MARYLAND CONSOLIDATED TRANSPORTATION PROGRAM FY2023-FY2028

2023 State Report on Transportation

MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Consolidated Transportation Program (CTP) is Maryland's six-year capital budget for transportation projects. The Capital Program includes major and minor projects for the Maryland Department of Transportation (MDOT) business units: the Secretary's Office (MDOT TSO); the Maryland Aviation Administration (MDOT MAA); the Maryland Port Administration (MDOT MPA); the Motor Vehicle Administration (MDOT MVA); the State Highway Administration (MDOT SHA); the Maryland Transit Administration (MDOT MTA) – and authorities related to the MDOT, including the Maryland Transportation Authority (MDTA) and the Washington Metropolitan Area Transit Authority (WMATA).

In this document, you will find for every major project a Project Information Form (PIF) which includes project details, financial information, and construction status; you will also find a list of minor capital projects. The MDOT works together with residents, local jurisdictions, and local and state elected officials to include projects in the CTP that preserve investments and safety, enhance transportation services and connections, and improve accessibility and opportunity throughout the state. To help Maryland's citizens review this document, the CTP includes a summary of MDOT's financing and budgeting process and instructions for reading PIFs.

MDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need more information or special assistance for persons with disabilities or limited English proficiency, contact MDOT's Office of Diversity and Equity at **410-865-1397.**

For the hearing impaired, Maryland Relay 711.

MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Maryland Department of Transportation (MDOT) is pleased to present the state's six-year capital investment program for transportation, the Final FY 2023 – FY 2028 Consolidated Transportation Program (CTP).

The CTP is the capital budget outlook and a key part of the State Report on Transportation (SRT) which MDOT publishes each year. The SRT contains three important documents: the Maryland Transportation Plan (MTP); the Consolidated Transportation Program (CTP); and the annual Attainment Report (AR) on Transportation System Performance. MDOT last updated the MTP, the 20-year vision for Maryland's transportation system, in January 2019. The MTP is updated every five years following extensive outreach efforts and collaboration with the public, local jurisdictions, and state agencies to ensure they reflect the needs and priorities of Marylanders. MDOT will be updating the MTP in 2023, which will be submitted in January 2024. To learn more about the MTP, visit: <u>mdot.maryland.gov/MTP</u>. The performance measures are updated along with the MTP, with direction from the AR Advisory Committee (please visit <u>mdot.maryland.gov/ARAC</u> to learn more).

The 2040 MTP goals are:

- Ensure a Safe, Secure, and Resilient Transportation System
- Facilitate Economic Opportunity and Reduce Congestion in Maryland through Strategic System Expansion
- Maintain a High Standard and Modernize Maryland's Multimodal Transportation System
- Improve the Quality and Efficiency of the Transportation System to Enhance the Customer Experience
- Ensure Environmental Protection and Sensitivity
- Promote Fiscal Responsibility
- Provide Better Transportation Choices and Connections

The CTP contains projects and programs across MDOT. It includes capital projects that are generally new, expanded or significantly improved facilities or services that may involve planning, environmental studies, design, right-of-way acquisitions, construction, or the purchase of essential equipment related to the facility or service.

MAINTAINING PRIORITIES

This year's CTP reflects MDOT's priorities as delineated in the MTP goals and our mission statement (below). The state's transportation priorities follow federal and state requirements; address local government needs, interests, and concerns; and serve MDOT's customers and the critical supply chain.

MISSION STATEMENT

The Maryland Department of Transportation is a customer-driven leader that delivers safe, sustainable, intelligent, exceptional, and inclusive transportation solutions in order to connect our customers to life's opportunities.

Maintaining a Culture of Safety for Employees and Users of the Transportation Network

Safety continues to be the number one priority for MDOT. We will not compromise on our commitment to improve the safety and security of our customers and partners in everything we do. It is critical we commit to safety and security in our designs, in our construction, as well as in our operations and maintenance of the state's transportation system. We promote a culture of safety in our business practices and educate our traveling public on good safety behavior and practices. MDOT works with our federal, state, and local law enforcement partners on a daily basis to constantly evaluate and implement measures to reduce the vulnerability of Maryland citizens and facilities. With federal and state investments, progress is being made on a variety of fronts.

Traffic fatalities in Maryland decreased from 573 in 2020 to 563 in 2021. Speeding accounts for more than 9,100 crashes and 3,900 injuries each year in Maryland. As no life lost is acceptable, MDOT strives to do what it can to eliminate traffic fatalities. On October 1st the new law took effect, requiring all travelers in Maryland to move over or slow down for any vehicle stopped with caution signals or warning lights.

Strategic Highway Safety Plan (SHSP)

MDOT promotes traffic safety through the many infrastructure and behavioral programs and projects implemented by MDOT SHA and MDOT MVA Maryland Highway Safety Office. The SHSP is a statewide, comprehensive safety plan that provides a coordinated framework for reducing deaths and severe injuries on all public roads. Through extensive outreach and involvement of federal, state, local, and private sector safety stakeholders, the Plan establishes statewide goals and critical emphasis areas. MDOT continues to urge Marylanders to demonstrate safe behavior when driving by focusing on some simple, common rules of the road.

Safeguarding Motorists and Monitoring the Roadways Across the State

MDOT SHA Coordinated Highways Action Response Team, or "CHART," and the MDTA's Courtesy Patrols and Vehicle Recovery Unit are incredibly vital as they continue to safeguard our highways, respond to crashes, and help stranded motorists. CHART employees also monitor roadways 24/7 at the Statewide Operations Center (SOC), our comprehensive, command and control facility in Hanover. The MDTA has a similar Emergency Operations Center (EOC).

When an incident occurs, our MDOT SHA and MDTA employees are often the first to respond. CHART drivers patrol 2.4 million miles a year. MDOT SHA and MDTA employees are still responding to many incidents each year. In 2021, CHART responded to 65,839 incidents and disabled vehicles events on Maryland's roads. With traffic patrols spread across the state to handle peak-period traffic incidents, CHART has assisted nearly 1.2 million motorists since the program began in the mid-1980s. The CHART incident management program saved motorists \$1.08 billion in user costs due to reduced delay, fuel savings and crash reductions, and helped reduce delays by 23.52 million vehicle hours in CY 2020.

MDOT Leadership in Safety Efforts

- Since launching the overarching Be the Driver campaign in 2020, the MDOT MVA's Maryland Highway Safety Office has expanded the campaign to include additional topics such as Move Over and What to Do in a Roadside Emergency. These campaigns focus on educating motorists on how to stay safe when they encounter an emergency while driving, in response to the growing number of fatalities in this area, as well as information on the expansion of the move over law. The campaigns were developed in coordination with several state agency partners.
- During the past 10 winter seasons, MDOT SHA and MDTA were able to clear the roads on primary and interstate highways in fewer than four hours, on average.
- In the last year, MDOT MVA's Highway Safety Office launched the redesigned ZeroDeathsMD.gov website with enhancements to include more current and comprehensive crash data. This allows for

greater access to Crash Summary Reports, summaries of major crash causes, and additional data broken down by each jurisdiction in the state. The website is updated each month with the year-to-date number of fatal crashes and fatalities that were a result of a motor vehicle crash on Maryland roads.

- In May, Maryland became the second state to launch Maryland Mobile ID in Apple Wallet, providing Marylanders with an easy, fast, and secure digital version of their MDOT MVA-issued drivers' license or state ID card. Through Maryland Mobile ID, a customer's identity is digitally verified, allowing the customer to control what personal data a requestor can see.
- MDOT MVA continues to focus on REAL ID, assisting 87% of Marylanders become compliant, well above the national average of 49%, in advance of the REAL ID deadline of May 7, 2025.

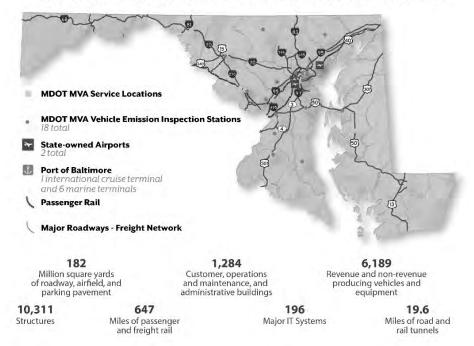

Asset Management

State of Good Repair is the condition in which a transportation asset, such as transportation infrastructure, services, or vehicles are able to operate at a full level of performance. MDOT is committed to ensuring all of its transportation assets remain in a State of Good Repair. To accomplish this, we continuously catalog and evaluate our assets, which helps us maximize our limited resources by directing them to those most in need of improvements. Annually MDOT conducts State of Good Repair (SGR) Analysis to identify SGR funding needs across the Department. In the upcoming ten-year period, MDOT has identified over \$22 billion in State of Good Repair funding needs for the most critical assets. The Department has implemented asset criticality frameworks and scoring processes to ensure a risk-based approach to directing funding to

the most critical needs. Asset management is a holistic approach of balancing costs, opportunities, and risks against the desired performance of assets. MDOT will continue to focus on the transportation infrastructure that is most in need of repair across all modes of transportation.

MDOT strives to maximize the value of every dollar, allocating funds toward system preservation first. The CTP reflects this priority by making continued investments in our: statewide bridge program; road and runway resurfacing; rail car overhauls and replacements; bus replacements; and general facility rehabilitation, replacement, and upkeep.

MARYLAND DEPARTMENT OF TRANSPORTATION'S SYSTEM

A key focus area is the condition of bridges across Maryland. MDOT SHA continues to prioritize reducing the number of poor rated bridges (the bridges are safe but need repairs/replacement) on the state's highway system to ensure safe travel for our customers. Bridges that are identified as poor rated are evaluated through our asset management plan for inclusion in a rehabilitation or replacement program. MDOT recorded 26 poor rated MDOT SHA bridges in the March FHWA submission - the lowest level since tracking began and one of the lowest percentages of any state transportation agency

in the nation. The remaining bridges are in the design phase with construction funding either in place or pending to address their condition.

In CY 2022, 85.3% of MDOT SHA's highway network was in overall preferred maintenance condition, and in CY 2021, 92% of the MDOT SHA and MDTA roadway network was in overall acceptable pavement condition, using MDOT SHA definitions.

MDTA is working on a phased approach to rehabilitate the eastbound span of the William Preston Lane Memorial (Bay) Bridge. Phase I construction began in Fall 2022 and involved replacing a 1.6-mile section of the original 70-year floor system including both the deck and floor beams, extending the life of the bridge approximately 50 years. This project also includes upgrading the parapet to a system compliant with current safety standards and widening of the deck to allow for enhanced emergency vehicle accessibility. This effort is part of a series of projects at the Bay Bridge including a major electrical system upgrade with system redundancy, Automated Lane Closure System (ALCS) with queue detection and All Electronic Tolling (AET) improvements, which opened in December 2022. These projects demonstrate MDTA's commitment to prolong the service life of a signature bridge asset while working to enhance the safety, capacity, and efficiency of this facility for travelers and MDTA personnel.

Construction was completed Fall 2022 on MDTA's \$463 million new US 301 bridge to replace the 81-year-old Governor Harry W. Nice Memorial/Senator Thomas "Mac" Middleton Bridge over the Potomac River. The project was one of Maryland's largest transportation initiatives and improves mobility, safety

and economic opportunities for Southern Maryland, northeastern Virginia, and the region. In March 2022, the U.S. Department of Transportation approved a \$200 million federal Transportation Infrastructure Finance and Innovation Act (TIFIA) loan to finance part of the \$463 million replacement project. In addition to Maryland and federal funding, Virginia contributed \$13 million to the project. The new, wider, four-lane crossing opened to traffic Fall 2022. The new bridge:

- Doubles the vehicle capacity with four 12-foot-wide lanes, replacing the original bridge's two 11-foot-wide lanes.
- Improves safety by installing a barrier-separated median between eastbound and westbound lanes, adding two-foot shoulders and other improvements that meet current safety standards.
- Eliminates lane-shifting safety issues at toll booths by replacing them with all-electronic (cashless) tolling (AET).
- Enables tall ships to pass beneath its 135-foot clearance.

MDOT MTA's published 2022-2031 Capital Needs Inventory highlights MDOT MTA's progress in reducing a State of Good Repair backlog from 16.2 percent of all assets to 14.4 percent over the past three years, and lays out a plan to further address state of good repair needs over the next ten years. With current funding in this CTP, the backlog is projected to continue to decrease to 5.4 percent of assets by 2027.

Transit Fleet

MDOT MTA is investing in fleet modernization across all modes to support safe and reliable operations and enhance passenger comfort and convenience. Key highlights include:

- The \$400 million replacement of metro railcars and signal system is underway.
- The \$160 million overhaul of the 53-vehicle light rail vehicle fleet continues to move forward.
- The \$54 million overhaul of 63 MARC III passenger coaches which is advancing with 21 overhauled coaches currently in service.

MDOT MTA received a grant for several 60-foot articulated low or no emission vehicles through the Federal Low or No Emission Grant. MobilityLink paratransit vehicles also continue to be replaced and are being evaluated for low or no emission vehicle opportunities. Also, MDOT MTA is currently working on the next five-year contract to purchase all zero emission Core buses.

Customer Service

MDOT aims to provide premier customer service to all customers. There are many examples highlighting MDOT employees providing exceptional customer service.

In December 2021, MDOT MVA completed its IT modernization project known as Customer Connect, which enhanced the customer's experience by providing greater access to information, security, and the ability to conduct more online transactions than ever before. Customer Connect replaced the agency's legacy systems providing customers and employees with a complete view of all the customer's records and status with the MDOT MVA. At MDOT MVA, wait times were reduced by nearly 10 minutes, averaging 11 minutes in the 4th quarter of FY22 compared to 20 minutes in FY21.

MDOT MVA has also expanded online and kiosk services through myMVA. Approximately 74% of customers complete their transaction with the MDOT MVA using an alternative service delivery method. Through a myMVA account, customers can also look up notices, letters, and receipts related to their vehicle, check their REAL ID status, and view any MDOT MVA correspondence related to their vehicle since July 2020 without stepping foot into a branch office.

Over the last several years, the MDOT MVA has partnered with other government agencies to become a "one-stop-shop" for Marylanders. The Department of Natural Resources, the Department of Veterans Affairs, MDOT MTA and the MDTA have opened customer service centers within MDOT MVA branches or currently offer their products in branch offices, or on the online store and kiosks. In addition, MDOT MVA employees are providing customers with birth certificates on behalf of the Maryland Department of Health and TSA Pre-Check and TWIC approval at several MDOT MVA branch offices.

MDOT MAA has embarked on a major terminal improvement program to improve operations and customer service at BWI Marshall. The project will provide a new state-of-the-art baggage screening system to remove constraints to airline growth, a direct walking path between concourses A and B for connecting passengers and a host of concessions and passenger improvements. The project is being procured through a Construction Management at Risk (CMAR) delivery method. The design is nearing completion as of late FY22 and initial enabling tasks such as fuel hydrant and utility relocations are under construction.

MDOT MAA is committed to the health and safety of our guest and employees. In August 2021, MDOT MAA opened a FirstCall Medical Center at the Baltimore/Washington International (BWI) Thurgood Marshall Airport which provides health care services for the traveling public and airport staff. Located inside the main terminal near Concourse C, FirstCall Medical Center offers emergency care, first aid, COVID-19 testing and vaccinations, travel vaccines, occupational medicine, and physical exams. The center is open daily from 6 a.m. to 9 p.m. and facility accepts most major insurance plans and offers selfpay options for all services.

To improve the traveler experience and replace outdated and aging infrastructure, MDOT MAA embarked on a terminal-wide Restroom Improvement Program. Design of the post-security restrooms has been completed and construction began in mid-FY22 with completion expected in FY 2024. Construction includes two new restroom sets in each of the B, C, and D Concourses.

Leading the Way with Technology, Data, and Innovation

Vehicle and fuel technologies are key to MDOT's efforts to improve congestion, improve air quality, and reduce greenhouse gas (GHG) emissions. MDOT is integrating the following technologies into its plans and operations.

Electric Vehicles (EVs)

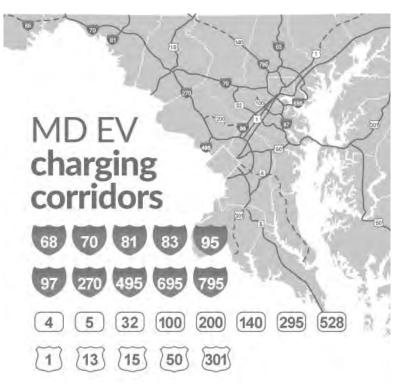

In response to the Infrastructure Investment and Jobs Act (IIJA), MDOT prepared the *Maryland State Plan for National Electric Vehicle Infrastructure* (*NEVI*) *Formula Funding Deployment*, describing how \$57M in federal funds will be allocated to EV charging infrastructure in Maryland. FHWA approved the plan in the Fall of 2022. The funds will be distributed in Federal Fiscal Years (FFYs) 2023 through 2027, with the primary objective of building out and certifying Maryland's Alternative Fuel Corridors (AFCs). Once the AFCs are certified, funding may be used to build out additional public charging infrastructure throughout Maryland.

MDOT continues to transition portions of its vehicle fleet to EVs. MDOT is actively replacing its light-duty passenger fleet with EV models in response to legislation passed in 2021 and 2022. MDOT MTA is planning facility upgrades and installation of charging infrastructure, in preparation for introducing zero

emission buses (ZEBs) into the MDOT MTA transit bus fleet. MDOT MAA is planning to replace parking lot shuttle buses at BWI Airport with electric models.

As public interest in EVs continues to grow, the MDOT-led Zero Emission Electric Vehicle Infrastructure Council (ZEEVIC) provides a public forum for discussion and information-sharing from interested parties and stakeholders engaged in expansion of zero emission vehicle (ZEV) infrastructure in Maryland. Maryland is consistently ranked among the top states for ZEV policy accomplishments.

During the last year, from June 2021 to June 2022, there were more than 52,000 EV owners in Maryland, a 50% from October 2021. We ended CY 2022 with 62,000 EV owners. Under MDOT's leadership, Maryland has successfully nominated 23 EV AFCs, three hydrogen AFCs, two liquified petroleum gas (LPG) AFCs, one compressed natural gas (CNG) AFC, and one liquified natural gas (LNG) AFC under FHWA's AFC solicitations. These corridor designations are key to utilizing new federal EV charging infrastructure funding in the Infrastructure Investment and Jobs Act (IIJA).

The MDOT has worked to facilitate and support the deployment of EVs and electric vehicle supply equipment (EVSEs) to mitigate climate change and improve air quality. To support this growing demand, Maryland has been working to deploy a robust EVSE infrastructure of more than 1,240 charging stations and more than 3,370 charging outlets.

The Maryland Public Service Commission (PSC) approved a five-year EVSE pilot program in 2019, under which the utility companies are committed to installing over 900 utility-owned and operated public charging stations on government property. The PSC pilot program established a coordinated strategy to prepare for demands on Maryland's electric grid and ensure equitable access to EV charging across the state. To date, 33 Level 2 and DC Fast Chargers have been installed on nine MDOT-owned sites under this program. Additional sites are in the review and approval stages. Utilization data is collected at each site.

Incident Management Technology

MDOT SHA and the MDTA continue to investigate innovative technologies to proactively manage and inform the public when incidents occur on our roadways. The increased use of crowdsourced information, publicly available data feeds, and sensors allows MDOT SHA and MDTA to accelerate the adoption of both lifesaving and information-sharing tools. Another approach that has increased efficiency is coalescing multiple office data sources into shareable content, which allows for broader situational awareness, increased data, and ultimately improved data driven decisions.

Systems Management Technologies

Transportation System Management and Operations (TSMO) is a framework used by transportation agencies to maximize the service potential and to manage roadways as part of a transportation "system," focusing on operational improvements that do not require traditional capacity improvements (e.g., additional lanes, interchanges, routes, etc.). TSMO initiatives achieve this high level of efficacy by utilizing information technology to create intelligent transportation systems (ITS).

Systems management requires deployment of sensors, such as cameras, traffic sensors (e.g., volume, speed, and density), communication infrastructure (e.g., fiber or 5G), to monitor, in real-time, how traffic is moving. That data is then used to active and manage technologies such as ramp meters, dynamic speed advisories, part time dynamic shoulder use, and reversible lanes to improve both the flow of traffic and the safety of those on the roadway.

In August 2020, MDOT transitioned to full-time all-electronic tolling across Maryland, including along the John F. Kennedy Memorial Highway (I-95) and at the Fort McHenry Tunnel (I-95), the Baltimore Harbor Tunnel (I-895), and the Nice/Middleton Bridge (US 301). The system provides convenience for motorists, less engine idling for better fuel efficiency and reduced emissions, decreased congestion, and increased safety. The MDTA implemented temporary all-electronic tolling statewide in March 2020 as part of its COVID-19 response and made all-electronic tolling permanent at the Bay Bridge in May 2020 with the installation of a new tolling gantry. Other MDTA facilities, including the Intercounty Connector (ICC)/MD 200, the I-95 Express Toll Lanes in Baltimore, the Key Bridge (I-695), and the Hatem (US 40) Bridge, had already operated using all-electronic tolling.

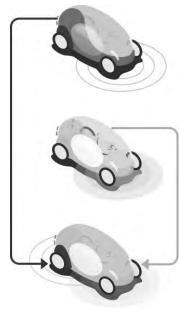

In April 2021, the MDTA brought Maryland into the next generation of tolling with the launch of Drive *Ez*MD, which encompasses *E-ZPass*. The launch included a new website, web chat, expanded customer call center, new toll payment choices, including pay-by-plate, and text notifications.

Connected and Automated Vehicle (CAV) Technology

Connected and automated vehicles (CAV) are an important foundation for the future of mobility in Maryland as we strive to increase access to all transportation options and improve the reliability of our transportation system. Maryland is embracing CAV technology and innovation through collaboration with a wide variety of stakeholders. Maryland's <u>CAV Working</u> <u>Group</u> provides a central point of coordination for all entities seeking to test and develop CAV technology CAV will not only affect transportation, but this life-changing technology will impact our health, prosperity, and access to resources during difficult times. This technology can help save lives and is consistent with our goal in Maryland to reach zero fatalities on our roadways.

CAV could change all aspects of mobility—from the way we commute to how we plan and develop infrastructure for future cities and towns. CAV technology leverages connected capabilities with automated features to provide the highest benefit of safety redundancies on the roadway. Connected vehicles "talk and listen" to infrastructure, other vehicles, and mobile devices – to warn a human driver of an impending hazard, enable a vehicle to operate more efficiently, or guide a vehicle to take appropriate action given the surroundings.

Automated vehicles use sensors and other technologies to understand the environment to similarly assist drivers or guide the vehicle; eventually, very high-level automation may be able to perform driving tasks in place of a human driver. Maryland is proactively providing tangible information to our communities and stakeholders to help effectively realize the technology benefits this vehicle can provide. The Maryland CAV Strategic Framework and the CAV Accomplishments demonstrate the state's continued leadership in this area and focus on identifying the many lifesaving and economic benefits of CAV technology, while continuing to prioritize collaboration across the state. There is a new CAV website and video located at: cav.mdot.maryland.gov.

Regional Transit Plan, Transit Studies, and Transit Services

MDOT MTA continues concrete steps towards the implementation of the Central Maryland Regional Transit Plan (RTP) in coordination with local jurisdictions, Baltimore Metropolitan Council, business organizations, and advocacy groups. Most notable among these actions are the ongoing Feasibility Studies for the first two corridors identified in the RTP for study and investment: the East-West Corridor from Bayview to Ellicott City, and the North-South Corridor from Towson to Downtown Baltimore.

Progress has continued this year towards the 2026 opening of the 16-mile Purple Line light rail from New Carrollton to Bethesda. In April 2022, financial close was reached on a new contract between the concessionaire, Purple Line Transit Partners, and design-builder Maryland Transit Solutions. Full scale construction by the new design/builder began in FY 2023.

MDOT MTA is advancing studies for multiple ways to improve its MARC train service and adapt service to changing travel patterns. This includes working closely with Amtrak and CSX to enable updated schedules to accommodate to the way customers now travel, as well as working closely with Amtrak to advance the Frederick Douglass Tunnel project. This project will deliver several key benefits to MDOT MTA customers including the potential for faster and more frequent MARC train travel to Washington, DC, and a new and improved West Baltimore MARC station with improved operations, comfort, and accessibility.

Transit Apps

MDOT MTA has taken several steps to provide customers with more useful and timely information to help them choose transit for their trips, as well as to improve fare structure and payment by providing more flexible and faster options. These have included launching real-time digital signs at three major transit hubs, updating Metro SubwayLink real-time data to include live train locations and arrival predictions on Transit App and Google Maps and adding real-time bus crowding information to Transit App.

Reliable, On-Time Service

As transit ridership in the Baltimore region continues to recover from the COVID-19 pandemic, MDOT MTA continues to adapt service to support changing travel patterns while reflecting MDOT MTA's commitment to prioritizing equity, improving reliability, and expanding access. Ridership is increasing steadily after falling sharply during the height of the pandemic, with local bus ridership reaching 70% of 2019 levels in March 2022. Monthly transit ridership has recovered to over 60% of pre-pandemic levels as of November 2022, with ridership on core bus reaching nearly 75% of its previous ridership. Several service changes have resulted from these efforts including:

- A new Express BusLink route between West Baltimore and Tradepoint Atlantic
- Elimination of a surcharge for express bus riders
- The introduction of the CharmFlex 3- and 10-day passes within the CharmPass app that can be used on non-consecutive days

Capital investments in Transit Priority Initiatives and rider amenities are ongoing to directly improve bus operations on key corridors and improve the rider experience across the core service area. These investments include:

- The recently completed construction of the \$27 million North Avenue Rising Project in Summer 2022. This project includes 5.5 miles of dedicated bus lanes, bus stop improvements, intersection improvements, and bicycle and pedestrian safety projects. These investments are already benefiting people accessing and riding transit and are the culmination of a six-year process that begin with the successful application for a highly competitive Federal TIGER Grant.
- The in-progress \$43 million Fast Forward Program which will design and construct additional dedicated bus lanes, create new and enhanced transit hubs, add more bus shelters, make ADA and pedestrian safety improvements at and near bus stops, improve real time signs, and enhance wayfinding at Light Rail stations by the end of 2024.
- The awarded \$22 million dollar RAISE grant to advance multi-modal transportation enhancements that will add transit, pedestrian, and bicycle infrastructure along the routes currently served by the CityLink Blue and CityLink Orange (<u>https://raisebaltimore.com/</u>).
- The recently awarded RAISE grant and Congressional Dedicated Funding contributes to a planned \$14.65 million project to improve multimodal access to Baltimore Penn Station.

