to be issued, and (ii) total proceeds from pledged taxes equal at least two times the maximum annual debt service on all consolidated transportation bonds outstanding and to be issued.

County Transportation Bonds are issued by the Department and the proceeds are used by participating counties and Baltimore City to fund local road construction, reconstruction and other transportation projects and facilities and to provide local participating funds for Federally-aided highway projects. Debt service on these bonds is payable from the participating counties' and Baltimore City's share of highway user revenues. Legislation was enacted during the 1993 session of the General Assembly that established an alternative county transportation bond program. This new legislation provides features similar to the previous program except that the county transportation debt will be the obligation of the participating counties rather than the Department. Unexpended bond proceeds in the amount of \$23,693,000 and certain debt service sinking fund amounts aggregating \$15,960,000 were invested in money market accounts as of June 30, 2017. These funds are reported as restricted cash and cash equivalent in the agency funds. The two amounts are restricted for project funds and county bond debt service respectively. \$108,800,000 in County Transportation Revenue Bonds was outstanding on June 30, 2017.

On November 10, 2016, consolidated transportation bonds in the amount of \$385,000,000 were issued by the Department with a premium of \$54,767,000. These bonds are dated November 10, 2016 with maturities ranging from November 1, 2019 to November 1, 2031 at interest rates ranging from 3.0-5.0%. Also on November 10 the Department issued consolidated transportation refunding bonds in the amount of \$242,525,000 with a premium of 35,958,000. The net proceeds of these refunding bonds were used to purchase State and Local Government Series Securities and were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. The refunded bonds are considered to be defeased. The aggregate difference in debt and refunding debt is \$26,605,000. The economic gain on the transaction is \$19,298,000. On May 11, 2017 consolidated transportation bonds in the amount of \$265,000,000 were issued by the Department with a premium of

\$32,611,000. These bonds are dated May 11, 2017 with maturities ranging from May 1, 2020 to May 1, 2032 at interest rates ranging from 3.125-5.0%. As of June 30, 2017, the Department has \$446,295,000 of defeased debt outstanding.

Annual debt service requirements to maturity for transportation bonds in future years are as follows:

(amounts expressed in thousands)

Years Ending June 30,	Consolidated Transportation Bonds-Principal	Consolidated Transportation Bonds-Interest	Total Transportation Bond Debt Service Requirements
2018	\$ 221,710	\$ 109,635	\$ 331,345
2019	199,410	99,423	298,833
2020	205,755	89,228	294,983
2021	223,295	79,178	302,473
2022	227,855	68,405	296,260
2023-2027	905,815	204,286	1,110,101
2028-2032	594,545	46,290	640,835
Total	\$ 2,578,385	\$ 696,445	\$ 3,274,830

12. Operating and Capital Leases:

Operating Leases:

The Department leases office space under various agreements that are accounted for as operating leases. Rent expense under these agreements was \$3,514,000 for the year ended June 30, 2017.

The future minimum operating lease payments under these agreements as of June 30, 2017, were as follows:

(amounts expressed in thousands)

Years Ending June 30,	Operating Leases Future Minimum Payments
2018	\$ 2,539,451
2019	2,463,623
2020	2,229,005
2021	1,116,755
2022	441,638
2023-2027	581,048
2028-2032	346,311
Total operating leases	\$ 9,717,832

Capital Leases:

The Department has entered into several lease agreements for the financing of various transportation related projects. The Department has also entered into agreements with the Maryland Transportation Authority for the financing of various aviation projects. The Department has reported obligations under capital leases of \$569,659,000, as of June 30, 2017. The Department’s activity related to capital leases is included in the table in note 10.

The Department’s capital lease obligations as of June 30, 2017, were as follows:

- \$11,280,000 in obligations related to Project Certificates of Participation for the Maryland Aviation Administration Facilities, Series 2010 (refunding), issued on December 1, 2010, at annual interest rates ranging from 3.0-5.0%;
- \$8,695,000 in obligations related to Project Certificates of Participation for the Maryland Transit Administration Project, Series 2010 (refunding), issued on December 1, 2010, at annual interest rates ranging from 3.0-5.0%;
- \$14,645,000 in obligations related to Certificates of Participation for the Maryland Port Administration Facility Project, Series 2006, issued on June 14, 2006, at annual interest rates ranging from 4.25-5.25%;
- \$146,915,000 for the Maryland Economic Development Corporation bond issuance for the Maryland Aviation Facilities, issued on April 3, 2003, at annual interest rates ranging from 4.5-5.5%;
- \$12,385,000 for the Maryland Economic Development Corporation bond issuances for the financing of the Department's headquarters building, original bonds issued on June 27, 2002, refunding bonds issued May 25, 2010 at annual interest rates ranging from 3.0-4.5%;
- \$123,512,000 on long-term obligations related to the financing of BWI Marshall Airport parking and roadway projects. Bonds associated with this agreement were issued by the Maryland Transportation Authority in the amount of \$264,075,000 on March 5, 2002, and refunded on April 25, 2012, with annual interest rates ranging from 4.0-5.0%;
- \$74,826,000 on long-term obligations related to the financing of BWI Marshall Airport Consolidated Rental Car Facility. Bonds associated with this agreement were issued by the Authority in the amount of \$117,345,000 on June 18, 2002, at annual interest rates ranging from 2.74-6.65%;
- \$39,928,000 minimum payments, for the financing of certain airport facilities project located at BWI Marshall Airport including construction of a connector hallway between Concourse B and C. Bonds were issued by Maryland Transportation Authority on April 25, 2012, in the amount of \$50,905,000 at annual interest rates ranging from 4.0-5.0%.
- \$104,025,000 on long-term obligations related to the financing of BWI Marshall Airport's runway safety and paving improvement projects. Bonds were issued by the Maryland Transportation Authority on December 13, 2012, in the amount of \$92,070,000 fixed rate bonds with interest rates ranging from 2.0-4.0% and \$43,400,000 of variable rate demand bonds. As of June 30, 2017, the interest rate on the variable rated bonds was 0.106%.
- \$34,673,000 on long-term obligation related to the financing of BWI Marshall Airports construction of a connector hallway between Concourse C and D.