Commuter Choice Maryland

Commuter Choice Maryland encourages commuters to explore and use alternate means of transportation to and from work, giving them travel choices convenient to them, such as transit, ridesharing (carpool/vanpool), biking, walking, teleworking, and alternative work schedules. These options help reduce commuter stress, reduce congestion, and conserve energy.

The Commuter Choice Maryland Employer Partner Program launched in 2021, with the goal of recognizing Maryland employers and organizations for their leadership in offering transportation benefits and creative program incentives to their employees. Employers of all sizes and industries in Maryland are encouraged to become a partner. Partners also gain access to complimentary guided support; a custom transportation plan and an employee travel behavior survey; an opportunity for a featured story in the quarterly newsletter and access to employer assistance resources. Commuter Choice Maryland also works in partnership with local and regional jurisdictions and provides

complimentary consultations to employers starting or enhancing their workplaces transportation and commuter benefits programs.

Commuter Choice Maryland also promotes the Maryland Commuter Tax Credit, where Maryland employers who offer qualified commuter can claim a tax credit. Qualified commuter benefits include Guaranteed Ride Home, vanpool, transit and cash in lieu of parking. As of July 1, 2022, commuter benefit offerings have expanded to include telework, carpool, active transportation and multimodal commuter last mile connections. All Maryland employers are encouraged to participate in this program, which helps businesses to retain and attract talent and improve their overall bottom line.

These efforts help to improve the environment, reduce congestion, enhance the quality of life of all Marylanders and increase economic opportunities.

To learn more, please visit <u>CommuterChoiceMaryland.com</u> or email: commuterchoice@mdot.maryland.gov or call: 410-865-1100 between 8:00 am and 4:30 pm Monday – Friday.

IncenTrip

In November 2021, MDOT launched the expansion of the incenTrip application statewide into Maryland as a congestion mitigation effort, as more employees were starting to plan their return to the workplace. The purpose of incenTrip is to reduce traffic congestion during weekday peak commute times by encouraging Maryland commuters and employers to use public transportation, ridesharing (carpool and vanpool), walking, and biking. Maryland commuters who use the application during their commute earn points that can be redeemed for cash and other rewards. For more information, visit <u>https://mdot.maryland.gov/incentrip</u>.

Economic Growth - Keeping Maryland Moving

Maryland's transportation system is essential to the state's economy. An efficient transportation system provides a competitive advantage to businesses in a regional, national, and global marketplace. Transportation directly impacts the viability of a region as a place that people want to live, work, and raise families, all critical to keep Maryland moving. Transportation infrastructure provides value and investing in Maryland's transportation system creates jobs and supports essential employees and Maryland industries and businesses.

BWI Airport

Over the last five years (2016-2021), air cargo processed at BWI Marshall has more than doubled. Much of this can be attributed to the shift in consumer buying patterns to e-commerce and last-mile delivery. With the opening of the new Midfield Cargo building in late-2019, BWI Marshall has become one of Amazon's top 5 busiest air cargo facilities in the nation (out of 35) and currently employs over 1,200 persons. In 2021, BWI Marshall handled 4% more cargo than the previous year and maintained 55% of the regional market share handling more cargo than Dulles International and Reagan National airports combined. Moving forward, MDOT MAA continues to explore opportunities to accommodate growth in both the domestic and international air cargo markets.

Maryland's Port of Baltimore

The Helen Delich Bentley Port of Baltimore generates about 15,300 direct jobs, with almost 140,000 jobs overall linked to Port activities. The Port ranks 1st among the nation's ports for volume of autos and light trucks, roll on/roll off heavy farm and construction machinery, and imported gypsum. It ranks 11th among major U.S. ports for foreign cargo handled and 9th for total foreign cargo value. Overall, it is one of the most diverse cargo ports in the U.S. and a top port in terms of total cargo tonnage and overall dollar value of cargo.

The ongoing cargo increases at Maryland's Port of Baltimore's public marine terminals are spurring capital projects that will place the Port in a very competitive position for future growth. The MDOT MPA is designing and reconstructing its Dundalk Marine Terminal berths to continue to handle the increases in automobiles as that sector recovers from supply chain shortages and to better accommodate the increasing size of heavy farm and construction machinery. Maryland's Port of Baltimore currently handles more automobiles and farm/construction machinery than any other port in the United States.

Four additional ultra-large, Neo-Panamax container cranes that arrived in September 2021 are now fully operational and allows Maryland's Port of Baltimore to handle two supersized vessels simultaneously. In addition, MDOT MPA was awarded a Consolidated Rail Infrastructure and Safety Innovations (CRISI) grant to realign and replace existing rail track at the Intermodal Container Transfer Facility adjacent to Seagirt.

The Howard Street Tunnel Project is currently underway and will allow for double-stacked container rail cars, clearing a longtime hurdle for the Port and giving the East Coast seamless double-stack capacity from Maine to Florida. The Howard Street Tunnel project benefits from public-private investment from the federal government, Maryland, CSX, and others, and is expected to increase the Port's business by about 160,000 containers annually. It will also generate about 6,550 construction jobs and an additional 7,300 jobs from the increased business. More information on the Howard Street Tunnel Project can be found at: http://www.mpa.maryland.gov/HST.

General Freight

To meet other freight needs, MDOT is taking an aggressive approach to implement other multimodal freight solutions in Maryland. Please refer to the CTP Freight Summary Section on page FRT-1 of the CTP for a listing of MDOT's freight projects. In addition to capital projects, MDOT is involved in several freight planning efforts, including the implementation of the Statewide Truck Parking Study action items and the recently completed State Rail Plan and State Freight Plan. Additional information on MDOT's freight activities can be found on MDOT's website at: *mdot.maryland.gov/freight*.

Public-Private Partnerships

Public-Private Partnerships (P3) will continue to be an important tool, where we can find opportunities to partner with our federal, state, regional, local, and private partners to advance key projects in Maryland. MDOT has a demonstrated history of successful P3 projects at Maryland's Port of Baltimore (MDOT MPA), travel plazas (MDTA), Purple Line (MDOT MTA), and OpLanes (MDOT SHA/MDTA).

The P3 agreement with Ports America Chesapeake continues to solidify the Port's position as Maryland's economic engine. As a result of continued growth

in business, Ports America is investing in the above-described second 50-footdeep berth project at Seagirt Marine Terminal. This \$122.1 million investment includes \$105 million from Ports America, \$10.5 million from the Transportation Trust Fund and \$6.6 million in federal funding. For more information visit: <u>https://www.pachesapeake.com/</u>.

MDTA partnered with Areas USA for the redevelopment and subsequent operations and maintenance of two travel plazas along the I-95 corridor in Harford and Cecil Counties. Areas USA financed the \$56 million project completed in 2014 and continues to operate and maintain these plazas through a long-term 35-year agreement. For more information visit: <u>https://mdta.maryland.gov/MD_I-95_Travel_Plazas/Home.html</u>.

The Purple Line Light Rail P3 project will connect Prince George's and Montgomery counties inside the Capital Beltway, with 21 stations connecting to: Metrorail's orange, green, yellow, and red lines; the MARC Brunswick, Camden, and Penn lines; regional and local bus services; and Amtrak at New Carrollton. Construction is underway of the entire 16-mile Purple Line light rail corridor. For more information visit: <u>https://purplelinemd.com/</u>.

MDOT SHA and MDTA continues to advance OpLanes Maryland, a P3 that addresses the significant congestion on I-495 and I-270 in the National Capital Region. The current focus is on "Phase 1 South", from the vicinity of the George Washington Memorial Parkway across the American Legion Bridge to I-370. Phase 1 South addresses congestion and trip reliability through a multifaceted approach including replacement of the American Legion Bridge, new high-occupancy toll lanes, and new transit opportunities. For more information visit: <u>https://oplanesmd.com/</u>.

Walking/Biking

Maryland, like many parts of the country, is seeing an increased interest in biking and walking as a significant transportation mode and an integral part of the state's broader transportation approach. Safe infrastructure for people

walking and biking is essential to MDOT to the contributing broader statewide goals of reducing greenhouse gas emissions, alleviating congestion. encouraging healthy activities. and supporting activitybased tourism and economic development.

Walktober continues to be a success building on the past Walktober campaigns working in partnership with various state agencies, county governments, and national non-profit organizations to promote infrastructure, safety, and health as they relate to walking. MDOT offered free walk-focused webinars (called Walkinars), with guest panelists discussing a variety of walk-related topics, which continue to be available for viewing on the website. The eighth annual "Walk Maryland Day" on October 5, 2022 was a great success celebrating the state's official exercise. To learn more about Walkotber, visit: *mdot.maryland.gov/walktober*.

MDOT is committed to improving bicycle and pedestrian safety, access and mobility. MDOT SHA's Context Driven approach has improved pedestrian safety statewide. The CTP includes key discretionary programs, such as the

federal Transportation Alternatives Program and the state's Kim Lamphier Bikeways Network Program. Through the Bikeways Program, \$3.6 million is to eligible organizations for the design and construction of transportation-focused bike facilities.

Together, these program investments are strengthened by comprehensive guidance for all MDOT customers in Maryland. Targeted strategies and initiatives identified in this document, along with the 2040 Maryland Transportation Plan, ensure MDOT is responsive to changing needs and opportunities to improve active transportation connectivity and safety for all.

Advancing Environmental Stewardship and Resiliency through Sustainable Action

MDOT is a national environmental innovation leader through our programs and initiatives, which focus on an integrated and multimodal approach, leveraging public-private partnerships and ensuring equity to accomplish goals.

- 1. MDOT was honored with the 2022 Electronic Product Environmental Assessment Tool (EPEAT) Purchaser Award in four product categories, highlighting the commitment to sustainable electronics purchasing. MDOT is the only state DOT in the world to be recognized for this accomplishment.
- 2. MDOT received Silver-Level recognition from the State Electronics Challenge for environmentally responsible purchasing and end-of-life management of office electronics.
- 3. MDOT also received the Maryland Green Registry State Building Energy Award for the Harry R. Hughes Headquarters building, for energy efficiency and building related emissions reductions.
- 4. MDOT's High-Performance Ponds project, received a 2022 Maryland Quality Initiative (MdQI) Innovation Award for installed "smart pond" technology that regulates the flow of water from stormwater management ponds in Aberdeen, Hagerstown, and Fruitland, Maryland.

MDOT is focusing on establishing a cohesive, proactive, and coordinated response to the impacts of climate change across transportation systems. MDOT is developing a Climate Action Plan to document steps to reduce greenhouse gas emissions, increase resilience, and adapt to a changing climate.

Through partnerships, MDOT is reducing emissions of criteria pollutants. In addition to addressing the National Ambient Air Quality Standards (NAAQS) for criteria pollutants, set by the US Environmental Protection Agency (EPA), MDOT is also working to reduce greenhouse gas (GHG) emissions from the transportation sector.

- 1. Maryland has goals to reduce GHG emissions statewide by 60 percent by 2030, from 2006 emissions levels.
- 2. In July 2020, the World Resources Institute (WRI) recognized Maryland as the top GHG-reducing state in the nation. The WRI study on "America's New Climate Economy" found that Maryland has successfully reduced emissions by 38 percent between 2005 and 2017 all while growing our economy.
- 3. MDOT continues to produce annual reports illustrating the progress made toward reducing transportation sector GHGs and submits those state agency reports to the Maryland Commission on Climate Change and the Maryland General Assembly.

In 2021, MDOT established the Urban Tree Program, providing grant funding to replace trees in communities where transportation construction projects impacted tree cover. Expanding tree cover in areas affected by urban heat island or environmental justice issues is a primary focus of the new program. In addition to the Urban Tree Program, MDOT signed a Memorandum of Understanding (MOU) with the Maryland Environmental Trust (MET) to preserve scenic byways and tree plantings across the state.

By coordinating land-use, transportation, and resource planning with our partners, MDOT helps to ensure that the investments made will meet multiple needs for the citizens of Maryland. MDOT TBUs are minimizing negative impacts and using project mitigation to support conservation goals through the state's Green Infrastructure Plan and Chesapeake Bay Restoration priorities as a guide. To help decrease pollution from entering our waterways, the CTP supports a three-pronged approach: retrofitting older parts of the transportation network with the latest stormwater management technology; restoring natural filters through stream restoration, forest establishment, and wetland creation; and adopting protective operational practices. Further, MDOT works with our partners to promote flood awareness and encourage Maryland residents to be prepared and stay safe during flood events.

MDOT preserves cultural resources by identifying the locations of important historic sites along our transportation system. MDOT also supports the preservation and study of significant historic sites along scenic byways including Harriet Tubman's Birthplace in Dorchester County. MDOT's recent discoveries on the Tubman family are incorporated into public interpretive signage and exhibits located along the Harriet Tubman Underground Railroad Byway.

Chapter 30

The Maryland Open Transportation Investment Decision Act – Application and Evaluation (Chapter 30) required MDOT to develop a project-based scoring system to rank major highway and transit transportation projects under consideration for funding in the CTP. Chapter 30 established nine goals and 23 measures to evaluate these major projects. The project-prioritization model required under Chapter 30 does not select major transportation projects for funding but is one of many tools MDOT will utilize in its project-selection process. The project evaluation results for this year are shown in the appendix of this CTP.

MDOT created a Chapter 30 scoring model that establishes how the 23 measures are defined and measured and created a weighting structure to score and prioritize the projects. For more information, visit: <u>mdot.maryland.gov/Chapter30</u>.

Process for CTP Development

The CTP takes nearly a full year to create through the work and collaboration of MDOT staff with state, regional and local elected officials. Each year, local jurisdictions are encouraged to submit priority project(s) to the state by April. It is important for MDOT to hear from local jurisdictions to facilitate collaboration on state and local needs. MDOT has established criteria to identify projects and programs responsive to the state's transportation priorities.

These criteria include:

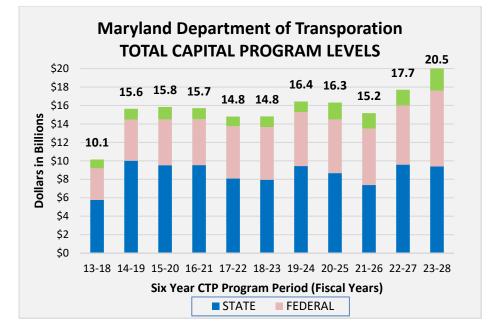

- Meets all federal and other legal mandates (e.g., Total Maximum Daily ٠ Load (TMDL) compliance, Positive Train Control (PTC), Federal Aviation Administration (FAA) regulations to maintain airport permits);
- Supports MDOT's program priorities and MTP goals (safety, system ٠ preservation, economic development, etc.);
- Meets all federal match requirements to maximize federal revenue ٠ sources;
- Supports the state's plans and objectives; ٠
- Supports existing project commitments and upholds intergovernmental • agreements;
- Is the single top priority within a local priority letter; ٠
- Is consistent with local plans; and .
- Is included in the regional Metropolitan Planning Organization (MPO) ٠ long-range plan (if the project is located within an MPO boundary).

FINANCING MARYLAND'S TRANSPORTATION PRIORITIES

In developing the CTP and establishing funding levels, MDOT must account for state and local economic growth, fluctuations in state transportation revenue, and allocations of federal funding. The state's Transportation Trust Fund supports MDOT investments through a dedicated account. The Transportation Trust Fund utilizes a variety of revenue sources, which provide funding that enable MDOT to address important capital and operating needs including safety, system preservation, multimodal transportation options, environmental stewardship, congestion relieve, and maintaining the competitiveness of Maryland's Port of Baltimore and BWI Marshall Airport.

State Revenue Projections

Total projected revenues amount to \$36.0 billion for the six-year period. This estimate is based on the revenue sources used by MDOT and includes bond proceeds and federal funds that will be used for operating, capital, and debt payment expenses. Pertinent details are as follows:

- Motor Fuel Tax revenues are projected to total \$8.5 billion over the sixyear period. The motor fuel tax rate includes a base rate on gasoline (23.5 cents per gallon) and diesel fuel (24.25 cents per gallon); a Consumer Price Index (CPI) component (estimated to average 8.3 cents per gallon over the program period) and a sales and use tax equivalent component (estimated to average 14.3 cents per gallon). Growth in motor fuel usage is expected to recover from the impact of the pandemic, although future growth rates are minimal, averaging 0.3%, and reflecting the growing role of electric and hybrid vehicles in Maryland's fleet, the increasing fuel efficiency of all vehicles, and slower growth in vehicle miles traveled.
- Motor Vehicle Titling Tax revenues are projected to yield \$6.5 billion over the six-year period. The tax rate is set at 6% of fair market value of the vehicle, less an allowance for trade-in, that is paid on the sale of all new and used vehicles as well as on new residents' vehicles. This revenue source follows the normal business cycles of auto sales with periods of growth and decline, and an underlying upward trend.
- Revenues from Motor Vehicle Registration, Miscellaneous, and Other Fees are projected to generate \$3.8 billion. This forecast assumes revenues will increase an average of 1.6 percent per year over the program period.
- Corporate Income Tax revenues are estimated to be \$2.3 billion over the six-year period. Corporate Income Tax revenues are shared between the state's General Fund and the Transportation Trust Fund. The transportation share of corporate income tax revenues increases to 20 percent from 17.2 percent in fiscal year 2024. Chapter 240 of 2022 provides for a graduated increase over the six-year period in the share of the state's Corporate Income Tax dedicated to transportation. This additional revenue offsets the impact of an increased investment in capital transportation grants provided to local jurisdictions.
- Federal Aid is projected to contribute \$9.4 billion for operating and capital programs, including \$0.5 billion of federal COVID-19 relief funds. MDOT received funding directly from various federal relief legislation and received funds allocated to transportation from the state's Coronavirus Relief Fund. All federal relief funds are expected to be fully spent by the end of fiscal year 2024. The amount of Federal Aid for operating and capital programs increases to \$9.4 billion from \$8.0 billion in the FY 2022 2027 CTP as the result of additional federal funds available for the capital program from the Infrastructure Investment and Jobs Act of 2021. Since federal aid supports a significant portion of the capital program, a more detailed discussion of federal aid assumptions is presented in the next section of this summary.

- Operating Revenues are projected to provide a six-year total of \$2.8 billion. Operating revenues include charges for airport operations, including flight activities, rent and user fees, parking, and concessions (\$1.8 billion over the six-year period); transit fares (\$672 million); and fees for port terminal operations and rent (\$318 million).
- Bond issuances are estimated at \$1.8 billion during the six-year period. State law limits MDOT's bonds outstanding to \$4.5 billion and establishes an annual debt outstanding cap in the annual budget bill. Debt outstanding is projected to rise to \$3.6 billion over the six-year period, which remains below the statutory cap. MDOT maintains credit ratings of AAA from Standard and Poor's, Aa1 from Moody's, and AA+ from Fitch Ratings.
- Other sources of revenue are projected to total \$660 million during the sixyear period. These sources include General Fund revenues, reimbursements, earned interest, use of fund balance, and miscellaneous revenues.

FEDERAL AID ASSUMPTIONS

The current federal authorization is the Infrastructure Investment and Jobs Act (IIJA) also known as the Bipartisan Infrastructure Law (BIL), which provides vital federal funding for highway, transit, and other multimodal projects. The IIJA was signed by President Biden on November 15, 2021 and provides authorization for federal fiscal years 2022 through 2027 (FFY 2022-FFY 2027). This Act is more expansive in scope than a traditional transportation authorization and much of the discretionary funding was both

authorized and appropriated in the legislation. The traditional transportation funds are being distributed based on FFY 2022 appropriations.

Grants

In order to best leverage our state transportation dollars, MDOT continues to pursue all relevant federal discretionary grants to maximize transportation funding opportunities. In addition to formula funds, the IIJA provides a significant increase in federal funding for discretionary grants for transit, highways, airport, port, rail, freight and active transportation, in rural and urban areas. Many of these grant programs are annual over the five years covered by IIJA and focus on the following priority areas: repairing/rebuilding infrastructure, climate change mitigation, resilience, equity and safety. MDOT has pursued many grants already, including the following IIJA grant programs: the Airport Improvement Program (AIP) grant; the Port Infrastructure Development Program (PIDP) grant; the Bridge Investment Program (BIP) grant; the Consolidated Rail Infrastructure and Safety Improvements (CRISI) grant; the Rebuilding American Infrastructure with Sustainability and Equity (RAISE) grant; the Bus and Bus Facilities grant, the Infrastructure for Rebuilding America (INFRA) grant; the National Infrastructure Project Assistance (MEGA) Program grant; and the Rural Surface Transportation Grant. We also continue working with our local and regional partners to support grant applications across the state. To date (December 2022), MDOT has been awarded a Penn Station RAISE grant, a Martin State Airport Station All Stations Access Program (ASAP) grant and awaits the awards from other competitive grant applications.

Highways and Transit

Along with the relief and stimulus federal funds received by MDOT traditional federal funding comes from the Federal Highway Trust Fund (FHTF), which provides transportation investment for projects in the following areas: highways and transit; multimodal freight; safety and security; system preservation; bike and pedestrian; congestion mitigation; climate change and electric vehicle infrastructure.

The CTP allocates these federal funds to projects in the program based on reasonable assumptions of authorization given the passage of the IIJA. MDOT expects to have \$720.0 million in highway formula funding and \$291.6 million in transit formula funding in FFY 2022 for MDOT projects. The Purple Line previously received a commitment from the Federal Transit Administration for New Starts funding totaling \$900 million. The Purple Line also received an additional allocation of \$106.2 million in New Starts funding from the American Rescue Plan Act (ARPA).

Federal highway program funds authorized and apportioned to the states are subject to annual ceilings, which determine how much of the appropriated money can be obligated in any given year. This ceiling is referred to as Obligational Authority (OA) and is imposed by Congress annually in response to prevailing economic policy. This CTP assumes an OA level of 91.3 percent for FFY22 and 90.0 percent FFY 23 through FFY27.

Washington Metropolitan Area Transit Authority — WMATA

In FY23, WMATA anticipated receiving \$331.4 million in FTA formula grants and \$11.5 million in other federal grants (Congestion Mitigation and Air Quality) for bus and rail preservation activities. The Passenger Rail Improvement and Investment Act (PRIIA) of 2008 was reauthorized within the federal IIJA and will continue to provide funding of \$148.5 million annually through FY2028, though a requirement within the reauthorization earmarks \$5 million each year toward the operating budget of WMATA's Office of the Inspector General. In total, WMATA expects to receive \$491.5 million in federal capital funding in FY23. In addition, WMATA fully intends to pursue competitive federal grant funding for as many programs as they qualify. No such funds are included in WMATA's capital budget until they are awarded.

Beyond the federal capital funding, WMATA has been apportioned \$2.4 billion since FY2020 through the various federal COVID relief funding programs for use in its operating budget to help defray revenue losses from continuing low ridership. WMATA expects to use \$686 million of this federal relief funding toward its operating expenses in FY23, leaving approximately \$181 million to help cover it operating funding gap in FY24.

In light of recent safety concerns at WMATA, including the derailment of a 7000-series train which led to the discovery of a larger maintenance and accountability issue, MDOT's top priority regarding WMATA more so now than ever is restoring and ensuring the safety and reliability of the system and its operation. This is demonstrated through investments in safety and state of good repair. Established in law in 2018 and with funding beginning in FY20, Maryland provides its \$167 million share towards WMATA's annual Dedicated Capital Funding Grant. WMATA uses this guaranteed \$500 million in funding to generate capital resources through bond sales. This funding has assisted WMATA in catching up on its backlog of deferred capital needs. In addition to this funding commitment, this CTP includes a total of \$300 million (\$50 million each year in FY23 through FY28) as Maryland's matching contribution to the newly reauthorized federal PRIIA grant. Additionally, Maryland and its other WMATA funding partners, Virginia and the District of Columbia, continue to fulfill their obligation by providing formula funds to match federal grants.

Overall, WMATA's six-year capital budget is \$13.9 billion in FYs 2023 through 2028. This includes \$5.9 billion in state/local funding, \$5 billion in debt (including debt generated from bond sales utilizing the jurisdictional dedicated capital funding), \$3 billion from federal sources, and \$42 million in reimbursable funds to complete the extension of the Metrorail Silver Line.

Aviation

The FAA, through the Airport Improvement Program (AIP), is authorized to provide federal entitlement and discretionary funding for airport projects. The MDOT MAA estimates annual AIP entitlement funding is at least \$4.9 million for BWI Marshall Airport during the six-year period. The IIJA provides an additional \$25 million a year through a separate grant program with expanded project eligibility using only enplanements to distribute the funds. Traditional AIP Entitlement funding is calculated using enplanement and cargo-based formulas for BWI Marshall Airport and the amount reflects the 75% adjustment based on the airport's authority to collect a \$4.50 Passenger Facility Charges (PFC). The FAA Reauthorization Act of 2018 extended FAA authority to 2023.

In response to the pandemic, Congress enacted the Coronavirus Aid, Relief, and Economic Security (CARES) Act which allocated \$107.7 million in additional funding to Maryland airports, of which 82%, (\$87.8 million) went to BWI Marshall and Martin State airports (\$75.8 million for operating costs, including appropriated debt service and \$12.6 million for capital costs). Additionally, MDOT MAA received \$21 million in Coronavirus Response and Relief Supplemental Appropriations (CRRSAA) funding (\$20M debt service and \$1M appropriated debt) and \$84 million in ARPA funding (\$80M of debt service, \$2M appropriated debt, \$2M for operating expenses).

In Federal FY 2021, MDOT MAA received \$26M in grants (\$17.3 million for Taxiway F Phase 1), \$4.8 for Remote Transmitter Receiver (RTR), \$2.5M residential sound mitigation. \$670,000 for noise and \$1M for reimbursement

of Concourse A/B and BHS CMAR expenses. The AIP also provided another \$29.8 million to other public use airports throughout Maryland.

In FY 2022, MDOT MAA administered \$1.7 million to public-use airports across the state through the Statewide Aviation Grant Program. These grants support the flying public with airport improvement and infrastructure preservation projects, safety equipment acquisitions and environmental compliance activities. This state investment leveraged over \$18.6 million in FAA funds and \$2.1 million in airport owner investment. This level of funding is expected to provide \$15-\$20 million each year over the next six years. In addition, FAA allocated \$3.2 million to non-State-owned public-use airports as part of the federal pandemic relief assistance (i.e., FAA Airport Rescue Grants).

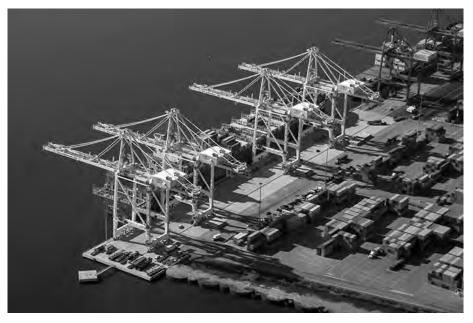

Martin State Airport continues to receive its annual \$150,000 AIP entitlement funding, which is applied to eligible projects. The IIJA provided an additional entitlement funding amount of approximately \$763,000 for Martin State Airport. Several development projects at Martin are expected to become eligible for AIP discretionary funding pending a favorable finding on the ongoing programmatic Environmental Assessment (as required by the National Environmental Policy Act) that is anticipated to be complete in CY 2022.

In FY 2021, MDOT MAA administered \$2.2 million to public-use airports across the state through the Statewide Aviation Grant Program. These grants support the flying public with airport improvement and infrastructure preservation projects, safety equipment acquisitions and environmental compliance activities. This state investment leveraged over \$33.1 million in FAA funds and \$1.0 million in airport owner investment. FAA funding is expected to provide \$15-\$20 million each year over the next six years. In addition, FAA allocated \$2.4 million to non-state-owned public-use airports as part of the CRRSAA, \$3.2 million for airport rescue grants and \$5.3 million for the first year of IIJA.

Maryland's Port of Baltimore

The MDOT Maryland Port Administration (MDOT MPA) receives nearly \$4.9 million annually through the Energy Transfer Port program for maintenance dredging through the U.S. Army Corps of Engineers (USACE), with the most recent round of funding delivered in FY 2022. The MDOT MPA's Mid-Chesapeake Bay Island Project received a major boost with the allocation of \$37.5 million in the USACE Supplemental FY 2022 Workplan. In April 2022, USACE, state and federal officials announced that an additional \$46.5 million had been secured, bringing the total for federal construction dollars to \$84 million for FY 2022.

In February 2022, the MDOT MPA was awarded \$1.8 million grant from the U.S. Environmental Protection Agency (EPA) for the Port's Diesel Equipment Upgrade Program, which replaces older cargo-handling equipment and dray trucks with newer, cleaner, and more efficient models. The grant will help the MPA further reduce emissions at the Port and surrounding residential neighborhoods. Since the Port's Diesel Equipment Upgrade Program began in 2008, a total of 118 pieces of diesel cargo handling equipment such as forklifts, top loaders, locomotives, and tugs have been replaced or retrofitted with cleaner engines. These replacements and retrofits have prevented more than 5,100 tons of emissions.

In June 2022, the MDOT MPA was awarded \$15.6 million from the Federal Railroad Administration (FRA) Consolidated Rail and Infrastructure Safety Improvements (CRISI) program for its Rail Capacity Modernization Project. The project will reconstruct and update the Seagirt Marine Terminal's intermodal rail yard infrastructure and support increased demand for double stacked trains of containerized cargo to markets across the country.

Terminal security efforts continue to be enhanced with federal assistance through the Federal Emergency Management Agency's Port Security Grant Program. In August 2021, MDOT MPA was awarded \$1.6 million in federal assistance to improve security at its terminals. The funding is being used to solidify cyber security initiatives and access control policies at the MDOT MPA's state-owned public terminals. Since 2005, Maryland's Port of Baltimore's public terminals have received more than \$20 million in the Port Security Grant Program.

Through the IIJA, the Port will be eligible to apply for additional funding through the Port Infrastructure Development Program, the National Infrastructure Project Assistance grants program (Mega), and the Nationally Significant Multimodal Freight and Highways Projects grants program (INFRA).

WHERE THE MONEY COMES FROM...

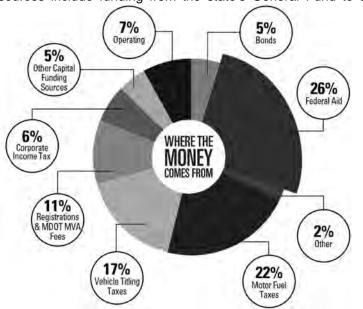

Maryland's transportation system is funded through several dedicated taxes and fees, federal aid, operating revenues, and bond sales, which are assigned to the Transportation Trust Fund. This fund is separate from the state's General Fund, which pays for most other state government operations and programs. MDOT's customers pay user fees for transportation infrastructure and services through motor fuel taxes, vehicle titling taxes, registration fees, rental vehicle sales tax, and operating revenues. The motor fuel tax and vehicle titling tax are two of the largest sources of MDOT revenue. Operating revenues include transit fares and usage fees generated at the Port of Baltimore and BWI Marshall and Martin State Airports.

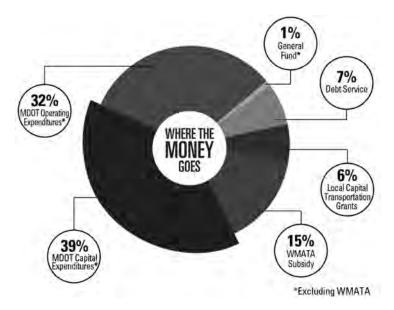

In addition to collecting revenue within the state, Maryland also receives federal aid for its transportation program. These federal funds must be authorized by a congressional act. The United States Congress enacted federal surface transportation authorizing legislation as part of the Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Act (BIL), in November 2021, which provides investment in transportation infrastructure through FFY 2027.

In addition to these state-sourced revenues and federal aid, MDOT utilizes other capital funding sources to funds its capital program. These other capital funding sources include funding from the state's General Fund to support dedicated capital funds for WMATA and other projects, direct federal aid received by WMATA, local contributions, airport revenue bonds, airport passenger facility charge revenues, and airport rental car customer facility charge revenues. The Final FY 2023 – FY 2028 CTP totals \$20.5 billion, including \$17.5 billion from the Transportation Trust Fu nd and \$3.0 billion from other capital funding sources. In total, MDOT's operating and capital spending from all fund sources is \$39.4 billion over the six-year period. In addition, MDOT continually looks for opportunities to maximize its finances by leveraging alternative financing sources such as applying for competitive discretionary federal grants and entering into public-private partnerships.

WHERE THE MONEY GOES...

The MDOT program is fiscally constrained, meaning that the list of projects is tied to estimates of future revenue. The Transportation Trust Fund supports operation and maintenance of state transportation systems, administration, debt service, grants, and capital projects, as well as Maryland's portion of operating and capital subsidies for WMATA. A portion of these funds is directed for General Fund purposes, including environmental, fuel tax collection, and state police programs. After operating costs, debt service, and local transportation grants, the remaining money goes toward funding capital projects, including capital grants to Maryland's counties and Baltimore City for local transportation needs. This document, MDOT's Final FY 2023 – FY 2028 CTP, is the six-year capital budget for all state transportation projects.

FY 2023-2028 FINAL CTP SUMMARY (\$ MILLIONS)									
TRANSPORTATION STATE FEDERAL OTHER* TOTAL PERCENT BUSINESS UNITS FUNDS AID OTHER* TOTAL OF TOTAL									
	MDOT TSO	169.7	7.2	11.8	188.7	0.9

EVALUATING OUR PERFORMANCE

Performance Driven

MDOT is a performance driven organization, assessing our transportation system performance through data before making decisions to plan and invest. This is done through the annual Attainment Report on Transportation System Performance, the annual Managing for Results and federal baseline performance measures.

To maintain the highest standards that our customers expect, we must understand where we are succeeding and where extra effort is needed. The Attainment Report provides us with the performance measure information we need to make those decisions. The annual CTP outlines where MDOT will be making investments in the coming years on our roads and highways, at the Port of Baltimore, in our transit systems, at BWI Marshall Airport and Martin State Airport, and all the various facilities that see thousands of people each day. The Attainment Report lets us know the success of those investments and where we can continue to improve, because we want to ensure our dollars are having the greatest impact in improving the lives of Marylanders. In 2000, the Maryland General Assembly passed a bill requiring MDOT to develop an Annual Attainment Report (AR) on Transportation System Performance. The main objectives of the AR are to do the following:

- Report on progress toward achieving the goals and objectives in the MTP and the CTP; and
- Establish performance indicators that quantify achievement of these objectives; and set performance targets.

The performance measures evolve and are updated periodically in a collaborative effort between the Secretary's Office, the Transportation Business Units, and every 4-5 years, with an AR Advisory Committee. The performance measures were updated in 2019 using input from the AR Advisory Committee, based on the updated 2040 MTP Goals and Objectives (please visit mdot.maryland.gov/ARAC). The AR documents show MDOT is achieving its goals and objectives based on performance indicators and helps Maryland citizens assess improvements to its transportation system.

Since 1996, MDOT also has participated in the state's Managing for Results (MFR) effort as part of the budget process. MFR is a strategic planning, performance measurement, and budgeting process that emphasizes use of resources to achieve measurable results, accountability, efficiency, and continuous improvement in state government programs.

Through coordination with MPOs and adjacent state DOTs, MDOT developed baseline performance measures and targets for the MAP-21/FAST Act federal safety, infrastructure condition, and system performance measures:

- Pavement condition of the Interstate System and on the remainder of the National Highway System (NHS).
- Travel time reliability on the Interstate System and the remainder of the NHS.
- Bridge condition on the NHS.
- Fatalities and serious injuries (both number and rate per vehicle miles traveled) on all public roads.
- Traffic congestion.
- On-road mobile source emissions.
- Reliability of truck travel time on the Interstate System.

MDOT will continue to work with USDOT, the regional MPOs, and other stakeholders to ensure we demonstrate the effectiveness of MDOT's programs.

HOW TO READ THIS DOCUMENT

For each major project, there is a Project Information Form (PIF). Each PIF contains a description of the project, its status, its justification, its compliance status with smart growth, and a brief explanation of how it fits with the goals of the MTP. It also shows any significant change in the project since the previous year's CTP, as well as the funding for the project during the six-year cycle. The information in each PIF is meant to provide a general description of the project along with some specifics such as alignments, status of environmental permitting, or alternatives under study.

Funding Phases

Planning – Once a proposal is funded for project planning, detailed studies and analyses are conducted to evaluate the need for the project, to establish the scope and location of proposed transportation facilities and to obtain environmental approvals.

Engineering – Engineering projects involve detailed environmental studies and preliminary and final design. Having been through a detailed analysis based on the information from the Project Planning phase, these projects are candidates for future addition to the Construction Program.

Right-of-Way – This funding is to provide the necessary land for the project or to protect corridors for future projects.

Utilities – This funding is to pay for utility relocations that are required by the project that are the responsibility of MDOT.

Construction – This last stage includes the costs of actually building the designed facility.

Total – This is the sum of any funding shown for Planning, Engineering, Rightof-Way, and Construction.

Federal-Aid - This is the amount of the total that will utilize federal funding.

State (Special) – This is the funding coming from the Transportation Trust Fund that is a Special fund in the Governor's budget.

Other – This is funding from sources that are not federal or special. This funding could be from counties, the general fund, airport bond issuances, or private entities.

Construction does not begin until a project receives necessary environmental permits, the state meets air and water quality requirements, and the contracts are bid. PIFs can include specific facilities and corridor studies that examine multimodal solutions to transportation needs.

The CTP also contains information on minor projects. These projects are smaller in scope and cost. They also can include road resurfacing, safety improvements, and sidewalk and bicycle trail construction.

MAJOR PROJECT SIGNIFICANT CHANGES FROM THE FY 2022-2027 CTP

Significant project changes consist of additions to, or deletions from, the Construction Program or the Development and Evaluation Program; and changes in the construction year.

PROJECTS ADDED TO THE CONSTRUCTION PROGRAM

PROJECT DESCRIPTION	<u>TOTAL COST</u> (\$ MILLIONS)
New Construction Program Projects	
Maryland Aviation Administration	
Taxilanes N and N1 Reconstruction at BWI Marshall Airport	28.3
Air Operations Area Fence Upgrade at BWI Marshall Airport	11.3
DX/DY Apron Pavement Rehab at BWI Marshall Airport	11.0
Amtrak Catenary Obstruction Removal at Martin State Airport	11.3
Deicing Pad Expansion at BWI Marshall Airport	29.0
15L/33R & Associated Taxiways - Pavement Rehabilitation at BWI Marshall Airport	15.0
Taxiway F Extension at Martin State Airport	14.6
Concourse A/B Bag Claim 0-5 Reconfiguration at BWI Marshall Airport	27.9
Electrical Substations Reconstruction at BWI Marshall Airport	28.1
Snow Equipment Replacement at BWI Marshall and Martin State Airports	24.0
Maryland Port Administration	
Dundalk Marine Terminal Resiliency and Flood Mitigation	42.2
Port of Baltimore Rail Capacity Modernization Project	22.4
Cox Creek STAR Facility - Remediation	75.0
Maryland Transit Administration	
Fast Forward	49.6

PROJECTS ADDED TO THE CONSTRUCTION PROGRAM

PROJECT DESCRIPTION	<u>TOTAL COST</u> (\$ MILLIONS)
Major IT Infrastructure Improvements	39.0
Metro Tunnel Repairs and Improvements	41.2
Metro and Light Rail Maintenance of Way	182.3
Maryland Transportation Authority	
I-95 John F. Kennedy Memorial Highway - Structural Rehabilitation of the Millard E. Tydings Memorial Bridge	11.0
I-895 Baltimore Harbor Tunnel Thruway - Resurfacing North and South of the Baltimore Harbor Tunnel	13.0
I-95 John F. Kennedy Memorial Highway - I-95 Southbound Hard Shoulder Running	35.0
State Highway Administration	
MD 91, Emory Road - Bridge replacements over N. Branch of Patapsco River and Maryland Midland RR	12.3
MD 17, Burkittsville Middletown Road - Bridge replacement over Middle Creek	5.1
MD 77, Rocky Ridge Road - Bridge replacement over Beaver Creek	7.1
MD 42, Friendsville Road - Bridge replacement over Buffalo Run	4.8
MD 5, Point Lookout Road - Bridge replacement over Hilton Run	5.6
I-68, National Freeway - Bridge replacement over Creek Road	21.9
TSMO System 1 - Geometric and ITS improvements to I-70, US 29, and US 40	76.7
I-97 - TSMO - Geometric and ITS improvements from US 50 to MD 32	49.4
I-68 Cumberland Viaduct - Bridge deck replacement and bridge rehabilitation	51.0
MD 6, Charles Street - Safety and accessibility improvements between US 301 and Willow Lane	11.4
MD 413 Trail - New trail construction from Marion Station to Westover	21.3
US 220, McMullen Highway - Geometric improvements along US 220, MD 53 and MD 636 in Cresaptown	10.8

PROJECT DESCRIPTION	<u>TOTAL COST</u> (\$ MILLIONS)
MD 717, Water Street - Bridge replacement over Western Branch	12.2
I-95/I-495, Capital Beltway - Bridge replacement over MD 4	38.2
MD 100 - Safety and Resurfacing Howard County to MD 170	13.2
Projects Moved From D&E Program to Construction Program	
State Highway Administration	
I-795, Northwest Expressway - New interchange at Dolfield Boulevard	148.9
US 15, Frederick Freeway, and US 40, Frederick Freeway - Widening from I-70 to MD 26	180.8
US 219, Chestnut Ridge Road - Relocation of US 219 from Old Salisbury Rd to PA State line	84.9
MD 24, Rocks Road - Slope repair and resurfacing from 900' south of Sharon Road to 1700' north of Ferncliff Lane	9.0
MD 97, Georgia Avenue - Safety and accessibility improvements from MD 192 to MD 390	57.0
MD 5, Point Lookout Road - Geometric improvements from MD 471 to MD 246	26.8
I-81, Maryland Veterans Memorial Highway	101.2
I-495/I-95 Capital Beltway - Interchange upgrades at Medical Center Dr (formerly Arena Dr)	104.5
MD 32, Sykesville Road - Geometric improvements from 2nd Street to Main Street	7.8
Total	1,773.4

CONSTRUCTION SCHEDULE DELAYS

The start of construction has been postponed from the schedule shown in the FY 2022-2027 CTP, for the following 3 major projects:

PROJECT DESCRIPTION	JUSTIFICATION	FISCAL YEAR
Maryland Transit Administration		
Howard Street Rail Replacement	Project deferred to align with schedule of State of Good Repair work for Light Rail grouping projects. By doing so, ongoing service disruptions will be mitigated.	FY 2022 to FY 2026
Metro Interlocking Renewals	Project delayed due to manufacturing and supply chain issues.	FY 2022 to FY 2023
Bus Hub at Baltimore Arena	Project is delayed due to ongoing renovations to the Baltimore Arena.	FY 2022 to FY 2024

FY 2022 MAJOR PROJECT COMPLETIONS

The Department completed 25 major projects in FY 2022, at a total cost of 1,083.4 million. These projects are listed below:

PROJECT DESCRIPTION	<u>TOTAL COST</u> (\$ MILLIONS)
Maryland Aviation Administration	
Midfield Cargo Area Improvements at BWI Marshall Airport Environmental Assessment at Martin State Airport	33.3 2.5
Maryland Transportation Authority	
I-95 John F. Kennedy Memorial Highway - Replace Deck of Bridge over Little Northeast Creek I-895 Baltimore Harbor Tunnel Thruway - Replace 15KV Feeder Cables US 50/301 Bay Bridge - Structural Repairs and Miscellaneous Modifications I-895 Baltimore Harbor Tunnel Thruway - Replace Concrete Median Barrier US 40 Thomas J. Hatem Memorial Bridge - Convert to Cashless Tolling MD 695 Francis Scott Key Bridge - Renovate Campus Buildings	13.5 10.7 63.0 14.4 16.2 11.8
Maryland Transit Administration	38.6
Bus Communications Systems Upgrade North Avenue Rising	38.0 27.7
Purple Line Advance Payment	341.6
Motor Vehicle Administration	
Alternative Service Delivery Systems	26.8
Customer Connect	96.0

FY 2022 MAJOR PROJECT COMPLETIONS (Cont'd.)

PROJECT DESCRIPTION		<u>OTAL COST</u> <u>\$ MILLIONS)</u>
State Highway Administration		
I-83, Harrisburg Expressway, Bridge replacements over Padonia Road		29.1
I-695, Cromwell Bridge Road - Drainage improvement and stream restoration		13.6
I-695, Baltimore Beltway, US 40 to MD 144 - Widening		127.6
MD 45 York Road - Safety and resurfacing improvements		17.0
US 1, Washington Boulevard - Bridge replacement over CSX		39.8

^A- WMATA capital and operating grants in the Secretary's Office budget are shown for informational purposes.

- ^B- Includes County and Municipality transfer funds from the federal government.
- ^c- Capital Program WMATA Grants line federal funds received by WMATA directly.
- ^D- "Other" funds are included in the totals for TSO, MAA, MTA, and WMATA.

^E- Debt Service for County Bonds is not included in FY 25-28.

Funds not received through the Trust Fund. Includes from Passenger and Facility Charges (PFC), Maryland Transportation Authority (MdTA) funds, Certificates of Participation (COPs), County ^F- participation and federal funds received by WMATA directly.

SUMMARY OF FEDERAL AID OBLIGATIONS (\$ MILLIONS)

The following listing estimates the annual levels of funds anticipated from individual federal aid categories necessary to support the FY 2023 - FY 2028 CTP/STIP:

	<u>2023</u>	<u>2024</u>	<u>2025</u>	<u>2026</u>	<u> 2027 - 2028</u>	TOTAL
Maryland Transit Administration						
New Starts, Fixed Gudeway, Modernization and Bus	318.4	229.7	234.6	240.8	496.1	1,519.7

MDOT Capital Program by Investment Area Report

The following illustrates the Maryland Department of Transportation's (MDOT) estimated funding levels in the six year program period by key investment area.

Percentage of MDOT Capital Program by Investment Area

The following is a list of major bridge reconstruction, rehabilitation and replacement projects. New highway bridges that are part of a highway project are not included. Detailed information for each can be found on the Major PIFs as referenced.

PROGRAM/PROJECT	DESCRIPTION	PIF LINE #
Allegany		
Interstate Construction Program		
I-68 Cumberland Viaduct	Deck replacement and rehabilitation of Bridge #No. 0109600 (the Cumberland Viaduct).	1
Secondary Construction Program		
MD 51, Old Town Road	Replacement of Bridge No. 0104700 over Town Creek.	2
Baltimore County		
Interstate Construction Program		
I-695, Baltimore Beltway	Replacement of Bridge No. 0317400 on Putty Hill Avenue over I-695.	6
I-95 and I-695, Baltimore Beltway	Latex modified concrete bridge deck overlays on I-95 at the I-695 interchange (10 bridges).	2
Primary Construction Program		
US 40, Pulaski Highway	Replacement and widening of the deck and superstructure of Bridge Nos. 0303403 and 0303404 over Little Gunpowder Falls and Bridge Nos. 0303503 and 0303504 over Big Gunpowder Falls.	9
Secondary Construction Program		
MD 151/MD151B, Sparrows Point Boulevard	Replacement of Bridge No. 0309900 on MD 151 and Bridge Nos. 0335000 and 0335100 on MD 151B.	8
Carroll		
Secondary Construction Program		
MD 91, Emory Road	Replacement of Bridge No. 0602000 over N. Branch Patapsco River and Bridge No. 0604700 over Maryland Midland RR.	2
Charles		
Secondary Construction Program		_
MD 225, Hawthorne Road	Replacement of Bridge No. 0802100 over Mattawoman Creek.	2

PROGRAM/PROJECT	DESCRIPTION	<u>PIF LINE #</u>
Frederick		
Secondary Construction Program		
MD 17, Burkittsville Middletown Road	Replacement of Bridge No. 1001900 over Middle Creek	4
MD 355, Urbana Pike	Replacement of Bridge No. 1008600 over Bennett Creek.	8
MD 75, Green Valley Road	Deck replacement and rehabilitation of Bridge No.1015600 over I-70.	5
MD 77, Rocky Ridge Road	Replacement of Bridge No. 1005400 on MD 77 over Beaver Branch.	6
Garrett		
Secondary Construction Program		
MD 42, Friendsville Road	Replacement of Bridge No. 1101000 on MD 42 over Buffalo Run.	3
US 219, Garrett Highway	Replacement of Bridge No. 1102400 over the Youghiogheny River (0.04 miles).	2
Harford		
Secondary Construction Program		
US 1, Belair Road	Replacement of Bridge No. 1206600 over Tollgate Road and Bridge No. 1206500 over Winters Run.	2
Prince George's		
Interstate Construction Program		
I-95, Capital Beltway	Replacement of Bridge Nos. 1615905 and 1615906 over MD 4.	2
Primary Construction Program		
MD 4, Pennsylvania Avenue	Replacement of the bridge decks for Bridge Nos.1609903 and 1609904 over MD 717, and full replacement of Bridge Nos. 1610803 and 1610804 over Race Track Road.	4
Secondary Construction Program		
MD 277, Riverdale Road	Replacement of Bridge No. 1609000 over Northeast Branch Anacostia River.	6

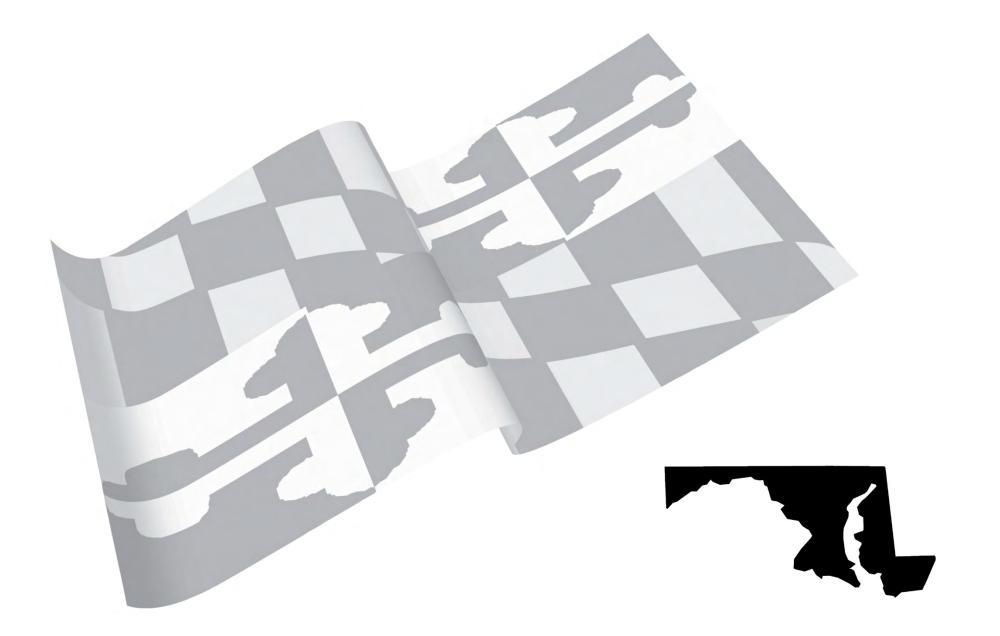

PROGRAM/PROJECT	DESCRIPTION	PIF LINE #

PROGRAM/PROJECT DESCRIPTION PIF LINE # Worcester Primary Development & Evaluation Program Study to replace Bridge No. 2300700 over the Sinepuxent Bay. The study will investigate options to eliminate/upgrade the drawspan 2

structure.

BICYCLE & PEDESTRIAN PROJECTS

The Maryland Department of Transportation has various funding programs for bicycle and pedestrian programs. Program funds are used for both design and construction. Several programs are administered as competitive grant programs, in which available funds are awarded to projects managed by local governments and other partners.

PROGRAM NAME		PROJECTS CURRENTLY FUNDED FOR CONSTRUCTION	FY2023-2028 CTP BIKE/PED FUNDING^
State Highway Administration			
ADA Program		13,126,000	52,830,000
Retrofit Bicycle Program		29,033,000	70,450,000
Neighborhood Conservation*		7,446,549	29,860,000
Primary/ Secondary Program**		1,429,296	1,429,296
Retrofit Sidewalk Program		18,352,607	127,510,000
Recreational Trails Program***		17,592,193	23,210,293
Transportation Alternatives Program***		47,113,514	109,660,000
The Secretary's Office			
Kim Lamphier Bikeways Network Program		16,524,367	15,953,631
	Total	150,617,526	430,903,220

^ Includes planning, design and construction funds

* Funding is estimated as a portion of total program funding based on recent bike/ped expenditures

** Additional funding is expected as major projects advance to construction and bicycle and pedestrian costs are itemized

*** Funding is estimated based on projected federal appropriations and historic program spending on bicycle and pedestrian projects; see typical awards on pages below

^^^ No additional earmark projects are expected at this time. Ongoing earmark projects are listed below.

MULTIMODAL FREIGHT PROJECTS

MARYLAND DEPARTMENT OF TRANSPORTATION

MULTIMODAL FREIGHT PROJECTS

Maryland's transportation system is essential to the State's economy. An efficient transportation system provides a competitive advantage to businesses in a regional, national and global marketplace. Transportation directly impacts the viability of a region as a place that people want to live, work and raise families, all critical to keep Maryland moving.