As bond proceeds are spent for construction, the Department's liability (or minimum payments) and related capital assets will increase, accordingly. Once construction is completed, the Construction in Progress asset will become a Building or Infrastructure asset.

The future minimum capital lease obligations and the net value of these minimum lease payments as of June 30, 2017, were as follows:

(amounts expressed in thousands)

Years Ending June 30,	Amount
2018	\$ 65,122
2019	65,042
2020	65,042
2021	64,039
2022	63,516
2023-2027	289,932
2028-2032	164,168
2033-2037	14,694
Total minimum lease payments	791,555
Less: amount representing interest	183,150 (a)
Less: funds held by bond trustee	38,746 (b)
Value of minimum lease payments	\$ 569,659

(a) The interest represents 23% of the total minimum lease principal payments due.

(b) The reduction shown in the amount of \$38,746,000 are monies held by the bond trustee on behalf of the Maryland Transportation Authority to be used for construction and Debt service reserve fund expenditures.

The capital assets acquired through capital leases as of June 30, 2017 were as follows:

(amounts expressed in thousands)

Capital Asset	Amount
Construction in progress	\$ 130,331
Land and improvements	16,203
Buildings and improvements	1,127,430
Machinery and equipment	23,427
Infrastructure	289,022
Total acquired capital assets	1,586,413
Less: accumulated depreciation	540,970
Total capital assets – net	\$1,045,443

13. Pollution Remediation Obligations:

The Department has recognized a pollution remediation obligation on the Statement of Net Position for governmental activities. A pollution remediation obligation is an obligation to address the current or potential detrimental effects of existing pollution by participating in pollution remediation activities, including pre-cleanup activities, cleanup activities, government oversight and enforcement, and post remediation monitoring. Obligating events that initiate the recognition of a pollution remediation liability include any of the following: (a) There is an imminent and substantial endangerment to the public; (b) The Department is in violation of a pollution prevention related permit or license; (c) The Department is identified as a responsible party or potentially responsible party by an environmental regulator; (d) The Department is named or has evidence that it will be named in a lawsuit to participate in pollution remediation; or (e) The Department voluntarily commences, or legally obligates itself to commence, cleanup activities, monitoring or operations and maintenance of pollution remediation efforts.

The pollution remediation obligation is an estimate and subject to change resulting from price increases or reductions, technology advances or from changes in applicable laws or regulations. The liability is recognized as it becomes estimable. In some cases, this may be at inception. In other cases, components of a liability are recognized as they become reasonably estimable. At a minimum, the liability is reviewed for sufficiency when various benchmarks occur and as remediation is implemented and monitored. The measurement of the liability is based on the current value of outlays to be incurred using the expected cash flow technique. This technique measures the sum of probability-weighted amounts in a range of possible potential outcomes – the estimated mean or average.

The Department's pollution remediation liability as of June 30, 2017, is estimated to be \$156,161,000 for cleanup projects at the SHA, the MPA, the MTA and the MAA with no expected recoveries from third parties to reduce the liability. Included in this liability are cost estimates for site monitoring and repair excavation of road and infrastructure, and replacement of buildings as a result of contaminations by hazardous materials under Federal and State law. In these cases, either the Department has been named in a lawsuit by a State Regulator or the Department has legally obligated itself under the Environmental Article, Section 7-201, of the Annotated Code of Maryland. These cost estimates for the Department's pollution remediation, due to site contamination from hazardous materials, are based on engineering design estimates. The estimated long-term costs that the Department may be responsible for over the next 15 years include: various cleanup projects related to several MTA construction sites and projects related to cleanup of underground hazardous substances at one of the MPA's marine terminals. The MPA is only responsible for 23% of the total remediation costs. The Department did not incur any significant costs to reduce the liability or identify any new technology that would change the liability during the current fiscal year ended June 30, 2017.

14. Other Postemployment Benefits (OPEB):

State Employee and Retiree Health and Welfare Benefits Program of Maryland:

Plan Description:

The members of the Maryland State Retirement, Pension and Law Enforcement Officers' Systems and their dependents are provided postemployment health care benefits through the State Employee and Retiree Health and Welfare Benefits Program (OPEB Plan). The OPEB Plan is a single-employer defined benefit health care plan established by the State Personnel and Pensions Article, Section 2-501 through 2-516 of the Annotated Code of Maryland. The OPEB Plan is self-insured to provide medical, hospitalization, prescription drugs and dental insurance benefits to eligible State employees, retirees and their dependents. State law grants authority to establish and amend benefit provisions to the Secretary of the DBM. In addition, the Secretary of DBM shall specify by regulation the types or categories of State employees who are eligible to enroll, with or without State subsidies, or who are not eligible to enroll.

Effective June 1, 2004, the State of Maryland established the Postretirement Health Benefits Trust Fund (OPEB Trust) as a separate entity to receive appropriated funds and contributions which will be used to assist the OPEB Plan in financing the State's postretirement health insurance subsidy. The OPEB Trust is established in accordance with the State Personnel and Pensions Article, Section 34-101, of the Annotated Code of Maryland and is administered by the Board of Trustees for the State Retirement and Pension System. Financial statements of the OPEB Trust may be obtained from the Office of the Maryland Comptroller, Treasury Building, Annapolis, MD 21401. A separate valuation is not performed by the Department. The Department's only obligation to the OPEB Plan is its required annual contribution.