Maryland's economy benefits when goods movement is safe, efficient, and reliable over the State's freight network. The COVID-19 global pandemic illustrated the importance of maintaining the critical supply chain network, to keep goods moving and on the shelves, to ensure everyone has access to essential needs, and for our frontline workers who need essential supplies. The Maryland Department of Transportation (MDOT) continues to prioritize its freight infrastructure to ensure that the network of highways, railways, waterways, and airports are ready to handle the current freight movement and the anticipated growth of goods movement.

The MDOT keeps Maryland moving, by implementing multimodal freight mobility solutions, advancing supply chains through transportation and technology improvements, and expanding freight transportation options throughout the State. Investing in freight related projects will help improve logistical transportation for over 82,000 freight industry businesses to continue to employ about 1.5 million people and contribute \$123.4 billion annually to the State's economy.

How is Maryland accommodating goods movement today?

The MDOT is advancing multiple plans and programs which include freight projects in various stages of development from concept to construction. These projects include highway improvements, maintenance, capacity expansion, and operational projects such as Intelligent Transportation Systems (ITS) and Transportation System Management Operations (TSMO) applications. The highway projects help improve safety, protect roadways from truck damage, improve access and mobility for freight vehicles, and help increase

safe havens for truck drivers to obtain required rest. Investments in landside improvements and harbor dredging at the Port of Baltimore keep the inbound and outbound supply chains flowing. Partnerships with short line, switching, and Class I railroads are beneficial for increasing capacity and improving operations to provide alternatives for Maryland shippers.

Public Partnerships and Megaprojects Propel Movement of Goods into the Future

The Port of Baltimore and the entire supply chain network will continue to benefit from key partnerships with the private sector that support essential goods movement. The P3 agreement with Ports America Chesapeake continues to solidify the Port's position as Maryland's economic engine. Work was completed in 2021 on a second 50-foot berth that will allow the Port to accommodate two massive ships at the same time. That berth, and four additional supersized cranes, are now operational. Together, with support from USDOT, CSX Transportation and the MDOT Maryland Port Administration will be reconstructing the 125-year old Howard Street Tunnel and improving the vertical clearance at 22 bridges between Baltimore and Philadelphia to create a double-stack rail corridor to and from the Port of Baltimore and the entire East Coast. This project will unlock immeasurable potential for Maryland's freight rail network and increase Baltimore's already well-positioned reach into the American heartland.

MDOT completed an update to Maryland Freight Plan in November 2022 that contains specific policy recommendations and provides guidance for development of freight programs at the Port, on rails, highways, and in the air. MDOT will partner with carriers, shippers, and freight network users to implement the plan strategies so they continue to work for the entire transportation system and the state as a whole. The Plan is a statewide guide for selecting multimodal transportation projects that impact freight. This is important for State funding priorities and to help Maryland's ability to meet the national freight goals and requirements established in federal surface transportation authorizations. The Freight Plan vision is that "Freight travels freely and safely through a modern, resilient, and interconnected multimodal network contributing to sustainable economic viability and growth for Maryland businesses and communities. We have also revamped our State Freight Advisory Committee to ensure that we work with all of our stakeholders on freight projects, policies and programs.

In addition to these efforts, the MDOT is working to plan and design technological improvements that support emerging freight innovations, which will support Maryland's position in the global economy. Through ITS and TSMO applications that can leverage big data to send important safety, routing and connection information to freight vehicles, as well as inform on truck parking availability, MDOT is working to create a technology ecosystem today and in the future that will ensure safe, efficient, and connected freight mobility. As part of this, MDOT has begun development of connected-vehicle data driven dashboards to monitor freight mobility and truck parking, which can be used in TSMO applications to improve system operations.

The list below highlights projects that have significant freight impacts and are funded for planning, design, and construction activities in the Consolidated Transportation Program, for approximately \$3.1 billion. The list also identifies costs for Port projects by marine terminal and costs for highway freight related projects in each county. Additional information on individual projects can be found under the respective sections later in this document.

PROJECT: Transportation Alternatives Program

DESCRIPTION: Maryland's Transportation Alternatives Program (TAP) awards grant funding to projects that enhance mobility and accessibility, as well as the cultural, aesthetic, historic, and environmental aspects of Maryland's transportation network. TAP funds projects create bicycle and pedestrian facilities, restore historic transportation buildings, convert abandoned railway corridors to pedestrian trails and mitigate highway runoff.

PURPOSE & NEED SUMMARY STATEMENT: Transportation Alternatives Program provides TA Set-Aside from the Surface Transportation Block Grant Program under the Infrastructure Investment and Jobs Act (IIJA). These locally led projects add community and environment value for a variety of smallerscale transportation projects. The new program maintains project eligibility from the previous Fixing America's Surface Transportation Act (FAST-Act) and Moving Ahead for Progress in the 21st Century (MAP-21). Also includes eligibility of projects for the Safe Routes to School (SRTS) and Recreational Trails Programs.

SMART GROWTH STATUS: Project Not Locat	ion Specific X Not Subject to PFA Law
Project Inside PFA	Grandfathered
Project Outside PFA	Exception Will Be Required
PFA Status Yet to Be Determined	Exception Granted

<u>STATUS:</u> Projects approved for funding appear in the State Highway Administration's Safety, Congestion Relief, Highway and Bridge Preservation Program.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: Added funding in FY28.

PAGE TSO--1

PROJECT: Transportation Emission Reduction Program

DESCRIPTION: The object of the program is the reduction of traffic congestion and/or mobile source emissions. This program will incorporate and expand proven strategies to reduce emissions in Maryland's air quality non-attainment areas.

PURPOSE & NEED SUMMARY STATEMENT: The Federal Clean Air Act requires transportation programs to remain in step with State air quality plans. Fifteen counties are in air quality non-attainment or maintenance status. Worsening traffic congestion in the Baltimore/Washington metropolitan area negatively impacts the quality of life for Maryland citizens. This program will help address these issues by implementing projects that will achieve measurable reductions in mobile source emissions. These reductions are important to the annual air quality conformity analysis for the Department's transportation plans and programs and to help reduce Greenhouse Gas emissions.

PROJECT: Kim Lamphier Bikeways Network Program

DESCRIPTION: Program funds are made available to local jurisdictions and other eligible entities for projects that improve bicycle network access and safety and advance the goals outlined in the 2040 Maryland Bicycle and Pedestrian Master Plan (2019 Update)

PURPOSE & NEED SUMMARY STATEMENT: The program helps implement MDOT's Bicycle and Pedestrian Master Plan and Strategic Trails Plan by filling priority missing links in the statewide bicycling network, connecting and extending on-road and off-road bicycle facilities and improving connections to transit, work, schools, shopping and other destinations. By creating a more integrated and safe network of bicycle facilities, the program also helps advance the Maryland Transportation Plan's goals of economic development and environmental stewardship, while strengthening the health and quality of life for local communities.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

EXPLANATION: This project will enhance the user experience and efficiency of AdPICS.

PROJECT:	MDOT	AdPICS	Refactoring	Pro	iect
111002011		/ 100	rendetering		1000

DESCRIPTION: The project will modernize AdPICS for MDOT into a modern programing language and database, migrate the applications from the current legacy mainframe hardware into the MDOT server environment, and implement modern enhancements to the user experience.

PURPOSE & NEED SUMMARY STATEMENT: The newly Modernized AdPICS is known as EPICS (Enhanced Purchasing Information Control system). It is the Department's procure to pay application which will be integrated with the Department's financial accounting application RSTARS. Modernizing AdPICS enhanced the user experience, improved system and process functionality, lessened the number of application on the mainframe and allows for future integration with eMMa.

PROJECT: Transportation Infrastructure Along the Blue Line Corridor

DESCRIPTION: A Secretary's grant to Prince George's County to support transportation infrastructure projects along the Blue Line Corridor including Morgan Boulevard Urban Street Grid, Arena Drive Complete Streets, and FedEx Field Micromobility.

pedestrians.

PURPOSE & NEED SUMMARY STATEMENT: This grant will enable Prince George's County to construct

infrastructure improvements to create a interconnected, multi-modal network along the corridor to ensure the safe and accessible movement of motorists, freight carriers, transit users, bicyclists, and

PROJECT: Baltimore-Washington Superconducting Maglev (SCMAGLEV) Project

DESCRIPTION: Baltimore-Washington Rapid Rail (BWRR), a private company based in Maryland, is proposing to construct an SCMAGLEV train system between Baltimore, Maryland and Washington, DC with an intermediate stop at BWI Marshal Airport. An Environmental Impact Statement (EIS) is being prepared to evaluate the potential impacts of the construction and operation of such a system. This phase of the project is being funded by a grant from the Federal Railroad Administration with matching funds provided by BWRR.

PURPOSE & NEED SUMMARY STATEMENT: Over the next 30 years, population in the Baltimore-Washington region is expected to grow by 30 percent, significantly increasing demand on roadways and railways between the two cities. The purpose of BWRR's proposed action is to increase capacity, reduce travel time, and improve both reliability and mobility options between Baltimore and Washington, with possible future extensions to New York City.

EXPLANATION:

PROJECT: ADA Street and Sidewalk Improvements in Baltimore City

DESCRIPTION: Grant for Baltimore City to improve streets and sidewalks to comply with Americans with Disabilities Act. Enable Baltimore City to construct infrastructure improvements to create an interconnected, multi-modal network along corridors city-wide to ensure the safe and accessible movement of motorists, freight carriers, transit users, bicyclists, and pedestrians. Consistent with the City of Baltimore's ADA Policy, Complete Streets Design Manual, and Vision Zero plan.

PURPOSE & NEED SUMMARY STATEMENT: Support transportation infrastructure projects within Baltimore City including improvements to sidewalks, curb ramps, pedestrian signals, pavement markings, asset inventory and tracking to provide access to multimodal transportation and transit, including the following: ADA compliant upgrades to enhance pedestrian facilities, sidewalks, curb ramps, crosswalks, bus and transit stops, traffic and pedestrian signal improvements/enhancements, and the removal of obstructions in the pedestrian way.

criteria:
Quality & Efficiency
Environmental Protection
Fiscal Responsibility

<u>STATUS:</u> ADA Street and Sidewalks Improvements in Baltimore City grant agreement in 2023 with significant improvements expected in 2023, 2024, 2025 and 2026.

EXPLANATION: New Kiosks provide customers with the ability to receive real-time registration stickers, the option to pay in-cash or with a credit card, and the capability to receive certified and non-certified driving records, as well as the option to order scenic and personalized license plates. Providing this advanced functionality is a benefit to the public and enhances customer satisfaction.

PROJECT: Alternative	Service	Delivery	Systems
-----------------------------	---------	----------	---------

DESCRIPTION: This project includes the design and implementation of electronic delivery of MVA services through the Internet, kiosks and telephone Interactive Voice Response (IVR) systems.

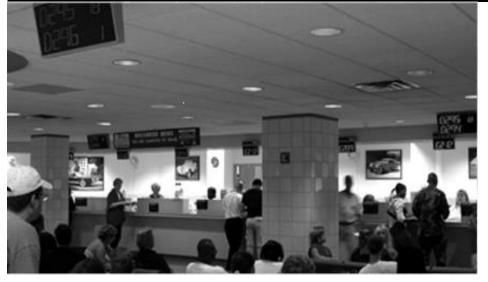

PURPOSE & NEED SUMMARY STATEMENT: Alternative delivery systems provide MVA customers with the ability to conduct more than 50% of core service transactions electronically. Web-based services, customer service kiosks, interactive voice recognition systems and other advancements not only make interaction with the MVA an efficient and pleasant experience, they will in turn reduce customer wait time and increase overall customer satisfaction.

SMART GROWTH STATUS: X Project Not Location Specific

DESCRIPTION: Customer Connect (formerly Project Core) is an enterprise-wide IT project with an emphasis on modernizing the MVA IT infrastructure, replacing legacy systems and enhancing the agency's ability to provide customers and employees with a 360 degree view of their services and needs.

PURPOSE & NEED SUMMARY STATEMENT: Many existing business systems were developed over the years as independent applications in response to separate business unit needs, and have become outdated in meeting the needs of today's operating environment. These systems needed to be more efficient for improved customer service and increased employee productivity, and were re-engineered to

allow MVA to maximize service using electronic commerce and a network of branch locations.

phase.

PROJECT: Customer Connect

EXPLANATION: Enable the MVA to maximize customer service by updating IT infrastructure. Provide the ability to conduct driver licensing, vehicle registration and titling transactions at any workstation or through any customer preferred interaction model including via the web and mobile devices. Improve data processing and efficiency for customers and customer service agents.

PROJECT: Glen Burnie Headquarters Renovation

DESCRIPTION: Improvements and renovation of the Glen Burnie Headquarters site and facility ground floor and main branch office. Consolidate Driver Licensing functions located in the Annex Building and trailers into the branch office of the main building. Improve vehicular and pedestrian site circulation and maximize parking. Renovate aging infrastructure and site utilities.

PURPOSE & NEED SUMMARY STATEMENT: Improve customer service, operational efficiency, safety, security, and work environment. Improve service and efficiency by consolidating Driver and Vehicle transactions conducted in multiple buildings/trailers into a single main office, while separating customers from back office functions located on other floors. Contain all branch functions on the ground floor of the Headquarters Building. Reconfigure traffic and driving test courses, separate employee and customer parking while adding to total parking spaces. Upgrade fire protection system and improve energy efficiency through equipment and window replacement. Replace HVAC distribution equipment plumbing piping and fixtures, electrical service and distribution, and site utilities.

PROJECT: Regional Aviation Assistance Program

DESCRIPTION: The Statewide Aviation Grant Program provides State funding to match federal funding to government or public-owned airports for the repair and upgrade of runways, taxiways, ramps, and lighting systems, as well as, for the removal of trees and other obstacles from runway approaches. If the airport meets the program criteria the Federal Aviation Administration (FAA) will cover 90% of the costs with the State and the airport each contributing five percent of the total project cost. Assistance is also provided to private-owned airports, open to the public, for financial grants to improve runways, taxiways, navigation aids, and other safety related projects.

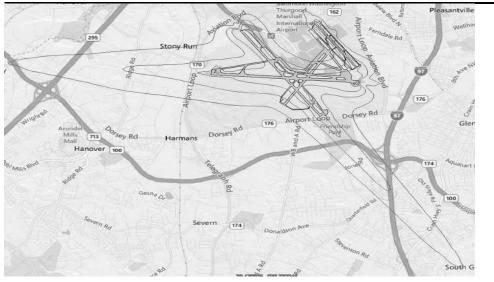

PURPOSE & NEED SUMMARY STATEMENT: This program supports the goals of the Maryland Department of Transportation to meet air service needs of Maryland and to promote safety and security, environmental stewardship, and economic development. There are over 130 licensed and registered airports in the State, of which 35 are public use facilities with three offering air carrier service.

Better Transportation Choices & Connections

Quality & Efficiency Х **Environmental Protection**

Fiscal Responsibility

EXPLANATION: This program enhances the environment of neighboring communities by providing homeowner sound mitigation for people living within designated noise zones near BWI Marshall Airport or acquires eligible residential parcels to accelerate transition to compatible land use.

PROJECT: Residential Sound Insulation Program

DESCRIPTION: This voluntary program provides for the mitigation of aircraft noise for residential properties that currently fall within the 65 DNL Noise Exposure Map (NEM) contours approved by the Federal Aviation Administration. Under this multi-year program, eligible homeowners may elect to have their homes sound insulated to an interior noise level of 45 DNL in accordance with MAA and FAA standards. The program also includes voluntary residential property acquisition for specific eligible properties within the approved 65 DNL corridor. The State will receive an avigation easement for each property participating in the program.

PURPOSE & NEED SUMMARY STATEMENT: This program enhances the home environment for residents in communities neighboring BWI Marshall Airport that are located within the NEM contours by providing sound insulation improvements to eligible homes. Long term compatible land use is promoted through voluntary property acquisition of eligible properties based on local land use plans and zoning.

STATUS: Five year program manager contract awarded January 2020. Three Federal AIP grants received to date for initial program implementation and design of a portion of eligible residences. Bids received on first construction contract for 18 single-family residences, award pending Board of Public Works approval with construction anticipated to start Spring 2023. Additional design/construction phases and corresponding funding requests from the AIP Noise and Environmental Set Aside will be

-									pursued.

clean diesel and will purchase eight electric buses for shuttle services to and from airport operated

parking facilities and the Amtrak BWI Rail Station. This project includes preparing a site layout for electrical charging stations, which will allow for future expansion. The layout will allow for future expansion and will include site improvements such as new paving and curbs as necessary.

DESCRIPTION: This project purchased twenty five 40-foot and fifteen 60-foot buses to be powered by

PROJECT: Shuttle Bus Service Fleet Replacement and Electric Bus Infrastructure at BWI Marshall Airport

PURPOSE & NEED SUMMARY STATEMENT: The current fleet of 49 buses was purchased in 2004 and have passed their useful life of 12 years. The timely replacement of the existing buses will ensure sufficient capacity to handle customer growth, maintain service levels, and ensure passenger delays are not due to equipment.

<u>STATUS:</u> Forty clean diesel buses in passenger service in 2019. Purchasing eight electric buses and charging infrastructure in Summer 2023. Anticipated completion of charging infrastructure and delivery of buses FY 2024.

PROJECT: Concourse D HVAC Replacement at BWI Marshall Airport

SMART GROWTH STATUS:

Project Inside PFA

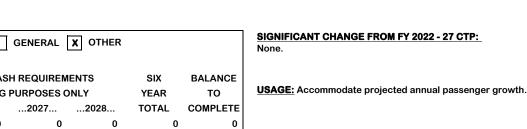

Project Outside PFA -

PFA Status Yet to Be Determined

Х

DESCRIPTION: This project will replace the existing HVAC systems serving Concourse D. Improvements will include: hydronic unit replacement, new 600 ton chiller, new piping and controls, concourse rooftop expansion unit replacement, and the replacement of ceiling systems.

PURPOSE & NEED SUMMARY STATEMENT: Existing HVAC systems in Concourse D were installed in 1987 and have reached the end of their service life. Replacement systems will improve operational efficiency, reduce operational costs, and improve overall reliability. Replacement of the ceiling will create a uniform appearance throughout the Concourse.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- X Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

- Quality & Efficiency Environmental Protection
- Fiscal Responsibility

X

EXPLANATION: The quality of the passenger experience is a primary focus of the airport and customer satisfaction with restrooms tops the list. These system preservation improvements will improve the condition of old and new facilities plus expand restrooms to address increased passenger traffic. BWI Marshall Airport supports the movement of people, goods and the State's economy.

PROJECT: Restroom Improvement Program at BWI Marshall Airport

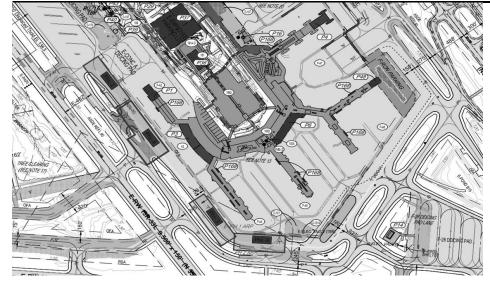

DESCRIPTION: This multi-year program will renovate restroom facilities at BWI Marshall Airport. The improvements will vary by restroom depending on the current condition and projected usage. Renovations will range from circulation and cosmetic improvements to full reconstruction. Improvements also include the installation of nursing stations throughout the airport.

PURPOSE & NEED SUMMARY STATEMENT: Restrooms are consistently the top complaint in passenger service feedback. Many of the restrooms throughout the terminal have exceeded their design life as it has been 15-40 years since their last refurbishment. Other restrooms, particularly in Concourses A and B, were designed to handle 30% fewer passengers than the current demand resulting in a significant shortcoming in restroom capacity.

<u>STATUS:</u> Construction started November 2021. Completion anticipated January 2024.

None.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- X Maintain & Modernize
- Economic Opportunity & Reduce Congestion

Better Transportation Choices & Connections

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage in the taxiway area. Pavement improvements and FAA standards ensure airfield pavement is free of cracks and minimize FOD that could impact the aircraft. BWI Marshall Airport supports the movement of people, goods and the State's economy.

PROJECT: Taxiway T Reconstruction at BWI Marshall Airport

DESCRIPTION: This project will reconstruct portions of Taxiway T from the existing asphalt pavement to concrete. The project is intended to address the existing pavement condition and meet FAA Design Standards for Taxiway Geometry. The Pavement Condition Index (PCI) for portions of this pavement ranges from fair to poor. All taxiway lighting and signage will be replaced with high efficiency LED lighting systems.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet FAA standards. The areas identified for upgrades were determined through independent pavement analysis as required by the FAA. Pavement sections within the limits of the project have PCI ranges from failed to fair according to the 2019 Pavement Management Plan (PMP) Update. In addition, the replacement of taxiway lighting and signage will enhance safety.

0232, 0233, 0234 Other funding source is Special Transportation Project Revenue Bonds. Federal funding was CARES stimulus.

DESCRIPTION: This project will comprise a two-level building addition between Concourses A and B to provide space for a new fully in-line baggage handling system, operational spaces, a connector between the concourses, upgrades to the Central Utility Plant and lower level roadway improvements. The project will also provide expanded holdrooms, new Passenger Boarding Bridges, new restrooms, and concessions space.

PURPOSE & NEED SUMMARY STATEMENT: The ability to maintain 100 percent electronic baggage screening, while achieving the necessary capacity to meet projected airline departure flight schedules that are using aircraft with larger seating capacity is dependent upon attaining the maximum utilization of bag screening technology. In addition, the project will expand holdrooms to ensure required capacity relative to aircraft seats, improve passenger amenities, and provide a same level connection between the two concourses. Central Utility Plant upgrades are necessary to keep up with airport expansion in order to provide cooling of the terminal complex.

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage in the taxiway area. Pavement improvements and realignment to FAA standards ensure airfield pavement is free of cracks and maximizes aircraft safety. BWI Marshall Airport supports the movement of people, goods and the State's economy.

Fiscal Responsibility

PROJECT: Taxiway F Relocation at BWI Marshall Airport

DESCRIPTION: This project will relocate Taxiway F as per the approved Airport Layout Plan and provide a new taxiway constructed in concrete and meeting current FAA Standards. The project is intended to address the existing pavement condition and meet FAA Design Standards for Taxiway Geometry. Specifically, the project will address separation from Runway 10-28 and the angled intersection at Runway 15R-33L. Additionally, the project will provide LED lighting, signage and drainage improvements. The project will be completed in three (3) phases:

Phase 1-New alignment will provide access to a concurrent maintenance hangar development project and relocate a portion of Taxiway F to provide the required runway to taxiway separation. Phase 2-Relocate and extend Taxiway F west of Phase 1 to its connection with Taxiway R and the Runway 10 End to provide the required runway to taxiway separation.

Phase 3-Relocate Taxiway F east of Phase 1 to RW 15R-33L to meet intersecting taxiway standards.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet Federal Aviation Administration (FAA) standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards.

PROJECT: Aircraft Maintenance Facility Infrastructure at BWI Marshall Airport

SMART GROWTH STATUS:

Project Inside PFA

Project Outside PFA -

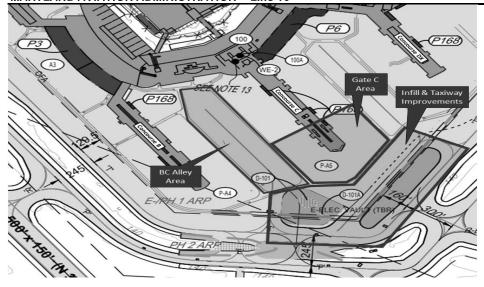

PFA Status Yet to Be Determined

Х

DESCRIPTION: This project provides infrastructure improvements in support of the development of a full-service aircraft maintenance facility at BWI Marshall Airport. The improvements include utility infrastructure and site grading. Landside and airside access routes will be provided to support operations.

PURPOSE & NEED SUMMARY STATEMENT: At BWI Marshall Airport, airlines need to perform periodic or incidental maintenance on their aircraft. There is insufficient space at either the airline gates or within the terminal and adjacent areas for airlines to perform aircraft maintenance functions. The site provides sufficient area for a facility that will support aircraft maintenance needs.

Primary Construction Program

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

X Safe, Secure, and Resilient

X Maintain & Modernize

X

Economic Opportunity & Reduce Congestion

Better Transportation Choices & Connections

EXPLANATION: This project provides compliance with FAA Part 139 regulations. New airfield lighting control and infrastructure combined with new aircraft travel patterns that increase airfield capacity ensure airfield movement and safety is maximized. The replacement of the Airfield Lighting Vault supports the movement of people, goods and the State's economy.

PROJECT: BC Apron Reconstruction, Infill & Taxiway Improvements at BWI Marshall Airport

DESCRIPTION: This program funds a series of projects to complete the overall development objective of BC Apron Reconstruction, Infill & Taxiway Improvements that is aligned with the FAA Airport Capital Improvement Plan (ACIP). The first phase of the program is the relocation of the Airfield Lighting Vault (ALV). Demolition of the existing vault, relocation of glycol dumps in the vicinity, and infill of those areas with apron pavement is included in the project. The remaining phases (BC Alley Reconstruction and Concourse C Apron Reconstruction) will follow after completion of the Concourse A/B Connector and BHS Program. This will provide enough gate capacity airport-wide to mitigate the operational impacts to airlines located in the BC alley.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet Federal Aviation Administration (FAA) standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards. Finally, the improvements will increase capacity at BWI Marshall by removing the operation constrictions at the entrance to BC Alley.

<u>STATUS:</u> Construction for Airfield Lighting Vault Relocation - Phase 1 is expected to start in Spring 2023.

USAGE: Improve standards.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: \$74M added

to this project to include Phase 2 design and construction. Additional project funding enabled by IIJA increases.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- X Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

Quality & Efficiency Environmental Protection

Fiscal Responsibility

EXPLANATION: This project will expand the fuel capacity at BWI Marshall Airport to meet the future demands of flight operations. The expansion of the North Area Fuel Farm supports the movement of people, goods, and the State's economy.

PROJECT: Fuel Storage Tank Additions at BWI Marshall Airport

DESCRIPTION: This project expands the North Area Fuel Farm by adding two 16,800 BBL above ground storage tanks with new supply lines, filtration, and pumps to transport Jet-A fuel to designated locations. A new upsized water line will be installed to facilitate a completed fire protection loop around the fuel farm, expand the capacity, and modernize the existing infrastructure.

PURPOSE & NEED SUMMARY STATEMENT: BWI Marshall Airport continues to grow in flight operations, which requires an increased fuel farm capacity.