Funding Policy:

The contribution requirements of the OPEB Plan members and the State are established by the DBM Secretary. Each year the DBM Secretary recommends to the Maryland Governor the State’s share of the costs of the OPEB Plan. Beginning in fiscal year 2008, Maryland State law requires DBM to transfer any subsidy received as a result of the Federal Medicare Prescription Drug Improvement Act of 2003 or a similar subsidy to the OPEB Trust to prefund the costs of retirees’ health benefits. Also, funds may be separately appropriated in the State’s budget to transfer to the OPEB Trust.

Generally, a retiree may enroll and participate in the health benefit options if the retiree retired directly from State service with at least five years of creditable service, ended State service with at least 10 years of creditable service and within five years before the age at which a vested retirement allowance normally would begin or ended State service with at least 16 years of creditable service. Based on current practice, the State subsidizes approximately 50-85% of retiree premiums to cover medical, dental, prescription and hospitalization costs, depending on the type of insurance plan. The OPEB Plan is a cost sharing plan with the State of Maryland and assesses a charge to retirees for post-employment health care benefits, which is based on health care insurance charges for current employees. The Department’s share of these retirees’ health insurance costs was \$35,904,000 for the year ending June 30, 2017, and was included in the health care costs allocated to all participating employers.

The Schedule of MDOT’s Employer Contributions for the OPEB Plan is as follows:

(amounts expressed in thousands)

Fiscal Year	Annual				
Ended	Annual Required	Contribution	Net OPEB	Percentage	
June 30,	Contribution	Paid	Obligation	Contributed	
2015	\$ 23,419	\$ 23,419	\$ -	100.0 %	
2016	31,843	31,843	-	100.0	
2017	35,904	35,904	-	100.0	

Maryland Transit Administration Pension Plan - OPEB:

Plan Description:

The members of the MTA Plan are provided post-employment health care benefits through the State Employee and Retiree Health Plan or the MTA Health Plan. The MTA currently funds retirees’ health care cost on a pay-as-you-go basis. As retirees incur expenses, the MTA pays out funds based on the appropriate benefit structure. The MTA does not currently have a separate fund set aside to pay health care costs. The MTA provides health care coverage for 1,361 retirees. Retirees make the same contributions as active employees; however, Medicare contributions are handled separately.

Funding Policy:

The Department is required by law to provide funding each year to the OPEB Plan for the Department’s share of the pay-as-you-go amount necessary to provide current benefits to retired employees and their dependents. The MTA healthcare benefits including Medical (PPO or HMO), prescription drug, dental and vision plans are provided to retirees meeting the following eligible criteria:

1. Age 65 with 5 years of service
2. Age 52 with 30 years of service
3. Age 55 with at least 30 years of service, including military and other qualifying service credits
4. Disabled with 5 years of service (7 years for local 1300-hired after May 18, 2013 and local 2-hired after September 10, 2014)
5. Surviving spouse subsidized benefit for 3 years

Annual OPEB Costs and Net OPEB Obligation:

The Department’s annual OPEB cost, related to the MTA Plan, which is not setup in an irrevocable trust, is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of accounting principles generally accepted in the United States of America. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded liabilities over a period not to exceed 30 years. Since the Plan does not have an irrevocable trust setup we will comply with GASB 75 in 2018.

The annual OPEB cost and net OPEB obligation for the MTA Plan as of June 30, 2017 was:

(amounts expressed in thousands)

Annual required contribution (ARC)	\$ 90,004
Interest on OPEB obligations	13,434
Adjustment to the OPEB cost	(21,595)
Annual OPEB cost	81,843
Expected benefit payments	(16,887)
Increase in OPEB obligation	64,956
Net OPEB obligation beginning of fiscal year	358,244
Net OPEB obligation end of fiscal year	\$423,200

The three-year historical trend information for the MTA Plan is as follows:

(amounts expressed in thousands)

Fiscal Year Ended June 30,	Annual OPEB Cost	Expected Benefits Paid	Net OPEB Obligation	Percentage Contributed
2015	\$ 58,757	\$ 13,905	\$ 311,916	23.7 %
2016	61,624	15,296	358,244	24.8
2017	81,843	16,887	423,200	20.6

Funded Status and Funding Progress:

The funded status of the OPEB Plan for the MTA Plan is as follows:

(amounts expressed in thousands)

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	Unfunded Actuarial Accrued Liability (UAAL)	Percentage of Covered Payroll
6/30/2013	\$ -	\$670,833	\$ 670,833	\$137,596 487.5 %
6/30/2015	-	607,063	607,063	135,545 441.7
6/30/2017	-	852,796	852,796	145,834 584.8

Actuarial Methods and Assumptions:

An actuarial valuation of an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and healthcare cost trends. Actuarially determined amounts are subject to continual revision as actual results are compared with the past expectations and new estimates are made about the future.