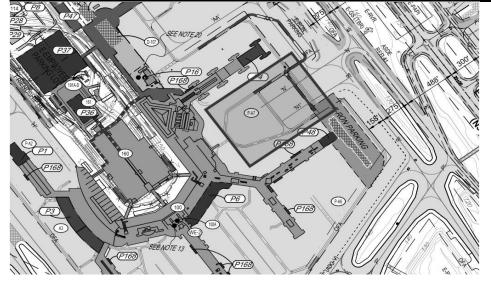

<u>STATUS:</u> Project currently under design. Construction anticipated to begin Summer 2023.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: \$3M cost increase includes escalation factor to account for supply chain issues, higher anticipated material costs, inflation and labor shortages.

USAGE: Accommodate projected annual flight operations.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Х Safe, Secure, and Resilient
- X Maintain & Modernize

- **Quality & Efficiency Environmental Protection Fiscal Responsibility**
- **Economic Opportunity & Reduce Congestion Better Transportation Choices & Connections**

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage in the taxilane area. Pavement improvements and FAA standards ensure airfield pavement is free of cracks and minimize FOD that could impact the aircraft. BWI Marshall Airport supports the movement of people, goods and the State's economy.

PROJECT: Taxilanes N and N1 Reconstruction at BWI Marshall Airport

DESCRIPTION: Taxilanes N & N1 provide access from aircraft gates located on the Concourse D and E alley to the airfield. Some of the largest design aircraft that utilize the airport transit the area and the existing asphalt pavement is in need of repairs. The 2019 Pavement Management Plan (PMP) identifies this area as "very poor" with an aggregate Pavement Condition Index (PCI) of 26 - 40 (out of 100). The project consists of complete reconstruction of the existing pavement with Portland Cement Concrete (PCC), utilities, associated pavement markings, signage and lighting improvements.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet FAA standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards.

PROJECT: Air Operations Area Fence Upgrade at BWI Marshall Airport

DESCRIPTION: This project includes enhanced security by removing and replacing 8' perimeter security fencing with 10' perimeter security fence. It also includes gate hardening by installing manual crash beam barriers at certain gates and automatic wedge plate barriers at others with integrated access control and bollards.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to provide visual deterrents, additional security and enhanced protective measures for BWI Marshall Airport.

PROJECT: DX/DY Apron Pavement Rehab at BWI Marshall Airport

DESCRIPTION: This project will provide a comprehensive pavement rehabilitation to the DX-DY Apron. The Pavement Condition Index for these pavements ranges from 45-59 (out of 100) which ranks in the poor to low-end of fair range. The pavement distresses include medium and high severity weathering, alligator cracking and block cracking. The Project will include all grading, pavement, lighting, signage and all related infrastructure.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet FAA standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards.

PROJECT: Deicing Pad Expansion at BWI Marshall Airport

DESCRIPTION: This project will expand the Runway 15R Deicing Pad to meet capacity demand, improve circulation and queuing, enhance operational utility and on-time performance by providing simultaneous deicing capability, improve efficiency of glycol application and recovery including a new snow dump area, and provide needed remain overnight parking that was impacted by the 2020 extension of Concourse A in 2020. The Project will include all grading, pavement, lighting, signage and all related infrastructure. Separate enabling work associated with this project includes Relocation of Taxi/Bus Stage Area, Gate 55 Modifications, Glycol Building and Tank Relocations, and Lift Station Modifications. Additionally, this project will enlarge the Runway 28 Deicing Pad to meet current FAA design standards per AC 150/5300-14C. Design of Aircraft Deicing Facilities while maintaining existing capacity and number of aircraft positions and providing a new area for snow dumping.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield capacity by allowing efficient movement of aircraft during deicing operations and increases the capacity of the existing facilities.

PROJECT: Electrical Substations Reconstruction at BWI Marshall Airport

DESCRIPTION: This project will provide funding to reconstruction and replace aging utility infrastructure at the airport. Specifically this project will (1) reconstruct the North and South BGE Substations, replacement of 35kV switchgears, replacement of meters and relays in the 15kV switchgears and (2) replace electrical Substation ST-AB including new switchgear, main load interrupters, and transformers.

PURPOSE & NEED SUMMARY STATEMENT: The equipment is 25 to 30 years old and has reached the end of its useful life. The reconstruction of the BGE substation will consolidate equipment into one location and provide a connection to BGE source. In addition, the replacement of switchgear and transformer equipment will increase reliability of electrical distribution system.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

Environmental Protection Fiscal Responsibility

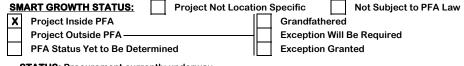

Quality & Efficiency

EXPLANATION: This project provides the equipment necessary to maintain airport operations safely during a snow event. BWI Marshall Airport supports the movement of people, goods and State economy.

PROJECT: Snow Equipment Replacement at BWI Marshall and Martin State Airports

DESCRIPTION: Replacement of 39 existing pieces of snow removal equipment dating from 1999 to 2013 with 32 pieces of new equipment. Some equipment will be multi-function and replace the equivalent of two existing pieces. New equipment replaced includes: plow and broom trucks, plow trucks, tow behind brooms, spreaders, and snow blower equipment.

PURPOSE & NEED SUMMARY STATEMENT: BWI Marshall Airport has approximately 20 million square feet of priority 1 airfield pavement area to keep clear of snow and receives approximately 18 inches of snow per year. The current snow equipment has reached the end of its useful life and needs to be replaced.

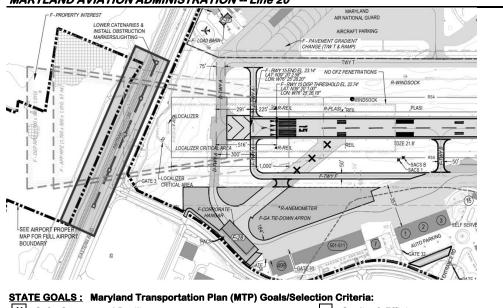

STATUS: Procurement currently underway.

EXPLANATION: The improvements enhance safety by improving line of sight. Martin State Airport supports the movement of people, goods and the State's economy.

PROJECT: Amtrak Catenary Obstruction Removal at Martin State Airport

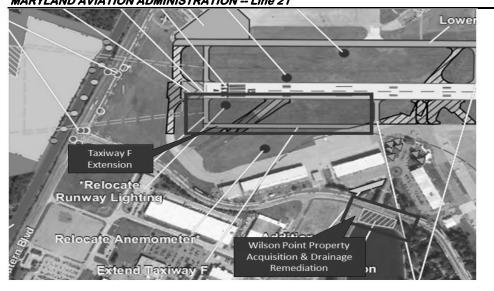

DESCRIPTION: Amtrak catenary poles and wires will be lowered to approximately 30' AGL to remain clear of Threshold Siting and Departure Obstacle Clearance Surfaces. Also includes installation of obstruction lighting per the FAA approved Marking & Lighting Plan developed in conjunction with the 2022 Environmental Assessment and associated FONSI/ROD. The Design Agreement with Amtrak will cover reimbursable costs for Amtrak personnel to perform design and support services including engineering, design reviews, and attendance at coordination meetings.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through provision of clear approach surfaces to the runway and provide for adequate runway length for Maryland Air National Guard (ANG) operations.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Select

- X Safe, Secure, and Resilient
- X Maintain & Modernize
- X **Economic Opportunity & Reduce Congestion**
- **Better Transportation Choices & Connections**

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by improving line of sight. Pavement improvements to FAA standards ensure airfield pavement maximizes aircraft safety. Martin State Airport supports the movement of people, goods and the State's economy.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: Added to Construction Program. Additional project funding enabled by IJJA increases.

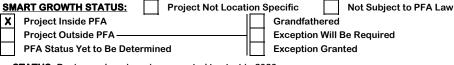

USAGE: Accommodate projected annual flight operations.

OPERATING COST IMPACT: Some operating costs recoverable from Martin State Airport user fees.

PROJECT: Taxiway F Extension at Martin State Airport

DESCRIPTION: The extension of Taxiway F (the primary civilian taxiway) to the Runway 15 end will result in a full-length parallel taxiway which will provide unobstructed line-of-sight from the future Air Traffic Control Tower (ATCT), and it will improve airfield circulation and reduce aircraft taxi time. All taxiway lighting and signage will be replaced with LED infrastructure and drainage improved to alleviate runoff onto Wilson Point Road. Property acquisition for the drainage outfall is included.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through provision of clear line of sight from the existing and proposed ATCT sites to all operational areas. In addition, the revised parallel alignment will reduce taxi length and meet all current FAA Standards.

STATUS: Design and engineering expected to start in 2023.

t	ion	Criteria:
	X	Quality & Efficiency
		Environmental Protection
		Fiscal Responsibility

PROJECT: Environmental Assessment at Martin State Airport

DESCRIPTION: This project provides for the preparation of an environmental assessment of Phase 1 capital projects shown on the Airport Layout Plan (ALP) approved by the FAA in July 2011.

PURPOSE & NEED SUMMARY STATEMENT: In accordance with the National Environmental Policy Act (NEPA) and Federal Aviation Administration Order 5050.4B, Airport Environmental Handbook, MAA must determine the environmental consequences of capital project development as proposed by the Airport Layout Plan.

EXPLANATION: Creating this double-stack rail access will result in significant public benefits such as reduced highway

congestion, increased roadway safety, decreased fuel consumption and improved air quality. Not only will the project

address a long-standing bottleneck in the national rail network, but the improvements will be undertaken in a cost-

effective manner, using public and private funds, with minimal impact to the public and environment.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- Х Maintain & Modernize
- X **Economic Opportunity & Reduce Congestion**
- Х **Better Transportation Choices & Connections**
- Х **Quality & Efficiency Environmental Protection**
- Х **Fiscal Responsibility**

attract more containers, resulting in additional jobs and economic growth for the region.

DESCRIPTION: The project consists of reconstructing the 126-year-old Howard Street Tunnel in Baltimore and improving the vertical clearance at 21 bridges between Baltimore and Philadelphia to create a double-stack rail corridor to and from the Port of Baltimore and along the entire East Coast.

PURPOSE & NEED SUMMARY STATEMENT: The project is needed to provide a more efficient way to move containerized cargo to and from the Port of Baltimore. The improved tunnel will allow the Port to

PROJECT: Howard Street Tunnel Project (INFRA GRANT)

STATUS: This project is currently under construction with a target completion date of December 2025. General Funds unspent in FY2023 will be encumbered and utilized in FY2024 to meet Maryland's funding commitment to the project.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: None.

PROJECT: Hart-Miller Island Related Projects

DESCRIPTION: Hart-Miller Island is a 1,140-acre island located in Baltimore County that was formerly used for placement of dredged material from the shipping channels for the Port of Baltimore. The site operated from 1984 and ceased accepting dredged material in 2009. The southern portion, South Cell, of the site is open for passive recreation, and MDOT MPA is coordinating with the Department of Natural Resources on the development of the North Cell for a wildlife habitat and passive recreation.

PURPOSE & NEED SUMMARY STATEMENT: During its operational life, Hart-Miller Island was necessary to enable dredging of the shipping channels for the Port of Baltimore. The current work is necessary to complete the re-development of the site for public and ecological benefit.

SMART GRO	WTH STATUS:	Project Not Loca	tion	Specific Not Subject to PFA Law
Project	Inside PFA		X	Grandfathered

X

EXPLANATION: The Cox Creek DMCF is being expanded to increase capacity for the placement of dredged material

This expansion, including raising the existing dikes, is necessary to create capacity to ensure safe and efficient

from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan.

PROJECT: Cox Creek Dredged Material Containment Facility Expansion and Related Projects

are also being raised as part of the expansion.

shipping vessels calling at the Port of Baltimore.

DESCRIPTION: The Cox Creek Dredged Material Containment Facility (DMCF) is an existing 144-acre dredged material placement site located in Anne Arundel County. The footprint of the DMCF is being expanded into the adjacent 93-acre upland area owned by MDOT MPA. The expansion will increase the capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan (DMMP). The dikes at the existing DMCF

PURPOSE & NEED SUMMARY STATEMENT: Placement capacity for dredged material from Baltimore Harbor is currently provided by the existing Cox Creek and Masonville DMCFs. The capacity that is currently available is not adequate to accommodate necessary dredging of the shipping channels for the Port of Baltimore over the 20-year planning period of the State's DMMP. Expansion and raising of the existing dikes at Cox Creek are necessary to create capacity to ensure safe and efficient passage of

> STATUS: Dike raising to +60 feet began in 2021 and will continue into 2024; dredged material placement is planned to continue during the expansion project.

PROJECT: Masonville Dredged Material Containment Facility Expansion and Related Projects

placement, and site operations of the DMCF.

calling at the Port of Baltimore.

OTHER

DESCRIPTION: The Masonville Dredged Material Containment Facility (DMCF) is an existing 193-acre dredged material placement site located in Baltimore City. The dikes are being raised at the facility to increase the capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan (DMMP). This program supports the placement, monitoring and management of material dredged from the shipping channels for the Port of Baltimore, and design and construction of containment sites, monitoring during and after

PURPOSE & NEED SUMMARY STATEMENT: Placement capacity for dredged material from Baltimore Harbor is currently provided by the existing Cox Creek and Masonville DMCFs. The capacity that is currently available is not adequate to accommodate necessary dredging of the shipping channels for the Port of Baltimore over the 20-year planning period of the State's DMMP. Raising of the existing dikes at Masonville is necessary to create capacity to ensure safe and efficient passage of shipping vessels

STATUS: Masonville construction is resuming after funds had previously been reduced due to funding constraints related to the COVID-19 global pandemic. Base dike widening construction begin during FY22 and will continue throughout FY23.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: Funding of \$13.6 million has been restored to allow for the next phase of expansion.

material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan. Raising the existing dikes is necessary to create capacity to ensure safe and efficient passage of shipping vessels.

PROJECT: Paul S. Sarbanes Ecosystem Restoration Project at Poplar Island

DESCRIPTION: The Paul S. Sarbanes Ecosystem Restoration Project at Poplar Island is an international model of the beneficial use of dredged material restoring remote island habitat in the mid-Chesapeake Bay. In 1996, only five acres remained of the 1,140 acres that were documented in 1847. MDOT MPA, working with the U.S. Army Corps of Engineers, began restoring Poplar Island in the 1990s. In 2017, an expansion project began to increase the site's placement capacity and create 1,715 acres of restored habitat consisting of 777 acres of tidal wetlands, 828 acres of upland habitat, open water ponds, and a 110-acre open water embayment. This project is cost-shared with the U.S. Army Corps of Engineers, and the funding shown here is only the state's contribution.

PURPOSE & NEED SUMMARY STATEMENT: Poplar Island receives approximately 2 million cubic yards of dredged material, drawn from the approach channels to the Baltimore Harbor and C&D Canal's southern approach channels. This capacity allows the Port of Baltimore to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore. This project is part of the State's 20-Year Dredged Material Management Plan (DMMP) that identifies either specific sites and projects, or types of sites and projects for future dredged material placement.

PROJECT: Mid-Chesapeake Bay Island Ecosystem Restoration Project

DESCRIPTION: The Mid-Chesapeake Bay Island Ecosystem Restoration Project (Mid-Bay Project) will restore two eroding Chesapeake Bay islands, James and Barren, providing long-term capacity for sediment removed from the shipping channels serving the Chesapeake Bay. This project will restore 2,000 acres of important, scarce remote island habitat, both upland and wetlands, and provide shoreline protection from erosion by reducing wave energy. This project is cost-shared with the U.S. Army Corps of Engineers, and the funding shown here is only the state's contribution.

PURPOSE & NEED SUMMARY STATEMENT: The Mid-Bay Project will be used to place dredged material drawn from the approach channels to the Baltimore Harbor and C&D Canal's southern approach channels as Poplar Island reaches its capacity. This new capacity allows the Port of Baltimore to continue to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore. This project is part of the State's 20-Year Dredged Material Management Plan (DMMP) that identifies either specific sites and projects, or types of sites and projects for future dredged material placement.

SMART GROWTH STATUS:	Project Not Location S	Specific	Not Subject to PFA Law
Project Inside PFA		Grandfathered	
X Project Outside PFA		Exception Will E	Be Required
PFA Status Yet to Be Determ	ined X	Exception Gran	ted

<u>STATUS:</u> This project is currently in the engineering and design phase and is anticipated to begin construction in 2023.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The project funding allocation has increased by \$172 million due to plans for this project being finalized by the U.S. Army Corps of Engineers.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- X Maintain & Modernize
- **Economic Opportunity & Reduce Congestion**
- **Better Transportation Choices & Connections**

EXPLANATION: This project provides enhanced dredge placement capacity as well as environmental benefits.

PROJECT: Innovative Reuse and Beneficial Use of Dredged Material

DESCRIPTION: MPA continues to implement the Innovative Reuse and Beneficial Use Strategy to advance the reuse of dredged material from channels serving the Port of Baltimore.

PURPOSE & NEED SUMMARY STATEMENT: The Dredged Material Management Act of 2001 (DMMA) established the Dredged Material Management Program (DMMP) and the DMMP Executive Committee to ensure that the federal navigational channels in the Chesapeake Bay and Baltimore Harbor remain open for waterborne commerce and to provide oversight and guidance over the Port of Baltimore's dredging needs through a rolling 20-year capacity and placement plan. Further, DMMA prioritizes beneficial use and innovative reuse alternatives over traditional dredged material placement methods. Solutions that can reuse dredged material extend the placement capacity at the Port of Baltimore's dredged material placement sites.

_	SMART GROWTH STATUS: X Project Not	Location Specific Not Subject to PFA Law
ſ	Project Inside PFA	Grandfathered
ſ	Project Outside PFA	Exception Will Be Required
	PFA Status Yet to Be Determined	Exception Granted

STATUS: MDOT MPA continues to explore and test new methods to reuse dredged material from the Port of Baltimore harbor channels.

Environmental Protection

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: \$1.6 million was added to this program, including \$0.5 million in FY28.

5005, 5007, 5241, 000181, 000182, 000311

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- Maintain & Modernize
- X Economic Opportunity & Reduce Congestion

Better Transportation Choices & Connections

EXPLANATION: The project will provide for environmental remediation of the property to support MDOT MPA's Innovative Reuse program that provides enhanced dredge placement capacity.

PROJECT: Cox Creek STAR Facility - Remediation

DESCRIPTION: The property is being acquired by MDOT MPA and requires environmental remediation. Under the terms of the agreement, the previous owner is required to pay for 62% for the remediation.

PURPOSE & NEED SUMMARY STATEMENT: The property is adjacent to the Cox Creek DMCF and will be used to support MDOT MPA's Innovative Reuse program. Prior to being able to use the property, environmental remediation needs to happen under a Maryland Department of Environment Administration Consent Order.

Quality & Efficiency

Fiscal Responsibility

Environmental Protection

Х

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: New construction project added to CTP.

EXPLANATION: This project will allow vessels with deeper drafts to make calls at the Dundalk Marine Terminal. Future

vessels will be larger than current-day ships and carry more cargo. Rehabilitation of these berths will enable the

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- Х Maintain & Modernize
- Economic Opportunity & Reduce Congestion

movement of additional cargo across the terminal.

Better Transportation Choices & Connections

- **Quality & Efficiency Fiscal Responsibility**
- **Environmental Protection**

SMART GROWTH STATUS: Project Not Location Specific Not Subject to PFA Law **Project Inside PFA** Grandfathered Project Outside PFA-Exception Will Be Required PFA Status Yet to Be Determined Exception Granted

PURPOSE & NEED SUMMARY STATEMENT: Berths 1-6 are essential to the Port because they handle a variety of cargoes, e.g., automobiles, forest products, roll-on/roll-off and other break-bulk (van packs). Age and a harsh marine environment require these berths be rehabilitated before they become unstable. The other berths (7-13) at Dundalk Marine Terminal are not viable alternatives because they are too

DESCRIPTION: The western bulkhead at Dundalk Marine Terminal was part of the original Harbor Municipal Airport dating back to the 1930s; the marginal wharf was constructed in the early 1960s. This project will (in a phased approach) replace and deepen the berths to meet future cargo and vessel needs; heavy cargo vessels have grounded on the bottom at low tides. The berths will be designed to allow dredging to an eventual depth of 50 feet. The first phase funded reconstruction of Berths 5 and 6.

Phase II funded Berth 4 reconstruction; Phase III will fund Berth 3 reconstruction.

PROJECT: Dundalk Marine Terminal Berth 3 Reconstruction

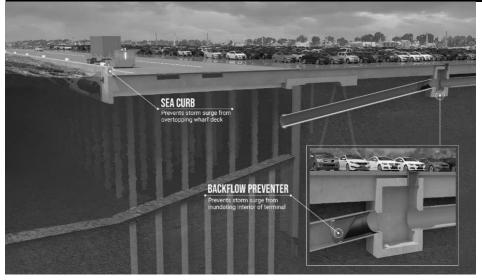

distant from the warehouses and automobile lots.

Х

STATUS: Dundalk Marine Terminal Berth 3 construction started in FY21 is currently scheduled to be completed by the end of FY23.

3181											

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: \$1.2 million was added to this project because construction costs were higher than anticipated.

EXPLANATION: The project will protect Dundalk Marine Terminal from storm surges that may be associated with sea

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

level rise and flooding from future high intensity-short duration rain events.

- X Safe, Secure, and Resilient
- Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

- Quality & Efficiency Environmental Protection Fiscal Responsibility
- Tiscal Responsibility

PURPOSE & NEED SUMMARY STATEMENT: The project is part of a larger, long-term resiliency and flood mitigation program at MPA's terminals and is essential in maintaining the POB's competitiveness in the Automobile and Roll-On/Roll-Off heavy equipment marketplace. By making improvements to Dundalk Marine Terminal, the project will reduce the risk of cargo losses due to storm surge and rainfall flooding

DESCRIPTION: The project will provide critical flood protection improvements at Dundalk Marine Terminal. The project will install tide gates to prevent storm surges from flowing back through the drains onto the terminal; installing a perimeter barrier to prevent storm surges from overtopping the berths; and constructing a new box culvert with lateral drains to deal with extreme rain events.

PROJECT: Dundalk Marine Terminal Resiliency and Flood Mitigation

at the POB's largest and most versatile general cargo facility.

<u>STATUS:</u> MPA received a FY20 BUILD grant from USDOT for \$10 million to offset some of the costs of this project. Final design has been completed and construction should start in FY23.

terminals.

SMART GROWTH STATUS: Project Not Location Specific Not Subject to PFA Law Х **Project Inside PFA** Grandfathered Project Outside PFA Exception Will Be Required PFA Status Yet to Be Determined Exception Granted

DESCRIPTION: This project will capture and convey the surface run-off from Masonville Dredged Material Containment Facility (DMCF) slopes and the land locked Kurt Iron Slip, and prepare the way for

the next four stormwater management phases. The proposed system will also relieve the existing

PURPOSE & NEED SUMMARY STATEMENT: To capture and convey surface run-off from the Masonville DMCF, relieve the existing Fairfield Marine Terminal storm drain system, and provide increased conveyance capacity for development of the Kurt Iron Slip and other areas at Fairfield and Masonville

Fairfield Marine Terminal storm drain system by re-routing storm drain discharge.

PROJECT: Fairfield Masonville Stormwater Management Phase I

STATUS: Construction should begin in FY23.

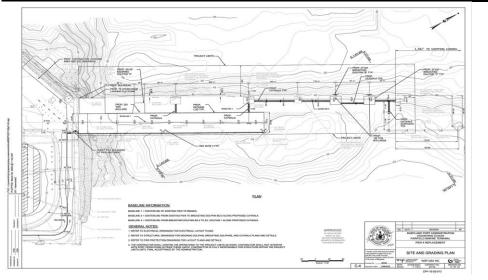

EXPLANATION: This project is integral to Fairfield Marine Terminal and Masonville DMCF development. Phase 1 allows elevation of the DMCF dike above +30 to the targeted elevation of +42, increasing the capacity for dredged material. Installing stormwater drainage allows for the development of the Kurt Iron Slip for future development at the Port and prepares the way for additional stormwater management improvements throughout the terminal.

underway.

PURPOSE & NEED SUMMARY STATEMENT: Originally, chromium was believed to be good fill material; unfortunately, it is now known that a large portion of the chromium at DMT contains hexavalent chromium which is defined and regulated as a hazardous substance under Federal and State law. The studies and work plans required under the Consent Decree are designed to assess the chromium

DESCRIPTION: After years of COPR investigations, and submission of a Corrective Measures Alternative Analysis (CMAA), the Maryland Department of the Environment (MDE) directed MPA and Honeywell to implement enhanced isolation and containment of the COPR at Dundalk Marine Terminal (DMT). This requires relining storm drains in the COPR areas and installing enhanced long-term

PROJECT: Chrome Ore Processing Residue Remediation (COPR)

remediation. The CMAA was approved by the MDE in July 2012.

monitoring and maintenance of the site.

EXPLANATION: Remediation of the affected areas located at the DMT will prevent hazardous substances generated by chrome ore residue from entering Baltimore Harbor. The application of Corrective Measures will enable the reclamation of chrome ore affected areas. The MPA will use these areas to store additional cargo brought to the Port of Baltimore by truck, vessel or rail.

state of good repair.

DESCRIPTION: Cruise lines operate international excursions out of MPA facilities. Recent projects included: installing a redundant electrical feeder and new restrooms; upgrading the public address system; enclosing the existing canopy; purchasing new check-in counters, furniture, and carpeting; expanding the Customs and Border Protection inspection area; and erecting a new cruise entrance to

PURPOSE & NEED SUMMARY STATEMENT: This facility is close to tourist attractions located at the Inner Harbor and has excellent visibility and access to I-95. This facility was converted from a lumber

warehouse and can accommodate one cruise embark per day.

improve vehicular circulation.

EXPLANATION: The improvements made at the South Locust Point Marine Terminal are for the comfort and convenience of cruise line passengers. These improvements spurred an increase in passenger demand and voyages from MPA facilities in the Port of Baltimore.

5251; 0283; Ports America Chesapeake has only committed \$18.4 million towards the BUILD grant.

PROJECT: Seagirt Marine Terminal Modernization - Terminal Improvements

DESCRIPTION: Phase One of the Seagirt Marine Terminal Modernization includes deepening the existing berths to 50 feet so that the terminal can handle the Ultra Large Container Vessels. In addition, there are improvements to the terminal that include densification and electrification of the container yards along with developing an empty container depot and grain export facility.

PURPOSE & NEED SUMMARY STATEMENT: This project is necessary to remain competitive with other East Coast ports by increasing the number of deep berths capable of handling the Ultra Large Container Vessels at Seagirt Marine Terminal. In addition, the project densifies and electrifies the container yards

Project Not Location Specific

to increase capacity and reduce emissions. This project leverages third party funds.