A projection of benefits for financial reporting purposes is based on the substantive plan and includes the types of benefits provided at the time of each valuation and the historical pattern of sharing of

benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the efforts of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The actuarial method and significant assumptions listed below were used in the actuarial valuation of the OPEB Plan for the MTA Plan as of June 30, 2017, was as follows:

Actuarial Cost Method:	Entry age normal
Amortization Method:	Closed, level Percentage of Payroll
Amortization Period:	20 years (as of July 1, 2014)
Asset Valuation Method:	Market value of assets
Actuarial Assumptions:	
Discount Rate:	3.75%
Medical Trend:	5.8% in FY2017 decreasing to 5.68% in 2050 Pre-Medicare and 5.3% Post-Medicare. The ultimate rate is 4.34% in 2080
Dental/Vision Trend:	4.5% per Annum

15. Retirement Systems and Pension Plans:

State Retirement and Pension System of Maryland:

The Department contributes to the Employees Retirement System of Maryland (System), established by the State to provide pension benefits for State employees (other than employees covered by the MTA Plan described below) and employees of various participating political subdivisions or other entities within the State. The non-State entities that participate within the System receive separate actuarial valuations in order to determine their respective funding levels and actuarial liabilities. While the System is an agent multiple-employer public employee retirement system, the Department accounts for the plan as a cost sharing multiple-employer public employee retirement system as a separate valuation is not performed for the Department and the Department's only obligation to the plan is its required annual contributions. Retirement benefits are paid from the System's pooled assets rather than from assets relating to a particular plan participant.

Plan description:

Certain employees of the State are provided with pensions through the System. The State Personnel and Pensions Article of the Annotated Code of Maryland (the Article) grants the authority to establish and amend the benefit terms of the System to the System's Board of Trustees. The System issues a publicly available financial report that can be obtained at www.sra.state.md.us/Agency/Downloads/CAFR/.

Benefits provided:

A member of the System is generally eligible for full retirement benefits upon the earlier of attaining age 60 or accumulating 30 years of creditable service regardless of age. The annual retirement allowance equals 1/55 (1.81%) of the member's average final compensation (AFC), which is the member's highest three-year average final salary, multiplied by the number of years of accumulated creditable service.

An individual who is a member of the System on or before June 30, 2011, is eligible for full retirement benefits upon the earlier of attaining age 62, with specified years of eligibility service, or accumulating 30 years of eligibility service regardless of age. An individual who becomes a member of the System on or after July 1, 2011, is eligible for full retirement benefits if the member's combined age and eligibility service equals at least 90 years or if the member is at least age 65 and has accrued at least 10 years of eligibility service.

For most individuals who retired from the System on or before June 30, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.4% of the member's AFC, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. With certain exceptions, for individuals who are members of the System on or after July 1, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.8% of the member's AFC, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. Beginning July 1, 2011, any new member of the System shall earn an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of creditable service accumulated as a member of the System.

Exceptions to these benefit formulas apply to members of the Employees' Pension System, who are employed by a participating governmental unit that does not provide the 1998 or 2006 enhanced pension benefits or the 2011 reformed pension benefits. The pension allowance for these members equals 0.8% of the member's AFC up to the social security integration level (SSIL), plus 1.5% of the member's AFC in excess of the SSIL, multiplied by the number of years of accumulated creditable service. For the purpose of computing pension allowances, the SSIL is the average of the social security wage bases for the past 35 calendar years ending with the year the retiree separated from service.

Early Service Retirement:

A member of the System may retire with reduced benefits after completing 25 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree either attains age 60 or would have accumulated 30 years of creditable service, whichever is less. The maximum reduction for the System member is 30%.

An individual who is a member of either the System on or before June 30, 2011, may retire with reduced benefits upon attaining age 55 with at least 15 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree attains age 62. The maximum reduction for these members of the System is 42%. An individual who becomes a member of the System on or after July 1, 2011, may retire with reduced benefits upon attaining age 60 with at least 15 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree attains age 65. The maximum reduction for these members of the System is 30%.

Disability and Death Benefits:

Generally, a member covered under retirement plan provisions who is permanently disabled after 5 years of service receives a service allowance based on a minimum percentage (usually 25%) of the member's AFC. A member covered under pension plan provisions who is permanently disabled after accumulating 5 years of eligibility service receives a service allowance computed as if service had continued with no change in salary until the retiree attained age 62. Death benefits are equal to a member's annual salary as of the date of death plus all member contributions and interest.

Contributions:

The Article sets contribution requirements of the active employees and the participating governmental units which are established and may be amended by the System's Board. Employees are required to contribute 7% of their annual pay. The Department's contractually required contribution rate for the System for the year ended June 30, 2017, was approximately \$65,198,000, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued

liability. Contributions to the System from the Department were approximately \$65,198,000 for the year ended June 30, 2017.

As of June 30, 2017, the Department reported a liability of approximately \$738,675,000 for its proportionate share of the Systems net pension liability. The Department's net pension liability was measured as of June 30, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Department's proportion of the Systems net pension liability was based on a projection of the Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating government units, actuarially determined. As of June 30, 2017, the Department's proportion for the System was 3.6%, which was substantially the same from its proportion measured as of June 30, 2016.

For the year ended June 30, 2017, the Board recognized pension expense for the System of approximately \$72.8 million. As of June 30, 2017, the Department reported deferred outflows of resources and deferred inflows of resources related to System from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Change in experience	\$ -	\$ 19,126
Changes of assumptions	33,971	-
Contribution after measurement date	65,198	-
Net difference between projected and actual earning on pension plan investments	80,536	-
Total	<u>\$ 179,705</u>	<u>\$ 19,126</u>

The amount reported as deferred outflows of resources related to System resulting from the Department's contributions subsequent to the measurement date was \$65,198,000 and will be recognized as a reduction of the System net pension liability in the year ended June 30, 2017. The other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows: \$78,481,000 for fiscal years 2018-2020; \$18,289,000 for fiscal year 2021 and (\$1,389,000) for fiscal year 2022.

Information included in the MSRPS financial statements:

Actuarial assumptions, long-term expected rate of return on pension plan investments, discount rate, and pension plan fiduciary net position are available at www.sra.state.md.us/Agency/Downloads/CAFR.

The sensitivity of the Department's proportionate share of the net pension liability to changes in the discount rate:

The Department's proportionate share of the System's net pension liability calculated using the discount rate of 7.55% is \$738,675,000. Additionally, the Department's proportionate share of the System's net pension liability if it were calculated using a discount rate that is 1-percentage-point lower (6.55%) is \$1,014,635,000 or 1-percentage-point higher (8.55%) is \$509,036,000.

Maryland Transit Administration Pension Plan:

Plan description:

The MTA Employee Pension Plan (the Plan) is a single employer noncontributory plan that covers all MTA employees covered by a collective bargaining agreement and all those management employees

who were employed by the Baltimore Transit Company. In addition, employees who enter the management group as a result of a transfer from a position covered by a collective bargaining agreement maintain their participation. The Plan is part of the Department's financial reporting entity and is included in the Department's financial statements as a Pension Trust Fund. The Plan prepares separate audited Financial Statements, which can be obtained from the Plan, William Donald Schaefer Tower, 8 Saint Paul Street, Baltimore, Maryland 21202. The Plan is administered and funded in compliance with the collective bargaining agreements, which established the Plan.

For the year ended June 30, 2017, the Plan recognized pension expense for the Plan of approximately \$205.5 million. As of June 30, 2017, the Department reported deferred outflows of resources and deferred inflows of resources related to System from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 39,722
Changes of assumptions	272,667	139,376
Net difference between projected and actual earning on pension plan investments	3,059	4,403
Total	<u>\$ 275,726</u>	<u>\$ 183,501</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to the Plan will be recognized in pension expense as follows: Changes in assumptions: Fiscal years 2017-2021 \$32,832,000 per year and in Fiscal year 2022, \$25,192,000; Difference between projected and actual earnings on pension plan investments: Fiscal years 2018-2019, (\$966,000) per year, in Fiscal year 2020, (\$178,000) and in Fiscal year 2021, 765,000; Difference between actual and expected experience: Fiscal years 2019-2021, (\$7,912,000) per year and in Fiscal year 2022, (\$5,109,000).

The sensitivity of the Department's proportionate share of the net pension liability to changes in the discount rate:

The Plan's net pension liability calculated using the discount rate of 4.32% is \$969,033,000. Additionally, the Department's proportionate share of the System's net pension liability if it were calculated using a discount rate that is 1-percentage-point lower (3.32%) is \$1,164,303,000 or 1-percentage-point higher (5.32%) is \$810,011,000. The Plan and the reports can be found on the MDOT website at the following link: <http://www.mdot.maryland.gov/newMDOT/Finance/Index.html>

16. Risk Management and Insurance:

Workers' Compensation:

The Department is self-insured for workers' compensation liabilities. The Department's workers' compensation self-insured liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. Liabilities for incurred workers' compensation losses to be settled by fixed or reasonably determined payments over a long period of time are reported at their present value using a 4% discount rate. The workers' compensation costs are based upon separately determined actuarial valuations for the fiscal year ended June 30, 2017.

The Department’s workers’ compensation self-insurance program is administered by the Injured Worker’s Insurance Fund under a contract which requires that the Department pay premiums based upon loss experience plus a proportionate share of administrative costs. In the event of termination of the contract, the Department is obligated for any premium deficiency at the time of termination. The Department’s accrued workers’ compensation costs, as of June 30, 2017, were \$68,083,000.

The activity related to accrued workers’ compensation costs is included in the table in note 10. Changes in the balances for the Department’s workers’ compensation liability during the past two fiscal years are as follows:

(amounts expressed in thousands)

	Fiscal Year Ended June 30, 2017	Fiscal Year Ended June 30, 2016
Unpaid claims, beginning of fiscal year	\$ 64,799	\$ 64,686
Incurred claims and changes in estimates	19,512	17,007
Claim payments	(16,228)	(16,894)
Total unpaid claims, end of fiscal year	\$ 68,083	\$ 64,799

Insurance:

The operations of the MAA, MPA and MTA are covered by commercial liability insurance policies and many claims are handled by the Department’s insurance carriers. The MAA’s two facilities, Baltimore Washington International Thurgood Marshall Airport and Martin State Airport, are covered by an airport owners’ and operators’ general liability insurance policy providing coverage per occurrence up to \$750,000,000 for bodily injury and property damage. This policy contains the war, hi-jacking and other perils endorsement for \$100,000,000 due to the events of September 11, 2001.

The MPA’s liability insurance policies, including excess liability policies, provide insurance up to \$150,000,000 per occurrence for its port operations. These policies cover liability for both injury and property damage.

MTA’s operations are covered by a \$495 million excess liability insurance policy over and above the MTA’s \$5 million self-insured retention. Bombardier and Amtrak are contractors hired to provide MTA’s commuter rail service known as MARC. In addition, MTA pays a track access fee to CSX for the use of CSX’s railroad tracks (MARC Brunswick Line and Camden Line) and to Amtrak for use of Amtrak’s railroad tracks (MARC Penn Line). The MTA has insurance to cover its contractual obligations for the MARC rail service as well as insurance for MTA’s other modes of service (bus, light rail, commuter bus, subway and mobility). The MARC operations insurance coverage provides excess liability up to \$500 million. All other MTA operations insurance coverage provides excess liability limits up to \$200 million. This includes a shared self-insured retention of \$5,000,000. Claims under \$5,000,000 are self-insured by MTA. The excess liability policies also extend punitive damages liability coverage to Bombardier, Amtrak and CSX arising from commuter rail operations for claims. All third party liability claims exceeding \$10,000 for Bombardier and \$20,000 for Amtrak must have prior approval of the MTA for payment/settlement. Workers’ Compensation claims by Bombardier, Amtrak or CSX are exempt from the MTA’s coverage because those are the responsibility of the vendors.