0 0

- Х Maintain & Modernize
- X Economic Opportunity & Reduce Congestion
- X **Better Transportation Choices & Connections**
- **Quality & Efficiency** Х **Environmental Protection Fiscal Responsibility**

approval phase.

DESCRIPTION: The Intermodal Container Transfer Facility (ICTF) sits adjacent to Seagirt Marine Terminal. The project will remove some existing track and install two crane beam rails to support an electric rail mounted gantry crane and install four new working tracks. The project is being supported

by a Consolidated Rail Infrastructure and Safety Improvement (CRISI) grant from the Federal Railroad

PURPOSE & NEED SUMMARY STATEMENT: The project is needed to modernize the ICTF's rail yard infrastructure to support increased demand for double stacked trains of containerized cargo once the

PROJECT: Port of Baltimore Rail Capacity Modernization Project

Howard Street Tunnel Project is complete.

Administration along with private funding from Ports America Chesapeake.

EXPLANATION: The project will support increased cargo demand at the terminal, upgrade the rail container terminal's aging infrastructure to achieve a higher level of safety, promote energy efficiency with electric rather than diesel equipment, reduce emissions and improve air quality by reducing the number of trucks on the road, and invest in vital rail infrastructure that will help alleviate the increasing pressure on the supply chain.

PROJECT: Dredged Material Placement and Monitoring

DESCRIPTION: This program supports the placement, monitoring and management of material dredged from the shipping channels for the Port of Baltimore. Costs associated with this program enable design and construction of containment sites and monitoring during and after placement.

PURPOSE & NEED SUMMARY STATEMENT: The State's 20-Year Dredged Material Management Plan (DMMP) identifies either specific sites and projects, or types of sites and projects for future dredged material placement. This program funds the development, construction and monitoring of selected dredged material management sites and projects to maintain the navigation channels that help the Port remain competitive and increase economic development.

SMART GROWTH STATUS: X Project	ct Not Location Specific Not Subject to PFA Law
Project Inside PFA	Grandfathered
Project Outside PFA	Exception Will Be Required
PFA Status Yet to Be Determined	Exception Granted

<u>STATUS:</u> MDOT MPA continues to evaluate alternative dredged material placement sites and options. The Masonville and Cox Creek Dredged Material Containment Facilities and the Poplar Island Ecosystem Restoration project are accepting dredged material.

PROJECT: Seagirt Marine Terminal Modernization - Loop Channel Improvements

DESCRIPTION: This is phase two of the Seagirt Modernization project, which will widen and deepen the loop channel to facilitate improved access at Seagirt Marine Terminal for the larger container ships that are now calling on East Coast ports. Phase one consists of deepening a second berth and landside improvements at Seagirt Marine Terminal Berth 3.

PURPOSE & NEED SUMMARY STATEMENT: This project is necessary to remain competitive with other East Coast ports by improving access to Seagirt Marine Terminal. This project will also improve safety for ships entering and exiting the Seagirt Marine Terminal

PROJECT: MARC Maintenance, Layover, & Storage Facilities

facilities support equipment that is used across all MARC lines.

away from the passenger platforms at the station.

DESCRIPTION: Planning, environmental documentation, design, and construction of maintenance, lavover, and storage facilities. Includes design and construction of storage tracks and replacement of track switches at MARC Martin State Airport facility and the construction of a heavy maintenance building at the MARC Riverside facility, including two new natural gas and diesel burners. Each of these

PURPOSE & NEED SUMMARY STATEMENT: Projects will provide a critically needed maintenance facility for the MARC fleet. Upgrades to the storage facility will reduce interference with Amtrak operations at Washington Union Station and Penn Station and provide urgently needed fleet storage

> STATUS: Construction ongoing for the heavy maintenance building at the Riverside location. The ribbon cutting was held in December 2022 and the contractor is completing final construction activities and punch list items, with an anticipated substantial completion and occupancy of the building in February or March 2023.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP:

Project cost increased by \$6.5M due to inspection pit additions to the MARC Martin State Airport Improvement project as well as the addition of the MARC Riverside boiler to burner conversion project. Additional project funding enabled by IIJA increases.

USAGE:

MARC annual ridership in FY 22 exceeded 2.2 million.

PROJECT: MARC Positive Train Control

DESCRIPTION: Implementation and development of Positive Train Control (PTC) for MARC as required by the Federal Railroad Administration. Positive Train Control incorporates an on-board computer that ensures all signals are received by the various parts of the system to prevent collision, maintain speed limits, and train spacing, while also protecting track workers who have been given exclusive use of the tracks. All locomotives and cab cars will be upgraded to operate the Positive Train Control system.

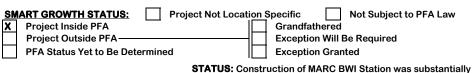

PURPOSE & NEED SUMMARY STATEMENT: PTC for MARC will create a safeguard against train collisions through proper train spacing on the tracks and active speed limit oversight.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- X Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

PROJECT: MARC BWI Rail Station Upgrades and Repairs

DESCRIPTION: Structural improvements to the BWI Rail Station parking garages and improvements to the existing bus loop, storm water facility, and station including passenger-friendly amenities. The MARC BWI Station serves the Penn line.

PURPOSE & NEED SUMMARY STATEMENT: Repairs to both garages and upgrades to the existing infrastructure of the station are necessary to preserve the BWI Rail Station.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- Х Maintain & Modernize
- **Economic Opportunity & Reduce Congestion**
- **Better Transportation Choices & Connections**

EXPLANATION: This project includes repairs and passenger improvements to the station.

PROJECT: MARC Odenton Station Renovation

DESCRIPTION: This project will provide design and construction for renovations to the existing MARC Odenton Station, which serves the Penn line. Interior renovations will include new doors, lighting, flooring, seating, HVAC, paint, millwork at customer service counter, and other miscellaneous customer amenities. Interior renovation will also include accessible restrooms and water cooler. Exterior renovations will include improved drainage, exterior signage, and replacement of all doors and windows. Temporary restrooms and ticket trailer will be provided during construction.

PURPOSE & NEED SUMMARY STATEMENT: The MARC Odenton Station was constructed in the 1940's and requires upgrades to the facility to improve ADA accessibility and to maintain a state of good repair.

PROJECT: Freight Rail Program

DESCRIPTION: The MDOT MTA Freight Rail program supports inspection, design, maintenance, and rehabilitation projects for state-owned freight rail lines, structures, and grade crossings. Projects include regular inspection and rehabilitation of freight railroad bridges in compliance with Federal regulations, grade crossing inspection and repair, and track improvements.

PURPOSE & NEED SUMMARY STATEMENT: Projects are identified and funded to meet Federal Railroad Administration (FRA) requirements, and support continued safe and efficient freight rail operations that are essential to the economic viability of the areas they serve. Inactive lines may also require maintenance to ensure preservation of rights of way and address safety concerns that may arise.

<u>SM</u>	ART GROWTH STATUS: X Project Not Lo	cation	Specific Not Subject to PFA Law				
	Project Inside PFA		Grandfathered				
	Project Outside PFA		Exception Will Be Required				
	PFA Status Yet to Be Determined		Exception Granted				

STATUS: Bridge inspections are conducted annually, per FRA regulations. Grade crossings are inspected periodically to identify priorities for repair work. Other projects are identified according to conditions to support continued safe operation, preserve and maintain rights of way, and maintain safe conditions.

PROJECT: Metro Station Rehabilitation and Lighting Program

replacement, snow melt equipment, and water intrusion abatement.

Station (ADA improvements and stair replacement) will conclude in FY 23. Design to replace snow melting equipment at metro platforms to begin in FY23. Replacement of the customer service station booth at Mondawmin Metro Station to begin in FY 23.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP:

Project funding allocation increased by \$10.0M to address additional customer facing rehabilitation needs at several Metro stations. Additional project funding enabled by IIJA increases.

1560, 1565, 1725, 1854, 1883, 2048

USAGE:

Metro annual ridership in FY 22 exceeded 1.6 million.

Not Subject to PFA Law Х Exception Will Be Required STATUS: Construction efforts at Reisterstown Plaza Metro

PURPOSE & NEED SUMMARY STATEMENT: Station repairs/upgrades and equipment replacement are needed to stop leaks, increase energy efficiency, and extend the service life of Metro Subway stations.

DESCRIPTION: Rehabilitation of Metro stations. Work will include painting, surface finish upgrades, major plumbing repairs, equipment and lighting upgrades, signage upgrade to include next train arrival display, above ground station platform repairs, staircase repair/replacement, structural repairs, roof

Х

EXPLANATION: Overhaul and replacement of Metro vehicles and signals system will ensure safe, reliable service.

DESCRIPTION: Replacement of Metro railcars and repair of critical equipment such as traction motors, gearboxes, axles, and wheels as well as repair and replacement of signal system and associated components.

PURPOSE & NEED SUMMARY STATEMENT: The new vehicles will replace the existing fleet which is nearing the end of its useful life. The replacement of the Railcar Fleet will enhance passenger comfort and convenience, ensure better reliability, and improve safety. On-going overhauls for Metro vehicle subsystems are required to reduce system failures and improve reliability.

PROJECT: Bus Facilities Preservation and Improvements

DESCRIPTION: Includes the rehabilitation, replacement, and upgrades of major facility components and equipment at MDOT MTA bus divisions including HVAC, boiler, bus paint booth, vehicular and pedestrian doors, and windows.

PURPOSE & NEED SUMMARY STATEMENT: Replacement of key components and equipment at bus divisions is required to maintain a safe and efficient workplace for MDOT MTA employees and prevent deterioration of bus facilities and equipment.

_	<u>SM</u>	ART GROWTH STATUS: Project No	ot Locati <u>on</u> :	Specific Not Subject to PFA Law
	X	Project Inside PFA		Grandfathered
		Project Outside PFA		Exception Will Be Required
Į		PFA Status Yet to Be Determined		Exception Granted

STATUS: Design of building 5 HVAC and bus paint booth at Bush division were completed in FY 22. Replacement of vehicular and pedestrian doors ongoing. Replacement of the boiler at Bush Division Building 5 will be completed in FY 23. Design for replacing windows at Washington Boulevard Buildings 1-8 ongoing. Gable window construction redesign documents ongoing. Paint booth construction to begin in FY 24

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP:

Project funding allocation increased by \$5.2M to support the boiler and paint booth replacement projects at Bush. Additional funding was needed to add a gas booster, which was enabled by IIJA increases.

USAGE:

Core Bus annual ridership in FY 22 exceeded 40 million.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient X
- Х Maintain & Modernize
- **Economic Opportunity & Reduce Congestion**
- **Better Transportation Choices & Connections**

Quality & Efficiency Environmental Protection Fiscal Responsibility

Project Outside PFA-**Exception Will Be Required** PFA Status Yet to Be Determined Exception Granted

EXPLANATION: This project provides blue light phones and improves existing comfort station facilities for use by operators, making the execution of their jobs safer and more comfortable. Real-time information signage and shelters make for a more vital community by enhancing the customer experience.

PURPOSE & NEED SUMMARY STATEMENT: With the launch of real-time information on the Transit mobile application, real-time information signage will extend that availability to the users of the BaltimoreLink system who do not have access to mobile technology. MDOT MTA bus operators currently

lack sufficient restrooms while operating their routes.

Law

STATUS: All real-time information signage and blue light cameras have been installed and are operational. Construction of the Patapsco Comfort Station will be complete in FY 23.

PROJECT: Beyond the Bus Stop

DESCRIPTION: The Beyond the Bus Stop program aims to improve amenities for both riders and operators at bus stops around the network. The Beyond the Bus Stop program will improve the customer experience by adding real-time information signage and shelter improvements to bus stops, including some multi-modal transfers. The program also includes constructing a comfort station at the Patapsco Light Rail Station for use by our operators. Blue Light phones will also be added at these locations.

PROJECT: Bus Network Improvements

DESCRIPTION: Funding to implement improvements throughout the bus network including planning, design, and construction for priority corridors, dedicated bus lanes, bus stops and transit hubs, wayfinding and improving the customer experience, ADA improvements, and bike and shared mobility.

PURPOSE & NEED SUMMARY STATEMENT: The Central Maryland Regional Transit Plan set goals and objectives for MDOT MTA to accomplish in the next 25 years. This funding will work towards expanding dedicated bus lanes, improving bus stops and transit hubs, adding additional wayfinding and customer experience amenities, and improving bike and shared mobility connections.

SM	ART GROWTH STATUS:	Project Not Locat	ion (Specific	Not Subject to PFA Law
X	Project Inside PFA			Grandfathered	i da
	Project Outside PFA			Exception Will	Be Required
	PFA Status Yet to Be Deter	rmined		Exception Gra	nted

STATUS: The Transit Signal Priority project was substantially completed, and additional potential sites were analyzed and approved by BCDOT in FY 21. Dedicated Bus Lane projects are ongoing in FY 23 with minor delays due to material shortages. Planning efforts associated with bus-bulb curb extensions underway at Garrison Boulevard and Belair Road corridors.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP:

Fast Forward funded projects, including the Baltimore Bus Shelter project, have been removed from the Bus Network Improvements PIF and included in a new PIF (see Line 36). These actions result in a decreased total project cost of \$48.1M.

USAGE:

Core Bus annual ridership in FY 22 exceeded 40 million.

PROJECT: Bus Procurement

DESCRIPTION: Annual purchase of clean diesel buses to replace those that have been in service for 12 or more years. The MDOT MTA has more than 700 buses in its active fleet.

PURPOSE & NEED SUMMARY STATEMENT: Bus replacement levels are based on the fleet size and must be maintained to prevent high out-of-service rates and major repair problems that arise from retaining buses beyond their useful life. The replacement program will serve to maintain the average age of the bus fleet. Replacement buses will reduce emissions, fuel consumption, and noise levels.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP:

Project funding allocation increased by \$70M due to the addition of FY 28. Additional project funding enabled by IIJA increases.

Core Bus annual ridership in FY 22 exceeded 40 million.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- X Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

EXPLANATION: This project will allow MDOT MTA to pilot emerging low and/or no emission technologies.

DESCRIPTION: Purchase of three 60-foot Battery Electric Buses (BEBs) and charging stations based at Kirk Bus Division utilizing competitive grant funds from Federal Transit Administration and four 40-foot battery electric buses and charging infrastructure utilizing funds made available by the Volkswagen settlement. Purchase and installation of battery electric bus charging equipment at Kirk Storage Building and providing new utilities power to feed these charging equipment.

PURPOSE & NEED SUMMARY STATEMENT: Maryland's 2019 Greenhouse Gas Emissions Reduction Act requires MDOT MTA to upgrade 50 percent of its fleet (approximately 375 buses) to zero-emission technology by 2030. MDOT MTA has committed to meet this target in the Regional Transit Plan. Zero emission bus pilots will allow MDOT MTA to test buses in service and develop training, procedures and lessons learned to inform fleet transition.

EXPLANATION: This project will improve service and safety in the North Avenue corridor.

PROJECT: North Avenue Rising

DESCRIPTION: Planning, environmental documentation, design, and construction of facilities to improve transit, pedestrian, and bicycle movement and safety along the North Avenue corridor. Includes targeted streetscaping, Penn-North Metro Station improvements, roadway repaving, Dedicated Bus Lanes, Enhanced Bus Stops, Penn North intersection improvements, Transit Signal Priority, shared mobility corrals, and on-street bike facilities (on North Avenue, Baker Street, and 20th Street).

PURPOSE & NEED SUMMARY STATEMENT: Project will improve reliability and speed of transit service along North Avenue (a key transit corridor in Baltimore City), improve pedestrian safety, expand bicycle access, leverage other City, State, and private investment in the corridor, and improve economic opportunities for corridor residents. The project will help bring both transit and roadway infrastructure into a better state of good repair, improve the quality of service for transit riders, reduce energy usage, and support economic development.

Х

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: None.

Core Bus annual ridership in FY 22 exceeded 40 million.

This project was funded with \$1.0M from Baltimore City and \$1.6M from Federal Highway Administration. 1489

PROJECT: RAISE Baltimore Transit Priority

DESCRIPTION: The East-West Priority Corridor project is a partnership between MDOT MTA and Baltimore City Department of Transportation to facilitate faster, more reliable transit trips and strengthen east-west connections that runs along the CityLink Orange and Blue routes from the Fox Ridge community in eastern Baltimore County through downtown Baltimore to the Centers for Medicare and Medicaid Services (CMS) in western Baltimore County. This project will include dedicated bus lanes, transit signal priority, bus stop enhancement and transit hubs, and upgrades to pedestrian and bicycle safety. RAISE is an acronym for Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Transit Priority Project.

PURPOSE & NEED SUMMARY STATEMENT: Project will improve bus reliability, travel speeds, on time performance and passenger safety of multiple MDOT MTA bus routes. The east-west corridor was identified through the Transit Priority Initiative as an area experiencing travel delays for the CityLink Blue and Orange routes.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- Maintain & Modernize
- X Economic Opportunity & Reduce Congestion
- X Better Transportation Choices & Connections

EXPLANATION: Dedicated bus lanes, transit signal priority, and additional passenger amenities at bus stops will create an improved customer experience aimed at reducing travel times, improving on time performance, and enhancing the entire customer journey.

STATUS: Design efforts underway to add dedicated bus lanes, transit signal priority, bus stop enhancements, transit hubs, and upgrades to bike/ped safety along the RAISE corridor.

USAGE: Core Bus annual ridership in FY 22 exceeded 40 million.

PROJECT: Fast Forward

DESCRIPTION: The Fast Forward program will facilitate capital investment to four project categories: dedicated bus lanes, bus stops and transit hubs, wayfinding and customer experience, and bike and shared mobility. Such objectives were created by the Central Maryland Regional Transit Plan to accomplish within the next 25 years.

PURPOSE & NEED SUMMARY STATEMENT: Project will improve customer experience, bus and rail reliability, travel speeds, on time performance, and passenger safety of multiple MDOT MTA bus routes.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- X Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections
- X Quality & Efficiency Environmental Protection
- Fiscal Responsibility

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP:

Project cost decreased by \$2.7M due to receiving favorable bids for next generation farebox system planning and implementation.

90717

PROJECT: Fare Collection System and Equipment Replacement

DESCRIPTION: Complete replacement of the current fare system including ticket vending machines, faregates, fareboxes and smart card/mobile app readers, back-office software and other related components as well as on-going overhaul and replacement of system components as needed.

PURPOSE & NEED SUMMARY STATEMENT: As the existing fare collection system ages it is imperative that MDOT MTA upgrade software and overhaul and/or replace critical hardware system components to ensure reliable system operation. This project will improve customer service and operations with efficiencies and options provided by a new fare system. The current system is very close to its end of useful life and an increasing number of components and replacement parts are no longer available.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- Х Maintain & Modernize
- **Economic Opportunity & Reduce Congestion**
 - **Better Transportation Choices & Connections**
- **Quality & Efficiency Environmental Protection**

EXPLANATION: The Purple Line will serve a corridor that currently lacks rail transit service and includes important

commercial, institutional, and residential communities. Electrically powered trains will reduce air pollution and

greenhouse gas emissions associated with cars and buses. Transit travel times in corridor will be reduced.

PURPOSE & NEED SUMMARY STATEMENT: The Purple Line will provide faster, more reliable transportation between residential and major employment areas. It will enhance access to existing radial Metrorail lines, increase capacity of congested roadways, support economic development consistent

with local master plans, and reduce environmental impacts.

STATUS: MDOT MTA is completing certain limited construction activities and full-scale construction by the new design-builder began in FY 2023. The Board of Public Works approved the amendment to the P3 Agreement and the new design-build agreement in January 2022.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: Project budget increased \$313.1M, with the addition of funding in FY 2028 and miscellaneous program adjustments.

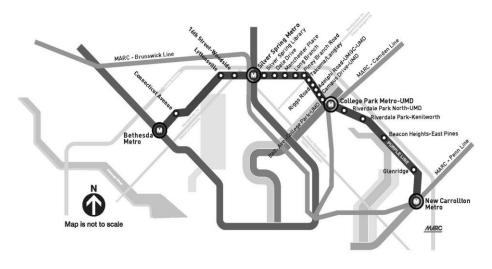

USAGE: Daily ridership estimated at 72,000 in 2040.

1042

PROJECT: Purple Line

Х

DESCRIPTION: The Purple Line is a 16-mile double track light rail line that will operate between Bethesda in Montgomery County and New Carrollton in Prince George's County. The Bethesda to Silver Spring segment will include a parallel hiker/biker trail. The line will include direct connections to Metrorail in four locations, all three MARC Train lines, and Amtrak. The project includes track, stations, railcars, and two operation and maintenance facilities. The project is being delivered as a public-private partnership for the design, construction, financing, operation, and maintenance of the facility.

PROJECT: Purple Line: Third-Party Funded Projects

DESCRIPTION: Montgomery County has elected to fund a program of projects that will be implemented through and associated with the Purple Line. Projects include a new southern entrance to the Bethesda Red Line station, Capital Crescent Trail, and the Silver Spring Green Trail along Wayne Avenue. In addition, the University of Maryland has funded a project to pave a .95 mile bicycle path. This project also includes repairs to the Polk Street Maintenance Facility roof, which will be funded by Prince George's County Department of Parks and Recreation.

PURPOSE & NEED SUMMARY STATEMENT: To further enhance the transportation and quality of life benefits of the Purple Line, Capital Crescent Trail, and Polk Street Maintenance Facility, Montgomery County, University of Maryland, and Prince George's County Department of Parks and Recreation are adding additional access features. MTA will assist in funding these efforts.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- **Better Transportation Choices & Connections**

- **Quality & Efficiency Environmental Protection**
- **Fiscal Responsibility**

PROJECT: Purple Line Advance Payment

DESCRIPTION: A one-time payment was made to the public-private partnership concessionaire to advance fund money owed to the concessionaire in future years for work completed by the previous design-build contractor.

PURPOSE & NEED SUMMARY STATEMENT: Advance funding future obligations owed to the concessionaire provides contracting and financing efficiencies to support the selection of a new design-build contractor and reduces the MTA's future funding obligations.

<u>STATUS:</u> Payment for work already completed.

PROJECT: Locally Operated Transit Systems Capital Procurement Projects (Local Jurisdictions)

DESCRIPTION: Funding to rural and small urban jurisdictions for transit vehicles, equipment, and facilities. In addition, the MDOT MTA provides rideshare funds to Baltimore City, Anne Arundel, Baltimore, Calvert, Carroll, Frederick, Harford, Howard, Montgomery and Prince George's Counties, and the Tri-County Council for Southern Maryland to promote the use of carpools and vanpools. MDOT MTA facilitates federal funds for locally-sponsored projects.

PURPOSE & NEED SUMMARY STATEMENT: Intense use of equipment and increased service demand requires regular vehicle replacement and expansion as well as adequate support facilities providing reliable maintenance service. The ridesharing program provides citizens with information on expanded commute options and provides companies with technical expertise needed to meet federal clean air requirements.

	Project Outside PFA	_	Exception Will Be Required				
	PFA Status Yet to Be Determined		Exception Granted				

PURPOSE & NEED SUMMARY STATEMENT: Regional coordination studies are an important step in achieving the RTP's objectives and increasing access to quality transit across the State of Maryland.

DESCRIPTION: The Regional Transit Plan (RTP) has identified a series of strategies for implementation,

including: conduct ADA accessibility surveys/passenger amenity reviews and implement improvements at all Light Rail and Metro Subway stations; inventory/document functionality/condition of existing RTIS

throughout the system and prioritize upcoming investments; convene a Task Force of MDOT MTA, state

agencies, city and county agencies, business representatives, community representatives, and riders to focus on growing ridership; and investigate industrywide best practices to reduce assaults on operators/prepare coordinated operator training on dealing with mental health issues.

PROJECT: Central MD Regional Coordination Studies

STATUS: The Transit Readiness Guide draft was completed in FY 21. Small Area Plans for Anne Arundel County and Howard County will be completed in FY 23. Small Area Plans for Harford County, Baltimore City, and Baltimore County are currently underway.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: Additional funding of \$1.4M was added to continue implementing the goals and objectives of the RTP. Additional funding will support projects related to the 30 initiatives for 2020-2025. 26 initiatives are underway with four initiatives not yet started. The additional funding will support the advancement of those initiatives in FY23 for future capital projects undertaken by MDOT MTA or RTP implementation Team members.

USAGE:

PROJECT: Patapsco Ave Pedestrian/Bicycle Bridge

DESCRIPTION: Preliminary engineering and assessment of a pedestrian bridge to connect the Cherry Hill neighborhood to the Patapsco Avenue Light Rail Station.

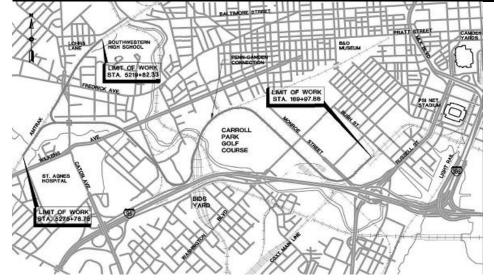

PURPOSE & NEED SUMMARY STATEMENT: Pedestrians often cross over restricted areas of CSX and Light Rail tracks to access the Patapsco Light Rail Station, posing a danger to themselves and train operators. Designing a safe passage over Patapsco Avenue for trail users will reduce preventable accidents.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: None.

PROJECT: MARC Penn-Camden Connector

DESCRIPTION: The Penn-Camden Connector project provides a connection track between the Northeast Corridor and the CSX-owned MARC Camden Line, utilizing mostly existing railroad right-of-way north of BWI Marshall Airport to allow Penn Line trains to access storage and maintenance at Riverside Yard. The project includes repurposing CSX-owned Mount Clare Yard into a MARC layover facility.

PURPOSE & NEED SUMMARY STATEMENT: The connection will allow MARC to more efficiently bring its locomotives to MARC's Riverside Maintenance Facility, which is MARC's only backshop for locomotive servicing and maintenance. The connector will also allow MARC to store trainsets at a rail yard (Mt. Clare Yard) adjacent to the Penn-Camden Connector, eliminating the need to store trains overnight at Amtrak's Penn Station.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- X Safe, Secure, and Resilient
- Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

Quality & Efficiency Environmental Protection

Fiscal Responsibility

Quality & Efficiency Environmental Protection Fiscal Responsibility

DESCRIPTION: The CCT is a 16-mile bus rapid transit line between Shady Grove Metrorail Station and the former COMSAT facility in Montgomery County. The line would be constructed in two phases: from Shady Grove to Metropolitan Grove and from Metropolitan Grove to COMSAT. The project includes a grade separated busway, stations, rapid transit vehicles, and a maintenance facility. Upon financial close and as part of the upfront payment for Phase 1 South and in consultation with Montgomery County, \$60 million will support the design of one of Montgomery County's transit priorities, which could include the Corridor Cities Transitway or bus rapid transit on MD355. This project is associated with SHA Statewide Line 5 - I-270 and I-495 - Phase I and MTA Line 60 - AGY Future Montgomery County Transit Priority Projects.