The amount of any settlements, within the Department, did not exceed the insurance coverage in each of the past three fiscal years. For those areas not covered by purchased insurance, the State Treasurer has a program of self-insurance for tort claims. By statute, bodily injury, personal injury or property damages are limited to claims of \$200,000 per claimant under the established self-insurance program.

17. Energy Performance Contract (EPC):

The Department of General Services (DGS) implemented an Energy Performance Contract program for the Department in fiscal year 2011, with a goal to reduce Maryland’s energy consumption through energy efficiency projects. The Treasurer’s Office secured the financing required to fund the construction of the improvements. The savings resulting from the projects are used to offset the costs of the services.

The SHA, MTA, MAA, MPA and the MVA participated in the EPC. The assets related to the project for the fiscal year ended June 30, 2017, are included on the Department’s Statement of Net Position in the amount due from EPC Assets for \$1,955,000. As of June 30, 2017, the total amount due in long-term liability for EPC obligations is \$42,035,000.

18. Commitments:

As noted in Note 2, encumbrance accounting is used to account for outstanding commitments for open purchase orders and unfulfilled contracts in governmental funds. Amounts related to contractual transportation obligations are reported in the special revenue fund in the amount of \$15,402,000 as of June 30, 2017.

The Department has active construction commitments outstanding as of June 30, 2017 of approximately \$6,552,585,000 principally for construction of highway, port, motor vehicle, aviation and transit projects. Approximately 18.71% of future expenditures, related to these commitments of the Department, are expected to be reimbursed from proceeds of approved Federal grants when the actual costs are incurred. The remaining balance will be funded by other financial resources of the Department, including the issuance of long-term debt.

As of June 30, 2017, the Department’s commitments with contractors were as follows:

(amounts expressed in thousands)

Construction projects	Spent-to-date	Remaining commitment
Highway construction	\$ 2,726,952	\$ 3,155,954
Port construction	602,603	342,592
Motor vehicle construction	205,179	117,407
Transit construction	2,180,805	1,886,910
Aviation construction	837,046	538,741
Total projects	\$ 6,552,585	\$ 6,041,604

19. Related Party Transactions:

Various State of Maryland agencies provide services for the Department for which they are reimbursed from the Department. During fiscal year 2017, such reimbursements are reflected as Distributions to other state agencies in the Special Revenue Fund.

20. Federal Revenue:

Federal revenue consists principally of grants from the Federal Transit Administration for rail and bus projects for the Baltimore region and from the Federal Highway Administration in connection with highway construction projects. In addition, the Department receives Federal grants to aid in planning, design and construction of transportation facilities and to support the mass transit operations. Entitlement to the resources is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations including the expenditure of the resources for

eligible purposes. Substantially all grants are subject to financial and compliance audits by the grantors. Any disallowances as a result of these audits become a liability of the Department. As of June 30, 2017, the Department estimates that no material liabilities will result from such audits.

21. Passenger Facility Charges (PFC):

The Aviation Safety and Capacity Expansion Act of 1990 (the “1990 Safety Act”), enacted by the United States Congress (“Congress”), allows a public agency to impose an airport Passenger Facility Charge for enplaned passengers. The proceeds of such PFCs are to be used to finance eligible airport-related construction projects, as approved by the Federal Aviation Administration (the “FAA”). The MAA received FAA approval in July 1992 to collect PFCs for four projects.

The Aviation Investment and Reform Act for the 21st Century, enacted by Congress in April of 2000, together with the 1990 Safety Act, increased the maximum per passenger PFC allowed to be charged by qualifying airports from \$3.00 to \$4.50. In June 2002, the MAA received FAA approval to increase its collection level to \$4.50 to support PFC approved projects in the MAA’s capital program. The FAA further allows the MAA to impose and use PFCs for the payment of debt service for bonds used to fund PFC approved projects (see note 12 Operating and Capital Leases). PFC collections not needed for debt service are used for PFC approved paygo projects.

The MAA amended its PFC program in April 1994 to increase the total to six projects. The FAA approved additional applications for PFC eligible projects in June 2006, July 2007, February 2008, September 2010, March 2012, September 2012, and October 2014.

22. Rent Revenue:

The Department leases terminal space at various marine terminals (including the Seagirt Marine Terminal), airport facilities and office space in the World Trade Center Building, Baltimore, Maryland, pursuant to various operating leases. The Department’s total minimum future rental revenues totaled \$434,996,000 as of June 30, 2017 and do not include contingent rentals that may be received under certain concession leases on the basis of a percentage of the concessionaire's gross revenue in excess of stipulated minimums. Rental revenues collected included in operations were approximately \$189,010,000 for the year ended June 30, 2017. Assets of the Department under lessor operating lease agreements, totaling \$721,866,000 are included in the Capital assets, net of accumulated depreciation in the amount of \$795,866,000 on the Statement of Net Position.

Minimum future rental revenues for the Department are as follows:

(amounts expressed in thousands)

Year Ending June 30,	Operating Leases Minimum Future Rental Revenues
2018	\$ 145,281
2019	111,951
2020	39,948
2021	35,372
2022	30,209
2023-2027	65,573
2028-2032	6,662
Total	\$ 434,996

23. Net Position/Fund Balance:

The unrestricted deficit for the governmental activities on the government-wide statement of net position is \$1,897,379,000.

Nonspendable fund balance is reported for a portion of the Special Revenue Fund balance in the amount of \$103,510,000 that is for inventories of supplies as of June 30, 2017.

The commitment of fund balance requires formal action by a government's highest level of decision-making authority. The assignment of fund balance is based on an authorization policy established by the governing body pursuant to which that authorization is given. Committed fund balance is reported for the Department's contractual transportation obligations of \$15,402,000 which requires the highest level of budgetary authority to cancel said obligations.

Assigned fund balance is reported in the amount of \$86,890,000 as of June 30, 2017 and represents non-budgeted agency activities. The amount that represents the balance in the Department in the Special Revenue Fund for future transportation programs is \$83,132,000 as of June 30, 2017.

24. Contingent Liabilities:

The Department is party to various legal proceedings, many of which occur in the normal course of the Department's operations, including actions commenced and claims asserted for alleged property damage, personal injury, breach of contract, discrimination or other alleged violations of law. These legal proceedings are not, in the opinion of the Office of the Attorney General of the State, likely to have a material adverse impact on the Department's financial position as of June 30, 2017.

25. Subsequent Events:

On September 13, 2017, the Department sold Consolidated Transportation Bonds in the amount of \$425,000,000. The sale was competitive. Closing on the bonds occurred on September 21, 2017.

Schedule of Employer Contributions
Maryland Transit Administration Pension Plan
(amounts expressed in thousands)

Fiscal Year Ended June 30	2014	2015	2016	2017
Actuarially determined contribution	\$ 39,749	\$ 40,807	\$ 44,736	\$ 62,217
Contribution in relation to the actuarially determined contribution	39,749	35,400	40,997	40,997
Contribution deficiency (excess)	\$ -	\$ 5,407	\$ 3,739	\$ 21,220
Cover-employee payroll (1)	\$ 137,596	\$ 135,545	\$ 137,427	\$ 137,154
Contribution as a percentage of covered employee payroll	28.89%	26.12%	29.83%	29.89%

Notes to Schedule:

Valuation date

Actuarially determined contribution amounts are calculated as of the beginning of the fiscal year (July 1) for the year immediately following the fiscal year. Actuarial valuation are performed every year.

methods and assumptions used to determine contribution rates are as follows:

Actuarial cost method	Level Dollar Entry Age Normal
Amortization method	Level Payments (Closed)
Remaining amortization period	Remining payments range from 2 to 25 years
Asset valuation method	5-year smoothed market
Inflation	3.2 percent
Salary increases	Rates vary by participant service
Investment rate of return	7.55 percent, net of pension plan investment expense, including inflation for funded benefits
Retirement age	Rates vary by participant age
Mortality	RP-2014 Blue Collar tables with MP-2014. The RP-2014 Disabled Retiree table is used for disabled members

MARYLAND DEPARTMENT OF TRANSPORTATION
Notes to the Required Supplementary Information
For the Year Ended June 30, 2017

1. Stewardship, Compliance and Accountability:

Budgeting and budgetary control:

The Maryland Constitution requires the Governor to submit to the General Assembly an annual balanced budget for the following fiscal year. This budget is prepared and adopted for the Special Revenue Fund, which includes the transportation activities of the Department, shared taxes and payments of debt service on transportation bonds. The budgetary Federal fund revenue and expenditures are included in the GAAP Special Revenue Fund as federal revenues and expenditures by function. An annual budget is also prepared for the Federal funds, which accounts for all Departmental grants from the Federal government.

Each year the Department prepares its annual budget and submits it to the Governor. The Governor then presents the State's annual budget (including the Department's) to the General Assembly in accordance with Constitutional requirements. The General Assembly is required to then enact a balanced budget for the next fiscal year.

The GAAP Special Revenue Fund includes both budgetary special and federal funds.

Special fund:

The Special fund includes all transportation activities of the Department and shared taxes with the political subdivisions.

Federal fund:

The Federal fund accounts for substantially all grants from the Federal government.

Budgetary fund equities and other accounts:

The Department's legal level of budgetary control is exercised at the agency appropriation (program) and fund level (legislative spending authority level). Encumbrances and expenditures cannot exceed appropriated amounts. Appropriation transfers between or within departments and any supplemental appropriations require both executive and legislative branch approvals. Unencumbered and unexpended appropriations lapse at fiscal year-end and become available for appropriation in the subsequent year. Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent fiscal year.

All Departmental budgetary expenditures for special and federal funds are made pursuant to appropriations in the annual budget, as amended from time to time. The Department may, with the Governor's approval, amend the appropriations by modal administration within the budgetary special and federal funds. Additionally, appropriations for programs funded in whole or in part from special or federal funds may permit expenditures in excess of the original special or federal fund appropriation to the extent that actual revenues exceed original budget estimates and such additional expenditures are approved by the Governor. Unexpended appropriations from special and federal funds may be carried over to the following year to the extent of (a) available resources and (b) encumbrances which are approved by the Department of Budget and Management. The Department did not receive any general fund appropriations in fiscal year 2017.

The Department's original and amended budget adopted by the General Assembly for special and federal funds is presented in the Required Supplementary Information - Special Revenue Funds - Schedule of Revenues, Expenditures and Changes in Fund Balances -- Budget and Actual -- For the Year Ended June 30, 2017 on page 75 of this report. The Department's budgetary fund structure and basis of budgeting, which is the modified accrual basis with certain exceptions, differs from that utilized to present financial statements in conformity with generally accepted accounting principles (GAAP). The budgetary system's principal departures from the modified accrual basis are the classification of the Department's budgetary funds and the timing of recognition of certain revenues and expenditures. The GAAP special revenue fund is an aggregate of the special and federal budgetary funds.