PURPOSE & NEED SUMMARY STATEMENT: The CCT will provide faster, more direct transportation between residential and major employment areas in the I-270 corridor. It will enhance access to Shady Grove station and employment areas, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

EXPLANATION: Replacing the 150 year-old tunnel will allow for more efficient and reliable commutes for MARC train

Х

PROJECT: Frederick Douglass Tunnel

DESCRIPTION: Replace the existing 1.4-mile B&P Tunnel, which dates from the Civil War era. At nearly 150 years old, it is the oldest tunnel Amtrak inherited and a single point of failure for MARC's Penn line and the Northeast Corridor. MDOT and MTA are coordinating with Amtrak on design and phasing plans to replace the tunnel to meet the needs of the 9 million MARC and Amtrak customers who rely on it annually. The project also includes a new ADA-accessible West Baltimore MARC Station.

PURPOSE & NEED SUMMARY STATEMENT: The tunnel suffers from a variety of age-related issues such as excessive water infiltration, a deteriorating structure, and a sinking floor. There are no fire and life safety systems that help keep passengers safe in the event of emergencies, and excessive costly maintenance is required. Due to its age, delays are chronic — more than 10% of weekday trains are delayed, and delays occur on 99% of weekdays.

SMART GROWTH STATUS:	Project Not Location S	Specific Not Subject to PFA Law

PROJECT: Southern Maryland Rapid Transit Study

DESCRIPTION: The Southern Maryland Rapid Transit (SMRT) Project is a high-capacity, fixed-route rapid transit service operating in a dedicated, grade-separated, 18.7-mile transitway in the Maryland Route 5/U.S. Route 301 corridor from the Branch Avenue Metrorail Station in Prince George's County to Waldorf and White Plains in Charles County. The Maryland Department of Transportation, in collaboration with Charles and Prince George's Counties, will complete the National Environmental Policy Act process, and secure a Record of Decision for the SMRT project.

PURPOSE & NEED SUMMARY STATEMENT: The SMRT project will provide safe, accessible, and equitable high-capacity rapid transit service during both the peak and off-peak hours in the SMRT Project corridor, enhance mobility, and relieve severe traffic congestion and gridlock in the MD 5/U.S. 301 highway corridor. Completion of the NEPA process and a Record of Decision by FTA are required for federal funding eligibility.

PROJECT: WMATA Capital Improvement Program

DESCRIPTION: The program provides Maryland's share of the funding for the Washington Metropolitan Area Transit Authority's (WMATA) Capital Improvement Program (CIP). It includes Maryland's share of matching funds to federal formula funds received directly by WMATA as well as Maryland's share of additional state and local funds for WMATA capital projects.

PURPOSE & NEED SUMMARY STATEMENT: WMATA's FY 2023 - 2028 CIP is focused on safety, infrastructure rehabilitation and replacement, and maintaining the National Capital region's primary regional transit system in a state of good repair. WMATA's FY 2023 - 2028 CIP includes investments to replace rail cars, rehabilitate track and rail structures, replace vehicles for Metrobus and MetroAccess, and implement recommendations from the National Transportation Safety Board, the Federal Transit Administration and the Washington Metrorail Safety Commission.

SMART GROWTH STATUS: X Project Not Loc	ation Specific Not Subject to PFA Law
Project Inside PFA	Grandfathered
Project Outside PFA	Exception Will Be Required
PFA Status Yet to Be Determined	Exception Granted

<u>STATUS:</u> The FY 2023 - 2028 CIP was adopted by the WMATA Board of Directors on March 24, 2022.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The total estimated cost allocation increased \$1.0M due to the addition of funding for FY 2028.

PROJECT: Matching Funding for "Passenger Rail Investment and Improvement Act"

DESCRIPTION: The Passenger Rail Investment and Improvement Act (PRIIA) of 2008 authorized federal funds to be appropriated over a ten year period for capital and preventative maintenance projects of the Washington Metropolitan Area Transit Authority (WMATA). While the 2008 program expired in FY 2018, the PRIIA program was reauthorized under the IIJA through FY 2028. The federal legislation requires matching funds from Maryland, Virginia, and the District of Columbia. This program provides Maryland's share of these matching federal funds.

PURPOSE & NEED SUMMARY STATEMENT: Funding is used for capital improvements for safety and state of good repair of the rail system, including replacement of older railcars and other investments called for in recommendations made by the National Transportation Safety Board (NTSB), Federal Transit Administration (FTA) and, Washington Metrorail Safety Commission (WMSC).

SMART GROWTH STATUS:	X Project Not Location	Specific Not Subject to PFA Law
Project Inside PFA		Grandfathered
Project Outside PFA —		Exception Will Be Required
PFA Status Yet to Be Det	ermined	Exception Granted

<u>STATUS:</u> FTA's dedicated funding allocation for WMATA in FY 2023 is \$150.0M. Maryland will provide \$50.0M due to the addition of funding for FY 2028.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The total estimated cost increased \$50.0M due to the addition of funding in FY 2028.

PROJECT: WMATA Debt Service

DESCRIPTION: Washington Metropolitan Area Transit Authority (WMATA) debt service represents the amount of bond debt taken on by WMATA under agreement with the State to cover the costs of debt repayment and associated interest and fees. WMATA refinanced their debt in order to consolidate multiple lines of debt and reduce fees.

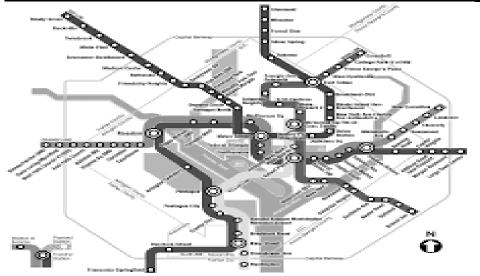

PURPOSE & NEED SUMMARY STATEMENT: These debt authorizations fund the purchase of long-term bonds issued by WMATA to fund its Capital Improvement Program (CIP).

<u>SM</u>	ART GROWTH STATUS: X Project Not Locat	i <u>on S</u>	Specific Not Subject to PFA Law
	Project Inside PFA		Grandfathered
	Project Outside PFA	-	Exception Will Be Required
	PFA Status Yet to Be Determined		Exception Granted

STATUS: Maryland's share of WMATA debt payment with programmed funding beginning in FY 2020 and continuing through FY 2023 - 2028. Effective FY 2022, debt service has been consolidated into one project in the MDOT Consolidated Transportation Program to reflect WMATA's refinance of debt into a consolidated debt service amount.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: This debt was originally approved for funding Maryland's share of WMATA's CIP when WMATA's full requested subsidy exceeded the State's cash resources. Due to refinancing, the debt has been consolidated into one project. The total estimated cost allocation increased by \$31.3M due to the addition of FY 2028 funding.

PROJECT: Governor's Dedicated Capital Funding

DESCRIPTION: In 2018, Maryland acted in conjunction with the Commonwealth of Virginia and the District of Columbia to create a bondable dedicated capital funding grant for use by the Washington Metropolitan Area Transit Authority (WMATA) for the purpose of generating financial assets to finance its Capital Improvement Program (CIP). Among the three funding jurisdictions, this dedicated capital funding grant totals \$500M annually. In accordance with Chapter 351 and 352 of the Acts of the Maryland General Assembly of 2018 (and as amended in 2020), \$167M will be appropriated to WMATA annually as Maryland's portion of this dedicated capital funding grant. This funding shall be provided as long as the District of Columbia and the Commonwealth of Virginia likewise contribute their share of the dedicated capital funding grant.

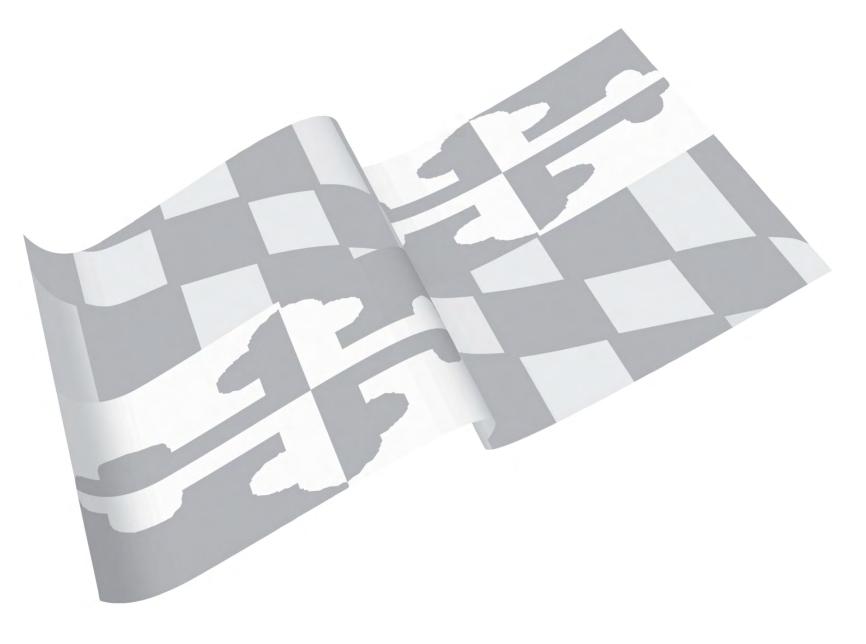

PURPOSE & NEED SUMMARY STATEMENT: The funding is mandated by state legislation. Maryland will provide \$167M annually to WMATA's CIP beginning in FY 2020.

MDOT SHA STATEWIDE

PROJECT: Coordinated Highway Action Response Team (CHART)

DESCRIPTION: Install advanced traffic management system and advanced traffic information system technologies on Interstate highways and arterials statewide. Technologies include cameras, traffic detectors, weather sensors, dynamic message signs, highway advisory radios, web sites and telecommunication networks. This program also includes the new National Electric Vehicle Infrastructure (NEVI) funding from the federal Infrastructure Investment and Jobs Act.

PURPOSE & NEED SUMMARY STATEMENT: Operating the existing system more efficiently through the application of Intelligent Transportation System technologies and interagency teamwork will reduce the need for costly expansion projects. The new NEVI funds will help build out the electric charging network for the growing numbers of electric vehicles in the State of Maryland.

	SMART GROWTH STATUS:	X Project Not Locatio	on Sp	ecific Not Subject to PFA Law
[Project Inside PFA	I		Grandfathered
	Project Outside PFA —	[Exception Will Be Required
	PFA Status Yet to Be Dete	ermined		Exception Granted

STATUS: This represents a summary of the Statewide CHART program. Individual projects are shown in the System Preservation Minor Projects Program pages in the county where the project is located.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The funding increase of \$66.4 million is primarily due to the inclusion of the National Electric Vehicle Infrastructure funds and the addition of FY 28.

EXPLANATION: The MDOT SHA is required to adhere to the Chesapeake Bay TMDL and local TMDLs as a result of its National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System Permit (MS4). This programmatic effort is needed to ensure permit compliance and supports the ultimate goal of improved water quality in Maryland streams, creeks, rivers, and the Chesapeake Bay.

PROJECT: Total Maximum Daily Load (TMDL)

DESCRIPTION: Plan, design, and construct storm water controls and alternative water quality improvement strategies in Maryland counties in order to meet the US Environmental Protection Agency (EPA) Chesapeake Bay Total Maximum Daily Load (TMDL) requirements. These strategies support the goal of protecting and restoring the Chesapeake Bay watershed. The implementation will follow the State of Maryland's commitment in its Watershed Implementation Plan.

PURPOSE & NEED SUMMARY STATEMENT: The MDOT SHA is required to adhere to the Chesapeake Bay TMDL and local TMDLs as a result of its National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System Permit (MS4). This programmatic effort is needed to ensure permit compliance and supports the ultimate goal of improved water quality in Maryland streams, creeks, rivers, and the Chesapeake Bay.

Interstate Development & Evaluation Program

STATE HIGHWAY ADMINISTRATION -- State Wide -- Line 5

PROJECT: I-270, Eisenhower Memorial Highway, and I-495, Capital Beltway - Phase 1

DESCRIPTION: Phase 1 includes the addition of managed lanes from the American Legion Bridge (ALB) to I-70, including replacement of the ALB and includes the NEPA study for Phase 1 North (I-370 to I-70). Phase 1 South (ALB to I-370) will leverage \$3.5 billion in construction funding, \$145 million in developer rights fees to offset MDOT costs, and \$5 million for Vision Zero efforts. In addition, the project will provide \$300 million to support transit services, \$50 million for community grants, \$25 million for emerging technologies over the operating term of the agreement (45 years). Phase 1 North, will also leverage a multi-billion dollar private construction investment as well as provide future financial benefits to the State of Maryland. Upon financial close and as part of the upfront payment for Phase 1 South and in consultation with Montgomery County, \$60 million will support the design of one of Montgomery County's transit priorities.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the I-495 & I-270 Public-Private Partnership (P3) Program is to provide long-term congestion relief on I-495 and I-270 by providing new options and opportunities for travelers while also being responsible to the community and the environment.

Interstate Development & Evaluation Program

PROJECT: I-270 and I-495, Capital Beltway - Full Delivery Stream Restoration

DESCRIPTION: Full-delivery stream and wetland mitigation services in multiple watersheds.

PURPOSE & NEED SUMMARY STATEMENT: The purpose is to develop and provide compensatory stream and wetland mitigation credits to support MDOT SHA projects in the watersheds. Projects may include those developed under the I-495 & I-270 P3 Program or other MDOT SHA projects requiring compensatory mitigation in those watersheds.

SMART GROWTH STATUS:	Project Not Location	Specific	X Not Subject to PFA Law				
Project Inside PFA Project Outside PFA PFA Status Yet to Be Dete	ermined	Grandfath Exception Exception	Will Be Req	uired			

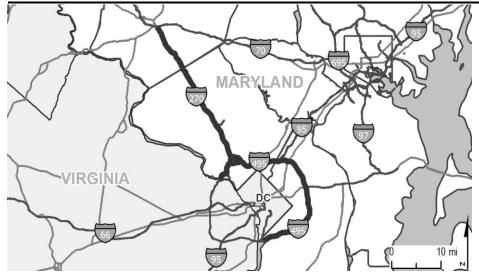

STATUS: Engineering underway.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The funding decrease of \$2.5 million is due to a reduction in the number of sites being advanced.

PROJECT: Highway User Revenue

DESCRIPTION: Highway User Revenue (HUR) are funds that are distributed from the Transportation Trust Fund to Baltimore City, local counties and municipalities for the benefit of local road systems. The calculation of local funding is based on a formula that incorporates roadway lane miles maintained by the jurisdiction and the number of registered vehicles in that jurisdiction.

PURPOSE & NEED SUMMARY STATEMENT: Chapter 330, Laws of Maryland 2018 increases the allocation of HUR to Baltimore City, the counties and the municipalities from 9.6% to 13.5% of the funds credited to the Gasoline and Motor Vehicle Revenue Account (GMVRA). This increased allocation is for five fiscal years (FY 2020 - FY 2024). Chapter 330 also changes the definition of HUR from funds in the GMVRA to capital grants appropriated to the local jurisdictions. These changes were effective July 1, 2019. This increases local transportation funding and is included in the six year CTP total funding level.

SMART GROWTH STATUS: X Project Not Location Specific Not Subject to PFA Law

Project Inside PFA	Grandfathered
Project Outside PFA	Exception Will Be Required
PFA Status Yet to Be Determined	Exception Granted

STATUS: Funding ongoing.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The increase in the project funding allocation is a result of Chapter 240 of 2022 to provide more funding to local jurisdictions. HUR funding amounts are based on estimates only and are based on MDOT's financial plan as of December 19, 2022.

EXPLANATION: This project will address safety concerns at the MD 295 interchange and improve mobility for BRAC expansion at Fort Meade.

PROJECT: MD 175, Annapolis Road

DESCRIPTION: Widen MD 175 from Sellner Road/Race Road to McCarron Court from two lanes to six lanes and reconfigure ramps at the MD 295 interchange to create signalized left turns at MD 175. Bicycle and pedestrian accommodations will be provided.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve safety and operations along MD 175 and ease growing congestion related to BRAC expansion at Fort Meade.

 SMART GROWTH STATUS:
 Project Not Location Specific
 Not Subject to PFA Law

 X
 Project Inside PFA
 Grandfathered

 Project Outside PFA
 Exception Will Be Required

 PFA Status Yet to Be Determined
 Exception Granted

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The cost increase of \$2.6 million is due to a bid reflecting overall higher construction costs, capital program costs, and the complex nature of the work.

PROJECT: MD 3, Robert Crain Highway

DESCRIPTION: This project will improve safety, accessibility, and operations along MD 3 northbound from St. Stephens Church Road to MD 175 and along MD 3 southbound from MD 32 Ramp to Waugh Chapel Road/Riedel Road by providing a third continuous lane in each direction, a shared-use path along MD 3 from MD 175 to Waugh Chapel Road/Riedel Road, and sidewalk and crosswalk improvements at the MD 3 and MD 175 intersection.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve safety for vulnerable users and improve operations along MD 3.

SMART GROWTH STATUS: **Project Not Location Specific** Not Subject to PFA Law Х Grandfathered Project Inside PFA Project Outside PFA -**Exception Will Be Required** PFA Status Yet to Be Determined **Exception Granted**

STATUS: Preliminary engineering underway. Anne Arundel County contributed \$160,000 towards the engineering.

PROJECT: I-95 and I-695, Baltimore Beltway

DESCRIPTION: Latex modified concrete bridge deck overlays on I-95 at the I-695 interchange (10 bridges).

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the project is to address concrete bridge decks before they become poor rated, and to upgrade existing bridge parapets to meet current safety criteria. Proactively addressing bridge deck condition will avoid the need for major rehabilitation or replacement of these bridges which are located on a heavily traveled section of the Interstate Highway system.

SMART GROWTH STATUS:	Project Not Location S	pecific X	Not Subject to PFA Law
Project Inside PFA Project Outside PFA — PFA Status Yet to Be Dete	ermined	Grandfathered Exception Will B Exception Grant	•

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The cost increase of \$13.0 million is due to a bid reflecting overall higher construction costs and the complex nature of the work.

EXPLANATION: This project will improve I-695 safety and traffic flow between I-70 and MD 43. This capacity improvement supports mobility and infrastructure stability for the adjacent communities and the greater Baltimore region.

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: Use of the shoulder and dynamic lane controls to create a new traffic lane during peak hours on the inner and outer loops of I-695 from I-70 to MD 43.

<u>PURPOSE & NEED SUMMARY STATEMENT:</u> This project will address congestion along I-695 during the peak periods.

Economic Opportunity & Reduce Congestion

EXPLANATION: This project improved safety and traffic flow on I-695 as this portion serves as a major connection between I-70 and I-95.

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: This project from US 40 to MD 144 improved mobility and safety on I-695 by widening the roadway to provide a fourth lane on the outer loop. This project also accommodates the ultimate configuration of this section of I-695, and includes replacing and extending the inner loop noise barrier from Shady Nook Avenue to US 40.

<u>PURPOSE & NEED SUMMARY STATEMENT:</u> This project provided additional capacity and improved safety and operations on this segment of I-695.

 SMART GROWTH STATUS:
 Project Not Location Specific
 Not Subject to PFA Law

 X
 Project Inside PFA
 Grandfathered

 Project Outside PFA
 Exception Will Be Required

 PFA Status Yet to Be Determined
 Exception Granted

STATUS: Open to service. The noise wall from south of Shadynook Avenue to US 40 is under construction.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The cost decrease of \$5.7 million is primarily due to a favorable bid on the noise wall contract.

EXPLANATION: The existing structures are nearing the end of their useful service life and are rated fair or poor.

PROJECT: MD 151/MD151B, Sparrows Point Boulevard

DESCRIPTION: Replacement of Bridge No. 0309900 on MD 151 and Bridge Nos. 0335000 and 0335100 on MD 151B.

PURPOSE & NEED SUMMARY STATEMENT: The existing bridges, built in the mid-1950s by Bethlehem Steel, were nearing the end of their useful service life. Bridge No. 0309900 is rated poor based on deck, superstructure, and substructure condition. The new bridges are designed to accommodate the heavier loads associated with the development of the adjacent Tradepoint Atlantic property.

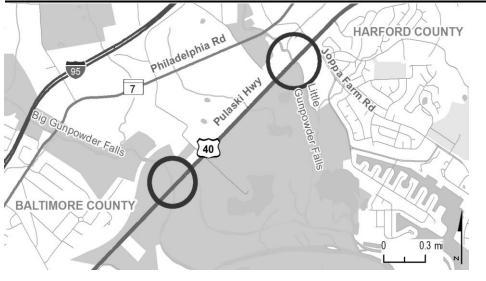

SMART GROWTH STATUS:	Project Not Locat	tion Specific	Not Subject to PFA Law

X Safe, Secure, and Resilient

- X Maintain & Modernize
- Economic Opportunity & Reduce Congestion

Better Transportation Choices & Connections

Quality & Efficiency Environmental Protection Fiscal Responsibility

EXPLANATION: The existing structures over Little Gunpowder Falls are rated poor. The structures over Big Gunpowder Falls are rated fair.

PROJECT: US 40, Pulaski Highway

DESCRIPTION: Replacement and widening of the deck and superstructure of Bridge Nos. 0303403 and 0303404 over Little Gunpowder Falls and Bridge Nos. 0303503 and 0303504 over Big Gunpowder Falls.

PURPOSE & NEED SUMMARY STATEMENT: The existing bridges, built in 1935, are nearing the end of their useful service life. The bridges over Little Gunpowder Falls are rated poor based on deck condition.

PROJECT: MD 26, Liberty Road

DESCRIPTION: A project to provide access, operational, safety and streetscape improvements along the MD 26 corridor between the Liberty Reservoir and MD 32 (2.6 miles). Bicycle and pedestrian facilities will be provided as appropriate.

PURPOSE & NEED SUMMARY STATEMENT: This project would improve operations and safety along this segment of MD 26.

SM	ART GROWTH STATUS:	Project Not Locati	ion S	Specific	Not Subject to PFA Law
	Project Inside PFA			Grandfathered	
	Project Outside PFA —			Exception Will	•
X	PFA Status Yet to Be Dete	ermined		Exception Gra	inted

STATUS: Project on hold. County and State split the cost of planning and the County contributed \$1.0 million towards the engineering cost. Engineering underway on a separate bridge project for the bridges over the Reservoir.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: None.

EXPLANATION: This project will improve safety for all roadway users by reconstructing the interchange and bridges. It

also supports ongoing and planned growth by increasing roadway and interchange capacity.

- X Safe, Secure, and Resilient
- X Maintain & Modernize
- **X** Economic Opportunity & Reduce Congestion

Better Transportation Choices & Connections

Quality & Efficiency Environmental Protection Fiscal Responsibility PROJECT: MD 85, Buckeystown Pike

DESCRIPTION: Widen MD 85 to a multilane divided highway from Crestwood Boulevard/Shockley Drive to Spectrum Drive (0.8 miles), includes MD 85 interchange reconstruction at I-270 and I-270 dual bridges replacement. This project is phase one of a three-phase project to widen and reconstruct MD 85 from south of English Muffin Way to north of Grove Road.

PURPOSE & NEED SUMMARY STATEMENT: This project will relieve congestion and provide capacity for planned commercial development in the MD 85 corridor. Additionally, the existing I-270 dual bridges, built in 1950, were rated poor.

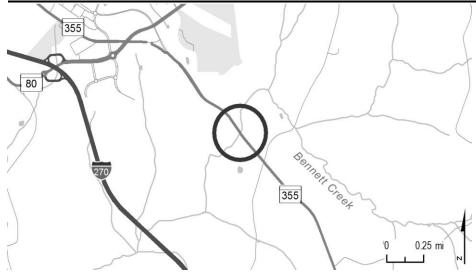

SMART GROWTH STATUS:	Project Not Locat	ion Specifi	•	Not Subject to PFA Law
X Project Inside PFA Project Outside PFA PFA Status Yet to Be Detter	ermined	Exce	dfathered ption Will I ption Grar	Be Required

STATUS: Open to Service. County funded \$1.5 million for partial engineering.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The cost increase of \$7.0 million is from additional construction costs resulting from delays associated with encountering rock and utilities.

EXPLANATION: This project will improve the road safety by remediating the slope supporting MD 24, repairing the pavement, improving roadway drainage, and addressing roadside safety concerns.

PROJECT: MD 24, Rocks Road

DESCRIPTION: MD 24 will be resurfaced and reconstructed including slope repair and guardrail replacement. This is the southern section (Section G) which extends from 900 feet south of Sharon Road to 1,700 feet north of Ferncliff Lane.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to improve the road safety by remediating the slope supporting MD 24, repairing the pavement, improving roadway drainage, and addressing roadside safety concerns.

PROJECT: US 1, Washington Boulevard

**DESCRIPTION:** Study to identify potential improvements in the US 1 corridor from the Prince George's County line to the Baltimore County line, including potential interchange improvements at MD 175 (11.0 miles).

**PURPOSE & NEED SUMMARY STATEMENT:** Improvements identified as a result of this study provide a blueprint for future State, local and developer projects, so the corridor can be developed in a manner consistent with the County's overall vision plan, and accommodate existing and future travel demand for all users.

STATUS: Feasibility study complete.

### <u>STATE GOALS :</u> Maryland Transportation Plan (MTP) Goals/Selection Criteria:

X Safe, Secure, and Resilient

- X Maintain & Modernize
- X Economic Opportunity & Reduce Congestion
- X Better Transportation Choices & Connections

EXPLANATION: This project will improve safety and operations for both through and local roadway users.

X

Quality & Efficiency

**Fiscal Responsibility** 

**Environmental Protection** 

PROJECT: MD 97, Georgia Avenue

**DESCRIPTION:** Construct a two lane highway from south of Brookeville, near Gold Mine Road, to north of Brookeville (0.7 miles). Shoulders will accommodate bicycles.

**<u>PURPOSE & NEED SUMMARY STATEMENT:</u>** This project will reduce traffic congestion in the Town of Brookeville and improve traffic operations and safety on existing MD 97.

 SMART GROWTH STATUS:
 Project Not Location Specific
 Not Subject to PFA Law

 Project Inside PFA
 Grandfathered

 X
 Project Outside PFA
 Exception Will Be Required

 PFA Status Yet to Be Determined
 X
 Exception Granted

STATUS: Construction underway. County contributed \$10.0 million towards engineering and right-of-way.

SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: The cost increase of \$2.9 million is due to the redesign of the bridge pile installation and compensable time settlement.

PROJECT: MD 117, Clopper Road/Diamond Avenue

DESCRIPTION: Construct intersection capacity improvements from I-270 to Metropolitan Grove Road (Phase 2) and Metropolitan Grove Road to west of Game Preserve Road (Phase 3) (2.0 miles). Sidewalks will be included where appropriate, including a shared-use path. Wide curb lanes will accommodate bicycles.

PURPOSE & NEED SUMMARY STATEMENT: MD 117 is a heavily traveled commuter route. Capacity improvements are needed to reduce congestion associated with planned and approved development in Germantown that will exceed the current capacity of the roadway.

- Better Transportation Choices & Connections

**EXPLANATION:** The existing structure is rated poor.

Quality & Efficiency Environmental Protection Fiscal Responsibility PROJECT: MD 277, Riverdale Road

DESCRIPTION: Replacement of Bridge No. 1609000 over Northeast Branch Anacostia River.

**PURPOSE & NEED SUMMARY STATEMENT:** The existing structure, built in 1931, is nearing the end of its useful service life and is rated poor based on deck and superstructure condition. The new bridge will provide shoulders and sidewalks to improve safety for vulnerable users.

PROJECT: MD 450, Annapolis Road

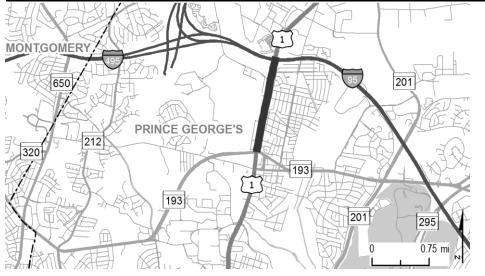

**DESCRIPTION:** Upgrade and widen existing MD 450 to a multilane divided highway from Stonybrook Drive to west of MD 3 (1.4 miles). Bicycle and pedestrian facilities will be included where appropriate.

**PURPOSE & NEED SUMMARY STATEMENT:** Additional capacity needed to accommodate increasing volumes of traffic. This improvement would provide better access to developing areas of central Prince George's County.

SMART GROWTH STATUS:	Project Not Location	Specific	Not Subject to PFA Law
X       Project Inside PFA         Project Outside PFA       PFA Status Yet to Be Dete	ermined	Grandfat Exceptior Exceptior	n Will Be Required

STATUS: Project on hold.

PROJECT: US 1, Baltimore Avenue

**DESCRIPTION:** Reconstruct US 1 from MD 193 to I-95 (Capital Beltway) (Segments 2 and 3) (1.1 miles). Bicycle and pedestrian facilities will be included.

**<u>PURPOSE & NEED SUMMARY STATEMENT:</u>** There are significant mobility needs along this segment of US 1. This project would improve traffic operations, pedestrian circulation, safety, and accommodate planned revitalization within College Park.

STATE HIGHWAY ADMINISTRATION

## SAINT MARY'S COUNTY

#### STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

Safe, Secure, and Resilient

Maintain & Modernize

- X Quality & Efficiency Environmental Protection Fiscal Responsibility
- Economic Opportunity & Reduce Congestion
   Better Transportation Choices & Connections

**EXPLANATION:** MD 5 is a critical link in Southern Maryland. Improving operations supports critical regional transportation needs.

#### PROJECT: MD 5, Point Lookout Road

**DESCRIPTION:** Reconstruct the MD 5 intersection at Abell Street/Moakley Street. This project will accommodate buggies, bicycles, and pedestrians, and includes adding a left turn lane at the entrance to MedStar St. Mary's Hospital.

**<u>PURPOSE & NEED SUMMARY STATEMENT:</u>** MD 5 intersection improvements will reduce congestion and provide capacity for planned development.

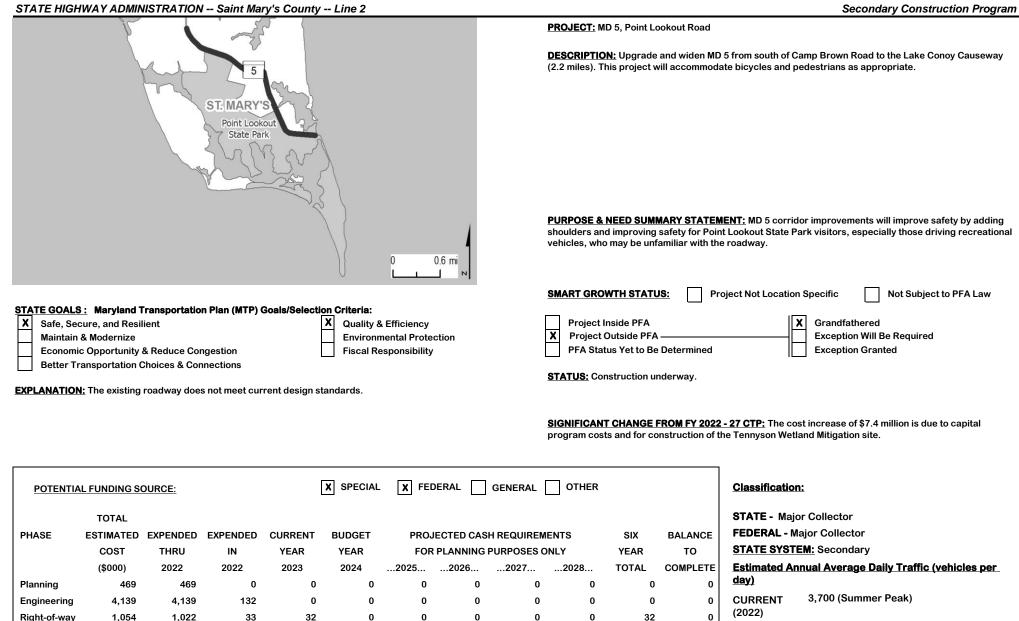

SMART GROWTH STATUS:	Project Not Location S	pecific Not Subject to	PFA Law
X       Project Inside PFA         Project Outside PFA         PFA Status Yet to Be Determined	ermined	Grandfathered Exception Will Be Required Exception Granted	

STATUS: Open to Service.

**SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP:** The cost increase of \$3.5 million is due to delays associated with drainage and utility conflicts, increased right of way needs, and capital program costs.

#### STATE HIGHWAY ADMINISTRATION -- Worcester County -- Line 1

PROJECT: MD 90, Ocean City Expressway

**DESCRIPTION:** Project to improve MD 90 operations from US 50 to MD 528, including Bridge No. 2302000 over the St. Martin River and Bridge No. 2302100 over Assawoman Bay.

**PURPOSE & NEED SUMMARY STATEMENT:** MD 90 is a high traffic volume arterial that serves as one of three routes into and out of Ocean City and, therefore, is a key evacuation route during storm events. This project would improve operations and increase network redundancy.

SMART GROWTH STATUS:	Project Not Locat	ion Spe	cific	Not Subject to PFA Law

PROJECT: I-95 John F. Kennedy Memorial Highway - Replace Deck of Bridge over Little Northeast Creek

includes upgrading existing shoulders to traffic bearing and miscellaneous structural repairs.

PURPOSE & NEED SUMMARY STATEMENT: The annual facility inspection and a follow-up study revealed the deck is deteriorated and nearing the end of its useful life.

#### STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- Maintain & Modernize
- X Economic Opportunity & Reduce Congestion
- **X** Better Transportation Choices & Connections

EXPLANATION: This project will support development by providing access to I-95 at Belvidere Road.

PROJECT: I-95 John F. Kennedy Memorial Highway - Construct Interchange at Belvidere Road

**DESCRIPTION:** The project will construct a new interchange between I-95 John F. Kennedy Memorial Highway and Belvidere Road, including constructing a new bridge over I-95.

**PURPOSE & NEED SUMMARY STATEMENT:** Increased development in the vicinity of Belvidere Road in Cecil County necessitates an interchange at I-95 (JFK Highway) and Belvidere Road. The project cost will be shared with Stewart Properties contributing \$8.8 million for right-of-way, Cecil County contributing \$1 million for construction, and MDTA providing \$46.7 million, with the balance of \$20 million from a Federal BUILD Grant. The BUILD Grant was awarded in December 2018. At the time of the grant application in 2018, the project was estimated at \$54 million; however, the cost shown on this page reflects the low bid received from the selected Design-Build team.

#### PROJECT: I-95 John F. Kennedy Memorial Highway - I-95 Southbound Hard Shoulder Running

**DESCRIPTION:** This project will provide part-time left shoulder use for approximately 5.4 miles on I-95 southbound from Maryland House to MD 24 in Harford County. It involves restriping I-95 and repaving the left shoulder lane to accommodate part-time left shoulder use. Installation of Intelligent Transportation System (ITS) devices to dynamically open and close the left shoulder lane based on traffic conditions is included.

**PURPOSE & NEED SUMMARY STATEMENT:** This project will increase capacity along southbound I-95 between Maryland House and MD 24 and reduce congestion during high traffic volumes.

PURPOSE & NEED SUMMARY STATEMENT: The annual facility inspection, as well as findings and

issues noted by MDTA Operations, have identified the need to perform a comprehensive substructure

PROJECT: I-95 Fort McHenry Tunnel - Rehabilitate Substructure and Superstructure of Various Bridges

**DESCRIPTION:** Repair substructure and superstructure of seventy-four bridges on I-95 in Baltimore City. The work includes structural weld repairs, structural steel repairs, roadway joint repairs, concrete

repairs, and application of protective coatings on seventy-four bridges. Originally only Phase 1 was

funded. Funding for Phase 2 is now added. Each phase includes thirty-seven bridges.

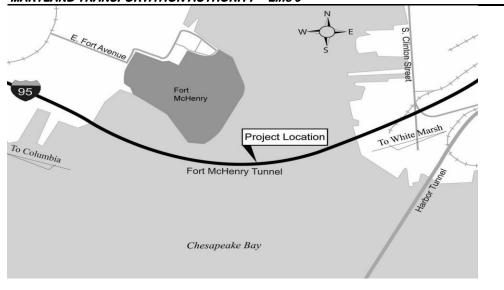

EXPLANATION: The bridges show signs of wear. Rehabilitation is needed to correct current wear and prevent further wear of the substructure and superstructure.

EXPLANATION: Changing to cashless tolling at the Fort McHenry Tunnel provides toll collection at highway speeds

#### STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

through the electronic methods of E-ZPass, Pay-By-Plate, and Video Tolling.

- Safe, Secure, and Resilient
- Maintain & Modernize
- X Economic Opportunity & Reduce Congestion
- X Better Transportation Choices & Connections

X Quality & Efficiency Environmental Protection

Fiscal Responsibility

 SMART GROWTH STATUS:
 Project Not Location Specific
 X
 Not Subject to PFA Law

 Project Inside PFA
 Grandfathered

 Project Outside PFA
 Exception Will Be Required

 PFA Status Yet to Be Determined
 Exception Granted

**PURPOSE & NEED SUMMARY STATEMENT:** Cashless tolling provides toll collection at highway speeds through the electronic methods of E-ZPass and video tolling. The advantages of converting to cashless tolling include reduced travel time; increased safety/reduced crashes; alignment with national practice; improved customer convenience; reduced emissions; and reduction in toll collection and maintenance costs. Cashless tolling has been used successfully at the MDTA's MD 200 Intercounty Connector (ICC)

**DESCRIPTION:** Remove the existing toll booths and plaza elements, construct gantry structures, and reconstruct the plaza roadway to convert to cashless tolling; construct underground infrastructure, utilities, stormwater management, signing and marking, and commercial inspection area.

PROJECT: I-95 Fort McHenry Tunnel - Convert to Cashless Tolling

and the I-95 Express Toll Lanes (ETL).

**STATUS:** Engineering is complete. Construction is underway.

PROJECT: MD 695 Francis Scott Key Bridge - Renovate Campus Buildings

**DESCRIPTION:** Replace heating, ventilation, and air conditioning (HVAC) units at the Francis Scott Key Bridge Campus Engineering/Construction (OEC) and Maintenance Buildings and replace roof on OEC Building.

PURPOSE & NEED SUMMARY STATEMENT: The heating, ventilation, and air conditioning units at the Key Bridge Campus Engineering/Construction (OEC) and Administration Maintenance Buildings are reaching the end of their useful life and need to be replaced. Inspection reports indicated that the roof on the Engineering Building is deteriorated and in need of replacement.

buildings.

#### STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safe, Secure, and Resilient
- X Maintain & Modernize
- Economic Opportunity & Reduce Congestion
- Better Transportation Choices & Connections

**EXPLANATION:** The rehabilitation and repairs of the roadway and bridge abutments will provide a safer and smoother

**DESCRIPTION:** This project will rehabilitate the subgrade and pavement systems of the MD 695 roadway in the Bear Creek vicinity.

**PURPOSE & NEED SUMMARY STATEMENT:** The purpose of the project is to repair and rehabilitate the subgrade and pavement of MD 695 near Bear Creek and perform backwall repairs of adjacent bridges. The need for repairs and rehabilitation are based on various studies that revealed settlement and deterioration in this area. The expected increase in truck volumes due to the ongoing development and expansion of Tradepoint Atlantic confirms the need for the rehabilitation at this time.

SMART GROWTH STATUS: Project Not Locat	tion Specific X Not Subject to PFA Law

ride.

**DESCRIPTION:** Replace the elevated portion of the I-895 roadway from the north portal entrance to Holabird Avenue. The rehabilitation of the tunnel deck, liner, and standpipe and sump pump systems have been added to this project. Note: This project was previously named "Replace Canton Viaduct."

PURPOSE & NEED SUMMARY STATEMENT: The bridge deck on this structure has not been renovated since 1985. Testing has indicated that portions of the bridge are nearing the end of their life cycle. The bridge deck, substructure, and superstructure are experiencing various degrees of wear. Additional work within the tunnel has been added to the project.

PROJECT: US 50/301 Bay Bridge - Crossover Automated Lane Closure System

**DESCRIPTION:** The automated lane closure system includes enhanced lane use signals, gantries, pavement markings, dynamic in-pavement lights, dynamic message signs (DMS), and cameras to deploy lane closure and two-way traffic automatically.

**PURPOSE & NEED SUMMARY STATEMENT:** The installation of an automated lane closure system will reduce the response time and improve safety for implementing lane closure and two-way traffic operations on the bridge for incidents and construction work. The original span opened in July 1952 and provides a two-lane roadway for eastbound traffic. The parallel structure opened in June 1973 and has three lanes for westbound travelers. During periods of heavy eastbound traffic, one lane of the westbound bridge is reversed to carry eastbound travelers ("two-way" traffic operations).

**PURPOSE & NEED SUMMARY STATEMENT:** Cashless tolling provides toll collection at highway speeds through the electronic methods of E-ZPass and video tolling. The advantages of converting to cashless tolling include reduced travel time; increased safety/reduced crashes; alignment with national practice; improved customer convenience; reduced emissions; and reduction in toll collection and maintenance costs. Cashless tolling has been used successfully at the MDTA's MD 200 Intercounty Connector (ICC)

provide protection for the equipment used by operations staff.

STATUS: Engineering is underway. Construction will begin in FY 2023.

<b>EXPLANATION:</b> The Project Management Office will provide a permanent centralized office building for the
construction management personnel and field staff necessary for the year round, daytime, and nighttime hours of
contract work. The Maintenance Equipment Storage Building will provide protection for the equipment used by the
Operations staff.

# SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: Cost

increased by \$1.2 million for additional scope, including BGE utility work.

PROJECT: US 50/301 Bay Bridge - Project Management Office and Maintenance Equipment Storage Building

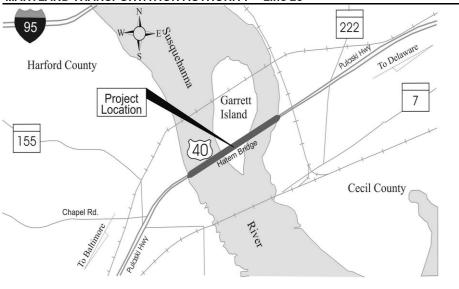

**DESCRIPTION:** This project includes the construction of a new Project Management Office and a new Maintenance Equipment Storage Building at the Bay Bridge Campus. Work also includes site utility upgrades including water main, power, fiber, and street lighting to support the new and existing buildings.

PURPOSE & NEED SUMMARY STATEMENT: The Bay Bridge crossing and approach roadways require

continuous construction and maintenance activity to maintain the dual bridges in the highest serviceable

condition for safe passage of MDTA customers. The Project Management Office will provide work areas

for the inspection and contract administration staff. The Maintenance Equipment Storage Building will

#### STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

PROJECT: Authority-Wide - Replace Electronic Toll Collection and Operating System - 3rd Generation

**DESCRIPTION:** The project will design and build a replacement toll system and services to support it; and design and build a new Customer Service Center (CSC) and provide the services to operate it. These projects include account and transaction processing systems, CSC phone systems, IVR, MVA lookups, reporting, operations, web site, mobile app, image review services, reciprocity services, enforcement services, and maintenance services for six to up to ten years.

**PURPOSE & NEED SUMMARY STATEMENT:** This project will update the Electronic Toll Collection hardware and Operating System software and increase the capacity for handling video tolling and citations.

#### SIGNIFICANT CHANGE FROM FY 2022 - 27 CTP: None.

PROJECT: US 50/301 Bay Bridge - Tier 2 NEPA Study

**DESCRIPTION:** The Bay Crossing Study Tier 2 NEPA is the second stage of the two-tiered federally required National Environmental Policy Act (NEPA) process. The Bay Crossing Study Tier 1 NEPA was approved by FHWA in April 2022, identifying Corridor 7, the corridor containing the existing Bay Bridge, as the Selected Corridor Alternative. Tier 2 studies specific alignment, crossing type and potential number of lanes needed within the 2-mile wide, 22-mile long corridor from Severn River Bridge to the US 50/301 split. Tier 2 involves significant public engagement and participation. Project delivery method options will be determined.

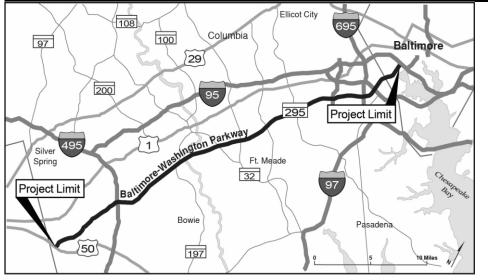

**PURPOSE & NEED SUMMARY STATEMENT:** The Bay Crossing Study Tier 2 NEPA is the next step in the strategy to address congestion and future traffic demand crossing the Chesapeake Bay. It must be completed before final design and construction could potentially begin if a build alignment alternative is selected.

PROJECT: Traffic Relief Plan: MD 295

**DESCRIPTION:** Planning study in support of the Traffic Relief Plan, which will implement Express Toll Lanes (ETL) along MD 295. Requires transfer of the Baltimore-Washington Parkway from the National Park Service to MDTA. MDTA will own, operate, and maintain the entire roadway from I-95 to US 50 (approximately 29.5 miles). This study is financed in the MDTA operating budget.

**PURPOSE & NEED SUMMARY STATEMENT:** This study is in support of the Traffic Relief Plan, which will implement Express Toll Lanes (ETL) along MD 295. MD 295 carries more than 120,000 people daily and is congested 7 hours per day.

# **APPENDIX A – CHAPTER 30 SCORES**

## Appendix A: Chapter 30 Project Scores FINAL FY 2023-28 CTP

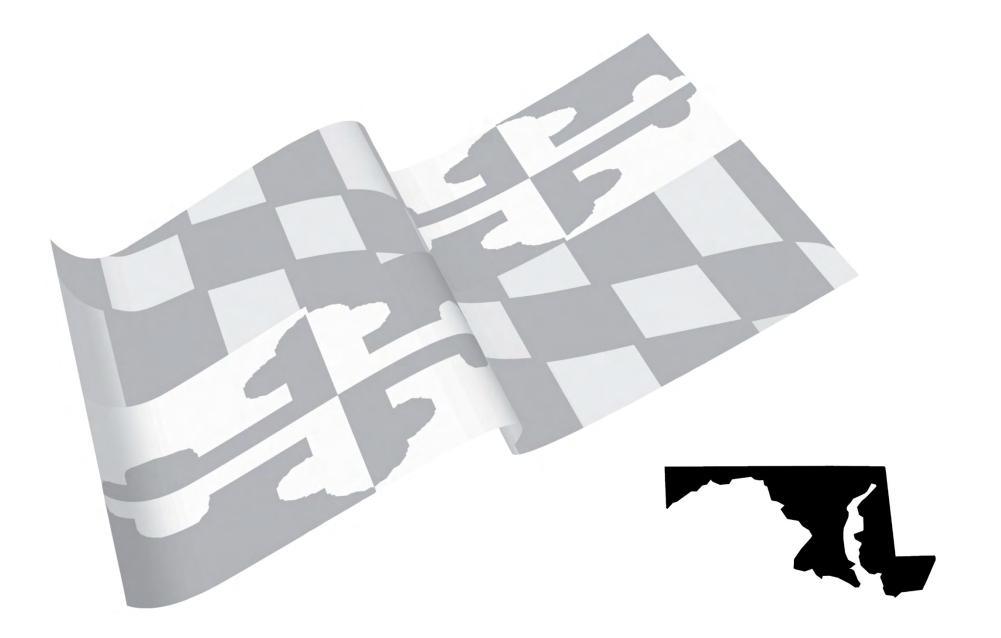

The Maryland Department of Transportation (MDOT) evaluates major transportation projects through a project-based scoring model that is required by the Maryland Open Transportation Investment Decision Act – Application and Evaluation (Chapter 30). Major transportation projects are defined as highway and transit capacity projects over \$5 million. The major transportation projects evaluated through the scoring model in this year's CTP and their corresponding scores are shown below. Please note that the maximum allowable score for any project was determined to be 2000. The project prioritization model required under Chapter 30 does not select major transportation projects for funding, but it is one of many tools MDOT utilizes in its project evaluation and selection process.

Project Name	<u>Sponsor</u>	Score	<u>Rank</u>
I-270 and I-495 (I-70/US 40 to MD 355 to Virginia state line)	MDOT SHA	2000.00	1
MD 3 (MD 32 to St. Stephens Church Road)	Anne Arundel County	1356.08	2
Parole Transportation Center	Anne Arundel County	586.12	3
MD 170 (MD 100 to south of MD 174)	Anne Arundel County	214.48	4
MD 214 (MD 468 to Oakford Avenue)	Anne Arundel County	99.79	5
US 40 & Otsego Street/Ohio Street Intersection	Harford County	77.23	6
Odenton MARC Garage	Anne Arundel County	71.16	7
MD 27 (Leishear Road to Penn Shop Road)	Carroll County	63.96	8
MD 175 (US 1 to Dorsey Run Road)	Howard County	54.24	9
MD 194 (MD 26 to Devilbiss Bridge Road)	Frederick County	41.78	10
US 50/US 301 (MD 2/MD 450 to Chesapeake Bay Bridge)	Anne Arundel County	39.25	11
US 220 and MD 53 at Cresaptown	MDOT SHA	35.85	12

MD 223 (MD 4 to Steed Road)	Prince George's County	4.07	36
South Side Transit (Branch Avenue Metro to King Street Metro)	Prince George's County	3.52	37
MD 4 Governor Thomas Johnson Bridge (MD 2 to MD 235)	St. Mary's County	3.50	38
US 29 Bus Rapid Transit (US 40 to Silver Spring Metro)	Howard County	3.45	39
MD 4 (I-95/I-495 to MD 223)	Prince George's County	3.29	40
Southern Maryland Rapid Transit (Branch Avenue Metro to Demarr Road)	Charles & Prince George's Counties	2.98	41
MD 213 Chestertown Bypass (MD 297 to south of MD 544)	Kent County	2.19	42

Note: TSMO System 1 (Howard County) could not be scored for the FY2023-28 CTP because it does not yet have a preliminary feasibility study. The project will be scored prior to the expenditure of Construction Program funds.

# **GLOSSARY**

CC	ONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY
State Report on Transportation (SRT)	Consists of the Maryland Transportation Plan (MTP), the Consolidated Transportation Program (CTP), and the Annual Attainment Report (AR)
Maryland Transportation Plan (MTP)	The MTP identifies the focus of the Department and its modal administration that defines program objectives and serves to guide program development. It includes a 20-year forecast of needs based on anticipated resources available to the Department.
CHART	Coordinated Highways Action Response Team – Maryland's program to employ Intelligent Vehicle Highway System (IVHS) technology to better manage highway capacity
Consolidated Transportation Program (CTP)	The CTP designates capital projects that will be undertaken during the six-year period, and a summary of operating programs. The CTP also identifies projects added to the Construction Program and Development and Evaluation Program, delayed in schedule, deleted from the Development and Evaluation Program and finally completions.
Construction Program	List within the CTP of major projects (descriptions, cost estimates and schedules) under construction and those anticipated to begin construction within the six-year period. An estimate of annual expenditure levels for system preservation projects is also included.
Development & Evaluation Program (D&E)	List within the CTP of projects for planning studies, preparation of environmental studies and preliminary design. These projects are candidates for future addition to the Construction Program.
Balance to Complete	Amount of funds required after the six-year program period of the CTP to complete a project
Major Capital Project	New, expanded or significantly improved facility or service that generally involves planning, environmental studies, design, right-of-way acquisition, construction or purchase of essential equipment related to the facility or service
System Preservation Project	Project of limited scope for the preservation or rehabilitation of an existing facility or service which generally does not have a significant impact on the human or natural environment

# CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)

Reconstruction	Complete rebuilding of a facility/structure or system which is beyond the point where it may be economically repaired or renovated
Rehabilitation	Restoration and/or modernization of a facility/structure or system in order that it may be effectively used for its designated functional purpose or comply with current requirements
Highway System Preservation Program	Program of projects oriented toward preserving the existing highway system, including resurfacing, safety improvements, bridge rehabilitation, landscaping, traffic control and ridesharing lots and other miscellaneous improvements
Reimbursables	State funds advanced for work performed for local jurisdictions, services performed for other agencies, recovery of damages to Department property, salaries and expenses of the Interstate Division for Baltimore City, fees for issuing commercial entrance permits, and other activities performed by the Department and are paid by various sources
Capital Contributions Agreement	Agreement entered into by 8 local jurisdictions in Maryland, Virginia and the District of Columbia that provides a capital funding schedule for Metrorail construction in the Washington area
(PP)	Project Planning: The phase in the planning process where detailed studies and analysis are conducted toestablish the scope and location of proposed transportation facilities
(PE)	Preliminary Engineering: The phase in project development when surveys, soil conditions, elevations, right- of-way plats, and detailed design plans and specifications are prepared
(RW)	Right-of-Way: Acquisition of land for transportation projects
(CO)	Construction
(IN)	Inflated Cost