A summary of the effects of the fund structure differences and exceptions to the modified accrual basis of accounting, as of June 30, 2017, is provided in the Reconciliation of the Budgetary Special Fund, Fund Balance to the GAAP Special Revenue Fund, and Fund Balance in the Notes to the Required Supplementary Information section (see below).

Source: Maryland Department of Transportation, The Secretary's Office, Office of Finance.

- The 2007 Special Session of the Maryland General Assembly approved legislation to increase the State's Sales Tax and the Vehicle Excise Tax (Titling) from 5% to 6%, effective January 1, 2008. In addition, the percentage of Titling Tax to GMVRA was changed from 80% to 66 and 2/3%, effective July 1, 2008.
- The 2010 Session of the Maryland General Assembly approved legislation (SB141) changing the allocation of Highway User Revenues. Effective July 1, 2009, the allocation is 70% to the Department, 19.5% to the General Fund, 8.6% to Baltimore City, 1.5% to the Counties, and .4% to the Municipalities. Effective July 1, 2010, the allocation is 68.5% to the Department, 23% to the General Fund, 7.9% to Baltimore City, .5% to the Counties, and .1% to the Municipalities. Pursuant to legislation enacted by the General Assembly at its 2011 Session (HB72), effective July 1, 2011, the allocation is 79.8% to the Department, 11.3% to the General Fund, 7.5% to Baltimore City, .8% to Counties, and .6% to municipalities. Effective July 1, 2012 the allocation is 90% to the Department, 8.1% to Baltimore City, 1.5% to Counties, and .4% to municipalities. Effective July 1, 2013 the allocation is 90.4% to the Department, 7.7% to Baltimore City, 1.5% to Counties, and .4% to municipalities.
- The 2011 Session of the Maryland General Assembly approved legislation (HB 72) requiring the transfer from the Transportation Trust Fund of \$40,000,000 of the Department's share of Highway User Revenues to the Revenue Stabilization Account in fiscal year 2012.
- The 2011 Session of the Maryland General Assembly approved legislation (HB 72) that changed the allocation of corporate income tax revenue to the Department from 24% to 17.2%. However, effective July 1, 2012 the Department received 9.5%; from July 1, 2013 through June 30, 2016 the Department received 19.5%. Effective July 1, 2016, the Department receives 17.2%.
- The 2013 Session of the Maryland General Assembly approved legislation (HB 1515) that increases the motor fuel tax rate based on growth of the Consumer Price Index (CPI) and applies a sales and use tax equivalent to the price of motor fuel. The following cents per gallon (cpg) rates and effective dates apply. These revenues are retained 100% by the Department.

	SUTE	CPI		SUTE	CPI		SUTE	CPI
July 1, 2013	3.1 cpg	0.4 cpg	Jan. 1, 2015	6.0 cpg	0.8 cpg	Jan. 1, 2016	8.0 cpg	1.1 cpg
July 1, 2014	3.1 cpg	0.8 cpg	July 1, 2015	7.5 cpg	1.1 cpg	July 1, 2016	8.8 cpg	1.2 cpg

Source: Maryland Department of Transportation, The Secretary's Office, Office of Finance.

- The 2007 Special Session of the Maryland General Assembly approved legislation to increase the State's Sales Tax and the Vehicle Excise Tax (Titling) from 5% to 6%, effective Jan. 1, 2008. In addition, effective July 1, 2008, the percentage of Titling Tax retained by the Department was increased from 76% to 80%. Changes to the allocation of Highway User Revenues approved during the 2010 and 2011 Sessions of the Maryland General Assembly resulted in the following percentages of Titling Tax retained by the Department: FY 2010 80%; FY 2011 79%; FY 2012 86.53%; FY 2013 93.336%; and 93.6% since FY 2014.
- The 2007 Special Session of the Maryland General Assembly approved legislation to allocate 6.5% of the State's Sales and Use Tax (after distribution of the State's sales tax on short-term rental vehicles) to the Department effective July 1, 2008. The distribution was reduced to 5.3% during the 2008 Session of the Maryland General Assembly. This distribution ended July 1, 2011.
- The 2011 Session of the Maryland General Assembly approved legislation (HB 72) requiring the transfer from the Transportation Trust Fund of \$40,000,000 of the Department's share of Highway User Revenues to the Revenue Stabilization Account in fiscal year 2012.
- The 2011 Session of the Maryland General Assembly approved legislation (HB 72) that changed the allocation of corporate income tax revenue to the Department from 24% to 17.2%. However, effective July 1, 2012 the Department received 9.5%; from July 1, 2013 through June 30, 2016 the Department received 19.5%. Effective July 1, 2016, the Department receives 17.2%.
- As a result of changes to the Highway User Revenues allocations approved during the 2010 and 2011 sessions of the Maryland General Assembly, the Department received the following distribution of Highway User Revenues: FY 2010 70%; FY 2011 68.5%; FY 2012 79.8%; FY 2013 90%; since FY 2014 90.4%.
- The 2013 Session of the Maryland General Assembly approved legislation (HB 1515) that increases the motor fuel tax rate based on growth of the Consumer Price Index (CPI) and applies a sales and use tax equivalent to the price of motor fuel. The following cents per gallon (cpg) rates and effective dates apply. These revenues are retained 100% by the Department.

	SUTE	CPI	SUTE	CPI	SUTE	CPI	
July 1, 2013	3.1 cpg	0.4 cpg	Jan. 1, 2015	6.0 cpg	0.8 cpg	Jan. 1, 2016	8.0 cpg
